Whole Village Presents:

Biochar: Climate Change Reversal

With Guest Speakers:

Albert Bates is a retired public interest attorney and author of more than a dozen books on energy, environment and history, including two on Biochar. Albert has been director of the Global Village Institute for Appropriate Technology since 1984.

Kathleen Draper is a board member of the International Biochar Initiative and the US Director of the Ithaka Institute for Carbon Intelligence. Kathleen co-authored "Burn: Using Fire to Cool the Earth" with Abert Bates.
