UMA User Experience

progress and plans

Kantara UMA WG

UX State of Art

- Simplified CV Scenario

- Setting Policy and terms

- Real-time consent gathered out-of-band

- Access Analytics and dashboard

http://kantarainitiative.org/confluence/display/uma/User+Experience
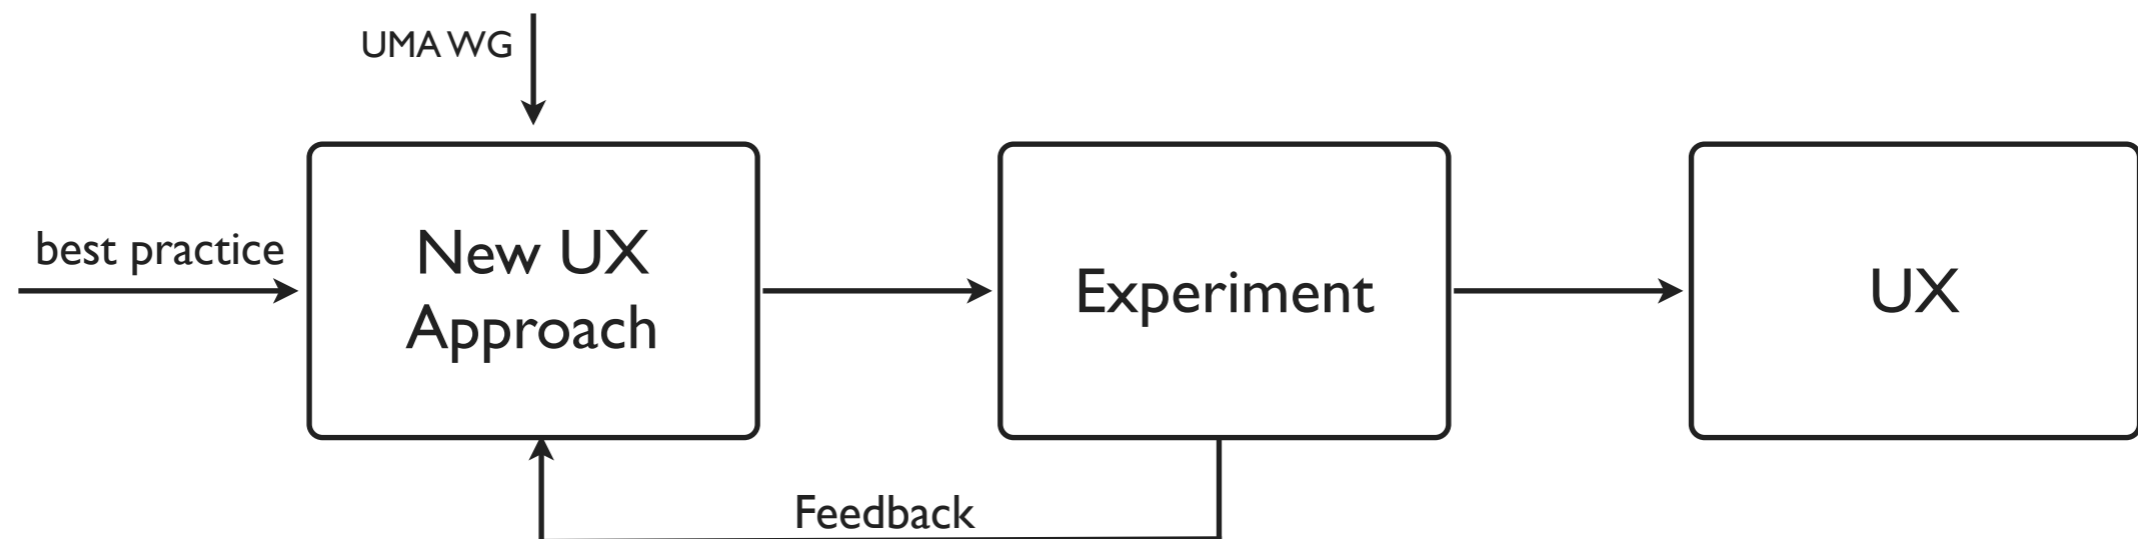

UMA Dashboard/Analytics

New

- Data Sensitivity

- Privacy Exposure

- Analytics for Protected Resources

- Analytics for Requesting Parties

- Alerts and Notification

- Information World view

In progress

- Define a new UX approach

- Referring to UX best practices (i.e. Activity-centered design)

- Collect feedback from NCL and Bath University on AM UX experiments

UMA WG

best practice → New UX Approach → Experiment → UX

Feedback

plans

- Improve the AM Policy definition UX

- Identify an use-case for the new UMA UX

- Propose a new wireframe, targeted for the UMA public workshop at EIC2010.
