

North American Congress for Conservation Biology

NACCB 2018

Toronto, Ontario, CA

July 21-26, 2018

Conservation Science, Policy, and Practice: **Connecting the Urban to the Wild**

Call for Proposals opens Aug 31, 2017

Stay tuned next month to sbnorthamerica.org/naccb2018 for criteria and instructions to submit your workshop, short course, symposium, or interactive session proposal. We welcome session proposals of all types, including and not limited to topics in indigenous-led conservation, education, policy, and diversity in conservation leadership. The Scientific Program will take place July 23 – 25, 2018. Workshops & Short Courses will take place July 21, 22, and 26, 2018.

New Session for NACCB

We look forward to hosting a new **Interactive Session** type during the Scientific Program of NACCB, opening the conference to a variety of unique structures, and encouraging enhanced dialogue, community building, and solutions-driven conservation science and practice.

Fieldtrips

We have a fantastic lineup field trips, including visits to Rouge National Urban Park, and Niagra Falls, as well as a joint field trip to the famed Koffler Scientific Reserve, with attendees of the Canadian Society for Ecology & Evolution Meeting. Field trips will take place July 21, 22, and 26, 2018.
