

# Internship opportunities on an international research programme studying wildlife behaviour and ecology in Namibia

## The TSAOBIS BABOON PROJECT Internship Programme 2023

Come and learn new skills and gain experience in animal behaviour, ecology, and conservation, working with an international research team!

We study baboons and the desert environment on the Swakop River. We are seeking four Namibian interns to join us for 3-6 months between May and October in 2023.

We will provide food and accommodation, a monthly allowance of N\$2,000, and all necessary field equipment. For more information and to apply online, visit:

[www.zsl.org/science/research/baboon](http://www.zsl.org/science/research/baboon)

**The deadline for applications is 10 am Friday 6 January 2023**

If you have any questions, please contact one of the Project Directors: [Alecia Carter](#), [Guy Cowlshaw](#), or [Elise Huchard](#).

The Tsaobis Baboon Project is affiliated with the Gobabeb Namib Research Institute. It is based at the Institute of Zoology, the research arm of the Zoological Society of London (ZSL), UK.
