ZOOLOGY

# Call for Volunteer Field Assistants

## Tsaobis Baboon Project 2022

The Tsaobis Baboon Project is based at the Institute of Zoology (ZSL) and affiliated with the Gobabeb Namib Research Institute. It has been studying the behavioural ecology of desert baboons in central Namibia since 2000.

We are looking to recruit three international volunteers and three Namibian volunteers for periods of 3-6 months between May–Oct 2022. Fieldwork involves data collection on foot from two study troops. More information about the project, arrangements for volunteers, the application procedure, and interview dates can be found on the Project's webpage:

[www.zsl.org/science/research/baboon](http://www.zsl.org/science/research/baboon)

**The deadline for applications is 10am Monday 10 January 2022**
