January 22, 2021

Dear Parents/Guardians,

Tentative plans for our students to return to the NBMS campus under a **Hybrid Learning** model **have been delayed one week**. The 14-day case count for Coos county is lower this week, but we are still in the high risk category as identified by the Oregon Department of Education. While this guidance is "advisory," it is not recommended that we expand at this time. As a result, we are pushing the start date for 6<sup>th</sup> grade students out one week from our previous "tentative" date of February 1<sup>st</sup>. We are now planning to bring **6th grade students** back to school on **Monday, February 8th** with the **7th and 8th grade students** to follow on **Monday, February 22nd**.

Due to this change in the scheduled NBMS Hybrid start date, **all students will now have school on January 28<sup>th</sup> and 29<sup>th</sup>** as we continue the current distance learning schedule. In preparation for implementing the **Hybrid Learning** schedule, the tentative plan is for there to be **NO SCHOOL** for NBMS students on **February 4th and 5th**. **This information will be updated weekly.**

Thank you for your understanding as we develop our plans to meet all the Covid-19 requirements of the Oregon Department of Education. If you would like to request information about your child's assigned AM/PM cohort or just have questions about the Hybrid plan, please call the school at 541-756-8341. We look forward to having your student back on campus!

Sincerely,

Jon Davison  
Principal
