TIPS AND TRICKS

CANVAS

If you would like to take attendance in Canvas, you can use the Roll Call tool. Find more information at the Attendance Tool in Canvas blog post.

ACCESSIBILITY

As a starting point for improving the accessibility of your video content, automatic speech recognition captions can be used on a variety of video platforms. Visit Use Automatic Captions Across Different Video Platforms for more information.

KALTURA

Embed a video from the Media Gallery as part of the prompt for a Discussion board. This can be done while drafting the discussion instructions in the Rich Content Editor and can serve as an engaging opener for a class discussion. For instructions, please visit Add a Video to the Rich Content Editor.

ZOOM

Update your Zoom! If you need to record your class so that a student can watch it later, please see our documentation Recording a Class with Zoom for viewing later.

SUPPORT

- 24/7 for Canvas using Canvas Support (last button on Global Navigation Bar in Canvas)

- See the Training Center for Tech Tools workshops, coffee hours, or to sign up for one-on-one training

- Email teaching@rice.edu for general help
