

Craft: Washcloth Puppies

Materials (for each puppy)

One 12 inch-square washcloth or towel in color of your choice
2 Rubber bands
2 Googly eyes
1 long brown felt earpiece
1 red felt piece for tongue
Craft glue

Instructions

Step 1. Roll the washcloth inward from each end until they meet in the middle.

Step 2. Fold in half and tie a third off the bottom with a rubber band.

Step 3. To make the snout/nose, gather a bunch from the part that is not tied down and make a snout, then close off with a rubber band. Watching the video will help.

Step 4. Glue the eyes.

Step 5. The washcloth head has an opening running through it. Push the earpiece (long brown felt piece) through the opening and out the other side.

Step 6. Glue the felt nose (small brown felt piece). Last, fold and glue the tongue (red felt piece) in the gap under the nose

Optional: With any scrap felt, you can fashion a little scarf for your puppy.
