

terra CSA 'talk & taste'

The future of Mediterranean agriculture

Terra CSA meet the producer event
Loaf Community Bakery, Stinchley, Birmingham
Saturday, 21st June, 2014 5pm (free)

Terra CSA is a multi-farm community supported agriculture project using regenerative agriculture to build soil and deliver olive oil, almonds and wine direct to cropshare members in the UK.

Discover what's wrong with conventional farming in Spain and how we are working with Permaculture, Holistic Management and Regenerative Agriculture to create truly sustainable, 'beyond organic' farms and produce.

Taste our olive oil, almonds and red wine and find out how you can become a cropsharer and join the most exciting movement in agriculture!
