Aim

Since the beginning of my studies I work to improve the food system in my own small way. In the future, I would work a part-time on agro-ecological farms and the remaining time I would work in the relationship between farms and the community. I am confident that we need to work on this to build the food sovereignty.

Experience

Jeunes et Nature ASBL*¹

2010-2016

Young naturalist association where people between 17 and 30 years old organize the movement. We organize camps and topic activities during the scholar year. I was leader, effective member for AG*² and administrator for the asbl.

Oxfam magasin du monde ASBL

2009-2016

The most important social Fairtrade movement in Belgium. I'm a voluntary and a leader in local group. It's an association where I learn different subject during training session, I do some action about campaign, student job's, to develop social network.

Student group in action

2011- 2016

For the last 6 years, I live in 3 tips of co-rending houses where I develop different project with respect to food sovereignty, voluntary simplicity and vegetable and organic farm.
