Grow Leader Course

Targeted at all levels to give the public and practitioners practical experience in community engagement, with techniques for project management and personal development. All based around small scale community market gardening for productive agri-ecological systems where people and wildlife can thrive. **It will be delivered in 12 sessions, over 6 months, every other Thursday from 21st January 2016.**

The aim is to support you to become an effective facilitator in:

- Organic horticulture
- Wildlife gardening
- Ecological land management
- Therapeutic horticulture
- Holistic people care

Application deadline: 15 January 2016

Course cost:

- Business rates - £552
- Community projects/individuals - £450
- Subsidised (limited) - £300
