

# Imaging AI in Practice

## CALL FOR PARTICIPATION

### Make the Vision Real

Demonstrate your AI-driven tools for medical imaging at RSNA 2022 with real-world workflows and standards-based interoperability. This demo is open to both tools with AI integrated, as well as tools that help with AI integrations

- Accelerate the adoption and integration of AI in radiology
- Achieve interoperability with vendor partners using health IT standards (IHE, DICOMweb, HL7 FHIR, FHIRCast, and more)
- Incorporate structured, coded data, including ACR-RSNA Common Data Elements (CDEs)

### Expression of Interest Form:

Due April 25, 2022

<https://bit.ly/3DyO9Bf>

### Benefits to Vendors

- ✓ Demonstrate integration of solutions in a realistic setting
- ✓ Work with vendor partners to achieve interoperability
- ✓ Advance standards adoption
- ✓ Show the utility of your AI and ML products in radiology
- ✓ Reach customers through an RSNA promoted activity
