

Forests provide Ohio with ecological, social, and economic benefits

Ohio's forest industry brings in \$15.1 billion to Ohio's economy.

Rich Forest Diversity
Did you know?... 119,000 Ohioans are employed in the forest industry

Meet state and national education standards, all while conducting fun, hands-on environmental based activities for youth of all ages!

Discover why "We All Need Trees", and how various forest organisms rely on "Trees as Habitats".

Join us for a professional, networking opportunity to gain useful environmental education curricula and resources that are easy to integrate into your classroom setting!
