Minute A

People have been getting the finished version of the WUaS Press's 3rd book in the mail. The WUaS Press does not yet publish in multiple languages with machine translation, neither STEM nor humanities' books, but is seeking to develop this in each of all 7,097 living languages.

- <https://amazon.com/author/scottmacleodworlduniversity>

- <http://worlduniversityandschool.org/AcademicPress.html>

Minute

WUaS Press is seeking to open its online bookstore / computer store / robotics' store as WUaS develops its web sites soon. In the process, the WUaS Bookstore will explore how best to carry and sell other publishers books, for example, Larry Viehland's new "Gaseous Ion Mobility, Diffusion, and Reaction" (Springer 2018) -

<https://www.springer.com/us/book/9783030044930>

Minute

In the process of opening the online WUaS Press bookstore, WUaS will seek to explore ways to sell books through PDFs, conceptually.

Minute

In the process of developing the new WUaS Press web site, WUaS will seek to explore developing out of TensorFlow/Cloud and into a stock price, and listing the WUaS Press on each of all ~200 countries' stock exchanges?

(WUaS would seek to teach how this can be done too in WUaS Law Schools in all ~200 countries' languages too).

Minute

The WUaS Press seeks to re-conceive the book, emerging conceptually out of something like Google Street View, with text in the side bar, and printable on paper too:

Leaf: Re-conceiving the book - Printable on paper out of a #RealisticVirtualEarth (conceptually like Google Street View with time slider, Maps, Earth ...), text in a sidebar, and for ethno-wiki-virtual-world-graphy (thinking #RealisticVirtualHarbin > <https://scott-macleod.blogspot.com/2018/12/leaf-re-conceiving-book-printable-on.html> ... ~

News and Agenda

World University and School

1 Thank you to contributors, editors and donors in 2018!

2 Collaboration?

WUaS is seeking to collaborate with Stanford for coding, and with its Law and Medical Schools (in ~200 countries' official languages), since MIT doesn't have these re CC-4 MIT OCW.

WUaS is seeking to collaborate with MIT further as well - especially in building out majors and departments, in addition to hiring graduate students seeking to become online faculty.

WUaS is seeking to collaborate with University of California Admissions (both UC Berkeley and all 10 UCs) for students applicants, as well. WUaS is seeking to matriculate ~500 online undergraduate students in the autumn of 2019 who are interested in and seeking to complete free-to-students' Bachelor degrees that are best STEM CC-4 OpenCourseWare centric.

3 WUaS is awaiting a pending National Science Foundation pending grant application.

4 Seeking too to get started with accreditation in mid-February with CA BPPE. Would be great to know what they might be interested in re <https://twitter.com/CaBPPE/status/1024666814989488134>.

A) Law Degrees - WUaS seeks to head in this direction online, and in ~200 countries' official languages:

“Columbia Law School is recognized worldwide. I learned why in my first few weeks here: outstanding faculty, exceptional facilities, hundreds of courses, and a location in New York City!” — Andres Del Real '17 LL.M.

Am curious in what ways this course -

<http://worlduniversityandschool.org/InfoTechNetworkSocGlobalUniv.html> - could fit into a possible Society, Technology and Science major at WUaS and re <https://ocw.mit.edu/courses/science-technology-and-society/> ...

Developing a 2 book MIT OCW independent study approach (e.g. -

<https://ocw.mit.edu/courses/engineering-systems-division/esd-57-technology-based-business-transformation-fall-2007/>) to a current course could easily apply to my "Naked Harbin Ethnography" and Boellstorff's "Coming of Age in Second Life" @ WUaS applied too to a realistic virtual earth and a realistic virtual Harbin for STEM ethno-wiki-virtual-world-graphy.

6 Wikidata and Information Technology

A)

Glad Lydia Pintscher, Wikidata Product Manager wrote recently, re Wikidata and Google Cloud:

Lydia Pintscher @nightrose

Jan 3

Replying to @Tagishsimon @Wikimedia

"Yeah ./ I'll push more to see what can be done now. Another option I'm working on is making it easier to run your own query service on cloud services like Google Cloud or Amazon Web Services where you are not limited by the restrictions we have to put in place for the public one."

<https://twitter.com/nightrose/status/1080811573055246337>

B)

RE an UNIVERSAL BASIC INCOME and WUaS: Glad too that Pavel Richter @pavel , former Executive Director, Wikimedia Deutschland e.V... wrote:

"wenn man das Bedingungslose Grundeinkommen irgendwie als sowas wie Rundfunkgebühren, nur nicht nur für Journalisten, sondern für alle, erklären würde.... Man hätte auf jeden Fall zwei Trends mit einem Tweet abgedeckt und bekäme Retweets ohne Ende #BGE #GEZ #zwangsbeitrag #Nahles"

(translation:

if the unconditional basic income somehow as something like license fees, only for journalists, but for all, would explain One would definitely have covered two trends with a tweet and get retweets without)

<https://twitter.com/pavel/status/1079660979405893632>

C)

Glad too Wikidata's Markus Krötzsch recently wrote in the Wikidata email list, re WUaS Ph.D.s too:

[Wikidata] Fully funded PhD positions at TU Dresden

"We are currently looking to fill two 100%-funded researcher positions in the field of knowledge representation, AI, and data analysis. This might be of interest to some of you, or to someone you know:"

<https://iccl.inf.tu-dresden.de/web/Jobs/en>

D)

WUaS is still seeking to develop the WUaS SUBJECT TEMPLATE - https://wiki.worlduniversityandschool.org/wiki/SUBJECT_TEMPLATE - for usability combing WUaS Miraheze MediaWiki with Wikidata / Wikibase and in Wikipedia's ~300 languages. How best to communicate about this further?

7 WUaS Outreach - students' NtFs (Nontheist Friends / Quakers)

Outreach - and emerging from the Google Platform / Tensor Flow?

Finding matriculating students - in possibly communicating with the University of California admissions (or e.g. Ph.D students from Vassar / MIT communities, per your brother too), and coders re said Google Sites' platform with CA BPPE's accreditation agency / WASC senior?

8 WUaS is seeking to develop online educational opportunities in India / Bangladesh / Sri Lanka - all with similar time zones - early on.

9 Seasons' Greetings - <https://scott-macleod.blogspot.com/2018/12/armeria-maritima-seasons-greetings-2018.html> -

Armeria maritima: Seasons' Greetings 2018! from Scott MacLeod, with his book's 'Naked Harbin Ethnography' bookmark, Stanford University, California
* * * 'Enter' into this realistic virtual world here - <http://tinyurl.com/p62rpgc> - where you can visit the Harbin gate virtually, and "walk" down the road "4 miles" to Middletown, CA, to "amble" around the streets there, if interested (accessible from: <https://twitter.com/HarbinBook> and <http://bit.ly/HarbinBook>)
* * * Plans for the New Year: Seeking to help people realize their dreams at World Univ. & Sch. and with: "What are your educational goals and dreams? Tell us in the comments. With over 2,400 MIT courses represented on OCW, we can help take you to that next level. Get started now--><http://ocw.mit.edu>" - <https://twitter.com/MITOCW/status/1075069530500665344> ... and via free universal education potentially for all 7.5 billion people, Accreditation * * *
