A

World University and School is postponing seeking our 2nd matriculating undergraduate class - and aiming to matriculate a class of 100 - 500 online undergraduates in January 2019 at accrediting WUaS.

WUaS will seek to define approaches to taking MIT OCW as independent study courses, in working toward degrees, by submitting work to WUaS. WUaS will scale this process large, and in many languages, later with our developing platform, for example here -

<https://wiki.worlduniversityandschool.org/wiki/Subjects> - or here -

<https://wiki.worlduniversityandschool.org/wiki/Courses>, or in Google Education.

B

Accreditation

WUaS is waiting to hear back from the state of California's BPPE re definition of a private educational institution (which is that students pay tuition) and our World University and School's Creative Commons-4 licensed MIT OCW-centricity which means that WUaS can't ask for tuition from students (since CC-4 licensing says we can A) share, B) adapt but C) non-commercially). And WUaS seeks to accredit with the state of California's BPPE (Bureau of Private Postsecondary Education), and concurrently with WASC senior, - so WUaS seeks to inquire if BBPE can add an amendment to their regulation, allowing for CC-4 WUaS to offer online CC-4 OCW for credit and for online related online degrees for free-to-students as a private educational institution. WUaS would thus not, and can't, ask for tuition from students, - such that Californians (and potentially students in all ~200 countries) will take MIT OCW-centric online classes and earn degrees that are free-to-students, (again in CA and around the world - via World University and School). Other CC-4 OCW-centric universities could do this too. Free-to-students' CC-4 MIT OCW-centric online degrees, eventually in their 5 languages, and many more!

C

National Science Foundation grant

WUaS is waiting to hear back from the state of California's Bureau of Private Postsecondary Education (BPPE) as we wait to hear about a pending NSF grant.

D

WUaS online Medical Schools

World University and School is in very early communication with Dr. Honor Hsin MD at Stanford Medicine re WUaS online Medical Schools, online teaching hospitals for online clinical care, and re also a realistic virtual earth at the cellular and atomic levels too (think Google Street View+ / Earth / TensorFlow / Translatre)

Agenda & News

World University & School

A

World University and School is postponing seeking our 2nd matriculating undergraduate class - and aiming to matriculate a class of 100 - 500 online undergraduates in January 2019 at accrediting WUaS.

B

Accreditation -

World University and School spoke with the state of California's Bureau of Private Postsecondary Education twice a few weeks ago and is waiting to hear back from them. This is a first step to then seeking to accredit with Western Association of Schools and Colleges, with whom WUaS also spoke in late June 2018. WUaS first spoke with BPPE - and also met with WASC senior about WUaS accreditation in their offices in Alameda, California, near Oakland - in November 2013 (see: <http://scott-macleod.blogspot.com/2018/06/canada-lynx-wuas-wiki-subject-pages-can.html>).

C

National Science Foundation Grant -
PD-18-1998

Accelerating Discovery: Educating the Future STEM Workforce

<https://www.grants.gov/web/grants/view-opportunity.html?oppId=302513>

World University and School has budgeted for beginning the accreditation process with both of these organizations in the National Science Foundation Grant about which we are waiting to hear.

WUaS Live Hangouts on Air are continuing ([youtube.com/WorldUnivAndSch](https://www.youtube.com/WorldUnivAndSch)), with an invitation to participate on Mondays at 10 am Pacific Time / 1700 UTC. The next WUaS Live Hangout on Air is this Monday, August 13 (<https://twitter.com/WorldUnivAndSch/status/1027980606552981504>).

WUaS Co

1

Spanish language WUaS Co -
WUaS Corp is seeking to collaborate further with the Stanford Latino Bay Area Network - LBAN - Stanford Latino Entrepreneurship Initiative - <https://www.gsb.stanford.edu/faculty-research/centers-initiatives/slei> - and especially in the ~20 Spanish speaking nation states around the world (<https://twitter.com/WUaSPress/status/1027968869657268224>)

2

Hong Kong-China (one country, two systems) -
Since Spanish, Chinese and English are World University and School's pilot language, WUaS will seek to follow up too re Hong Kong WUaS, and China WUaS too, with the speakers in this recent Stanford "China's Hong Kong at 21: Front Line Perspectives" talk - <http://events.stanford.edu/events/791/79185/> - with regard to the WUaS Press / WUaS Corp. CryptoCurrency with blockchain ledger for all 7.5 billion Universitians? -
In coding our new WUaS Miraheze Mediawiki for the WUaS Bookstore/Computer store/Robotics' store for educational services for matriculated students, transcripts, learners, teachers, Universitians, in all ~200 countries and in all 7,097 living languages, WUaS seeks to code for all 7.5

billion people on planet, and to explore facilitating a single CryptoCurrency with blockchain ledger with the backing ~200 countries' central banks (post Euro in its 25 out of 28 member states?). WUaS is further exploring coding for a single CryptoCurrency with blockchain ledger for all 7.5 billion as a Universal Basic Income (UBI), conceptually, and as Assistive Technologies - https://wiki.worlduniversityandschool.org/wiki/Assistive_Technologies (defining assistive technologies in a new ways in terms of a UBI) - and in our ~200 planned law schools (https://wiki.worlduniversityandschool.org/wiki/World_University_Law_School) in their nation states' official languages.

Here again is the WUaS Live Hangout on Air from Mon. July 9, 2018, with named CEO of the WUaS Corp, Julian Dumitrascu - "World Univ & Sch-WUaS Co & Cryptocurrency w Blockchain Ledger" ... <https://youtu.be/gG19dn4UimA> (<https://twitter.com/WorldUnivAndSch/status/1016433007459119104>) ... and again re WUaS planning for learners / Universitians in all 7,097 living languages, as well as matriculated students in all ~200 countries' official / main languages.

See, too, especially - <https://scott-macleod.blogspot.com/2018/07/himalayan-brown-bear-world-univ-sch.html> - "Himalayan brown bear: World Univ & Sch-WUaS Co & Cryptocurrency w Blockchain Ledger, See, too: On the @epicenterbtc podcast, MIT Media Lab's " ... @neha {Narula} discusses DCI's position between academia and industry, their policy on conflicts of interest, and their most fascinating research topics," (About central banks and digital fiat currencies at 20 minute mark ... MIT Media Lab DCI is working with 6 large central banks ... at 23 minute mark - Fractional-reserve banking at about 29 minutes), "Stanford researchers are deploying #AI to map poverty in Africa, find safer alternatives to conventional rechargeable batteries and perhaps even understand our own minds," Per video: Could an Universal Basic Income as an "Assistive Technology" be distributed to lowest income peoples around the world, and in all of ~200 countries, as a way to distribute a new single CryptoCurrency (backed by all ~200 countries' central banks) with BlockChain Ledger ?"
