

[Economic Factors In The Making Of Pakistan 1921-1947, Naureen Talha](#) , 2000, 0195791843, 9780195791846. This book traces the economic history of the Muslims from the fall of the Mughal Empire to Independence. It shows how, with the coming of the British, a new economic structure emerged in the Indian subcontinent under which the Muslims lost not only their political power but also their economic standing, and then shows how fear of continued economic deprivation fueled the demand for Partition.

[Indian Feminisms: Law, Patriarchies and Violence in India, Geetanjali Gangoli](#) , 2012, 1409490742, 9781409490746. Contributing to debates on feminism, this book considers the impact made by feminists in India from the 1970s. Geetanjali Gangoli analyses campaigns on issues of violence and women's rights, and debates on ways in which feminist legal debates may be limiting for women and based on exclusionary concepts such as citizenship, and sets them within a wider analysis of the position of women within the Indian state.

[The Divine Intruder, Ellen Digisi-Klenert](#) , 2011, 0984181318, 9780984181315. Share the personal journey of Ellen DiGisi-Klenert from her early days growing up in a New England Italian family through her eighteen year convent life style with the Religious Venerini Sisters. She offers insight into her various church ministries and a remarkable experience in Rome which ultimately led to her most difficult decision to leave religious life. Without regret she embraced the vocation she was given, those she was blessed to share it with and how she discovered the beauty of God's ongoing intrusions forming the spiritual life she strives to live.

[Golf Course Presentation, John Hacker, George R. Shiels](#) , 1992, 0952058502, 9780952058502.

[Evelina: Or the History of a Young Lady's Entrance Into the World, Fanny Burney](#) , 1998, 0192833960, 9780192833969. Evelina, the first of Burney's novels, was published anonymously and brought her immediate fame. It tells the story of a young girl, fresh from the provinces, whose initiation into the ways of the world is frequently painful, though it leads to self-discovery, moral growth, and, finally, happiness. Hilarious comedy and moral gravity make the novel a fund of entertainment and wisdom. Out of the graceful shifts from the idyllic to the near-tragic and realistic, Evelina emerges as a fully realized character. And out of its treatment of contrasts - the peace of the countryside and the cultured and social excitement of London and Bristol, the crowd of life-like vulgarians and the elegant gentry - the novel reveals superbly the life and temper of eighteenth-century England, as seen through the curious eyes of its young heroine. Edward A. Bloom has edited the text from the rare first edition of 1778.

[The Ethics of Pediatric Research, David Wendler](#) , 2010, 0199749507, 9780199749508. Millions of children suffer from

diseases and illnesses that do not have adequate treatment, and many other children are harmed by medicines intended to help them. In order to protect and help these children, society must conduct pediatric research to identify safer and more effective medical treatments. This research requires exposing some children to risks for the benefit of others. Yet, critics and courts have argued that it is unethical to expose children to research risks for the benefit of others, and this practice seems to violate our obligation to protect children from harm and exploitation. In this way, clinical research with children presents us with what appears to be an irresolvable dilemma: either we can protect pediatric subjects from exploitation, or we can protect pediatric patients from dangerous medicines, but not both. *The Ethics of Pediatric Research* is the first work to systematically evaluate this dilemma, and David Wendler offers an original justification for pediatric research based on an in-depth analysis of when it is in our interests to help others. It will be of interest primarily to scholars in pediatric ethics and clinical research ethics.

[A Mediterranean Emporium: The Catalan Kingdom of Majorca, David Abulafia](#) , 2002, 0521894050, 9780521894050. The Catalan kingdom of Majorca was established under the will of King James I of Aragon, who conquered Majorca in 1229, but it was ruled from 1276 to 1343 by a cadet dynasty. The kingdom included the key business centers of Montpellier and Perpignan, and other lands in what is now southern France. It was home to important Jewish and Muslim communities, and was the focus of immigration from Catalonia, Provence and Italy. This book emphasizes the major transformations in the trade of the Balearic Islands from the eve of the Catalan conquest to the Black Death, and the effect of the kingdom's creation and demise on the economy of the region.

[Assassination of President Kennedy, Chauncey Marvin Holt, Wim Dankbaar](#) , 2008, 0979406307, 9780979406300. This

video memoir of CIA contract agent and underworld figure Chauncey Marvin Holt chronicles his career in the twilight world of bootlegging, bookmaking, gunrunning, money laundering, espionage, and assassinations. Made one week prior to Holt's death, this recording provides his account of the evidence of a renegade covert network that has exerted an untold influence over U.S. policy, including the assassination of former President John F. Kennedy. He details the preparations for a coup d'état on November 22, 1963, reveals why Holt and a team of CIA operatives were in Dealey Plaza that day, and explains the presence of the mysterious "three tramps" picked up behind the grassy knoll after JFK's assassination.

[F. Scott Fitzgerald's the Great Gatsby, Harold Bloom](#) , 2010, 143813276X, 9781438132761. Presents a series of critical essays discussing the structure, themes, and subject matter of Fitzgerald's story of the love between wealthy Jay Gatsby and the beautiful Daisy Buchanan.

[Precious Heritage : The Status of Biodiversity in the United States: The Status of Biodiversity in the United States, Bruce A. Stein, Lynn S. Kutner, Jonathan S. Adams for The Nature Conservancy and the Association for Biodiversity Information](#) , 2000, 0198028962, 9780198028963. From the lush forests of Appalachia to the frozen tundra of Alaska, and from the tall grass prairies of the Midwest to the subtropical rainforests of Hawaii, the United States harbors a remarkable array of ecosystems. These ecosystems in turn sustain an exceptional variety of plant and animal life. For species such as salamanders and freshwater turtles, the United States ranks as the global center of diversity. Among the nation's other unique biological features are California's coast redwoods, the world's tallest trees, and Nevada's Devils Hole pupfish, which survives in a single ten-by-seventy-foot desert pool, the smallest range of any vertebrate animal. Precious Heritage draws together for the first time a quarter century of information on U.S. biodiversity developed by natural heritage programs from across the country. This richly illustrated volume not only documents those aspects of U.S. biodiversity that are particularly noteworthy, but also considers how our species and ecosystems are faring, what is threatening them, and what is needed to protect the nation's remaining natural inheritance. Above all, Precious Heritage is a celebration of the extraordinary biological diversity of the United States.

[Moon Arches and Canyonlands National Parks: Including Moab, W. C. McRae, Judy Jewell](#) , 2009, 1598802615, 9781598802610. Moon Spotlight Arches and National Canyonlands National Parks is an 85-page compact guide covering Arches National Park and Canyonland National Park, including Island in the Sky District, Needles District, Maze District, Horseshoe Canyon Unit, the River District, and the unrivaled beauty of Moab. Authors W. C. McRae and Judy Jewell offer seasoned advice on what sights are must-sees, including maps with sightseeing highlights so that planning your time is easy. This lightweight guide is packed with recommendations on sights, entertainment, shopping, recreation, accommodations, food, and transportation. Helpful maps make navigating these popular national parks uncomplicated.

Moon Spotlight guides are affordably-priced, lightweight guides covering a smaller geographic region than Moon Handbooks or Outdoors guidebook series. The travel content in a Spotlight guide is pulled directly from individual chapters of larger Handbooks or Outdoors titles, with no introductory information (such as When to Go or Planning Your Trip), and no indexes. The results are compact guides to popular destinations that provide travelers with what they need to explore a specific locale in depth with fewer pages of very focused information.

[Lucky's Charm, J. Robinson](#) , 2013, 0988563282, 9780988563285. Charm is a devil with a heart. Hired to lure men in with her beauty, until she falls in love with the most beautiful creature God ever created. When Boss Man contacted her for the job, she packed up leaving her son behind with her sister. Money is her motivation, and when money calls, she takes off running. Lucky has dodged a lot of bullets in his day, but he's still not grateful for his life being spared. Out for revenge for his partner, Angel, and his daughter, Pride's, death, he was introduced to Charm - the woman who was sure to get the job done. As time goes by, he realizes Charm can't be trusted. Will Charm harm the one that has captured her heart, or go along with the plan to save her family? This story will take you on a ride like never before and lays to rest all the drama that has been taking place in a small town... Danville Illinois.

[Risk Management in Turbulent Times, Gilles Beneplanc, Jean-Charles Rochet](#) , 2011, 0199774080, 9780199774081. The subprime crisis has shown that the sophisticated risk management models used by banks and insurance companies had serious flaws. Some people even suggest that these models are completely useless. Others claim that the crisis was just an unpredictable accident that was largely amplified by the lack of expertise and even naivety of many investors. This book takes the middle view. It shows that these models have been designed for "tranquil times", when financial markets behave smoothly and efficiently. However, we are living in more and more "turbulent times": large risks materialize much more often than predicted by "normal" models, financial models periodically go through bubbles and crashes. Moreover, financial risks result from the decisions of economic actors who can have incentives to take excessive risks, especially when their remunerations are ill designed. The book provides a clear account of the fundamental hypotheses underlying the most popular models of risk management and show that these hypotheses are flawed. However it shows that simple models can still be useful, provided they are well understood and used with caution.

[Death in a Strange Country, Donna Leon](#) , 2008, 1555848982, 9781555848989. Early one morning Commissario Guido Brunetti of the Venice Police confronts a grisly sight when the body of a young man is fished out of a fetid canal. All the clues point to a violent mugging, but for Brunetti the motive of robbery seems altogether too convenient. When something is discovered in the victim's apartment that suggests the existence of a high-level conspiracy, Brunetti becomes convinced that somebody, somewhere, is taking great pains to provide a ready-made solution to the crime. Rich with atmosphere and marvelous plotting, "Death in a Strange Country" is a superb novel in Donna Leon's chilling Venetian mystery series.

[The United States of Arugula: The Sun Dried, Cold Pressed, Dark Roasted, Extra Virgin Story of the American Food Revolution, David Kamp](#) , 2009, 0307575349, 9780307575340. One day we woke up and realized that our macaroni had become pasta, that our Wonder Bread had been replaced by organic whole wheat, that sushi was fast food, and that our tomatoes were heirlooms. How did all this happen, and who made it happen? The United States of Arugula is the rollicking, revealing chronicle of how gourmet eating in America went from obscure to pervasive, thanks to the contributions of some outsized, opinionated iconoclasts who couldnt abide the status quo. Vanity Fair writer David Kamp

chronicles this amazing transformation, from the overcooked vegetables and scary gelatin salads of yore to our current heyday of free-range chickens, extra-virgin olive oil, Iron Chef, Whole Foods, Starbucks, and that breed of human known as the foodie. In deft fashion, Kamp conjures up vivid images of the Big Three, the lodestars who led us out of this culinary wilderness: James Beard, the hulking, bald, flamboyant Oregonian who made the case for American cookery; Julia Child, the towering, warbling giantess who demystified French cuisine for Americans; and Craig Claiborne, the melancholy, sexually confused Mississippian who all but invented food journalism at the New York Times. The story continues onward with candid, provocative commentary from the food figures who prospered in the Big Threes wake: Alice Waters and Jeremiah Tower of Berkeleys Chez Panisse, Wolfgang Puck and his L.A. acolytes, the visionary chefs we know by one name (Emeril, Daniel, Mario, Jean-Georges), the Williams in Williams-Sonoma, the Niman in Niman Ranch, both Dean and DeLuca, and many others. A rich, frequently uproarious stew of culinary innovation, flavor revelations, balsamic pretensions, taste-making luminaries, food politics, and kitchen confidences, *The United States of Arugula* is the remarkable history of the cultural success story of our era. From the Hardcover edition.

[Transitions to Early Care and Education: International Perspectives on Making Schools Ready for Young Children, DeAnna M. Laverick, Mary Renck Jalongo](#) , 2011, 9400705735, 9789400705739. Transitions to new educational experiences are a universal rite of passage encountered by children worldwide. This volume in the Educating the Young Child: Advances in Theory and Research, Implications for Practice series provides early childhood educators with a resource that focuses on the transitions that young children make to early care and education settings, along with the issues that surround this important time in their lives. New experiences, such as the start of formal schooling, mark important and exciting events that also evoke different reactions from children and their families. The diverse experiences, traits, and needs exhibited by young children provide early childhood educators with what may be a potentially challenging role. With an international focus, the purpose of *Transitions to Early Care and Education: International Perspectives on Making Schools Ready for Young Children* is to communicate an enlarged view of the transition process in order to appreciate and honor the promise and potential of all children worldwide. Contributing to this volume are a group of distinguished researchers, practitioners, and educators in the field of early childhood education. Their collective expertise is shared with those who are committed to educating and caring for young children and the families they serve.

[A Day to Die For: 1996: Everest's Worst Disaster - One Survivor's Personal Journey to Uncover the Truth, Graham Ratcliffe](#) , 2013, 1780576412, 9781780576411. The truth about the 1996 Everest disaster by one of its survivors, uncovering crucial new information On May 10 and 11, 1996, eight climbers perished in what remains the worst disaster in Everest's history. Following the tragedy, numerous accounts were published, with Jon Krakauer's "Into Thin Air" becoming an international bestseller--but the whole story has not been told. This book reveals for the first time the full, startling facts that led to the tragedy. Graham Ratcliffe, the first British climber to reach the summit of Mount Everest

twice, was a firsthand witness, having spent the night on Everest's South Col at 26,000 feet, sheltering from the deadly storm. For years, he has shouldered a burden of guilt, feeling that he and his teammates could have saved lives that fateful night. His quest for answers has led to discoveries so important to an understanding of the disaster that he now questions why these facts were not made public sooner. History is dotted with high-profile disasters that both horrify and capture the attention of the public, but very rarely is the prevailing view of them revised to such devastating effect.

[The Salaried Masses: Duty and Distraction in Weimar Germany, Siegfried Kracauer](#) , 1998, 1859841872, 9781859841877. A fascinating study of Germany society on the eve of Nazism. First published in 1930, Siegfried Kracauer's work was greeted with great acclaim and soon attained the status of a classic. The object of his inquiry was the new class of salaried employees who populated the cities of Weimar Germany. Spiritually homeless, divorced from all custom and tradition, these white-collar workers sought refuge in entertainment -- or the "distraction of industries," as Kracauer put it -- but, only three years late, were to flee into the arms of Adolf Hitler. Eschewing the instruments of traditional sociological scholarship, but without collapsing into mere journalistic reportage, Kracauer explores the contradictions of this caste. Drawing on conversations, newspapers, adverts and personal correspondence, he charts the bland horror of the everyday. In the process, Kracauer succeeds in writing not just a prescient account of the decline days of the Weimar Republic, but also a path-breaking exercise in the sociology of culture which has sharp relevance for today.

[Aristophanes: Clouds, Aristophanes](#) , 2012, 052117256X, 9780521172561. Treating ancient plays as living drama.

Classical Greek drama is brought vividly to life in this series of new translations. Students are encouraged to engage with the text through detailed commentaries, including suggestions for discussion and analysis. In addition, numerous practical questions stimulate ideas on staging and encourage students to explore the play's dramatic qualities. Clouds is suitable for students of both Classical Civilisation and Drama. Useful features include full synopsis of the play, commentary alongside translation for easy reference and a comprehensive introduction to the Greek Theatre. Clouds is aimed primarily at A-level and undergraduate students in the UK, and college students in North America.

A math text creates a path for students - one that should be easy to navigate, with clearly marked signposts, built-in footholds, and places to stop and assess progress along the way. Research-based and updated for today's classroom, Prentice Hall Mathematics is that well-constructed path. An outstanding author team and unmatched continuity of content combine with timesaving support to help teachers guide students along the road to success.

[Haunted Places of Western New York: A Supernatural Tour Guide, Mason Winfield, Michael Bastine, Franklin LaVoie, Amy Reed](#) , 2003, 1879201453, 9781879201453. Embark on a haunted history tour of Western New York's mansions, inns, churches, battlefields, and more. Make a vision quest of your own to ancient holy places and stand in the energy sites. Scout for mystery monsters or UFOs in one of the legendary "X-Zones" with the founder of the Buffalo and East Aurora ghost walks. "Every spot on earth has mystery," writes respected author Mason Winfield in his introduction. "Some spots have more than others, and that's what this book is about-a tour guide to mystery places in Western New York, the traditional Seneca territory."

[Evaluating Health Promotion Programs, Thomas W. Valente Associate Professor of Preventive Medicine and Director of the Master of Public Health Program University of Southern California School of Medicine](#) , 2002, 0199747938,

9780199747931. This is a comprehensive guide to the frameworks, theories, and methods used to evaluate health promotion programs. The book builds on the author's experience in evaluating health communication projects in the US and developing countries and in teaching evaluation to graduate-level students in public health. It will be useful both to students and to researchers and practitioners involved in all types of evaluation activities. The chapters are divided into three sections. Part I covers health promotion frameworks and theories, formative research, and process evaluation methods. Part II deals with study designs, the techniques to determine sample selection and size, writing questionnaires, constructing scales, and managing data. Part III uses data from a national campaign to illustrate methods for impact evaluation including basic and advanced statistical analysis. This text provides the tools needed to understand how and why evaluations are conducted, and it will serve as a reference for evaluators. It covers every aspect of the research and evaluation activities needed to assess a health promotion program.

[A Swift Pure Cry, Siobhan Dowd](#) , 2007, 0099488167, 9780099488163. Ireland 1984. After Shell's mother dies, her obsessively religious father descends into alcoholic mourning and Shell is left to care for her younger brother and sister. Her only release from the harshness of everyday life comes from her budding spiritual friendship with a naive young priest, and most importantly, her developing relationship with childhood friend, Declan, who is charming, eloquent, and persuasive. But when Declan suddenly leaves Ireland to seek his fortune in America, Shell finds herself pregnant and the center of a scandal that rocks the small community in which she lives, with repercussions across the whole country. The lives of those immediately around her will never be the same again. This is a story of love and loss, religious belief and spirituality--it will move the hearts of any who read it. "From the Hardcover edition."

[American slavery, American freedom: the ordeal of colonial Virginia, Edmund Sears Morgan](#) , 2003, 039332494X, 9780393324945. "If it is possible to understand the American paradox, the marriage of slavery and freedom, Virginia is surely the place to begin," writes Edmund S. Morgan in *American Slavery, American Freedom*, a study of the tragic contradiction at the core of America. Morgan finds the key to this central paradox in the people and politics of the state that was both the birthplace of the revolution and the largest slaveholding state in the country. With a new introduction. Winner of the Francis Parkman Prize and the Albert J. Beveridge Award.

[The Fruit of Liberty, Nicholas Scott Baker](#) , 2013, 0674724526, 9780674724525. In the middle decades of the sixteenth century, the republican city-state of Florence--birthplace of the Renaissance--failed. In its place the Medici family created a principality, becoming first dukes of Florence and then grand dukes of Tuscany. The Fruit of Liberty examines how this transition occurred from the perspective of the Florentine patricians who had dominated and controlled the republic. The book analyzes the long, slow social and cultural transformations that predated, accompanied, and facilitated the institutional shift from republic to principality, from citizen to subject. More than a chronological narrative, this analysis covers a wide range of contributing factors to this transition, from attitudes toward officeholding, clothing, the patronage of artists and architects to notions of self, family, and gender. Using a wide variety of sources including private letters, diaries, and art works, Nicholas Baker explores how the language, images, and values of the republic were reconceptualized to aid the shift from citizen to subject. He argues that the creation of Medici principality did not occur by a radical break with the past but with the adoption and adaptation of the political culture of Renaissance republicanism.

[Wake Up, America!, Randy Brown](#) , 1994, 1560436441, 9781560436447.

[Cold Calls: War Music Continued, Volume 1, Christopher Logue](#) , 2005, 0571202772, 9780571202775. Helen, the world's most beautiful woman, the wife of Lord Menelaos of Sparta, left Greece in the company of Paris, the son of Priam, King of Troy. To repossess her, a thousand Greek ships sailed to Troy. Nine years have passed. The Greeks have not achieved their aim. Indeed, after a quarrel between Achilles their leader and Agamemnon their king, the Trojans, led by Paris's brother, Prince Hector, have driven the Greeks off the plain of Troy and back behind the palisade protecting their ships. Achilles refuses to help them. It is night . . . The scene is set for Cold Calls, the fifth and penultimate instalment of Logue's Homer, an ongoing project - a piece of performance-art for the page rather than the stage - which has taken several decades to unfold, and has been described by Derek Mahon as 'Less a translation than an adaptation. Less an adaptation, in fact, than an original poem of considerable power.'

[Dancing Barefoot, Wil Wheaton](#) , 2004, 1449310524, 9781449310523. Wil Wheaton--blogger, geek, and Star Trek: The Next Generation's Wesley Crusher--gives us five short-but-true tales of life in the so-called Space Age in Dancing Barefoot. With a true geek's unflinching honesty, Wil examines life, love, the web, and the absurdities of Hollywood in these compelling autobiographical narratives. Based on pieces first published in Wil's hugely popular blog, www.wilwheaton.net, the stories in Dancing Barefoot chronicle a teen TV star's journey to maturity and self-acceptance. Far from the usual celebrity tell-all, Dancing Barefoot is a vivid account of one man's version of that universal story, the

search for self. If you've ever fallen in love, wondered what goes on behind the scenes at a Star Trek convention, or thought hard about the meaning of life, you'll find a kindred soul in the pages of Dancing Barefoot. In the process of uncovering his true geeky self, Wil Wheaton speaks to the inner geek in all of us. The stories: Houses in Motion - Memories fill the emptiness left within a childhood home, and saying goodbye brings them to life. Ready Or Not Here I Come - A game of hide-n-seek with the kids works as a time machine, taking Wil on a tour of the hiding and seeking of years gone by. Inferno - Two 15-year-olds pass in the night leaving behind pleasant memories and a perfumed Car Wars Deluxe Edition Box Set. We Close Our Eyes - A few beautiful moments spent dancing in the rain. The Saga of SpongeBob VegasPants - A story of love, hate, laughter and the acceptance of all things Trek.

[Remote Sensing, Models, and Methods for Image Processing, Robert A. Schowengerdt](#) , 1997, 0126289816, 9780126289817. This book is a completely updated, greatly expanded version of the previously successful volume by the author. The Second Edition includes new results and data, and discusses a unified framework and rationale for designing and evaluating image processing algorithms. Written from the viewpoint that image processing supports remote sensing science, this book describes physical models for remote sensing phenomenology and sensors and how they contribute to models for remote-sensing data. The text then presents image processing techniques and interprets them in terms of these models. Spectral, spatial, and geometric models are used to introduce advanced image processing techniques such as hyperspectral image analysis, fusion of multisensor images, and digital elevation model extraction from stereo imagery. The material is suited for graduate level engineering, physical and natural science courses, or practicing remote sensing scientists. Each chapter is enhanced by student exercises designed to stimulate an understanding of the material. Over 300 figures are produced specifically for this book, and numerous tables provide a rich bibliography of the research literature.

[Alaska - Planning Your Own Trip, Cindy Roland](#) , 1997, .

[Prolog Pages, Donald Wellman](#) , 2009, 0980887380, 9780980887389. Poetry. PROLOG PAGES are various in the complexities of their bundled themes: travel, observations from everyday life, allusions to the accomplishments of poets

and artists. Wellman sometimes calls to the figures who populate his poems, expressing sympathy with the emotions that he detects in their person or their work. Unexpected bursts of conversation catch his ears. His material is the rough stuff of notebooks and journals, here from travels in Mexico and Spain (although New York City, Chicago and Angola appear as reference points too). Collages of fragmentary observation ruled by temporal juxtaposition and expediency become disciplined exercises in pared down constructions.

[The Transforming Path: A Christ-Centered Approach to Spiritual Formation, Terry Wardle](#) , 2003, 0972842500, 9780972842501. In Cathy Messecarr's The Stained Glass Pickup discover God waiting for you in unpredictable places. A denim-clad rancher an orphan train adoptee and a wedding dress become road signs pointing to God's wisdom. Encounter the Almighty in a Houston theater a cross and a "grace shaker." Through poignant stories Cathy points you to the One who created you — the One who is waiting for you in the details and chaos of every day life.

[International migration systems: a global approach, Mary M. Kritz, Lin Lean Lim, Hania Zlotnik](#) , 1992, 0198283563, 9780198283560. The authors use a systems approach to examine contemporary international migration and other types of population flows between countries. They investigate the effect of those flows on both sending and receiving countries in the areas of economic, political, and social links of the countries concerned. This work includes a set of comparative case studies as well of theoretical chapters which will be of interest to demographers, sociologists, economists, social historians, as well as policymakers.

[Franklin's Friendship Treasury, Paulette Bourgeois, Brenda Clark](#) , 2000, . Franklin learns about the meaning of friendship in these four classic stories, now available in one Franklin Treasury. Franklin Has a Sleepover, Franklin's Bad Day, Franklin's New Friend and Franklin's Secret Club are gentle stories that have helped make the lovable turtle one of the world's best-known and most endearing children's book characters.

When two skeletons turn up in one of Wilmington's antebellum mansions, historic preservationist Ashley Wilkes suspects there is more to the discovery than meets the eye. Her subsequent investigations uncover clues that tell her a killer is poised to strike.

[Creating Masculinity in Los Angeles's Little Manila: Working-Class Filipinos and Popular Culture in the United States, Linda](#)

[Espaa-Maram](#) , 2013, 0231510802, 9780231510806. In this new work, Linda Espana-Maram analyzes the politics of popular culture in the lives of Filipino laborers in Los Angeles's Little Manila, from the 1920s to the 1940s. The Filipinos' participation in leisure activities, including the thrills of Chinatown's gambling dens, boxing matches, and the sensual pleasures of dancing with white women in taxi dance halls sent legislators, reformers, and police forces scurrying to contain public displays of Filipino virility. But as Espana-Maram argues, Filipino workers, by flaunting "improper" behavior, established niches of autonomy where they could defy racist attitudes and shape an immigrant identity based on youth, ethnicity, and notions of heterosexual masculinity within the confines of a working class. Espana-Maram takes this history one step further by examining the relationships among Filipinos and other Angelenos of color, including the Chinese, Mexican Americans, and African Americans. Drawing on oral histories and previously untapped archival records, Espana-Maram provides an innovative and engaging perspective on Filipino immigrant experiences.

[Engaging ESL Students: Building Background, Linda Evans](#) , 2010, 0983026904, 9780983026907. Do you have ESL/ELL students in your mainstream classroom? Mainstream teachers have an awesome responsibility. Demographically, the traditional classroom has changed. Teachers are expected to teach their content area while simultaneously addressing the needs of students who are not proficient in English language. Here is your complete guide for building background knowledge into your lessons. You will discover how easy it is to: Feel successful now, even if you don't speak the language of your students. Have solutions at your fingertips. Save time by building background first. Read a tip and confidently walk into the next class and use it. Linda Evans is a trusted expert on the topic of engaging ESL and ELL students. "Ms. Evans presents extremely effective ways to engage students in learning language, whether they are learning a new language or expanding an existing language. All teachers can use this book," says Mary Louise Sena, Ph.D., Albuquerque, New Mexico. "Linda's book should be included in every teacher induction program in every school of education because it is filled with easy-to-use strategies that make sense," says Danielle D'Avirro, 8th Grade English Language Arts, North Syracuse, New York. "Building Background is the missing piece we've needed to activate creative communication with English Language Learners," says Audrey Szewc, 6th Grade Math Teacher, Las Vegas, Nevada. The powerful linking tools in this book have helped thousands of mainstream teachers to be proactive in their diverse classrooms! You can learn more at www.EngagingESLStudents.com.

[Moments of Delight, Anne Reeves](#) , 2008, 0981801609, 9780981801605.

[Missions of San Diego, Robert A. Bellezza](#) , 2013, 0738596833, 9780738596839. California's first settlement began on a trail called El Camino Real, or "The Royal Road," that was traveled by missionary pathfinders, soldiers, and conquistadors

on a dramatic journey into a mysterious land. Monterey was discovered in 1603, leading to the quest. Explorers Don Gaspar de Portol and Juan Bautista de Anza, along with ambitious Franciscan missionaries, founded 21 monumental Spanish missions and several asistencias and chapels for native neophytes, travelers, and visitors to Alta California. Following the initial landing in 1769 at San Diego's seaport, Fr. Junpero Serra founded Mission San Diego de Alcal, California's first landmark, at the original presidio site. The mission stands today exactly where it was moved, rebuilt, and completed in 1813. The native populations of California witnessed years of change from a sleepy province to the status of US statehood. The Spanish missions forged the powerful underpinnings of the Golden State's earliest settlements 80 years prior to the world's largest migration to California, the 1849 Gold Rush.

[The Writer's Adventure Guide: 12 Stages to Writing Your Book, Beth Dora Barany](#) , 2009, 0982344252, 9780982344255.

Do you have a book inside you that cant find its way out? Are you having trouble even getting started on your book writing journey? The Writers Adventure Guide helps you step off into the unknown of a writing project and see it through to its destination from the first exciting flash of an idea to that dark moment when you think youll never write a decent paragraph again. This guide gives you tips and tools for keeping an eye on your inner landscape so you can achieve your goal of writing a book. In 12 clear, organized steps, find out how you can: * Build confidence in your writing instincts * Forge a clear path from inspiration to completion * Learn how to write the book while living your active life * Delight in the creative adventure, both its ups and downs * Complete your novel or nonfiction book

[Shirtlifter 4, Volume 4, Steve MacIsaac](#) , 2011, 0979134943, 9780979134944. The fourth issue of this first-rate series, featuring queer-themed short fiction comics from "Sticky" artist Steve MacIsaac. This volume is more in a graphic novel format than a single issue comic. Features Book 2 of "Unpacking," begun in issue three. Matt is a Vancouver graphic designer who has begun spending time with a visiting businessman, but their "no strings" relationship begins to get tangled. Also features work from Justin Hall and Ilya. A fair amount of adult and erotic material, but not exclusively a smut comic.

[Digital and Analog Communication Systems, Leon W. Couch](#) , 2002, 0130896306, 9780130896308. Exceptionally up-to-date, this book provides a broad introduction to basic analog and digital principles and their application to the design and analysis of real- world communication systems. It provides readers with a working knowledge of how to use both classical mathematical and personal computer methods to analyze, design, and simulate modern communication systems. MATLAB is integrated throughout. Study-aid examples and homework problems are included, many of which require solution via a personal computer. MATLAB illustrative examples and plots are included. Balanced coverage of both analog and digital communication systems with an emphasis on the design of digital communication systems. Case studies of modern communication systems are provided. Over 500 problems provided. For electrical engineers.

[Measuring Medical Professionalism, David Thomas Stern Associate Professor of Internal Medicine and Medical Education University of Michigan Medical School](#) , 2005, 0199748128, 9780199748129. Patients who are confident of physicians' intellectual and technical abilities are sometimes not convinced of their professional behavior. Systemic and anecdotal cases of physician misconduct, conflict of interest, and self-interest abound. Many have even come to mistrust physicians as patient advocates. How can patients trust the intellectual and technical aspects of medical care, but not the professional? In order to enhance and promote professionalism in medicine, one should expect it, encourage it, and evaluate it. By measuring their own professional behavior, physicians can provide the kind of transparency with which they can regain the trust of patients and society. Not only patients, but also institutions which accredit organizations have demanded accountability of physicians in their professional behavior. While there has been much lament and a few strong proposals for improving professionalism, no single reliable and valid measure of the success of these proposals exists. This book is a theory-to-practice text focused on ways to evaluate professional behavior written by leaders in the field of medical education and assessment.

[Get the Hell Out!: How to Gain the Kingdom Mentality and Begin Living an Abundant Life, L. W. Francisco, III](#) , 2010, 0982796609, 9780982796603. After twenty-three years in ministry, I have a passion to see the body of Christ experience what I believe is the right of every believer, and that is to live an abundant life in the here and now. The fact of the matter is, God wants His children to live an abundant life and He actually gives us the tools or the keys to make it happen. It's simply called a 'Kingdom mentality'. Now, for the purpose of this book, I won't go into a deep theological explanation of a Kingdom mentality. I am not trying to impress anyone with my prowess of scriptural interpretation. I simply want to share with you how to live an abundant life starting RIGHT NOW! I intentionally made this book a short read so that you can read it over and over and allow the principles contained therein to saturate your mind and heart. If you are fed up with "Hell" living in and occupying your mind, now is the time to stand up and boldly proclaim, GET THE HELL OUT!

[What's Wrong with Timmy?, Maria Shriver](#) , 2001, 0759526311, 9780759526310. What is the response when a child points out that a disabled child or adult looks 'different'? Shriver tells the story of Kate, who finds that making friends with a mentally retarded boy helps her learn that the two of them have a lot in common.

[Looking Back- Looking Forward: Snapshots of Indigenous Employment in the Australian Public Service,](#) , 2007, 0977559173, 9780977559176. "Today, Aboriginal and Torres Strait Islander public servants work in a huge diversity of roles in the Australian Public Service, adding much value to what the APS does and the way it does it. This booklet provides snapshots of some of the milestone events that have helped to increase Indigenous employment in the APS over the years."--P. [1].

[Borrowed Time: An AIDS Memoir, Paul Monette](#) , 1998, 0156005816, 9780156005814. The first personal documentary about AIDS to be published, "Borrowed Time" remains as vividly detailed as the best novel and as lucidly observed as the fiercest journalism. It is a cry from the heart against AIDS as it was in the early stages of the plague and against the intolerance that surrounded it. In equal parts, it is a supremely moving love story and a chronicle of the deep commitment and devotion that Paul Monette felt for Roger Horwitz from the night of their first meeting in Boston in the mid-1970s to Roger's diagnosis a decade later and through the last two years of his life, when fighting the disease together became a full-time occupation. This is not a book about death but a book about living while dying and the full range of emotions provoked by that transition -- sorrow, fear, anger, among them. It is a document essential to the history of the gay community; vital for anyone reading about AIDS; and one of the most powerful demonstrations of love and partnership to be found in print.

[Desire and Ice: A Search for Perspective Atop Denali, David Brill](#) , 2002, 0792269357, 9780792269359. Denali (Mt. McKinley) is accessible to climbers with limited alpine experience--provided they are in top condition and able to contend with the worst weather on Earth. In "Desire & Ice, novice climber David Brill tells how he rose to a challenge that subjected him to physical and psychological extremes. Brill was way out of his comfort zone on Denali, and in this lighthearted take on his achievement, he tells us all about it. Denali presents the greatest vertical gain--from just above sea level to 20,320 feet--of any mountain on the planet. Sited 2,400 miles north of Everest, it is notorious for 100-mile-per-hour winds and temperatures of 60 to 100 degrees below zero. Denali's thin air and 21 hours of sun per summer day create a near-Himalayan climbing environment. Then there's the specter of death on the mountain. Since a group of miners (the Sourdough Expedition) defied all odds and reach the North Peak in 1910, Denali has claimed the lives of nearly 100 climbers. These extreme conditions and storied history are woven throughout Brill's account of his own attempt to scale Denali. Trained by expert guides, the 45-year-old fledgling mountaineer mastered the skills to propel him from sofa to summit. His account overflows with vivid personalities and events: As Brill and his rope-mates cross glaciers and crevasses, claw their way up walls of ice, and wait out a killer storm, the author probes the motivation of his guides and fellow climbers--including two women whose quest for the summit ends in a flesh-freezing bathroom break.
