[Devil's Playground, D. P. Lyle](#) , 2003, 0974022209, 9780974022208. "With the irreverence, gutsy spirit, and warmhearted hilarity that made Pagan Babies a classic, here is the Italian-American experience served up by the author who has been crowned the Patron Saint of Humor. Before the Sopranos, there were the Cascones...Life al Dente, the new memoir from the author of Pagan Babies, brings the same wit and wonder to the telling of Gina Cascone's Italian-American girlhood...well, boyhood actually. In an Italian family, few things are a greater handicap than being born female, but Gina's Dad generously decided to overlook this shortcoming and raise Gina as a boy - the son he always wanted. As lawyer to numerous ""alleged"" mobsters, Dad had some colorful clients who would regularly gather around the basement pool table to talk business, drink, and be hustled by junior high Gina. There was no way Gina was going to turn into one of the big hair girls of Italian-American stereotype, but her journey would have all the bumps that come with that cherished immigrant ambition of moving from steerage to the suburbs in three generations. That sense of dislocation came early for Gina as her family moved from the kind of neighborhood where old men play bocce and the pet frogs are named Nunzio to one where Barbies and frozen food prevail. And though Gina's brains got her into the top high school, she quickly made the lonely discovery that she was the only one there whose name ended in a vowel. In our overly pasteurized and homogenized world, there's a real hunger to find and celebrate our connection to old world roots and traditions. Life al Dente abounds in hilarious stories, but also rewards readers with a genuine and poignant contemplation of cultural identity."

This book is an effort to serve the homeschooling community, classroom teachers, and any families who wish to learn with the movies; to make learning come alive through the use of drama and film. Children more highly retain the facts of what is studied when embedded into a really good story. This same principle holds true for film. If children SEE the time period, persons discovery and/or life in the context of a well done film, then they are much more apt to retain the facts since they have a context or framework into which the facts fit. This is much more enjoyable than the dry, rote memorization of facts. Categories include: Bible Times/Character, Ancient Egypt, Ancient Greece, Ancient Rome, Mayans, Vikings,

An unorthodox personal tale of tragedy and transcendence, My Life After Life confronts timeless questions concerning what happens to our loved ones and ourselves after death. The journey began for Dr. K. Paul Stoller one evening in 2007 when he received a phone call from the state police that his 16-year-old son Galen had been killed. Shortly thereafter, Dr. Stoller's son appeared and eventually began to communicate with him in dream states. Keenly aware of their emotional bond during his son's life, Dr. Stoller soon realized just how powerfully that bond could express itself. Dr. Stoller experienced difficulty in accepting what was happening to him-both the stress of the loss and the stress of the contact. Eventually convinced that it was his son, Dr. Stoller began journaling hundreds of pages of communication from Galen about his new circumstances, which led eventually to this book. Stoller's only comments appear in his Editor's Notes at the end of each chapter. [Birds of Australia, Ken Simpson, Nicolas Day, Peter Trusler](#) , 1999, 0691049955, 9780691049953. Birds of Australia is the most comprehensive guide available to the extraordinary bird life of Australia. In 132 color plates of remarkable beauty and precision, Nicolas Day captures the details of all 770 of the continent's birds. A succinct text by Ken Simpson and other experts in the field addresses key points of identification while the book's unique handbook section discusses the breeding, behavior, feeding habits, evolution, and taxonomy of each bird family. This sixth edition of Birds of Australia has been completely revised. It includes a full text overhaul in line with the new classification system, 18 new color plates, a completely revised handbook (partly illustrated in color), an extended color section on vagrant birds, over 1000 new or redrawn black and white illustrations, and new range maps throughout. Birds of Australia is carefully designed for field use. The book's weatherproof plastic binding, illustrated key to families, and field information and range maps adjacent to the plates make it the ideal book for birders to take into Australia's harsh deserts and tropical forests. All readers -- avid birders, ornithologists, students, and travelers to Australia -- will find Birds of Australia an unrivaled introduction to the natural world of this remarkable continent. Published outside North America as Simpson & Day's Field Guide to the Birds of Australia, sixth edition.

Specially written for children who need the support of carefully-monitored language levels, the stories are accessible, motivating and humorous. The series is organised into Oxford Reading Tree Stages (from Stage 10 to Stage 16), with each stage introducing more complex narrative forms, including flashbacks and changes in viewpoint; descriptive writing; extended reading vocabulary; and more pages, more text, and fewer illustrations. Ideal for both guided reading group work and independent reading. Phase G features: Six new stories at the top end of Treetops, featuring top children's authors Chris Powling, Paul Stewart, Jon Blake and Margaret McAllister, plus talented newcomers Claire Funge and Anna Perera. The stories have the breadth and interest level demanded by top juniors, with settings ranging from the Arctic Circle to wartime England, via a magical football story with a difference. The stories tackle issues that are important to 10/11 year olds - families, change, the environment, bullying, relationships - with the humour and style for which Treetops is renowned.

[The arts: a history of expression in 20th century, Ronald Tamplin](#) , 1991, 0195208528, 9780195208528. Seventy years ago the Dada movement proclaimed, "Art is dead"; if so, it has had an exciting afterlife. The twentieth-century world of art has boiled with rebellion and experiment, each generation creating new forms of expression--from Cubism to abstract expressionism, from surrealism to superrealism, not to mention the new trends in literature, architecture, music, and dance. The Arts offers a sweeping look at this tumultuous, creative century, in a richly illustrated and accessibly written volume. With over 300 illustrations, many in full color, The Arts ranges across every field of fine art, painting a vivid portrait of the changing styles--and the money, politics, and intellectual trends that have shaped twentieth-century art. Unlike so many histories, this comprehensive narrative brings together both the visual and the performing arts, presenting an integrated picture of our century's changing ideas and artistic fashions. The Arts describes modernism in literature (Eliot, Pound, and Joyce) alongside modernism in architecture (Corbusier, Frank Lloyd Wright, and the Bauhaus movement), and explores how artists from sculptors to musicians have responded to major political events. And at a time when public debate is raging over public support for "obscene" art, this book delves into the social reality behind creative work. The authors examine social standards and politics, and discuss the rise of powerful institutions in the U.S. and Europe--such as New York's Museum of Modern Art, various national theaters, the National Endowment for the Arts, the British Arts Council, and prestigious arts centers--as well as the impact of state support and the superheated art market. The Arts comes right up to the present moment, exploring postmodern architecture, the conceptualist rebellion against art itself, and the death of the radical avant garde. And throughout, scores of informatively captioned capsule biographies bring the works and personalities of twentieth-century art to life. The world of art is fast-paced and exciting, a world where ideas and influences never stop changing. The Arts, with its expansive scope and accessible format, brings this fascinating subject into perspective, vividly portraying the development of fine arts in a century when styles and tastes have been turned upside down again and again and again.

More than fifty years have passed since the twin crises of Lebanon and Taiwan dominated the news. These two events have faded into history and are often regarded as being, at best, footnotes in the histories of the Cold War. The world in which they took place seems to have passed away a long, long time ago. Yet, when reading these monographs, it became apparent that these two crises were profoundly important in terms of the effects they were to

have on American strategy throughout the rest of the century. Those effects are still in play today and even now they are affecting how the United States perceives the world and reacts to developments within it. Air Operations in the Taiwan Crisis of 1958 and Air Operations in the Lebanon Crisis of 1958 were prepared by the USAF Historical Division . This book is a compilation of those reports with substantial additional material that updates and complements the original material. However, the integrity of the original text has been scrupulously preserved.

[c: The Politics of Mexican-Origin Women's Reproduction, Elena R. Gutierrez](#) , 2009, 0292779186, 9780292779181. While the stereotype of the persistently pregnant Mexican-origin woman is longstanding, in the past fifteen years her reproduction has been targeted as a major social problem for the United States. Due to fear-fueled news reports and public perceptions about the changing composition of the nation's racial and ethnic makeup the so-called Latinization of America the reproduction of Mexican immigrant women has become a central theme in contemporary U. S. politics since the early 1990s. In this exploration, Elena R. Gutierrez considers these public stereotypes of Mexican American and Mexican immigrant women as "hyper-fertile baby machines" who "breed like rabbits." She draws on social constructionist

perspectives to examine the historical and sociopolitical evolution of these racial ideologies, and the related beliefs that Mexican-origin families are unduly large and that Mexican American and Mexican immigrant women do not use birth control. Using the coercive sterilization of Mexican-origin women in Los Angeles as a case study, Gutierrez opens a dialogue on the racial politics of reproduction, and how they have developed for women of Mexican origin in the United States. She illustrates how the ways we talk and think about reproduction are part of a system of racial domination that shapes social policy and affects individual women's lives.

This book is intended for mechanics, engineering mathematicians, and, generally for theoretically inclined mechanical engineers. It has its origin in my Master's Thesis (J 957), which I wrote under the supervision of Professor Dr. R. Timman of the Delft TH and Dr. Ir. A. D. de Pater of Netherlands Railways. I did not think that the surface of the problem had even been scratched, so I joined de Pater, who had by then become Professor in the Engineering Mechanics Lab. of the Delft TH, to write my Ph. D. Thesis on it. This thesis (1967) was well received in railway circles, which is due more to de Pater's untiring promotion than to its merits. Still not satisfied, I felt that I needed more mathematics, and I joined Professor Timman's group as an Associate Professor. This led to the present work. Many thanks are due to G. M. L. Gladwell, who thoroughly polished style and contents of the manuscript. Thanks are also due to my wife, herself an engineering mathematician, who read the manuscript through critically, and made many helpful comments, to G. F. M. Braat, who also read and criticised, and, in addition, drew the figures together with J. Schonewille, to Ms. A. V. M. de Wit,

Ms. M. den Boef, and Ms. P. c. Wilting, who typed the manuscript, and to the Publishers, who waited patiently. Delft-Rotterdam, 17 July 1990. J. J.

[Fabulous Parties: Food and Flowers for Elegant Entertaining, Mark Held, Richard David, Peggy Dark](#) , 2010, 1845979540, 9781845979546. Packed with advice and inspiration from three of Los Angeles most popular party providers, Fabulous Parties reveals their professional secrets and enables you to create your own sensational celebration for any occasion. Drawing on many years of hands-on experience as floral designers and caterers to Los Angeles A-listers, Mark Held and Richard David of Marks Garden and Peggy Dark of The Kitchen have adapted the principles of putting together a large, lavish event to a more intimate scale and lower budget. The harmonious relationship between food and flowers is clearly shown in beautiful, specially commissioned photographs, which showcase twenty themed events inspired by those created for their celebrity clients. All of the events included have a theme, dcor, and menu. Choose from a Rustic Italian Party, a colorful Caribbean Dinner, a lavish New Years Eve celebration, an elegant Wine Tasting, or a glamorous Pink Ladies Luncheon, plus many more. Useful practical instruction on how to achieve professional results at home is given in a section on Floristry Tips and Techniques. Celebrity clients who enjoy parties created by Marks Garden and The Kitchen include Oprah Winfrey, Cher, Diane Keaton, George Clooney, Teri Hatcher, Tommy Hilfiger, Donatella Versace, and many more. I have used Marks Garden for flower arrangements for over a decade, and they never get old or predictable. Lisa Marie Presley.

[Not A Penny More, Not A Penny Less, Jeffrey Archer](#) , 2008, 0330461974, 9780330461979. One million dollars - that's what Harvey Metcalfe, lifelong king of shady deals, has pulled off with empty promises of an oil bonanza and instant riches. Overnight, four men - the heir to an earldom, a Harley Street doctor, a Bond Street art dealer and an Oxford don - find themselves penniless. But this time Harvey has swindled the wrong men. They band together and shadow him from

the casinos of Monte Carlo to the high-stakes windows at Ascot and the hallowed lawns of Oxford. Their plan is simple: to sting the crook for exactly what they lost - not a penny more, not a penny less. [Perfection of Character: Guiding Principles for the Martial Arts & Everyday Life, Teruyuki Okazaki](#) , 2006, 0978576322, 9780978576325. Master Teruyuki Okazaki, Chairman and Chief Instructor of the International Shotokan Karate Federation, is revered as one of the greatest karate masters of our time. At 75 years of age, he moves with the speed and grace of an athletic man in his twenties. He smiles broadly and laughs easily, defying the somber stereotype of a martial arts master. His warmth, humility, and understanding of the human condition are obvious to all who encounter him. "Karate practitioners and other martial artists must know that the martial arts are about more than physical development, self-defense, and competition; most importantly, they are about continually striving to perfect one's character," Master Okazaki explains. This is the message that Master Okazaki's own teacher, Master Gichin Funakoshi, the father of modern karate, most wanted to emphasize as well. To this end, Master Funakoshi articulated two sets of principles, the Dojo Kun, and the Niju Kun. The Dojo Kun are the five guiding, general principles of karate; and the Niju Kun are the twenty specific and subordinate principles of karate, which encompass morality, technique, and proper mindset. In this book, Master Okazaki draws out the deep and hidden wisdom from these seemingly simple principles in a light and lucid fashion, and emphasizes that the principles of karate are principles for living a peaceful, fulfilling, and happy life. This profound book is not just for karate practitioners and martial artists; it is a book for all who genuinely seek to become the best person they can be.

[Missing Witness, Gordon Campbell](#) , 2007, 006133751X, 9780061337512. In this electrifying debut thriller, a brilliant defense lawyer takes on a murder case with ingenious twistsPhoenix, Arizona, 1973. A beautiful woman, armed with a gun and accompanied by her twelve-year-old daughter, enters a house. Shots are fired. The woman and her daughter leave the house. Inside, her husband lies dead. The case seems open and shut. The cops, the attorney general's office, and the media are certain the woman is guilty. The only witness to the shooting is in a catatonic state and cannot testify. But the murdered man's wealthy father believes he owes the woman something and hires Dan Morgan, the best lawyer in Phoenix, to defend her. When the legendary criminal attorney takes on a case it's to win, no matter what the odds. But for Morgan and his young protégé, Doug McKenzie, there are no easy answers, only mysteries, and the question of innocence and guilt take on profound new meaning. Combining the riveting suspense of Presumed Innocent with the raw ambition and power of All the King's Men, this full-bodied novel introduces a writer of great skill and insight into the human character.

[Pittsburg Landing, Robert Burns Clark](#) , 2012, 0985537507, 9780985537500. On April 6 and 7, 1862, 23,000 men were killed or maimed at an obscure post on the Tennessee River known as Pittsburg Landing. This is the story of two of those men; their bravery, their loves and their loss. Will Moore is a 42-year-old West Point graduate and veteran of the Mexican War. Although desperately opposed to a conflict pitting American against American, he volunteers and goes to Indiana to train his troops. There he is reacquainted with the family of an old friend. Will hasn't seen the daughter in 10 years, since he taught "little Sarah" to jump her horse. She is now 22, a skilled surgical assistant, beautiful and determined. Will is twice her age and still suffering from the loss of his wife and child to a fever epidemic 20 years earlier. Yet, he finds himself falling in love, a romance Sarah unashamedly pursues. They marry 10 days before he is called to the front. Believing she will never see her husband again, Sarah joins a surgical unit and arrives at the end of the first day of battle. Amos Bingham is also a veteran of the Mexican War where he single handedly killed 34 men in one bloody night. He has sworn to never kill again. He refuses to join the fighting, causing his Alabama neighbors and his 14-year-old son, Noah, to brand him a coward. Noah runs away to join the army and Amos rushes to save him. He vows to destroy everything that gets in his way, no matter the color of the uniform. They all meet at a terrible place called Pittsburg Landing. Although a work of historical fiction, the characters and events in this book are based on fact.

[Ecology and evolution of flowers, Lawrence D. Harder, Spencer Charles Hilton Barrett](#) , 2006, 0198570864, 9780198570868. The reproductive organs and mating biology of angiosperms exhibit greater variety than those of any other group of organisms. Flowers and inflorescences are also the most diverse structures produced by angiosperms, and floral traits provide some of the most compelling examples of evolution by natural selection. Given that flowering plants include roughly 250,000 species, their reproductive diversity will not be explained easily by continued accumulation of case studies of individual species. Instead a more strategic approach is now required, which seeks to identify general principles concerning the role of ecological function in the evolution of reproductive diversity. The Ecology and Evolution of Flowers uses this approach to expose new insights into the functional basis of floral diversity, and presents the very latest theoretical and empirical research on floral evolution. Floral biology is a dynamic and growing area and this book, written by the leading internationally recognized researchers in this field, reviews current progress in understanding the

evolution and function of flowers. Chapters contain both new research findings and synthesis. Major sections in turn examine functional aspects of floral traits and sexual systems, the ecological influences on reproductive adaptation, and the role of floral biology in angiosperm diversification. Overall, this integrated treatment illustrates the role of floral function and evolution in the generation of angiosperm biodiversity. This advanced textbook is suitable for graduate level students taking courses in plant ecology, evolution, systematics, biodiversity and conservation. It will also be of interest and use to a broader audience of plant scientists seeking an authoritative overview of recent advances in floral biology.

[The Oxford Handbook of the Economics of Religion, Rachel M. McCleary](#) , 2010, 0199781281, 9780199781287. This is a one-of-kind volume bringing together leading scholars in the economics of religion for the first time. The treatment of topics is interdisciplinary, comparative, as well as global in nature. Scholars apply the economics of religion approach to contemporary issues such as immigrants in the United States and ask historical questions such as why did Judaism as a religion promote investment in education? The economics of religion applies economic concepts (for example, supply and demand) and models of the market to the study of religion. Advocates of the economics of religion approach look at ways in which the religion market influences individual choices as well as institutional development. For example, economists would argue that when a large denomination declines, the religion is not supplying the right kind of religious good that appeals to the faithful. Like firms, religions compete and supply goods. The economics of religion approach using rational choice theory, assumes that all human beings, regardless of their cultural context, their socio-economic situation, act rationally to further his/her ends. The wide-ranging topics show the depth and breadth of the approach to the study of religion.

Archaeology has an aura of romance and a long history of startling discoveries wrested from clinging soil. Indeed, patience and persistence can lead to spectacular finds, as they did for Howard Carter in November 1922. After seven years searching the Egyptian desert, Carter discovered the tomb of Tutankhamun, and in these vivid words he described what the tomb held in store: "At first I could see nothing, the hot air escaping from the chamber causing the candle flame to flicker, but presently, as my eyes grew accustomed to the light, details of the room within emerged slowly from the mist, strange animals, statues, and gold--everywhere the glint of gold." In Eyewitness to Discovery, Brian M. Fagan gathers together fifty-five vivid accounts of the world's greatest archaeological discoveries, from the tomb of Tutankhamun and the Aegean Marbles to Otzi the Iceman and Macchu Picchu, told by the people who discovered them. The selections chronicle the development of the field, from the early

1700s when archaeology was little more than a lighthearted treasure hunt, to the late twentieth century when discoveries often come not only from spectacular excavations, but also from the screens of computers or from the analysis of pollen grains invisible to the naked eye. Fagan provides engaging, informative introductions to each selection, as well as an introduction to the volume, that lays out the history of archaeology. But the heart of the book is the excitement of the discoveries themselves. We see how Arthur Evans found clues on Minoan seals in an Athens flea market that helped him discover the Palace of Knossos and a long forgotten early civilization; how Austen Henry Layard--one of the heroic archaeologists of the nineteenth century--discovered ancient Nineveh; and how General Napoleon Bonaparte's soldiers found the Rosetta Stone, one of the most important archaeological finds in history, in the Nile Delta in 1799. And we read how, in 1974, Don Johanson, while working in the center of the Afar desert in Ethiopia--a wasteland of bare rock, gravel, and sand--happened upon the oldest, most complete skeleton of any human ancestor that had ever been found: Lucy, approximately 3.5 million years old. Archaeological discovery unveils the past and brings us face to face with the triumphs and tragedies of those who have gone before. This book is a celebration of archaeological discoveries, and the men and women who made them.

[North of Capricorn: The Untold Story of the People of Australia's North, Henry Reynolds](#) , 2005, 1741145813, 9781741145816. Leading Australian historian Henry Reynolds brings to life the country's diverse and thriving far North in the last years of the 19th century - and the changes that were wrought there by a new national government obsessed with 'racial purity'. A major work; densely illustrated and thoroughly researched.

New Headway Beginner is aimed at absolute beginners, or those who have learned a little English but lack the confidence to build on it. It provides a solid foundation for New Headway Elementary. Its measured, step-by-step approach builds both skills and confidence. The right mix of language work and plentiful practice material enables learners to consolidate their knowledge of key points before proceeding further. The clearly defined grammatical syllabus includes past, present and future time and provides a thorough basis on which to build. The presentation of new language is gradual, methodical and clearly structured, giving learners a clear sense of progression. The vocabulary syllabus focuses on high-frequency survival terms and avoids overload. The gradual introduction of simple skills work with manageable communicative activities give learners a sense of achievement. 'Everyday English' practises social expressions in common situations and shows how learners can apply their knowledge in practical ways.

Cal Gibson rode horses with his father as a boy. Now, fifty years later and a lone rural relic, his lifestyle continues in the countryside of Missouri as well as in its neighboring states, the South, and West, despite the impersonal advances of technology. He is a cowboy. Southwest Missouri's oak forests, native prairies, grass-covered hills, and cattle operations second only to Texas, are Cal's home. Here as a young man, he gains the devotion of a lovely woman, but is forced to walk away. He makes do, however painfully, throughout his remaining years. Yet, here, too, Cal has held tight to friends that last and stand with him when the going gets tough. Cal and his six lifelong companions provide a final burst of heartfelt determination and courage that unknowingly fosters revolution in a land written off as soft, spoiled, and doomed by greed. Cal's violent but heroic end spells out how this brave cowboy near sixty contributes more to his small community, his state, and his country during a cold December and January, than anyone could dare hope in a string of lifetimes. This intense but uplifting story tells of the heartland and its real people, their loves, tragedies, and spirit in terrible times. Cal Gibson grows to be a lone rock of decency and hope holding on in midstream as a fearful river rises. He provides the steady hand his community needs to cope with a calamity that today is all too possible. Impressed by the independence of American farmers and ranchers, the author has chronicled measured doses of their wisdom and grit in his writing. Although leaving rural Missouri repeatedly, his love of the land and family have always drawn him back and added a keener edge to his storytelling.

Patterns A to Z is a unique resource that presents a large variety of silhouettes to encourage teachers and families to use open-ended activities with young children. The reproducible patterns may be copied and cut out to allow children to engage in open-ended art activities, as well as in language arts, manipulative, math, and circle time areas. Designed to be used with a range of units, the patterns fulfill children's needs to be creative without the fear of "going outside the lines." The sections are alphabetized to help experienced and new teachers find patterns for a theme-based curriculum, to incorporate a letter of the week, or provide a spur of the moment classroom activity. Many pattern choices are given for each targeted alphabet letter and the variety of patterns allows teachers to complete a year's worth of activities. A theme-specific index makes activities to accompany units easy to find, and the sample Family Letter encourages active family participation from all families. Patterns A to Z provides a plethora of silhouettes to enhance the child's experience with open-ended activities. Children, teachers, and families will enjoy working with the many patterns as they explore different themes and share in unique learning experiences.

[Coleridge's Play of Mind, John Beer](#) , 2010, 0191576743, 9780191576744. Eminent Coleridgean scholar John Beer presents a series of biographical investigations exploring Coleridge's life, stage by stage, and reconsidering the intellectual quality of his thinking and poetry through an emphasis on the notion of 'play'. Beginning and ending with brief accounts of the poet's childhood and last years, the book's seventeen chapters each take a passage of Coleridge's life and characterise the nature and function of an abiding playful element in his consciousness. In combination they form a detailed, full, and humane treatment of Coleridge's life, focusing on topics such as his interest in psychology, his poetry, his literary collaboration with William and Dorothy Wordsworth, his hopeless love for William's sister-in-law, his literary criticism, including a new approach to Shakespeare, and his work towards a refreshing of contemporary religious beliefs and practices.

[Elvis Presley: Memphis, Mark Bernardo](#) , 2011, 0984623906, 9780984623907. Weaving the story of the King's personal and public life with detailed descriptions of the locations in Memphis that served as the setting for his musical education and evolution, this pop culture guide offers a refreshingly even-handed account of Elvis Presley's life. Elvis came to Memphis as a 13-year-old boy, and within a few years, he was shocking and seducing the world with a mixture of moves and sounds he had first seen and heard in the city's streets, churches, and bars. This comprehensive tour of places on which Elvis left his mark includes the Peabody Hotel, where he had his senior prom; Ellis Auditorium, where he played his first show; the Sun Studio, where he recorded his first singles; Lansky Brothers Clothiers, where he bought his suits; and Graceland, where he lived with his wife Priscilla and died in 1977. Anecdotes about each of the locations and how they shaped Elvis's personal and musical identity enhance the travel information, while street maps and a handy size make this book an invaluable companion to Memphis visitors and lovers of rock and roll.

He was a kid from the wrong side of the tracks who fought through life the only way he knew how: with his fists. But Rafer never meant to bring any harm to Cambria Flannigan, the girl he loved whose sister he'd been unable to save. Cambria lost her sister in the brutal murders that rocked her hometown so many years ago. Some still believe that Rafe, along with his friends Logan and Crowe, were involved. But how could Rafe, who haunted her girlish dreams, then her adult fantasies, be a killer? That is

technical triumph, the BPF was uniquely complex in its make-up: its C-in-C was responsible to the Admiralty for the general direction of his Fleet; took operational orders from the American Admiral Nimitz; answered to the Government of Australia for the construction and maintenance of a vast base infrastructure, and to other Commonwealth Governments for the ships and men that formed his fully-integrated multi-national fleet. This ground-breaking new work by David Hobbs describes the background, creation and expansion of the BPF from its first tentative strikes, through operations off the coast of Japan to its impact on the immediate post-war period, including the opinions of USN liaison officers attached to the British flagships. The book is the first to demonstrate the real scope and scale of the BPF's impressive achievement.

[The Spirit of Life: A Universal Affirmation, Jrgen Moltmann](#) , 2001, 0800634241, 9780800634247. Moltmann, "the foremost Protestant theologian in the world" (Church Times), brings his characteristic audacity to this traditional topic and cuts to the heart of the matter with a simple identification: What we experience every day as the spirit of life is the spirit of God. Such considerations give Moltmann's treatment of the different aspects of life in Spirit a verve and vitality that are concrete and existential. Veteran readers will find here a rich and subtle extension of Moltmann's trinitarian and christological works, even as he makes bold use of key insights from feminist and ecological theologies, from recent attention to embodiment, and from charismatic movements. Newcomers will find a fascinating entree into the heart of his work: the transformative potential of the future. Moltmann develops a theology of the Holy Spirit that links the Christian community's experience of the Spirit to the sanctification and liberation of life. He brilliantly displays the ecological and political significance of Christian belief in the Trinity.

[Heart of the Matter, Kevin Neptune](#) , 2010, 3838343751, 9783838343754. Heart of the Matter provides one of the most unique examinations of World War II in that it is experienced through the eyes of a major oil company, and the oil

industry in general. Phillips Petroleum's wartime activities have been broken down into four major areas: research and development of oil technology as it affected Allied armies in the field; conservation programs that affected the ability to industrially and financially support the Allies; manpower and labor issues as women filled the void left by men in military service; and the politics and diplomacy of securing and expanding oil supplies while waging war. How important was oil? After the war, Commander-in-Chief of the American Pacific Fleet Admiral Chester W. Nimitz stated, "Oil and oil products constituted more than twice the combined tonnage of all other supplies shipped overseas, including men, weapons, ammunition, and food." Uncovering the wartime activities of Phillips 66 provides a fascinating account of the depths to which the American oil industry dove to ensure victory over the Axis powers.
