

[Turning Terrible Into Terrific: Changing Your Life at the Speed of Thought, Dennis Cummins](#) , 2012, 0986013005, 9780986013003. You can do anything you set your mind to, if you're willing to do some work. You don't need anyone to help you with the lessons you learn when things go right. But wouldn't it be great to have help to get through the times when things don't go right—the tough times, the hard times, the terrible times? Wouldn't it be great to have fewer terrible times? And when you do have them, wouldn't it be nice to have tools to get through them as quickly and as easily as possible? Presented in a practical, easily digestible way, based on real-world results, Turning Terrible into Terrific offers tools to enable you to change your life at the speed of thought. It will most likely poke the part of your brain and your heart that needs to be awakened the most, whether you like it or not.

[Come to Life, CREATSPACE](#) , 2005, 0970526512, 9780970526519. This beautiful, very informative, little book exposes all established religions for what they are truly! Come To Life leaves absolutely NO stone unturned! It teaches one to make a clear distinction between belief, history, and wishful thinking! It offers a "true" path to acquiring immortality on earth, and it provides a common-sense diet to help make this mission complete. This book will attempt to rid the reader of all superstitious beliefs and will attempt to replace those beliefs with reality. In essence, this book will attempt to help one understand oneself; one's relationship with one's inner being; and one's purpose.

[The George Bush Avenger Coverup: A Citizen's Appeal to Congress, Kenneth L. Hayden](#) , 2003, 0974289507, 9780974289502. "The author was sued for interfering with fraudulent \$5.4 million contract to retrieve the George H.W. Bush WWII Avenger airplane from Lake Michigan to edify the Bush image in the National Museum of Naval Aviation during H.W.'s and son's political campaigns. DOD assets valued at millions illegally diverted from U.S. Treasury by token payment of highly-placed CIA agent to Bush fundraising organization. Deceptive scam caused monumental financial

damage to American taxpayers and the author. Exceeds ""Watergate"" and ""Teapot Dome"" scandals."

[Creationism's Trojan Horse: The Wedge of Intelligent Design, Barbara Forrest, Paul R. Gross](#) , 2004, 0198035780, 9780198035787. Forrest and Gross expose the scientific failure, the religious essence, and the political ambitions of "intelligent design" creationism. They examine the movement's "Wedge Strategy," which has advanced and is succeeding through public relations rather than through scientific research. Analyzing the content and character of "intelligent design theory," they highlight its threat to public education and to the separation of church and state.

[Lassi, Publishing Inc H&h, H & H Publishing, Publishing Inc H&h Publishing Inc, H&h Publishing H & H Publishing](#) , 2005, 0131723154, 9780131723153. What is the LASSI assessment and what does it measure? Nine years of research, development, and testing led to the creation of this statistically valid and reliable tool for the diagnosis of study skills. The LASSI is a 10-scale, 80-item assessment of students' awareness about and use of learning and study strategies related to skill, will and self-regulation components of strategic learning. The focus is on both covert and overt thoughts, behaviors, attitudes and beliefs that relate to successful learning and that can be altered through educational interventions. Research has repeatedly demonstrated that these factors contribute significantly to success in college and that they can be learned or enhanced through educational interventions such as learning and study skills courses.

The second of Jean Plaidy's Tudor series, continuing the life of Katharine of Aragon in this story of a remarkable royal marriage that inspired some of history's bloodiest deeds ...The young Spanish widow, Katharine of Aragon, has become the pawn between two powerful monarchies.After less than a year as the wife of the frail Prince Arthur, the question of whether the marriage was ever consummated will decide both her fate and England's.But whilst England and Spain dispute her dowry, in the wings awaits her unexpected escape from poverty: Henry, Arthur's younger, more handsome brother - the future King of England.He alone has the power to restore her position, but at what sacrifice?

[Expression in Speech: Analysis and Synthesis, Mark Tatham, Katherine Morton](#) , 2004, 0199250677, 9780199250677.

This book is about the nature of expression in speech. It is a comprehensive exploration of how such expression is produced and understood, and of how the emotional content of spoken words may be analysed, modelled, tested, and synthesized. Listeners can interpret tone-of-voice, assess emotional pitch, and effortlessly detect the finest modulations of speaker attitude; yet these processes present almost intractable difficulties to the researchers seeking to identify and understand them. In seeking to explain the production and perception of emotive content, Mark Tatham and Katherine Morton review the potential of biological and cognitive models. They examine how the features that make up the speech production and perception systems have been studied by biologists, psychologists, and linguists, and assess how far biological, behavioural, and linguistic models generate hypotheses that provide insights into the nature of expressive speech. The authors use recent techniques in speech synthesis and automatic speech recognition as a test bed for models of expression in speech. Acknowledging that such testing presupposes a comprehensive computational model of speech production, they put forward original proposals for its foundations and show how the relevant data structures may be modelled within its framework. This pioneering book will be of central interest to researchers in linguistics and in speech science, pathology, and technology. It will also be valuable for behavioural and cognitive scientists wanting to know more about this vital and elusive aspect of human behaviour.

[One-person Puppetry Streamlined and Simplified: With 38 Folktale Scripts, Yvonne Amar Frey](#) , 2005, 0838908896, 9780838908891. Most guides to puppetry assume multiple puppeteers, large stage, elaborate props, custom-designed puppets and more. With library staffing and budgets stretched thin, and other curricular commitments for teachers, few have the time or resources to develop full-blown puppet performances. Expert author Frey provides a much-needed

puppet alternative to enrich story times, book talks, and other library events for children of all ages. make solo amateur puppetry painless, cost-effective - and fun! In Part One, Frey shares the techniques to: Create a stage that one person can carry and fit in a car. Make puppets out of easily available materials (stuffed animals, doll heads, papier mache). Learn stage secrets for warming up. Plan for a streamlined tale - performed by just a couple of characters, supplemented with a narrator. fractured fairy tales, folk tales from around the globe (Japan, Tibet, Russia, Arabia) and adaptations of Aesop's Fables. Also plan for entertaining patter between these short plays - songs, parodies, jokes, riddles, and the large puppet that can serve as the introducer. Children's librarians, teachers, pre-school programs, even parents and home-schoolers can entertain their audiences using this simple proven system.

[The Mighty Experiment: Free Labor Versus Slavery in British Emancipation, Seymour Drescher](#) , 2004, 0195176294,  
9780195176292. By the mid-eighteenth century, the transatlantic slave trade was considered to be a necessary and stabilizing factor in the capitalist economies of Europe and the expanding Americas. Britain was the most influential power in this system which seemed to have the potential for unbounded growth. In 1833, the British empire became the first to liberate its slaves and then to become a driving force toward global emancipation. There has been endless debate over the reasons behind this decision. This has been portrayed on the one hand as a rational disinvestment in a foundering overseas system, and on the other as the most expensive per capita expenditure for colonial reform in modern history. In this work, Seymour Drescher argues that the plan to end British slavery, rather than being a timely escape from a failing system, was, on the contrary, the crucial element in the greatest humanitarian achievement of all time. The Mighty Experiment explores how politicians, colonial bureaucrats, pamphleteers, and scholars taking anti-slavery positions validated their claims through rational scientific arguments going beyond moral and polemical rhetoric, and how the infiltration of the social sciences into this political debate was designed to minimize agitation on both sides and provide common ground. Those at the inception of the social sciences, such as Adam Smith and Thomas Malthus, helped to develop these tools to create an argument that touched on issues of demography, racism, and political economy. By the time British emancipation became legislation, it was being treated as a massive social experiment, whose designs, many thought, had the potential to change the world. This study outlines the relationship of economic

growth to moral issues in regard to slavery, and will appeal to scholars of British history, nineteenth century imperial history, the history of slavery, and those interested in the history of human rights. The Mighty Experiment was the winner of First Prize, Frederick Douglass Book Prize, Gilder Lehrman Center for the Study of Slavery, Resistance, and Abolition.

[The Daughter Also Rises: How Women Overcome Obstacles and Advance in the Family-Owned Business, Anne E. Francis](#) , 1999, 0945213387, 9780945213383. Women who want to succeed in their family's businesses face situations and challenges that don't often arise in publicly-held companies. When the boss is your father -- or any relative -- a relationship already exists into which a business partnership must fit. It isn't easy being the apple of Daddy's eye and his righthand associate. The Daughter Also Rises is the first book of its kind, written directly to these women. In an

accessible, comprehensive manner, the book addresses the problems and advantages of working with the people you grew up with. It is divided into two sections: the first profiles the family and the relationships behind the business, while the second assesses the skills needed to lead the business. Throughout *The Daughter Also Rises*, readers will hear from women whose successes they will want to model, and from those whose failures they will work to avoid. They will hear not only from daughters, but also from founding fathers -- because in all but a few cases men still found the business. Readers will hear from mothers -- who in all but exceptional cases are still silent partners. They will meet siblings, friends, and spouses of women who grew up in business families. These voices will teach readers about the painful realities as well as the exciting possibilities for women working in the family enterprise. Interspersed with these anecdotes from life on the inside are carefully designed exercises, checklists, and self-evaluation tests. Working through them, readers will be able to assess their own readiness to advance in the business. *The Daughter Also Rises* will teach women how to develop themselves and their careers to be the best leaders to take the business into the next generation.

[Coated With Fur: A Vet's Life, Kristen Nelson](#) , 2010, 1936278006, 9781936278008. Set in the suburbs of the Twin Cities, this book chronicles the triumphs and trials Dr. Kristen Nelson faced in starting a veterinary practice of her own. Before the clinic was ready and open for business, the first patient arrived in critical condition. Cody, an Australian cattle dog, never saw the car that hit him. The impact caused a life-threatening condition called pneumothorax. He lay on the floor gasping for breath with white foam pouring from his mouth. With the help of Veterinary Technician Allie Knutson, Kris used the few supplies available to save Cody's life. Once the clinic officially opened, Dr. Nelson and Allie began to see patients. Rich Harris arrived with his dog just before eight. Ivan had a hotspot on his side that made him uncomfortable. The large Doberman stared at Kris' collection of rescued parrots during the entire visit. Before leaving, he sat on Kris' foot. It was his way of telling Kris he liked her. Besides the parrots, a tortoiseshell kitten lived at the clinic. Kris and her husband, Steve, adopted Genny when she was a day old. Because she was missing a back leg, the owner no longer wanted her. The little orphan grew into a precocious teenager who thought she owned the place. She loved to sit in front of the kennels and torment the hospitalized patients. Genny was the first of many animals rescued by Kris. As the year progressed, many wonderful animals came to the Minnesota Veterinary Center for care. One cold January night, a ferret needed emergency surgery after swallowing a piece of plastic. Moe bit the foot off his favorite toy which got stuck in his intestines. In the spring, a Maltese named Sugar developed a serious blood disorder called autoimmune hemolytic anemia. The love and support of her owner helped her through two blood transfusions and surgery. In the summer, Trudy, a dog owned by the U.S. Customs Service was poisoned with rat bait. Genny tried to steal Trudy's food right out from under her. The book ends on a busy Saturday in late August. After saying goodbye to a wonderful gerbil named Chewy, fate smiled on Kris with the perfect appointment. Golden retrievers, Sam and Ashley needed a little help becoming parents. Kris enlisted the help of Steve and her father, Gordon Lindstrom, to collect the semen from Sam and pipette it into Ashley. She never realized how uncomfortable this would make her devoutly religious father.

[Entrepreneurship: Strategies and Resources, Marc J. Dollinger](#) , 2003, 0130909955, 9780130909954. Based on the

premise that entrepreneurship can be studied systematically, this book offers a comprehensive presentation of the best current theory and practice. It takes a resource-based point-of-view, showing how to acquire and use resources and assets for competitive advantage. Chapter topics entrepreneurial strategies; the business plan; e-entrepreneurship; foundations of new venture finance; securing investors and structuring the deal; building the organization; and corporate venturing, networking, and franchising. For entrepreneurs, potential investors, and corporate staff in charge of new business development.

[Business Ethics: Concepts and Cases, Manuel G. Velasquez](#) , 2002, 0130938211, 9780130938213. This book provides readers with a clear, straightforward writing style, an abundance of examples, detailed real-life cases, and current data and statistics. It aims to 1) introduce ethical concepts that are relevant to resolving moral issues in business, 2) develop the reasoning and analytical skills needed to apply ethical concepts to business decisions, 3) identify the moral issues involved in the management of specific problem areas in business, and 4) examine the social and natural environments within which moral issues in business arise. Chapter topics cover ethics and business, ethical principles in business, the business system, ethics in the marketplace, ethics and the environment, the ethics of consumer production and marketing, the ethics of job discrimination, and the individual in the organization. For anyone in business.

[Appreciative Living: Getting Started, Jacqueline Kelm](#) , 2011, 0977216128, 9780977216123. This first book in the Appreciative Living mini series features an overview of the principles of Appreciative Inquiry applied to daily living. It includes simple exercises and templates that will help you apply the ideas to your own life to create greater joy.

[The Court of the Caliphs: The Rise and Fall of Islam's Greatest Dynasty, Hugh N. Kennedy](#) , 2004, 0297830007, 9780297830009. Professor Hugh Kennedy makes no apology for the 'fair share of booze and sex' involved in The Court of the Caliphs. Every element of his story is drawn from the original Arabic texts: 'the writers of the ninth and tenth centuries knew their rulers had their fair share of human frailties and were quite happy to describe them. To produce a sanitized and whitewashed version of history does no service to our understanding of the caliphate.' In this fast-paced and colourful narrative, Professor Hugh Kennedy takes us back to Baghdad and Samarra and the glory days of the Caliphate. From a rebellion planned in a remote desert town to the founding of Baghdad in AD 762, the rule of the Abbasid dynasty was looked back on as the golden era of the Islamic Conquest. The muslim world was ruled by a single sovereign, who waged holy war against the Byzantines and protected the holy cities of Mecca and Medina. For what was to be the last time in history, a mighty empire was based on the ancient Mesopotamian heartland that had once supported the Sumerians, Babylonians and Assyrians. The Caliphs formed the model for succeeding muslim regimes. From military conquests to patronizing poetry, building palaces, and the formal structure of the court - harems, viziers, eunuchs and the tales of the Arabian Nights - the Abbasid Caliphate and offered a historical ideal for later empires and their rulers to aspire to. Yet the true story of this fascinating empire has been forgotten outside the academic world. And

it deserves to be rescued: it is an epic story in every sense, with larger-than-life rulers, exotic slave girls, inventive tortures, and enough court intrigue to frighten a Borgia.

[Oxford Textbook of Medicine: Infection, David Warrell, Timothy M. Cox, John Firth, Este Trk](#) , 2012, 0199652139, 9780199652136. The Oxford Textbook of Medicine: Infection is selected from the infection section of the renowned Oxford Textbook of Medicine, Fifth Edition. The book is an authoritative resource on infectious diseases. Comprehensive in its coverage and beautifully illustrated in full colour, it is an essential guide to the present-day management and prevention of a wide variety of infectious diseases. Covering diseases that are both familiar and tropical as well as those that continue to emerge, medical professionals will find it immensely valuable when diagnosing and preventing infection in their day-to-day practice. In 121 chapters, experts in infectious diseases from across the world review the essentials of current infectious disease practice and provide a wealth of practical advice that medical professionals can use in clinical situations. In addition, background information on epidemiology, pathogenesis and pathophysiology encourages a fuller understanding of conditions, and over 250 full colour images help with diagnosis when treating patients. A commanding discussion of infectious diseases from both Western and tropical countries, the Oxford Textbook of Medicine: Infection provides detailed information on a extensive range of viruses, bacteria, fungi, protozoa and helminths. Vast in scope and truly global in reach, chapters span a variety of topics including, pathogenic microorganisms and the host, the patient with suspected infection, travel and expedition medicine, and non-venomous arthropods. They reflect the globalization of disease that has resulted from the unprecedented increase in international travel and immigration, as well as natural/man-made disasters that demand massive international aid efforts. This up-to-date and essential reference tool, supports all medical professionals in the treatment and prevention of infectious diseases. It will be of particular value to clinicians working in, or seeing patients from the developing world, due to the wide range of pathogens discussed. It also supports those taking diploma courses in Tropical Medicine and Hygiene, and HIV medicine. No infectious disease specialist or trainee should be without a copy of this definitive resource.

[Knife Skills, Marcus Wareing](#) , 2012, 1409376648, 9781409376644. Perfect your knife skills with the help of Michelin-starred chefs Chopping, slicing, dicing, carving, filleting, and boning - knife skills are fundamental to good cooking, and Knife Skills demonstrates every technique with clear step-by-step colour photographs. Now in paperback and with a new cover look and written by Michelin-starred chefs, Marcus Wareing, Shaun Hill and Charlie Trotter, and Lyn Hall from the renowned La Petite Cuisine School of Cooking, discover how to cut to perfection from carving a roast and filleting fish to preparing fruit and vegetables. Plus, know your knives; find out which equipment to use for particular tasks and how to keep your utensils in peak condition. Choose your tools, sharpen your talents and master techniques to give you the culinary edge with Knife Skills.

[Chocolate creams and dollars, Mohammed Mrabet, Paul Bowles](#) , 1992, . Mohamed Mrabet, born in Tangiers, around 1940. Early he chose the freedom of the street; fisherman, boxer, illiterate storyteller; in 1965 he met Bowles who started taping & translating his stories. Since 1967 fifteen books have been published in eight languages. Mrabet's language is a maze like the thousand alleys of the Medina - seductive, but dangerous - without a guide one is lost in suggestions & allusions. Mrabet says "A tongue tells a thousand truths, but you always only want to hear one." This is a loosely autobiographical novel. Again & again in his story the tension between two cultures becomes clear - they reject themselves like opposite poles, only seldom coming together. Writer, composer, musicologist PAUL BOWLES, born in 1910, is one of the greatest living American writers. He has translated twelve of Mrabet books from Moghrebi. After 25 years, this is their final collaboration. Philip Taaffe, painter, has had major shows in galleries & museums worldwide. His work is in MOMA's permanent collection. He has travelled extensively in North Africa. His photographs taken in Morocco, found images, & numerous 1970s Moroccan 45 record covers, delve into Mrabet's themes poignantly & provocatively. NUMBERED LIMITED EDITION. Signed by Mrabet, Bowles, Taaffe. Each with UNIQUE HANDPRINT by Taaffe. \$550. Telephone: 212-691-4022. FAX: 212-243-8825.

[Payoff artillery - WWII: the wide-ranging combat of the battalion that fought under five armies and eight divisions in the European Theatre, Frank H. Armstrong](#) , 1993, 0963244817, 9780963244819. America's semi-centennial look at the liberation of Fortress Europe. Artillery troops, constituting fewer than 10% of U.S. forces, inflicted most German casualties in their sector. The European Theatre of Operations is viewed by the artillery battalion which was attached to eight divisions & whose terrain varied from the left flank to the right flank of U.S. forces. In this wartime experiment, the men were sent directly to their wartime assignments from the reception center. The combat performance of this battalion became a testing ground for the necessity of a "boot camp." Liberating enslaved people for 268 continuous days had a remarkable effect on the soldiers. One anecdote is from an artillery observer who was with the troops that liberated Dachau. The Millen Castle Affair on the Dutch-German border terminated the careers of 35 senior German officers. The close-range direct-fire artillery duel at Nuremberg evidenced U.S. military excellence. Numerous first-person anecdotes & input from more than 100 veterans are included. U.S. & European homefront reactions to developments are cited. To order: Bull Run of Vermont, 7 Deborah, South Burlington, VT 05403-7816. \$21 plus \$3 P&H.

[The Ethiopian Revolution: War in the Horn of Africa, Gebru Tareke](#) , 2009, 0300156154, 9780300156157. Revolution, civil wars, and guerilla warfare wracked Ethiopia during three turbulent decades at the end of the twentieth century. This book is a pioneering study of the military history and political significance of this crucial Horn of Africa region during that period. Drawing on new archival materials and interviews, Gebru Tareke illuminates the conflicts, comparing them to the Russian and Iranian revolutions in terms of regional impact. Writing in vigorous and accessible prose, Tareke brings to life the leading personalities in the domestic political struggles, strategies of the warring parties, international actors, and key battles. He demonstrates how the brutal dictatorship of Mengistu Haile Mariam lacked imagination in responding to crises and alienated the peasantry by destroying human and material resources. And he describes the delicate balance of persuasion and force with which northern insurgents mobilized the peasantry and triumphed. The book sheds invaluable light not only on modern Ethiopia but also on post-colonial state formation and insurrectionary politics worldwide.

[The Blood Gospel, James Rollins, Rebecca Cantrell](#) , 2013, 1409146391, 9781409146391. When a devastating earthquake in Masada, Israel, reveals a tomb buried in the heart of the mountain, a trio of investigators - Sergeant Jordan Stone, a military forensic expert; Father Rhun Korza, a Vatican priest; and Dr Erin Granger, a brilliant archaeologist - are sent to explore the macabre discovery, a subterranean temple holding the crucified body of a mummified girl. But a brutal attack at the site sets the three on the run, thrusting them into a race to recover what was once preserved in the tomb's sarcophagus: a book rumoured to have been written by Christ's own hand, a tome that is said to hold the secrets to His divinity. But the enemy who hounds them is like no other, a force of ancient evil directed by a leader of impossible ambitions and incalculable cunning. From crumbling tombs to splendid churches, Erin and her two companions must confront a past that traces back thousands of years, to a time when ungodly beasts hunted the dark spaces of the world, to a moment in history when Christ made a miraculous offer, a pact of salvation for those who were damned for eternity. Here is a novel that is explosive in its revelation of a secret history. Why do Catholic priests wear pectoral crosses? Why are they sworn to celibacy? And why does Catholicism insist that the consecration of wine during Mass results in its transformation to Christ's own blood? The answers go back to a secret sect within the Vatican, one whispered as rumour but whose very existence was painted for all to see by Rembrandt himself, a shadowy order known simply as the Sanguines.

[The Trouble with Markets: Saving Capitalism from Itself, R. P. Bootle](#) , 2009, 1857884116, 9781857884111. "Compelling prescriptions from an economist unusually able to speak with authority because unlike most of his peers, Bootle spotted that the boom was unsustainable." Robert Peston, BBC Business Editor and author of Who Runs Britain? "This book will

stand out in the explosion of financial crisis literature. Roger Bootle is one of the top, practical economists in the financial world but he is not afraid to tackle the bigger, deeper questions around the future of capitalism, the role of markets and government."Vince Cable, MP, and author of *The Storm: The World Economic Crisis and What it Means* "R.

[Forty-Six Adirondack Sonnets, Jack Leonard Maranville](#) , 2005, 0977115305, 9780977115303. J. L. Maranville's intimate knowledge of the Adirondack Park is revealed in his rich descriptions and keen observations. Within the traditional fourteen-line verse form, Maranville evokes the great beauty of the region, offering a sonnet for each of the forty-six High Peaks. For the Adirondack's many visitors and full-time and seasonal residents, this book of poems will be a treasure to return to again and again.

[Hello World: Travels in Virtuality, Sue Thomas](#) , 2004, 0953658562, 9780953658565. 'Hello World' is the story of a life online. Part travelogue, part memoir, Sue Thomas draws on her online travels as well as her physical journeys in the USA, Australia, Spain and England. While the book is non-fiction, it is a direct descendent of 'Correspondence', Thomas extraordinary novel that also deals with the synergies between digital and physical worlds. Like its fictional counterpart,

Hello World will trigger feelings in readers of recognition and will stimulate debate on the nature of the physical in a wired world for years to come. First published in 2004. 'This is a book about a love affair. It's also a meditation on a phenomenon that has changed not just our lives but our perceptions of ourselves.' The Independent. '...an essential tour guide to the poetics of time, space and gender in the Information Age. This book is quite simply a Baedeker to the cyber-realm.' Carolyn Guertin. '...engagingly and warmly written, 'Hello World' combines first-person meditations with a wealth of information. Highly recommended for first-time users and those who want to try dipping their toes into the cyberwaters.' N. Katherine Hayles. '...embracing digital media for its freedom and life beyond the physical page, her writings fuse the surfaces, textures, histories and interactions of our bodies and minds.' Robin Rimbaud / Scanner. 'Sue Thomas is one of the most innovation thinkers, promoters and facilitators on the web.' Stelarc. '...anyone who feels both seduced and appalled by the complexities of embedded technology will empathise with this account of the personal highs and lows of an intimate relationship with technology.' Jenny Wolmark. 'Speaking with ease and authority, earned through years of immersive investigation, Sue Thomas critiques virtuality in a manner which makes this book accessible to those who are new to the networked world, as well as a must-read for those already there.' Melinda Rackham. 'Hello World is fascinating, almost hypnotic. Thomas travels all over the physical world, and all over the virtual world, visiting sights and sites of intrinsic and historical interest. She describes what she sees, tells us how the experience affects her, and recounts how past travelers have marked these conceptual landscapes. Thomas invokes Thoreau throughout the book, and the comparison is apt: As Thoreau's observations of the activity around Walden Pond always told us as much about him as they did about the nature he studied, so, too, Thomas's observations reveal much about herself. The intensity of her love for cyberspace is manifest in her attentiveness to the detail of each virtual experience.' Tekka. 'Thomas offers a way of being in the world that refuses hierarchies and primacies and offers us a model of an engaged and creative practice that is both virtual and real.' RealTime. 'As a mix it's intense and entrancing, and it demonstrates the ease with which computers, electronic communications, and lives all intertwine beyond the home.' Alan Sondheim. Originally published in paperback by Raw Nerve Books. Web Supplement <http://travelsinvirtuality.typepad.com/helloworld/>

[Face To Face: Women Writers On Faith Mysticism And Awakening, Linda Hogan, Brenda Peterson](#) , 2005, 0865477256, 9780865477254. From the editors of the "Sweet Breathing of Plants," a new anthology of women's writing on faith and spirituality From the vantage points of diverse backgrounds and beliefs, the writings gathered here describe a vast range of spiritual searches and encounters. Sy Montgomery writes about shamans, Terry Tempest Williams about her Mormon heritage, and Starhawk about witchcraft. Mary Gordon captures the attractions of the contemplative life. Ursula Le Guin speaks about the feminine aspects of the "Tao te Ching." Jane Goodall reflects on the symbiosis of science and religion after experiencing an ecstatic loss of self in the company of chimpanzees. Facet by facet, these essays and poems--by Molly Peacock, Anne Sexton, Kathleen Norris, Diane Ackerman, and Joy Harjo, among others--reveal and celebrate the special relationship of women to the spiritual realm in a volume that will comfort, provoke, and inspire.

[Obsidian Mirror, Catherine Fisher](#) , 2013, 1101603135, 9781101603130. The obsidian mirror. Its power is great and terrible. Men have been lost in it, the dead brought back to life through it, and the future annihilated by it. Or this is what will happen unless the mirror is destroyed. Three people seek the mirror: the first has been sent from the future to shatter its power; the second will protect the mirror at all costs, obsessed with its power; and the third needs the mirror to find a murdered father and save his life. But only one can succeed. The mirror can send you to the past, but it will not bring you back. With superb world-building that includes the real world, the faery world, and a dystopic future, this hauntingly astonishing adventure is the start of a new trilogy from the master of the sci-fi/fantasy genre, Catherine Fisher. Fans of Orson Scott Card, Shakespeare, Grimm, and Blade Runner won't be disappointed.

[Love You: Be Your Best and Live Your Dreams, Kimberley Crossman](#) , 2012, 0143568361, 9780143568360. Finding your direction in life can sometimes be a struggle. In Love YOU, successful Shortland Street actor and TV host Kimberley Crossman shares her life lessons and tools for building confidence and making positive changes that will enable you to attain your goals. Kimberley reflects on important influences in her life and shares how she overcame challenges to achieve her dream of being an actor and entertainer. Full of practical advice and including exercises to help the reader with goal setting, relationships and a positive self image, this book is the perfect inspiration as you set out in pursuit of your dreams. 'I wish when I was younger that I had had a book like this to refer to.' - Kimberley Crossman

[The 60s Communes: Hippies and Beyond, Timothy Miller](#) , 1999, 081560601X, 9780815606017. The greatest wave of communal living in American history crested in the tumultuous 1960s era including the early 1970s. To the fascination and amusement of more decorous citizens, hundreds of thousands of mostly young dreamers set out to build a new culture apart from the established society. Widely believed by the larger public to be sinks of drug-ridden sexual immorality, the communes both intrigued and repelled the American people. The intentional communities of the 1960s era were far more diverse than the stereotype of the hippie commune would suggest. A great many of them were religious in basis, stressing spiritual seeking and disciplined lifestyles. Others were founded on secular visions of a better society. Hundreds of them became so stable that they survive today. This book surveys the broad sweep of this great social yearning from the first portents of a new type of communitarianism in the early 1960s through the waning of the movement in the mid-1970s. Based on more than five hundred interviews conducted for the 60s Communes Project, among other sources, it preserves a colorful and vigorous episode in American history. The book includes an extensive directory of active and non-active communes, complete with dates of origin and dissolution.

[Mopokes and Mallee Roots, Wilbur Gordon Howcroft](#) , 1990, 0947236015, 9780947236014. An illustrated collection of humorous tales and verse about life in rural Australia, particularly the Mallee area of north-western Victoria. The author has researched and written twenty other books of a similar kind.

[Full House, , Allan Frewin Jones](#) , 1996, 0099661217, 9780099661214. Aunt Susie (a cross between a health freak and a cleaning maniac) arrives at the Allen household to stay FOR A WHILE. So Stacy and Amanda are forced to - horror of horrors - share a room! Naturally a territorial riot breaks out between them - will they be too busy arguing to notice that Mom and sister Susie are indulging in a bit of sisterly fireworks themselves. . . ?!

[Paramedic Practice Today: Above and Beyond, Volume 2, , ISBN 0323085393, 9780323085397, Barbara Aehlert, Robert Vroman](#) , 2011, 0323085377, 9780323085373. Providing the tools you need to succeed, Volume 2 of Paramedic Practice Today: Above and Beyond completes the building of a solid foundation for paramedic practice and now reflects the 2010 emergency cardiovascular care guidelines! A conversational, easy-to-read style simplifies topics and helps you master National Standard Curriculum objectives and meet the new National Education Standards. It includes a companion DVD with step-by-step videos demonstrating the skills in the textbook and more. Because this book corresponds to the National Registry of EMTs National EMS Practice Analysis, it provides you with the best possible preparation for the National Registry exam. Unique! The new National Education Standards are referenced, as well as the National Standard Curriculum objectives. Unique! This textbook addresses the tasks in the NREMT 2004 National EMS Practice Analysis, which is the foundation for the NREMT exam. Special topics cover paramedic practice in many environments from Farm Rescue and Wilderness EMS to Air and Ground Critical Care Transport and Tactical EMS. Four-part case scenarios appear in each chapter, and emphasize patient comfort and care: 1) an introduction sets up the scenario and asks questions, 2) the scenario continues, following the treatment of the patient and asking more questions, 3) the conclusion resolves the scenario and asks more questions, looking back on decisions that you've made, and 4) the summary answers all of the questions presented in parts 1-3. 14 skill sequences show each action with illustrated, step-by-step instructions. A companion DVD-ROM shows video clips of all the skills in the book, along with medical animations, lectures, and skills video clips from other Elsevier titles. Pediatric Pearl boxes call attention to the differences for pediatric patients. Geriatric Considerations are highlighted in special boxes to draw attention to the differences for elderly patients. Cultural

Considerations boxes highlight helpful tips for interacting with people of various cultures. Paramedic Pearl boxes highlight important information from the text. An anatomy and physiology review begins chapters as needed, and for specific conditions, those chapters also include a description/definition, etiology, epidemiology and demographics, history, physical findings, differential diagnosis, therapeutic interventions, patient/family education, and prehospital pearls. Chapter Summaries are bulleted to help you review important information. Key Terms are defined in the terminology section at the end of each chapter for easy review before exams. Quizzes end each chapter, with answers and rationales at the back of the textbook. A pediatric quick-reference foldout card is included with the book. A comprehensive index and 2,222-term glossary cover all the content in Volumes 1 and 2, allowing you to quickly find key terms and topics. A drug index covers approximately 100 drugs.

[Demented Eloquence: Performance Poems, Rapunzel Wizard](#) , 2009, 0956407102, 9780956407108.

[Classroom management for secondary teachers, Edmund T. Emmer](#) , 1984, 0131361503, 9780131361508. Based on extensive research conducted by the authors in more than 500 classrooms over the past 25 years, this best-selling book presents a thoroughly practical, hands-on approach to classroom management. It helps an instructor perform one of the most basic tasks for a teacher to develop a smoothly running classroom that creates an environment for encouragement and learning! Classroom Management for Secondary Teachers gives teachers the information and skills they need to establish classroom management systems. Provides practical, step-by-step guidelines that emphasize prevention through planning! Shows how the best teachers promote effective learning and get their classrooms to function smoothly. It's a reference teachers will turn to again and again. This book is organized so that it can be readily applied in the secondary classroom setting. It addresses the planning decisions teachers must make arranging the physical space, establishing rules and procedures, planning and conducting instruction, maintaining appropriate behavior, addressing problem behavior, using good communication skills, and managing special groups. All examples, checklists, case studies, and group activities are at the secondary level. For pre-service and in-service secondary teachers.

[Pet's Revenge, Charles Ogden](#) , 2008, 1847383211, 9781847383211. Edgar and Ellen's creature, Pet, has always observed their antics with horror, staying out of their way as much as possible. But now he's getting his own back... Pet's secretly spiking Ellen's food with a special balm that turns her all girly - she's started sewing lace on her PJs and throwing sleepovers. Edgar is in despair. Before he knows it, Ellen has invited Mayor Knightleigh's family into their home - where they're planning to makeover the creepy building. Edgar, though seriously stuck without Ellen's evil input, begins to

unravel Pet's plot - but will he manage it in time?

[Censoring Culture: Contemporary Threats to Free Expression, Robert Atkins, Svetlana Mintcheva](#) , 2006, 1595580972, 9781595580979. A bestselling art historian and a free speech advocate explore subtle new forms of censorship in the art world and beyond."In private, museum people have told me that self-censorship is indeed the order of the day. But it is quite rare for an official to speak about it in public. Self-censorship occurs behind closed doors. There are practically no whistle-blowers."Hans Haacke, conceptual artist known for his socially and politically engaged artIf your idea of censorship is an anonymous bureaucrat in a government office exercising prudish control over "offensive" art and speech, wake up and smell the conglomeration. Censorship today is just as likely to be the result of a market force or a bandwidth monopoly as a line edit or the covering of a nude sculpture, and the current system of new technologies and economic arrangements has subtle, built-in mechanisms for suppressing free expression as powerful as any known in other centuries.In *Censoring Culture*, the nationally known author of the *ArtSpeak* books and the head of the National Coalition Against Censorship's Arts Program bring together the latest thinking from art historians, cultural theorists, legal scholars, and psychoanalysts, as well as first-person accounts by artists and advocates, to give us a comprehensive understanding of censorship in a new century.Contributors include: J.M. Coetzee, Judy Blume, and others on self-censorship Hans Haacke on the marriage of art and money DeeDee Halleck on the military-media-industrial complex Marjorie Heins on violence and children Randall Kennedy on the risks of regulating hate speech Lawrence Lessig on creativity and copyright in the electronic age Judith Levine on shielding children from sex Diane Ravitch on sensitivity guidelines for national testing Douglas Thomas on hackers and hacking culture

[Ringbom stirling engines, James R. Senft](#) , 1993, 0195077989, 9780195077988. The Ringbom engine, an elegant simplification of the Stirling, is increasingly emerging as a viable, multipurpose engine. Despite its technical elegance, high-speed stable operation capabilities, and potential as an environment-friendly energy source, the advantages manifest in Ringbom design have been slowly realized, due in large to part to its often enigmatic operating regime. This book presents for the first time a clear, tractable mathematical model of the dynamic properties of the Ringbom, resulting in a theorem that offers a complete characterization of the stable operating mode of the engine. The author here details the research leading to the development of the Ringbom and illustrates theoretical results, engine characteristics, and design principles using data from actual Ringbom engines. Throughout the book, the author emphasizes an understanding of Ringbom engine properties through closed form mathematical analysis and lucidly details how his mathematical derivations apply to real engines. Extensive descriptions of the engine hardware are included to aid those interested in their construction. Mechanical, electrical, and chemical engineers concerned with power systems, power generation, energy conservation, solar energy, and low-temperature physics will find this monograph a comprehensive and technically rich introduction to Stirling Ringbom engine technology.

[The Food for Particular Nutritional Uses \(Addition of Substances for Specific Nutritional Purposes\) \(Scotland\) Amendment Regulations 2006, Scotland, Scotland. Scottish Executive](#) , 2006, 0110712099, 9780110712093. Enabling power: Food Safety Act 1990, ss. 16 (1) (f), 17 (1), 48 (1). Issued: 30.11.2006. Made: 22.11.2006. Laid before the Scottish Parliament: 23.11.2006. Coming into force: 31.12.2006. Effect: S.S.I. 2002/397 amended. Territorial extent & classification: S. General. EC note: Implements, in relation to Scotland, Commission Directive 2006/34/EC amending the Annex to Directive 2001/15/EC as regards the inclusion of certain substances.
