[The Bark Cutters, Nicole Alexander](#) , 2013, 085798067X, 9780857980670. A sweeping rural saga through four generations of the Gordon family, from bestselling author Nicole Alexander. Sarah Gordon knows what she wants: the family homestead, Wangallon. When it comes to working the homestead she's a natural but, as a woman, it's not her birthright. Even when her beloved older brother is killed in a tragic accident, nobody looks to Sarah to inherit. Instead her grandfather passes management to Anthony Carrington, who was once Wangallon's jackeroo. Feeling betrayed, Sarah escapes to Sydney to try to put Wangallon behind her. But her heart is pulled in two directions: Sydney with its cafes and social life, her blossoming career as a photographer, and her accountant boyfriend, Jeremy. Or the property that has been in her family for over 120 years, with its floods, its droughts, the ghosts of generations past, and Anthony...Past and present interweave in a story that traces the Gordon family from the arrival of Scottish immigrant Hamish Gordon in Australia in the 1850s to the life of his great-granddaughter, Sarah.

[Elizabeth and Essex: A Tragic History, Lytton Strachey](#) , 1956, 0156283107, 9780156283106. Strachey dramatizes one of the most famous and most baffling romances in history-between Elizabeth I, Queen of England, and Robert Devereux, the vital, handsome Earl of Essex.

[The Freeman Field Mutiny, James C. Warren \(Lt. Col.\), Lt James C Warren](#) , 1995, 0964106728, 9780964106727. THE FREEMAN FIELD MUTINY is a documented story about a "Mutiny" in the 477th Bombardment Group that occurred at Freeman Field, Seymour, Indiana, on April 5, 1945. This incident involved over 162 black officers. This history relates long & involved sordid acts of segregation committed by the white commanders of the Black 477th Bombardment Group, of which there were many. Yet, The Freeman Field Mutiny is the most vivid & outstanding response to these acts. This story uncovers the fact that these commanders did not act alone & that their actions were taken with the compliance of commanders & staff persons at Army Air Force headquarters level, including General Henry H. "Hap" Arnold, commanding General of the U.S. Army Air Forces & consequently every level of his command & staff. The mutiny was a

protest & an assault on the segregated policies of General Hunter & the staff at Headquarters Army Air Forces. The mutiny illustrated that the black officer was capable of showing initiative & anger. Moreover, he could organize & use regulations to his advantage. This action was unprecedented in the annals of the Army Air Forces. Those of us who followed our conscience & stood together at Freeman Field have some confidence that our actions helped make necessary, even inevitable the significant changes that would soon come. Available from Conyers Publishing Company, 1242 Hidden Oaks Court, Vacaville, CA 95687. Phone: 707-448-0823, FAX: 707-448-0863.

[An Introduction to Stochastic Modeling, Mark Pinsky, Samuel Karlin](#) , 2010, 0123814170, 9780123814173. Serving as the foundation for a one-semester course in stochastic processes for students familiar with elementary probability theory and calculus, *Introduction to Stochastic Modeling*, 4e, bridges the gap between basic probability and an intermediate level course in stochastic processes. The objectives of the text are to introduce students to the standard concepts and methods of stochastic modeling, to illustrate the rich diversity of applications of stochastic processes in the applied sciences, and to provide exercises in the application of simple stochastic analysis to realistic problems. New to this edition: Realistic applications from a variety of disciplines integrated throughout the text, including more biological applicationsPlentiful, completely updated problemsCompletely updated and reorganized end-of-chapter exercise sets, 250 exercises with answersNew chapters of stochastic differential equations and Brownian motion and related processesAdditional sections on Martingale and Poisson process Realistic applications from a variety of disciplines integrated throughout the text. Extensive end of chapter exercises sets, 250 with answers Chapter 1-9 of the new edition are identical to the previous edition New! Chapter 10 - Random Evolutions New! Chapter 11- Characteristic functions and Their Applications

[Final Cut! Das Ende aller Diten. In 3 Schritten zur epigenetischen Gesundheit., Gunther Schmitt](#) , 2013, 3844239405, 9783844239409. Wenn Sie bereit sind, althergebrachte Vorstellungen zu hinterfragen und Ihrem Leben die Chance zu einer gesundheitlichen Neuorientierung zu geben, warten in diesem Buch erstaunliche Erkenntnisse und Erfahrungen auf Sie. Gunther Schmitt, Jahrgang 1947, ist Sportbiologe und arbeitet selbstndig als Gesundheits-, Ernhrungs- und Trainingsberater und Personal Coach. Seine Erfahrung aus ber 40 Berufsjahren mit vielen tausend Beratungsgesprchen und seine ungebrochene Neugier auf aktuelle wissenschaftliche Fortschritte sind der Hintergrund fr diesen Wegweiser. Er verbindet darin die neuesten Erkenntnisse der jungen biologischen Wissenschaftsdisziplin Epigenetik sowohl mit bewhrten Grundstzen als auch mit brandneuen Forschungsergebnissen der Medizin, der Ernhrungslehre und der Trainingslehre. Gunther Schmitt schreibt: Man kann biologische Gesetze nicht umgehen, sondern man muss mit ihnen richtig UMgehen. Der erste Buchteil fht Sie durch eine kurz gefasste Drei-Schritte-Anleitung, die leicht nachvollziehbar und in den Alltag integrierbar ist. Im zweiten und dritten Buchteil finden Sie alle Informationen um zu verstehen, wie und warum Sie selbst

für Ihre Gesundheit (und die Ihrer Kinder und Enkel) verantwortlich sind. Sie werden wegkommen von der schlapp, fett und krank machenden, kohlenhydratlastigen modernen Ernährungs- und Bewegungsweise, hin zu einer Lebensgestaltung, die zu Ihrem ererbten Stoffwechselprogramm passt und dieses zu seiner Hochform auflaufen lässt. Seien Sie bereit!

[English Aristocratic Women, 1450-1550 : Marriage and Family, Property and Careers: Marriage and Family, Property and Careers, Barbara J. Harris Professor of History and Women's Studies University of North Carolina at Chapel Hill](#), 2002, 0198034490, 9780198034490. Portraits of aristocratic women from the Yorkist and Tudor periods reveal elaborately clothed and bejeweled nobility, exemplars of their families' wealth. Unlike their male counterparts, their sitters have not been judged for their professional accomplishments. In this groundbreaking study, Barbara J. Harris argues that the roles of aristocratic wives, mothers, and widows constituted careers for women that had as much public and political significance and were as crucial for the survival and prosperity of their families and class as their husband's careers. Women, Harris demonstrates, were trained from an early age to manage their families' property and households; arrange the marriages and careers of their children; create, sustain, and exploit the client-patron relationships that were an essential element in politics at the regional and national levels; and, finally, manage the transmission and distribution of property from one generation to another, since most wives outlived their husbands. English Aristocratic Women unveils the lives of noblewomen whose historical influence has previously been dismissed, as well as those who became favorites at the court of Henry VIII. Through extensive archival research of documents belonging to more than twelve hundred families, Harris paints a collective portrait of upper-class women of this period. By recognizing the full significance of the aristocratic women's careers, this book reinterprets the politics and gender relations of early modern England. Barbara J. Harris is Professor of History and Women's Studies at the University of North Carolina at Chapel Hill. Her previous works include Edward Stafford, Third Duke of Buckingham, 1478-1521.

[The Beautiful and Damned, Francis Scott Fitzgerald](#) , 2001, 0141185589, 9780141185583. Fitzgerald's second novel, a devastating portrait of the excesses of the Jazz Age, is a largely autobiographical depiction of a glamorous, reckless Manhattan couple and their spectacular spiral into tragedy. Published on the heels of "This Side of Paradise," the story of the Harvard-educated aesthete Anthony Patch and his willful wife, Gloria, is propelled by Fitzgerald's intense romantic imagination and demonstrates an increased technical and emotional maturity. "The Beautiful and Damned" is at once a gripping morality tale, a rueful meditation on love, marriage, and money, and an acute social document. As Hortense Calisher observes in her Introduction, "Though Fitzgerald can entrance with stories so joyfully youthful they appear to be safe when he cuts himself, you will bleed."

[Operation Redwood, S. Terrell French](#) , 2011, 0810997207, 9780810997202. Clandestine e-mail exchanges, secret trips,

fake press releases, and a tree-house standoff are among the clever stunts and pranks the kid heroes pull in this exciting ecological adventure. Sibley Carter is a moron and a world-class jerk, reads Julian Carter-Li in an angry e-mail message meant for his greedy, high-powered uncle. The fateful message sets him on the course to stop an environmental crime! His uncle's company plans to cut down some of the oldest California redwood trees, and it's up to Julian and a ragtag group of friends to figure out a way to stop them. This thrilling, thoughtful debut novel shows the power of determined individuals, no matter what their age, to stand up to wrongdoing. John and Patricia Beatty Award (California Library Association) National Green Earth Book Award National Outdoor Book Award honorable mention Carol D. [Oxford Handbook of Critical Care, Mervyn Singer, Andrew R. Webb, MARTIN BEED](#) , 2009, 0199576130, 9780199576135. Two titles from the Bestselling Oxford Handbook and Emergencies in... series are available together in this great value pack. The fully revised, third edition of the Oxford Handbook of Critical Care describes best practice of critical care in a succinct, concise, and clinically oriented way. Covering the principles of general management, it includes therapeutic and monitoring devices, specific disorders of organ systems, as well as detailed information on drugs and fluids. New material has been added on key areas such as area maintenance, dressing techniques, infection control, echocardiography, tissue perfusion monitoring, coma, and more. With up-to-date references and invaluable clinical advice, there is also plenty of space to add notes or amend sections to suit local protocols. Patient-centered and practical, it will serve the consultant, trainee, nurse or other allied professionals as both a reference and aide memo. This is the indispensable Oxford Handbook for all those working within critical care. Emergencies in Critical Care provides a practical, accessible guide to all emergency situations encountered in the critical care setting. Emergencies are very common in the critical care setting, but also surprisingly predictable. This book helps critical care staff identify those at risk, how to manage them, and how to be prepared in the ward. The book is split into two halves: the first about emergencies within specific systems; the second concentrates on various conditions or groups of patients. Most chapters begin with a generic description of how to manage emergencies affecting that system, or patient group. This is followed by details of specific diagnoses and how they should be managed. The author team have also tried, where possible, to follow the ABC approach, which is not only the standard approach to emergency management, but also a widely-used scheme for documenting daily reviews on ICU and for documenting trauma management. This book will help all critical care staff involved with the management of emergencies, from the new junior doctor to the experienced staff nurse and consultant in a portable and easily-readable format.

[Ghost of the Ozarks: Murder and Memory in the Upland South, Brooks Blevins](#) , 2012, 0252094115, 9780252094118. In 1929, in a remote county of the Arkansas Ozarks, the gruesome murder of harmonica-playing drifter Connie Franklin and the brutal rape of his teenaged fiancee captured the attention of a nation on the cusp of the Great Depression. National press from coast to coast ran stories of the sensational exploits of night-riding moonshiners, powerful "Barons of the Hills," and a world of feudal oppression in the isolation of the rugged Ozarks. The ensuing arrest of five local men for both crimes and the confusion and superstition surrounding the trial and conviction gave Stone County a dubious and short-lived notoriety._x000B__x000B_Closely examining how the story and its regional setting were interpreted by the media, Brooks Blevins recounts the gripping events of the murder investigation and trial, where a man claiming to be the murder victim--the "Ghost" of the Ozarks--appeared to testify. Local conditions in Stone County, which had no electricity and only one long-distance telephone line, frustrated the dozen or more reporters who found their way to the rural Ozarks, and the developments following the arrests often prompted reporters' caricatures of the region: accusations of imposture and insanity, revelations of hidden pasts and assumed names, and threats of widespread violence._x000B__x000B_Ghost of the Ozarks: Murder and Memory in the Upland South entertains readers with a dramatic tale of true crime as well as a skilled interpretation of the region. Throughout this narrative, Blevins weaves a sophisticated social history of the Ozarks in the early twentieth century, critically analyzing the stereotypes and imagery inherent in local folklore and embedded in media coverage of the murder and trial. Locating the past of the Upland South squarely within the major currents of American history, Blevins paints a convincing backdrop to a story that, more than 80 years later, remains riddled with mystery and a source of bitter division in the community where some believe Connie Franklin met his end.

[Reef Evolution, Page 3, , Rachel Wood](#) , 1999, 0198549997, 9780198549994. If one does not understand the biology of the coral reef, one does not understand the reef at all. So, using more than 250 illustrations and specially drawn ecological reconstructions of reef communities, Rachel Wood provides a unique evolutionary approach to the understanding of ancient coral reef ecosystems. Marine organisms have aggregated to form reefs for over 3.5 billion years--creating the largest biologically constructed feature on earth, some visible from space. However, their study has been largely descriptive. Reef Evolution documents the fundamental biological processes and innovations which have molded the evolution of reef ecosystems and given rise to the highly complex communities found today. The appearance

of clonality, the acquisition of photosymbiosis, and the radiation of predator groups are all discussed in depth. Data from the fossil record documents the evolutionary development of reef ecosystems. Although reefs only occupy a small percentage of the oceans, their importance to the marine environment is many-faceted and global. They create harbors and allow the development of shallow basins with associated mangrove or seagrass communities; they protect coastlines from erosion; are involved in the regulation of atmospheric carbon, which in turn contributes to climate control. can provide extensive oil and gas reservoirs. From a biological standpoint, however, the great significance of reefs lies in their ability to generate and maintain a substantial proportion of tropical marine biodiversity. This unique interdisciplinary approach provides students and researchers in evolution, marine biology, ecology, paleontology, biodiversity, and geology with a text that will allow them to truly understand the biological innovations which have molded the evolution of coral reefs and given rise to the highly complex communities found today.

[The State of Play: The Revolution in the Australian Theatre Since the 1960s, Leonard Radic](#) , 1991, 0140144714, 9780140144710. The emergence and evolution of the Australian theatre since the 1960s is examined by the well-known and widely respected theatre critic for the Melbourne TAge', who has himself had seven plays published and performed. Includes sixteen pages of photographs, endnotes and an index.

[Ethics of Enlightenment: Essays and Sermons in Search for a Buddhist Ethic, Ronald Y. Nakasone](#) , 1990, 0962308609, 9780962308604. ETHICS OF ENLIGHTENMENT is a reflection of the highest aspirations, deepest yearnings & most cherished beliefs which Buddhists hold. It is also a reflection of the implications these perceptions have on their conduct & responsibilities. This volume illuminates an ethic which has been practiced by Buddhists & celebrated in their documents, but has yet to be clearly articulated in the context of current concerns. The book begins with an interpretative narrative of the life of Sakyamuni, the historical founder & the model for Buddhist conduct. It proceeds to consider the Myth of Dharmakara, which dramatizes the ethical ideal of achieving spiritual emancipation for all beings. Subsequently, the notion of interdependence, the doctrinal rationale of Buddhist thought & practice, is explained & interpreted. The spiritual & doctrinal ideals provide the basis for a practical ethic which urges Buddhists to minimize suffering & uplift all beings. These ideals constitute the framework from which the author discusses the ethical life & the Buddhist response to dilemmas of euthanasia, decision making & other existential questions. The appendix contains a collection of sermons & essays in which the author interprets & applies Buddhist ideals to the experience of death, grieving, spiritual healing, & community responsibility.

[Structured Clinical Interview for DSM-IV Axis I Disorders SCID-I: Clinician Version, Administration Booklet, , , Robert L. Spitzer, Miriam Gibbon, Janet B. W. Williams](#) , 1997, 0880489324, 9780880489324. This efficient, user-friendly instrument will help clinicians make standardized, reliable, and accurate diagnoses and avoid the common problem of "premature closure" -- the premature focus on one diagnostic possibility. It will also help clinicians of all levels of experience improve their clinical assessment and interviewing techniques and provides extensive documentation of the diagnostic process, an essential procedure in today's managed care world. Specifically adapted from the research standard for Axis I structured clinical interviewing for use in clinical settings, the SCID-I covers those DSM-IV diagnoses most commonly seen by clinicians and includes the diagnostic criteria for these disorders with corresponding interview questions. The SCID-I is divided into six self-contained modules that can be administered in sequence: mood episodes; psychotic symptoms; psychotic disorders; mood disorders; substance use disorders; and anxiety, adjustment, and other disorders. The reusable Administration Booklet contains interview questions and DSM-IV diagnostic criteria. It is designed to be used with the Scoresheet during a 45- to 90-minute session and is tabbed to help the clinician move from one section to another.

[Enlightenment: Britain and the Creation of the Modern World, Roy Porter](#) , 2001, 0141927720, 9780141927725. For generations the traditional focus for those wishing to understand the roots of the modern world has been France on the eve of the Revolution. Porter certainly acknowledges France's importance, but here makes an overwhelming case for considering Britain the true home of modernity - a country driven by an exuberance, diversity and power of invention comparable only to twentieth-century America. Porter immerses the reader in a society which, recovering from the horrors of the Civil War and decisively reinvigorated by the revolution of 1688, had emerged as something new and extraordinary - a society unlike any other in the world.

[Crafting Personal Shrines, Carol Owen](#) , 2006, 157990811X, 9781579908119. Creating a personal shrine is a meaningful way to commemorate special moments and people, and an artistically satisfying project, too. Carol Owen, a shrinemaker for more than 20 years, offers easy instructions and inspiring photographs that will guide anyone through the process. The work begins simply, with a basic frame for mounting treasured mementos. Then, learn how to create doors, shelves, drawers, and other architectural features. There are suggestions on embellishments to personalize the shrine, and even ideas for possible objects to include. In addition to the author, 8 renowned shrine artists provide hands-on information about how they created their distinctive structures, and another two dozen experts offer insights into their creative practices. The vibrant gallery of work will spark anyone's imagination. "A Selection of the One Spirit Book Club. "The author lives in Pittsboro, NC.

[The World We Want: New Dimensions in Philanthropy and Social Change, H. Peter Karoff](#) , 2007, 0759110484, 9780759110489. In The World We Want, Peter Karoff presents a collective vision of an ideal world, viewed from 10

perspectives. The book weaves together multi-sector, multidiscipline strategies, but in large part, it is about the power of human connection, reinforced by personal stories of motivation and the human capacity for caring. Without ignoring the institutional and cultural obstacles, and the courage needed to face down the dark side of human behavior, Karoff shows how citizen engagement and open source solutions could tip the scale toward a better world.

[The A-Z of Cars, Hilton Holloway, Martin Buckley](#) , 2008, 1741786509, 9781741786507. For the car enthusiast, there is no greater book than this compendium written by two of the world's most experienced motoring journalists. Nearly 400 cars are presented here, encompassing all the great marques of the motoring past and present. With technical details and stunning photographs, each entry is an authoritative analysis of one of the world's finest automobiles. From the fastest sports cars to family automobiles and everything in between, this book is a comprehensive guide to the most celebrated vehicles in history. Some are beautiful, powerful cars from the most prestigious marques, such as the Ferrari Daytona, Aston Martin DB7 and the Rolls-Royce Silver Shadow. Others won the love and affection of the public and gathered cult followings, such as the Volkswagen Beetle and Austin Mini. Many are the building blocks of everyday life, like the Ford Escort and Vauxhall Astra. A few, such as the Model T Ford, rocked the very foundations of the world.

[A Year at the Races: The Campaigns and Elections of 2002, Costas Panagopoulos](#) , 2004, 0131846779, 9780131846777. For introductory courses in American Politics; as well as courses in Campaigns and Elections, Political Communications, Political Marketing, Political Campaign Management, and Political History.A collection of case studies of strategically-selected 2002 congressional and gubernatorial election campaigns, this book is about how those aspiring to become or remain high-level elected officials in the United States went about the business of trying to win. In-depth analyses of these 2002 mid-term campaigns yield powerful insights about politics in contemporary America, placing them in historical context.

[Hubert the Pudge: A Vegetarian Tale,](#) , 2006, 0763619922, 9780763619923. The droll, offbeat tale of a pudge who escapes the pudge-eating world to find personal growth and change his destiny Hubert is a pudge, and pudges can never grow up. Instead, they are trucked off to the meat factory when they are still young and turned into TV dinners, microwave sausage links, and other greasy food products. But when Hubert manages to escape to the wild, he feasts on luscious grass, exotic orchids, and skunk cabbage. The more he eats, the bigger he grows, and soon Hubert is the biggest pudge since ancient times. He is giant! He is humongous! And he must fulfill his destiny. From the singular Henrik Drescher comes a quirky fable about the responsibilities that come from being larger than life.

[Multiple Sclerosis: Clinician's Guide to Diagnosis and Treatment, Gary L. Birnbaum](#) , 2013, 0199840784, 9780199840786. Multiple Sclerosis (MS) is an inflammatory, often progressive, and potentially disabling disease of the central nervous system. Onset of disease is usually between the ages of 15 and 50, with the incidence nearly twice as high in women. While the cause of MS is still unknown, the predominant theory is that it is an autoimmune disease, triggered by an unknown environmental factor that results in both loss of central nervous system myelin and degeneration of axons and neurons. Although there have been a number of publications addressing different aspects of MS treatment in the neurological literature, there is a dearth of material on MS designed for internists and primary care physicians, who are often the first to see patients presenting with symptoms of MS. Therefore, this concise, clinically focused volume will

serve as a valuable resource tailored to the specific needs of internists and primary care physicians. Part of the Oxford Neurology Library, this highly practical pocketbook covers current approaches and new developments in the diagnosis, treatment and management of MS, including both early and advanced stages of the disease. The book offers in-depth coverage of special populations, as well as the more unusual manifestations of MS, which are less familiar to the internal medicine audience. It will also address the role of imaging studies in the diagnosis, differential diagnosis and monitoring of the progression of MS. In addition to providing up-to-date information on pharmacological therapies for MS, the book also describes an array of non-pharmacological treatment options.

[If God Is Almighty!: Why Does He Allow Humanity's Suffering?, Jose Basora](#) , 2007, . It is unquestionable that today we live in a world where earthquakes and other natural catastrophes take thousands of lives seem to be in agenda. On the other side, the wars and the terrorist attacks dont seem to be news. The illnesses, and the crimes, the accidents, hate, violence, etc. is part of peoples daily life. For this reason a lot of people wonder. If God is a Supreme Being, then; Why He has not destroyed the oppression, the injustice, and the iniquity? It is certain that the earth is full with injustice, suffering and pain, but the time is coming, very soon, when God will eliminate the iniquitous, the oppressors, and all those that are responsible for sowing the pain, sadness and desolation. The visible proof, are demonstrating that the preparations so that the Fair government of God, takes the power on earth, are almost complete. It is certain that a lot of people, doesnt understand the origin of mans misfortune or the reason of human suffering, but although we dont understand the real source of peoples pain, the truth is that in no way, nobody can be able to find base to make God responsible for human suffering, but as the solution to this.

[The White Goddess, Robert Graves](#) , 2011, 0571265510, 9780571265510. This labyrinthine and extraordinary book, first published more than fifty years ago, was the outcome of Graves's vast reading and curious research into strange territories of folklore, mythology, religion and magic. Erudite and impassioned, it is a scholar-poet's quest for the meaning of European myths, a polemic about the relations between man and woman, and also an intensely personal document in which Graves explored the sources of his own inspiration and, as he believed, all true poetry. This new

edition has been prepared by Grevel Lindop, who has written an illuminating introduction. The text of the book incorporates all Graves's final revisions, as well as his replies to two of the original reviewers, and a long essay in which he describes the months of inspiration in which *The White Goddess* was written.

[A Survivor's Story, Severin Fayerman](#) , 2011, 0983331030, 9780983331032. When Germany invades Poland in 1939, seventeen year old Severin Fayerman sees his world change forever. His family's factory is seized by the Germans. Inevitably, the Fayermans are arrested and sent to a forced labor camp. Severin, separated from his family, is left alone in captivity. For more than a year, he endures the horrors of Auschwitz, Buchenwald, and other concentration camps, relying on hard work and ingenuity to survive. When the war ends so does his nightmare, but his journey has only just begun. A Survivor's Story is the inspirational memoir of Severin Fayerman, Holocaust survivor and the founder of Baldwin Hardware. His journey from Poland to the United States, from young boy to successful businessman, proves that determination trumps adversity, and that goodness can shine in the darkest of places. His story is the American dream. Severin Fayerman was born in Bendzin, Poland in 1922. During World War II, he survived imprisonment and forced labor at Auschwitz and Buchenwald concentration camps. Reunited with his family after the war, he emigrated to the United States in search of a new life. In 1946 the Fayermans purchased the Baldwin Tool and Die Company in Newark, New Jersey. Together they transformed the small metal forming business into a world-class operation. Today, Baldwin Hardware is a premier manufacturer of locks and hardware, and a testament to Severin's hard work and entrepreneurial spirit.

[Once Upon a Time: Elvis and Anita, Jonnita Brewer Barrett](#) , 2012, 0985805609, 9780985805609. The year was 1957. Elvis Presley was on top of the world. Just twenty-two at the time, he was not just the King of Rock 'n' Roll but a handsome prince who had his choice of all the fair maidens in the land, and yet, like a true fairy tale, he fell in love with Anita Wood, a rising musical talent with the looks of a beauty queen. Anita put her own career aside to be with Elvis, her first love and his steady girlfriend for the next five years. ONCE UPON A TIME: ELVIS AND ANITA is a heartfelt memoir of Anita's life with Elvis from 1957 through 1962. Written by Jonnita Brewer Barrett, Anita's daughter, the book takes readers back to a magical time that many believe was among the best years of Elvis' life: His career was taking off, he

had just purchased Graceland (where Anita lived with Elvis for most of their time together), and life seemed incredibly good. Through her daughter, Anita recaptures the joy and excitement of two young people in love. She shares many key moments that bonded her with Elvis' family, including the shocking news that he had been drafted by the Army in 1958, and the devastation he felt later that year by the sudden death of his beloved mother, Gladys. ONCE UPON A TIME traces Anita's own journey in show business which included appearances with such entertainment legends as Jack Paar, Buddy Hackett, Andy Williams and Dick Van Dyke. But it also revisits some of the most painful memories of Anita's life, from the lengths that Elvis' manager took to shield their relationship from the public, to the heartache and betrayal that made her realize that the fairy tale had to end.

[The Oxford Dictionary of Current English, Della Thompson](#) , 1998, 0198602332, 9780198602330. Containing over 140,000 clear definitions and entries written to offer accessible coverage of today's English, the Oxford Dictionary of Current English is the largest paperback dictionary of its kind, providing a handy source for all the most frequently needed words, meanings, origins, usages, and spellings. The book's rapid-access format presents a clear, open page layout that takes you straight to the word you need. A special new words appendix provides a fascinating survey of new words in the language, including such neologisms as "animatronics," "chromosome map," "pro-choice," "tanga," and "World Wide Web." Over 280 "good usage" boxes gives guidance on difficult or confusing aspects of English usage, and the expanded offerings on word origins are presented in a concise, easy-to-understand form. With its compact size, clear layout, and handy paperback format, this dictionary is ideal for all quick reference needs.

[Microbial Imaging, ISSN 0580-9517, Tor Savidge, Charalabos Pothoulakis](#), 2005, 0125215355, 9780125215350. Recent advances in molecular technology have provided new microbial imaging tools, not only complementing more classical methods, but in many cases significantly enhancing the sensitivity and efficiency in which studies may be conducted. These technologies are applicable to a wide range of problems in contemporary microbiology, including strain selection, understanding microbial structure, function and pathophysiology, as well as in the development of anti-microbial agents and vaccines. This volume emphasizes detailed methodology, provides a theoretical background and lists potential applications of specific imaging tools. * Edited by two experts in the field* Applicable to a broad Microbiology readership* Highly illustrated* Provides in-depth accounts from scientists working with cutting edge technologies* Facilitates researchers who involve Microbial Imaging in their work

[The Roar of the Lion: The Untold Story of Churchill's World War II Speeches, Richard Toye](#), 2013, 0199642524, 9780199642526. "My aunt, listening to the Prime Minister's speech, remarked of "our greatest orator", "He's no speaker, is he?!" -diary of teacher M.A. Pratt, 11 Nov. 1942. The popular story of Churchill's war-time rhetoric is a simple one: the British people were energized and inspired by his speeches, which were almost universally admired and played an important role in the ultimate victory over Nazi Germany. Richard Toye now re-examines this accepted national story - and gives it a radical new spin. Using survey evidence and the diaries of ordinary people, he shows how reactions to Churchill's speeches at the time were often very different from what we have always been led to expect. His first speeches as Prime Minister in the dark days of 1940 were by no means universally acclaimed - indeed, many people thought that he was drunk during his famous 'finest hour' broadcast - and there is little evidence that they made a decisive difference to the British people's will to fight on. In actual fact, as Toye shows, mass enthusiasm sat side-by-side with considerable criticism and dissent from ordinary people. Yes, there were speeches that stimulated, invigorated, and excited many. But there were also speeches which caused depression and disappointment in many others, and which sometimes led to workplace or family arguments. Yet this more complex reality has been consistently obscured from the historical record by the overwhelming power of a treasured national myth. The first systematic, archive based examination of Churchill's World War II rhetoric as a whole, The Roar of the Lion considers his oratory not merely as a series of 'great speeches', but as calculated political interventions which had diplomatic repercussions far beyond the effect on the morale of listeners in Britain. Considering his failures as well as his successes, the book moves beyond the purely celebratory tone of much of the existing literature. It offers new insight into how the speeches were written and delivered - and shows how Churchill's words were received at home, amongst allies and neutrals, and within enemy and occupied countries. This is the essential book on Churchill's war-time speeches. It presents us with a dramatically new take on the politics of the 1940s - one that will change the way we think about Churchill's oratory forever.

[Clinical Antimicrobial Assays, David S. Reeves](#) , 1999, 0199223254, 9780199223251. In 1978 the forerunner of this book appeared as Laboratory Methods in Antimicrobial Therapy (Editors Reeves, Philips, Williams and Wise). In its Foreword Professor L.P. Garrod likened an antimicrobial prescriber who lacked laboratory assistance to a mariner without a chart or compass. It is certainly true that in antimicrobial chemotherapy there is an extremely close link between the laboratory and the prescriber, and this may be as true today as it was in 1978. Indeed as the choice of therapeutic agent becomes more limited by the greater frequency of antimicrobial resistance, it could be said that the link between the prescriber and the laboratory is becoming all the more important. Chemotherapy is a rapidly developing area and assay methodology too is leaping into the next century. Assay methodologies in the clinical situation have changed considerably. Twenty years ago both chromatographic, including high performance liquid chromatography (HPLC) and immunological assays were in their infancy. The drugs themselves have changed also: the fluoroquinolones were as yet undeveloped and some compounds such as choramphenicol were enjoying greater use than they are today. This long awaited new volume comprises 19 chapters relevant to the subject of assays and pharmacology of antimicrobials. With all the chapters written by experts in the field, the general chapters cover: clinical aspects of assays (therapeutic monitoring); pharmacology and pharmacokinetics; quality assurance; principles of bioassay, immunoassay and high performance liquid chromatography; enzyme-based assays and assays in biological samples other than blood. There are chapters on the main groupsof antimicrobials which bring together summaries of their structural, chemical and pharmacokinetic properties and provide details of available assay methods.

A fully updated guide to the state-of-the-art guidelines, strategies, and new technologies in modern event planningA must-have resource for every event planner, manager, caterer, and student, this in-depth guide covers all aspects of the event planning process. Written by expert event manager Julia Rutherford Silvers, the book outlines the tools and strategies to effectively procure, organize, implement, and monitor all the products, vendors, and services needed to bring an event to life. Enhanced throughout with useful checklists, tables, and sample forms, the book includes chapters on everything from Developing the Event Site and Providing the Event Infrastructure to Ancillary Programs, Food and Beverage Operations, and Vendors and Volunteers. The practical information is supplemented throughout the book by "On-Site Insights" featuring real-world examples from successful event planners, as well as chapter objectives, discussion questions, and exercises in professional event coordination to help readers build key skills and test their knowledge. From weddings to corporate conferences and from intimate events to huge festivals, Professional Event Coordination is a versatile guide to planning events of all kinds.

Tracie Peterson Delivers Romance and AdventureWhen Chantel Panetta's younger sister claims to be in love with Orlando Calarco, Chantel knows there is no hope. The Panettas and Calarcos have been sworn enemies for decades, and young love cannot heal the deep wounds between the two iron-mining families. Yet, unable to resist Isabella's pleas, Chantel agrees to help her sister spend time with Orlando...only to have a run-in with Dante, Orlando's brother. The older, more handsome one. Chantel can't deny the attraction that flares when she's with Dante. But when a tragedy occurs at the mine, is there any hope that the hatred that has simmered between these two families might be resolved? Or will Chantel's hope for love be buried amidst decades of misunderstanding?

Chaos, the phenomenal vampire child, changed from a caterpillar to an exquisite butterfly in one day - and now she lives up to her name, creating chaos for everyone. When puberty took the young girl hostage it sent a ransom note to all males of the blood seeker society - broadcasting a mating call far across the continent. The mysterious clan's first born child, daughter of Joanna and Colin, was ripe for the taking - over Colin's dead body! An ancient battle that began at the dawn of the First Thirst rages again over Chaos. Colin's powerful friends gather to help him defend his daughter, but is she really safe from them? Will any of the blood seekers ever be safe again? Defeat waits just around the corner but Colin and his allies will fight to their last breaths to keep the young woman safe. Will chaos reign? Or will a father's love for his child prevail in the end?

[A History of the World in 10 1/2 Chapters, Julian Barnes](#) , 2009, 0099540126, 9780099540120. A stowaway aboard Noah's Ark gives us his account of the Voyage - a surprising, subversive one, quite unlike the official version - which explains a lot about how the human race has subsequently developed. A guest lecturer on a cruise ship in the Aegean has his work interrupted by a group of mysterious visitors who place him in a cruel dilemma. An ecclesiastical court in medieval France hears a bizarre case . . . Barnes creates a kaleidoscope of narrative voices - from fiction and fact, painting and snatches of autobiography - that comes slowly and compellingly into focus. 'You will want to read it again and again, and why not? There's nothing around to touch it.' Anne Smith, "Literary Review" 'There is more moral and intellectual fodder, and more jokes, here than you will read in a month of Sundays . . . storytelling and teaching which captivate, liberate, and above all, enchant' "Financial Times" 'Funny, ironic, erudite, surprising, and not afraid to take a dive overboard into the depths of sorrow and loss. My novel of the year' Nadine Gordimer

[Research funding in neuroscience \[electronic resource\]: a profile of the McKnight Endowment Fund, Gabrielle Strobel](#) , 2007, 0123736455, 9780123736451. The book is a history of the McKnight Endowment Fund for Neuroscience and an assessment of its effectiveness in advancing neuroscience. The book discusses the Fund's early and steady commitment to basic science as well as its tradition of leveraging relatively modest dollars to make a big difference in careers and the field overall. The fund exists strictly to give awards and create a community of peers through an annual conference dedicated to research. In near unison, scientists who have received awards say they were able to test a risky idea, get their career off the ground, or make a significant change in their career because of McKnight's flexible dollars. The book consists of three parts: (1) origins--including both the funder and the scientists who shaped the program; (2) a review of

the science to show how McKnight awardees have advanced the field; and (3) 10 keys to success. We also have an interview with Julius Axelrod (one of the early advisors, done shortly before his death in 2004) and stories of how awardees used their McKnight grants, plus other information.

[Applied Regression Analysis and Other Multivariable Methods, David Kleinbaum, Lawrence Kupper, Azhar Nizam, Keith Muller](#) , 2007, 0495384968, 9780495384960. This bestseller is known for its modern, practical approach to regression-analysis methods that students will find applicable to real-life problems. APPLIED REGRESSION ANALYSIS AND MULTIVARIABLE METHODS highlights the role of the computer in contemporary statistics with numerous printouts and exercises that can be solved with the computer. The authors continue to emphasize model development, the intuitive logic and assumptions that underlie the techniques covered, the purposes, advantages, and disadvantages of the techniques, and valid interpretations of those techniques.Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

[Photo Manual and Dissection Guide of the Fetal Pig, Fred Bohensky](#) , 2004, 0757000304, 9780757000300. The Bohensky Dissection Series has been used successfully by more than 300,000 biology students nationwide. Each book in the series is designed to guide the student through the study of anatomical structures. The books do this through the use of clearly marked photographs and illustrations. Accompanying text offers the student both easy-to-follow dissection instructions and factual information about the section under observation. At the end of each chapter there are tests which can be used for self-study or for grade course evaluation. Within the traditional dissection portion of a biology course, many programs include the sheep heart, eye, and brain. Within many of these guides, the author has incorporated photographs of these structures to more closely follow standard course curriculum. The author also provides important information on human organs such as the eye, ear, and heart. In this way, the student can better understand the role and function of these organs as they relate to human life processes. Add to this each book's large-size format, lay-flat spiral binding, and reasonable cost, and you can see why the Bohensky Dissection Series has become one of the most successful dissection guides used throughout this country's schools.

[Plato's Ghost: Spiritualism in the American Renaissance, Cathy Gutierrez](#) , 2009, 0195388356, 9780195388350. In its day, spiritualism brought hundreds of thousands of Americans to sance tables and trance lectures. It has alternately been ridiculed as the apogee of fatuous credulity and hailed as a feminist movement. Its tricks have been exposed, its charlatans unmasked, and its heroes' names lost to posterity. In its day, however, its leaders were household names and politicians worried about capturing the Spiritualist vote. Cathy Gutierrez places Spiritualism in the context of the 19th-century American Renaissance. Although this epithet usually signifies the sudden blossoming of American letters, Gutierrez points to its original meaning: a cultural imagination enraptured with the past and the classics in particular, accompanied by a cultural efflorescence. Spiritualism, she contends, was the religious articulation of the American Renaissance, and the ramifications of looking backward for advice about the present were far-reaching. The Spiritualist movement, says Gutierrez, was a 'renaissance of the Renaissance,' a culture in love with history as much as it trumpeted progress and futurity, and an expression of what constituted religious hope among burgeoning technology and colonialism. Rejecting Christian ideas about salvation, Spiritualists embraced Platonic and Neoplatonic ideas. Humans were shot through with the divine, rather than seen as helpless and inexorably corrupt sinners in the hands of a

transcendent, angry God. Gutierrez's study of this fascinating and important movement is organized thematically. She analyzes Spiritualist conceptions of memory, marriage, medicine, and minds, explores such phenomena as machines for contacting the dead, spirit-photography, the idea of eternal spiritual affinity (which implied the necessity for marriage reform), the connection between health and spirituality, and mesmerism.

[Smiling in Slow Motion, Derek Jarman](#) , 2000, 0099284189, 9780099284185. 'For days now I have tried to start this diary, but the clatter of my existence has warned me off; the first mark on the page eludes me...'Derek Jarman's Smiling in Slow Motion concludes the journey started in Modern Nature, these previously unpublished journals stretch from May 1991 until a fortnight before his death in February 1994. Part diary, part observation, part memoir, Jarman writes with his familiar honesty, wry humour and acuity. Friends, collaborators and enemies are catalogued as he races through his last year painting, film-making, gardening, and annoying his targets through his involvement in radical politics. Writing from his Charing Cross Road flat, on his visits to international film festivals, his world famous garden at Dungeness in Kent, and finally from his bed in St Bartholomew's Hospital, Jarman illuminates an era which seems more ephemeral and out-of-grasp with each passing day. Smiling in Slow Motion is not a document of illness, regret and resignation, but one of endeavour, remembrance and love.

[RASA: Affect and Intuition in Javanese Musical Aesthetics, Marc Benamou](#) , 2010, 0199719950, 9780199719952. The complex notion of "rasa," as understood by Javanese musicians, refers to a combination of various qualities, including: taste, feeling, affect, mood, sense, inner meaning, a faculty of knowing intuitively, and deep understanding. This leaves us with a number of questions: how is rasa expressed musically? Who or what has rasa, and what sorts of musical, psychological, perceptual, and sociological distinctions enter into this determination? How is the vocabulary of rasa structured, and what does this tell us about traditional Javanese music and aesthetics? In this first book on the subject, Rasa provides an entry into Javanese music as it is conceived by the people who know the tradition best: the musicians themselves. In one of the most thorough explorations of local aesthetics to date, author Marc Benamou argues that musical meaning is above all connotative - hence, not only learned, but learnable. Following several years performing and researching Javanese music in the regional and national cultural center of Solo, Indonesia, Benamou untangles the many meanings of rasa as an aesthetic criterion in Javanese music, particularly in court and court-derived gamelan traditions. While acknowledging that certain universal psychological tendencies may inspire parallel interpretations of musical meaning, Rasa demonstrates just how culturally specific such accrued, shared meanings can be.

[Cultures of Radicalism in Britain and Ireland, John Monfries Kirk, Michael Brown, Andrew Noble](#) , 2013, 1848933444, 9781848933446. This collection of essays addresses the role of literature in radical politics. Topics covered include the legacy of Robert Burns, broadside literature in Munster and radical literature in Wales.

[Clinical Judgement: Evidence in Practice, Robert Silcock Downie, Jane Macnaughton, Fiona Randall](#) , 2000, 0192632167, 9780192632166. There is a widespread view that modern medicine is primarily a scientific enterprise and that the decisions of clinicians follow from evidence-based science. In terms of this view the need for clinical judgement is minimal. The aims of this book are to make a case for the centrality and irreplaceability of clinical judgement, to identify the elements of good clinical judgement, and to suggest how these might be developed by using the humanities in medical undergraduate and postgraduate education. The authors argue that good clinical judgement requires both technical evidence and a humane attitude. But technical evidence is not always quantifiable or even scientific; it can be like that of the detective or the literary scholar. A humane attitude involves ethical sensitivity, but also a broad educated perspective which can be derived from the arts. The authors illustrate their argument by examining decisions made by doctors in clinical situations, in public health, and (in a chapter contributed by a hospital consultant) in resource management. About the authors: Robert S. Downie is Professor of Moral Philosophy at Glasgow University since 1969. He is a member of the BMA Ethics Committee and co-editor of the Journal of Medical Ethics. He has published extensively in the field of medical ethics. Jane MacNaughton has recently taken the position of Director of Centre for Arts, Humanities, Health and Medicine at the University of Durham. Previously she was Clinical Lecturer in General Practice at Glasgow

University and a part-time GP.

[Within Reach: My Everest, Mark Pfetzer, Jack Galvin](#) , 2000, 0756903394, 9780756903398. In May 1996 the media scrambled to document the gripping story of sixteen-year-old Mark Pfetzer's expedition to Mount Everest. Not only was he the youngest climber ever to attempt the summit, he also witnessed the tragedy documented in Jon Krakauer's *Into Thin Air*, in which eight climbers perished in a sudden storm. Within Reach is Mark's extraordinary account of this experience and of his triumphs over several other challenging peaks. At once triumphant and tragic, this story will be an inspiration to climbers, athletes, and armchair enthusiasts alike.

[A Man in Love: My Struggle,,, Karl Ove Knausgaard](#) , 2013, 1846554705, 9781846554704. When walking around town with the pram, taking care of my child, I didn't feel like I was adding anything to my life, enriching it in any way u on the contrary, it lost something, a part of my being, the part that had to do with being a man.o Having left his first wife, Karl Ove Knausgaard is struck by an overwhelming urge to get away, and he settles in Stockholm. Lonely and depressed, he strikes up a deep friendship with another exiled Norwegian, the Nietzschean, intellectual boxing fanatic Geir. He tracks down Linda, whom he first met at a writers' course a few years earlier and who fascinated him deeply. A Man in Love, the second part of Knausgaard's *My Struggle* cycle of novels, is at heart a love story u the story of Karl Ove falling in love with his present wife Linda and the long, dramatic period before they become a couple. But the novel also tells other stories u of the earth-shattering experience of becoming a father as well as of the more mundane struggles of family life, of ridiculously unsuccessful holidays, humiliating antenatal music classes, fights with quarrelsome neighbours, the emotional strains of childrens' birthday parties and of pushing a pram around Stockholm when one really wants to write a follow-up to an acclaimed debut novel.

[The Four Seasons of the U'wa: A Chibcha Ritual Ecology in the Colombian Andes, Ann Osborn](#) , 2009, 0955640008, 9780955640001. A beleaguered indigenous population came to the attention of the world in 1997 by threatening mass suicide in a last-ditch attempt to protect their ancestral lands (overlying possible oil deposits) from invasion by outsiders. The U'wa (formerly known as the Tunebo) - a Chibchan-speaking group living on the eastern slopes of the Andes in NE Colombia - are documented in Ann Osborn's pioneering study, here published in English for the first time. She introduces us to the U'wa on their own terms, enabling us to understand them from their own perspective, to place them squarely within the unique ecological setting that is a fundamental part of their being and to appreciate what might motivate them to contemplate such drastic action in the face of an external threat. The life-sustaining annual round of ceremonies described here were undertaken not only for themselves but also on behalf of outsiders: 'If we did not chant, the world would wear out ... it would come down ... we chant for the Whites as well, so that they can continue living in their world...' The contrast between this philosophy and that of our oil-hungry world provides timely cause for reflection.

[Introduction to Hinduism, Jayaram V](#) , 2012, 1935760114, 9781935760115. Hinduism is the oldest living religion of the world. It is also the most complex in terms of its philosophy and practices and difficult to understand. This volume looks at the antiquity, definition and significance of Hinduism, its scriptures, main beliefs, methods of worship, gods and goddesses and way of life. It also deals with major concepts of Hinduism such as karma, dharma, incarnation of God, reincarnation, sacrifice, maya, Nature or Prakriti, jiva or the bound soul, nature of Self, God, life after death, evolution of life and intelligence, marriages, teacher traditions, and liberation. This book from Jayaram V gives you a thorough and scholarly understanding of the basic and essential aspects of the eternal tradition useful to both lay practitioners and students.

[At the Will of the Body: Reflections on Illness, Arthur W. Frank](#) , 2002, 0618219293, 9780618219292. In this deeply affecting memoir, Arthur W. Frank explores the events of illness from within: the transformation from person to patient, the pain, the wonder, and the ceremony of recovery. To illuminate what illness can teach us about life, Frank draws upon his own encounters with serious illness -- a heart attack at age thirty-nine and, a year later, a diagnosis of cancer. In poignant and clear prose, he offers brilliant insights into what happens when our bodies and emotions are pushed to extremes. Ultimately, he examines what it means to be human.

[Conversations with Stockhausen, Karlheinz Stockhausen, Mya Tannenbaum](#) , 1987, 0193154676, 9780193154674. Karlheinz Stockhausen, the most controversial composer to have emerged from postwar Germany, has had a powerful influence on contemporary music. This intriguing series of interviews between Stockhausen and Mya Tannenbaum, a reporter for the noted Milan newspaper Corriere della Sera, reveals the human personality behind the music, touching upon his working methods, his family, his attitudes toward the various arts, and his outspoken views on religion, mysticism, astrology, humanity, and the universe. We hear polemics against many members of the music profession, from the great conductors and performers to the anonymous electricians and technicians, and yet, despite Stockhausen's intolerant and opinionated criticism of others, one cannot put the book down without having acquired a greater interest in, and sympathy for, his music.

[Thwarted Queen: A Saga About the Yorks, Lancasters and Nevilles, Whose Family Feud Started the Wars of the Roses, Cynthia Sally Haggard](#) , 2012, 148015539X, 9781480155398. THWARTED QUEEN is a portrait of a woman trapped by power, a marriage undone by betrayal, and a King brought down by fear. Cecylee is the apple of her mother's eye. The seventh daughter, she is the only one left unmarried by 1424, the year she turns nine. In her father's eyes, however, she is merely a valuable pawn in the game of marriage. The Earl of Westmorland plans to marry his youngest daughter to 13-year-old Richard, Duke of York, who is close to the throne. He wants this splendid match to take place so badly, he locks his daughter up. The event that fuels the narrative is Cecylee's encounter with Blaybourne, a handsome archer, when she is twenty-six years old. This love affair produces a child (the ?One Seed? of Book II), who becomes King Edward IV. But how does a public figure like Cecylee, whose position depends upon the goodwill of her husband, carry off such an affair? The duke could have locked her up, or disposed of this illegitimate son. But Richard does neither, keeping her firmly by his side as he tries to make his voice heard in the tumultuous years that encompass the end of the Hundred Years War - during which England loses all of her possessions in France - and the opening phase of the Wars of the Roses. He inherits the political mantle of his mentor Duke Humphrey of Gloucester, and becomes the people's champion. The rambunctious Londoners are unhappy that their country has become mired in misrule due to the ineptitude of a King prone to fits of madness. Nor are they better pleased by the attempts of the King's French wife to maneuver herself into power, especially as she was responsible for England's losses in France. But can Richard and Cecylee prevail? Everywhere, their enemies lurk in the shadows. This book is filled with many voices, not least those of the Londoners, who forged their political destiny by engaging in public debate with the powerful aristocrats of the time. By their courageous acts, these fifteenth-century Londoners set the stage for American Democracy.

[Of Scientists and Their Gods: An Inaugural Lecture Delivered Before the University of Oxford on 21 November 2000, John Hedley Brooke](#) , 2001, 0199513961, 9780199513963. Inaugurating this new chair in Science and Religion, Professor Brooke argued several inter-related theses: that a discourse of 'science and religion' has a long history; that the inter-relations between the two domains have been so rich and complex that they cannot be reduced to simple models of conflict or harmony; that iconic figures of western science, such as Copernicus, Boyle, Newton, Priestley, Darwin, and Einstein found in theology resources for the advancement of their science; and that, when placed in context, there is usually more to a discourse of 'science and religion' than science and religion.

[The Mental Corpus: How Language is Represented in the Mind, John R. Taylor](#) , 2012, 0199290806, 9780199290802. This book presents a radical reconceptualization of the nature of linguistic knowledge. John Taylor challenges the conventional notion that a language can be understood in terms of the interaction of syntax with a lexicon, the second listing the words and the first the rules for combining them. He proposes instead that an individual's knowledge of a

language can be thought of as a repository of memories of linguistic experience. Each encounter with the language, he argues, leaves a trace in our minds. We record the forms of utterances, the concepts and interpretations associated with them, and the contexts in which they were heard or seen. Features of incoming language - a word, a phrase, a meaning, a voice quality, an interactional situation - resonate with items already stored. Similarities between stored items give rise to generalizations of varying degrees of certainty and precision, which in turn are able to sanction new and innovative expressions. John Taylor writes with conviction, clarity, and wit, illustrating every stage of his argument with arresting examples. His account makes a profound and original contribution to understanding the nature of language and the operations of the mind and brain. His book will appeal in equal measure to linguists, philosophers, and cognitive scientists.

[Johns Hopkins University Color Transparencies for Book 5 Hofus, Johns Hopkins University Center for Soci, Johns Hopkins University Center for Social Organization of Schools](#) , 2005, 0195221001, 9780195221008. The Talent Development Middle Grades United States history curriculum brings together the award-winning, ten-volume series A History of US by Joy Hakim and ten teaching guides and resource books developed by TDMG at Johns Hopkins University. The curriculum includes the use of primary sources, simulations, writing assignments, extension activities, and assessments. This curriculum is aligned with National Standards for United States History. Each Teaching Guide and Resource Book includes twenty-five lessons, five review lessons, and five assessments. Each lesson includes a focus activity, interactive instructional and reading activities, a student team learning activity, a review and reflection activity, and extension activities to encourage learning across the curriculum. The student sheets and transparency masters provide all material needed for individual and team activities.

[The Stuff of Legend Book 4: The Toy Collector, Brian Smith, Mike Raicht](#) , 2013, 0983216177, 9780983216179. Continuing the saga of the New York Times Bestselling Graphic Novel! Following the tragic ending and shocking revelations of Stuff of Legend Volume 3: The Jester's Tale, Maxwell the Bear has taken it upon himself to find a weapon capable of defeating the Boogeyman forever. Meanwhile, the Boogeyman continues to manipulate all of the players in his grand scheme as he attempts to construct an army filled with soldiers who may well be indestructible. Could the boy's loyal warriors be waging a war they can never truly win? Revelations concerning allies, new and old, will be unearthed in Stuff of Legend Volume 4: The Toy Collector.

[Get Great Marks for Your Essays, John Germov](#) , 2000, 186508204X, 9781865082042. Not sure how to begin writing university essays? Four essays to write and only four weeks to go before the deadline? Then this book is for you. Find out the rules of the essay-writing game, how to muckrake for information, write drafts, handle references and do analysis. Discover where you win and lose marks. Learn how to take the right short cuts and make the most of your time. This guide tells you all you need to know to write essays in the humanities and social sciences. The second edition is fully revised and, in response to readers' suggestions, it includes a new chapter on the Internet.

[Our Family Has Cancer Too, Christine Clifford](#) , , .

[Visions of technology: a century of vital debate about machines, systems, and the human world, Richard Rhodes](#) , 1999, 0684839032, 9780684839035. The Pulitzer Prize-winning author of The Making of the Atomic Bomb provides a unique perspective on the twentieth century through a lively collection of writings about the unexpected and paradoxical ways in which technology has changed our lives -- and will affect our future. Technology has been the blessing and the bane of the twentieth century. Human lifespan has nearly doubled in the West, but in no century have more human beings ever been killed by new technologies of war. Improvements in agriculture have fed increasing billions, but pesticides and chemicals threaten to poison the Earth. Does technology improve us or diminish us? Enslave us or make us free? The problems and paradoxes of technology have stirred impassioned debate, yet, despite the central role technology has played in this century, Visions of Technology is the first book to explore the rich diversity of commentary about this vital subject. Guided by the eminent Richard Rhodes, the reader of this provocative treasury will find highlighted the views of such prominent technological figures as Henry Ford, H. G. Wells, Rachel Carson, Margaret Sanger, Aldous Huxley, John Glenn and Gordon E. Moore. Visions of Technology also features thought-provoking images -- from the first X ray to R. Crumb's comic apocalypse -- which inform this original, much-needed roundtable. Among the gems of opinion and history of technology gathered in this volume are Henry Ford on the horseless carriage, Thorstein Veblen on the discipline of the machine, David McCullough on the Panama Canal, Billy Mitchell on air warfare, Margaret Sanger on birth control, Robert Caro on Robert Moses, Charles Lindbergh on flying, James Agee on overalls, Lieutenant General Leslie R. Groves on the Manhattan Project, J. Robert Oppenheimer on science and war, Isaac Asimov on robotics, Alva Myrdal on "Blue Jeans and Coca-Cola," Joan Didion on the Hoover Dam and Julian L. Simon on the pitfalls of making predictions (of which there are many in the 214 selections that make up this book). At once a work of cultural history and of literature, Visions of Technology is an indispensable guide to understanding the world we have created for ourselves in the twentieth century and the problems we face at its conclusion.

[Specifying Architecture: A Guided Learning Package](#) , 2001, . NATSPEC//TOOLBOX features NATSPEC files with built-in tools to make assembling, formatting and editing building specifications much easier. Toolbox information is organised in four main compartments: NATSPEC specifications, Building Code of Australia, Australian standards, Building products.

[%Repl/Maggie Too Grade 5, HBJ](#) , 1989, .

[California: The Politics of Diversity, David Lawrence](#) , 2012, 1111833532, 9781111833534. CALIFORNIA: THE POLITICS OF DIVERSITY, Seventh Edition, is a comprehensive text that explores the uniqueness and excitement of California's political environment through two key themes: diversity and hyperpluralism. An experienced educator with a background in local government, Lawrence brings an informed, insightful perspective to the examination of the numerous pressures that make governing the state increasingly challenging. To help readers better understand California politics in a national context, the text also discusses aspects of American politics such as the democratic, elite, and pluralist theories and shows how those concepts can aid in understanding California politics.Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

[The First 100: Portraits of the Men and Women Who Shaped Las Vegas, A. D. Hopkins, K. J. Evans](#) , 2000, 0929712676, 9780929712673. Meet the explorers, builders, outlaws, gamblers, entrepreneurs, and 14-karat characters who transformed Las Vegas from a desert watering hole into the extraordinary city it is today. A D Hopkins and K J Evans of the Las Vegas Review Journal have compiled 100 in-depth profiles of the remarkable men and women who ushered Las Vegas to the forefront of popular culture. This far-reaching roundup of notable Southern Nevadans includes explorer John C Fremont, pioneers O D Gass and Helen J Stewart, mob boss Bugsy Siegel, cowboy gambler Benny Binion, millionaire eccentric Howard Hughes, Rat Pack crooner Frank Sinatra, and flamboyant showman Liberace, as well as contemporary movers and shakers E Parry Thomas, Kirk Kerkorian, Irwin Molasky, Jerry Tarkanian, Bob Stupak, and Steve Wynn. Illustrated with hundreds of black and white photographs culled from the private collections of dozens of individuals, the files of state and city agencies, and the vast archives of the Las Vegas Review Journal, this classic collection of condensed biographies brings the history of Las Vegas alive in a way no other book has before.

[Tsubo: Vital Points for Oriental Therapy, Katsusuke Serizawa](#) , 1998, 087040900X, 9780870409004. A boon to the health-conscious individual, this practical volume introduces the completely natural Oriental healing system of Tsubo: vital points along the body where the energy flow of the organs tends to stagnate. With simple text and clear diagrams the author shows how to locate Tsubo, and how to apply acupuncture, massage, shiatsu, and other popular therapies for astonishing relief of such common ailments as fatigue, insomnia, muscular aches, back pain, asthma, nausea, and more... and for skin and beauty enhancement. Comprehensive and informative, Tsubo will enable the layman at home as well as the holistic and general practitioner to promote good health and to reap the benefits of this little-known,

remarkable self-healing technique.

[Washita Memories: Eyewitness Views of Custer's Attack on Black Kettle's Village, Richard G. Hardorff](#) , 2006, 0806137592, 9780806137599. The Battle of the Washita is one of the most tragic and disturbing events in American history. On November 27, 1868, the U.S. Cavalry under Lt. Col. George Armstrong Custer attacked a peaceful Southern Cheyenne village along the Washita River in present-day western Oklahoma. This U.S. victory signaled the end of the Cheyennes traditional way of life and resulted in the death of Black Kettle, their most prominent peace chief. In this documentary history, Richard G. Hardorff presents a broad range of views of the Washita battle. Eyewitnesses to the destruction of the Southern Cheyenne village included soldiers, officers, tribal members, Indian and white scouts, and government officials. Many of these witnesses recorded their memories of the event. The records they left vary from oral accounts handed down through Cheyenne families to personal letters, diary entries, newspaper columns, and even official government files. With Washita Memories, Hardorff has collected these surviving documents into a one-of-a-kind primary resource. Each document is reproduced in full with an introduction and extensive annotation, and a general introduction places the campaign and its aftermath in historical context. Hardorff also provides fourteen detailed maps of the battle site and campaign routes.

[The Wetlands Handbook, Edward Maltby, Tom Barker](#) , 2009, 0632052554, 9780632052554. Forty-two chapters by

international experts from a wide range of disciplines make The Wetlands Handbook the essential tool for those seeking comprehensive understanding of the subject. A departure from more traditional treatises, this text examines freshwater wetland ecosystem science from the fundamentals to issues of management and policy. Introductory chapters address the scope and significance of wetlands globally for communities, culture and biodiversity. Subsequent sections deal with processes underpinning wetland functioning, how wetlands work, their uses and values for humans and nature, their sensitivity to external impacts, and how they may be restored. The text is illustrated by numerous examples, emphasising functional and holistic approaches to wetland management, including case studies on the wise use and rehabilitation of wetlands in farmed, urban, industrial and other damaged environments, highlighting the long-term benefits of multiple use. The Wetlands Handbook will provide an invaluable reference for researchers, managers, policy-makers and students of wetland sciences.

[Strange Things Happen: A Life with The Police, Polo, and Pygmies, Stewart Copeland](#) , 2010, 0061791512, 9780061791512. When Stewart Copeland gets dressed, he has an identity crisis. Should he put on leather pants, hostile shirts, and pointy shoes? Or wear something more appropriate to the tax-paying, property-owning, investment-holding lotus eater his success has allowed him to become? This dilemma is at the heart of Copelands vastly entertaining memoirin- stories, Strange Things Happen. Most people know Copeland as the drummer for The Police, one of the most successful bands in rock history. But they may not know as much about his childhood in the Middle East as the son of a CIA agent. Or be aware of his filmmaking adventures with the Pygmies in the deepest reaches of the Congo, and his passion for polo (Brideshead Revisited on horses). In Strange Things Happen we move from Copelands remarkable childhood to the formation of The Police and their rise to stardom, to the settled-down life that followed. Its a book of amazing anecdotes, all completely true, that take us backstage in a life that is fully lived.

[Reinventing a Continent: Writing and Politics in South Africa, Andr Philippus Brink](#) , 1996, 0944072895, 9780944072899. The first U.S. publication of a major new work of nonfiction by acclaimed South African writer Andre Brink, author of Imaginings of Sand and A Dry White Season. With a preface by President Nelson Mandela, and a new introduction and epilogue written expressly for the American edition, Reinventing a Continent collects Brink's writings on politics, culture and literature from 1982 to 1996, a period of unprecedented social change. Ranging in tone from dispassionate historical overview to bare-knuckles polemic, these essays chronicle a nation's willful transformation from repressive police state to emerging democracy."The South African struggle for liberation and democracy was always and everywhere -- in exile, in prison, in the internal mass movements and the underground -- informed and inspired by the rich body of thought and creative work produced by our writers. Their work continued to demonstrate, even in the darkest years, that the South African voices of justice and reason would not be silenced. These essays ... open a vista on the challenges and the rich possibilities ahead. The quality of our freedom in the future will depend on the creative and critical input of our writers

and intellectuals, just as much as the attainment of the present conditions for that freedom was brought about by their contributions". -- from the preface by President Nelson Mandela

[The Poem: an anthology, Stanley B. Greenfield, Andrew Kingsley Weatherhead, Robert F. Garratt](#) , 1990, 0136841430, 9780136841432. A chronologically-organized anthology of British and American poetry with minimal apparatus.

[Sourcebook and Index: Documents That Shaped the American Nation, , Oxford University Press, Joy Hakim](#) , 2002, 0195153391, 9780195153392. Designed to accompany Joy Hakim's ten-volume A History of US or as a stand-alone reference, this collection of great American documents is ideal for all students of American history. Filled with primary sources, the Sourcebook and Index traces the gradual unfolding of ideas of freedom in America through letters, declarations, proclamations, court decisions, speeches, laws, acts, the Constitution, and other writings. Updated with a complete listing of the constitutional amendments and a listing of the presidents with key information about them, the Sourcebook and Index is arranged chronologically, beginning with the Magna Carta and ending with Ronald Reagan's 1988 speech at Moscow State University. Each document is introduced and placed in historical context. Difficult vocabulary is defined in the margins along with explanatory notes and commentary that aids in understanding the meaning and historical importance of each document. Neatly cross-referenced with key sections of A History of US, the Sourcebook and Index is an easy-to-use collection of the documents most essential to understanding American history. Included are some of the many voices whose words have moved the nation: Ben Franklin, Tom Paine, Abigail Adams, Thomas Jefferson, St. John de Crevecoeur, George Washington, Sagoyewatha, James Monroe, Andrew Jackson, Alexis de Tocqueville, Ralph Waldo Emerson, Sojourner Truth, Frederick Douglass, Abraham Lincoln, Chief Joseph, Woodrow Wilson, Herbert Hoover, Franklin D. Roosevelt, Harry Truman, John F. Kennedy, Martin Luther King Jr., Ronald Reagan

[The Asia Book: A Journey Through Every Country in the Continent,](#) , 2007, 1741046017, 9781741046014. Asia: a continent of candid contradictions, unmatched mayhem and mystery, where just one experience will never quite articulate the magic of the place. A fisherman's song at dawn on the banks of the Mekong, a chaos of color on the ghats of the Ganges, the silence of the vast steppes of Kazakhstan, a marching mile of red hats along the Great Wall road: Asia is all this and more. From the tropical beaches of Bali to the frozen slopes of Everest, The Asia Book draws together a definitive collection of the sights, sounds and tastes of this captivating continent. Here's how to start - open at any page and begin your own journey. Track the voyage of Lawrence of Arabia, hear the stories of the Silk Road trail, or plan an island-hopping itinerary. Settle back and discover the fascinating people, radical ingenuity, humbling hospitality and inspiring spirit of each country. Let Lonely Planet's photographers, authors and travellers lead you through five regions, 46 countries, and more than two thousand years of stories.

[Iris and Walter and Cousin Howie, , Elissa Haden Guest](#) , 2006, 0152056564, 9780152056568. "An easy-to-read story about friendship." -- School Library Journal In this Level 3 chapter book for newly independent readers, Walter's favorite cousin, Howie, comes for a visit. Iris expected the three of them to have lots of fun fishing and learning magic tricks. Instead, Iris feels left out and worries she will lose her best friend. Like other Iris and Walter books in the Green Light Readers series, this story addresses common childhood situations with sensitivity and honesty. Storyline also creates opportunities to talk about bullying behaviors, and, ultimately, shows characters developing clever ways to resolve their troubles.

[Personal Revival: Living the Christian Life in the Light of the Cross, Stanley Voke](#) , 2004, 1884543057, 9781884543050.

'Between Horror and Hope' is a study of Paul's metaphorical language of death in Romans 6:1-11. The scholarly debate focuses on two main issues; the origin of the 'commentatio mortis' tradition and its development. Dr. Sabou argues that the origin of this terminology is original to Paul; that it was the apostle's own insight into the meaning of Christ's death (a "death to sin") and his understanding of the identity of Christ in his death (as the anointed Davidic king) which guided him to create this metaphor of "dying to sin" as a way of describing the relationship of the believer with sin. On the development of this language of death, the author argues that this language conveys two aspects horror and hope. The first is discussed in the context of crucifixion in which Paul explains the believer's "death to sin" by presenting Christ's death as the death of the anointed Davidic king who won the victory over sin and death by rising from the dead. Paul affirms that believers are "coalesced" with what was "proclaimed" about Christ's death and resurrection, thereby allowing him to assert that the releasing of the body from the power of sin is a result of "crucifixion." This "crucifixion" is the

"condemnation" inflicted on our past lives in the age inaugurated by Adam's sin and this is such a horrible event that believers have to stay away from sin since sin leads to such punishment. In contrast, hope is presented in the context of "burial." The believers' "burial with" Christ points to the fact that they are part of Christ's family and this is accomplished by the overwhelming action of God by which he pushes us toward the event of Christ's death, an act pictured in baptism. It is this "burial with" Christ that allows believers to share with Christ in newness of life.

[Millennial Hospitality II: The World We Knew, Charles James Hall](#) , 2002, 140339203X, 9781403392039. Millennial

Hospitality II is an etiquette book for the 21 Century. It suggests how we might interact with aliens and answers many questions the readers had after reading Millennial Hospitality.

[Buttoned-Up: The East London Line, Gert Jonkers, Jop van Bennekom](#) , 2013, 1846145686, 9781846145681. London is a centre of cutting-edge fashion - in Buttoned-Up, the creators of 'the best fashion mag out there', Fantastic Man, tell the story of London style through the history of the button-down shirt - part of a series of twelve books tied to the twelve lines of the London Underground, as TfL celebrates 150 years of the Tube with PenguinAlso available in a boxset'Taking a seemingly singular point of focus, the top-button-buttoned shirt, [Buttoned-Up] is a sartorial romp along the Ginger Line, looking at the curious fashion phenomenon through the eyes of its greatest exponents, including the Pet Shop Boys' Neil Tennant, who is pictured like everyone else in the book, buttoned up to the top'-Design Week'Authors include the masterly John Lanchester, the children of Kids Company, comic John O'Farrell and social geographer Danny Dorling. Ranging from the polemical to the fantastical, the personal to the societal, they offer something for every taste. All experience the city as a cultural phenomenon and notice its nature and its people. Read individually they're delightful small reads, pulled together they offer a particular portrait of a global city' Evening Standard'Exquisitely diverse' The Times'Eclectic and broad-minded ... beautifully designed' Tom Cox, Observer'A fascinating collection with a wide range of styles and themes. The design qualities are excellent, as you might expect from Penguin with a consistent look and feel while allowing distinctive covers for each book. This is a very pleasing set of books' A Common Reader blog'The contrasts and transitions between books are as stirring as the books themselves ... A multidimensional literary jigsaw' Londonist'A series of short, sharp, city-based vignettes - some personal, some political and some pictorial ... each inimitable author finds that our city is complicated but ultimately connected, full of wit, and just the right amount of grit' Fabric Magazine'A collection of beautiful books' Grazia[Praise for Fantastic Man magazine]:'The best fashion mag out there ... Fashion-forward, clever, deeply engaged with the fashion world, ... Fantastic Man is better designed, better photographed and crafts more stylish than the competition. If you buy only one men's fashion magazine, it should be this one', San Francisco ChronicleGert Jonkers and Jop van Bennekom are the creators of Fantastic Man, a formal and intelligent men's fashion magazine that positions itself above the commercial fray with a singular tone and elegant design. In 2010 they launched the female counterpart of Fantastic Man called The Gentlewoman, a modern ladies style journal.

It includes a therapist guide, take-home workbook for parents, and daily record log forms for use in the initial assessment and for tracking behavior through treatment.

[Survival handbook for the new chemistry instructor, Diane M. Bunce, Cinzia M. Muzzi](#) , 2004, 0131433709, 9780131433700. This book is the one single place, a new chemistry professor or any new professor, can go to find practical information on how to teach and how to prepare for teaching their first course. This book talks about how to write a syllabus; how to assess teaching styles, what works and what doesn't in a chemistry classroom; how to incorporate out-of-classroom resources into learning; both lecture teaching and small group study; and general information from getting a job in academia to professional development and expectations. For professors in chemistry, or any professor new to teaching or new to a particular area of teaching.

[The Jungle Books, Rudyard Kipling](#) , 1989, 0140183167, 9780140183160. Rudyard Kipling had never visited the jungles of Central India, yet his descriptions have a breathtaking imaginative power; and in Mowgli, the boy who grows up among wolves, he created one of the most popular and enduring of modern literary myths. Mowgli's companions and enemies include such unforgettable creatures as Shere Khan the tiger and Bagheera the black panther; from the moment "a little naked cub" wanders into the lair of Father Wolf and Mother Wolf to the moment when the "Master of the Jungle" returns to his own people, Mowgli's adventures comprise a rich and complex fable of human life. Along with these stories

are other animal tales, ranging from the simple heroism of "Rikki-tikki-tavi" to the macabre comedy of "The Undertakers." Addressed equally to the imagination and understanding of children and adults, these tales are among the finest work of a master storyteller.

[Language History, Language Change, and Language Relationship: An Introduction to Historical and Comparative Linguistics, Hans Henrich Hock, Brian D. Joseph](#) , 2009, 311021430X, 9783110214307. Why does language change? Why can we speak to and understand our parents but have trouble reading Shakespeare? Why is Chaucer's English of the fourteenth century so different from Modern English of the late twentieth century that the two are essentially different languages? Why are Americans and English 'one people divided by a common language'? And how can the language of Chaucer and Modern English - or Modern British and American English - still be called the same language? The present book provides answers to questions like these in a straightforward way, aimed at the non-specialist, with ample illustrations from both familiar and more exotic languages. Most chapters in this new edition have been reworked, with some difficult passages removed, other passages thoroughly rewritten, and several new sections added, e.g. on language and race and on Indian writing systems. Further, the chapter notes and bibliography have all been updated.

[The Perfect Wife, Lynsay Sands](#) , 2011, 0062019775, 9780062019776. She hopes her groom is partial to cherries For that's what Avelyn fears she will resemble at their wedding feast: too round, too red, in the scarlet gown she barely fits into . . . and perhaps too tart for his taste? Her groom no doubt wants a sweet, biddable bride, tiny and trim, as Avelyn is desperately trying to appear. After the lonely, harsh life of a knight, Paen Gerville desires a lively, well-rounded woman, one with soft, plump breasts to cushion his weary head. Yet his wife-to-be promises no such delightsand her health is apparently so fragile that she faints in his arms after their first kiss. But all it takes is one split bridal gown for her hidden assets to become eye-poppingly apparent. And Paen can anticipate a glorious wedding night filled with other delightful surprises as he sets out to convince Avelyn what he already knows in his heart: that she is indeed . . . The Perfect Wife!

[The Oxford Handbook of Eye Movements, Simon Liversedge, Iain Gilchrist, Stefan Everling , 2013, 0199683433, 9780199683437.](#) In the past few years, there has been an explosion of eye movement research in cognitive science and neuroscience. This has been due to the availability of 'off the shelf' eye trackers, along with software to allow the easy acquisition and analysis of eye movement data. Accompanying this has been a realisation that eye movement data can be informative about many different aspects of perceptual and cognitive processing. Eye movements have been used to examine the visual and cognitive processes underpinning a much broader range of human activities, including, language production, dialogue, human computer interaction, driving behaviour, sporting performance, and emotional states.

Finally, in the past thirty years, there have been real advances in our understanding of the neural processes that underpin eye movement behaviour. The Oxford Handbook of Eye Movements provides the first comprehensive review of the entire field of eye movement research. In over fifty chapters, it reviews the developments that have so far taken place, the areas actively being researched, and looks at how the field is likely to develop in the coming years. The first section considers historical and background material, before moving onto section 2 on the neural basis of eye movements. The third and fourth sections look at visual cognition and eye movements and eye movement pathology and development. The final sections consider eye movements and reading and language processing and eye movements. Bringing together cutting edge research from an international team of leading psychologists, neuroscientists, and vision researchers, this book is the definitive reference work in this field.
