Writing in an approachable and anecdotal style, Tom Wright helps us see the great sweep of this letter. Romans has long been viewed as the book above all in which Paul puts forth the basic doctrines of the faith, and the picture of God's life for us. It is the classic setting-out of the Gospel. Tom Wright has undertaken a tremendous task: to provide guides to all the books of the New Testament and to include in them his own translation of the entire text. Each short passage is followed by a highly readable discussion, with background information, useful explanations and suggestions, and thoughts as to how the text can be relevant to our lives today. A glossary is included at the back of each book. The series is suitable for group study, personal use, or daily devotions.

[Who Needs Migrant Workers?: Labour Shortages, Immigration, and Public Policy, Martin Ruhs, Bridget Anderson](#) , 2010, 0199580596, 9780199580590. Are migrant workers needed to 'do the jobs that locals will not do' or are they simply a more exploitable labour force? Do they have a better 'work ethic' or are they less able to complain? Is migrant labour the solution to 'skills shortages' or actually part of the problem? This book provides a comprehensive framework for analysing the demand for migrant workers in high-income countries. It demonstrates how a wide range of government policies, often unrelated to migration, contribute to creating a growing demand for migrant labour. This demand can persist even during economic downturns. The book includes quantitative and qualitative analyses of the changing role of migrants in the UK economy. The empirical chapters include in-depth examinations of the nature of staff shortages and the use of migrant workers in six sectors: health; social care; hospitality; food production; construction; and financial services. The book's conceptual framework and empirical findings are of importance to academic and policy debates about labour immigration in all high-income countries. The final chapter presents a comparative analysis of research and policy approaches to assessing labour shortages in the UK and the US. It examines the potential lessons of the UK's Migration Advisory Committee (MAC) for current debates about labour shortages and immigration reform in the US. The book will be of significant interest to policy-makers, stakeholders, academics and students.

Andrews takes the reader with her as she goes on inward journeys with the help of the Sisterhood of the Shields, and relates the stories of others. Join her as she is initiated into the Sisterhood and creates her own shield, which will show her the nature of her spiritual path (Spirit Woman). Follow her to the Yucatan, where the medicine wheel leads her, and she is

faced with the terrifying reality of the butterfly tree (Jaguar Woman). Enter the Dreamtime with her, where she emerges in medieval England as Catherine, and encounters the Grandmother, who offers to show Andrews how to make her life one of goodness, power, adventure, and love (The Woman of Wyrrd). Not all these stories describe the author's own spiritual experiences. Meet Sin Coraz'n, an initiate into the Sisterhood, whose husband abandons her. She nearly succumbs to her inner dark power and unleashes her rage on men and the Sisterhood (Dark Sister). Andrews also writes about the elder women of the Sisterhood: their loves, their lives, their losses (Tree of Dreams). Andrews shows us how to channel our own spiritual and intellectual energy and balance the need for love with the desire for power (Love and Power). She takes the reader on numerous spiritual journeys that inevitably uplift.

From Portugal through Morocco, Western Sahara, Mauritania, Mali, Guinea, and Senegal, it also provides a unique look at the countries hosting the rally.

[Paths to Post-Nationalism: A Critical Ethnography of Language and Identity, Monica Heller](#) , 2011, 0199746869, 9780199746866. Nationalism informs our ideas about language, culture, identity, nation, and State--ideas that are being challenged by globalization and an emerging new economy. As language, culture, and identity are commodified, multilingualism becomes a factor in the mobility of people, ideas and goods--and in their value. In Paths to Post-Nationalism, Monica Heller shows how hegemonic discourses of language, identity, and the nation-State are destabilized under new political and economic conditions. These processes, she argues, put us on the path to post-nationalism. Applying a fine-grained ethnographic analysis to the notion of "francophone Canada" from the 1970s to the present, Heller examines sociolinguistic practices in workplaces, schools, community associations, NGOs, State agencies, and sites of tourism and performance across francophone North America and Europe. Her work shows how the tensions of late modernity produce competing visions of social organization and competing sources of legitimacy in attempts to re-

imagine--or resist re-imagining--who we are.

She has successfully challenged harmful stereotypes and racism in this significant book... If an accurate history is to be learned, then society must accept the truth of cultural pluralism and give equal and fair treatment to Native Americans and other minorities... Illustrated by Chicago artist Rob Funderburk. For everyone

who's always wondered what would happen if Roger Ebert had taken Oprah Winfrey to a critics' screening of REVENGE OF THE NERDS for their second date... "An absurdist Chi-town Spoon River Anthology on crack, Mike Czyzniejewski's Chicago Stories is an explosion of imagination, a relentless churn of intellect and wit. In true Chicago style, this book tells it straight to your face and pulls no punches. Chicago Stories is easily the most fun I've had reading in quite some time."

- Alan Heathcock, author of VOLT "Mike Czyzniejewski's Chicago Stories reads at once as scathing celebration of the moral landscape that stretches across the country's midsection, and as a travelogue. Czyzniejewski's sharp wit and peering eye trek along that crooked road between the dead president & crony highways and the murky river, crossing tracks where trains haven't run in two score - before boring down past the jukejoints sidled against public houses, and corner hustlers hawking whores to blue pickpockets and last migrants on the run, down where they all keep score in shadow votes. The author brings it home early and often here as, along with so much more, he is a sojourner." - Bayo Ojikutu, author of Free Burning "In Chicago Stories, Michael Czyzniejewski channels Studs Terkel's Division Street, the voices so singular and complete that in the end you feel as though you've listened to each story rather than read them. Perrault's best-known stories include such timeless classics as Cinderella, Sleeping Beauty, Red Riding Hood, and Puss in Boots, which continue to be updated and adapted for modern audiences, as well as for the stage, ballet, and film. Written from diverse perspectives, the essays offer close readings of selected texts and draw on letters and journals to offer a comprehensive view of how Emerson's and Thoreau's friendships took root and bolstered their individual political, social, and ethical projects. This collection explores how Emerson and Thoreau, in their own ways, conceived of friendship as the creation of shared meaning in light of personal differences, tragedy and loss, and changing life circumstances. Emerson and Thoreau presents important reflections on the role of friendship in the lives of individuals and in global culture.

Employment Law has been developed primarily for students taking an elective module in employment on the LPC and is suitable for courses with either a corporate or private client focus. The 2013 edition continues to provide a practical and comprehensive guide to the subject and has been fully updated to include recent UK and European case law and developments in employment law practice. [I Await the Devil's Coming, Mary MacLane](#) , 2013, 1612191940, 9781612191942. Mary MacLane's 'I Await the Devil's Coming' is a shocking, brave and intellectually challenging diary of a 19-year-old girl living in Butte, Montana in 1902. Written in potent, raw prose that propelled the author to celebrity upon publication, the book has become almost completely forgotten. In the early 20th century, MacLane's name was synonymous with sexuality; she is widely hailed as being one of the earliest American feminist authors, and critics at the time praised her

work for its daringly open and confessional style. In its first month of publication, the book sold 100,000 copies andmdash; a remarkable number for a debut author, and one that illustrates MacLaneandrsquo;s broad appeal. Now, with a new foreward written by critic Jessa Crispin, andI Await The Devilandrsquo;s Comingandstands poised to renew its reputation as one of Americaandrsquo;s earliest and most powerful accounts of feminist thought and creativity.

If you're an actress or a coed just trying to do a man-size job, a yes-man who turns a deaf ear to some sob sister, an heiress aboard her yacht, or a bookworm enjoying a boys night out, Diane Ravitch's internationally acclaimed *The Language Police* has bad news for you: Erase those words from your vocabulary! Textbook publishers and state education agencies have sought to root out racist, sexist, and elitist language in classroom and library materials. But according to Diane Ravitch, a leading historian of education, what began with the best of intentions has veered toward bizarre extremes. At a time when we celebrate and encourage diversity, young readers are fed bowdlerized texts, devoid of the references that give these works their meaning and vitality. With forceful arguments and sensible solutions for rescuing American education from the pressure groups that have made classrooms bland and uninspiring, *The Language Police* offers a powerful corrective to a cultural scandal.

[Dialogues on God: Three Views, John L. Hodge](#) , 2012, 0983179026, 9780983179023. Through a relatively congenial but frank interchange among three siblings, the dialogues highlight three very different ways of living and apprehending the universe. One sibling has a traditional view of God (traditional, that is, within a Christian/Judaic/Islamic context). One has a very different view of God. And one is an atheist. Their interchange reveals interconnections between their views about God and about politics, society, beauty, science, personal relationships, individuality, good and evil, and war and peace. This interchange among the three illustrates how very different views about God impact practically everything else. But how can those with such conflicting views live together in the same community, the same society, the same world? By challenging each other in eleven dialogues, the siblings, in spite of their conflicting views, come to a common realization and agreement. To find out what it is and to understand how they get there, read these dialogues.

[Debutante Hill, Lois Duncan](#) , 2013, 1939601002, 9781939601001. Louis Duncan's 1958 young adult classic tells the story of what happens when the debutante tradition comes to one small town: the parties, the ball gowns, as well as one girl's growing sense of right and wrong. Lynn Chambers is popular, wealthy, and going (almost) steady with a handsome college boy. But when she decides not to be a debutante, Lynn finds herself on the outside, which leads her to a side of

her town she barely knew existed. There she meets Anna, an artist overlooked by the debutante crowd, and bad boy Dirk Masters, who has a fast car, a quick temper, and a dark secret involving Lynn. Lois Duncan was a young wife and mother of two when she decided to write a novel to pay the bills. The result was *Debutante Hill*. The novel was originally rejected for consideration in the Dodd, Mead and Company's Seventeenth Summer Literary contest due to one character drinking a beer, but after Duncan swapped in a soft drink, she won the prize, which paid the down payment on her first house. Since then, Duncan has written over fifty novels, receiving worldwide acclaim for her young adult fiction. She pioneered the teen suspense novel, and is a regular nominee for the Edgar Allen Poe award. In 1992, Duncan was awarded the Margaret A. Edwards Award For a Distinguished Body of Work for Young Adults. Her novels *I Know What You Did Last Summer* and *Hotel for Dogs* have been adapted into popular films.

[Sam Maloof, Woodworker, Sam Maloof](#) , 2013, 1568365098, 9781568365091. What if Picasso had been a chair maker and Stravinsky a designer of tables? What would have been the impact of such intense creative talent on twentieth-century furniture? Today there is a man with this quality of profound artistic vision and talent who has devoted his life to making furniture. His name is Sam Maloof, and this book is his life and work told in his own words. Sam Maloof started making furniture immediately after World War II, when there was very little demand for hand-made objects. His perseverance through 'years of difficulty is a testament to the depth of his love for wood and for working with it. Since childhood, Sam has also been in love with technique and has constantly developed his precise sense of form and design. These three loves-of wood, of making things, and of design brought him to the world of furniture and eventually to an honored place among America's leading artistcraftsmen. As with true great art, everything Sam Maloof makes seems simple. His furniture has a clear rhythm and flow, a bright vitality that eludes analysis. All his furniture is functional: chairs are comfortable; tables, while sculptural, are still tables to be used; desks are custom-designed to meet the needs of each user. Though Maloof furniture designs are all intensely his own, they remain unassuming and natural. His work

has the calm, sure quality that comes from technical mastery combined with a creative joy in finding ways to let wood speak. A first encounter with a piece of Maloof furniture is like meeting a friend from the past—the warmth of relationship is immediate and delightful. This warmth never pales. The qualities of his work are mirrored in the artist. Sam is open, direct, and gracious. He projects a feeling of affable dignity and goodwill, and he works with the ease and clarity seen in his furniture. Work for him is not drudgery. It is a renewal, an affirmation. He and his wife, Alfreda, live in a meandering house that nestles in a lemon orchard at the foot of the San Gabriel Mountains, near San Bernardino, California. Sam has been building and expanding the house for thirty years. It unfolds as a series of surprises, from Sam's workshop at one end to the new guestroom at the other. Every room contains the ceramics, woodwork, textiles, baskets, Pictures, and other beautiful things that nourish the Maloofs and give them pleasure. Sam Maloof's technical mastery of woodworking is coupled with mature, strongly personal artistic expression. He has set a standard for his craft in North America and the world. Future generations of craftsmen will see him as one of the major artistic lights of this century.

[Vikram and Vetala, Poile Sengupta](#) , 2005, 0143334980, 9780143334989. The king slashes his way through the forest, his sword cutting down the terrifying rings of leaves and branches. He climbs a tamarind tree and brings down a corpse hanging from its highest branch. Just as he turns to make his way out of the gloomy forest, an eerie voice cackles in his ear . . . Thus begins the saga of Vikramaditya, the brave and noble king, and the Vetala, his tormentor from the spirit world. As Vikramaditya trudges through the forest, the Vetala narrates stories to him, ending each with a riddle that tests the king's famed sense of justice, his ideas of right and wrong. Many centuries later, a twelve-year-old girl, disgusted at the way her summer holiday is turning out, runs away to a dusty field where she meets a strange old man sitting under a large tree. The man tells her stories about kings and queens and people of long ago, tales of generosity, courage and wisdom as well as of treachery, deceit and great stupidity. Incredibly, each of the stories deals with ideas and issues that are being debated at home by her eccentric grandmother. She also learns that these are the ancient Vikram and Vetala stories, and that King Vikramaditya had asked for a boon wanting these tales to be handed down generations. But who is the old man? And what connects the girl to a king from ancient times? Deftly weaving together the age-old Vikram and Vetala stories with the mysterious happenings of a summer holiday, Poile Sengupta brings alive these classic tales in a new, energetic way. Funny, sad, serious and weird, this unique retelling proves how relevant these tales remain even today

A Kind of Testament is part autobiography and part justification of the life's work of one of Poland's most important novelists and playwrights. Written in France in 1968, this personal testimony is more than just a life history or a critique of his work. A Kind of Testament stands as a testament to how Gombrowicz came to be the person and writer that he was and overlap between the two. "[Gombrowicz is] one of the profoundest of the late moderns." - John Updike "What we have here is an unusual manifestation of a writing talent." - Bruno Schulz "Gombrowicz is one of the most original and gifted writers of the twentieth century: he belongs at the very summit, at the side of his kindred spirits, Kafka and Celine." - The Washington Post "Gombrowicz's art cannot be measured with the passing of decades. It is a monument of Polish prose." - Czeslaw Milosz "In his native Poland he is something of a saint-- both a literary icon and a hero of bored school kids." - The Washington Times

[Absolute power trip: lifestyle guide for women boaters, Barbara Unger](#) , 1999, 0966531949, 9780966531947. More women than ever are involved in boating. Some enjoy the sport with a partner, while others are owner-operators of pleasure or charter boats. As with life, women often have a different approach to the sport than men do. The intent to Absolute Power Trip: A Lifestyle Guide for Women Boaters is to help you embrace the sport from a woman's point of view. Often women gain their knowledge of boating from the men who introduce them to the sport. While understanding safety, navigation, weather and seamanship is very important, many women also find themselves responsible for preparing meals, keeping the boat clean and organized, and packing for herself and her family. Boating books for men abound, but few address women's concerns. Frequently women lose interest in the sport because they never feel comfortable. Absolute Power Trip: A Lifestyle Guide for Women Boaters will help you gain the confidence to begin using the boat as a place to relax, entertain, explore and vacation.

[The Value Profit Chain: Treat Employees Like Customers and Customers Like, James L. Heskett, W. Earl Sasser, Leonard A. Schlesinger](#) , 2010, 1439136122, 9781439136126. James Heskett, Earl Sasser, and Leonard Schlesinger reveal powerful new evidence that paying close attention to the employee-customer relationship will enable any organization to be a low-cost provider and achieve superior results -- proving that you can have it all, a goal thought inadvisable just a few short years ago. At the heart of this bold assertion is the authors' indisputable conclusion supported by thirty-one years of groundbreaking research: today's employee satisfaction, loyalty, and commitment strongly influences tomorrow's customer satisfaction, loyalty, and commitment and ultimately the organization's profit and growth -- a quantifiable set of associations the authors call the value profit chain. In what may be the most far-reaching study ever undertaken of the strategic importance of the employee-customer relationship, Heskett, Sasser, and Schlesinger offer profound new insights into the life-long value of both employees and customers and the increasingly important concept of employee-relationship management. Readers will discover how organizations as diverse as aluminum maker Alcoa, travel agency Rosenbluth International, and the Willow Creek Community Church treat employees like customers (in the case of Willow Creek, volunteers as well). Conversely, the authors show how advertising agency Merkley Newman Harty and financial services provider ING Direct treat customers like employees, pursuing the ones they want most. At the Vanguard Group, Cisco Systems, and Southwest Airlines, both practices are common. The authors explain how these organizations and many others -- whether large or small, public or private, or not-for-profit -- achieve profitability and growth or the equivalent by leveraging results and process quality to deliver differentiated products and services at the lowest cost. Timely, essential, and important reading, The Value Profit Chain should be readily accessible on the desk of every forward-thinking manager.

Melanie Klein had already proved, by the special technique she devised, that she was a pioneer in that branch of analysis. [Overland 189: Summer 2007, Jeff Sparrow](#) , 2007, 0977517160, 9780977517169. The ease with which the rhetoric of progress (democracy, secularism, gender equality, etc.) has been enlisted into the barbarities of the Iraq occupation confirms for many a sense of Western civilisation as entirely oxymoronic. Yet there's more to say on the question than this. Though September 11 catapulted Samuel P. Huntington's slogan about the 'Clash of Civilisations' into everyday usage, the notion of a world battle between the West, on one side, and Islam, on the other, obscures the much more important struggles inside these supposedly monolithic blocs. *Overland 189* explores, in various ways, the contradictions of Western society, a civilisation that has both oppressed and liberated, where unimaginable wealth exists side-by-side with cruel poverty and the culture industry simultaneously produces artefacts of stupefying banality and incredible profundity. In the final *Overland* lecture for 2007, Ramona Koval discusses the importance of narrative in providing

[Bugs in My Hair!](#), , 2013, 0545143136, 9780545143134. Is something bugging you? Bestselling award-winner David Shannon shows the funny side of waging war against--oh no!--head lice. This book is guaranteed to make you laugh--and itch! From the opening picture of a happy, oversized louse appearing with his suitcases, you know these bugs are determined to stay, and Mom is about to go nuts! Nobody talks about them, but they are everywhere. (Some estimate 20 million children a year host them.) Oh the shame and humiliation of having bugs in your hair! But if you go to school, or have play dates, chances are good you might meet them someday. Maybe you already have! Lucky for you, the unwelcome bugs in this story are so funny you will be laughing aloud--even when Mom attacks them with battle-tested anti-lice weapons. Shannon peppers his hilarious scenes with fun, "nitpicking" facts about these "lousy" critters and pokes fun at common denial: "It's probably ash from that volcano in Pogo Pogo." Soon the party's over--Bye bye, Little Nasties! Once again Shannon has created a fresh, highly entertaining read-aloud classic that begs to be read again and again.

It demonstrates how the philosopher-physician-musician carried out his philosophy at his African hospital, in Europe and the U.S.A and how he inspired the animal protection and environmental awakening. It describes his bond with individual animals and how he coped with the paradox of the "will-to-live" vs. "the will-to-live." His memorable words, the sensitive commentary and the appealing photographs combine to present forcefully and gracefully Dr. Schweitzer's guidance to all persons troubled by disrespect of the natural world and all that dwell therein. This book, which was originally published in 1982, has gone into eight printings.

[The Loss of Sadness : How Psychiatry Transformed Normal Sorrow into Depressive Disorder: How Psychiatry Transformed Normal Sorrow into Depressive Disorder, Allan V. Horwitz Professor of Sociology Rutgers University, Jerome C. Wakefield Professor of Social Work New York University](#) , 2007, 0198042698, 9780198042693. Depression has become the single most commonly treated mental disorder, amid claims that one out of ten Americans suffer from this disorder every year and 25% succumb at some point in their lives. Warnings that depressive disorder is a leading cause of worldwide disability have been accompanied by a massive upsurge in the consumption of antidepressant medication, widespread screening for depression in clinics and schools, and a push to diagnose depression early, on the basis of just a few symptoms, in order to prevent more severe conditions from developing. In *The Loss of Sadness*, Allan V. Horwitz and Jerome C. Wakefield argue that, while depressive disorder certainly exists and can be a devastating condition warranting medical attention, the apparent epidemic in fact reflects the way the psychiatric profession has understood and reclassified normal human sadness as largely an abnormal experience. With the 1980 publication of the landmark third edition of the *Diagnostic and Statistical Manual of Mental Disorders (DSM-III)*, mental health professionals began diagnosing depression based on symptoms--such as depressed mood, loss of appetite, and fatigue--that lasted for at least two weeks. This system is fundamentally flawed, the authors maintain, because it fails to take into account the context in which the symptoms occur. They stress the importance of distinguishing between abnormal reactions due to internal dysfunction and normal sadness brought on by external circumstances. Under the current DSM classification system, however, this distinction is impossible to make, so the expected emotional distress caused by upsetting events--for example, the loss of a job or the end of a relationship-- could lead to a mistaken diagnosis of depressive disorder. Indeed, it is this very mistake that lies at the root of the presumed epidemic of major depression in our midst. In telling the story behind this phenomenon, the authors draw on the 2,500-year history of writing about depression, including studies in both the medical and social sciences, to demonstrate why the DSM's diagnosis is so flawed. They also explore why it has achieved almost unshakable currency despite its limitations. Framed within an evolutionary account of human health and disease, *The Loss of Sadness* presents a fascinating dissection of depression as both a normal and disordered

human emotion and a sweeping critique of current psychiatric diagnostic practices. The result is a potent challenge to the diagnostic revolution that began almost thirty years ago in psychiatry and a provocative analysis of one of the most significant mental health issues today.

This self-contained account of the statistical basis of epidemiology has been written specifically for those with a basic training in biology, therefore no previous knowledge is assumed and the mathematics is deliberately kept at a manageable level. The authors show how all statistical analysis of data is based on probability models, and once one understands the model, analysis follows easily. In showing how to use models in epidemiology the authors have chosen to emphasize the role of likelihood, an approach to statistics which is both simple and intuitively satisfying. More complex problems can then be tackled by natural extensions of the simple methods. Based on a highly successful course, this book explains the essential statistics for all epidemiologists.

In the ancient Greece of Pericles and Plato, the polis, or city-state, reigned supreme, but by the time of Alexander, nearly half of the mainland Greek city-states had surrendered part of their autonomy to join the larger political entities called koina. In the first book in fifty years to tackle the rise of these so-called Greek federal states, Emily Mackil charts a complex, fascinating map of how shared religious practices and long-standing economic interactions facilitated political cooperation and the emergence of a new kind of state. Mackil provides a detailed historical narrative spanning five centuries to contextualize her analyses, which focus on the three best-attested areas of mainland Greece: Boiotia, Achaia, and Aitolia. The analysis is supported by a dossier of Greek inscriptions, each text accompanied by an English translation and commentary.

[Muslims and Media Images: News Versus Views, Athar Frq](#) , 2009, 0195694953, 9780195694956. How does the media view Muslims, especially after 9/11? How far is the goal of pan-Islamism a part of popular Muslim consciousness? What are Indian Muslims doing to change distorted media images of themselves? The volume raises such questions and investigates the world of Muslims by focusing on issues like media representation, identity politics, and their relationships with civil society. With contributions from a range of media persons, scholars, and activists, it addresses these concerns from a multitude of perspectives. While examining Hindi, Urdu, and vernacular press, the essays also look into Hindi and regional language films from an analytical and gender-centric point of view. The essays further discuss the challenges and stereotypes the community is confronted with, particularly in the post 9/11 period. They underline the reasons behind increasing militancy and aggression. The volume also explores the contradictions within Muslim society as well as the tensions between Muslims and other cultures and communities.

DURING THE HARSH year of the Great Depression, Lorena Hickok, a top woman news reporter of the day and intimate friend of Eleanor Roosevelt, was hired by FDR's right-hand man Harry Hopkins to embark upon a grueling journey to the hardest-hit areas of the country to report back on the degree of devastation. Distinguished historian Michael Golay draws on a trove of original sources including the moving, remarkably intimate, almost daily letters between Hickok and Eleanor Roosevelt as he re-creates that extraordinary journey. Hickok traveled by car almost nonstop for eighteen months, from January 1933 to August 1934, surviving hellish dust storms, rebellions by coal workers in Pennsylvania and West Virginia, and a near revolution by Midwest farmers. A brilliant observer, Hickok wrote searing and deeply empathetic reports to Hopkins and letters to Mrs. Roosevelt that comprise an unparalleled record of the worst economic disaster in the history of the country. Historically important, they crucially influenced the scope and strategy of the Roosevelt administrations unprecedented relief efforts. *America 1933* reveals Hickok's pivotal contribution to the policies of the New Deal and sheds light on her intense but ill-fated relationship with Eleanor Roosevelt and the forces that inevitably came between them.

[Brahmins and bungalows: travels through South Indian history, Kavita Watsa](#) , 2004, 0143031465, 9780143031468. 'I opened my eyes with a start the repeated metallic sound of a stonecutter's axe was drifting up from the village, just as it must have done thirteen centuries before. The air around me grew heavy with my imaginings, for in my head I heard the ringing of a hundred axes, and knew it was time to leave.' Kavita Watsa has been seeking new horizons ever since a mischievous great-uncle put her in a horse cart and took her to a Mysore arrack shop at an impressionable age. In this sparkling mosaic of South Indian travels, she treads roads ancient and modern, opens antique travelogues to see what others saw, and reminds us of the myriad peoples and forces that have shaped life south of the Vindhyas. With an almost Victorian sensibility for bends in the road and turns of phrase, Watsa presents a rich blend of landscapes and architecture from monsoon-lashed Goa to an island that inspired Tagore, from desolate Hampi to burgeoning Bangalore, from charming Pondicherry to sun-baked Tranquebar and beyond. Crowned by exquisitely rendered memories of the cool woods of Kodaikanal, Brahmins and Bungalows is a witty, elegant, loving portrait of a deeply cosmopolitan land.

[The road to long finance: A systems view of the credit crunch, Michael Mainelli, Bob Giffords](#) , 2009, 0956190448, 9780956190444. This paper examine some common fallacies and how well-meaning regulatory and private decisions produced disasters. We identify four fundamental failures as the root causes of the Scrunch and six further systemic exacerbations. These unintended consequences were magnified and transmitted through the global financial system until the weakest link, the US sub-prime mortgage market, failed, releasing a chain reaction that dramatically damaged the global economy. Among their conclusions: 1. too big to fail is too big to regulate - the fundamental regulatory tool in all markets is competition; 2. a healthy financial ecosystem needs diversity, yet in financial services standardisation and economies of scale are over-valued; 3. less regulation enforced within a coherent fiscal and monetary policy framework is better than more regulation; 4. root causes, such as global trade imbalances and lack of savings in Western economies, must be addressed; and 5. the sooner government involvement in financial services can return to minimal levels, the sooner longer-term reforms can begin.

[Josiah's Reform and the Dynamics of Defilement: Israelite Rites of Violence and the Making of a Biblical Text, Lauren A.](#)

[S. Monroe](#) , 2011, 0199913218, 9780199913213. Chapters 22 and 23 of 2 Kings tell the story of the religious reforms of the Judean King Josiah, who systematically destroyed the cult places and installations where his own people worshipped in order to purify Israelite religion and consolidate religious authority in the hands of the Jerusalem temple priests.

Josiah's Reform and the Dynamics of Defilement is the first study to explicitly address the ritual dimensions of the text.

Lauren A.S. Monroe argues that the use of cultic and ritual language in the account of the reform is key to understanding the history of the text's composition, and illuminates the essential, interrelated processes of textual growth and identity construction in ancient Israel. By attending to the specific acts of defilement attributed to Josiah as they resonate within the larger framework of Israelite ritual, Monroe's work illuminates aspects of the text's language and fundamental interests that have their closest parallels in the priestly legal corpus known as the Holiness Code (Leviticus 17-26), as well as in other priestly texts that describe methods of eliminating contamination. The priestly composition was then later reshaped in the hands of a post-Josianic, exilic or post-exilic Deuteronomistic historian who transformed his source material to suit his own ideological interests. The account of Josiah's reform is thus imprinted with the cultural and religious attitudes of two different sets of authors. Teasing these apart reveals a dialogue on sacred space, sanctified violence and the nature of Israelite religion that was formative in the development not only of 2 Kings 23, but more broadly of the historical books of the Bible.

[Dr. Feelgood: The Shocking Story of the Doctor who May Have Changed History by Treating and Drugging JFK, Marilyn, Elvis, and Other Prominent Figures, Richard A. Lertzman, William J. Birnes](#) , 2013, 1620875896, 9781620875896. Doctor Max Jacobson, whom the Secret Service under President John F. Kennedy code-named Dr. Feelgood, developed a unique energy formula that altered the paths of some of the twentieth century's most iconic figures, including President and Jackie Kennedy, Marilyn Monroe, Frank Sinatra, and Elvis. JFK received his first injection (a special mix of vitamins and hormones, according to Jacobson) just before his first debate with Vice President Richard Nixon. The shot into JFK's throat not only cured his laryngitis, but also diminished the pain in his back, allowed him to stand up straighter, and invigorated the tired candidate. Kennedy demolished Nixon in that first debate and turned a tide of skepticism about

Kennedy into an audience that appreciated his energy and crispness. What JFK didn't know then was that the injections were actually powerful doses of a combination of highly addictive liquid methamphetamine and steroids. Author and researcher Rick Lertzman and New York Times bestselling author Bill Birnes reveal heretofore unpublished material about the mysterious Dr. Feelgood. Through well-researched prose and interviews with celebrities including George Clooney, Jerry Lewis, Yogi Berra, and Sid Caesar, the authors reveal Jacobson's vast influence on events such as the assassination of JFK, the Cuban Missile Crisis, the Kennedy-Khrushchev Vienna Summit, the murder of Marilyn Monroe, the filming of the C. B. DeMille classic *The Ten Commandments*, and the work of many of the great artists of that era. Jacobson destroyed the lives of several famous patients in the entertainment industry and accidentally killed his own wife, Nina, with an overdose of his formula.

[Historical Dictionary of Mauritania, Anthony G. Pazzanita](#) , 2008, 0810862654, 9780810862654. Mauritania is bordered by Senegal in the south, Mali in the east, Algeria in the far northeast, and the disputed territory of Western Sahara to the north. Comprised mostly of vast stretches of desert, this young country has escaped the ravages of the violent interstate and civil conflicts that have so bedeviled Africa. Mauritanian society possesses ancient antecedents and a universal religious faith that has been practiced over several centuries. These characteristics have given the country a sometimes fragile but relatively resilient sense of national identity, which has survived into the 21st century in the face of powerful political, regional, ethnic/racial, and tribal rivalries since its independence in 1960. An economy largely centered on the export of raw materials, a weak agricultural sector, and a harsh climate in most areas further add to the challenges confronting all Mauritians. The third edition of the Historical Dictionary of Mauritania through its chronology, introductory essay, maps, bibliography, and hundreds of cross-referenced dictionary entries on important persons, places, events, institutions, and significant political, economic, social, and cultural aspects provides an important reference on Mauritania.

[Quest for the Living God: Mapping Frontiers in the Theology of God, Elizabeth A. Johnson](#) , 2011, 1441174621, 9781441174628. 'Since the middle of the twentieth century,' writes Elizabeth Johnson, 'there has been a renaissance of new insights into God in the Christian tradition. On different continents, under pressure from historical events and social conditions, people of faith have glimpsed the living God in fresh ways. It is not that a wholly different God is discovered from the One believed in by previous generations. Christian faith does not believe in a new God but, finding itself in new situations, seeks the presence of God there. Aspects long-forgotten are brought into new relationships with current events, and the depths of divine compassion are appreciated in ways not previously imagined.' This book sets out the fruit of these discoveries. The first chapter describes Johnson's point of departure and the rules of engagement, with each succeeding chapter distilling a discrete idea of God. Featured are transcendental, political, liberation, feminist, black, Hispanic, interreligious, and ecological theologies, ending with the particular Christian idea of the one God as Trinity.

[The Ecological Approach To Visual Perception, James J. Gibson](#) , 2013, 113505973X, 9781135059736. This is a book about how we see: the environment around us (its surfaces, their layout, and their colors and textures); where we are in the environment; whether or not we are moving and, if we are, where we are going; what things are good for; how to do things (to thread a needle or drive an automobile); or why things look as they do. The basic assumption is that vision depends on the eye which is connected to the brain. The author suggests that natural vision depends on the eyes in the head on a body supported by the ground, the brain being only the central organ of a complete visual system. When no constraints are put on the visual system, people look around, walk up to something interesting and move around it so as to see it from all sides, and go from one vista to another. That is natural vision -- and what this book is about.

[Aftertaste: {a Novel in Five Courses}, Meredith Milet](#) , 2011, 0758274513, 9780758274519. Mira Rinaldi lives life at a rolling boil. Co-owner of Grappa, a chic New York City trattoria, she has an enviable apartment, a brand-new baby, and a frenzied schedule befitting her success. Everything changes the night she catches her husband, Jake, "wielding his whisk" with Grappa's new Mistress d'. Mira's fiery response earns her a court-ordered stint in anger management and the beginning of legal and personal predicaments as she battles to save her restaurant and pick up the pieces of her life. Mira falls back on family and friends in Pittsburgh as she struggles to find a recipe for happiness. But the heat is really on when some surprising developments in New York present her with a high stakes opportunity to win back what she thought she had lost forever. For Mira, cooking isn't just about delicious flavors and textures, but about the pleasure found in filling others' needs. And the time has come to decide where her own fulfillment lies even if the answers are unexpected. Keenly observed and deeply satisfying, Aftertaste is a novel about rebuilding and rediscovery, about food passionately prepared and unapologetically savored, and about the singular contentment that comes with living and loving with gusto. "A delicious debut." --Jamie Cat Callan, author of French Women Don't Sleep Alone Meredith Milet lives in Pittsburgh with her husband and their three, mostly grown children. [Those That Bless You I Will Bless: Christian Zionism in Historical Perspective, Paul Charles Merkley](#) , 2011, 0986941417,

9780986941412. Dr. Merkley explores one of the most contentious issues of modern Christian theology and politics - the issue of Christian attitudes to the Jewish homeland, Israel. For too long, this issue has escaped rigorous theological and historical treatment by scholars representing the pro-Israel side of Christianity. He takes readers back to the origins of Christian-Zionism in exegesis of Scripture and recalls the story of Christian attitudes towards the Jews over the two millennia since the destruction of the Second Temple. Confronting the historical distortions of the anti-Zionists, he provides a calm, proud and scholarly defense of Christian Zionism. For readers seeking a deeper understanding of Christian attitudes towards Israel, this is a must read. "The Lord said to Abram, "Leave your own country, your kinsmen, and your father's house, and go to a country I will show you. I will make you a great nation. I will bless you and make your name so great that it shall be used in blessings: Those that bless you I will bless, Those that curse you, I will execrate. All the families on earth Will pray to be blessed as you are blessed." (Genesis 12:1-5)
