

[Oxford Reading Tree: Stage 1+: First Phonics, Roderick Hunt](#) , 2003, 0199196729, 9780199196722. First Phonics is a special new series at the very start of Oxford Reading Tree. It enables children to practise phonics while learning to read. First Phonics:
* Promote phonological awareness at Stage 1+ with rhyming stories
* Provide more phonically decodable nouns as well as sight-cueable words
* Practise Reception and Year 1 sight vocabulary throughout
* Include flexible, easy-to-use, FREE Teaching Notes in each Pack
* Support your Home-School Agreement with Take-Home Cards for every book
At Stage 1+, First Phonics books are rhyming stories, with an emphasis on rhythm and rhyme. They have 1-2 sentences per page.

[The Flyer: British Culture and the Royal Air Force 1939-1945, Martin Francis](#) , 2008, 019155720X, 9780191557200.

Between 1939 and 1945, the British public was spellbound by the martial endeavours and dashing style of the young men of the RAF, especially those with silvery fabric wings sewn above the breast pocket of their glamorous slate-blue uniform. Martin Francis provides the first scholarly study of the place of 'the flyer' in British culture during the Second World War. Examining the lives of RAF personnel, and their popular representation in literary and cinematic texts, he illuminates broader issues of gender, social class, national and racial identities, emotional life, and the creation of a national myth in twentieth-century Britain. In particular, Francis argues that the flyer's relationship to fear, aggression, loss of his comrades, bodily dismemberment, and psychological breakdown reveals broader ambiguities surrounding the dominant understandings of masculinity in the middle decades of the century. Despite his star appeal, cultural representations of the flyer encompassed both the gentle, chivalrous warrior and the uncompromising agent of destruction. Paying particular attention to the romantic universe of wartime aircrew, Francis reveals the extraordinary contrasts of their daily lives: dicing with death in the sky one moment, before sitting down to lunch with wives and children in the next. Male and female experiences during the war were not polarized and antithetical, but were complementary and interrelated, a conclusion which has implications for the history of gender in modern Britain that reach well beyond either the specialized military culture of the wartime RAF or the chronological parameters of the Second World War.

[Kmart Shoes, Lance Ward](#) , 2012, 0983885443, 9780983885443. This is the true story of Lance Ward and his fights against abusive and uncaring family members, school yard bullies, and his own sense of self-worth. This is the honest tell-all autobiography of a man who struggled with drugs, the law, the US military weight requirement, a cocaine addiction, a love of cigarettes and hatred for alcohol, and a con man who seriously screwed up his life. On some days, Ward is dealing with addiction and felony charges, on others he is just trying to find a place to sleep in his own home. Ward struggled to find acceptance from both family and classmates, bounced from job to job and just when he seemed to figure things out, would encounter some unexpected heart-breaking setback (like the time a notebook holding years of artwork was stolen, or the time he was swindled into committing a felony, or the time he failed to slit his own wrist). Somehow Lance came out okay. Raw. Honest. In your face. Real. And definitely not for children. A true story of struggle and survival that is heart-breaking, comical, sad and triumphant.

[International Authors and Writers Who's Who, Dennis McIntyre](#) , 2001, 0948875542, 9780948875540. First published in 2001. Routledge is an imprint of Taylor & Francis, an informa company.

[Family Centennial, Johnny Moore](#) , 1999, 0965872068, 9780965872065. Mr. Moore was inspired to write this compelling, historic book when he became interested in his family's history. From yellowed manuscripts and documents authored by

his ancestors, the author Was catapulted into tumultuous times past with amazing clarity due to the skill of the mostly unpublished writers. He shares the life and times of these family writers who were on the leading edge of their time: doctors, scientists, musicians and soldiers.Their adventures were dramatic and history-making, but they were strictly writing for their family records. Even so, the results seem more like silver screen adventures, in the East, the families endured deep hardships to conquer an icy land. The Civil War was fought. Determination and intellect defeated despair and death. In the west, the trans-continental railroad was built, pestilence was endured, gold was mined and operas composed. Walk through the early history of this country right up through World War II.

[T.S. Eliot, Anti-semitism, and Literary Form, , Anthony Julius , 1995, 0521586739, 9780521586733.](#) Of the many different kinds of anti-Semite, T. S.Eliot was the rarest kind: one who was able to place his anti-Semitism at the service of his art. Anthony Julius's study looks both at the detail of Eliot's deployment of anti-Semitic discourse and at the role it played in his greater literary undertaking. He analyses the anti-Semitic poems and examines the figure of the 'free-

thinking Jew' which appears in the prose works, and in conclusion he considers whether Eliot's post-war work made amends for this aspect of his earlier writings.

Says the author Applying these lifebuilding strategies has brought me to a new level of living and I want to share them with you.

[Science for All Americans, F. James Rutherford, Andrew Ahlgren](#) , 1991, 0199879230, 9780199879236. In order to compete in the modern world, any society today must rank education in science, mathematics, and technology as one of

its highest priorities. It's a sad but true fact, however, that most Americans are not scientifically literate. International studies of educational performance reveal that U.S. students consistently rank near the bottom in science and mathematics. The latest study of the National Assessment of Educational Progress has found that despite some small gains recently, the average performance of seventeen-year-olds in 1986 remained substantially lower than it had been in 1969. As the world approaches the twenty-first century, American schools-- when it comes to the advancement of scientific knowledge-- seem to be stuck in the Victorian age. In *Science for All Americans*, F. James Rutherford and Andrew Ahlgren brilliantly tackle this devastating problem. Based on Project 2061, a scientific literacy initiative sponsored by the American Association for the Advancement of Science, this wide-ranging, important volume explores what constitutes scientific literacy in a modern society; the knowledge, skills, and attitudes all students should acquire from their total school experience from kindergarten through high school; and what steps this country must take to begin reforming its system of education in science, mathematics, and technology. *Science for All Americans* describes the scientifically literate person as one who knows that science, mathematics, and technology are interdependent enterprises with strengths and limitations; who understands key concepts and principles of science; who recognizes both the diversity and unity of the natural world; and who uses scientific knowledge and scientific ways of thinking for personal and social purposes. Its recommendations for educational reform downplay traditional subject categories and instead highlight the connections between them. It also emphasizes ideas and thinking skills over the memorization of specialized vocabulary. For instance, basic scientific literacy means knowing that the chief function of living cells is assembling protein molecules according to the instructions coded in DNA molecules, but does not mean necessarily knowing the terms "ribosome" or "deoxyribonucleic acid." Science, mathematics, and technology will be at the center of the radical changes in the nature of human existence that will occur during the next life span; therefore, preparing today's children for tomorrow's world must entail a solid education in these areas. *Science for All Americans* will help pave the way for the necessary reforms in America's schools.

[Really Rapt.](#) , 1991, 094721299X, 9780947212995. The Magic Beans series offers an extensive collection of fiction and non-fiction texts, all available in large and small format, which have been selected as models for reading and writing. They aim to develop children's non-fiction study skills, aid in the teaching of grammar, punctuation, and knowledge about language, and enrich classroom reading materials with stories, poems, fables, biographies, folk tales, guidebooks, plays and other non-fiction texts.

[Lincoln in American Memory, Merrill D. Peterson Professor of History University of Virginia \(Emeritus\)](#) , 1994, 0198023049, 9780198023043. Lincoln's death, like his life, was an event of epic proportions. When the president was struck down at his moment of triumph, writes Merrill Peterson, "sorrow--indescribable sorrow" swept the nation. After lying in state in Washington, Lincoln's body was carried by a special funeral train to Springfield, Illinois, stopping in major

cities along the way; perhaps a million people viewed the remains as memorial orations rang out and the world chorused its sincere condolences. It was the apotheosis of the martyred President--the beginning of the transformation of a man into a mythic hero. In *Lincoln in American Memory*, historian Merrill Peterson provides a fascinating history of Lincoln's place in the American imagination from the hour of his death to the present. In tracing the changing image of Lincoln through time, this wide-ranging account offers insight into the evolution and struggles of American politics and society--and into the character of Lincoln himself. Westerners, Easterners, even Southerners were caught up in the idealization of the late President, reshaping his memory and laying claim to his mantle, as his widow, son, memorial builders, and memorabilia collectors fought over his visible legacy. Peterson also looks at the complex responses of blacks to the memory of Lincoln, as they moved from exultation at the end of slavery to the harsh reality of free life amid deep poverty and segregation; at more than one memorial event for the great emancipator, the author notes, blacks were excluded. He makes an engaging examination of the flood of reminiscences and biographies, from Lincoln's old law partner William H. Herndon to Carl Sandburg and beyond. Serious historians were late in coming to the topic; for decades the myth-makers sought to shape the image of the hero President to suit their own agendas. He was made a voice of prohibition, a saloon-keeper, an infidel, a devout Christian, the first Bull Moose Progressive, a military blunderer and (after the First World War) a military genius, a white supremacist (according to D.W. Griffith and other Southern admirers), and a touchstone for the civil rights movement. Through it all, Peterson traces five principal images of Lincoln: the savior of the Union, the great emancipator, man of the people, first American, and self-made man. In identifying these archetypes, he tells us much not only of Lincoln but of our own identity as a people. More than thirty years ago, Peterson won the prestigious Bancroft Prize for *The Jefferson Image in the American Mind*. The New York Times Book Review hailed it as "an engrossing story of the uses and abuses of a great legend," saying that Peterson's writing is often "brilliant." This absorbing book follows in the footsteps of that landmark work, leading us on a revealing tour through our changing image of our greatest president--and our changing image of ourselves.

[Beginning F#, Robert Pickering , 2009, 1430223898, 9781430223894.](#) Functional programming is perhaps the next big wave in application development. As experienced developers know, functional programming makes its mark by allowing application builders to develop solutions to complicated programming situations cleanly and efficiently. A rich history of functional languages, including Erlang and OCaml, leads the way to F#, Microsoft's effort to bring the elegance and focus of functional programming into the world of managed code and .NET. With Beginning F#, you have a companion that will help you explore F# and functional programming in a .NET environment. This book is both a comprehensive introduction to all aspects of the language and an incisive guide to using F# for real-world professional development.

Reviewed by Don Syme, the chief architect of F# at Microsoft Research, Beginning F# is a great foundation for exploring functional programming and its role in the future of application development. What you'll learn A deep familiarity with the tenets and advantages of functional programming. How to understand F#'s concise and elegant syntax. How to access the huge range of libraries and components that run on the .NET Framework. How to develop for real-world scenarios using functional programming and F#. How to develop realistic applications through a comprehensive tutorial-based approach. How to learn imperative and concurrent programming techniques within the functional programming paradigm. Who this book is for F# is the future of programming (not just on .NET), and the future is now. If you are already familiar with functional programming, you'll find Beginning F# a great introduction to the language itself. If you are new to the function programming arena, this book will also serve as a superb reference to FP in general and F# specifically. Table of Contents Introduction How to Obtain, Install , and Use F# Functional Programming Imperative Programming Object-Oriented Programming Organizing, Annotating, and Quoting Code The F# Libraries User Interfaces Data Access Parallel Programming Distributed Applications Language-Oriented Programming Parsing Text Compatibility and Advanced Interoperation

[Who's who in the Old Testament: together with the Apocrypha, Joan Comay , 1993, 0195210298, 9780195210293.](#)

Offering over 3,000 entries, Who's Who in the Old Testament provides an in-depth look at every character ever to appear in the pages of the world's oldest book. The vivid and readable style of this unique reference brings to life the women and men that populate the Old Testament, from Adam and Eve, through great prophets such as Ezekial and Isaiah, to rulers of the Holy Land such as Saul, David, Solomon, and the pharaohs. Each entry is based on the biblical text and set within the context of history and geography, as illuminated by the most recent research. Also provided is a particularly

useful and lucid section on the Apocrypha, the collection of works that bridges the gap between the Old and New Testaments. Placing a vast and amazingly rich cast of characters right at the readers fingertips, Who's Who in the Old Testament is an essential companion to one of the greatest stories ever told.

[What You Wish For, Fern Michaels](#) , 2001, 1420123106, 9781420123104. Fern Michaels has entertained millions of readers with her deeply-involving contemporary novels including "Celebration, Yesterday, " and her recent "New York Times" bestseller, "Finders Keepers." Now, she delivers her most exciting story yet: the breathtaking tale of a woman on the run who's given the chance for a whole new life... What You Wish ForIf her abusive husband hadn't tried to kill her and her beloved dog Lucie, Helen Ward might never have left her million-dollar home and run far away. Now Helen's changed her identity and moved across the country, hopeful that she can be safe, happy, maybe even loved. And when she meets college professor Sam Tolliver, she begins to believe fairytales do come true. But even with love blossoming and her new online business venture taking off, Helen knows that the past is catching up with her. . .and her fear is growing. Wanting to flee, desperate to get away for good, she'll soon face the biggest decision of her life, a decision that will determine her future and her very identity."What You Wish For" is Fern Michaels' most compelling and emotionally authentic novel: one that pulls us right into the lives of her characters, letting us love, struggle, and triumph with them every moment of the way.

[Win With The Word, Clarice Wyatt Bell Church](#) , 2006, 0976657821, 9780976657828. Win with the Word is a ready self-help book that reference scripture for teaching, preaching, and meditating on the word of God. It is intended to motivate the reader to do additional research to acquire a more in-depth understanding of God and His covenant with His people. This compilation of scriptures and testimonies is divided into fourteen major headings. Under those headings, the verses of scripture are arranged alphabetically by name of the chapter of the Bible, such as Proverbs, Psalm, Revelation, Romans, etc. Each section also includes a prayer which incorporates principles of the word of God. Following each verse or group of verses, there are one or more questions or statements for the reader to answer and or ponder. They are designed to provoke one to assess his or her own life experiences as they relate to the word of God.

[Kamishibai Man, Allen Say](#) , 2005, 0547345941, 9780547345949. The Kamishibai man used to ride his bicycle into town where he would tell stories to the children and sell them candy, but gradually, fewer and fewer children came running at the sound of his clappers. They were all watching their new televisions instead. Finally, only one boy remained, and he had no money for candy. Years later, the Kamishibai man and his wife made another batch of candy, and he pedaled into town to tell one more story his own. When he comes out of the reverie of his memories, he looks around to see he is surrounded by familiar faces the children he used to entertain have returned, all grown up and more eager than ever to listen to his delightful tales. Using two very different yet remarkable styles of art, Allen Say tells a tale within a tale, transporting readers seamlessly to the Japan of his memories.

[Moving Forward: Implementing the 'Guidelines for the Alternative Care of Children', Nigel Cantwell, University of Strathclyde. Centre for Excellence for Looked After Children in Scotland](#) , 2012, 0947649913, 9780947649913.

[Understanding the Mathematics of Personal Finance: An Introduction to Financial Literacy, Lawrence N. Dworsky](#) , 2009, 0470538384, 9780470538388. A user-friendly presentation of the essential concepts and tools for calculating real costs and profits in personal finance Understanding the Mathematics of Personal Finance explains how mathematics, a simple calculator, and basic computer spreadsheets can be used to break down and understand even the most complex loan structures. In an easy-to-follow style, the book clearly explains the workings of basic financial calculations, captures the concepts behind loans and interest in a step-by-step manner, and details how these steps can be implemented for practical purposes. Rather than simply providing investment and borrowing strategies, the author successfully equips readers with the skills needed to make accurate and effective decisions in all aspects of personal finance ventures,

including mortgages, annuities, life insurance, and credit card debt. The book begins with a primer on mathematics, covering the basics of arithmetic operations and notations, and proceeds to explore the concepts of interest, simple interest, and compound interest. Subsequent chapters illustrate the application of these concepts to common types of personal finance exchanges, including: Loan amortization and savings Mortgages, reverse mortgages, and viatical settlements Prepayment penalties Credit cards The book provides readers with the tools needed to calculate real costs and profits using various financial instruments. Mathematically inclined readers will enjoy the inclusion of mathematical derivations, but these sections are visually distinct from the text and can be skipped without the loss of content or complete understanding of the material. In addition, references to online calculators and instructions for building the calculations involved in a spreadsheet are provided. Furthermore, a related Web site features additional problem sets, the spreadsheet calculators that are referenced and used throughout the book, and links to various other financial calculators. Understanding the Mathematics of Personal Finance is an excellent book for finance courses at the undergraduate level. It is also an essential reference for individuals who are interested in learning how to make effective financial decisions in their everyday lives.

[First Fruits of Prayer: A Forty Day Journey Through the Canon of St. Andrew, Frederica Mathewes-Green](#) , 2008, 1557257280, 9781557257284. Join Frederica Mathewes-Green on a guided retreat through an ancient Orthodox text. Regardless of your denominational background, First Fruits of Prayer will bring to life the prayer experience of first millennium Christianity through immersion in this poetic hymn, an extraordinarily beautiful work that is still chanted by Christians around the world each Lent. It weaves together Old and New Testament Scriptures with prayers of hope and repentance and offers ancient ways of seeing Christ that still feel new today. "Fascinating and sometimes magisterial.... A skilled interpreter of the theology and history of the Orthodox tradition, Mathewes-Green arranges the Great Canon of St. Andrew...into 40 readings accompanied by scriptural references, commentary, theological reflection and questions." Publishers Weekly "Rick Warren gave us 40 days of purpose. Frederica Mathewes-Green gives us 40 days of deep prayer and reflection.... This is destined to become a devotional classic for generations to come." Dallas Morning News

[The Oxford Illustrated History of Ireland, Robert F. Foster](#) , 1991, 0192852450, 9780192852458. Few countries have such a compelling and stirring history as Ireland. This sumptuously illustrated volume captures all of the color of the Emerald Isle, from the earliest prehistoric communities and the first Christian settlements, through centuries of turbulent change and creativity, to the present day. Written by an expert team of scholars--all of whom are Native to Ireland--this book offers the most authoritative account of Irish history yet published for the general reader. Unlike most single-volume histories which tend toward oversimplification, this book emphasizes the paradoxes and ambiguities of Irish history, presenting a more realistic picture. It explores, for example, the reasons behind the intense regional variations in agriculture, prosperity, and political affiliation in so small a land, and show why Victorian norms prevail in certain areas of

twentieth-century Irish life. It also examines more familiar themes, such as the shifting patterns of settlement and colonization, the recurrent religious strife, and the establishment of new political entities. And in a special section, it investigates the interaction between Irish history and literature, demonstrating how the importance of language to everyday Irish life has engendered a body of fiction that is virtually a history of Ireland itself. With over two hundred photographs, a variety of helpful maps, and twenty-four beautiful color plates, *The Oxford Illustrated History of Ireland* brings to life the conflicts, settlements, and traditions that constitute Irish history. Wide-ranging and highly readable, this vivid view of Ireland will entertain and inform anyone interested in this fascinating and colorful island nation.

[Good Weed, Bad Weed: Who's Who, What to Do, and Why Some Deserve a Second Chance \(All You Need to Know About the Weeds in Your Yard\), Nancy Gift](#) , 2011, 0981961568, 9780981961569. Good Weed Bad Weed is a friendly, authoritative, easy-to-use guide to the uninvited plants in our yard: who they are, how to control them safely - and why it's a good idea to love some of them just the way they are (including a chart for how best to let our labor-intensive lawns go native). Weed expert Nancy Gift considers 50 of the most interesting and noteworthy weeds in our lives, with generous helpings of full-color photos, humor and some tasty weed recipes. Presented in the same format as our popular field guide to garden insects, *Good Bug Bad Bug*, with heavy matte-laminated pages and concealed-wire binding for handy use outside. An attractive gift book for adults and curious kids alike.

[Maximising impact in the water sector, Great Britain. National Audit Office](#) , 2003, 010292046X, 9780102920468. More than one billion people, the equivalent of one sixth of the world's population, lack access to safe drinking water, whilst two-fifths lack basic sanitation facilities. These issues are inextricably linked to the alleviation of poverty in developing countries, and the international community has established targets to halve these figures by 2015. This report by the National Audit Office examines the impact of direct assistance by the Department for International Development (DFID)

to address water needs in developing countries, given its objective of achieving value for money in the use of resources. The report also assesses the consideration given to water issues in the design of its country programmes, and considers the DFID's influence on the international agenda regarding the global water crisis. The report finds that the DFID has completed 193 dedicated water and sanitation projects over the last five years, and where assessments were available, about 75 per cent had completely or largely achieved their objectives. However, improvements in methods to evaluate the sustainable impact of projects are required, and the DFID also needs to ensure that country programmes give enough emphasis to issues around sanitation and water resource management. It has a highly influential international role, and there is scope to promote greater dissemination of its development research.

[Legal Recognition of Same-sex Partnerships: A Study of National, European and International Law, Robert Wintemute, Mads Tnnesson Andens](#), 2001, 1841131385, 9781841131382. Should same-sex couples be permitted to marry? Or should a separate institution of "registered partnership" or "civil union" be created for them? Or should the rights and duties of unmarried different-sex couples be extended to them? Should they be allowed to adopt each other's children, or jointly adopt an unrelated child? How should they be treated with regard to employment, social security, pensions, housing, immigration, taxation, inheritance, and divorce? These questions are being debated around the world, as lesbian, gay, bisexual and transgendered persons increasingly (but not uniformly) insist that they cannot be truly equal without equal treatment for the loving and lasting relationships they form with their partners. In "Legal Recognition of Same-Sex Partnerships", an international team of scholars examines both theoretical issues and the wide variety of legal developments in the United States, Canada, Brazil, thirteen European countries, Israel, South Africa, India, Japan, China, Australia and New Zealand, as well as under European Community and European Convention law, and United Nations human rights law.

[Interactive InDesign CS5: Take Your Print Skills to the Web and Beyond, Mira Rubin](#), 2011, 0240815114, 9780240815114. Make the transition to interactive design and multimedia with InDesign CS5. This tutorial-based guide to the CS5 toolset gives you a hands-on understanding of how to create interactive PDFs and Flash (SWF) movies directly in InDesign. After an introduction to the essential concepts and considerations behind interactive design, you'll learn how to extend your print skills with step-by-step instructions and real-world exercises that quickly get you working confidently with:-Buttons and navigation-Multistate objects-Animation-Video and AudioAlong the way, you'll explore the rich graphical and drawing capabilities of InDesign. Learn to maximize your efficiency with styles, library items, snippets, presets, and more; and gather a host of power-user tips that will take both your print and interactive work to a whole new level. Master the idiosyncrasies of the alternative output options and techniques to optimize files for export to SWF, Flash Professional, and Acrobat. The companion website, www.interactive-indesign.com, provides all the demo projects, tutorial files, and updates you'll need to work through the exercises in the book and solidify your skills.

[Return on Sustainability: How Business Can Increase Profitability and Address Climate Change in an Uncertain Economy, Kevin Wilhelm](#) , 2013, 0133442535, 9780133442533. This book highlights the risk of inaction for businesses when it comes to climate change, but also contains best practices to allow them to capitalize on the numerous business opportunities that climate change presents, including increased profitability, enhanced brand value, and improved shareholder relations. The first section contains practical actions and real-world case studies of companies, such as Yakima, Sun Microsystems, and Lockheed Martin, that have successfully improved their climate performances, enhanced brand value, and increased profitability at the same time. The second and third sections of this book focus on the various risks that companies face from potential carbon regulation and the market factors forcing businesses to take action, whether they want to or not. This book provides the steps and strategies necessary to take leadership actions to help business "future-proof" society.

[The metallic bond and the structure of metals, Vsevolod Konstantinovich Grigorovich](#) , 1989, 0941743500, 9780941743501. The classical concept of the interaction of collectivised almost free valent electrons with the periodic field of a crystalline lattice forms the basis of the zone theory of metals. However, the successful development of this theory has not yet resulted in the solution of the problems of the origin of the actual alloys and compounds which have been produced experimentally by diffraction methods. This is one surprising difference between metal physics and quantum chemistry, where the structure of molecules is deduced from first principles -- the electron structure of the

atoms and wave functions -- by applying chemical bond theory and the methods of valent bonds and molecular orbits.

This book develops the concept of the metallic bond, uniting the ideas from metal physics concerning the collectivisation of electrons and chemical bond theory concerning the overlapping of orbitals.

[Freedom's Frontier: California and the Struggle Over Unfree Labor, Emancipation, and Reconstruction, Stacey L. Smith](#) ,

2013, 1469607689, 9781469607689. Most histories of the Civil War era portray the struggle over slavery as a conflict that exclusively pitted North against South, free labor against slave labor, and black against white. In Freedom's Frontier, Stacey L. Smith examines the battle over slavery as it unfolded on the multiracial Pacific Coast. Despite its antislavery constitution, California was home to a dizzying array of bound and semibound labor systems: African American slavery, American Indian indenture, Latino and Chinese contract labor, and a brutal sex traffic in bound Indian and Chinese women. Using untapped legislative and court records, Smith reconstructs the lives of California's unfree workers and documents the political and legal struggles over their destiny as the nation moved through the Civil War, emancipation, and Reconstruction. Smith reveals that the state's anti-Chinese movement, forged in its struggle over unfree labor, reached eastward to transform federal Reconstruction policy and national race relations for decades to come. Throughout, she illuminates the startling ways in which the contest over slavery's fate included a western struggle that encompassed diverse labor systems and workers not easily classified as free or slave, black or white.

[Communities of Belief: Cultural and Social Tension in Early Modern France, Robin Briggs](#) , 1989, 0198219814, 9780198219811. This book is about attitudes and behavior in early modern France, dealing particularly with the conflicts related to social and intellectual changes, and with the tensions between the elite and the common people. Topics discussed include witchcraft, popular belief and superstition, confession, the family, Church and State, and popular revolt. Briggs combines the methods of social history and of "histoire de mentalites" to produce an in-depth analysis of the changes and tensions which mark this period as one of vital development in all these areas. The book offers a lively critique of some current interpretations of seventeenth-century France, which have been the subject of much recent

controversy.

[Found Money, James Grippando](#) , 2009, 0061744018, 9780061744013. A young woman finds \$200,000 in cash in a cardboard box delivered to her door. A man inherits a fortune from a father who died "penniless." Amy Parkens and Ryan Duffy have never met, but they are about to, as each discovers that found money can be a godsend or a nightmare. Amy Parkens is a struggling single mother forced to abandon a career in astronomy for a practical computer job. She feels condemned to long hours, low pay, and no time to spend with her daughter. Then an unmarked package arrives. There's no card, no note, no return address. Someone has simply sent her a small fortune. Amy has no idea who or why. She only knows her deadend life has changed forever. Though she longs to keep the cash, Amy fears a mistake, a setup, or even a possible connection to her mother's mysterious suicide twenty years earlier. She has to find the source. But when she tries to look her gift horse in the mouth, someone snatches the money away quickly, violently. Ryan Duffy is a decent, responsible man, a smalltown physician from the plains of southeastern Colorado. Like Amy, Ryan has recently found unexpected wealth. His father's estate is worth more than Ryan could ever have imagined millions more. Truth is, Dad was a hardworking electrician for forty years. But in his attic, he hid a fortune. The Duffy family has been guarding this secret. Was it extortion, burglary, or some other shocking crime? And now that Ryan has the money, what should he do? Painful as it is, Ryan is drawn to his father's dark past. Amy, on the same desperate quest for answers, soon crosses Ryan's path. Their search takes them through a labyrinth of deception and blackmail, leading to a man of unfathomable power. Yet the past is not what it appears. Heinous crimes touched their families years ago. Amy and Ryan must solve a treacherous puzzle to learn why the true victims never came forward, why the real wrongdoers went unpunished, and why certain people would kill to keep their secrets.

[Outcomes and Impacts of International Education: From International Student to Australian Graduate - The Journey of a Lifetime, Tim Dodd, Robert Lawrence, Helen Cook](#) , 2008, 0975819453, 9780975819456. "The book's structure reflects the journey - from student, to graduate, to alumni - which an international student might take when he or she decides to study in Australia. Two important new pieces of research illuminate the journey. Firstly, there is yet more confirmation

that the academic performance of international students is virtually identical to Australian students. This result comes from an analysis of the performance of nearly 200,000 students in Group of 8 universities in 2007. Secondly, through a very detailed survey of nearly 2,000 alumni of the Australian Technology Network of Universities, we find out what Australia's international students do after they graduate - where they live, what jobs they have, what they aspire to and what they think about their education. What emerges is a picture of graduates who are part of the global workforce, who establish global networks and who become part of Australia's connectedness with Asian countries and beyond."--Foreword, p. 1.

[Piano Rats, Franki Elliot](#) , 2011, 0983422834, 9780983422839. A collection of fresh, gritty, urban prose / poems by a young L.A. writer, Ms. Franki Elliot. Whats it about? Its about you. Something you said to me five years ago, five days ago, five minutes ago. Its about sex, honesty, sadness, falling in and out of love, firsts and lasts, awkward moments. Its my secrets and yours.

[Supernatural, Graham Hancock](#) , 2006, 0099474158, 9780099474159. "Supernatural: of or relating to things that cannot be explained according to natural laws."Less than 50,000 years ago mankind had no art, no religion, no sophisticated symbolism, no innovative thinking. Then, in a dramatic and electrifying change, described by scientists as "the greatest riddle in human history", all the skills and qualities that we value most highly in ourselves appeared already fully formed, as though bestowed on us by hidden powers. In Supernatural Graham Hancock sets out to investigate this mysterious "before-and-after moment" and to discover the truth about the influences that gave birth to the modern human mind. His quest takes him on a journey of adventure and detection from the stunningly beautiful painted caves of prehistoric France, Spain and Italy to remote rock shelters in the mountains of South Africa where he finds a treasure trove of extraordinary Stone Age art. He uncovers clues that lead him to travel to the depths of the Amazon rainforest to drink the powerful plant hallucinogen Ayahuasca with Indian shamans, whose paintings contain images of "supernatural beings" identical to the animal-human hybrids depicted in prehistoric caves and rock shelters. And hallucinogens such as mescaline, also produce visionary encounters with exactly the same beings. Scientists at the cutting edge of consciousness research have begun to consider the possibility that such hallucinations may be real perceptions of other "dimensions". Could the "supernaturals" first depicted in the painted caves and rock shelters be the ancient teachers of mankind? Could it be that human evolution is not just the "blind", "meaningless" process that Darwin identified, but something else, more purposive and intelligent, that we have barely even begun to understand?

[Contemporary perspectives on masculinity: men, women, and politics in modern society, Kenneth C. Clatterbaugh](#) , 1997, 0813327008, 9780813327006. What is social reality for men in modern society? What maintains or explains this social reality? What condition might we imagine that would be better for men? How might we achieve this better condition? These are the questions Kenneth Clatterbaugh brings to seven different visions of men in modern society considered in this newly updated edition. In clear and insightful language, Clatterbaugh surveys not just conservative, liberal, and radical views of masculinity, but also the alternatives offered by the mens rights movement, spiritual growth advocates, and black and gay rights activists. Each of these is explored both as a theoretical perspective and as a social movement, and each offers distinctive responses to the questions posed. The first edition of this book was the first to survey the range of responses to feminism that men have made as well as the first to put political theory at the center of mens awareness of their own masculinity. This new edition adds chapters on recent highly-publicized movements such as the Promise Keepers, Million Man March, and the evolution of gay mens rights. Clatterbaugh treats all views with fairness and timeliness as he develops and defends a vision of men and masculinity consistent with feminist ideals and a just society.

[The Hippopotamus Marsh, , Pauline Gedge](#) , 2007, 0143179403, 9780143179405. After a gradual and mostly bloodless invasion, Egypt has fallen into the hands of a foreign power known as the Rulers of the Upland. Using subtle means of political power and economic country, plundering its riches and slowly subverting its religion and culture. But there is one family in Thebes, claiming descent from the last true King of Egypt, that cannot accept the rule of the foreign king Apepa. Defying him becomes the only clear option for the persecuted yet proud Seqenenra Tao, Prince of Weset, whose shocking revolt sets in motion a series of events that will either destroy his family or resurrect a dynasty and an entire way of life for Egypt.

[Las Tormentas de la Pradera, Darcy Pattison](#) , 2011, 1607181592, 9781607181590. Acurrate en un da lluvioso a leer y explorar los ecosistemas de la pradera travs de su clima y los cambios por los que atraviesa. En cada mes se destaca una

tomenta tpica de la estacin y un animal de la pradera, que debe buscar refugio, esconderse, escapar o aguantar esas tormentas. Narrada en prosa lrica, esta historia es una celebracin de las praderas que dominan el centro del territorio americano y de los animales que viven ah.Los animales en el libro incluyen: prairie chickens, ground hogs, sandhill cranes, prairie dogs, red foxes, white-tailed deer, striped skunks, lesser earless lizards, burrowing owls, cougars, bald eagles, and bison. [Pre-traineeship Maths & Literacy for Retail: Graduated Exercises and Practice Exam, Andrew Spencer](#) , 2009, 0170181448, 9780170181440. Pre-traineeship Maths and Literacy for Retail is a write-in workbook that helps to prepare students seeking to gain a Retail Traineeship. It combines practical, real-world scenarios and terminology specifically relevant to the Retail Industry, and provides students with the mathematical skills they need to confidently pursue a career in the Retail Trade. Mirroring the format of current apprenticeship entry assessments, Pre-traineeship Maths and Literacy for Retail includes hundreds of questions to improve students potential of gaining a successful assessment outcome of 75-80% and above. This workbook will therefore help to increase students eligibility to obtain a Retail Traineeship. Pre-traineeship Maths and Literacy for Retail also supports and consolidates concepts that students studying

VET (Vocational Educational Training) may use, as a number of VCE VET programs are also approved pre-traineeships. This workbook is also a valuable resource for older students aiming to revisit basic literacy and maths in their preparation to re-enter the workforce at the apprenticeship level. apprenticeship level.

[Thomas Green Clemson, Alma Bennett](#) , 2009, 0979606683, 9780979606687. Thomas Green Clemson was no ordinary man. He was, in fact as unique as he was highly educated, skilled, pragmatic, visionary, and complex. To introduce us to this man, fifteen scholars and specialist of history, science, agriculture, engineering, music, art, diplomacy, law and communications come together to address Thomas Clemson's multifaceted life, the century and issues that helped shape him, and his ongoing influence today.

[The right handbook: grammar and usage in context, Pat Belanoff, Betsy Rorschach, Mia R. Oberlink](#) , 1993, 0867093161, 9780867093162. The many handbooks on the market share in a common irony: they intimidate and confuse at least as much as they help. This book grew out of its teacher-authors' dissatisfaction with such works -- and the unenlightened fixities they're filled with, the overdose of rules they dispense, and the resulting linguistic disabilities they perpetuate. Students can read this book straight through as a general introduction to the conventions of writing. They'll also learn about linguistic myths and about the critical role of context in a writer's choicemaking. In this second edition, practices (not exercises) are included to give students samples of the suggestions discussed in the text. A new chapter to this edition also addresses the special needs and concerns of ESL students. Ideal as the primary rhetoric text in college writing courses, the second edition of "The Right Handbook" demonstrates the complexity of grammar and usage issues and shows how to solve problems by using real writing demystifies the rules of "rightness" in a pragmatic, humorous way allows for quick reference with an easy-to-read format.

[Selected Poems: With Parallel German Text, Rainer Maria Rilke](#) , 2011, 019956941X, 9780199569410. 'Nowhere, beloved, can world be but within us' Rainer Maria Rilke (1875-1926) is one of the leading poets of European Modernism, and one of the greatest twentieth-century lyric poets in German. From The Book of Hours in 1905 to the Sonnets of Orpheus written in 1922, his poetry explores themes of death, love, and loss. He strives constantly to interrogate the relationship between his art and the world around him, moving from the neo-romantic and the mystic towards the precise craft of expressing the everyday in poetry. This bilingual edition fully reflects Rilke's poetic development. It contains the full text of the Duino Elegies and the Sonnets to Orpheus, selected poems from The Book of Images, New

Poems, and earlier volumes, and from the uncollected poetry 1906-26. The translations are accurate, sensitive, and nuanced, and are accompanied by an introduction and notes that elucidate Rilke's poetic practice and his central role in modern poetry. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

You are fleeing the past - your ex-lover Arthur, the man who helped you dupe the vulnerable into believing loved ones were trying to make contact from beyond the grave. But there's a secret you've kept from Arthur, a deception about the two of you that threatens to emerge when you discover Arthur's presence on the boat.

[Never what it Seems: A Mother's Love, Part 2, Diane Martin](#) , , 0980217628, 9780980217629. Never what it seems II: a mother's love is a story of sacrifice, dedication, and unconditional love. Dee and AJ, best friends thrown together by circumstances beyond their control are up against their biggest challenge ever-- motherhood. Dee, mother of two adopted daughters, grew-up in a household void of love. She struggles each day to juggle a career and a family that desperately requires twenty-four hour attention, but she can't assume a role foreign to her. Raised in a household with an alcoholic father and an absentee mother, Dee has no idea how to handle these girls who were placed into her life by God to eliminate the loneliness created by a husband, her first love, who betrayed her by living a life on the "down low." AJ, her best friend and mother of one, is married to the man of her dreams. A union that birthed a beautiful little boy struggles to survive. Born to a father who thought she was put on earth to be his surrogate wife and a mother who sat quietly by, ignoring the screams and cries for help that came from her bedroom at night, AJ wants to love her son, but can't because she doesn't know how. She reached out to her husband for help, but he's MIA due to situations beyond his control. In a role unfamiliar to them, life and experience will take them on a journey that will lead them back to the place where it all started. Their journey continues-- Author's website.
