## In the Faneuil Library Gallery: The Comic-Book Art of Mick Cusimano

### On View through November 7th.

Mick Cusimano has been drawing cartoons from childhood. Some of his earliest cartoons were about the Beatles in 1966. In the late 90s during the Zine revolution his cartoons were published in over 100 small press publications in Boston, and abroad in Germany, Slovenia, and Russia. Thirty-five years after graduating from college Mick has recently produced political cartoons for the Harvard Crimson.

Mick was formerly an artist in Rugg Road's studios in the Allston Artist District. Over the years he has done cartoons about history, and he has presented work on the life of Washington Allston. Since 2000 he has done a monthly comic strip, ImagineNation, for Imagine the monthly Film Magazine about the local film industry. He is now working on a graphic novel about the Middle Ages called The Whole Ball of Wax. Learn more about Mick Cusimano at this link:
