[Moving to Opportunity, Xavier de Souza Briggs, Susan Popkin, John Goering](#) , 2010, 0195393716, 9780195393712. If "badneighborhoods are truly bad for children and families, especially the minority poor, can moving to better neighborhoods lead them to better lives? Might these families escape poverty altogether, beyond having a better quality of life to help them cope with being poor? Federal policymakers and planners thought so, on both counts, and in 1994, they launched Moving to Opportunity. The \$80 million social experiment enrolled nearly 5,000 very low-income, mostly black and Hispanic families, many of them on welfare, who were living in public housing in the inner-city neighborhoods of Baltimore, Boston, Chicago, Los Angeles, and New York. Yet five years after they had entered the program, many of the families in the favored xperimentalgroup had returned to high poverty neighborhoods. Young women showed big drops in risky behavior and big improvements in mental health, on average, while young male movers did not. The males even showed signs of increased delinquency if they had lived, at least for a time, in the low poverty areas. Parents likewise showed major drops in anxiety and depression-two of the crippling symptoms of being chronically poor in high-risk ghettos-but not in employment or income. And many movers appeared to be maintaining the same limited social circles-mostly disadvantaged relatives and close friends-despite living in more advantaged neighborhoods. The authors of this important and engaging new book wanted to know why. Moving to Opportunity tackles the great, unresolved question of how to overcome persistent ghetto poverty. It mines a unique demonstration program with a human voice, not just statistics and charts, rooted in the lives of those who "signed upfor MTO. It shines a light on the hopes, surprises, achievements and limitations of a major social experiment-and does so at a time of tremendous economic, social, and political change in our nation. As the authors make clear, for all its ambition, MTO is a uniquely American experiment, and this book brings home its lessons for policymakers and advocates, scholars, students, journalists, and all who share a deep concern for opportunity and inequality in our country.

[The Real Rules: How to Find the Right Man for the Real You, Barbara De Angelis](#) , 2013, 0007521421, 9780007521425.

De Angelis, Americas foremost relationships expert, offers her own 25 Rules showing real women who are tired of playing games how to find a lasting, satisfying relationship with Mr Right. The Real Rules explains how you need to become the confident, unique woman you are and finding a man who loves you because of it. It includes: The 6 most important character traits to look for in a man. What men really want in a woman (and in the bedroom). When and how to ask a man for a commitment.

[Sweeney Todd: The Demon Barber of Fleet Street : the Graphic Novel, Sean Michael Wilson, Clive Bryant](#) , 2012,

1907127097, 9781907127090. No one knows for sure if Sweeney Todd actually existed, but this story, taken from a serialization in a Penny Dreadful from 1846, was the first official record of the terrible crimes committed by the Demon Barber of Fleet Street. Gory? No! What's particularly good about this adaptation is that none of the horror is to be seen making this a truly wonderful version of a brilliant book. This story first appeared in serialized form in 1800s London and gripped the nation. Although there is no explicit record of these events taking place, there is overwhelming anecdotal evidence that Todd existed and that he was the world's worst mass-murderer. A gruesome tale, portrayed with a certain Victorian "twee-ness" that borders on the comical. Featuring beautiful engaging artwork, the book features the entire novel, unabridged (in the original British English), as well as an illustrated Character List (Dramatis Personae), 156 pages of story artwork, and fascinating support material - all beautifully presented in color. An alternative text edition with simplified U.S. dialogue is available enabling differentiation in the classroom.

[Rosa and the Special Prize: And, Holly and the Silver Unicorn, , Darcey Bussell](#) , 2011, 0007414439, 9780007414437.

Prima Ballerina Darcey Bussell takes you on a captivating journey to a faraway land of ballet and magic! Join Rosa in her search for the special prize and Holly as she tries to save the silver unicorn in this bumper two-books-in-one edition. Rosa and the Special Prize: King Neptune, ruler of the underwater kingdom, has accused King Tristan of taking his special sceptre and as a punishment he's cast a storm spell over Enchantia! Can Rosa and Nutmeg find out who really has the sceptre or will Enchantia be gloomy forever? Holly and the Silver Unicorn: In Enchantia, Holly discovers a carousel of mythical creatures. They have been enchanted and trapped on the carousel by Wicked Fairy. She wants to capture the Silver Unicorn to complete her menagerie. Can Holly and the White Cat warn the unicorn in time? Or will he also be trapped on the carousel forever "

[What Designers Know, Bryan Lawson](#) , 2012, 1136349006, 9781136349003. Each chapter deals with a different technique from which we can best represent and make explicit the forms of knowledge used by designers. The book explores whether design knowledge is special, and attempts to get to the root of where design knowledge comes from. Crucially, it focuses on how designers use drawings in communicating their ideas and how they converse with them as their designs develop. It also shows how experienced designers use knowledge differently to novices suggesting that design expertise can be developed. Overall, this book builds a layout of the kinds of skill, knowledge and understanding that make up what we call designing.

[No Escape: Vol. 1: The Last Days of Diego Black, Volume 1, Damon Darrell](#) , 2011, 0983758719, 9780983758716. Time is ticking while Diego Black, former muscle for the infamous drug cartel known as the Brick Boys, tries to find the answers to all three of these questions. Best known for his brutality in the streets before the Brick Boys got dismantled

by the Feds, Diego now struggles with the choice of being a "new man" or allowing his former life to dictate his present situation. But when fate brings certain elements from his past into his present life, the friction sends sparks flying along with a gang of bullets. For Hiram Bricker, redemption comes with a high price. When an unexpected acquaintance from his past resurfaces, demanding to be paid in full, Hiram's faith is tested as he tries to keep his secrets hidden from his family and maintain his facade of being a minister. With his brother behind bars, Hiram turns to his old crew, the Brick Boys, to help him make good on an old debt. But when things start to get heated, everybody reaches for their guns in an attempt to save themselves. Orchestrated with Hiram as the mastermind, a murderous task is forced upon Diego. Now, both Hiram and Diego have to decide how far are they willing to go to protect what they love most. This suspenseful urban drama will keep you on the edge of your seat as the action jumps right off of the pages. You will soon learn how far a man will go if you push him too hard...

[A Bright Moon for Fools, Jasper Gibson](#) , 2013, 0957468105, 9780957468108. Harry Christmas - part Jim Royale, part Ignatius P. Reilly, part Oliver Reed - is on the run. Unable to cope with the death of his wife, bouncing from one bad decision to the next, a terrifying assault by the son of a woman he's conned makes up his mind to leave the country. On a mission to track down his wife's ancestral village, Christmas arrives in Venezuela certain that his fortunes are about to improve. He's dead wrong. Soon out of money and luck, he is forced into yet more deceit - with devastating consequences for those he has fooled. Lost, drunk and lurching across rural Venezuela, Christmas reaches the point of breakdown. He wakes up in a village at the end of the world. He is hanging by one leg from a tree. Inspired by the mighty Lola Rosa, he tries to crawl out of his spiritual abyss and find a way to live amongst these fishermen and farmers - but love isn't easy when you are a career liar still married to the dead. As the real trouble begins, can redemption survive? A comic novel that is as funny as it is heart-breaking, Jasper Gibson's debut marks the arrival of a bold new voice in British fiction.

[The Laplace Transform, with Applications, Jiri Lebl](#) , 2012, 0983455732, 9780983455738. This book provides a complete and extensive overview of the Laplace transform, including a complete elucidation of the table of functions of a single variable. Special focus is given to the application of transform in engineering and the physical sciences. The book is appropriate for a graduate-level course in pure or applied mathematics, as an ancillary in an undergraduate engineering or physical sciences course, or as standalone text for a differential equations course.

[The Edinburgh History of the Greeks, C. 500 to 1050: The Early Middle Ages, Florin Curta](#) , 2011, 0748638091, 9780748638093. This volume traces the social, economic and political history of the Greeks between 500 and 1050. The book adopts an interdisciplinary approach and uses archaeological evidence, as well as coins and seals, fiscal documents, medieval chronicles, and hagiographic literature to examine the development of Greek culture in the early medieval

period. Several themes provide the foundation for this volume and run through the chapters; these include the Balkan context, the Social Role of the Army and the Onset of Economic Growth. Special attention is paid to the size of the economy in early medieval Greece. Both the social and the economic are privileged and analyzed together as integrally connected spheres of life, thus filling a major gap in existing literature on this period.

[A Optical Fiber Telecommunications V: Components and Subsystems, , Ivan P. Kaminow, Tingye Li, Alan E. Willner](#) , 2008, 0123741718, 9780123741714. "Optical Fiber Telecommunications V (A&B)" is the fifth in a series that has chronicled the progress in the research and development of lightwave communications since the early 1970s. Written by active authorities from academia and industry, this edition not only brings a fresh look to many essential topics but also focuses on network management and services. Using high bandwidth in a cost-effective manner for the development of customer applications is a central theme. This book is ideal for R&D engineers and managers, optical systems implementers, university researchers and students, network operators, and the investment community. Volume (A) is devoted to components and subsystems, including: semiconductor lasers, modulators, photodetectors, integrated photonic circuits, photonic crystals, specialty fibers, polarization-mode dispersion, electronic signal processing, MEMS, nonlinear optical signal processing, and quantum information technologies. Volume (B) is devoted to systems and networks, including: advanced modulation formats, coherent systems, time-multiplexed systems, performance monitoring, reconfigurable add-drop multiplexers, Ethernet technologies, broadband access and services, metro networks, long-haul transmission, optical switching, microwave photonics, computer interconnections, and simulation tools. Biographical Sketches Ivan Kaminow retired from Bell Labs in 1996 after a 42-year career. He conducted seminal studies on electrooptic modulators and materials, Raman scattering in ferroelectrics, integrated optics, semiconductor lasers (DBR, ridge-waveguide InGaAsP and multi-frequency), birefringent optical fibers, and WDM networks. Later, he led research on WDM components (EDFAs, AWGs and fiber Fabry-Perot Filters), and on WDM local and wide area networks. He is a member of the National Academy of Engineering and a recipient of the IEEE/OSA John Tyndall, OSA Charles Townes and IEEE/LEOS Quantum Electronics Awards. Since 2004, he has been Adjunct Professor of Electrical Engineering at the University of California, Berkeley. Tingye Li retired from AT&T in 1998 after a 41-year career at Bell Labs and AT&T Labs. His seminal work on laser resonator modes is considered a classic. Since the late 1960s, He and his groups have conducted pioneering studies on lightwave technologies and systems. He led the work on amplified WDM transmission systems and championed their deployment for upgrading network capacity. He is a member of the National Academy of Engineering and a foreign member of the Chinese Academy of Engineering. He is a recipient of the IEEE David Sarnoff

Award, IEEE/OSA John Tyndall Award, OSA Ives Medal/Quinn Endowment, AT&T Science and Technology Medal, and IEEE Photonics Award. Alan Willner has worked at AT&T Bell Labs and Bellcore, and he is Professor of Electrical Engineering at the University of Southern California. He received the NSF Presidential Faculty Fellows Award from the White House, Packard Foundation Fellowship, NSF National Young Investigator Award, Fulbright Foundation Senior Scholar, IEEE LEOS Distinguished Lecturer, and USC University-Wide Award for Excellence in Teaching. He is a Fellow of IEEE and OSA, and he has been President of the IEEE LEOS, Editor-in-Chief of the IEEE/OSA J. of Lightwave Technology, Editor-in-Chief of Optics Letters, Co-Chair of the OSA Science & Engineering Council, and General Co-Chair of the Conference on Lasers and Electro-Optics. "For nearly three decades, the OFT series has served as the comprehensive primary resource covering progress in the science and technology of optical fiber telecom. It has been essential for the bookshelves of scientists and engineers active in the field. OFT V provides updates on considerable progress in established disciplines, as well as introductions to new topics. [OFT V]... generates a value that is even higher than that of the sum of its chapters."Herwig Kogelnik, Vice President Adjunct, Bell Labs, Alcatel-Lucent .".. is a comprehensive and authoritative coverage of the latest research advances and development trends in the field, while upholding the highest standards of scholarly exposition and practical perspective. The wealth of material on innovative technologies and advanced applications will serve as an important and timely information resource ... for the advancement of telecommunications world-wide."Leping Wei, CTO, China Telecom "Lightwave systems constitute the nervous system of the industrial world and continue to evolve as innovations are introduced with enormous economic impact. The editors have very skillfully brought together authoritative chapters written by well known experts, encompassing new technologies that are enabling the rapid advances to their commercial deployment. This is a "must-have" book ..."Henry Kressel, Managing Director, Warburg Pincus "Anyone ... will want to have a copy of this latest edition ... which carries on the tradition of bringing together a wonderful collection of authors, world-renowned experts all, to discuss the most important areas of this rapidly changing technology. ... this volume has evolved to include, not only updates of previous topics, but also considerably more discussion of networks and network services."Donald B. Keck, Corning, Inc. (retired) "Much has happened since the last edition. ROADM-based metro networks are being widely deployed, optical monitoring is becoming essential, new modulation formats are enabling efficient bandwidth utilization, and deployed FTTH has 1 Gbit/s shared rates. All these ... are expertly reviewed by an impressive set of authors, each highly active, well-known and respected. In all ... a timely, highly valuable, well-written and comprehensive view presented by the world's experts."Rod C. Alferness, Chief Scientist, Bell Labs Research, Alcatel-Lucent \* All the latest technologies and techniques for developing future components and systems\* Edited by two winners of the OSA/IEEE John Tyndal award and a President of IEEE Lasers and Electro-optics Society\* Written by leading experts in the field, it is the most authoritative and comprehensive reference on optical engineering the market

[A Room of One's Own/Three Guineas, Virginia Woolf](#) , 2000, 0141933429, 9780141933429. A Room of One's Own, based on a lecture given at Girton College Cambridge, is one of the great feminist polemics, ranging in its themes from Jane Austen and Charlotte Bronte to the silent fate of Shakespeare's gifted (imaginary) sister and the effects of poverty and sexual constraint on female creativity. Three Guineas was published almost a decade later and breaks new ground in its discussion of men, militarism and women's attitudes towards war. These two pieces reveal Virginia Woolf's fiery spirit and sophisticated wit and confirm her status as a highly inspirational essayist.

[The Wrong Box, Robert Louis Stevenson, Lloyd Osbourne](#) , 2009, 1604506180, 9781604506181. The Wrong Box is a black comedy novel co-written by Robert Louis Stevenson and his step-son Lloyd Osbourne, first published in 1889. The story is about the last two remaining survivors of a tontine, who also happen to be brothers.

[Breaking Unhealthy Soul-Ties: Do Your Relationships Produce Bondage Or Joy?, Bill Banks, Sue Banks](#) , 1999, 0892281391, 9780892281398. On our Best Seller list! Are you in bondage to a person? Does someone manipulate you? Are you easily controlled, dominated? Are you tormented by thoughts of a former lover? Are you free to be all God intended you to be? This book offers powerful help to being set free from unnatural bondages (or soul ties) to people, places, and things. Includes ex-lovers, people around you who practice manipulation, those who seek to control you. You will learn more about the characteristics of a Godly relationship and an Ungodly Relationship. You will find prayers you can pray yourself for deliverance from soul ties and curses, as well as testimonies of people who have been set free! Topics include: The Soul & Its Function, Soul Ties, Both Godly & Ungodly, Harmful Adult Soul Ties Through Choices We Make, Side Effects of Unhealthy Soul Ties, The Cure: Breaking Soul Ties, Preventing Further Harmful Soul Ties, and more.

[Career Paths, Armstrong](#) , 1996, 0137415133, 9780137415137.

[Health measurement scales: a practical guide to their development and use, David L. Streiner, Geoffrey R. Norman](#) , 1995, 0192626701, 9780192626707. The second edition of the only practical guide for clinicians developing tools to measure subjective states, attitudes, and other 'non-tangible' outcomes in their patients has been thoroughly revised to incorporate all the latest research results. New to this edition are a chapter on ethics and a discussion of reliability and generalizability theory. The authors offer an overview of both the theory and the practical applications of health measurement scales, and offer the reader a methodical, step-by-step guidance to the development of their own scales. These features combine to provide the most up-to-date guide to measurement scale development available. Written in a concise and intelligible style, it enables both experienced researchers and novices to develop accurate, sensitive and easy-to-use measurement scales of their own. This is an essential book for anyone who uses or would like to use rating scales

in their clinical practice.

[Suck It Up Buttercup!, Robert D. Cass](#) , 2007, 1600372635, 9781600372636. After reading virtually every book I could find on the subject of successful business practices, I felt cheated. The books that I stumbled across were certainly politically correct, and well written, and I felt better about myself for having read them. The problem was that I was constantly left wanting. Something was missing; direction, focus, action. I decided to write Suck it up, Buttercup! for me and no one else. This is a book that I need. When things get tough, I can pick up Suck it up, Buttercup! and gain indisputably clear advice on what I should be doing at any given moment. It is clear, it is decisive, and it works for me. Suck it up, Buttercup! reaches out to everyone who needs a swift kick in the butt to get going. It is a sharp dose of reality in a politically correct business environment. It works on so many levels because it is based on truth, not theory. Suck it up, Buttercup! has a message in it for everyone from Girl Scouts to Green Berets and should be given to every graduating senior who enters the workin world. There is no other book like "Buttercup" but there will be others. The message is unmistakably clear.

[Travellers History Spain, Juan Lalaguna](#) , 2002, 1905214391, 9781905214396. Spain, during her golden age, was a political giant whose influence spanned the world, from Germany to the Western Pacific. Rich in gold and silver from her conquests in Mexico and Peru, Spain was able to send the Armada against England, defeat the might of the Turks and challenge France for the hegemony of Europe. This book will unlock for the interested traveller the secrets of Spains vibrant and colourful past, its people and culture. It takes the reader on a journey from the earliest settlements on the Iberian Peninsula, through the influences of the Romans, the Goths and the Muslims, the traumas of expansion and the end of her Empire, the bitter civil war, the Franco era and ends with an analysis of Spain today and her future as a leading member of the European Community. A full chronology of major events, a cross-referenced historical gazetteer, a list of rulers, a bibliography, index and historical and contemporary maps all add to its usefulness for the tourist, business traveller or student of Spain past and present.

[Is That Funny?, B. Patrick, Leo D. Schotz](#) , 2006, 0974131962, 9780974131962. What happens when ordinary animals find themselves in extraordinary situations? Chock full of big, bold illustrations of wild animals in silly situations, Is That Funny? encourages the reader to answer that very question. The companion CD not only reads along with the book but also includes hilarious, animal sound effects, the Is That Funny? Theme Song, and tons of contagious laughter. Read along with the CD and decide which animal is the funniest. At the end of the book, find out what all the animals think is funny!

[Tap Your Source, Leslie Karen Hammond](#) , 2011, 0983634408, 9780983634409. A guide to empower people to step

beyond old patterns, old beliefs, and into their dreams. Tap Your Source is a guide to managing your way through those major "Transitions" in life where everything changes. The occasion may be losing your job, separating from a partner, death of a loved one ...whatever the trigger; it is time to reassess your life, what you are doing, and what you want. This book is a guide to help you get to the core of what you are all about. It has exercises to help you get to your source deep inside where your true self dwells. You are invited to consider the following: \* How big a dream can I manifest? \* Have I learned to harness the power of a positive strong belief? \* How can I embrace my gifts? \* Do I hold myself accountable for my dreams? What does it mean to harness the power of my intent? \* Do I think of surrender as a negative term? \* Am I "walking my talk"? This is not just a book; it is a complete course, complete with exercises, in managing your way through a major life transition. Leslie invites you to tap into your true potential.

[The American, Henry James](#) , 1999, 0191588806, 9780191588808. A wealthy American man of business descends on Europe in search of a wife to make his fortune complete. His bid for Claire de Cintr--eacute--; hand receives an icy welcome from the heads of her aristocratic family. Can they stomach his manners for the sake of his dollars? Out of this classic collision between the old world and the new, James weaves a fable of thwarted desire that shifts between comedy, tragedy, romance and melodrama a fable which in the later version printed here takes on some of the subtleties associated with this greatest novels. - ;` You you a nun; you with your beauty defaced and your nature wasted you behind locks and bars! Never, never, if I can prevent it!' A wealthy American man of business descends on Europe in search of a wife to make his fortune complete. In Paris Christopher Newman is introduced to Claire de Cintr--eacute--;, daughter of the ancient House of Bellegarde, and to Valentin, her charming young brother. His bid for Claire's hand receives an icy welcome from the heads of the family, an elder brother and their formidable mother, the old Marquise. Can they stomach his manners for the sake of his dollars? Out of this classic collision between the old world and the new, James weaves a fable of thwarted desire that shifts between comedy, tragedy, romance and melodrama a fable which in the later version printed here takes on some of the subtleties associated with this greatest novels. -

[Tutorials in Molecular Reaction Dynamics, Mark Brouard, Claire Vallance](#) , 2010, 0854041583, 9780854041589. The focus of this excellent textbook is the topic of molecular reaction dynamics. The chapters are all written by internationally recognised researchers and, from the outset, the contributors are writing with the young scientist in mind. The easy to use, stand-alone, chapters make it of value to students, teachers, and researchers alike. Subjects covered range from the more traditional topics, such as potential energy surfaces, to more advanced and rapidly developing areas, such as

femtochemistry and coherent control. The coverage of reaction dynamics is very broad, so many students studying chemical physics will find elements of this text interesting and useful. Tutorials in Molecular Reaction Dynamics includes extensive references to more advanced texts and research papers, and a series of 'Study Boxes' help readers grapple with the more difficult concepts. Each chapter is thoroughly cross-referenced, helping the reader to link concepts from different branches of the subject. Worked problems are included, and each chapter concludes with a selection of problems designed to test understanding of the subjects covered. Supplementary reading material, and worked solutions to the problems, are contained on a secure website.

[Introductory Mathematical Analysis for Business: Economics and the Life and Social Sciences, Ernest F. Haeussler, Richard S. Paul](#) , 2001, 0130340227, 9780130340221. This introductory text begins with precalculus and finite maths topics such as equations, functions, matrix algebra, linear programming, mathematics of finance, and probability, and then progresses through single and multivariable calculus.

[Maternity Nursing: Care of the Childbearing Family, Laurie N. Sherwen, Maryann Scoloveno, Carol T. Weingarten](#) , 2000, 0130549266, 9780130549266. This book provides basic information on the care of women and their families before, during, and after pregnancy. Organized according to phases of the childbearing cycle, it emphasizes the family-centered, psychosocial, and physiologic components of healthcare. It features answers to commonly asked questions, nursing alerts, and critical pathways, as well as a four-color art program. Chapter topics include trends and issues in care of the childbearing family, perinatal experience, issues in women's health, family planning, educational preparation for childbirth, age-related considerations for pregnancy, psychosocial concerns for the high-risk childbearing family, nutrition during childbearing, community based nursing care during pregnancy and birth, physiology of labor and birth, pain management, the postpartum family, assessment and care of the normal newborn and the newborn at risk, and community based nursing during the postpartum period. For childbearing women, and the medical professionals who take care of them.

[Rhymes Without Reason, Lyn Bunkum](#) , 2011, 0975117521, 9780975117521.

[A Land in Motion: California's San Andreas Fault, Michael Collier](#) , 1999, 0520218973, 9780520218970. The San Andreas Fault is the most famous fault on Earth, running nearly the entire length of western California from just north of the Mexican border to the Mendocino coast. It is a very active tectonic boundary which directly affects the lives of more than twenty million people. The San Andreas Fault has been responsible for shaping much that is beautiful about California, and it also has the capacity to destroy the communities that lie along its course. A Land in Motion provides a geologic tour of the San Andreas Fault in an accessible narrative punctuated with dramatic color illustrations, lively anecdotes, and authoritative information about earthquakes. As he tours the length of the fault, Michael Collier provides a valuable

overview of plate tectonics and gives a geologic history of the San Andreas Fault written for non-scientists. He discusses the evolution of seismology as a science and traces the knowledge that scientists have gleaned about earthquakes and plate tectonics from their work on the San Andreas Fault. Collier looks into human history as well, discussing major earthquakes that have hit the San Andreas, including the famous San Francisco earthquake of 1906, the San Fernando quake of 1971, the Loma Prieta quake of 1989, the Landers quake of 1992, and many lesser temblors. Collier illustrates his text with magnificent photographs that highlight some of the most beloved landscapes in California. He provides excellent views of the fault throughout the state of Crystal Springs reservoir near San Francisco, of Pinnacles National Monument east of Monterey, of the Golden Gate National Recreation Area and Point Reyes National Seashore near San Francisco, and more. Collier concludes his tour of the San Andreas Fault with a provocative discussion on earthquake prediction versus earthquake planning that all Californians and all who live where earthquakes occur will want to read.

[Guns or Butter : The Presidency of Lyndon Johnson: The Presidency of Lyndon Johnson, Los Angeles \(Emeritus\) Irving Bernstein Professor of Political Science University of California](#) , 1996, 019987431X, 9780199874316. The presidency of Lyndon Johnson was a pivotal moment in twentieth-century American history. From the decisive social programs of the Great Society, to the triumph of the Civil and Voting Rights Acts, to the catastrophe of the Vietnam War and domestic unrest, it was an era of dramatic accomplishment and wrenching tragedy. In *Guns or Butter*, renowned historian Irving Bernstein brings those five climactic years of the sixties vividly to life, from the moment Lee Harvey Oswald aimed a rifle from the window of the Texas School Depository to the tense ballot-counting that put Richard Nixon in the White House in 1968. Bernstein's book is a narrative masterpiece, filled with sharply drawn character sketches and swiftly moving accounts of events that range from deals cut in the Senate cloakroom, to police charging after protesters on the streets of Selma, to Vietcong commandos bursting into the American embassy in Saigon. We see Johnson ordering aides Bill Moyers and Richard Goodwin to strip and join him for a skinny-dip in the White House pool, where they formulate the Great Society. And we see a tired, distracted president pacing in his bathrobe around a table model of the besieged Khe Sanh garrison, examining aerial photographs and casualty reports. Equally important, Bernstein offers a deft assessment of Johnson's successes and failures, from his legislative programs to his futile pursuit of the war in Vietnam to his failure to boost Hubert Humphrey's presidential campaign in 1968. The author not only retells the maneuvering that brought the president's plans into law, he also analyzes and explains their impact, from the Voting Rights Act to Medicare. The Great Society, Bernstein concludes, was a triumph, but Johnson's attempt to have both guns and butter, to pursue massive domestic initiatives together with a bitter undeclared war, led to runaway inflation that ultimately undermined his presidency. From the dark moments after Kennedy's assassination in 1963, to the heady days of legislative victories of 1965, to the bloody crescendo of riots, assassinations, and military battles in 1968, Johnson's administration was a defining moment in modern American history. In *Guns or Butter*, Irving Bernstein brilliantly captures both the events and

the meaning of those momentous years. Aside from its historical value, this book has major current significance. The legislative program Newt Gingrich and his Republican colleagues introduced in 1995 was designed to repeal the Great Society. Before doing so, members of Congress and the interested public should understand Lyndon Johnson's vision and the legislation that was enacted during the sixties. *Guns or Butter* provides that critical information.

[Media Literacy](#), [W. James Potter](#) , 2012, 145228976X, 9781452289762. This book offers a detailed approach to studying media influences and presents readers with a clear vision of what it means to operate at a higher level of media literacy. W. James Potter argues that the media have a profound influence on the way we perceive the world by shaping our beliefs and expectations. By becoming more media literate, we can avoid the potentially negative effects of those media messages as well as amplify the potentially positive effects. With substantial discussion of media content, audiences, and the media industries, the book tackles key issues related to media ownership, invasion of privacy, piracy of media messages, violence, and sports. Readers will gain a clearer perspective on the borders between the real world and the simulated media world and will become more informed and literate media consumers.

[The Politics of Victimization: Victims, Victimology, and Human Rights](#), [Robert Elias](#) , 1986, 0195039807, 9780195039801. This useful text provides a comprehensive introductory overview of the study of victims and victimization. Victimization is here considered as a reflection of American society. Taking a broad perspective, Elias argues that the study of victimology requires more than merely analyzing criminal justice; it requires linking it to much wider social, political and economic relations--especially to the American political economy. This study rejects the official definition of crime and victimization and establishes a relationship between victimology and human rights, thus advocating a "new" victimology which embraces victims of both crime and repression. Elias proposes that since much crime arises in response to various forms of oppression, a society unconcerned with human rights violations and its victims can likewise provide little help for crime victims.

[The Question of Bruno: Stories](#), [Aleksandar Hemon](#) , 2002, 1400032849, 9781400032846. In this stylistically

adventurous, brilliantly funny tour de force—the most highly acclaimed debut since Nathan Englander's—Aleksandar Hemon writes of love and war, Sarajevo and America, with a skill and imagination that are breathtaking. A love affair is experienced in the blink of an eye as the Archduke Ferdinand watches his wife succumb to an assassin's bullet. An exiled writer, working in a sandwich shop in Chicago, adjusts to the absurdities of his life. Love letters from war-torn Sarajevo navigate the art of getting from point A to point B without being shot. With a surefooted sense of detail and life-saving humor, Aleksandar Hemon examines the overwhelming events of history and the effect they have on individual lives. These heartrending stories bear the unmistakable mark of an important new international writer. From the Trade Paperback edition.

[The Firestorm: Poems, Zach Savich](#) , 2011, 1880834952, 9781880834954. Poetry. "Take Zach Savich's THE FIRESTORM as one proof of Emerson's assertion that the mind's nature is volcanic. A firestorm is such a conflagration that it produces above it its own atmosphere. And so a reader finds in Savich's pages a super-heated cloud in which the poet's voice grows multiple, grows active, and the poem records the intimate collisions of lines that veer from prophecy to aphorism to ribald wit to stoic speculation. If this sounds nebulous, it is not. It is fulgurative, lightning-like, shot through sudden flashes of experience that in the sudden afterglow reveal that experience also experiences itself. Such is the complicated place where wit turns witness, and in doing so, opens up the deeper ironies—ironies that at first glance seem quite plain: 'I have forgotten if I am pulling the curtain open or closed.' Savich pulls the curtain open and closed, showing us again poetry's paradoxical necessity: that the poem must show and hide at once, reveal and obscure simultaneously, and that a song that thinks makes of its melody a matter that matters." Dan Beachy-Quick.

[Love Poems from DoG, Jodi Stauffer](#) , 2013, 0972671706, 9780972671705. [The Problem Was Me: A Guide to Self-Awareness, Compassion, and Awareness, Thomas Gagliano](#) , 2011, 0982650574, 9780982650578. The Father's Day message in this book is loud and clear: As parents we are our children's first heroes, whether we want the responsibility or not. One of the most powerful messages I ever received came from my nine year old son. While watching a baseball game on television, my son asked me why the kids in the stands were so excited. I said some baseball players are heroes to the children. I suggested that someday one of those players might be his hero. My son paused and said to me, "They may be my hero someday, but you will always be my first hero." I was so touched, I could not reply. As parents we are our children's first heroes, whether we want the responsibility or not. -excerpt from page 42 from The Problem Was Me Author Tom Gagliano shares his insights on healing from destructive behaviors and finding peace and spirituality. The book includes tools that he gained while recovering from his own personal struggle with negative and compulsive behavior. According to Gagliano and his co-author, Abraham Twerski, many of the common problems people face are brought on by unhealed childhood wounds. Throughout the book, Gagliano provides some very candid examples of how some of his childhood experiences resulted in unresolved feelings: I never accepted criticism well. Whenever someone disagreed with me, I'd get defensive. It felt like I was being ridiculed. I am still dealing with childhood wounds and insecurity. Although my wife loved me very much, I did not love myself. By failing to accept my own weaknesses, I could not allow myself to be loved by anyone. I felt undeserving of that love. This is an example of a psychological maneuver called transference, according to Dr. Twerski, who states, A person may transfer feelings that were appropriate toward person A to person B. Gagliano further explains how he sought treatment to gain control over the little voice inside his head that was always telling him that he did not deserve to be happy which he refers to as the warden. According to Gagliano, the warden is a powerful force that sabotages lives by encouraging destructive behaviors, such as addictive behaviors, and discouraging happiness and healing. This book is certainly very suitable for those who are battling addictions, since as the author points out: Some addicts who have been sober for a long time may continue to lead tormented, angry lives. The author shares applicable case studies and helpful tips and suggestions throughout the book, including: how to get the most out of a support group; help for struggling couples; how to conduct a personal self-examination by taking personal inventories; and how to reconnect with one's parents. However, it should not be written off as a book simply for those who are suffering from addiction, as it has a much broader application. In the introduction, the author includes a list of questions the reader should ask him or herself to determine whether or not this book could

be of help. Basically, this book could be helpful to anyone who wants to break the cycle of self-defeating thoughts and self-destructive behaviors.

[Treaty Series, United Nations Publications](#) , 1997, 0119850540, 9780119850543.

[Sdlc 3.0: Beyond a Tacit Understanding of Agile: Towards the Next Generation of Software Engineering, Mark Kennaley](#) , 2010, 0986519405, 9780986519406. The world of software development methodology has become a bit of a cottage industry. Philosophical divisions and dogma laced with branding and driven by profit motive are commonplace. Re-invention replaces integration due to a lack of collaboration. A pragmatic perspective however would be to leverage all past experience in context when approaching modern software engineering challenges. For example, issues faced by the Agile community related to agility at scale and technical debt have already been addressed before by other communities. SDLC 3.0 represents the rationalization of modern software engineering methods into a Complex Adaptive System of practices. It leverages Control Systems Engineering theory to explain Agile beyond a tacit and anecdotal basis such that the pace of modern practice adoption can accelerate. And because "more for less" is now as important as "being agile," it articulates blueprints of the Lean IT Enterprise. Who should read this book: . - If you are an Agilist and tired of having to pause when asked the question "What is Agile.." - If you are a Traditionalist and you would like to learn why Agile is a better approach - if someone would just explain "why it works" in a credible way.. - If you are an Executive and you are faced with a fiduciary duty to influence IT investment outcomes. A blueprint of a Lean IT Enterprise is valuable to you. . - If you are a Researcher and you are tired of fads and brands, and want to ground Agile in applied science and rigorous mathematics. . - If you are a Methodologist and you believe that the cottage industry must stop, and that we must get past fragmentation and tacit or anecdotal evidence.. - If you are a Practitioner and you can't afford to pontificate on which "pure" wholesale method to leverage when faced with the "realities on the ground." . - If you are an independent thinker, a centrist. - If you are a pragmatist. Winner 2010 Dr. Dobbs Jolt Productivity Award

[Transaction Criteria, Avrom Sherr, Richard Moorhead, Legal Aid Board, Alan Paterson](#) , 1992, 0113800681, 9780113800681. The assessment of the quality of an intangible, professional service such as the provision of legal aid is a difficult yet important task. As a major purchaser of legal services on behalf of the taxpayer and for the benefit of the consumer, the Legal Aid Board is seeking to work in a partnership arrangement with solicitors providing legal aid services, including those in law centres and advice agencies. This partnership was outlined in the franchising proposals developed by the Legal Aid Board and outlined in Franchising: The Next Steps. An essential element of these proposals is the use of the transaction criteria presented here. The criteria cover green form/ABWOR and emergency legal aid work only and are designed to provide a mechanism for the collection of objective evidence that a legal adviser has considered the relevant process issues in particular cases.

[Stuttering and Your Child: Questions and Answers, Stuttering Foundation of America](#) , 2002, 0933388438,

9780933388437. This video features children who exhibit varying degrees of stuttering--as well as children who are simply experiencing normal, age-appropriate disfluencies. It guides parents through the process of assessing their own child's speech. Noted speech-language pathologists discuss ways parents can help prevent stuttering as well as explain what to expect from therapy.

[Flowers from Hell, Jim Harper](#) , 2008, 0953656470, 9780953656479. Over the past decade, Japan has become a key player on the contemporary horror scene, producing some of the most influential and critically respected genre movies of recent years and helping to spark off the worldwide interest in Asian horror. Whether it's the subtle chills of Ring, the graphic brutality of Audition or the zombie-fuelled mayhem of Versus, Japanese horror has had a major impact throughout the world, leading to high profile remakes and sending its most talented directors to Hollywood. Flowers from Hell is the most in-depth look at the vibrant and challenging world of modern Japanese horror so far, covering the best directors, the most important films and the most popular themes of the past 25 years. From its origins in the mid-80s to the multi-million dollar franchises of today, Flowers from Hell traces the evolution of this consistently inventive and influential horror phenomenon. \* Films featured include:- \* The Ring series \*Audition \*Battle Royale \*Juon/The Grudge \* Evil Dead Trap \*Curse \*Pulse plus over 200 other captivating titles including the controversial soft core Pink cinema genre.

[Ecology and the Environment: Perspectives from the Humanities, Donald K. Swearer, Susan Lloyd McGarry](#) , 2009, 0945454430, 9780945454434. The scientific, political, and economic policy debates about the global environmental crisis have tended to ignore its historical, ethical, religious, and aesthetic dimensions. This book redresses that omission by highlighting these humanistic components that are integral to the fabric of our ecological understanding and, consequentially, essential to a broad, multidisciplinary approach to environmental studies and public policy initiatives. In this slim volume, seven world-class scholars discuss the wide range of perspectives that the fields of literature, history, religion, philosophy, environmental ethics, and anthropology bring to the natural environment and our place in it. The preface summarizes the development of the religion and ecology movement; the editore(tm)s critical introduction highlights the essaye(tm) major themes. Bringing insights from the humanities to bear on ecological concerns, this volume will appeal to a wide audience in the humanities and environmental studies, policy makers, and the general public. The book represents a continuation of the Center for the Study of World Religionse(tm) highly regarded Religions of the World and Ecology series.

Introduction to Modern Psychology - The Control-Theory View edited by Dr. Richard Robertson and William T. Powers. The first textbook based on the control-theory approach to the science of psychology makes theoretical reinterpretations of many facts found by researchers working within the frame-work of older traditions in psychology. The basic control-theory model for organismic behavior as the control of perception via hierarchically arranged negative-feedback loops provides a foundation for chapters on learning, development, perception, personality, social psychology, psychotherapy and other topics.

[Fox and His Friends, Edward Marshall, James Marshal](#) , 1992, 014036188X, 9780140361889. For use in schools and libraries only. A collection of books designed for children who can read on their own, contain more complex sentence structure and more detail.

[Something Like Happy, John Burnside](#) , 2014, 0099575590, 9780099575597. In these remarkable stories, John Burnside takes us into the lives of men and women trapped in marriage, ensnared by drink, diminished by disappointment; all kinds of women, all kinds of men - lonely, unfaithful, dying - driving empty roads at night. These are people for whom the idea of 'home' has become increasingly intangible, hard to believe - and happiness, or grace, or freedom, all now seem to belong in some kind of dream, or a fable they might have read in a children's picture book. As he says in one

story, 'All a man has is his work and his sense of himself, all the secret life he holds inside that nobody else can know.' But in each of these normal, damaged lives, we are shown something extraordinary: a dogged belief in some kind of hope or beauty that flies in the face of all reason and is, as a result, both transfiguring and heart-rending. John Burnside is unique in contemporary British letters: he is one of our best living poets, but he is also a thrillingly talented writer of fiction. These exquisitely written pieces, each weighted so perfectly, opens up the whole wound of a life in one moment - and each of these twelve short stories carries the freight and density of a great novel.

[The Wordwatcher's Guide to Good Grammar & Word Usage: Authoritative Answers to Today's Grammar and Usage Questions, Morton S. Freeman](#) , 1998, 0966674804, 9780966674804. This guide should be within easy reach for any writer because it answers hundreds of commonly asked questions that arise when penning anything from business letters to personal correspondence. The tips are presented in question-and-answer format and are arranged alphabetically by keyword for quick and easy reference. This book explains the differences between similar words, suggests appropriate words and phrases, helps writers avoid common grammatical errors, and provides guidance in the correct pronunciation of unusually spelled words.

[Stripper Pole to Heaven, Hunter Hayes](#) , 2010, 0615231128, 9780615231129. After taking an extended hiatus, Ms. Hunter Hayes is back on the literary scene again, feeling ready to share what she believes is her best work yet, Stripper Pole To Heaven. In these trying times, people need something to believe in, and Hayes is banking on giving readers what they want in a cautionary tale of being "stripped" of everything but finding the strength to build yourself back up again.

STRIPPER POLE TO HEAVEN When Lisette Jones transforms herself into "Golden" and hits the stage as a stripper, it's all or nothing---a dedication that's earning her top dollar at Club Bare. With the untimely death of her ex, it's a profession that chose her, so Lisette's determined to make it work, even if it means chasing dollars to maintain the comfortable lifestyle that she and her teenaged daughter are accustomed to. Being in the spotlight turns out to be downright addictive, but it doesn't help to fill the void of losing loved ones. Meet the possible solution in Cynthia, her scripture-quoting, bible-toting best friend. It's because of an invite from her that Lisette stumbles upon just the comfort she's been seeking in a higher power. Comforted, yes. Cured of all fears of remaining single and becoming possibly broke? No. For Lisette it's all about the here and now and to prevent getting stuck with nothing she's down for juggling everything; her closeted profession, giving love another try and her spiritual walk. Unfortunately---- it's a decision that she may have to pay the ultimate price tag for. And Cynthia Miller may be "scripture quoting and bible toting," but her life is far from perfect. When she walks through the doors of Target Marketing she's a high-ranking company manager, but just past the doorstep of her apartment, her abusive husband Clyde is the one calling all of the shots. Being both the ideal wife and consummate office exec is demanding, but the balancing act is a goal that Cynthia has set for herself; from shedding her homely image with what she believes will be a life-changing makeover, to indulging in her husband's twisted sexual fantasies nothing's off limits. But what will it take for her to realize that the only makeover she ever needed was the one on the inside?

[Soul Dust: The Magic of Consciousness, Nicholas Humphrey](#) , 2011, 140083807X, 9781400838073. How is consciousness possible? What biological purpose does it serve? And why do we value it so highly? In Soul Dust, the psychologist Nicholas Humphrey, a leading figure in consciousness research, proposes a startling new theory. Consciousness, he argues, is nothing less than a magical-mystery show that we stage for ourselves inside our own heads. This self-made show lights up the world for us and makes us feel special and transcendent. Thus consciousness paves the way for spirituality, and allows us, as human beings, to reap the rewards, and anxieties, of living in what Humphrey calls the "soul niche." Tightly argued, intellectually gripping, and a joy to read, Soul Dust provides answers to the deepest questions. It shows how the problem of consciousness merges with questions that obsess us all--how life should be lived and the fear of death. Resting firmly on neuroscience and evolutionary theory, and drawing a wealth of insights from philosophy and literature, Soul Dust is an uncompromising yet life-affirming work--one that never loses sight of the majesty and wonder of consciousness.

[Pull: Making Your Church Magnetic, Bob Franquiz](#) , 2013, 080101560X, 9780801015601. Every church wants to be magnetic in its community, but many churches don't have a plan to accomplish this goal. Bob Franquiz started Calvary Fellowship in Miami with seven people. A few years into it, Bob realized the church was growing but not reaching the lost. No salvations had been recorded in two years. Something had to change. Now Calvary Fellowship sees thousands of first-time commitments and even more recommitments every year. Bob shares with church leaders the strategies that produced these astounding results: effective evangelism congregational training explosive outreach and more Bob challenges pastors to grab hold of the strategies their churches need and put them into radical action.

[The Cost Management Redbook: For Employee Relocation Home Sale Real Estate Transactions, Ned Sohn](#) , 1995,

0965141128, 9780965141123. The REDBOOK is a unique resource for major corporations & U.S. government agencies for managing & reducing employee relocation benefit costs. Average relocation costs exceed \$47,000, per employee. Most companies use third-party relocation firms to purchase the homes of transferring employees & to manage them for resale. Since all acquisition & carrying costs, & losses on property resales are passed through to the employer, these are high risk transactions & the most expensive benefit component. Historically, industry contracts do not provide for adequate controls or documentation for companies to verify & manage costs. Competitive contract information is not widely available. The REDBOOK fills that void for the first time in the history of the industry. Written in an easy-to-use style, the REDBOOK covers all fixed & variable costs, fee model analysis, industry overview/background, audit setup, step-by-step procedures, examples, sample case studies, & detailed information on common costly errors, issues, & practices. The REDBOOK is for: relocation managers - to expand cost management skills & reduce costs; purchasing managers - to negotiate the tightest, lowest cost service contracts possible; & auditors - to make audits easier to conduct & significantly more productive. Author: Ned Sohn is President of NMS Consulting Services, Inc., a company providing independent audits, contract negotiation services & training seminars to Fortune 500 companies. Ordering: The Highpoint Press, 357 E. 57 St., New York, NY 10022, 212-751-5628, FAX 212-751-4564.

[2D NMR-Based Organic Spectroscopy Problems, David A. Lightner, Michael T. Huggins, Jerome E. Gurst](#) , 2010, 0136042066, 9780136042068. Two-dimensional NMR techniques have become a vital part of the chemist's toolkit. Whether you are a novice or an expert, the problems included in this workbook were chosen to assist in honing your NMR skills. The problem sets (more than 140) are found in four sections that have been defined as less challenging, challenging, more challenging, and special problems. A few of the problems presented have some additional features that separate them from other problems. In some instances, the problems are connected via a synthetic sequence while others contain NOESY data, which enable you to study the configuration and conformation of the molecules. Answers to

the first ten problems in each chapter are presented. This workbook can be used with any spectroscopy text.

[The Tops Way to Weight Loss: Beyond Calories and Exercise, Howard Rankin](#) , 2004, 1401901565, 9781401901561. Weight loss is about people, not calories. Too many other books focus on diet and exercise but neglect the personal, relationship, and spiritual factors that are the real keys to successful weight management. Drawing on the inspirational stories of the successful members of the international nonprofit, weight-loss support group Take Off Pounds Sensibly (TOPS), the organization's psychologist, Howard J. Rankin, shows you how to harness your personal power and the power of others to lose weight and keep it off. Successful weight loss is personal transformation. Dr. Rankin shows you how to mine and maintain your motivation by finding the real meaning in your weight-loss efforts. Extracting key principles from the incredible success stories, the author not only provides practical steps but also shows how they can be implemented in the context of everyday, busy lives. In addition to motivational strategies, easy-to-follow advice is given in the critical areas of self-management, emotional eating, bingeing, adaptive thinking, and temptation management. People don't lose weight in a social vacuum, they lose weight in the context of their relationships. So, at each step, Dr. Rankin shows how to enhance your program by using one of the most valuable resources available--the power of others.

[Philosophical Foundations of Language in the Law, Andrei Marmor, Scott Soames](#) , 2013, 0199673705, 9780199673704. This collection brings together the best contemporary philosophical work in the area of intersection between philosophy of language and the law. Some of the contributors are philosophers of language who are interested in applying advances in philosophy of language to legal issues, and some of the participants are philosophers of law who are interested in applying insights and theories from philosophy of language to their work on the nature of law and legal interpretation. By

making this body of recent work available in a single volume, readers will gain both a general overview of the various interactions between language and law, and also detailed analyses of particular areas in which this interaction is manifest. The contributions to this volume are grouped under three main general areas: The first area concerns a critical assessment, in light of recent advances in philosophy of language, of the foundational role of language in understanding the nature of law itself. The second main area concerns a number of ways in which an understanding of language can resolve some of the issues prevalent in legal interpretation, such as the various ways in which semantic content can differ from law's assertive content; the contribution of presuppositions and pragmatic implicatures in understanding what the law conveys; the role of vagueness in legal language, for example. The third general topic concerns the role of language in the context of particular legal doctrines and legal solutions to practical problems, such as the legal definitions of inchoate crimes, the legal definition of torture, or the contractual doctrines concerning default rules. Together, these three key issues cover a wide range of philosophical interests in law that can be elucidated by a better understanding of language and linguistic communication.

[Visions of Earth: Beauty, Majesty, Wonder, National Geographic](#) , 2011, 1426208839, 9781426208836. Visions of Earth raises a curtain on the wonders of the world and thrills us with nature's opulence and humanity's splendor. Each image alone exposes a nugget of our planet's magnificence; the totality of the collection goes beyond our imagination. Turning the pages, viewers are struck by the richness of life on Earth. One photograph is more awe-inspiring than the next--chosen by veteran National Geographic Magazine photo editors to present what is visually incredible. The photographs are drawn from the popular "Visions of Earth" feature in the magazine, (rated #1 by readers), from our own storied Image Collection, and from renowned photographers throughout the world, many never-before published. Enthralling images fill the book in a gallery of stunning landscapes, fascinating people, amazing animals, and unexpected glimpses of the usual and unusual. Puffins' beaks signal breeding time in Norway and a speckled emperor moth in South Africa diverts predators with an illusion. An elephant takes a morning dip in India's Andaman Sea while Siamese crocodiles race in Thailand and surfers in Australia relish a perfect day. Monks in Bhutan run to dinner and a little girl in red stands out among white-robed women in an Indonesian mosque. Spanish youth decked in colorful, oversize papier-mch heads celebrate a festival in Catalonia and a flower of flame blooms from a man's kerosene-filled mouth in a Sikh celebration in India. Around the globe, amazing moments are captured in time, from a spray of flash frozen petal fragments in California to a truck show of chrome-covered and gleaming neon rigs half the world away in Japan. Visions of Earth is a welcome escape from the news of natural disasters, conflict, political upheaval, and social unrest that fills our lives. The book delights our senses, ignites our emotions, and renews our optimism, showcasing the many ways that our world is a marvel to behold and a privilege to call home.

[Closing the Gap - A Conversation: Recommendations for SPA Conference 2004,](#) , 2005, 0975809202, 9780975809204.

Presents recommendations developed at the 11th National SPA Conference, which was held in Sydney, on 30-31 October 2004. The conference provided a unique forum for researchers, practitioners and the community to reach some consensus on what were considered priority actions and outcomes in suicide prevention. The resulting participant recommendations presented, address each of the six action areas of the Living is for Everyone (LIFE) framework.

[Heart Rhythms,](#) , 2004, 097431451X, 9780974314518. I write so I know what it is I have to say. This book of poems and photographs are an extension of me and how I view the universe around me. At times the verse is almost Haiku in

nature-my attempt to create a picture using the least amount of words. So I write and take pictures-then invite you to share in my journey, hoping you will find a little of yourself in my work. Then I will not be alone.

[Financial Accounting: The Impact on Decision Makers, Gary A. Porter, G. Richard Chesley, Xiaofei Song, Curtis L. Norton](#) , 2009, 0176104453, 9780176104450. Financial Accounting by Porter/Norton is known for its readability, straightforwardness, decision-making focus, and the incorporation of flagship companies to help students understand Financial Accounting. In this second Canadian edition, using CN Railways as its flagship company, Porter's 'roadmap to success,' takes students on a journey through the financial statements. Part I begins in the east with "Planning for the Trip," which is designed to orient students to the world of business and providing the basic information about the structure of business and the importance of financial accounting. The "Final Destination," in part VI, discusses the decision analysis that investors and managers require in order to assess financial reports.

[Paris and Its People Under English Rule: The Anglo-Burgundian Regime, 1420-1436, Guy L. Thompson](#) , 1991, 0198221592, 9780198221593. This book is a study of Paris during the period in the fifteenth century when it fell under English rule. Paris was the headquarters of the Lancastrian government in northern France, established by the victories of Henry V. This history thus forms a key chapter in the story of the rule of Henry VI on both sides of the Channel. Thompson examines the advantages that, for a time at least, occupation seemed to offer the indigenous population, and shows how the English were able to retain secure control. He then provides a political and administrative history, and offers a fascinating exploration of Parisian society at a unique period of the city's history.

[Bicentennial: An Australian Mosaic,](#) , 1987, 0958771421, 9780958771429.

Get a glimpse inside the mind of the man many consider the finest comic book writer in the history of the form. This deluxe edition book features an introduction by Warren Ellis.

[The New Testament: A Historical Introduction to the Early Christian Writings, Bart D. Ehrman](#) , 2011, 0199757534, 9780199757534. Featuring vibrant full color throughout, the fifth edition of Bart D. Ehrman's highly successful introduction approaches the New Testament from a consistently historical and comparative perspective, emphasizing the rich diversity of the earliest Christian literature. Distinctive to this study is its unique focus on the historical, literary, and religious milieu of the Greco-Roman world, including early Judaism. As part of its historical orientation, the book also discusses other Christian writings that were roughly contemporary with the New Testament, such as the Gospel of Thomas, the Apocalypse of Peter, and the letters of Ignatius. NEW TO THIS EDITION: \* A completely reworked chapter (2) on textual criticism, which now appears at the beginning of the book \* "Take a Stand" boxes that are designed to help

students synthesize the material in each chapter \* Expanded bibliographies featuring the most up-to-date research available \* New boxes on "Jesus and the Woman Taken in Adultery," "The Ending of Mark," and "The Laughing Jesus"

[Shirley, Charlotte Bront](#) , 2012, 0141974532, 9780141974538. With an essay by Helene Moglen. 'Alas, Experience! No other mentor has so wasted and frozen a face as yours: none wears a robe so black, none bears a rod so heavy ...' Struggling manufacturer Robert Moore has introduced labour saving machinery to his Yorkshire mill, arousing a ferment of unemployment and discontent among his workers. Robert considers marriage to the wealthy and independent Shirley Keeldar to solve his financial woes, yet his heart lies with his cousin Caroline, who, bored and desperate, lives as a dependent in her uncle's home with no prospect of a career. Shirley, meanwhile, is in love with Robert's brother, an impoverished tutor - a match opposed by her family. As industrial unrest builds to a potentially fatal pitch, can the four be reconciled? The Penguin English Library - 100 editions of the best fiction written in English, from the eighteenth century and the very first novels to the beginning of the First World War.

[G. K. Chesterton: A Biography, Ian Ker](#) , 2011, 0199601283, 9780199601288. G. K. Chesterton is remembered as a brilliant creator of nonsense and satirical verse, author of the Father Brown stories and the innovative novel, *The Man who was Thursday*, and yet today he is not counted among the major English novelists and poets. However, this major new biography argues that Chesterton should be seen as the successor of the great Victorian prose writers, Carlyle,

Arnold, Ruskin, and above all Newman. Chesterton's achievement as one of the great English literary critics has not hitherto been fully recognized, perhaps because his best literary criticism is of prose rather than poetry. Ian Ker remedies this neglect, paying particular attention to Chesterton's writings on the Victorians, especially Dickens. As a social and political thinker, Chesterton is contrasted here with contemporary intellectuals like Bernard Shaw and H. G. Wells in his championing of democracy and the masses. Pre-eminently a controversialist, as revealed in his prolific journalistic output, he became a formidable apologist for Christianity and Catholicism, as well as a powerful satirist of anti-Catholicism. This full-length life of G. K. Chesterton is the first comprehensive biography of both the man and the writer. It draws on many unpublished letters and papers to evoke Chesterton's joyful humour, his humility and affinity to the common man, and his love of the ordinary things of life.

[Breath of Life, Clarice Lispector](#) , 2013, 0141197374, 9780141197371. A Breath of Life is Clarice Lispector's last published novel, 'written in agony'. Sensual and mysterious, it is a mystical dialogue between a god-like author and the creation he breathes life into: the speaking, shifting, indefinable Angela Pralini. As he has created Angela, so, eventually, he must let her die, for life is merely 'a kind of madness that death makes.' This is a unique, elegiac meditation on the creation of life, and of art. Translated by Johnny Lorenz With a Preface by Pedro Almodvar and Benjamin Moser 'Lispector had an ability to write as though no one had ever written before.' Colm Tibn 'A text that resonates endlessly . . . her images dazzle.' The Times Literary Supplement

[Aunt Sallie's Lament, Margaret Kaufman](#) , 1988, 0811804402, 9780811804400. The first popular adaptation of an extraordinary collaboration between Van Vliet, one of the country's most renowned book designers, and Kaufman, a deeply insightful poet. This inspirational story of a Southern quilter is printed on richly colored, uniquely shaped pages that create a layered effect. Shrink-wrapped.

[Judging New Wealth: Popular Publishing and Responses to Commerce in England, 1750-1800, James Raven](#) , 1992,

0198202377, 9780198202370. In this broad-ranging study, James Raven explores popular literature and the book trade in the second half of the eighteenth century. Based on intensive research into the production and sale of literature ranging from novels and magazines to courtesy books and fashionable tracts, the book examines the representation of the newly wealthy. Dr Raven challenges the recent and controversial notion that prejudice against the businessman was a late nineteenth-century phenomenon. He shows how, during a period of often bewildering change and instability, a competitive literature industry led reaction against excessive consumer spending, contributed to the definition of legitimate economic behaviour, and carried unprecedented attacks upon the social presumption of tradesman. This is a scholarly and stimulating study which makes important contributions to debates on the supposed decline of the British industrial spirit and on the growing self-confidence of the middle class. *Judging New Wealth* adds very greatly to our understanding of the cultural and business history of late eighteenth-century England.

[Business Knowledge for IT in Trading and Exchanges, Corporation Essvale Corporation Limited](#) , 2008, 095541248X, 9780955412486. "Business Knowledge for IT in Trading and Exchanges" deals with the alignment of IT and business in Trading and the Exchanges (market in which securities, commodities, options or futures are traded) where trading takes place. The idea behind this publication is to introduce IT professionals to the concepts of the trading in the financial markets. The chapters in the book cover the following topics: Overview of Trading; Products traded at the Exchanges; Overview of Major Exchanges and Trading firms such as brokerages; Trends in Trading; Types of Traders; Systems used for trading and in the exchanges; Theoretical Concepts underpinning Liquidity and Volatility; And much more. The innovations in Trading and IT to be discussed include: Direct Market Access (DMA); Straight through Processing; Algorithmic Trading and more. "Business knowledge for IT in Trading and Exchanges" is an invaluable reference handbook for IT professionals. It is also useful for both undergraduate and graduate students in Information Technology - related degree programmes. This is another publication in the "Bizle Professional Series." It is uniquely designed to be easy-on-the-eye and flexible. The design ensures that it is portable and can easily fit into bags and even pockets. The book is concise ensuring that readers don't get distracted by superfluous information.

[The Basics of Crystallography and Diffraction, Christopher Hammond](#) , 1997, 0198559453, 9780198559450.

Crystallography and diffraction are widely used throughout many branches of science for studying structure. However, many students find these subjects abstruse and difficult. The aim of this book is to show, through relevant examples and without relying on complex mathematics, that the basic ideas behind crystallography and diffraction are simple and easily comprehensible. It is written by an experienced teacher with the needs of the student to the fore.

[Koevoet!: Experiencing South Africa's Deadly Bush War, Jim Hooper](#) , 2013, 0957058705, 9780957058705. Koevoet! has been an global bestseller since its release over 20 years ago. This new edition goes far beyond the original in capturing the courage, fear and intensity of South Africa's deadly bush war. Never before had an outsider been given unrestricted

access to Koevoet, the elite South West African Police counterinsurgency unit - also known as Operation K and officially as the South West Africa Police Counter Insurgency Unit (SWAPOL-COIN). Author Jim Hooper spent a total of five months embedded with the semi-secret and predominantly black 'Ops K', which climaxed with one of the most vicious and determined infiltrations ever mounted by the communist-backed South West Africa People's Organization (SWAPO). Crossing regularly into Angola in pursuit of the insurgents, he saw friends die next to him and was twice wounded himself. This updated edition, drawing on the recollections and diaries of the men he rode with, will fascinate yet another generation of readers. In assembling this work, Jim Hooper had the opportunity to re-connect with so many of the men who allowed this outsider to ride with them. All of which brought a new intensity and poignancy. It also reminded Jim Hooper how privileged he was to have been witness to Koevoet's war. This stunning work is a tribute to Koevoet and the legend they created."Hooper is a careful reporter, but also a born writer; his vivid word-pictures drag you in and hold you. He skillfully conveys his initially unwelcoming reception by an operational unit; the long, frustrating grind of search operations in punishing terrain and climate; the extraordinary bush skills of the Ovambo policemen; the shock of sudden contact, and its aftermath." Martin Windrow "Jim Hooper's account of South Africa's successful "Ops K" in Namibia against South West Africa's People's Organization guerrillas should be required reading. The classic narrative is as timely today as it was twenty years ago." Charles D. Melson, Chief Historian, U.S. Marine Corps University."This expanded edition is a skillfully woven mosaic of personal accounts from those involved and what he experienced during combat with Koevoet. The use of new material from those he rode with lays bare the realities of war, the fears and emotions that ebb and flow in the heat of combat, and the courage one finds to bring the battle to the enemy" Piet Nortje, Author of 32 Battalion"Koevoet describes in great detail the men, both black and white, and their mine-protected cross-country vehicles which were years ahead of anything in use by other western forces, the dedicated helicopter support units and the tactics used to bring an elusive guerrilla force to battle." Paul French, Author of Shadows of a Forgotten Past: To the Edge with the Rhodesian SAS and Selous Scouts.REVIEWS ...a valuable first-hand account of South African counter-insurgency operations in what was then South-West Africa and should be read by anyone interested in the southern African conflicts of the late twentieth century. Journal of the Society for Army Historical Research

[Forgetting the Art World, Pamela M. Lee](#) , 2012, 0262017733, 9780262017732. It may be time to forget the art world--or at least to recognize that a certain historical notion of the art world is in eclipse. Today, the art world spins on its axis so quickly that its maps can no longer be read; its borders blur. In *Forgetting the Art World*, Pamela Lee connects the current state of this world to globalization and its attendant controversies. Contemporary art has responded to globalization with images of movement and migration, borders and multitudes, but Lee looks beyond iconography to view globalization as a world process. Rather than think about the "global art world" as a socioeconomic phenomenon, in terms of the imagery it stages and sponsors, Lee considers "the work of art's world" as a medium through which globalization takes place. She argues that the work of art is itself both object and agent of globalization. Lee explores the ways that art actualizes, iterates, or enables the processes of globalization, offering close readings of works by artists who have come to prominence in the last two decades. She examines the "just in time" managerial ethos of Takahashi Murakami; the production of ethereal spaces in Andreas Gursky's images of contemporary markets and manufacture; the logic of immanent cause dramatized in Thomas Hirschhorn's mixed-media displays; and the "pseudo-collectivism" in the contemporary practice of the Atlas Group, the Raqs Media Collective, and others. To speak of "the work of art's world," Lee says, is to point to both the work of art's mattering and its materialization, to understand the activity performed by the object as utterly continuous with the world it at once inhabits and creates.

Also includes a few British references. Index.

[Can the Mind Heal Cancer?: A Clinician-scientist Examines the Evidence, Alastair J. Cunningham](#) , 2005, 0973785403, 9780973785401. Cancer affects us all: approximately 1 in 3 Americans will be diagnosed with this disease at some stage in their lives. Since medical treatment is often insufficient for cure, there is growing public interest in how people can help themselves cope better and perhaps oppose the disease, using rational mental and spiritual approaches, such as deep relaxation, mental imaging, meditation, thought changing, goal setting and others. Previous books by the author have described such methods. Whether or not psychological change can affect the actual course of the disease is still controversial. Can the Mind Heal Cancer? makes a balanced appraisal of the evidence on this question. While medical specialists tend to be skeptical, people affected by the disease often desperately want to know whether it is true, and

what to do. This book explains in simple language why mind and spirit exert such a powerful influence on health generally, then presents evidence from recent research by the author and other scientists showing not only that longer life is possible for some cancer patients, but what kinds of change may promote this.

[Intensive Animal Welfare: Proceedings of a Symposium Held at the Bardon Professional Development Centre, Brisbane on March 13th and 14th, 1987, Peter Henry](#) , 1987, 0959614451, 9780959614459.

[Tales from Margaritaville: Fictional Facts and Factual Fictions, Jimmy Buffett](#) , 2002, 0156026988, 9780156026987.

Although you won't find it on any map, the tropical island has its origins somewhere and everywhere. Sung into existence by Jimmy Buffett and popularized on the radio, Margaritaville is both mythical and real--a place where human curiosity, passion, and humor delicately intertwine. Tales from Margaritaville brings an extraordinary gifted southern writer to the world of fiction. The imaginary island of Snake Bite Key, the wonderfully colorful inhabitants of Heat Wave, Alabama, the Wyoming cowboy who takes his horse on a journey across the US to the sea, and the other gypsy souls and restless dreamers who set off to find their own elusive islands are all part of the magic of Margaritaville. Six of the short stories in this book have been recorded in Jimmy Buffett's 1989 MCA album, "Off to See the Lizard," and these songs and stories, bearing identical titles, were written simultaneously and are intimately connected. Many of the details in this book are drawn from personal experience: A young Jimmy Buffett meets up with his fictional pop hero, Freddy Fishstick, and their talk as they drive down the Florida Peninsula is an inside look at the absurdities of concerts, touring, recording, and life on the road. A third generation sailor, Jimmy Buffett has traveled throughout the world, and his four autobiographical stories, "Son of a Son of a Sailor," carry reader along on adventures through the Yucatan, St. Barts, Martha's Vineyard, Key West, and Cuba. His trip to meet Gregorio Fuentes, the model for the old man in Hemingway's *The Old Man and the Sea*, is especially dramatic and touching. Jimmy Buffett has the rare ability to create powerful, memorable stories of hilarity, wit, and substance.

[Devil's Advocate, John Humphrys](#) , 2000, .

[Knowledge, Science and Relativism, , P. K. Feyerabend](#) , 1999, 0521641292, 9780521641296. This third volume of Paul Feyerabend's philosophical papers, which gathers together work originally published between 1960 and 1980, offers a range of his characteristically exciting treatments of classic questions in the philosophy of science, including theoretical pluralism, the relationship between theory and observation, the distinction between science and myth, the role of science in society, and the vexed question of the nature of scientific method. The volume is completed by a substantial introduction and a comprehensive list of Feyerabend's works.

[Last Shots for Patton's Third Army, Robert Paul Fuller](#) , 2003, 097405190X, 9780974051901. By early May 1945, German forces were close to surrender. Many of the troops were being squeezed into Austria and Czechoslovakia by American

and Russian armies. A heavy reliance has been made upon archival materials, supplemented by oversized maps, veterans' experiences, signal corps photographs, regular-sized maps, and published sources to provide depth-reaching details on the last eight days in General Patton's Third Army Sector. The last eight days will cover enemy resistance, surrenders and interrogation reports of various German generals. The book will show dates, circumstances and in many instances the names of the men of the Third Army who fired the final shots at the enemy. American and Russian troops met and had mixed relations. 41 photographs total and 4 of which are in color. 41 maps & photographs. Extensive bibliography and indexed.

[A Byzantine Encyclopaedia of Horse Medicine: The Sources, Compilation, and Transmission of the Hippitrica: The Sources, Compilation, and Transmission of the Hippitrica, Anne McCabe](#) , 2007, 0199277559, 9780199277551. How were Greek texts on the care and medical treatment of the horse transmitted from antiquity to the present day? Using the evidence of Byzantine manuscripts of the veterinary compilation known as the Hippitrica, Anne McCabe traces the journey of the texts from the stables to the medieval scriptorium and ultimately to the printed edition. Surviving manuscripts include both magnificent presentation copies and plain ones intended for use in the field. The Hippitrica is a rich and little-known source of information about horses, medicine, and magic. This book provides a guide to its complex history as well as a host of fascinating details, and includes colour illustrations of a number of manuscript pages.

[For a Child with Spirit: Preparing Children for a Challenging World, Colleen Reynolds](#) , 2005, 0595350895, 9780595350896. "In our hearts we know this life of hurry-scurry does not serve us well. Nor does it serve our children who are developmentally unprepared for life in overdrive. Our children have simple needs: To be loved, to be listened to, and to be directed and protected. We are their models, however imperfect. This is a powerful and awesome responsibility!" Author Colleen Reynolds combines her years of teaching and school counseling experience to examine the often-chaotic life of the average American family. In today's fast-paced society with its ever-increasing demands on our time and energy, parents are rushing from one place to another, striving to earn a living, create a home, and have a life. But our hectic lifestyle is taking a profound toll on our children. For a Child with Spirit offers a no-nonsense approach to help parents take control. Reynolds suggests several ways parents can manage their time and emotions as role models to their children. With these insights, family time can improve, as well as the lives of children-at home, at school, and in the community.

[Fat, Broke & Lonely No More, Victoria Moran](#) , 2009, 0061865281, 9780061865282. Do you ever obsess about whether to order dessert, buy those pricey sandals, or be totally honest on a third date? If so, then you are already acquainted

with the fear of being fat, broke & lonely. If only we could eat less, get paid better, and be more outgoing. Only it's not that simple. Our endless quest to be fit, flush, and partnered (no matter where we fall on the scale) inevitably makes us feel fat, broke & lonely. The symptoms are anxiety, shame, and fear, and the diagnosis is feeling miserable about ourselves. We have two choices: give up, convinced that this is just a lifelong, losing battle, or go toe-to-toe with our negative self-image and take back our lives. Real-life anecdotes, practical strategies, and a touch of sass make this revolutionary five-step plan a must-read. First, Moran helps us discover the root of the symptoms. Then we learn how to break up with fat, broke & lonely for good. And finally, we learn how to hook up with the life of our dreams and who doesn't want that?

[Head First Programming: A Learner's Guide to Programming Using the Python Language, Paul Barry, David Griffiths](#) , 2009, 0596802374, 9780596802370. Looking for a reliable way to learn how to program on your own, without being overwhelmed by confusing concepts? Head First Programming introduces the core concepts of writing computer programs -- variables, decisions, loops, functions, and objects -- which apply regardless of the programming language. This book offers concrete examples and exercises in the dynamic and versatile Python language to demonstrate and reinforce these concepts. Learn the basic tools to start writing the programs that interest you, and get a better understanding of what software can (and cannot) do. When you're finished, you'll have the necessary foundation to learn any programming language or tackle any software project you choose. With a focus on programming concepts, this book teaches you how to: Understand the core features of all programming languages, including: variables, statements, decisions, loops, expressions, and operators Reuse code with functions Use library code to save time and effort Select the best data structure to manage complex data Write programs that talk to the Web Share your data with other programs Write programs that test themselves and help you avoid embarrassing coding errors We think your time is too valuable to waste struggling with new concepts. Using the latest research in cognitive science and learning theory to craft a multi-sensory learning experience, Head First Programming uses a visually rich format designed for the way your brain works, not a text-heavy approach that puts you to sleep.

[Crochet It. Love It. Wear It!: The Ultimate Collection for Every Occasion, Drew Emborsky](#) , 2010, 1601409427, 9781601409423. Just for the ladies, Drew Emborsky (aka "The Crochet Dude") has created 13 cutting-edge fashions in luxurious crochet. Fashion-conscious women are always searching for the perfect "Little Black Dress," and Drew has one, plus an incredible selection of other must-have wardrobe pieces. Designs include a party dress, cabled and ruffled cardigans, flirty skirts, a vest, trendy tops (including a baby doll style), an asymmetrical long coat, an opera jacket, and a keyhole scarf. The designs are crocheted using a variety of beautiful yarns; most are made with sumptuous, organic/natural yarns in worsted or sport weight and are highly textured with enticing post stitches.

[The Five Red Herrings, Dorothy L. Sayers](#) , 2012, 1453258906, 9781453258903. During a painting retreat, a killer takes a creative approach to the ancient art of murder. The majestic landscape of the Scottish coast has attracted artists and fishermen for centuries. In the idyllic village of Kirkcudbright, every resident and visitor has two things in common: They either fish or paint (or do both), and they all hate Sandy Campbell. Though a fair painter, he is a rotten human being, and cannot enter a pub without raising the blood pressure of everybody there. No one weeps when he dies. Campbell's body is found at the bottom of a steep hill, and his easel stands at the top, suggesting that he took a tumble while painting. But something about the death doesn't sit right with gentleman sleuth Lord Peter Wimsey. No one in Kirkcudbright liked Campbell, and six hated him enough to become suspects. Five are innocent, and the other is the perpetrator of one of the most ingenious murders Lord Peter has ever encountered. This ebook features an illustrated biography of Dorothy L. Sayers including rare images from the Marion E. Wade Center at Wheaton College.

[The Psychology of Nationalism, Joshua Searle-White](#) , 2001, 0312233698, 9780312233693. While there are many political, economic, and historical factors that contribute to the development and expression of nationalism, the tenacity and viciousness of nationalist conflicts, and the dedication that they inspire in people, suggest that nationalism has a psychological dimension which is not yet well understood. Why do people cling to nationalism when it can ultimately be destructive to them, to their families, and to their nations? Why are nationalist conflicts so resistant to attempts at intervention? In *The Psychology of Nationalism*, the conflict over Nagorno-Karabakh, the war in Sri Lanka, and interactions between students in an American college classroom form the backdrop for an analysis of why we as human beings are so drawn to nationalism. The book argues that identity issues shore up our sometimes-fragile sense of self and underlie the attraction that nationalism exerts on us. It then offers suggestions for negotiations and other interventions to end nationalist conflicts.

[The Kirkyard of Crimond with Rattray, Sheila M. Spiers](#) , 1994, 0947659587, 9780947659585.

[EllRay Jakes Is Not a Chicken, Sally Warner](#) , 2011, 110156458X, 9781101564585. EllRay Jakes is tired of being bullied by fellow classmate Jared Matthews. But when EllRay tries to defend himself, he winds up in trouble. Then his dad offers him a deal: If he stays out of trouble for one week, they'll go to Disneyland! EllRay says he can do it. But saying it and doing it are two very different things.

[Moses Stephens \(c1733-1805\): Georgia Patriot of the American Revolution : Some of His Descendants Through Five Generations, Betty Robertson Kaufman](#) , 2010, 0962660256, 9780962660252.

[Congressional Record, V. 149, Pt. 5, March 11, 2003 to March 20 2003, U S Congress](#) , 2006, 0160768179,

mean the difference between the success and failure of a product that needs public acceptance. Simms and Bob Thomas offer their years of product knowledge and experience in dealing with the public in this informative handbook, which translates into a simple point by point guide that will enable you or your staff to explain and promote your product to an otherwise uninformed public, and transform them into customers.

[Uplifting Service: The Proven Path to Delighting Your Customers, Colleagues, and Everyone Else You Meet, Ron Kaufman](#) , 2012, 0984762558, 9780984762552. Uplifting Service: The Proven Path to Delighting Your Customers, Colleagues, and Everyone Else You Meet We are deep in a service crisis. In the operating room, surgeons and their teams communicate in a very precise language; airplane pilots follow a strict protocol to take off and land safely every time; and, when launching a new product, companies lay out a plan that all employees follow. But when it comes to building a strong service culture, the path to success is usually much less clear. We relegate service to a single department guided by anecdotal wisdom and less-than-helpful clichés like "the customer is always right." With global economies transforming at record speed, we are largely unprepared for the service demands we face day and night from around the world. We promise our customers satisfaction and then allow internal politics and inefficient methods to frustrate our ability to deliver. With service so much a part of our daily lives, both in and outside the workplace, why aren't we doing it better? New York Times bestselling author Ron Kaufman knows the answer to this question, and not only believes we can do it better, but shows us how. In Uplifting Service he takes you on a journey into a new world of service that is guided by fundamental principles and actionable models. After more than two decades helping leaders transform their service cultures, Kaufman has discovered that while each successful team is different, the architecture they apply to build an uplifting service culture is the same. In this New York Times, USA Today, and Amazon.com bestselling book, Kaufman lays out the steps you can take to build a sustainable culture that delivers outstanding service every day. He offers the tools and practices that have been proven effective in businesses, governments, communities, and homes; on every continent; and in many languages. Through perspective-changing insights and case studies, you will learn how the world's best performing companies have changed the game through service--and how you too can follow this proven path to an uplifting transformation.

[The Triangle Strategy: How to Create a Culture of Engagement and Execution, Michael R. Tull](#) , 2013, 1477562834, 9781477562833. The aim of the Triangle Strategy is to unravel the complexities of the performance process. The

Triangle is a practical, easily applied model that provides managers and the people who work for them with a clear understanding of what it takes to create a high-performance workplace. It picks up where strategy development leaves off-when organizations rely on the effectiveness of individuals and groups to implement its plans. Though many companies develop smart, strategic plans, they often do not pay equal attention to the discipline and focus required for day-to-day execution. As organizations respond to changes in economic and competitive conditions, it's more important than ever to understand the fundamentals required to create and maintain an engaged, execution-focused workforce."I see the Triangle format and its user-friendly design to be a benefit when employing it in everyday scenarios. It helps to filter out the noise that makes it difficult to understand and resolve performance issues." -Stephanie Bauer, Executive Director, ETS Test Taker Services. "It took me many years of trial and unfortunately error to get to where I am today. I wish that I had the Triangle 30 years ago." -Richard Christmas, Director of Operations, Spiral Binding Company, Inc. [Substance Use Disorders: Assessment and Treatment, Charles E. Dodgen, W. Michael Shea](#) , 2000, 0122191609, 9780122191602. Substance Use Disorders: Assessment and Treatment is a summary of everything a therapist should know about substance abuse in one easy-to-read comprehensive book. The book begins with a discussion of the pharmacology of specific drug classes (opioids, hallucinogens, etc.) and the epidemiology of abuse. It then presents psychological theories of substance abuse, the initiation and progression of substance abuse disorders, issues of prevention and early intervention, and screening and assessment for substance abuse (including specific tests for assessment) and discusses in detail the various treatment methodologies available. Two final chapters explore issues relevant to special populations and legal and ethical considerations, regarding issues such as confidentiality and coerced treatment. Key Features\* A synthesis of the current research and clinical literature\* Includes strengths and weaknesses of commonly used psychometric assessment measures\* Presentation and review of a complete Psychosocial/Substance Use Assessment form\* Discussion of treatment settings and criteria for placement decisions\* Discussion of treatment alternatives and effectiveness of major pharmacological and psychotherapeutic approaches\* Discussion of factors leading to Relapse, and components of Relapse Prevention programs

[Life After Loss: A Personal Guide Dealing with Death, Divorce, Job Change and Relocation, Bob Deits](#) , 2000, 1555611893, 9781555611897. A new presentation of the classic guide to emotional recovery after major loss--whether that loss is caused by death, divorce, retirement, job loss, major surgery or the onset of chronic health problems. Author Bob Deits draws upon more than 25 years of pastoral-counseling experience, and numerous first-hand stories, to help readers survive the overwhelming feelings that accompany great loss and learn practical ways to work through their grief and renew their lives. Written simply in a warm and sensitive tone, this is a book people have recommended to one

another in difficult times since it was first published in 1988. Book jacket.

Blueacclaimed author of Harlem Girl Lost and A Street Girl Named Desireis back with a heartbreaking urban love story of two star-crossed lovers up against the dirtiest dealer Harlem has ever seen. Knocked up by a Southern preacher, Keyshia is sent to live with her aunt in New York, but after a horrific act of violence, the timid young woman becomes ice-coldturning tricks and finding comfort in a crack vial. Clyde and his two brothers find themselves living with a family friend after their mother is shot by their own fatherleaving her institutionalized and unable to communicate, and him behind bars. Clydes older brother leads a decent life, working as a bank manager and trying to keep Clyde off the streets, but Clydes younger bro is the coldest killer in Harlem and takes every opportunity to involve Clyde in his infamous robberies-turned-blood baths. When Keyshia and Clyde meet, they are instantly drawn to each other. Forced to pay back a large sum of cash to one nasty Harlem kingpin or risk the lethal consequences, Keyshia and Clyde use their tight game and their loyalty to pull off the

impossible. And when Clyde is falsely accused of a bank hit, Keyshia vows to stick by her manno matter the cost. Praise for Treasure E. Blues A Street Girl Named Desire: Treasure Blue continues and solidifies his position as the true heir to Iceberg Slim and Donald Goines. [You Can Bet Your Life on God, Darby Checketts](#) , 2011, 0983847002, 9780983847007. OUR BUSY WORLD: There is a barrage of television commercials and internet inducements. We are all exposed to a wide diversity of popular ideologies, political agendas, economic pressures, and cultural viewpoints. In the end, we must each decide what to believe. We must choose the actions that will shape our destinies. As we act, we expect outcomes that will lead to happiness and success. THE GRAND DECISION: The biggest decision we make is whether to go with the flow of the society around us or to look to some higher purpose to guide us. We have the opportunity to include God in the conversation and to trust in His plan. As we believe in God, we must also determine that we actually believe God. A DIVINE DESIGN: As we discover the truths of our existence, we recognize the reality of a divine design that influences our lives. Faith enters in and our sense of purpose grows stronger.

[Pure Joy: The Dogs We Love, Danielle Steel](#) , 2013, 0345543750, 9780345543752. NEW YORK TIMES BESTSELLER In this moving memoir, Danielle Steel tells the story of how she met a dog the size of a mouse with a personality that could light up an entire room. From Minnie's arrival at home in San Francisco to clothes-shopping jaunts in Paris, her adventures provide the perfect backdrop for a heartfelt look at the magic that dogs bring to our lives, and how they become part of the family, making indelible memories. We meet Steel's childhood pug, James; and Elmer, the basset hound who was steadfastly at her side in her struggling days as a young writer; Sweet Pea--unveiled in a Tiffany box for a dog-loving husband--and all those lucky dogs who shared a household of nine children, other canines, and one potbellied pig. As she reflects on the beloved pets who have brought joy, and sometimes chaos, to her home through the years, Steel also shares her thoughts on the trials and tribulations of bringing a new dog into a household, the challenges of housebreaking and compatibility, the losses we feel forever. Filled with colorful characters (human and otherwise), delightful photographs, practical wisdom drawn from long experience, and brimming with warmth and insight on every page, Pure Joy is a love letter to this special relationship--and one of the most charming books yet from the incomparable Danielle Steel. Praise for Pure Joy "The mega-selling [Danielle Steel] shares happy memories of her numerous dogs. . . . Steel brings readers into her life, recounting delightful moments with her many dogs, the dogs her children have owned, and her newest friend, Minnie, her tiny Chihuahua. . . . Plainly told with honesty and affection, these stories are an affirmation of the timeless connection between humans and their canine companions."--Kirkus Reviews "Steel doesn't just love to write blockbusters; she loves dogs. Here's her valentine to all the dogs she's raised (looking to be mostly of the small sort), with lots of black-and-white photos throughout. A heady commercial combo."--Library Journal From the

Hardcover edition.

[Philosophy As Fiction : Self, Deception, and Knowledge in Proust: Self, Deception, and Knowledge in Proust, Joshua Landy Associate Professor in the Department of French and Italian Stanford University](#) , 2004, 0198037880, 9780198037880. Philosophy as Fiction seeks to account for the peculiar power of philosophical literature by taking as its case study the paradigmatic generic hybrid of the twentieth century, Marcel Proust's *In Search of Lost Time*. At once philosophical--in that it presents claims, and even deploys arguments concerning such traditionally philosophical issues as knowledge, self-deception, selfhood, love, friendship, and art--and literary, in that its situations are imaginary and its stylization inescapably prominent, Proust's novel presents us with a conundrum. How should it be read? Can the two discursive structures co-exist, or must philosophy inevitably undermine literature (by sapping the narrative of its vitality) and literature undermine philosophy (by placing its claims in the mouth of an often unreliable narrator)? In the case of Proust at least, the result is greater than the sum of its parts. Not only can a coherent, distinctive philosophical system be extracted from the *Recherche*, once the narrator's periodic waywardness is taken into account; not only does a powerfully original style pervade its every nook, overtly reinforcing some theories and covertly exemplifying others; but aspects of the philosophy also serve literary ends, contributing more to character than to conceptual framework. What is more, aspects of the aesthetics serve philosophical ends, enabling a reader to engage in an active manner with an alternative art of living. Unlike the "essay" Proust might have written, his novel grants us the opportunity to use it as a practice ground for cooperation among our faculties, for the careful sifting of memories, for the complex procedures involved in self-fashioning, and for the related art of self-deception. It is only because the narrator's insights do not always add up--a weakness, so long as one treats the novel as a straightforward treatise--that it can produce its training effect, a feature that turns out to be its ultimate strength.

[How Obama Embraces Islam's Sharia Agenda, Andrew McCarthy](#) , 2010, 1459608569, 9781459608566. While Americans focus on terrorism, a more insidious Islamist threat lurks. It is the agenda of sharia, Islams authoritarian legal and political system. The global Islamist movement aims, in the words of the Muslim Brotherhood, to destroy the West by sabotaging it from within. Its principal strategy is not mass murder but the exploitation of Western freedoms and the insinuation of sharia principles into Western legal systems. Because those principles are hostile to our core liberties, sharias advance gradually undermines our culture. In this Broadside, Andrew C. McCarthy shows how the sharia agenda has found a friend in the Obama administration. President Obama is actively abetting the Islamist platform: promoting sharia in his foreign policy, easing enforcement of laws that stop Islamic "charities" from diverting funds to jihadist terror, and even sponsoring a United Nations resolution that under the guise of insulating Islam from criticism would stifle First Amendment rights.

[The Smell of Good Mud, Lauren Zuniga](#) , 2012, 1935904973, 9781935904977. Nationally acclaimed for her poem, To The Oklahoma Lawmakers, which MoveOn.org called "The most riveting message about the war on women in under three minutes, Zuniga's newest collection of poetry, The Smell of Good Mud, explores the wild terrain of queer, feminist, collective living in the conservative state of Oklahoma. Set in a house named Clementine, these poems offer a communal meal, a radiant love affair and the inner carnival of a single mother.

[Wolves of the North, , Harry Sidebottom](#) , 2013, 1590207831, 9781590207833. In the fifth novel in Harry Sidebottom's acclaimed and bestselling Warrior of Rome historical fiction series, Ballista returns to undertake yet another epic mission -- while the Roman Empire reels in chaos around him. In AD 263, the Roman Empire is close to turmoil, violent uprising threatening to shatter the fragile balance of power. In the north, the tribes are increasingly bold in their raids on the Imperium. Ballista must undertake his most treacherous journey yet. He must face the Heruli -- the Eaters of Flesh, the Wolves of the North -- the most brutal tribe of them all, and try to turn them against one another. As Ballista and his retinue make their journey, someone -- or something -- is hunting them, picking them off one by one, and leaving a trail of mutilated corpses and terror. Ballista is in a strange land, among strange people, but is it possible that the greatest threat may come from within his own circle? Renowned for their skilled blending of action and historical accuracy, Sidebottom's Warrior of Rome novels take the reader from the shouts of the battlefield to the whisperings of the emperor's inner circle. Rich in detail and punctuated by harrowing action, there's no better way to transport yourself back to the days of the Roman Empire.

[Learned Helplessness: A Theory for the Age of Personal Control, Christopher Peterson, Martin E. P. Seligman](#) , 1993, 0195044673, 9780195044676. When experience with uncontrollable events gives rise to the expectation that events in the future will also elude control, disruptions in motivation, emotion, and learning may ensue. "Learned helplessness" refers to the problems that arise in the wake of uncontrollability. First described in the 1960s among laboratory animals, learned helplessness has since been applied to a variety of human problems entailing inappropriate passivity and demoralization. While learned helplessness is best known as an explanation of depression, studies with both people and animals have mapped out the cognitive and biological aspects. The present volume, written by some of the most widely recognized leaders in the field, summarizes and integrates the theory, research, and application of learned helplessness. Each line of work is evaluated critically in terms of what is and is not known, and future directions are sketched. More generally, psychiatrists and psychologists in various specialties will be interested in the book's argument that a theory emphasizing personal control is of particular interest in the here and now, as individuality and control are such salient cultural topics.
