Along the way, Bartlett also highlights Paul's thoughts on God's gift of Jesus Christ, the world of the first Christians, and the nature of faith. Fascinating and clearly written, this rewarding and uplifting book will encourage and enlighten the modern reader faced with contemporary issues, including pluralism and the meaning of faith. Books in the Westminster Bible Companion series assist laity in their study of the Bible as a guide to Christian faith and practice. Each volume explains the biblical book in its original historical context and explores its significance for faithful living today. [Love Is a Canoe: A Novel, Ben Schrank](#) , 2013, 0374192499, 9780374192495. Peter Herman is something of a folk hero. Marriage Is a Canoe, his legendary, decades-old book on love and relationships, has won the hearts of hopeful romantics and desperate cynics alike. He and his beloved wife lived a relatively peaceful life in upstate New York. But now its 2010, and Peters wife has just died. Completely lost, he passes the time with a woman he admires but doesnt love and he begins to look back through the pages of his book and question homilies such as: A good marriage is a canoe it needs care and isnt meant to hold too much no more than two adults and a few kids. Its advice he has famously doled out for decades. But what is it worth? Then Peter receives a call from Stella Petrovic, an ambitious young editor who wants to celebrate the fiftieth anniversary of Marriage Is a Canoe with a contest for struggling couples. The prize? An afternoon with Peter and a chance to save their relationship. The contest ensnares its creator in the largely opaque politics of her publishing house while it introduces the reader to couples in various states of distress, including a shy thirtysomething Brooklynite and her charismatic and entrepreneurial husband, who may just be a bit too charismatic for the good of their marriage. Theres the middle-aged publisher whose imposing manner has managed to impose loneliness on her for longer than she cares to admit. And then there is Peter, who must discover what he meant when he wrote Marriage Is a Canoe if he is going to help the contests winners and find a way to love again. In Love Is a Canoe, Ben Schrank delivers a smart, funny, romantic, and hugely satisfying novel about the fragility of marriage and the difficulty of repairing the

damage when well-intentioned people forget how to be good to each other.

[The Deadliest Men: The World's Deadliest Combatants Throughout the Ages, Paul Kirchner](#) , 2001, 1581602715, 9781581602715. WARFARE & DEFENCE. Who were the greatest individual warriors of all time? This book profiles 50, including Alexander the Great, Jim Bowie, Geronimo, Bat Masterson, Audie Murphy, and Alvin York, as well as such lesser-known figures as Jelly Bryce, the FBI's top gun during the gangster era; Egil Skallagrimsson, the poetry-spouting Viking warrior; Jean-Louis, the Haitian emigrant who became the greatest swordsman in Napoleonic France; Jose 'Pepe' Llulla, the New Orleans duellist who owned a private cemetery said to be filled with his victims; La Maupin, the licentious swordswoman who cut a swath through 17th century Paris; and Lance Thomas, the Los Angeles jeweller who successfully defended himself in five armed robberies. These incredible warriors faced overwhelming odds, survived terrible wounds, pulled off hairbreadth escapes and piled their enemies in heaps. Their stories read like fiction but are all the more compelling because they are true.

[Man's Rage for Chaos: Biology, Behavior, and the Arts, Morse Peckham](#) , 2004, 0944624367, 9780944624364. This is a new edition of the much neglected 1967 breakthrough analysis of behavior and the arts. Cultural criticism has been too obsessed with the rage for order to be able to grasp the import of Peckham's search for "some human activity, which serves to break up orientations, to weaken and frustrate the tyrannous drive to order, to prepare the individual to observe what the orientation tells him is irrelevant, but what may very well be relevant." This book is destined to force a sharp turn in critical cultural studies because it addresses the rage for chaos in traditional "high culture, " not just in popular culture.

[Man Ray's Montparnasse, Herbert R. Lottman, Man Ray](#) , 2001, 0810943336, 9780810943339. For the first thirty years of the twentieth century, the streets surrounding the intersection of the boulevard du Montparnasse and the boulevard Raspail marked the center of avant-garde Europe. Man Ray's Montparnasse introduces the reader to this small section of Paris on the Left Bank during a time of artistic ferment and experimentation, of private affairs that became public ones, and of political and social change. Man Ray, the renowned photographer, was there to document it all. His world was filled with artists, writers, and poets, and his camera was his key, allowing him access to cafes, salons, artists' studios, and writers' homes. Within a year of his arrival, he was invited to be Gertrude Stein's official portraitist and to record the image of Marcel Proust on his deathbed. He photographed Pablo Picasso and Peggy Guggenheim, made films alongside

the Dadaists, and played chess with Marcel Duchamp. Illustrated with Man Ray's own photographs, this book chronicles a legendary time and place. Author Herbert Lottman leads the reader through the winding streets of Montparnasse, past the usual tourist attractions and into a vanished world. Quick-paced and intensely readable, his text traces the threads connecting the diverse artistic movements and complicated, often turbulent, personal relationships that bound these groups together and, at times, tore them apart. By interweaving the lives and works of the artists with Man Ray's stunning photographs, Lottman has created a vivid history of life at the center of one of the twentieth century's seminal artistic moments.

[My Story, Bernard Dunne](#) , 2010, 0141399937, 9780141399935. Bernard Dunne boxed for the first time at the age of 6. Twenty-three years later, in an electrifying performance at the O2 arena in Dublin, he stopped the brilliant Ricardo Cordoba to take the WBA World Super Bantamweight belt. The path from the gym in west Dublin to the world title was often a rocky one. Here, for the first time, Bernard Dunne tells his own amazing story. It begins in Neilstown, where boxing ran in the family. In his amateur career, Bernard never lost to an Irish fighter; but he narrowly missed out on the 2000 Olympics, and rather than spend another four years as an amateur in search of Olympic glory he decided to go pro. Going pro meant going to California, and, under the tutelage of Sugar Ray Leonard and Freddie Roach, California became a land of dreams for Bernard. Twelve of his fourteen professional fights in America were televised nationally, and he was working towards a title fight. But he missed home, missed his family. He wanted it all: he wanted to win a world title, and he wanted to do it in Ireland. The way he went about doing that has made Bernard Dunne an Irish national treasure. After winning a European belt, he was defeated by Kiko Martinez; but he bounced back with courage and brilliance to win the WBA super bantamweight belt from Cordoba in front of a delirious crowd at the O2 arena. Rather than rest on his laurels, as many champions in his position would do, Bernard accepted the toughest challenge of all: from a slab of granite named Poonsawat. He lost the belt, but his courage and dignity in defeat were heroic. Now, Bernard tells the full story of his life and boxing career - a story full of surprises. It will thrill all his old fans and win him new ones.

[King of the Court: Bill Russell and the Basketball Revolution, Aram Goudsouzian](#) , 2010, 0520258878, 9780520258877.

"King of the Court provides a highly nuanced and sophisticated analysis of the great African American basketball player from his earliest days up to the present time. With great skill and much insight, Goudsouzian makes clear that Russell was a very complicated man who was full of contradictions in his own private life and in relationship to his business associates, teammates, opponents, the media, and the larger sporting public."--David K. Wiggins, George Mason University

"Not only is King of the Court one of the most impressive and important sports biographies to come along in many a season, easily in the same class as David Maraniss's *When Pride Still Mattered* (on Vince Lombardi) and Wil Haygood's *Sweet Thunder* (on Sugar Ray Robinson), it is also one of the truly incisive books on the intersection of race, civil rights, and popular culture that have appeared in some time. Having grown up in Philadelphia, I was always a Wilt Chamberlain man and always will be, but King of the Court convinced me that Bill Russell defined his age in ways that Chamberlain never did. Russell was a man for all seasons. This is a biography befitting Russell's stature."--Gerald Early, author of *One Nation Under a Groove: Motown and American Culture*

"Before there were crossover dribbles or slam dunk competitions, before they even kept statistics for blocked shots, Bill Russell dominated the game we call basketball. The respect he demanded as a black man during America's turbulent Civil Rights era made him the personification of a winner in life. King of the Court, like Russell's defense, locks it down, and puts it all in its proper context. Long live the King!"--Dr. Todd Boyd, author of *Young, Black, Rich, and Famous: The Rise of the NBA, the Hip Hop Invasion, and the Transformation of American Culture*

"Bill Russell's life story is only incidentally about basketball. For him the sport was not a life; it was his vehicle for social change, a platform that showcased his vision for America as much as his athletic talent. In his magnificent biography, Aram Goudsouzian captures the nuance and meaning of Russell's career. After reading the book, one will never look at Russell or sports in quite the same way."--Randy Roberts, Purdue University

"Brings back the excitement of the great days of the NBA and its legendary players, led by the king of them all, Bill Russell. Best book I've read on basketball in 40 years."--Bill McSweeney, co-author, with Bill Russell, of *Go Up for Glory*

[Marriage and Violence: The Early Modern Legacy, Frances Elizabeth Dolan](#) , 2009, 081222082X, 9780812220827.

Marriage is often described as a melding of two people into one. But what or whom must be lost, fragmented, or buried in that process? We have inherited a model of marriage so flawed, Frances E. Dolan contends, that its logical consequence is conflict. Dolan ranges over sixteenth- and seventeenth-century Puritan advice literature, sensational accounts of "true crime," and late twentieth-century marriage manuals and films about battered women who kill their abusers. She reads the inevitable *Taming of the Shrew* against William Byrd's diary of life on his Virginia plantation, Noel Coward's *Private Lives*, and Barbara Ehrenreich's assessment in *Nickel and Dimed* of the relationship between marriage and housework. She traces the connections between Phillippa Gregory's best-selling novel *The Other Boleyn Girl* and documents about Anne Boleyn's fatal marriage and her daughter Elizabeth I's much-debated virginity. By contrasting depictions of marriage

2003, 0226014983, 9780226014982. After the September 11 terrorist attacks against the United States, religious fundamentalism has dominated public debate as never before. Policymakers, educators, and the general public all want to know: Why do fundamentalist movements turn violent? Are fundamentalisms a global threat to human rights, security, and democratic forms of government? What is the future of fundamentalism? To answer questions like these, *Strong Religion* draws on the results of the Fundamentalism Project, a decade-long interdisciplinary study of antimodernist, antiseccular militant religious movements on five continents and within seven world religious traditions. The authors of this study analyze the various social structures, cultural contexts, and political environments in which fundamentalist movements have emerged around the world, from the Islamic Hamas and Hizbullah to the Catholic and Protestant paramilitaries of Northern Ireland, and from the Moral Majority and Christian Coalition of the United States to the Sikh radicals and Hindu nationalists of India. Offering a vividly detailed portrait of the cultures that nourish such movements, *Strong Religion* opens a much-needed window onto different modes of fundamentalism and identifies the kind of historical events that can trigger them.

[Information Systems Project Management, David Avison, Gholamreza Torkzadeh](#), 2009, 1412957028, 9781412957021. View IS project management as an art as well as a science. . . . There are a number of books out there on project management. What is different and specific about this book? There is a balance between socio-cultural and technical aspects and there is a balance between qualitative and quantitative aspects project management is seen as both an art and a science.It provides an information systems orientation for project management: neither information technology oriented on the one side nor production and operations oriented on the other, but of application to both within an

organizational-wide view. It stresses information systems as a whole, not just software development. No project is successful if only software aspects are considered. It gives a truly international view of the domain examples and experiences from different parts of the world add richness as well as context to the material. Globalization has ensured that most projects take on an international dimension. The book provides a coherent explanation of the concerns of the project manager as the project develops through the project life cycle it does not follow a kitchen sink approach. Each chapter has the following consistent structure: introduction and outline, an exhibit, the main text with examples, chapter summary, exercises, discussion questions, interview with project manager and appendix this structure provides coherence and consistency. [Arab Women Writers: A Critical Reference Guide, 1873-1999, Raw shr, Ferial Jabouri Ghazoul, Hasna Reda-Mekdashy, Mandy McClure](#), 2008, 9774161467, 9789774161469. An invaluable new reference source and critical review of Arab women writers from the last quarter of the nineteenth century to the end of the twentieth century. Arab women's writing in the modern age began with 'A'isha al-Taymuriya, Warda al-Yaziji, Zaynab Fawwaz, and other nineteenth-century pioneers in Egypt and the Levant. This unique study—first published in Arabic in 2004—looks at the work of those pioneers and then traces the development of Arab women's literature through the end of the twentieth century, and also includes a meticulously researched, comprehensive bibliography of writing by Arab women. In the first section, in nine essays that cover the Arab Middle East from Morocco to Iraq and Syria to Yemen, critics and writers from the Arab world examine the origin and evolution of women's writing in each country in the region, addressing fiction, poetry, drama, and autobiographical writing. The second part of the volume contains bibliographical entries for over 1,200 Arab women writers from the last third of the nineteenth century through 1999. Each entry contains a short biography and a bibliography of each author's published works. This section also includes Arab women's writing in French and English, as well as a bibliography of works translated into English. With its broad scope and extensive research, this book is an indispensable resource for anyone interested in Arabic literature, women's studies, or comparative literature.

The man Quinn helped put behind bars has recently been released, however, and she fears her past will endanger the entire Spencer family. But Morgan's solution sends him and Quinn on an unexpected path, with repercussions neither could have anticipated.

[100 Minute Bible, Michael Hinton](#) , 2006, 0955132452, 9780955132452. The Bible must be the most popular yet least-read book in the world! It looks so complex, so long, and in a language from a previous era. And yet it's the greatest story ever told, the ultimate love story, the biography of God himself. The 100-Minute Bible is designed for people who may not know very much about the Christian faith but want to know why the Bible is so popular with two billion people around the world. The 100-Minute Bible is also for Christians who want to revisit the big picture. Read this and see the whole sweep of God's loving purpose for his world and all its people. So many people know about the Bible but so few

have read it at all, let alone cover to distant cover. This version of the Bible has been written to bridge that gap. Most people will be able to read it in 100 minutes, making it the ideal read for that upcoming journey, or for an enjoyable reading experience of enlightenment. The 100-Minute Bible enables people who are not familiar with the classic Bible to understand the basic story of the book that is the basis of the Christian faith. It is intended for people who might have an interest in Christianity but not the time (nor tenacity!) to read the 700,000+ words of the whole Bible. It picks out the principal stories of the life and ministry of Jesus Christ, the turbulent history of his nation, the Jews, and the beginnings of the Christian Church in the first century.

A walk in the Black Forest for twins Jacob and Erin turns into an adventure through time when they meet Shadow, a red fox with an unusual set of talents. They are welcomed to his underground laboratory, Hora Cella, and witness the power of Nikola Tesla's

time travel device, the Wall of Light. On their first journey through the Wall of Light, they travel to Boston in 1775, to help Paul Revere and the Sons of Liberty spread the word that British Redcoats are on the march. Shadow has discovered seven gaps in the story of Paul Revere's midnight ride. If those gaps are not filled, the American Revolution may never be fought, and liberty as we know it will cease to exist. Travel through time with them and follow Paul Revere, William Dawes, and Samuel Prescott, ordinary men who choose to act for the cause of liberty. Meet Dr. Joseph Warren, one of the leaders of the Sons of Liberty, as he sets the famous ride in motion. Watch Robert Newman and John Pulling as they attempt to place signal lanterns in the steeple of the Old North Church. But, look out for Pratt! If he has his way, you could become trapped in a time when King George III rules, and there is no liberty and justice for all.

[England's Shipwreck Heritage: From Logboats to U-boats, Serena Cant , 2013, 1848020449, 9781848020443.](#) What do characters as diverse as Alfred the Great, the architect Sir Christopher Wren, diarist Samuel Pepys and the Victorian poet Gerard Manley Hopkins have in common? All had some involvement in shipwrecks: in causing, recording or salvaging them. This book examines a variety of wrecks from logboats, Roman galleys and medieval cogs to East Indiamen, grand ocean liners, fishing boats and warships - all are woven into the history of shipwrecks along the coastline of England and in her territorial waters. Wrecks are not just physically embedded in this marine landscape - they are also an intrinsic part of a domestic cultural landscape with links that go beyond the navy, mercantile marine and fishing trade. Evidence of shipwrecks is widespread: in literature, in domestic architecture and as a major component of industrial archaeology. Shipwrecks also transcend national boundaries, forming tangible monuments to the movement of goods and people between nations in war and peace. In peacetime they link the architecture and monuments of different countries, from shipyards to factories, warehouses to processing plants; in time of war wrecks have formed a landscape scattered across the oceans, linking friend and foe in common heritage. England's Shipwreck Heritage explores the type of evidence we have for shipwrecks and their causes, including the often devastating effects to the natural environment and human-led disaster. Ships at war, global trade and the movement of people - such as passengers, convict transports and the slave trade - are also investigated. Along the way we meet the white elephant who perished in 1730, the medieval merchant who pursued a claim for compensation for nearly 20 years, the most famous privateer for the American revolutionary wars and the men who held their nerve in the minesweeper trawls of the First World War. Highly illustrated and based on extensive new research, this book will appeal to anyone with an interest in England's maritime heritage.

This was why her tomb was full of the skulls of young women... Ren? recoiled in horror at the sight of his mistress restored to her real condition: the cadaver of an old woman, fleshless, cold, totally bald and already turning to dust... "After 1856, it would be a long time before any other writer contrived a vampire as perversely charismatic as Addhema; she is really three vampires in one. She is, first and foremost, the vampire-as-libido-run-wild, but she is certainly the vampire-as-gold-digger too, and she may well have something of the vampire-as-muse to complete her mystique."-Brian Stableford. [Watership Down, Richard Adams](#) , 2000, 0141937645, 9780141937649. Watership Down by Richard Adams is a true classic. This stirring tale of courage and survival against the odds has become one of the best-loved animal adventures of all time. 'We've got to go away before it's too late.' Fiver was only a small rabbit, but he had a sixth sense and foresaw that disaster was about to destroy the warren. Few believed him. Led by his brother Hazel, a small band of rabbits set out on a perilous journey to find a safe home. Fiver's intuition finally leads them to Watership Down. But here they encounter the greatest threat of all. ***Winner of the Carnegie Medal and the Guardian Children's Fiction Prize*** 'A gripping story of rebellion in a rabbit warren and the subsequent adventures of the rebels. Adams has a poetic eye and a gift for storytelling which will speak to readers of all ages for many years to come' Sunday Times 'A masterpiece. The best story about wild animals since The Wind in the Willows. Very funny, exciting, often moving' Evening Standard 'A great book. A whole world is created, perfectly real in itself, yet constituting a deep incidental comment on human affairs' Guardian Richard Adams grew up in Berkshire, the son of a country doctor. After an education at Oxford, he spent six years in the army and then went into the Civil Service. He originally began telling the story of Watership Down to his two daughters and they insisted he publish it as a book. It quickly became a huge success with both children and adults, and won the Guardian Children's Fiction Award and the Carnegie Medal in 1972. Richard Adams has written many novels and short stories, including Shardik and The Plague Dogs.

Read the following excerpt from Rethink, Chapter 9: Rethinking at Eclipse. Back in the 1970S, people laughed when PC pioneers predicted that a computer would soon adorn every desk in America. Vern Raburn had the last laugh. As Microsofts vice president in charge of application soft ware, Raburn helped make that prophecy come true. Three decades later, Raburn found another career, general aviation, and this time he combined predicting with rethinking. Anticipating that private aviation was ripe for revolution, he theorized that his own new six-seat, twin-engine Very Light Jet (VLJ) could be perfectly positioned to take advantage of the new trend. Thats because his aircraft would cost half as much to buy and operate as any of its private-jet rivals. To tip the scales in his direction, Raburn assembled an impressive collection of manufacturing whats while discarding some not-so-golden oldies, and he reimagined many of the hows. As it turned out, Raburn stumbled when it came to the hard business of execution, but his clear vision and his decision to rethink provides a worthwhile lesson for businesses everywhere. Raburns first epiphany was borrowed from Silicon Valley. Historically in aviation, he explains, the term value proposition meant that a better plane justified a higher price. In the business I come from, its the other way around. You make the product better, and you charge less. Raburn helped do that for computers, and its what his Eclipse Aviation Corporation set out to do for aircraft. Although Eclipse 500s have yet to make a big dent in todays congested skies, more than 200 have taken off across the country. To continue reading, purchase and download now.

[The Little Crescent Moon and the Bright Evening Star, Walter J. Humann](#) , , . This delightful, beautifully illustrated children's poem was written on Christmas Eve, 1996 for the author's grandchildren. On that date a rare celestial event occurred - a full moon appeared on the night of the Nativity. It is speculated that there was a full moon around the time of the birth of Christ. A full moon will not occur again on Christmas Eve until the year 2026. This fanciful story is about the Little Crescent Moon, who is sad because of its dim light and small size. It feels insignificant compared with the Bright Evening Star nearby. God counsels the Moon to prepare for Christ's coming, to be confident in its own abilities, and to honor God in its own unique way. This colorfully illustrated book is entertaining as well as educational. It teaches the valuable lesson that each of us can praise God in different ways. This book is excellent as a Christmas gift or for use by parents/grandparents, Sunday School and kindergarten teachers and day-care personnel.

The honest and hard-hitting memoirs of the most capped England rugby scrum-half of all time, a captain of his country, a two-times British Lions tourist and now a Rugby World Cup winner. Matt Dawson's career story is a colourful tale spiced with controversy, from club rugby at Northampton to England winning the Rugby World Cup in Australia. Matt Dawson narrates his twelve-year journey in a sport transformed beyond recognition. The boy from Birkenhead learnt the game the hard way, working as a security guard and an advertising salesman in his formative years, in the days when rugby players found relief in an active and alcoholic social life. (Dawson: 'The drinking started on Saturday night, continued all Sunday and most nights until Thursday.') hard graft for his club Northampton eventually heralded international recognition. Dawson talks about the influential, and occasional obstructive figures in his blossoming career: the likes of John Olver, Will Carling, Ian McGeechan and, more recently, Wayne Shelford and Clive Woodward. The advent of professionalism in 1995 changed for good the game at all levels, and Dawson is in the position of having straddled the transformation, when cash became more important than conscience. In typically opinionated mode, he also reflects on the successes and failures of the England team and, famously, the Lions in Australia in 2001. of management support in a tour diary article, Dawson was almost sent home in disgrace. He revisits that bitterly disappointing period in his life and is still not afraid to point out where everything went wrong. Following England's Rugby World Cup 2003 success, Dawson provides a first-hand account of all the dressing room drama -- including a troubled Jonny Wilkinson -- and the memorable final itself, followed by the stunning reaction to this historic win back home.

This is a NEW (2010) easy-to-read translation by ancient Greek language scholar and horsewoman Dr. A. Nyland and is NOT one of the many century-old public domain translations NOR is it a reworded public domain version. Great advances which have been made in ancient Greek word meaning in the last twenty years were unknown to the translators of the public domains of the late nineteenth and early twentieth centuries. Despite the current trend for non-translators to reproduce public domain versions as a commercial venture, be aware that such public domain versions do not take advantage of recent scholarship in word meaning. Xenophon was an ancient Greek soldier who lived from around 430-354 BC. His "Art of Horsemanship" is his work on selecting and educating horses. It was not the first work of its kind, an earlier being that by Simon of Athens. Setting up on a sunny day at the beach or snapping a passport photo, the studio photographer measures out his working day in repeated frames, fixing the ordinary customer on film. Addressing the enduring value of these portraits and the viewer's common humanity with the subjects is the aim of Mapping Sitting, a collection of studio photographs, primarily from the 1950s and 1960s, that shows an Arab world that defies stereotypes. Drawn from the archives of the Arab Image Foundation, whose mission is to rescue and preserve indigenous Arab photography, and curated by two Lebanese-born artists, Walid Raad and Akram Zaatari, these photographs provide a moving mosaic of Middle Eastern men and women posing in the studio, lounging on the sand, or goofing around on bikes. There are also pages of carefully indexed passport photos, which become charged with meaning in a post-9/11 world. The exhibition from which Mapping Sitting was drawn, mounted at the Grey Art Gallery in New York, was widely reviewed in publications such as The New York Times and New York Magazine.

The material is presented in such a way that the client can understand the appropriate information in a clear and understandable manner. This edition also contains new and better-informed rationales guided not only by new scientific developments but also by the extensive experience of practitioners who have used the MAP treatment program with thousands of clients around the world. In addition, all of the monitoring forms assigned to clients have been substantially redesigned to provide greater ease of use and more relevant information. Finally, the MAP-3 client workbooks have been completely rewritten at a more accessible reading level to make the material easier for all clients to understand. Building on the decades of work by women of color and allied feminists, *Standing in the Intersection* is the first book in more than a decade to bring communication studies and feminist intersectional theories in conversation with one another. The authors in this collection take up important conversations relating to notions of style, space, and audience, and engage with the rhetoric of significant figures, including Carol Moseley Braun, Barbara Jordan, Emma Goldman, and Audre Lorde, as well as crucial contemporary issues such as campus activism and political asylum. In doing so, they ask us to complicate notions of space, location, and movement; to be aware of and explicit with regard to our theorizing of intersecting and contradictory identities; and to think about the impact of multiple dimensions of power in understanding audiences and audiencing.

[Narcomania: How Britain Got Hooked on Drugs, Max Daly, Steve Sampson](#) , 2013, 0099538032, 9780099538035. A timely and gripping investigation of illegal drugs in the UK. Filled with fascinating and shocking case studies gathered over twenty years of investigative reporting, it explodes many of the myths and misconceptions about drug use, and makes a compelling case for a new way forward. Looking at the dealers, the users, the police and the politicians, Narcomania charts how consumption and markets have fragmented and changed over the last decade; follows the money to reveal where Britain's licit and illicit economies overlap; explains where each of the major recreational drugs comes from; and maps which drugs are popular in different parts of the country. It will explode many of the myths and misconceptions about drug use, and tap into fraught debates about how politicians, parents and police should respond. In the wake of the internet boom, globalisation and a decade of decadence, Britain sits at a crossroads in the legalisation-versus-intolerance debate. While other nations have succeeded with progressive experiments, inertia and self-

contradiction define British drug policy to the detriment of everyone except the criminal underworld. Unsurprisingly, in the light of this book, our politicians are confused about what will please or displease the all-important middle class electorate. Equally unsurprisingly, however, so much myth and confusion surrounds the subject that clarity must be brought to chaos if the wisdom of the crowd is ever to surface....

The Story of the Stone (c. 1760), also known by the title of the Dream of the Red Chamber, is the great novel of manners in Chinese literature. Divided into five volumes, of which the Warning Voice is the third, it charts the glory and decline of the illustrious Jia family (a story which closely accords with the fortunes of the author's own family). the two main characters, Bao-yu and Dai-yu, are set against a rich tapestry of humour, realistic detail and delicate poetry, which accurately reflects the ritualized hurly-burly of Chinese family life. But over and above the novel hangs the constant reminder that there is another plane of existence - a theme which affirms the Buddhist belief in a supernatural scheme of things.

[A Biologic Approach to Environmental Assessment and Epidemiology, Thomas J. Smith, David Kriebel](#) , 2010, 0199722625, 9780199722624. Environmental chemical hazards are a highly contentious topic in modern life. Nearly every nation on earth has faced its own environmental crises, and also shares perspectives on the possibility of global catastrophes. Of the many global concerns we face, the environmental issue is unique in many ways. The greatest of these is the fundamental scientific nature of the issue, and the extent to which our opinions are formed based on high-level scientific inquiry and assessment. The two key fields of study on this issue, environmental epidemiology and exposure assessment, are still given separate names because of their separate historical roots and scientific traditions, but are seen increasingly as inseparable aspects of the same basic investigation. In this book, Thomas J. Smith and David Kriebel assert that important advances in the quantification of environmental risks can only come through a true synthesis of the two fields. They have built a common biologic model of exposure, physiologic response, and disease, a synthesis of the various existing models which serves to both simplify and improve the application of environmental epidemiology and exposure assessment to current and future environmental chemical risks. When exposure assessor and epidemiologist agree from the start on the model for their study, the conceptual framework for the study they design and the analyses they carry out are much more likely to yield useful exposure-risk information. An explicit biologic model of the apparent processes linking exposure to disease should form the basis for any study seeking to quantify risk from environmental chemicals.

[Generic Enrichment in Vergil and Horace, S. J. Harrison](#) , 2007, 019920358X, 9780199203581. S. J. Harrison sets out to sketch one answer to a key question in Latin literary history: why did the period c.39-19 BC in Rome produce such a rich range of complex poetical texts, above all in the work of the famous poets Vergil and Horace? Harrison argues that one central aspect of this literary flourishing was the way in which different poetic genres or kinds (pastoral, epic, tragedy, etc.) interacted with each other and that that interaction itself was a prominent literary subject. He explores this issue closely through detailed analysis of passages of the two poets' works between these dates. Harrison opens with an outline of generic theory ancient and modern as a basis for his argument, suggesting how different poetic genres and their partial presence in each other can be detected in the Latin poetry of the first century BC.

[The Trial of the Catonsville Nine, Daniel Berrigan, Robin Andersen, James Marsh](#) , 2004, 0823223329, 9780823223329. On May 17, 1968, at the height of the Vietnam War, nine men and women entered a Selective Service office outside Baltimore. They removed military draft records, took them outside, and set them afire with napalm. The Catholic activists involved in this protest against the War included Daniel and Philip Berrigan; all were found guilty of destroying government property and sentenced to three years in jail. Dan Berrigan fled, and later turned himself in. The Berrigans and their colleagues went on to lives spent struggling against war, poverty, and injustice. And The Trial of the Catonsville Nine became a powerful expression of the conflicts between conscience and conduct, power and justice, law and morality. Drawing on court transcripts, Berrigan wrote a dramatic account of the trial and the issues it so vividly embodied. The result is a landmark work of art that been performed frequently over the past thirty five years, both as a piece of theater and a motion picture. This new edition includes Berrigan's original introduction, and additional materials by Robin Anderson and James Marsh that bring its ideas and themes up to date against the context of the war in Iraq. [Dead Certainties, Simon Schama](#) , 2013, 1847087698, 9781847087690. On 13 September 1759, General James Wolfe, having led the British troops up the St Lawrence to victory in the Battle of Quebec, died on the Heights of Abraham. Schama examines this death, and how Wolfe was made to die again - through the spectacular painting by Benjamin West, and through the writings of the 19th-century historian Francis Parkman. Schama's second death concerns Parkman's uncle, George Parkman of Harvard Medical College, who disappeared in 1849 in mysterious circumstances and who was rumoured to have been murdered by a colleague. Through these incidents, Schama sheds light on the writing of history, the history of history, and the relationship of "story" to "history".

This text presents a comprehensive view of the development of Western civilization in a book that is half the size of conventional survey texts. This book, which pioneered the brief format and is the only one of its kind that is not an abridgment of a longer book, makes convenient reading for students in survey courses and enables instructors to assign supplementary materials without overburdening student time or budgets. With its broad coverage of political, social, cultural and religious themes, "A Brief History of the Western World" lends itself to many different instructional approaches.

[Test Cricket, Peter Murray](#) , 2008, 0980382912, 9780980382914. Cricket has been a part of our lives for generations, in particular Test cricket. We can marvel at the feats of many greats through the years and try to imagine how the game was played in generations past. Thousands of books have been written and hundreds of players have been discussed. But the times are changing and I fear that within the next generation, Test cricket will be remembered as an old format of the game. There are many reasons for my prediction. First, the introduction of the Twenty 20 game. A fast moving, exciting and short format that allows the family an afternoon or evening of fun. We also live in an age where time is important and I fear that the public will no longer have the time or patience to spend five days absorbing a Test match. Finally, it is the cost factor. In so many ways, the cost of staging a Test series is now coming under the microscope. We are seeing fewer people attending Tests across the world and eventually, this will spell the death knell of Test cricket. We should therefore consider ourselves extremely lucky to have lived in an era where such greats of Test cricket have been on display. Yes, the first fifty years of Test cricket was filled with exciting and memorable figures with the likes of W.G. Grace and Don Bradman leading the list. But it is this period after WWII that will eventually be remembered as the 'greatest period.' We just have to look at the past thirty years to gather a list of truly memorable greats - some of whom have been included in this book. In twenty years, when Test cricket is only played as an exhibition sport, we will remember the flashing blades of Brian Lara, Sachin Tendulkar and Garry Sobers dressed splendidly in their whites. Our memories will be filled with masterful stroke play, brilliant tactical captaincy, effortless ball placement and the magic art of spin bowling. Let's enjoy and support Test cricket before it is lost forever. The shorter forms of the game are exciting and fast, but lack the true fascination, history and guile of a Test match. One Hundred Years of Test Cricket is a compact history of the game produced in our exclusive tactile format in the hope that the game and the players will always be remembered for these exciting Test cricket years.

Auden and Louis MacNeice. Auden and MacNeice's Letters from Iceland was more than a brilliant and unconventional travel book; it was one of the great works of the 1930s which defined for its own and later generations the precise nature and feeling of that troubled time. With characteristic boldness, Simon Armitage and Glyn Maxwell, staunch admirers of the two older poets, set off in 1994 to discover what Iceland, with its unique geography and ancient political institutions, might have to say to us now. Their findings, delivered in an appropriate mixture of poetry and prose, reportage and imaginative elaboration, vividly reflect the concerns of our own age, and will instruct and amuse readers in equal measure.

explains the fundamental aspects of Photonics, in detail. Starting from the basics, the book elaborately discusses the advanced topics, specifically highlighting the research studies done in the field. The concepts are theoretically explained and mathematically treated to help the students in understanding the concepts skillfully. The book explains the phenomena like the particle properties of light, the potential of creating signal processing device technologies using photons, the practical application of optics, and an analogy to electronics. The topics on radiometry, optical processes in semiconductors, light emitting diodes, photodetectors, and solar cells; fibre optics; modulation; holography; lasers; non-linear optics; integrated optics; and display devices are also dealt with, in detail. The topics are well-supported with the neatly labelled figures and illustrations. The solved examples, included in every chapter, give an analytical insight to the subject.

[The New York Times 1000 Gardening Questions & Answers: Based on the Column "Gardeners Q. & A.", Leslie Land](#) , 2003, 0761119973, 9780761119975. Authoritative, accessible, and engaging, here is a new reference from The New York Times, a comprehensive, nearly 700-page bible of all the garden news that's fit to print. Based on "Gardeners Q&A." the enormously popular syndicated column, 1000 Gardening Questions and Answers is like a passionate conversation

between gardeners and gardening experts. Every week readers from around the country send in their most vexing problems--how to divide perennials, prune raspberry canes, grow basil that really tastes like basil, get rid of earwigs, find long-lost varieties of flowers, keep honeysuckle under control--and every week, the authorities at the Times write a column full of answers. Carefully selected, updated, and expanded by Leslie Land, one of the column's two authors, here are 1,000 Q&As that add up to an informal encyclopedia of gardening knowledge. The book covers flowers, trees, shrubs, the lawn, vegetables, herbs, fruit, indoor plants, soil, pests, and troublemakers. It addresses problems and provides answers to difficulties in every North American zone. Hundreds of line drawings illustrate the book, providing botanical identification and demonstrating how-to gardening techniques. In addition, sidebars throughout supply supplemental information--"Dos and Don'ts of Deadheading," "Annuals that Beat the Heat," "To Prune or Not to Prune: The Clematis Question," "Air Layering," "Windowsill Bonsai"--plus quirky facts, trivia, lore, and myth. It's big, it's got heft, it's filled to the brim with information. And it's so lively, it reads like a novel--and belongs on every gardener's potting bench and bedside table.

[Free Pages and Hard Times: Anarchist Musings, Manuel Gonzalez Prada](#), 2003, 0199938857, 9780199938858. Manuel Gonzalez Prada was a powerful Peruvian writer and political reformer whose essays and speeches influenced generations of young radicals. He founded the Party of National Unity in 1891, was linked to the anarchist movement, and served as Director of the National Library from 1912-1914. His writings have had enormous impact on the literary and political life of Peru: taking up the defense of exploited indigenous people, broadsiding the landowning oligarchy, and denouncing the social and political errors of the country. In fact, the radical politics Prada advocated then are still alive and relevant today: Modernization (secularization) of Peru, transformation of a nation through its people, promotion of internationalism (universalism) versus overt patriotism (communitarianism), and condemnation of war. This translation is based on the Obras of Gonzalez Prada, edited by Luis Alberto Sanchez. It includes essays, speeches and polemical writings drawn from two of Prada's only books of prose published during his lifetime, Paginas Libres and Horas de Lucha, in addition to unpublished manuscripts and works previously printed in newspapers and magazines. His writings are gathered thematically under the subheadings "Peruvian Problems," "Anarchy," and "Philosophical, Literary, and Linguistic Problems."
