[Shockaholic, Carrie Fisher](#) , 2012, 0743264835, 9780743264839. This memoir from the bestselling author of Postcards from the Edge and Wishful Drinking gives you an intimate, gossip-filled look at what its like to be the daughter of Hollywood royalty. Told with the same intimate style, brutal honesty, and uproarious wisdom that locked Wishful Drinking on the New York Times bestseller list for months, Shockaholic is the juicy account of Carrie Fishers life. Covering a broad range of topics from never-before-heard tales of Hollywood gossip to outrageous moments of celebrity desperation; from alcoholism to illegal drug use; from the familial relationships of Hollywood royalty to scandalous run-ins with noteworthy politicians; from shock therapy to talk therapy Carrie Fisher gives an intimate portrait of herself, and shes one of the most indelible and powerful forces in culture at large today. Just as she has said of playing Princess Leia It isnt all sweetness and light sabers Fisher takes readers on a no-holds-barred narrative adventure, both laugh-out-loud funny and poignant.

[A Public Relations Survival Kit, S. E. Slack](#) , 2002, 0971498806, 9780971498808.

[Patterns of American Jurisprudence, Neil Duxbury](#) , 1997, 0198264917, 9780198264910. This unique study offers a comprehensive analysis of American jurisprudence from its emergence in the later stages of the nineteenth century through to the present day. The author argues that it is a mistake to view American jurisprudence as a collection of

movements and schools which have emerged in opposition to each other. By offering a highly original analysis of legal formalism, legal realism, policy science, process jurisprudence, law and economics, and critical legal studies, he demonstrates that American jurisprudence has evolved as a collection of themes which reflect broader American intellectual and cultural concerns.

[Green to Gold: How Smart Companies Use Environmental Strategy to Innovate, Create Value, and Build Competitive Advantage, Daniel Esty, Andrew Winston](#) , 2009, 0470393742, 9780470393741. From the Publishers Weekly review:

"Two experts from Yale tackle the business wake-up-call du jour-environmental responsibility-from every angle in this thorough, earnest guidebook: pragmatically, passionately, financially and historically. Though "no company the authors know of is on a truly long-term sustainable course," Esty and Winston label the forward-thinking, green-friendly (or at least green-acquainted) companies WaveMakers and set out to assess honestly their path toward environmental responsibility, and its impact on a company's bottom line, customers, suppliers and reputation. Following the evolution of business attitudes toward environmental concerns, Esty and Winston offer a series of fascinating plays by corporations such as Wal-Mart, GE and Chiquita (Banana), the bad guys who made good, and the good guys-watchdogs and industry associations, mostly-working behind the scenes. A vast number of topics huddle beneath the umbrella of threats to the earth, and many get a thorough analysis here: from global warming to electronic waste "take-back" legislation to subsidizing sustainable seafood. For the responsible business leader, this volume provides plenty of (organic) food for thought. "

[Constant Turmoil: The Politics of Industrial Life in Nineteenth-century New England, Mary H. Blewett](#) , 2000, 1558492399, 9781558492394. Part narrative, part analysis, this book reconstructs the complex history of the southeastern New England textile industry during the nineteenth century. Mary H. Blewett takes a fresh look at the process of industrialization from the point of view of management as well as labor and reinterprets the struggle between the two in terms of class, culture, and power. Highlighting the role of contingency and human agency in the shaping of historical events, she traces the efforts of the legendary Borden family and their allies not only to build their own private empire but to dominate the national market in print cloth. At the same time, she examines the shifting fortunes of a labor force striving to accommodate newly arrived immigrants, adapt to new technologies, and contest the control of the mill owners. Blewett has been a pioneer in analyzing the role of gender in industrialization, and this book carries that work forward. She shows how changing meanings of manhood and womanhood, nationality and race, altered the course of American labor politics, as immigrant workers from Lancashire, Yorkshire, and Quebec brought their own political and cultural traditions into the New England mills. What emerges is a richly textured tale involving business scoundrels, high-minded reformers, radical agitators, sober-minded accommodationists, and assertive women activists -- all engaged in a dynamic political struggle to control the destiny of an industry that would not survive the next century.

[Organizations: A Very Short Introduction, Mary Jo Hatch](#) , 2011, 019161498X, 9780191614989. Most of us recognize that organizations are everywhere. You meet them on every street corner in the form of families and shops, study in them, work for them, buy from them, pay taxes to them. But have you given much thought to where they came from, what they are today, and what they might become in the future? How and why do they have so much influence over us, and what influences them? How do they contribute to and detract from the meaningfulness of lives, and how might we improve them so they better serve our needs and desires? This Very Short Introduction addresses all of these questions and considers many more. Mary Jo Hatch introduces the concept of organizations by presenting definitions and ideas drawn from a variety of subject areas including the physical sciences, economics, sociology, psychology, anthropology, literature, and the visual and performing arts. Drawing on examples from prehistory and everyday life, from the animal kingdom as well as from business, government, and other formal organizations, Hatch provides a lively and thought provoking introduction to the process of organization. ABOUT THE SERIES: The Very Short Introduction series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

[Rewarding Changes: As to Your Lifestyle, Livelihood, Location, Bob Koetitz](#) , 1999, 0967345308, 9780967345307.

[Deathly Deception : The Real Story of Operation Mincemeat: The Real Story of Operation Mincemeat, Denis Smyth](#) , 2010, 0191576174, 9780191576171. Deathly Deception tells the true story of the classic World War Two intelligence plan to pass misleading strategic information to Hitler and his Generals that was immortalized in the 1956 Hollywood film The Man Who Never Was. Drawing on a wealth of recently available documentation, Denis Smyth shows how British deceptioners solved a multitude of medical, technical, and logistical problems to implement their deceptive design. The aim of their covert plan was to persuade the German High Command that the Allies were going to attack Greece, rather than Sicily in the summer of 1943. To achieve this, they equipped a dead body with a new military identity as a Royal Marine Major, a new private personality as the fiancée of an attractive young woman named 'Pam', and a government briefcase containing deceptive documents. They then planted the corpse in south-western Spanish coastal waters via a stealthy submarine operation, and carefully monitored (through their codebreakers and spies) how the Nazi intelligence services and their warlords proceeded to 'swallow Mincemeat whole'. The result was a stunning success. The German mis-deployment of their forces to meet the notional Anglo-American threat to Greece materially contributed to the Allied victory in Sicily - which, in its turn, drove Mussolini from power in Italy and inflicted irreparable damage on the German war effort.

The book provides essential pointers for the beginners who are not well versed in writing a scientific paper. This compact, easy-to-use guide is a concise, yet comprehensive reference available for today's writers that guides through the step-by-step method of preparat.

[African Americans: A Concise History, , Darlene Clark Hine, William C. Hine, Stanley Harrold](#) , 2006, 0131925830, 9780131925830. Incorporating the basic features and narrative fromThe African-American Odyssey, this concise history presents its major episodes, issues, and people. It tells a compelling story of survival, struggle, and triumph over adversityleaving readers with an appreciation of the central place of black people and culture in this country, and a better understanding of both African-American and American history.The 2 nd edition presents a broadened international perspective, offers expanded coverage of interaction among African-Americans and other ethnic groups, and includes additional material on African-Americans in the western portion of the United States. It describes African-American history from its African origins to the sixteenth century and the beginning of the forced migration of millions of Africans to the Americas. Succeeding chapters present the struggle of black people to maintain their humanity during the slave trade

and as slaves in North America during the long colonial period. It continues through the Civil War and the beginning of Reconstruction. This is a compelling story of survival, struggle, and triumph over adversity. Readers will learn an appreciation of the central place of black people and black culture in this country, and a better understanding of both African-American and American history.

[Roughneck Nine-One: The Extraordinary Story of a Special Forces A-team at War, Frank Antenori, Hans Halberstadt](#) , 2007, 0312353332, 9780312353339. On April 6th, 2003, twenty-six Green Berets, including those of Sergeant First Class Frank Antenori's Special Forces A-Team (call sign Roughneck Nine One), fought a vastly superior force at a remote crossroads near the village of Debecka, Iraq. The enemy unit had battle tanks and 150 well-trained, well-equipped, and well-commanded soldiers. The Green Berets stopped the enemy advance, then fought them until only a handful of Iraqi survivors finally fled the battlefield. In the process, the Nine One encountered hordes of news media and at the peak of the fight, a US Navy F-14 dropped a 500-pound bomb into the middle of a group of supporting Kurdish Peshmerga fighters, killing and wounding dozens. This is the never-before-told, unsanitized story of the fight for the crossroads at Debecka, Iraq, and a unique inside look at a Special Forces A-team as it recruits and organizes, trains for combat, and eventually fights a battle against a huge opposing force in Iraq.

[Beatles for Sale on Parlophone Records](#), , 2011, 0983295700, 9780983295709. Beatles For Sale on Parlophone Records covers all of the singles, albums and extended play discs issued by the Beatles in the U.K. from 1962 through 1970. Each record is given a separate chapter, which tells the stories behind how the songs appearing on the disc were written and recorded. The chapters also detail how the records were marketed and contain sales and chart information. The book has chapters on the history of EMI and Parlophone Records, how records are mastered and manufactured, how EMI

contracted with other record companies to press Beatles singles and albums to help meet demand, British radio and record charts in the sixties and other record-related topics. The book has over 700 illustrations, all in either color or original black and white.

[Gratitude Book of Days, Jo Costello](#) , 2004, 0975002422, 9780975002421. The Gratitude Book of Days is one in a series of 6 inspirational guided journals that are designed and written to help you find the direction and motivation you need to reclaim control over your life. This inspiring book/journal is like an amazing piece of thread that sews together all the simple and delightful things that touch your life each day, and encourages you to anticipate something wonderful every minute! By following the guided 4 step process of recording, recalling, remembering and relating, it will demonstrate that, ultimately, when you enrich your energy and function with an open mind - you attract even more positive situations into your energy, and subsequently, your life.

[Newsmakers: The Print Media, Phil Pearman, Kathy Jones](#) , 1989, 017007398X, 9780170073981.

[Jezebel, Irne Nmirovsky](#) , 2012, 0307745465, 9780307745460. A stunning novel about mothers and daughters, about vengeance, and an aging, still beautiful woman on trial for shooting her lover. In a French courtroom, the trial of a woman is taking place. Gladys Eysenach is no longer young, but she remains striking, elegant, cold. She is accused of shooting dead her much-younger lover. As the witnesses take the stand and the case unfolds, Gladys relives fragments of her past: her childhood, her absent father, her marriage, her turbulent relationship with her daughter, her decline, and then the final irrevocable act. With the depth of insight and pitiless compassion we have come to expect from the acclaimed author of Suite Francaise, Irene Nemirovsky shows us the soul of a desperate woman obsessed with her lost youth.

[Great Railway Journeys: London to Birmingham by Rail, Roger Mason](#) , 2013, 1445610671, 9781445610672. London to Birmingham by Rail is a record of forty fascinating sites that can be seen from the window of a train traveling the 115 miles from Euston Station in London to New Street Station in Birmingham. Some will be familiar, like Wembley Stadium and Coventry Cathedral. Others will probably come as a delightful surprise, like Brandon Wood near Coventry where more than 330 species of plant have been recorded. Among the gems in these pages are the grave of the last highwayman to be hanged at the scene of his crime; the story of the nineteenth-century railway races; the longest wall mural in England; the scene of the Great Train Robbery; Bletchley Park, the home of the wartime code breakers; and the medieval wall paintings in Bradwell Abbey that were discovered 400 years after they had been covered up. Whether or not you make the journey you will discover much that is interesting and enjoyable.

[Exploring Proteins: a student's guide to experimental skills and methods, Nicholas Price, Jacqueline Nairn](#) , 2009, 0199205701, 9780199205707. Exploring Proteins offers a complete course in developing the skills - and self-confidence - to be able to understand the way proteins behave and the basis of the methods used to separate, identify and

characterise them. Finding out about biological molecules and systems is a hands-on, experimental task: Exploring Proteins equips the reader with the skills they need to plan and carry out this experimental work, and to understand, analyse, and present the data their work generates. With a focus throughout on active learning, the book blends background information on proteins and protein biochemistry, with the methods used to study them, featuring extensive worked examples and questions throughout to help the reader check their understanding, and develop critical data-handling skills for themselves. It also offers complete flexibility - with sample data sets for readers without access to a lab, and suggested protocols for use where students can be given the opportunity to collect data for themselves. With the emphasis of research shifting from genomics to proteomics, there has never been a more important time for students to master key biomolecular research skills. Exploring Proteins is the ideal companion and guide to ensure students develop the skills they need. Online Resource Centre The Online Resource Centre to accompany Exploring Proteins features the following resources for registered adopters of the book: Figures from the book in electronic format Suggested protocols for the carrying out of experiments included in the book For students: Detailed solutions to the end-of-chapter problems

[Transport Yearbook 2006: Information, Sources and Contacts, Transport Statistics Users Group \(TSUG\), Stationery Office](#), 2005, 0117035858, 9780117035850. This is a comprehensive reference to sources of transport statistics available in Britain, including a complete directory of all international publications and sources; summaries of the major policy issues; and details of all government departments and agencies working in this field. It incorporates Sources of transport statistics, compiled by the Transport Statistics Users Group (TSUG)

[All Our Worldly Goods, Irne Nmirovsky](#), 2009, 0099520443, 9780099520443. In haunting ways this wonderful, compelling novel prefigures Suite Fran aise and some of the themes of N mirovsky's great unfinished sequence of novels. All Our Worldly Goods, though, is complete, and exquisitely so - a perfect novel in its own right. First published in France in 1947, after the author's death, it is a gripping story of family life and starcrossed lovers, of money and greed, set against the backdrop of France from 1911 to 1940 between two terrible wars. Pierre and Agn s marry for love against the wishes of his parents and the family patriarch, the tyrannical industrialist Julien Hardelot, provoking a family feud which cascades down the generations. This is Balzac or The Forsyte Saga on a smaller, more intimate scale, the bourgeoisie observed close-up with N mirovsky's characteristically sly humour and clear-eyed compassion. Full of drama and heartbreak, telling observation of the devastating effects of two wars on a small town and an industrial family, this is N mirovsky at the height of her powers. The exodus and flow of refugee humanity through the town in both wars foreshadows Suite Fran aise, but differently, because this is Northern France, near the Somme, and the town itself is twice razed. Taut, evocative and beautifully paced, the novel points up with heartbreaking detail and clarity how close were those two wars, how history repeated itself, tragically, shockingly... It opens in the Edwardian era, on a fashionable

Normandy beach, and ends with a changed world, under Nazi occupation.

[The Hand-sculpted House: A Philosophical and Practical Guide to Building a Cob Cottage, Ianto Evans, Linda Smiley,](#)

[Michael G. Smith, Michael Smith](#) , 2002, 1890132349, 9781890132347. Are you ready for the Cob Cottage? This is a building method so old and so simple that it has been all but forgotten in the rush to synthetics. A cob cottage, cobb, however, might be the ultimate expression of ecological design, a structure so attuned to its surroundings that its creators refer to it as "an ecstatic house." The authors build a house the way others create a natural garden. They use the oldest, most available materials imaginable--earth, clay, sand, straw, and water--and blend them to redefine the future (and past) of building. Cob (the word comes from an Old English root, meaning "lump") is a mixture of non-toxic, recyclable, and often free materials. Building with cob requires no forms, no cement, and no machinery of any kind. Builders actually sculpt their structures by hand. Building with earth is nothing new to America; the oldest structures on the continent were built with adobe bricks. Adobe, however, has been geographically limited to the Southwest. The limits of cob are defined only by the builder's imagination. Cob offers answers regarding our role in Nature, family and society, about why we feel the ways that we do, about what's missing in our lives. Cob comes as a revelation, a key to a saner world. Cob has been a traditional building process for millennia in Europe, even in rainy and windy climates like the British Isles, where many cob buildings still serve as family homes after hundreds of years. The technique is newly arrived to the Americas, and, as with so many social trends, the early adopters are in the Pacific Northwest. Cob houses (or cottages, since they are always efficiently small by American construction standards) are not only compatible with their surroundings, they ARE their surroundings, literally rising up from the earth. They are full of light, energy-efficient, and cozy, with curved walls and built-in, whimsical touches. They are delightful. They are ecstatic.

[The Practical Anarchist: Writings of Josiah Warren, Josiah Warren](#) , 2011, 0823233707, 9780823233700. The Practical Anarchist brings to light the work of Josiah Warren, eccentric American genius. Devoting his life to showing the practicality of an astonishing ideal, Warren devoted equal industry to the question of how to make a pair of shoes and how to remake the social world into an individualist paradise. This will be the first chance for many readers to encounter Warren's writings, and in many cases their first publication since their original appearance in obscure, self-published periodicals, including The Peaceful Revolutionist (1833), the first American anarchist periodical. Moreover, they often appeared in a bizarre experimental typography. This volume presents, out of the welter of bewildering writings left by Warren, a reading text designed for today's readers and students. It seeks to convey the practical value of many of

Warren's ideas, their continuing relevance.

[Black Words, White Page: Aboriginal Literature 1929-1988, Adam Shoemaker](#) , 2004, 0975122967, 9780975122969. This award-winning study - the first comprehensive treatment of the nature and significance of Indigenous Australian literature - was based upon the author's doctoral research at the ANU.

[America, Welcome to the Poorhouse: What You Must Do to Protect Your Financial Future and the Reform We Need, Jane White](#) , 2009, 0137049463, 9780137049462. Crack open this book and enter a bromide-free zone. Jane White knows why American families feel as if they are on a treadmill running out of control, and she explains the reasons with clarity, insight, and rare honesty. She also offers several practical suggestions for how we as individuals, families, and a nation can get out of the mess. Policymakers would be wise to listen. Evan Cooper, Deputy Editor, InvestmentNews This eye-opening book sounds the alarm about many Americans dim financial futures if consumers, businesses, and politicians dont change their ways. Jane White lays blame and names names. Until change happens, White offers prescriptions for your biggest money concerns--retirement, housing, college costs, and credit cards--featuring tried-and-true advice.

Gregory Karp, Syndicated Newspaper Columnist and Author of The 1-2-3 Money Plan and Living Rich by Spending Smart Americans need this vigorous wake-up call if they are to make it through the first half of the 21st century. They are burying themselves in debt--for education, for homes, and for toys--leaving too little for savings and investment. Jane White shows them where they are going wrong and how they can put themselves right. Thomas G. Donlan, Editorial Page Editor, Barrons National Business and Financial Weekly Jane White has written a barnburner of a book. Though the title may cause alarm, America, Welcome to the Poorhouse is ultimately reassuring. We can protect our own financial futures if we get wise--and get together to demand real change. Jacob S. Hacker, Author of The Great Risk Shift: The New Economic Insecurity and the Decline of the American Dream Too many American families are racing toward financial catastrophe--saddled with exploding credit card and college debt, out-of-control housing costs, and underfunded 401(k) accounts. America, Welcome to the Poorhouse reveals the political and economic forces that got us into this predicament, strategies to get Congress to enact needed reform, and practical tips you wont find anywhere else on how to make the most of your money until reform happens. White offers indispensable practical advice for regaining control of your own financial future--specific strategies for reducing your debt, safeguarding your retirement, and helping your children get the education theyll need to compete in todays world. Shrimp on the barbie, Koala bears, and a secure retirement. Why most Australians will end up with at least half a million dollars in their version of a 401(k) plan--and what we can do to transform our 401(k) plans into actual pensions. How the mortgage industry lobbied to dismantle regulation and offer bait-and-switch adjustable rate mortgages. How to protect yourself--no matter what happens. Your personal plan for saving for retirement, finding bargain colleges, and getting out of credit card debt. How to build a citizens lobby that wins. Making taxpayers as powerful as the so-called financial services industry and getting rid of the members of

Congress that do its bidding.

The book is a portrayal of a man's physical and mental disintegration and is written by the author of Midnight Mass.

[Textbook of Diabetes: 2 Volume Set, , John C. Pickup, Gareth Williams](#) , 2002, 063205915X, 9780632059157. Pickup and Williams' Textbook of Diabetes has established itself as the definitive reference work in the field, providing lucid, comprehensive coverage of the subject with full color illustrations and beautiful presentation. The focus of the book is very much clinical, but throughout the coverage of basic science is strong and pervades most clinical components of the book. The significant advances that have occurred in our understanding of the disease are reflected in this new edition. A total of 74 chapters are organized into 20 sections covering all the issues relating to the clinical management of the disease, from the historical context, normal physiology, pathogenesis of diabetes, diabetes complications, the practicalities of living with diabetes, the organization of care and future developments. The chapter list has been revised and updated to further refine the coverage. At least a third of the contributors are new and have provided a wealth of fresh material to the book. All the other chapters have been thoroughly rewritten. Please view sample pages from chapter 31 and chapter 75.

[Final Impact: A Novel of the Axis of Time, John Birmingham](#) , 2007, 0345501306, 9780345501301. The action is nonstop, the characters very real and very different from each other and, to coin a phrase, it makes you think. S. M. Stirling, author of Island in the Sea of Time In the year 2021 a multinational fleet experimenting with untested weapons technology pitched through time, crash-landing in 1942. The world is thrown into chaos as Roosevelt, Hitler, Churchill, Tojo, and Stalin scramble to adapt to new, high-tech killing tools, and twenty-first-century ways of war. For optimists like

Britains Prince Harry and the men and women who serve aboard the supercarrier USS Hillary Clinton, war is a constant struggle with their own downtime allies, who are mired in ignorance and bigotry. As the Allies counter the Nazi assault and set off for the coast of France, Japan begins to buckle, soon every battle will be played out in a lethal dance of might and intelligence, unholy alliances and desperate gambles, and each clash will be fought with the ultimate weapon; knowledge from the future. Thanks to the historical records, all sides know that two superpowers will emerge, while the losers will be pounded into submission. But time has shifted on its axis, so none know who will survive, or how peace will take hold in a world turned upside down. These are the questions that John Birmingham brilliantly answers in his critically acclaimed adventure of war and imagination. Praise for John Birmingham's Weapons of Choice Birmingham's enthralling battleground mixes provocative historical fiction and socially conscious futurism. Entertainment Weekly High-tech intrigue and suspense similar to the works of Tom Clancy. Library Journal From the Trade Paperback edition.

[City of Light: The Story of Fiber Optics, Jeff Hecht](#) , 1999, 0199883084, 9780199883080. City of Light tells the story of fiber optics, tracing its transformation from 19th-century parlor trick into the foundation of our global communications network. Written for a broad audience by a journalist who has covered the field for twenty years, the book is a lively account of both the people and the ideas behind this revolutionary technology. The basic concept underlying fiber optics was first explored in the 1840s when researchers used jets of water to guide light in laboratory demonstrations. The idea caught the public eye decades later when it was used to create stunning illuminated fountains at many of the great Victorian exhibitions. The modern version of fiber optics--using flexible glass fibers to transmit light--was discovered independently five times through the first half of the century, and one of its first key applications was the endoscope, which for the first time allowed physicians to look inside the body without surgery. Endoscopes became practical in 1956 when a college undergraduate discovered how to make solid glass fibers with a glass cladding. With the invention of the laser, researchers grew interested in optical communications. While Bell Labs and others tried to send laser beams through the atmosphere or hollow light pipes, a small group at Standard Telecommunication Laboratories looked at guiding light by transparent fibers. Led by the recipient of the 2009 Nobel Prize in Physics, Charles K. Kao, they proposed the idea of fiber-optic communications and demonstrated that contrary to what many researchers thought glass could be made clear enough to transmit light over great distances. Following these ideas, Corning Glass Works developed the first low-loss glass fibers in 1970. From this point fiber-optic communications developed rapidly. The first experimental phone links were tested on live telephone traffic in 1977 and within half a dozen years long-distance companies were laying fiber cables for their national backbone systems. In 1988, the first transatlantic fiber-optic cable connected Europe with

North America, and now fiber optics are the key element in global communications. The story continues today as fiber optics spread through the communication grid that connects homes and offices, creating huge information pipelines and replacing copper wires. The book concludes with a look at some of the exciting potential developments of this technology.

[Sex and Social Justice, Martha C. Nussbaum](#) , 1999, 0199880492, 9780199880492. What does it mean to respect the dignity of a human being? What sort of support do human capacities demand from the world, and how should we think about this support when we encounter differences of gender or sexuality? How should we think about each other across divisions that a legacy of injustice has created? In Sex and Social Justice, Martha Nussbaum delves into these questions and emerges with a distinctive conception of feminism that links feminist inquiry closely to the important progress that has been made during the past few decades in articulating theories of both national and global justice. Growing out of Nussbaum's years of work with an international development agency connected with the United Nations, this collection charts a feminism that is deeply concerned with the urgent needs of women who live in hunger and illiteracy, or under unequal legal systems. Offering an internationalism informed by development economics and empirical detail, many

essays take their start from the experiences of women in developing countries. Nussbaum argues for a universal account of human capacity and need, while emphasizing the essential role of knowledge of local circumstance. Further chapters take on the pursuit of social justice in the sexual sphere, exploring the issue of equal rights for lesbians and gay men. Nussbaum's arguments are shaped by her work on Aristotle and the Stoics and by the modern liberal thinkers Kant and Mill. She contends that the liberal tradition of political thought holds rich resources for addressing violations of human dignity on the grounds of sex or sexuality, provided the tradition transforms itself by responsiveness to arguments concerning the social shaping of preferences and desires. She challenges liberalism to extend its tradition of equal concern to women, always keeping both agency and choice as goals. With great perception, she combines her radical feminist critique of sex relations with an interest in the possibilities of trust, sympathy, and understanding. *Sex and Social Justice* will interest a wide readership because of the public importance of the topics Nussbaum addresses and the generous insight she shows in dealing with these issues. Brought together for this timely collection, these essays, extensively revised where previously published, offer incisive political reflections by one of our most important living philosophers.

[Selected Prose, Charles Lamb](#) , 2013, 0141392916, 9780141392912. This selection brings together the best prose writings of the great early nineteenth-century essayist Charles Lamb, whose shrewd wit and convivial style have endeared him to generations of readers. These pieces include early discussions of Hogarth and Shakespeare; masterly essays written under the pen-name 'Elia' that range over such subjects as drunkenness, witches, dreams, marriage and the joy of roast pig; and letters to Lamb's circle of contemporaries, among them Samuel Taylor Coleridge and William Wordsworth. Wryly amused by the world, allusive, searching and endlessly inventive, these are the essential works of a master of English prose. In his introduction Adam Phillips discusses how Charles Lamb's tragic life and sainted reputation, caring for his mentally ill sister Mary, belied the quality of his work. This edition also includes a biographical index of Lamb's correspondents. Charles Lamb (1775-1834) was an English essayist best known for his humorous *Essays of Elia* from which the essay 'A Dissertation Upon Roast Pig' is taken. Lamb enjoyed a rich social life and became part of a group of young writers that included William Hazlitt, Percy Bysshe Shelley, Lord Byron and Samuel Taylor Coleridge with whom he shared a lifelong friendship. Lamb never achieved the same literary success as his friends but his influence on the English essay form cannot be underestimated and his book, *Specimens of the English Dramatic Poets* is remembered for popularising the work of Shakespeare's contemporaries.

[Data Mining: Concepts and Techniques: Concepts and Techniques, Jiawei Han, Micheline Kamber](#) , 2011, 0123814804, 9780123814807. The increasing volume of data in modern business and science calls for more complex and sophisticated tools. Although advances in data mining technology have made extensive data collection much easier, it's still always evolving and there is a constant need for new techniques and tools that can help us transform this data into useful

information and knowledge. Since the previous editions publication, great advances have been made in the field of data mining. Not only does the third of edition of Data Mining: Concepts and Techniques continue the tradition of equipping you with an understanding and application of the theory and practice of discovering patterns hidden in large data sets, it also focuses on new, important topics in the field: data warehouses and data cube technology, mining stream, mining social networks, and mining spatial, multimedia and other complex data. Each chapter is a stand-alone guide to a critical topic, presenting proven algorithms and sound implementations ready to be used directly or with strategic modification against live data. This is the resource you need if you want to apply today's most powerful data mining techniques to meet real business challenges. \* Presents dozens of algorithms and implementation examples, all in pseudo-code and suitable for use in real-world, large-scale data mining projects. \* Addresses advanced topics such as mining object-relational databases, spatial databases, multimedia databases, time-series databases, text databases, the World Wide Web, and applications in several fields. \*Provides a comprehensive, practical look at the concepts and techniques you need to get the most out of your data

[The Oneonta Roundhouse, Jim Loudon](#) , 2010, 0978906683, 9780978906689. The Oneonta Roundhouse provides the definitive account of the birth, life, and death of the world's largest railroad roundhouse, built in the early 1900s in Oneonta, New York. Jim Loudon, a founding member of the Leatherstocking Railway Historical Society, describes in detail the earlier roundhouses built on the site by the Delaware & Hudson Railroad, and how the company's rapid growth led to the turntable's expansion. He provides specific information about the background politics and the construction of the primary roundhouse, and the improvements made to the monumental building over the years. The book is heavily illustrated, with 122 photos and 53 maps and diagrams, including full schematics for the roundhouse, turntable, and adjacent buildings. Other chapters focus on the D&H's Challenger locomotives, and the coal pocket fire of 1946 that ultimately ended in tragedy. The book's epilogue chapter includes Loudon's photographs of the building's twilight, taken only months before the remaining structure was dismantled. About the Second Edition First published in 1993, The Oneonta Roundhouse has sold over 3000 copies worldwide, a tribute to its story and the continuing interest in railroading history. This second edition includes some revisions, a table of contents, and a new preface by the author. About the Author Jim Loudon is a native of Otsego County and currently resides in the West End of Oneonta, New York. He graduated from the State University of New York College at Oneonta in 1972 with a BS in Liberal Arts, majoring in art and history. In 1982 Jim organized the Leatherstocking Railway Historical Society, which currently operates the Cooperstown and Charlotte Valley Railroad tourist train ride, and for which he has served as Conductor, Engineer, and Brakeman. For

over two decades Jim has devoted his time to researching the local area's railroad history, authoring several articles on the subject, as well as a second book, *Leatherstocking Rails: A History of Railroading Along the Upper Susquehanna* (2005). A practitioner of the visual arts, the subjects of Jim's paintings, drawings and photographs include wildlife, landscapes, locomotives and antique tractors.

[A Dictionary of Concepts in NMR, S. W. Homans](#) , 1992, 019854765X, 9780198547655. This is the first book to provide a comprehensive explanation of the bewildering array of acronyms and technical terms which have crept into the literature in recent years. Aimed at chemists and biochemists who have only an elementary knowledge of NMR, it provides a clear description of the concepts and basic principles involved. Recent developments in two-dimensional NMR methods in liquids have had a significant impact on the study of biological systems, and detailed descriptions of the techniques currently available are given. Mathematical descriptions are used where appropriate, since in many cases this is the only medium rigorous enough to convey ideas that are quantum mechanical in nature. However the level of mathematical competence required is low, and the more complex aspects are fully explained in the text. The use of a dictionary format allows easy reference. Each term is explained in full, extensive cross-references are included, and suggestions for further reading are given at the end of many entries.

[The Black Dudley Murder, Margery Allingham](#) , 2000, 0786707542, 9780786707546. Murder turns a weekend house party at Black Dudley Manor into a deadly affair when the host is discovered brutally slain. Nor do gruesome rituals, callous interrogations, and perilous traps add to the fun. Fatal mystification might win the day, if Albert Campion were not there to sift through the motives and clues as with brilliant detection and his signature charm he penetrates the heart of the crime.

[Frankenstein, Mary Wollstonecraft Shelley](#) , 1994, 0140623329, 9780140623321. Frankenstein is a young idealistic student of natural philosophy who, finding the secret of giving life to matter, creates a living being. The monstrous creation, though tender-hearted and gentle in nature, inspires fear in those who meet him and must hide away from society. Increasingly lonely and isolated, the monster becomes embittered and cruel, taking a hideous revenge on his creator. In a dramatic denouement in which Frankenstein pursues his creation to the Arctic in order to destroy him, Mary Shelley reveals the terrifying consequences of playing God.

[Geomicrobiology, Fifth Edition, Henry Lutz Ehrlich, Dianne K. Newman](#) , 2008, 0849379075, 9780849379079. Uncovers the Key Role Microbes Play in the Transformation of Oxidizable and Reducible Minerals Many areas of geomicrobial processes are receiving serious attention from microbiologists, specifically the role microbes play in the formation and degradation of minerals and fossil fuels and elemental cycling. Most notably, the latest research finds that microbes have a more direct impact on the transformation of oxidizable and reducible minerals than was previously believed. Following in the footsteps of its prior editions, Geomicrobiology, Fifth Edition serves as an introduction to this globally pertinent field and as an up-to-date reference reflecting recent groundbreaking advances. Includes an Array of Detailed Illustrations Authored by two of the leading authorities in the field, this book illuminates the processes by which bacteria catalyze geomicrobial reactions. Generously laden with tables, graphics, diagrams, photographs, and illustrations, this all-

encompassing reference examines the geomicrobial aspects of a wide range of minerals, including aluminum- and arsenic-containing minerals, and various fossil fuels. Examines Geomicrobial Interactions with: Silicon Phosphorus Nitrogen Arsenic Polonium Plutonium Manganese Antimony Chromium Molybdenum Vanadium Uranium Iron One of life's great mysteries is how it sustains itself even in seemingly inhospitable environments, such as the deep subsurface. The authors anticipate that as mechanistic molecular approaches are increasingly applied to diverse problems in geomicrobiology, this and other fundamental puzzles will be resolved.

[Max Wertheimer and Gestalt Theory, D. Brett King, Michael Wertheimer](#) , 2005, 1412828260, 9781412828260. The ideas of Max Wertheimer (1880-1943), a founder of Gestalt theory, are discussed in almost all general books on the history of psychology, and in most introductory textbooks on psychology. This intellectual biography of Wertheimer is the first book-length treatment of a scholar whose ideas are recognized as of central importance to fields as varied as social

psychology, cognitive neuroscience, problem solving, art, and visual neuroscience. King and Wertheimer trace the origins of Gestalt thought, demonstrating its continuing importance in fifteen chapters and several supplements to these chapters. They begin by reviewing Wertheimer's ancestry, family, and childhood in central Europe, and his formal education. They elaborate on his activities during the period in which he developed the ideas that were later to become central to Gestalt psychology, documenting the formal emergence of this school of thought and tracing its development during World War I. The maturation of the Gestalt school at the University of Berlin during 1922-29 is discussed in detail. Wertheimer's everyday life in America during his last decade is well documented, based in part on his son's recollections. The early reception of Gestalt theory in the United States is examined, with extensive references to articles in professional journals and periodicals. Wertheimer's relationships and interaction with three prominent psychologists of the time, Edwin Boring, Clark Hull, and Alexander Luria, are discussed, based on previously unpublished correspondence. The final chapters discuss Wertheimer's essays on democracy, freedom, ethics, and truth, detail personal challenges Wertheimer faced during his last years. His major work, published after his death, is *Productive Thinking*. Its reception is examined, and a concluding chapter considers recent responses to Max Wertheimer and Gestalt theory. This intellectual biography will be of interest to psychologists and readers interested in science, modern European history, and the Holocaust. D. Brett King is senior instructor of psychology, Department of Psychology, University of Colorado at Boulder. Michael Wertheimer is Professor Emeritus of Psychology, University of Colorado at Boulder.

[Simply Marketing Communications, Chris Fill](#) , 2006, 0273704052, 9780273704058. Simply Marketing Communications brings fresh insight and clarity to the core concepts of Marketing Communications. Based upon Chris Fill's comprehensive *Marketing Communications: Engagement, Strategies and Practice, Fourth Edition*, this book sets out the essential themes, theories and topics which students can expect to encounter as they explore Marketing Communications. Designed for students studying both shorter, introductory modules and professional level programmes, this book is a 'must-have' learning resource. Tailored specifically to meet the requirements of the Chartered Institute of Marketing (CIM) syllabus, the book blends intellectual rigour with an awareness of the needs of students and lecturers. Whether studying for an MBA, a Professional Diploma, or other vocational qualifications in Marketing, students will find the author's back-to-basics approach indispensable. Structured for success! 4-part structure to help students and lecturers.

[Burning Your Boats: Stories, , Angela Carter](#) , 1995, 0701163216, 9780701163211. As well as her eight novels, Angela

Carter published four wonderful collections of short stories during her lifetime, and contributed stories to several anthologies. The stories were scattered amongst different publishers, and a couple of the volumes are now out of print. In *BURNING YOUR BOATS* they are gathered together for the first time; this is a key collection and a major event for Angela Carter aficionados. It brings some important work back into print, including *THE BLOODY CHAMBER* - her seminal collection of fairytales in which she rewrote stories such as Little Red Riding Hood and Beauty and the Beast in her characteristically subversive, earthy way. This publication in 1995 will begin a major Angela Carter promotion; a celebration of the publication of her *Collected Works*, and a major push for the back list, with an order form for all of the Chatto, Vintage and Virago titles. This enticing, fat volume of Carter's surprising and inventive stories will be one of the most exciting events in the promotion.

[What are My Rights?: Q & A about Teens and the Law, Thomas A. Jacobs](#), 2011, 1575423804, 9781575423807. Can I be prosecuted for comments I make online? Can I get a credit card? When can I get a tattoo? Why can't I wear what I want to school? These questions and many more are asked and answered in *What Are My Rights?* Teens often have questions about the law, but they don't always know where to turn for the answers. This book gives them those answers, exploring more than 100 legal questions pertaining specifically to teens. The third edition includes fresh facts, updated statistics, and additional questions and answers, including a new chapter addressing online issues from Facebook to file sharing. Using a straightforward just the facts tone, and drawing on examples from real-life court cases involving young people, Judge Tom Jacobs explains to teens what their rights are. Readers learn about the laws that affect them, appreciate their rights, and consider their responsibilities.

[Clinical Governance, John Wright, Peter Hill](#), 2003, 0443071268, 9780443071263. Clinical governance is a system through which NHS organizations are accountable for continuously improving the quality of their services and safeguarding high standards of care by creating an environment in which excellence in clinical care will flourish. It is at the heart of the current government's plans for reform of the NHS. This account of clinical governance is in particular aimed at giving a practical guide to doctors and medical students as to how the topic is integrated into their day to day medical work. It aims to relate what sounds an abstract concept to the practice of clinical medicine. Covers principles and practice of clinical governance - students and doctors need a book that moves beyond theory into the practical

implementation of clinical governance  
Includes a feature called 'action guides' that are unique to this book - these guides demonstrate to the reader how to translate theory into practice  
Gives numerous practical example and case studies based on a range of clinical settings (wards, outpatients, theatre, A&E) and specialities - learning through experience and examples is an excellent way to bring this topic to life - and to distinguish this book from other, more theoretical approaches to clinical governance  
Chapters are short and to the point and are highly illustrated with diagrams, bullet point lists, algorithms - this feature will ensure that the book has a broad readership among medical students and nurses through to junior doctors and hospital doctors  
Will equip readers with the skills to address quality improvement effectively and efficiently - this book will help readers fulfil the overall aim of clinical governance, which is to ensure quality in clinical work

[Selected letters of Ananda K. Coomaraswamy, Ananda Kentish Coomaraswamy, Alvin Moore, Rama P. Coomaraswamy, Indira Gandhi National Centre for the Arts](#) , 1988, . Coomaraswamy was perhaps the greatest philosopher-theologian of recent times to have emerged from the East. This ambitious work is the first to present a selection of Coomaraswamy's letters to mystics, theologians, art critics, painters, philosophers, writers, and religious thinkers and scholars. No other source reveals the author's erudition, as well as facets of his life and thought, as completely and delightfully as this collection.

[The Oxford History of Modern War, Charles Townshend](#) , 2000, 0192853732, 9780192853738. How has war shaped modern society and vice versa? How has it changed over the centuries between the introduction of firearms and the invention of the atomic bomb? How is war waged today? This highly informative work examines the techniques, technology, and theories of warfare from the 'military revolution' of the seventeenth century to the present day. Expert contributors explore major developments and themes, including: the extraordinary achievements of Napoleon's armies; the role of nationalism in battlegrounds as various as the American Civil War and the former Yugoslavia; colonial wars; the concept and reality of 'total war;' guerrilla warfare and 'people's wars.' A History of Modern War offers a comprehensive overview of military conflict over several centuries, with fascinating thematic chapters covering air and sea warfare, combat experience, technology, and even opposition to war. It is the ideal supplementary text for courses on modern history and it is especially useful for anyone broadly curious about modern war.

[A Dual Inheritance: A Novel, Joanna Hershon](#) , 2013, 0345468473, 9780345468475. For readers of Rules of Civility and The Marriage Plot, Joanna Hershon's A Dual Inheritance is an engrossing novel of passion, friendship, betrayal, and class and their reverberations across generations. Autumn 1962: Ed Cantowitz and Hugh Shipley meet in their final year at Harvard. Ed is far removed from Hugh's privileged upbringing as a Boston Brahmin, yet his drive and ambition outpace Hugh's ambivalence about his own life. These two young men form an unlikely friendship, bolstered by a fierce shared desire to transcend their circumstances. But in just a few short years, not only do their paths diverge—one rising on Wall Street, the other becoming a kind of global humanitarian—but their friendship ends abruptly, with only one of them understanding why. Can a friendship define your view of the world? Spanning from the Cuban Missile Crisis to the present-day stock market collapse, with locations as diverse as Dar es Salaam, Boston, Shenzhen, and Fishers Island, A Dual Inheritance asks this question, as it follows not only these two men, but the complicated women in their vastly different lives. And as Ed and Hugh grow farther and farther apart, they remain uniquely—even surprisingly—connected.

Praise for A Dual Inheritance  
A big, captivating sweep of a romance . . . a searching exploration of class and destiny in late-twentieth-century America. Jennifer Egan  
The best book about male friendship written this young century. Details [A] warm, smart, enjoyably complex novel . . . Both Hugh and Ed are lonely searchers . . . and [Hershon's] skill in rendering each of them as flawed individuals is what makes the novel so readable and so rich. . . . A Dual Inheritance is an old-fashioned social novel that feels fresh because of its deft, clear-eyed approach to still-unspoken rules about ethnicity, money and identity. San Francisco Chronicle  
An absorbing, fully-realized novel . . . [Hershon] renders the book's many locales with a nuanced appreciation for the way environment emerges out of the confluence of physical detail and social experience. . . . A Dual Inheritance never lets its readers forget they are reading a well-crafted novel, and as a well-crafted novel, it fully satisfies. The Boston Globe  
This marvelous novel is a mix of heartache and history. . . . Think of Anne Tyler and Tom Wolfe, both. Victor LaValle, author of The Devil in Silver  
[An] engrossing saga. Vogue  
Hershon artfully guides us through the lives of Ed and Hugh, college buddies who meet at Harvard in the '60s, shifting between their perspectives through adulthood to detail their lingering impact on one another's lives in such a way that it'll make you take a second look at all of your relationships. GQ  
Let this story of two Harvard men's unexpected friendship and its sudden end transport you through time (beginning on Harvard's campus in 1962) and place. The Huffington Post  
A richly composed . . . portrait of familial gravity and the wobbly orbits that bring us together again and again. Kirkus Reviews  
This thought-provoking generational tale is a heartfelt and beautiful story of an unlikely friendship that fades at times, but never seems to go away. Long Island Press

[The Black Camel, Trevor Bowen](#) , 2002, 0140285121, 9780140285123. On a still, foggy evening in Cambridge the sharp crack of a pistol shot disrupts the sleepy calm of the university, leaving a porter lying dead. Ex-cop John Bewick is swiftly called in by the college authorities to get this dirty business cleared up with a minimum of fuss. His friend - and rival - Chief Inspector Gio Jones has no such concerns: he's got a murder to solve and ruffing a few feathers is a favoured pastime. But, Bewick and Jones find that the campus is a hotbed of sexual jealousies and petty rivalries. And with the discovery of a second corpse, the investigation turns critical...

[Electronic Structure of Materials, Adrian P. Sutton](#) , 1993, 0198517556, 9780198517559. In recent years, researchers have increasingly recognized the dominant role of the local atomic environment in controlling the electronic structure and properties of materials. This recognition has spawned the "real-space" approach that provides a coherent framework for the study of perfect and defective crystals and non-crystalline materials. In addition to presenting these ideas, this text details the reciprocal-space approach--exemplified in band theory--and draws powerful links between the two approaches. The book includes illustrations and examples of many up-to-date calculations based on density functional theory that are used today as predictive tools in materials science. Throughout the book, the mathematical complexity is kept to a minimum, while comprehensive problem sets allow readers to master the fundamental concepts. The text provides for students in materials science, physics, and chemistry a unique introduction to predictive modelling of the electronic structure and properties in today's materials.

[The Earth's Blanket, Nancy J. Turner](#) , 2005, 1926706188, 9781926706184. Renowned ethnobotanist Nancy Turner brings together decades of experience working with First Nations in the Pacific Northwest. In The Earths Blanket, she explores the wealth of ecological knowledge and the deep personal connection to the land and its history that is encoded in indigenous stories and lifeways, and asks what they can teach all of us about living in harmony with our surroundings.

Scholarly in its thinking but accessible in its writing, *The Earth's Blanket* combines first-person research with insightful critiques of Western concepts of environmental management and scientific ecology to propose how systems of traditional ecological knowledge can be recognized and enhanced. It is an important book, a magnum opus with the power to transform our way of thinking about the Earth and our place within it.

[Troubadour: Early & Late Songs of Bob Dylan, Andrew Muir](#) , 2003, 0954494504, 9780954494506. A study of Dylan's lyric writing by someone who is both a fan of the performer and schooled in the appreciation of poetic expression, this volume covers everything from the early "protest" songs to his more mature look at relationships on the album *Blood on the Tracks*. The latter part of the book examines how the older Dylan created a new song-writing style - a process that began with the nursery-rhyme-drenched *Under the Red Sky* and evolved via his two nineties cover albums to emerge triumphant in 2001 on *Love and Theft*.

[Photographing Women: 1,000 Poses, Eliot Siegel](#) , 2012, 0132928701, 9780132928700. The complete resource for any photographer seeking the best choice of poses! Features over 1,000 images especially selected to inspire you and help expand your creativity. Photographs and poses are placed in context, explaining why they do (or sometimes don't) work. A selection of poses features an accompanying lighting diagram, giving a clear understanding of how the photo was made. Includes a variety of models shot using different lighting rigs, props, and settings in the studio and on location making this book suitable for commercial and editorial applications. Discover the secrets of success behind professional photographers work, and learn how to get the best out of your models on a shoot. PLUS a technical how-to section gives master classes in angles, lighting, styling, and more. In this beautiful, yet extremely practical source book, fashion photographer Eliot Siegel embarks on an ambitious project to pull together 1,000 poses for photographing models. Designed to inspire photographers and models alike, the book's poses are organized by type including standing, sitting, reclining, crouching, kneeling, and dynamic poses, as well as head and shoulder shots and expressions. For selected images, Siegel includes a lighting diagram as well as a detailed explanation of how the image was made, but in every case he explains why a pose works, or why it doesn't. This image-packed reference also features iconic photography from prominent fashion photographers and includes a how-to chapter at the beginning of the book that provides a crash course on lighting, styling, props, and background everything you need to know to make a woman look

great, regardless of which of the 1,000 poses you wind up using.

[Barmaids Brain and Other Strange Tales of Science, Jay Ingram](#) , 1999, 014318136X, 9780143181361. In *The Barmaid's Brain*, Jay Ingram explores some of the little known quirks of human behaviour, including why we laugh and how we see mirages; he reports on science's various attempts to reexamine history, including startling theories about the Salem witches, a psychiatric profile of Joan of Arc and the raging debate about the first-ever map of the New World; he brings our attention to remarkable battles, from the parasitic nastiness of cowbirds, to the tiny but deadly guerrilla attacks of ant lions; and he introduces us to the sometimes odd concerns of the scientist, for instance whether it is possible that early humans spent their lives in water instead of on land, and just how does slinging drinks affect the memory and the perception of the barmaid's brain? Weird, witty and always edifying, *The Barmaid's Brain* serves up a splendid cocktail of fact, theory and anecdote in twenty-one of Jay Ingram's favourite tales from the world of science.

[The Sound of Trumpets, John Mortimer](#) , 2010, 0141193409, 9780141193403. When a Tory MP is found dead in a swimming-pool wearing a leopardskin bikini, the embittered Leslie (now Lord) Titmuss sees the ideal opportunity to re-enter the political arena. All he needs is a puppet, and Terry Flitton - inoffensive New Labourite - is perfect. Along with his beautiful, very PC wife, Terry heads blindly for the Hartscombe and Worsfield South by-election. But is he too busy listening for the sound of victory trumpets to notice that the Tory dinosaur is not quite extinct? John Mortimer's brilliant follow-up to *Paradise Postponed* and *Titmuss Regained*, *The Sound of Trumpets* is a devilishly witty satire on political ambition, spin and sleaze, and the culmination of a masterly trilogy.

This revised and updated edition also includes the information you'll need to make smart decisions about -- and avoid the pitfalls of -- banking, credit, home finance,

financial planning, investing and taxes.

[Patriotic Gamble, Ken Gorman](#) , 2012, 0985294213, 9780985294212. Patriotic Gamble is a political thriller that tells of a presidential election process gone haywire. Despite winning the popular vote in his reelection bid, certification in the Electoral College is uncertain. Intense deal making and violence litter the political landscape, as chaos engulfs the House of Representatives. Steve Wagner, Chief-of-Staff, confronts Cody Manville, rich power broker who orchestrates a constitutional crisis. Wagner gambles to conceal a secret about the president's health. Bizarre happenings electrify Inauguration Day. Wagner must choose between the West Wing or reconciliation with his estranged wife.

[Motivational Interviewing: Preparing People for Change, William R. Miller](#) , 2002, 1572305630, 9781572305632. Since the initial publication of this breakthrough work, Motivational Interviewing (MI) has been used by countless clinicians. Theory and methods have evolved apace, reflecting new knowledge on the process of behavior change, a growing body of outcome research, and the development of new applications within and beyond the addictions field. Extensively rewritten, this revised and expanded second edition now brings MI practitioners and trainees fully up to date. William R.

Miller and Stephen Rollnick explain how to work through ambivalence to facilitate change, present detailed guidelines for using their approach, and reflect on the process of learning MI. Chapters contributed by other leading experts then address such special topics as MI and the stages-of-change model, applications in medical, public health, and criminal justice settings, and using the approach with groups, couples, and adolescents.

[Rights and Duties of Directors, Martha Bruce, Martha Bruce, Fcis](#) , 2013, 1780432070, 9781780432076. Rights and Duties of Directors, thirteenth edition, is a highly practical and comprehensive publication relevant to all company directors and their advisers. It clearly explains the rights and powers of directors and their specific duties as prescribed by company law and associated legislation. This is an invaluable guide for all company directors - and their legal advisers -whatever the size of their organisation, as well as company secretaries and HR professionals. Rights and Duties of Directors details each and every duty in relation to the core administration, compliance and disclosure requirements of company law and other closely associated legislation. Previous edition ISBN: 9781847668899

[Trapped, Roderick Hunt, Cynthia Rider](#) , 2006, 0198386249, 9780198386247. Read at Home is the best-selling home reading series designed for young, beginner readers. It features all the popular Oxford Reading Tree characters in exciting stories specially written for parents to support their children's reading at home. These entertaining stories, with real life and fantasy adventures, are carefully graded across 5 levels, and contain built-in progression and vocabulary repetition throughout. Stories provide clear parental support within and beyond the book: \* a "Tips for Reading Together" page, giving parents practical ideas for helping with their child's reading \* a "Think about the Story" page providing stimulating ideas for parents to talk about with children when they are discussing the story \* a "Useful common words" panel to highlight high frequency words used in the story which have a close correlation with the requirements of the National Literacy Strategy. Trapped is Level 4c for children Building Confidence in Reading - those children who can recognize 30-50 words by sight, can read harder sentences, with less support, and can use sounds to help make words. The story is written with simple but more varied sentence structure and vocabulary with three to four sentences per page. This book is at the same reading level as Husky Adventure. Approx ORT level: Stage 4

[A Royal Affair: George III and His Troublesome Siblings, Stella Tillyard](#), , 2007, 0099428563, 9780099428565. The young George III was a poignant figure, humdrum on the surface yet turbulent beneath: hiding his own passions, he tried hard to be a father to his siblings and his nation. This intimate, fast-moving book tells the intertwined stories. His sisters were doomed to marry foreign princes and leave home forever; his brothers had no role and too much time on their hands - a recipe for disaster. At the heart of Tillyard's story is Caroline Mathilde, who married the mad Christian of Denmark in her teens, but fell in love with the royal doctor Struensee: a terrible fate awaited them, despite George's agonized negotiations. Around this tragedy, Stella Tillyard weaves the dramas of the rakish Duke of York; the Duke of Cumberland, caught up in a notorious divorce; the Duke of Gloucester, secretly married, to the fury of the King. Desperate for control, George constructed the Royal Marriage Act, which still bedevils the royal family today. At the same time he faced his tumultuous American colonies. And at every step a feverish press pounced on the gossip, fostering a new national passion - a heated mix of celebrity and sex. Tillyard conjures up a Georgian world of war and peace, the choppy seas and backwaters of international diplomacy in a changing world of ancien r gimes and radical ideas - the history of private passions and public disgrace, rebellion and exile, in a curtain raiser to the revolutions which convulsed two continents.

[Reimagining the Bible: The Storytelling of the Rabbis, Howard Schwartz](#) , 1998, 0195104994, 9780195104998.

Reimagining the Bible collects a dozen essays by Howard Schwartz. Together the essays present a coherent theory of the way in which each successive phase of Jewish literature has drawn upon and reimagined the previous ones. The book is organized into four sections: The Ancient Models; The Folk Tradition; Mythic Echoes; Modern Jewish Literature and the Ancient Models. Within these divisions, each of the essays focuses on a specific genre, ranging from Torah and Aggadah to Kabbalah, fairy tales, and the modern Yiddish stories of S.Y. Agnon and Isaac Bashevis Singer. Arguing the important thesis that there is a continuity in Jewish literature which extends from the Biblical era to our own times, over a period of more than 3,000 years, this collection also serves as a guide to the history of that literature, and to the genres it comprises.

[Principles of Instructional Design, John M. Keller](#) , 2005, 0534582842, 9780534582845. This pioneering text describes a rationally consistent basis for instructional design, based in cognitive psychology and information-processing theory. The authors prepare teachers to design and develop a course, unit, and module of instruction, outline the nine stages of instructional design procedure, and integrate current research and practice in the movement toward performance systems technology. The Fifth Edition of PRINCIPLES OF INSTRUCTIONAL DESIGN emphasizes the social and cultural context of learning, learner-centered principles, and the affordances of new technologies and learning environments.

[Blues and Boogie-Woogie: 12 Piano Pieces by M. Brandman, Margaret Susan Brandman](#) , 2002, 0949683221, 9780949683229. Included in this book are 12 original Blues and Boogie-Woogie pieces for piano, composed by pianist Margaret Brandman. Each piece provides a good basis for learning contemporary playing techniques, including as they do, the Twelve-Bar Blues form, the Blues Scale notes, Swing Timing and a variety of Boogie-Woogie styles. Graded into two sections, for beginners and for intermediate level pianists, each section contains one blues piece, three boogie pieces in major keys and two in minor keys. Various methods of writing the swing feel have been employed for experience in the style. They are especially good for building up left-hand technique, are easily accessible as they require no awkward hand position changes and above all are fun to play. 'Margaret Brandman's publication, gives students a wonderful choice of twelve original blues and boogie-woogie compositions. Also included is a brief history and analysis to give students a background of these styles... This is an excellent publication which, I am sure, teachers and students will enjoy.' -June Mclean, AUSTRALIAN MUSIC TEACHER Magazine, Vol 3 No 5 1994

[Andrew Georgitsis](#) , 2011, 0983727414, 9780983727415. Unified Team Diving was born in DIR/Hogarthian team diving principles, but as we have progressed and innovated new disciplines, we have gone beyond traditional cave, wreck, and technical diving to incorporate "thinking" protocols into all areas of diving, including recreational and now, Scientific Diving. We have continued to develop and refine our diving and teaching skills and principles through the years, not only with traditional back mount, but also with side mount and rebreather systems, never losing sight of our mission to provide all divers the best education and educational materials we can. For you, the Scientific Diver, we offer this book and training as a way to safely and efficiently do the good work to protect our oceans and fresh water systems. We encourage you to embrace the philosophy of "Team Diving" and become a "Thinking Diver." Safe Diving

[The Complete Guide to Managing Corporate Real Estate, B. Alan Whitson](#) , 1991, 0962739294, 9780962739293.

[Human Neuroanatomy, James R. Augustine](#) , 2008, 0120682516, 9780120682515. This textbook provides a thorough and comprehensive overview of the human brain and spinal cord for medical and graduate students as well as residents in the clinical neurosciences. Standing on the shoulders of training from outstanding scientist-teacher mentors and based on more than 30 years of experience teaching about the brain and spinal cord to medical and graduate students, this single authored text presents everything the reader would need as they begin their study of the nervous system. At the same time the experienced neuroscientist will find much useful and valuable information in these pages that is based almost exclusively on studies in experimental primates and observations in humans. Every effort has been made to present the complexities of the nervous system as simply and clearly as possible. The careful reader will discover a clarity

and depth of coverage that makes the reading both instructional and enjoyable. Topics are presented logically and the text in an easy-to-read style. The accompanying line drawings emphasize important concepts in a clear and uncluttered manner. Topics presented: Neurons, glial cells, degeneration, regeneration, axonal transport. Review of the development of the human nervous system. Overview of the anatomy of the spinal cord, brain stem and forebrain. General sensory paths (pain, temperature, touch, pressure, proprioception). Special sensory systems (auditory, vestibular, visual, olfactory and gustatory). Eye movements and visual reflexes. Comprehensive presentation of the regions involved in motor activity including the clinical manifestation of injuries to these motor areas. Limbic system, hypothalamus and the autonomic nervous system. Lobes of the brain, clinically important cortical areas and the results of lesions in these areas. Blood supply to the spinal cord, brain stem, and brain including classical brain stem syndromes. The meninges and the ventricular system. Numerous helpful clinical correlations that emphasize the practical application of basic anatomical information. \* Presents the complexities of the nervous system as simply and clearly as possible \* Written with a clarity and depth of coverage that makes the reading both instructional and enjoyable \* Includes numerous illustrations emphasizing important concepts

[Women in Politics: Outsiders Or Insiders? : a Collection of Readings, Lois Duke Whitaker](#) , 1999, 013096610X, 9780130966100. This book is designed as a reader on the topic of women and politics to aid in integrating the study of women in the political system. It provides relevant research on women and politics across a spectrum of topics and perspectives. With a feminist theoretical framework, it examines some gender differences in political attitudes and voting, looks at gender cultural reflections in the mass media and group politics, and examines how women have fared in competing for public office. Also discussed are the various branches of government and how women are or are not participating the functions of government, and explore women and national public policy; and women in regard to activism, empowerment, changing roles and cultural expression.

[Transformative Leadership: A Reader, ISSN 1058-1634, Carolyn M. Shields](#) , 2011, 1433113090, 9781433113093. This important, timely, and thought-provoking reader is a collection of original chapters by authors from five different countries, each of whom explores a facet of transformative leadership. Transformative leadership is fundamentally a critical approach to leadership that goes well beyond the tenets of most current leadership theories to focus on social transformation as the basis for both individual and collective achievement. The text clarifies and elaborates on the concept, linking it to other theories including ways of thinking about curriculum and pedagogy to prepare leaders for a more transformative role. Transformative Leadership: A Reader provides examples of studies conducted using the lens of transformative leadership as well as of research re-analyzed through its perspective.

Designed for service technicians and automotive students, *Hybrids and Alternative Fuel Vehicles, 2e*, offers practical coverage of hybrid vehicles. Beginning with the fundamentals, the book discusses historical trends and environmental concerns, followed by separate chapters detailing each major hybrid system. The text highlights products from leading manufacturers, making the information easy to incorporate into an existing course. Throughout the text, ample photos and illustrations, as well as features such as Real World Fix boxes, help readers effectively understand and service hybrid vehicles.

[Modern Criticism and Theory: A Reader, David Lodge, Nigel Wood](#) , 2008, 0582784549, 9780582784543. This third edition of "Modern Criticism and Theory" represents a major expansion on its previous incarnations with some twenty five new pieces or essays included. This expansion has two principal purposes. Firstly, in keeping with the collection's aim to reflect contemporary preoccupations, the reader has expanded "forward" to include such newly emergent considerations as ecocriticism and post-theory. Secondly, with the aim of presenting as broad an account of modern theory as possible, the reader expands "backwards" to take in exemplary pieces by formative writers and thinkers of the late nineteenth and early twentieth centuries such as Marx, Freud and Virginia Woolf.. This radical expansion of content is prefaced by a wide-ranging introduction, which provides a rationale for the collection and demonstrates how connections can be made between competing theories and critical schools. The purpose of the collection remains that of introducing the reader to

the guiding concepts of contemporary literary and cultural debate. It does so by presenting substantial extracts from seminal thinkers and surrounding them with the contextual materials necessary to a full understanding. Each selection has a headnote, which gives biographical details of the author and provides suggestions for further reading, and footnotes that help explain difficult references. The collection is ordered both historically and thematically and readers are encouraged to draw for themselves connections between essays and theories. "Modern Criticism and Theory" has long been regarded as a necessary collection. Now revised for the twenty first century it goes further and provides students and the general reader with a wide-ranging survey of the complex landscape of modern theory and a critical assessment of the way we think - and live - in the world today. David Lodge is Emeritus Professor of English Literature at the University of Birmingham, where he taught from 1960 until 1987. He is well-known as one of the most significant British novelists and critics of recent times. His work, fiction and non-fiction, has been translated into some twenty-five languages. Nigel Wood is Professor of Literature at Loughborough University. Widely published as an editor and critic, Nigel is currently working on the Longman Annotated Edition of the poems of Alexander Pope.

[The urban oasis: guideways and greenways in the human environment, Roxanne Warren](#) , 1998, 007068331X, 9780070683310. Decentralization and the flight to the suburbs have drained the economic and cultural life out of many urban communities, while driving our consumption of land and fuel to new heights. But the option of conventional planning for higher densities raises the specter of concrete landscapes filled with cars. The Urban Oasis would contrast with this image. In this thoughtful and insightful book, architect Roxanne Warren makes a compelling case for the benefits of relatively high-density, but abundantly landscaped, mixed-use, walkable new "development clusters" - as traffic-calmed or pedestrian zones. To allow sufficient land for a green living environment, car parking would be located peripherally, and automated people movers would provide around-the-clock, readily available links to regional transit networks. Whether built on rehabilitated urban land, or threaded through land on former commercial strips, such human-scale communities would combine the sociabilities of urban living with fresh air and greenery, and would aim to resolve many of the intertwined population/congestion/environmental pressures of our time. The book is packed with case studies of existing pedestrian zones in Europe and the U.S. It also contains clear and illuminating descriptions of automated people mover technologies, and in doing so, bridges the gap between humanist and technological concerns.

[Choosing to Live: Dr. Ben's Miracle, Benjamin R. Sanidad, Cecil Murphey](#) , 2001, 0972098208, 9780972098205. One beautiful March morning in 1996, Dr. Benjamin R. Sanidad, Jr., 51 began the darkest journey of his life. He collapsed while administering anesthesia for surgery at Marion General Hospital. When a friend/colleague looked down an endoscope into Dr. Sanidad's stomach, his eyes filled with tears. By then, Dr. Sanidad writes, "I was ready to hear the diagnosis. But I was not ready to hear the location." It was cancer of the esophagus, a disease usually fatal within months. Resigned to die, Dr. Sanidad accepted treatment to appease colleagues. He tried to pray asking God to draw his

family closer. "I didn't even know if God had heard me," he writes. But, after surgery, something changed in Dr. Sanidad. With the support of family and friends, he began to fight for survival. He refused chemotherapy and opted for an alternative, natural treatment. He also renewed and deepened his faith in God. Four years later Dr. Sanidad returned to work. Dr. Benjamin Roda Sanidad Jr. is an Anesthesiologist at Marion General Hospital and Marion Area Health Center, Marion, Ohio, USA. A speaker for churches and crusades over the world, he is also a retired Lt. Col. of the United States Air Force.

[Be the Difference, .](#) , 2004, 1932319131, 9781932319132. Nothing of any consequence happens in this world unless someone like you decides to make it happen. And rarely do any of us act entirely on our own; we work together. This uplifting book shows that by giving your personal best, you can make a significant difference for all of us.

[John Meyers: Soldier, Hunter, Rifleman, .](#) , 2001, 0989558525, 9780989558525. Framed around the experiences of one man from his birth in 1840 to his death in 1914, the book as it parallels Meyers life engagingly describes the development of firearms from the Springfield musket of 1842 to the .405 Winchester lever action rifle of 1905. Matthews expertly weaves his considerable knowledge of black powder firearms and earlier weapons into a story that will resonate with you at a deeper level as it expresses the enduring values we've come to cherish over the centuries.

[I'm Telling!: Drama and Puppets to Teach the Basics of the Faith, Paul Clark, Russell Reynoldson](#) , 2008, 0980380111, 9780980380118. An exciting new Australian Drama/Puppet resource series aimed at helping churches, schools and kids groups engage people with the great news of Jesus. They are tried and tested resources written by authors with over 40 years experience in adult, youth and children's ministry.

This book explains the techniques used in robust data access solutions.

[Speaker Nancy Pelosi and the New American Politics, Ronald Peters, Cindy Simon Rosenthal](#) , 2011, 0195383737,

9780195383737. When the Democrats retook control of the U.S. House of Representatives in January 2007 after twelve years in the wilderness, Nancy Pelosi became the first woman speaker in American history. Given current electoral trends, she will probably serve for many terms to come. In Speaker Nancy Pelosi and the New American Politics, Ron Peters, one of America's leading scholars of Congress, and Cindy Rosenthal, one of America's leading scholars on women and political leadership, provide a comprehensive account of how Pelosi became speaker and what this tells us about Congress in the twenty-first century. They consider the key issues that Pelosi's rise presents for American politics, and also on the core themes that have shaped, and continue to shape, her remarkable career. She has always had to deal with challenges that women face in the male-dominated world of American politics, particularly at its highest levels. The authors also focus on her political background: first as the scion of a powerful Baltimore political family whose power base lay in east coast urban ethnic politics, and later as successful politician in what is probably the most liberal city in the country, San Francisco. After exploring her roots, they trace how she built her base within the House Democratic Caucus and ultimately consolidated enough power to win the leadership. They then consider how twelve years out of power allowed her to fashion a new image for House Democrats, and close with an analysis of her institutional leadership style. The book will be the first scholarly account of this major American political leader in her institutional context, and the authors will carry the account through the first year of the Obama administration.

[Algorithms in Bioinformatics: A Practical Introduction, Wing-Kin Sung](#) , 2011, 1420070347, 9781420070347. Thoroughly Describes Biological Applications, Computational Problems, and Various Algorithmic Solutions Developed from the authors

own teaching material, *Algorithms in Bioinformatics: A Practical Introduction* provides an in-depth introduction to the algorithmic techniques applied in bioinformatics. For each topic, the author clearly details the biological motivation and precisely defines the corresponding computational problems. He also includes detailed examples to illustrate each algorithm and end-of-chapter exercises for students to familiarize themselves with the topics. Supplementary material is available at [http://www.comp.nus.edu.sg/~ksung/algo\\_in\\_bioinfo/](http://www.comp.nus.edu.sg/~ksung/algo_in_bioinfo/) This classroom-tested textbook begins with basic molecular biology concepts. It then describes ways to measure sequence similarity, presents simple applications of the suffix tree, and discusses the problem of searching sequence databases. After introducing methods for aligning multiple biological sequences and genomes, the text explores applications of the phylogenetic tree, methods for comparing phylogenetic trees, the problem of genome rearrangement, and the problem of motif finding. It also covers methods for predicting the secondary structure of RNA and for reconstructing the peptide sequence using mass spectrometry. The final chapter examines the computational problem related to population genetics.

[The Gnostic Paul: Gnostic Exegesis of the Pauline Letters, Elaine Pagels](#) , 1992, 1563380390, 9781563380396. In this highly original work, Elaine Pagels demonstrates how evidence from gnostic sources may challenge the assumption that Paul writes his letters to combat "gnostic opponents" and to repudiate their claims to secret wisdom. Drawing upon evidence from the gnostic exegesis of Paul, including several Nag Hammadi texts, the author examines how gnostic exegetes cite and interpret key passages in the letters they consider Pauline-1 & 2 Corinthians, Galatians, Ephesians, Philippians, Colossians, and Hebrews. Besides offering new insight into controversies over Paul in the second century, this analysis of gnostic exegesis suggests a new perspective for Pauline study, challenging students and scholars to recognize the presuppositions-hermeneutical and theological-involved in their own reading of Paul's letters. Elaine H. Pagels is the Harrington Spear Paine Professor of Religion at Princeton University. She is the author of *The Gnostic Gospels*, which won the National Book Award and the National Book Critics Circle Award, *The Johannine Gospel in Gnostic Exegesis*, *Adam, Eve, and the Serpent*, and the best-selling *Beyond Belief: The Secret Gospel of Thomas*.

[Ignorance: How It Drives Science, Stuart Firestein](#) , 2012, 0199939330, 9780199939336. Knowledge is a big subject, says Stuart Firestein, but ignorance is a bigger one. And it is ignorance--not knowledge--that is the true engine of science. Most of us have a false impression of science as a surefire, deliberate, step-by-step method for finding things out and getting things done. In fact, says Firestein, more often than not, science is like looking for a black cat in a dark room, and there may not be a cat in the room. The process is more hit-or-miss than you might imagine, with much stumbling and groping after phantoms. But it is exactly this "not knowing," this puzzling over thorny questions or inexplicable data, that gets researchers into the lab early and keeps them there late, the thing that propels them, the very driving force of

science. Firestein shows how scientists use ignorance to program their work, to identify what should be done, what the next steps are, and where they should concentrate their energies. And he includes a catalog of how scientists use ignorance, consciously or unconsciously--a remarkable range of approaches that includes looking for connections to other research, revisiting apparently settled questions, using small questions to get at big ones, and tackling a problem simply out of curiosity. The book concludes with four case histories--in cognitive psychology, theoretical physics, astronomy, and neuroscience--that provide a feel for the nuts and bolts of ignorance, the day-to-day battle that goes on in scientific laboratories and in scientific minds with questions that range from the quotidian to the profound. Turning the conventional idea about science on its head, Ignorance opens a new window on the true nature of research. It is a must-read for anyone curious about science.

[Ultra Goes to War: The Secret Story, Ronald Lewin](#) , 1978, 0141390425, 9780141390420. Ultra - the most effective system for reading the enemy's mind ever used in the war - was one of the world's best-kept secrets for thirty years. The Germans believed the high-level signals transmitted on their complex Enigma machine were invulnerable. But they were broken by Station X at Bletchley Park. Ronald Lewin's classic account tells the full story behind this crucial operation by the Allies during the Second World War. Basing his research on countless interviews with many of the people directly involved, including the wartime codebreakers themselves, the author gives a fascinating and comprehensive account of the work carried out by Station X. This was the source of Ultra, the 'special intelligence organization' whose top secret information was sent to Special Liaison Units in the field. In the Battle of Britain, in North Africa and Italy, in the Battle of the Atlantic, and before and after D-Day, Ultra was invaluable; small wonder that Churchill called his staff at Bletchley 'the geese who laid the golden eggs but never cackled'.
