[As the Months Go by: Poems, Donald Drayton Christie, Donald F. M. Christie](#) , 1992, 0951149288, 9780951149287.

[From Faith to Reason, Brian John Baker](#) , 2009, 0980545994, 9780980545999. Baker boldly questions the very existence of God and uses the Bible which is said to be the Word of God to provide evidence that God is NOT the Intelligent Designer creator of the universe as creationists have claimed in recent times. Here are the reasons why this former dedicated Christian Fundamentalist has not only now found personal peace but has changed into a Rationalist, Realist, Skeptic and Atheist.

[Why Do Cats Meow?, Joan Holub](#) , 2001, 0803725035, 9780803725034. Did you know: that cats use their whiskers to find their way in the dark?that dogs and wolves are relatives?that cats and dogs have many reasons for all those woofs and meows!These fun and fact-packed books take a look at the history, characteristics, and ever-interesting antics of America's most popular family members -- pet cats and dogs. Ideal for on-your-own reading or school-time reports and projects, each book contains dozens of fullcolor photographs, tips on getting to know our pets a little better, and information about the things that make cats and dogs such unique animals, and great friends.

[The Changing Face of Antisemitism: From Ancient Times to the Present Day, Walter Laqueur](#) , 2006, 0195304292, 9780195304299. For thirty years the director of the Wiener Library in London, the leading institute for the study of anti-Semitism, Walter Laqueur here offers both a comprehensive history of anti-Semitism as well as an illuminating look at the newest wave of this phenomenon. Laqueur begins with an invaluable historical account of this pernicious problem, tracing the evolution from a predominantly religious anti-Semitism--stretching back to the middle ages--to a racial anti-Semitism that developed in the late 19th and early 20th centuries. The author then uses this historical account as backdrop to a brilliant analysis of the newest species of anti-Semitism, explaining its origins and rationale, how it manifests itself, in what ways and why it is different from anti-Semitism in past ages, and what forms it may take in the future. The book reveals that what was historically a preoccupation of Christian and right-wing movements has become in our time even more frequent among Muslims and left-wing groups. Moreover, Laqueur argues that we can't simply equate this new anti-Semitism with anti-Zionism and write it off as merely anti-Israel sentiments. National and religious minority groups have been systematically persecuted from Indonesia, to Bangladesh, Rwanda, and beyond, but their fate

has not generated much indignation in Europe and America. If Israel alone is singled out for heated condemnation, is the root of this reaction simply anti-Zionism or is it anti-Semitism? Here is both a summing up of the entire trajectory of anti-Semitism--the first comprehensive history of its kind--and an exploration of the new wave of anti-Semitism that will be of interest to all concerned about the future of Jews, Judaism, and Israel.

[A Guide to Library Research Methods, Thomas Mann](#) , 1990, 0195049446, 9780195049442. With today's information explosion, students, job hunters, professionals, and researchers urgently need more than just an annotated bibliography to guide them through the bewildering maze of resources now available. Responding to this need, Thomas Mann--a reference librarian at the Library of Congress--offers us A Guide to Library Research Methods. Introducing a distinctive, new approach to the fact-finding process, this book provides not only an exceptional overview of the range of material that exists, but, more importantly, a detailed discussion of both the advantages and disadvantages of using each type of source. Mann's problem-solving technique emphasizes seven different research methods that researchers can apply to any inquiry. Used as a set of easily remembered "mental pegs," these methods enable individuals to get further into a subject more quickly, with less wasted effort. The seven research methods described include subject heading inquiries, systematic browsing, key word and citation searches, use of bibliographies, computer searches, and talking to people. A Guide to Library Research Methods should be required reading for every individual who has ever asked the question, "Where should I start looking to find out about this?"

[Poor Richard's Affiliate Marketing: Using Internet Affiliate and Associate Programs to Make Money and Sell Products, Rick Beir](#) , 2000, 0966103238, 9780966103236. Tens of thousands of the entrepreneurs who have started businesses on the Internet are now struggling alone trying to build their companies, sell their wares, and make enough money to stay afloat. With affiliate and associate programs it is possible for on-line businesses to make hard cash without a great deal of effort. Poor Richard's Affiliate Marketing explains the ins and outs of affiliate and associate programs from both the merchant and affiliate perspective. This books describes the types of programs, where to find them, how to track sales, how to market a program, what the agreement should contain, and much more.

[Put Option Writing Demystified: Earn Double-Digit Cash Returns While Waiting to Buy Stocks at a Discount, Paul D. Kadavy](#), 2003, 0971551448, 9780971551442.

Put Option Writing Demystified? is the only book devoted exclusively to the subject of generating double-digit income returns from a little-known, often misunderstood and conservative investment opportunity known as put option writing. In fact, it can be more conservative than simply owning stocks alone. And the good news is that this strategy works best during slow growth, flat or even slightly declining markets. This book fully stands on its own merits, but it can also be viewed as a companion text to Covered Call Writing Demystified? (see the book description on Amazon.com for more information). Hence the similarity in name. These are the reasons:*

Put option writing and covered call writing have essentially the same reward and risk characteristics. When used as outlined in the book, they are very conservative (unlike other uses of options)* Investors using covered call writing will find opportunities to use put option writing to achieve similar double-digit investment results, but also to have the opportunity to purchase stocks or Exchange Traded Funds at a discount from their present value.* The put option writing and covered call writing strategies can both be used within the same portfolio to achieve similar results by differing means, depending on the investor's objectives regarding the individual stock or ETF in question.

What is put option writing? Have you been tempted at times to buy a particular stock, but decided not to take the plunge because you thought it might be overpriced? or, just on a hunch, you thought you might be able to pick up the shares at a lower price? Not only might it be possible for you to buy that stock for less, but what if someone were willing to pay you cash today at a double-digit return rate and also give you the opportunity to buy it at a lower price later? Does that sound too good to be true? It's not. It's called put option writing, and it's available to you on literally thousands of stocks and Exchange Traded Funds (ETFs). Put option writing can be compared with placing a limit order to buy the stock or ETF of your choice at a lower price that you set and then being paid for it. And, you get paid whether the stock falls to your price or not!

Put Option Writing Demystified? is totally focused on providing (1) the education you need to fully understand the concepts behind put option writing and (2) a unique easy-to-follow program so that you can implement the strategy yourself without the help of a full-service broker or investment manager. The book delves deeply into the subject of how to obtain double-digit returns from both out-of-the-money puts and in-the-money puts, with out-of-the-money puts being the principal recommended strategy both for realizing the opportunity to achieve consistent double-digit investment returns while you wait to acquire stocks or ETFs of your choice at a discount to their present market value. It also provides short-term technical analysis tools to assist in guiding market forecasts and making even more profitable put

writing decisions. On May 3, 2003 after the annual meeting of his company, Warren Buffett (Chairman of Berkshire Hathaway) said to Maria Bartiromo of CNBC: "If you own equities, over the next twenty or thirty years you'll get a reasonable return—maybe its 6%, maybe its 7%. People who expect 15% a year are doomed to disappointment." If you believe that "The Oracle of Omaha" is right about a slow-growth market for decades to come, then everything that you need as an investor is here for you in this book to develop and implement a put option writing program that will help you achieve double-digit returns. In addition to presenting everything you need to know about put option writing and how to implement your own personal put writing program the book provides:

- * Use of a uniquely designed Microsoft® Excel spreadsheet for put writing to assist in reviewing writing selection alternatives so that the best decisions for you are reached to achieve your investment return goal.
- * Details about brokerage accounts, with special emphasis on the use of online discount brokerages for quick, very low cost execution of trades. Web sites for brokerages, charting sources and other technical information are provided.
- * Tax information you need for understanding and administering the income tax aspects of put option writing. This includes the opportunity for deferring taxation of income until a later tax year while enjoying the use of the income now. How will the baby boomers be able to generate sufficient income on their investments to enjoy a secure retirement? And how will they and others younger than them be able to create a sufficient asset base to provide for their financial security with the dire predictions for the long-term future that we cannot expect markets to perform anywhere near as well as they have in the past? With interest rates so low and a scarcity of acceptable investment alternatives available to investors, put option writing, as well as covered call writing, may offer two of the best possible opportunities to achieve consistent double-digit investment returns in the slow-growth market we seem sure to encounter ahead.

[In the Garden of Our Dreams: Memoirs of Our Marriage, Shirlee T. Haizlip, Harold C. Haizlip](#) , 2000, 0385497598, 9780385497596. Shirlee Taylor Haizlip, bestselling author of The Sweeter the Juice, and her husband, Harold C. Haizlip describe, with unwavering commitment to each other, their families, and their race, what hard work, good luck, and most

important, unshakable love can accomplish. Told in their alternating voices, *In the Garden of Our Dreams* is a portrait of their nearly forty-year love affair. Born into a generation reared in segregation, Harold, the Southerner, and Shirlee, the Northerner, strove not only to marry their individual differences in reaching for common happiness, but also joined the larger struggle of their generation to achieve integration and racial equality. In this intimate and moving memoir, the couple reflects on how they defined themselves as African Americans during some of the most important years in America's struggle with issues of race, class, and equality. Uplifting and romantic, *In the Garden of Our Dreams* gives all couples hope in this time of increasing cynicism about the value of marriage and the effect each individual can have in the larger struggle against society's ills.

CBS EYEWITNESS NEWS called Kathy Stevens: "#1 in the world."

[The First Eagle, Tony Hillerman](#) , 2009, 0061743666, 9780061743665. When Acting Lt. Jim Chee catches a Hopi poacher huddled over a butchered Navajo Tribal police officer, he has an open-and-shut case--until his former boss, Joe Leaphorn, blows it wide open. Now retired from the Navajo Tribal Police, Leaphorn has been hired to find a hot-headed female biologist hunting for the key to a virulent plague lurking in the Southwest. The scientist disappeared from the same area the same day the Navajo cop was murdered. Is she a suspect or another victim? And what about a report that a skinwalker--a Navajo witch--was seen at the same time and place too? For Leaphorn and Chee, the answers lie buried in a complicated knot of superstition and science, in a place where the worlds of native peoples and outside forces converge and collide.

[Arsene Lupin, Gentleman-Thief, Maurice Leblanc](#) , 2007, 1101201444, 9781101201442. The suave adventures of a gentleman roguish French Thomas Crown Created by Maurice LeBlanc during the early twentieth century, Arsene Lupin is a witty confidence man and burglar, the Sherlock Holmes of crime. The poor and innocent have nothing to fear from him; often they profit from his spontaneous generosity. The rich and powerful, and the detective who tries to spoil his fun, however, must beware. They are the target of Arsenes mischief and tomfoolery. A masterful thief, his plans frequently evolve into elaborate capers, a precursor to such cinematic creations as *Oceans Eleven* and *The Sting*. Sparkling with

amusing banter, these stories the best of the Lupin series are outrageous, melodramatic, and literate.

[Innocent Erndira and Other Stories, Gabriel Garca Mrquez](#) , 1996, 0140157522, 9780140157529. Erndira accidentally burns down her grandmother's house and is forced to pay her back with the money she earns from prostitution. However, it seems Erndira has a more appropriate way of repaying her. The book's main themes are death, power, love and duty.

[Hungry for Success, Greg Roy](#) , 1997, 0965163873, 9780965163873.

[Kill Me Tender: A Murder Mystery Featuring the Singing Sleuth Elvis Presley, Daniel Klein](#) , 2002, 0312981953, 9780312981952. Back from his tour of duty in Germany - and desperately missing his Momma - Elvis Aron Presley just isn't turned on by the music the way he used to be. Between his Machiavellian manager, the hangers-on and childhood pals crowding his Graceland mansion, and his own propensity for gobbling down fried peanut butter and banana sandwiches, the King tries desperately to get his heart back into Rock and Roll. But how can the King sing when young girls - the presidents of his fan clubs - are dying all over Tennessee? Elvis suspects foul play; to prove it, and to find the killer, he'll need to navigate the resentment, squareness, and bigotry that hound-dog him at every turn. Only by allying himself with a self-taught doctor in a small black community, his alluring - and forbidden - nurse, and a mysterious early Elvis impersonator, can Presley hope to Take Care of Business in time to save the next victim.

[A First Course in Abstract Algebra, Joseph J. Rotman](#) , 2000, 0130115843, 9780130115843. This new edition has been

completely rewritten. The four chapters from the first edition are expanded, from 257 pages in first edition to 384 in the second. Two new chapters have been added - the first 3 chapters are a text for a one-semester course; the last 3 chapters are a text for a second semester. The new Chapter 5, Groups II, contains the fundamental theorem of finite abelian groups, the Sylow theorems, the Jordan-Holder theorem and solvable groups, and presentations of groups (including a careful construction of free groups). The new Chapter 6, Commutative Rings II, introduces prime and maximal ideals, unique factorization in polynomial rings in several variables, noetherian rings and the Hilbert basis theorem, affine varieties (including a proof of Hilbert's Nullstellensatz over the complex numbers and irreducible components), and Grobner bases, including the generalized division algorithm and Buchberger's algorithm.

[Foreigners: Three English Lives, Caryl Phillips](#) , 2008, 1407016849, 9781407016849. Francis Barber, 'given' to the great eighteenth-century writer Samuel Johnson, afforded an unusual depth of freedom, which, after Johnson's death, would help hasten his wretched demise.... Randolph Turpin, Britain's first black world champion boxer, who made history in 1951 by defeating Sugar Ray Robinson, and who ended his life in debt and despair... David Oluwale, a Nigerian stowaway who arrived in Leeds in 1949, the events of whose life and death would question the reality of English justice, and serve as a wake-up call for the entire nation. Each of these men's stories is told in a different, perfectly realized voice. Each illuminates the complexity and drama that lie behind the tragedy of their lives. And each explores the themes at the heart of Caryl Phillips' work - belonging, identity, and race.

[Gangs, Ross Kemp](#) , 2007, 0718153286, 9780718153281. Across the world millions of people are members of street gangs. In groups they fight, stab, rob, rape and murder anyone who isn't one of their own. And when rival gangs meet what you get is warfare. Ross Kemp infiltrates these groups of criminals to discover who they are, what makes them tick and what the law is doing to curb their criminal activity. On his harrowing journey he: meets murderous members of the Number gang in Pollsmoor Prison in Cape Town crosses paths with Maori criminals in New Zealand gets shot at in Rio is set on fire as an initiation test for Russian Neo-Nazis Ross Kemp manages to get close to the world's most violent street gangs: he's streetwise enough to earn their trust and get them to confide their innermost secrets. It's a wild ride and not for the faint hearted.

[The Philosophy of Elizabeth Anscombe, Roger Teichmann](#) , 2008, 0191538450, 9780191538452. One of the most important philosophers of recent times, Elizabeth Anscombe wrote books and articles on a wide range of topics, including the ground-breaking monograph *Intention*. Her work is original, challenging, often difficult, always insightful; but it has frequently been misunderstood, and its overall significance is still not fully appreciated. This book is the first major study of Anscombe's philosophical oeuvre. In it, Roger Teichmann presents Anscombe's main ideas, bringing out their interconnections, elaborating and discussing their implications, pointing out objections and difficulties, and aiming to give

a unified overview of her philosophy. Many of Anscombe's arguments are relevant to contemporary debates, as Teichmann shows, and on a number of topics what Anscombe has to say constitutes a powerful alternative to dominant or popular views. Among the writings discussed are Intention, 'Practical Inference', 'Modern Moral Philosophy', 'Rules, Rights and Promises', 'On Brute Facts', 'The First Person', 'The Intentionality of Sensation', 'Causality and Determination', An Introduction to Wittgenstein's Tractatus, 'The Question of Linguistic Idealism', and a number of other pieces, including some that are little known or hard to obtain. A complete bibliography of Anscombe's writings is also included. Ranging from the philosophy of action, through ethics, to philosophy of mind, metaphysics, and the philosophy of logic and language, this book is a study of one of the most significant bodies of work in modern philosophy, spanning more than fifty years, and as pertinent today as ever.

[Texas Real Estate, Charles J. Jacobus, Bruce M. Harwood](#) , 1987, 0139122133, 9780139122132. Exceptionally complete and up-to-date, this best-selling reference covers the essentials of Texas real estate AND national real estate trends in a single integrated volume. Designed to provide users with the information and confidence needed to pass the Texas license exam and to enter the professional field, it offers a solid grounding in both principles and practice and provides valuable insight into everything from career opportunities to the nature of real estate, mortgage theory and deeds of trust.

[Completing Forgiveness: Bridging the Gap Between Forgiveness from Our Head to Releasing Forgiveness from Our Heart, Shirley Lamb](#) , 1996, .

[Investor Class Actions, Kevin E. Lindgren](#) , 2009, 0980334640, 9780980334647. "Almost every day, the financial press reports something about investor class actions that have been launched or are expected. In the current economic climate, many investors, large and small, have lost a lot of money. Often, sometimes at the instigation of a litigation funder, they identify someone to sue and join forces in a class action. The class action concept has a capacity to arouse passions. It is seen by some as providing access to justice and a means for the efficient handling by a court of numerous claims. Others perceive the class action as a procedure that enables lawyers and litigation funders to make a lot of money. Certainly the class action has given rise to its own set of issues: pleading problems; numerous and protracted interlocutory disputes; problems of proof of causation of loss and the associated US concept of "fraud on the market". This monograph comprises the papers and proceedings of a Conference on "Investor Class Actions" held at the Federal Court on 10 March 2009. The speakers at the Conference were eminently qualified to address the issues mentioned above and others."--Publisher's website.

[Hidden History of Auburn, Kelly Kazek](#) , 2011, 1609492927, 9781609492922. Auburn is not just the home to a world-class university, it is also the home of a storied community with deep roots in Alabama history. Join author and Auburn

University alumna, Kelly Kazek, as she tracks the lesser-known history of both the city and the school. In this diverse collection of lost, forgotten, or just plain strange history, Kazek uses her decades of experience as a journalist to dig deep and cast a wide net, revealing stories sure to surprise even the most seasoned Auburn experts. From the mysterious origins of some AU's most hallowed traditions, to tales that stretch back to the very founding of the city, Hidden History of Auburn is an unprecedented collection that unearths the long-buried stories of this Alabama treasure.

[ICIAM 99: Proceedings of the Fourth International Congress on Industrial & Applied Mathematics, Edinburgh, John MacLeod Ball, Julian C. R. Hunt](#) , 2000, 0198505140, 9780198505143. The Proceedings of the Fourth International Congress on Industrial and Applied Mathematics, Edinburgh, includes talks from the 30 plenary speakers who between them covered the gamut of applied mathematics in topics such as superconductivity (S.J. Chapman, Oxford); elastic media (A. Friedman, Minnesota); mathematical modelling of the Internet (F. Kelly, Cambridge); Monte Carlo methods for financial applications (S. Tezuka, IBM Tokyo); liquid turbulence, partial differential equations, discrete optimisation, and computational aspects of all these topics. Speakers J.A. Sethia (Berkeley), J.K. Lenstra (CWI, Amsterdam), R.V. Kohn (Courant Institute, New York), S. Muller (Leipzig, Germany), C. Johnson (Goteborg, Sweden). Also included are summaries of the mini symposia, and details of the prizes. This important summary of topical and applicable mathematics from the world's leaders in the subject is a 'must-have' reference volume for graduate students and researchers interested in applied and computational mathematics.

[Electronic Access Control, Thomas L. Norman](#) , 2011, 0123820294, 9780123820297. Access Control Systems are difficult to learn and even harder to master due to the different ways in which manufacturers approach the subject and the myriad complications associated with doors, door frames, hardware, and electrified locks. Electronic Access Control consolidates this information, covering a comprehensive yet easy-to-read list of subjects that every Access Control System Designer, Installer, Maintenance Tech or Project Manager needs to know in order to develop quality and profitable Alarm/Access Control System installations. Within these pages, Thomas L. Norman, a master at electronic security and risk management consulting and author of the industry reference manual for the design of Integrated

Security Systems, describes the full range of EAC devices -- credentials, readers, locks, sensors, wiring, and computers, showing how they work, and how they are installed. The book presents an arcane and complex subject with a conversational and layered learning approach that results in a thorough understanding of each point, thus offering quick career advancement potential to students and prospective security professionals. A comprehensive introduction to all aspects of electronic access control Provides information in short bursts with ample illustrations Each chapter begins with outline of chapter contents and ends with a quiz May be used for self-study, or as a professional reference guide

[The Complete Khaled Hosseini: Digital Box Set, Khaled Hosseini](#) , 2010, 1408817985, 9781408817988. In Hosseini's unforgettable debut novel, *The Kite Runner*, twelve-year-old Amir is desperate to win the local kite-fighting tournament and his loyal friend Hassan promises to help him. But neither of the boys can foresee what will happen to Hassan that afternoon, an event that is to shatter their lives. After the Russians invade and the family is forced to flee to America, Amir realises that one day he must return to an Afghanistan under Taliban rule to find the one thing that his new world cannot grant him: redemption. In his second novel, *A Thousand Splendid Suns*, Hosseini begins his story with Mariam, who is only fifteen when she is sent to Kabul to marry Rasheed. Nearly two decades later, a friendship grows between Mariam and a local teenager, Laila, as strong as the ties between mother and daughter. When the Taliban take over, life becomes a desperate struggle against starvation, brutality and fear. Yet love can move a person to act in unexpected ways, and lead them to overcome the most daunting obstacles with a startling heroism.

[Bembo Book and CD, Claire Fontijn Associate Professor of Musicology Wellesley College](#) , 2006, 0195350553,

9780195350555. One of the most fascinating figures of seventeenth-century music, composer and singer Antonia Padoani Bembo (c.1640 - c.1720) was active in both Venice and Paris. Her work provides a unique cross-cultural window into the rich musical cultures of these cities, yet owing to her clandestine existence in France, for almost three centuries Bembo's life was shrouded in mystery. In this first-ever biography, Clare Fontijn unveils the enthralling and surprising story of a remarkable woman who moved in the musical, literary, and artistic circles of these European cultural centers.

[Giraffe, J. M. Ledgard](#) , 2007, 0099490536, 9780099490531. In 1975, on the eve of May Day, secret police sealed off a zoo in a small Czechoslovakian town and ordered the destruction of the largest captive herd of giraffes in the world.

Ledgard tells the story of the giraffes from the moment of their capture in Africa to their deaths behind the Iron Curtain.

We see them first through the eyes of Emil, a haemodynamicist (he studies blood flow in vertical creatures) who is chosen to accompany them from Hamburg into Czechoslovakia. There Amina, a sleepwalker, a factory girl, glimpses their arrival and goes each day to gaze up at them. She is with them at the end, blinding them with a torch, as Jiri, a sharpshooter, brings them down one by one. Giraffe is a story about strangeness, about creatures that are alien. It is also a story about captivity, about Czechoslovakia, a middling totalitarian state in the middle of Europe that is itself asleep, under a spell, a nation of sleepwalkers.

[The Oxford Book of the Sea, Jonathan Raban](#) , 1993, 0192831488, 9780192831484. Truly the source of eternal fascination, the sea is one of the enduring subjects of literature, and certainly the most protean. Indeed, the sea in literature is as liquid and as volatile as the sea in life, shaping itself anew for every writer and every generation. For Addison and Burke, it was the realm of the sublime, of "foaming billows and floating mountains," of agreeable horror." For Romantics such as Turner, it was pure, unpeopled nature at its wildest and most magnificent, and for Coleridge, a mysterious and hallucinogenic place. And if for Melville it was a bountiful sea of metaphor, for Ben Franklin it was devoid of metaphor but teeming with natural wonders, curiosities, and lessons. Truly the source of eternal fascination, the sea is one of the enduring subjects of literature, and certainly the most protean. Now, inveterate sailor and bestselling author of *Hunting Mister Heartbreak*, Jonathan Raban, has compiled a remarkable anthology of our changing visions of the sea, a rich treasury of writings as varied and enthralling as the ocean itself. Arranged chronologically, and spanning everything from Anglo-Saxon poetry to modern oceanography, these excerpts capture the work of poets, novelists, scientists, explorers, in a collection that blends the practical with the beautiful, the comic with the terrifying. Readers can savor Samuel Eliot Morison's picture of October spring tides on the coast of Maine, "when the blueberry bushes on top of the granite cliffs turn a brilliant crimson and the maple near shore sends up torches of gold and scarlet among the evergreen, all reflected in the quiet waters." Or James Boswell's intimate portrait of Samuel Johnson below deck, "lying in philosophical tranquillity, with a greyhound of Col's at his back, keeping him warm." Or Dickens' comic memoir of being

seasick on a rolling deck ("I found myself standing...holding on to something. I don't know what. I think it was the boatswain: or it may have been the pump: or possibly the cow"). Those who love nature writing will find that Raban includes a wide selection, such as Darwin's account of the Beagle surging through a glimmering, phosphorescent nighttime sea, Rachel Carson's explanation of the color of the sea, and David Lewis's discovery that Pacific islanders navigate more by feel than by sight, by the roll and pitch of their vessels as they corkscrew over the waves. And for everyone who loves great writing, Raban includes not only passages from the great sea classics--such as Moby Dick, The Old Man and the Sea, and Two Years Before the Mast--but also lesser-known gems by writers such as Virginia Woolf, James Joyce, Elizabeth Bishop, E.B. White, Emily Dickinson, and John Barth. Whether you love Darwin or Rachel Carson, Joseph Conrad or Robert Lowell, The Oxford Book of the Sea is as bountiful and alluring as its subject. For everyone interested in the sea, from sailors and beachcombers to armchair voyagers, and for everyone drawn to fine writing, this book is an excursion you won't want to miss.

[UK Airfields of the Cold War, Philip Birtles](#) , 2012, 1857803469, 9781857803464. Written by an accomplished military aviation author, this new study is the result of many years of research, and will be essential reading for all historians of the period and keen aviation enthusiasts. There is growing interest in the Cold War era in British history. This book provides a new study of Cold War airfields for all who study airfield history and archaeology. Phillip Birtles gives readers airfield-by-airfield coverage of those in operation from the start of the Cold War during the Berlin Air Lift in the late 1940s to the end of the Cold War with the fall of the Berlin Wall at the end of the 1980s. The book covers both RAF/FAA and USAF airfields in Britain, and charts the changes that took place at these airfields in this period. Alongside descriptive text outlining each airfield, the units and aircraft operating from that airfield and its role in the Cold War are explained in great detail. Descriptive text is complemented by contemporary photographs, maps, and airfield plans.

[At Any Cost: Love, Life and Death at Sea, Peter Tangvald](#) , 1991, 094442807X, 9780944428078. This sailing thriller chronicles the life of a zealous Norwegian cruising yachtsman & author aboard his 50 foot wooden sailboat, L'ARTEMIS DE PYTHEAS. After building his yacht himself in French Guiana, Peter Tangvald & his young wife set off on an adventure

that brings them both great joy & incredible tragedy. Tangvald experiences the joy of the birth of his children at sea, & despair after losing two wives at sea, one murdered by ruthless pirates & one swept overboard in a dreadful accident. This extraordinary man traveled to obscure corners of the world, testing the boundaries of his strength & endurance. He left us this legacy before the sea claimed his life & that of his young daughter in 1991 off the coast of Bonaire. His son, Thomas, is the lone survivor of this ill fated family. AT ANY COST - LOVE, LIFE & DEATH AT SEA can be purchased directly from the publisher: Cruising Guide Publications, P.O. Box 1017, Dunedin, FL 34697-1017. Wholesale prices are available on request.

[The Most Beautiful Book in the World: 8 Novellas, Eric-Emmanuel Schmitt](#) , 2009, 1609459946, 9781609459949. One of Europe's most popular and best-loved authors, Eric-Emmanuel Schmitt captivates the reader with his spirited, buoyant style and enchanting stories that move effortlessly from the everyday to the fantastical. The eight stories in this collection, his first to be published in English, represent some of his best writing and most imaginative storylines: from the love story between Balthazar, wealthy and successful author, and Odette, cashier at a supermarket, to the tale of a barefooted princess; from the moving story of a group of female prisoners in a Soviet gulag to the entertaining portrait of a perennially disgruntled perfectionist. Here are eight contemporary fables, populated by a cast of extravagant and affecting characters, about people in search of happiness. Behind each story lies a simple, if elusive, truth: happiness is often right in front of our eyes, though we may frequently be blind to it.

[Stray Cats, Lillian Mousli](#) , 2014, 1593622104, 9781593622107. Penny is an embarrassment to her wealthy parents, and suffers the mental anguish of their disappointment. Paul, from "the wrong side of town," deals with physical pain as he endures the brutal beatings administered by his father. Their time together provides their only moments of happiness. One fateful evening, Penny sneaks away, following the lure of a stray cat at her window. The freedom of the night is exhilarating, and she loses herself in this new world. But the night is dangerous, and Penny soon realizes her folly, even as she is engulfed by the darkness. Meanwhile, Paul fights for his very life after a particularly vicious attack from his father. During their separate journeys, it is only their love for one another, and the hope of being reunited, that sustains them in the darkness.

[China Goes Global: The Partial Power, David Shambaugh](#) , 2013, 0199323690, 9780199323692. Most global citizens are well aware of the explosive growth of the Chinese economy. Indeed, China has famously become the "workshop of the world." Yet, while China watchers have shed much light on the country's internal dynamics--China's politics, its vast social changes, and its economic development--few have focused on how this increasingly powerful nation has become more active and assertive throughout the world. In China Goes Global, eminent China scholar David Shambaugh delivers the book that many have been waiting for--a sweeping account of China's growing prominence on the international stage. Thirty years ago, China's role in global affairs beyond its immediate East Asian periphery was decidedly minor and it had little geostrategic power. Today however, China's expanding economic power has allowed it to extend its reach virtually everywhere--from mineral mines in Africa, to currency markets in the West, to oilfields in the Middle East, to agribusiness in Latin America, to the factories of East Asia. Shambaugh offers an enlightening look into the manifestations of China's global presence: its extensive commercial footprint, its growing military power, its increasing cultural influence or "soft power," its diplomatic activity, and its new prominence in global governance institutions. But Shambaugh is no alarmist.

In this balanced and well-researched volume, he argues that China's global presence is more broad than deep and that China still lacks the influence befitting a major world power--what he terms a "partial power." He draws on his decades of China-watching and his deep knowledge of the subject, and exploits a wide variety of previously untapped sources, to shed valuable light on China's current and future roles in world affairs.

[Managing Your Move to Object Technology: Guidelines and Strategies for a Smooth Transition, Barry McGibbon](#) , 1995, 0132420090, 9780132420099. Written for software managers, Managing Your Move to Object Technology clearly defines and illustrates the management implications associated with the transition to object technology. Although other books may cover the technological benefits of OT, this is one of the few to address the business management issues associated with new technology and the corporate environment. It covers what OT will do to the corporate culture, not simply what it will do for it. In frank and concise terms, the author answers questions about how an organization needs to change to make a successful migration to object technology. This book is also invaluable to organizations that have experienced difficulties with the introduction of OT. This book should be required reading for all IS and IT development managers, project leaders, and team captains who want to improve the effectiveness of the software development staff. It is also ideal for CIOs or Managing Directors who are considering object technology for future product or system development. As with any new technology, the challenge does not come from the methods or the toolsets but from an organization's ability to embrace a new approach.

[Smelly Peter: The Great Pea Eater, Steve Smallman, Joelle Dreidemy](#) , 2012, 184895283X, 9781848952836. "Young Peter Ped was a little bit odd. He ate nothing but peas, fresh or canned. He ate peas for breakfast and brunch, for dinner and lunch 'til he tooted just like a brass band!" Peter loves peas but the peas make him a little smelly. Then one day, Peter turns as green as a pea--and he can't stop tooting! At school his classmates tease him but on the way home some aliens spot Peter, take him to their planet, Krell and declare him King! On the alien planet, Peter is loved for being green and incredibly smelly. The only problem is the planet lacks peas. Peter is slowly turning pink and smelling sweeter so the aliens return Peter back to his home where he decides on a new food to love!

[The Last Pope, Luis Miguel Rocha](#) , 2009, 0141042699, 9780141042695. Vatican City, 29 September 1978: the world wakes to the shocking news that Pope John Paul I is dead, just a month after his accession. Thirty years later, in London, young journalist Sarah Monteiro receives a mysterious package. Enclosed is a list of names and a coded message. Moments later a masked assassin attempts to silence her for ever. It seems Sarah holds the key to unveiling a deadly secret a plot that implicates unscrupulous mercenaries and crooked politicians, and which goes to the very heart of the Vatican. Sarah has no choice but to run, forced into a ruthless game of cat-and-mouse. She can trust no one, especially when her father s name appears on the incriminating list. Sarah finds herself at the centre of a world-wide conspiracy its keepers will stop at nothing to protect.

[A Summer Affair, Susan Wiggs](#) , 2010, 1426853890, 9781426853890. A gifted but troubled physician, Blue Calhoun runs a thriving medical practice from his Nob Hill mansion in San Francisco while raising his son alone after an unthinkable tragedy. Then one day a female fugitive with a gunshot wound appears in Blue's surgery. Even though she holds a pistol aimed at his heart, the desperation in her eyes awakens Blue's compassion. Reluctantly he is drawn to her fragile beauty, her nerves of steel and the mystery surrounding her circumstances. Isabel Fish-Wooten has spent most of her life on the run, but everything changes when she forces a stranger to save her life. Yet her rescue comes with an unexpected price. As Isabel recovers from her wounds, she finds herself touched by this remarkable man and yearns to reach out to him and his rebellious son. From danger-filled back alleys to the glittering ballrooms of high society, Isabel and Blue confront the violence and corruption that threatens their newfound passion. Theirs is an unforgettable quest to discover a rare and special love, and the precious gift of a second chance at happiness.

[Interaction Design: Beyond Human - Computer Interaction, Yvonne Rogers, Helen Sharp, Jenny Preece](#) , 2011, 0470665769, 9780470665763. A revision of the #1 text in the Human Computer Interaction field, Interaction Design, the third edition is an ideal resource for learning the interdisciplinary skills needed for interaction design, human-computer interaction, information design, web design and ubiquitous computing. The authors are acknowledged leaders and educators in their field, with a strong global reputation. They bring depth of scope to the subject in this new edition, encompassing the latest technologies and devices including social networking, Web 2.0 and mobile devices. The third edition also adds, develops and updates cases, examples and questions to bring the book in line with the latest in Human Computer Interaction. Interaction Design offers a cross-disciplinary, practical and process-oriented approach to Human Computer Interaction, showing not just what principles ought to apply to Interaction Design, but crucially how they can be applied. The book focuses on how to design interactive products that enhance and extend the way people communicate, interact and work. Motivating examples are included to illustrate both technical, but also social and ethical issues, making the book approachable and adaptable for both Computer Science and non-Computer Science users. Interviews with key HCI luminaries are included and provide an insight into current and future trends. The book has an accompanying website www.id-book.com which has been updated to include resources to match the new edition.

[Wandlore, Alferian Gwydion MacLir](#) , 2012, . Learn the secrets of wandmaking and gain a powerful new tool for magical workings of all sorts. This enchanting, one-of-a-kind guidebook is for anyone who's ever wanted to know how magic wands work or longed to have a real magic wand of his or her own. Written by the foremost authority on the making of wands, this book is the first devoted solely to the art of wandmaking and its mysteries. Discover how a tree branch is transformed into a wand of magic, from selecting the wood and working in harmony with the tree spirits (or dryads) to understanding the magical correspondences of different stones, colors, and metals. Wandlore reveals aspects of wand theory that have never been discussed before in print--such as how the four-part design of a magic wand relates to the four alchemical elements, and the role of astrology, elemental correspondences, and the spheres of existence in wandmaking. It shares the magical process for empowering wand cores using phoenix feathers, unicorn hair, and elements of other mythical creatures. This groundbreaking masterwork belongs in the library of every practicing magician, witch, wizard, or druid.

[Pippi's Extraordinary Ordinary Day, .](#) , 1999, 0670880736, 9780670880737. Provides beginning readers with a lively illustrated compilation of adventurous tales as Pippi, the unique and unusual, goes about doing everything she does in her own special way.

[Uc/TCP-IP and the Stmicroelectronics Stm32f107, Christian Lgar, L Gar Christian](#) , 2010, 0982337507, 9780982337509. This two-part book puts the spotlight on how a TCP/IP stack works using Micrium 's uC/TCP-IP as a reference. Part I includes an overview of the basics of Internet Protocol, and walks through various aspects of uC/TCP- IP implementation and usage. Part II makes use of the versatile Evaluation Board uC/Eval-STM32F107 (sold separately through Micrium) that is available for use with the book uC/OS-III: The Real-Time Kernel, as well as the IAR EWARM Development

Environment and Application Examples for the ST Microelectronics STM32F107. The application examples in Part II of this book enable readers to develop their own prototypes using the expandable Evaluation Board. This book is written for serious embedded systems programmers, consultants, hobbyists, and students interested in understanding the inner workings of a TCP/IP stack. uC/TCP-IP is not just a great learning platform, but also a full commercial-grade software package, ready to be part of a wide range of products. The topics covered in this book include: Ethernet technology and device drivers IP connectivity Client and Server architecture Socket programming UDP performance TCP performance System network performance

[Children's rights: twenty-fifth report of session 2008-09, report, together with formal minutes and oral and written evidence, Great Britain: Parliament: Joint Committee on Human Rights, Stationery Office \(Great Britain\)](#) , 2009, 0108458997, 9780108458996. Surveys by UNICEF and others of the well-being of children and young people have found that the UK is ranked lower than almost all other industrialised countries. The Committee has previously considered children's rights in the context of the UN Convention on the Rights of the Child (UNCRC) which the UK ratified in 1991. This report follows up some of the issues that have been raised previously in the light of the latest Concluding Observations of the UN Committee which monitors compliance with the UNCRC. The Committee recommends that there should be a UK plan for implementation of the recommendations of the UN Committee on the UNCRC, with annual reports on progress. The UNCRC found that there was a general climate of intolerance and negative attitude towards children in the UK, which the Committee would like to see addressed. A large number of discrimination issues were also raised by witnesses which could be addressed by the UNCRC implementation plan. Also recommended is the Equality Bill be amended to extend protection from age discrimination to people regardless of their age in relation to the provision of goods, facilities and services, except where the discrimination can be justified. The Committee looked at the situation of a large number of children from vulnerable and marginalised groups are in the criminal justice system and the growing number of offences for which children can be charged and convicted. The Committee welcomes the withdrawal of the UK's reservation to Article 22 of the UNCRC, which related to immigration, but they question why this has not led to changes in policy and practice.

[Reclaiming Your Heart: A Journey Back to Laughing, Loving, and Living, Denise Hildreth Jones](#) , 2013, 1414382766, 9781414382760. Have you ever wondered where the abundant life Scripture promises is, and how you seem to have missed it? Do you ever catch yourself saying, Those were the best years of my life? A failed relationship, a health crisis, a job loss, the death of a loved one all can cause us to hide out, go numb, give up. Before we even know it, we were simply coping with life instead of living it to the fullest. It happens to most of us at one point or another. For author and Bible study teacher Denise Hildreth Jones, it happened in the wake of her devastating divorce. But she fought desperately to reclaim her God-designed heart, and now, in her transparent, authentic style, Denise challenges you to do the same. Sharing stories from her own journey and others she's walked alongside, Denise will help you identify ways you've given your heart to lesser gods like performance, people-pleasing, and control, and how to find your way back to God's design for your life to laughing, loving, and living life to the fullest.

[No More Beyond 2070, Dorothy Neill](#) , 2012, 098581960X, 9780985819606. A little over 100 years ago, Pierre Berchelt, a French scientist, stood up at a symposium of his peers in Paris, and declared, "Within 100 years man will have discovered the secrets of the atom. And when he does, God is going to come down with His big ring of keys and say, "Gentlemen, it is closing time." That time is at hand. The great and terrible Day of the Lord - during which the events of the Book of Revelation will all come to pass - has begun. The signs are everywhere! We live in a world that puts good for evil and evil for good. Sin proliferates at every level of society. The beast of the Great Tribulation - also called the Antichrist - is already visible on the horizon. And before the return of Christ, the Earth will first quake under the fist of His adversary,

the devil's own progeny. And feel the wrath of Almighty God. This book accurately and in detail interprets the prophecies of Revelation and explains the terrifying events of Revelation. It sets out an easily understood Timeline for the Second Coming of Christ. No More Beyond 2070 is a book unlike any other. It will build your faith and fill you with a wisdom and understanding like no book you have ever read. It is the only Guide Book - other than the Bible - which you will need to prepare for the endtimes.

[Who Has What?: All about Girls' Bodies and Boys' Bodies, , Robie H. Harris](#) , 2011, 0763629316, 9780763629311. The trusted, New York Times best-selling author of It's Perfectly Normal presents a charming and reassuring picture book series for preschoolers. Young children are curious about almost everything. Asking questions is one of many ways they learn about themselves and the world around them. Now, this unique series for our youngest children provides easy-to-understand facts and answers to their delightful, thoughtful, and often nonstop questions. Launching the series is WHO HAS WHAT?, a simple story following Nellie and Gus on a family outing to the beach. Humorous illustrations, conversations between the siblings, and a clear text all reassure young kids that whether they have a girl's body or a boy's, their bodies are perfectly normal, healthy, and wonderful. Authoring the series is Robie H. Harris, whose nonfiction books are known as the source for addressing kids' questions about themselves, their families, and their friends. Nadine Bernard Westcott's accurate and entertaining illustrations offer an inviting way for children to discover straightforward, fascinating information about themselves.

[Neurology, Chantal Simon](#) , 2006, 0199298041, 9780199298044. Neurology is just one of the titles from the Oxford General Practice Library. This unique series of pocketbooks provides GPs with comprehensive coverage of specific topics in general practice which are linked directly to the requirements of the new GP Contract, and explains how GPs can maximize their salaries. For each book in this ground-breaking series, the authors have expanded on a major section from the best-selling Oxford Handbook of General Practice, adding a host of useful features.

[The Great World, David Malouf](#) , 1999, 0099273861, 9780099273868. Every city, town and village has its memorial to war. Nowhere are these more eloquent than in Australia, generations of whose young men have enlisted to fight other people's battles - from Gallipoli and the Somme to Malaya and Vietnam. In THE GREAT WORLD, his finest novel yet, David Malouf gives a voice to that experience. But THE GREAT WORLD is more than a novel of war. Ranging over seventy years of Australian life, from Sydney's teeming King's Cross to the tranquil backwaters of the Hawkesbury River, it is a remarkable novel of self-knowledge and lost innocence, of survival and witness.

[Complex Made Simple, David C. Ullrich](#) , , 0821872540, 9780821872543. Perhaps uniquely among mathematical topics, complex analysis presents the student with the opportunity to learn a thoroughly developed subject that is rich in both theory and applications. Even in an introductory course, the theorems and techniques can have elegant formulations. But for any of these profound results, the student is often left asking: What does it really mean? Where does it come from? In *Complex Made Simple*, David Ullrich shows the student how to think like an analyst. In many cases, results are discovered or derived, with an explanation of how the students might have found the theorem on their own. Ullrich explains why a proof works. He will also, sometimes, explain why a tempting idea does not work. *Complex Made Simple* looks at the Dirichlet problem for harmonic functions twice: once using the Poisson integral for the unit disk and again in an informal section on Brownian motion, where the reader can understand intuitively how the Dirichlet problem works for general domains. Ullrich also takes considerable care to discuss the modular group, modular function, and covering maps, which become important ingredients in his modern treatment of the often-overlooked original proof of the Big Picard Theorem. This book is suitable for a first-year course in complex analysis. The exposition is aimed directly at the students, with plenty of details included. The prerequisite is a good course in advanced calculus or undergraduate analysis.

[Migritude, Shailja Patel](#) , 2010, 1885030053, 9781885030054. The U.S. debut of internationally acclaimed poet and performance artist Shailja Patel, *Migritude* is a tour-de-force hybrid text that confounds categories and conventions. Part

poetic memoir, part political history, Migritude weaves together family history, reportage and monologues to create an achingly beautiful portrait of women's lives and migrant journeys undertaken under the boot print of Empire. Patel, who was born in Kenya and educated in England and the U.S., honed her poetic skills in performances of this work that have received standing ovations throughout Europe, Africa and North America. She has been described by the Gulf Times as "the poetic equivalent of Arundhati Roy" and by CNN as "the face of globalization as a people-centered phenomenon of migration and exchange." Migritude includes interviews with the author, as well as performance notes and essays.

[Ethics and the Rule of Law, David Lyons](#) , 1984, 0521277124, 9780521277129. An introduction to the philosophy of law, which offers a modern and critical appraisal of all the main issues and problems. This has become a very active area in the last ten years, and one on which philosophers, legal practitioners and theorists and social scientists have tended to converge. The more abstract questions about the nature of law and its relationship to social norms and moral standards are now seen to be directly relevant to more practical and indeed pressing questions about the justification of punishment, civil disobedience, the enforcement of morality, and problems about justice, rights, welfare, and freedom. David Lyons is a shrewd, clear and systematic guide through this tangled area. The book presupposes no formal training in law or philosophy and is intended to serve as a textbook in a range of introductory courses.

[Naples! #1, Giada De Laurentiis](#) , 2013, 0698152689, 9780698152687. When Zia Donatella comes to live with the Bertolizzi family, little do Alfie and his older sister Emilia know what's in store for them. Zia Dontella is determined to show the kids how a home-cooked meal is better than even the best take-out pizza or burrito. And when Zia's plan actually transports Alfie and Emilia to famous food cities around the world, they learn first-hand how food can not only take you places but can also bring you back home. Alfie and Emilia find themselves transported to Naples, where they meet Marco, a young Italian boy on a very important mission to shop for the essential ingredients for his family's entry in the city's annual pizzafest contest. In their whirlwind search for the perfect items, Alfie and Emilia not only get a taste of Italy, but also find themselves refereeing a family feud between Marco's family and his uncle's family.

[Breaking Through the Glass Ceiling: Women in Management, ISSN 0378-5904, Linda Wirth](#) , 2001, 9221108457, 9789221108450. Women around the world have achieved higher levels of education than ever before and today represent more than 40 percent of the global workforce. Yet their share of management positions remains unacceptably low. This timely study reviews the changing position of women in the labor market and in professional and managerial work. It examines the obstacles to women's career development and the action taken to improve their opportunities and promote gender equality. This report discusses the earnings gap between men and women, as well as the occupational segregation that exists in management. It examines the situation of women managers in the area of public service as well as the financial, business, and banking sectors, while providing valuable figures and statistical information. Useful career strategies are offered including mentoring, networking, and career tracking approaches. This important study provides a vivid photograph of national and international efforts to improve gender equality in management.

Tocci and Widmer use a block diagram approach to basic logic operations, enabling readers to have a firm understanding of logic principles before they study the electrical characteristics of the logic ICs. KEY TOPICS For each new device or circuit, the authors describe the principle of the operation, give thorough examples, and then show its actual application. An excellent reference on modern digital systems.

[Promoting Social Inclusion in Adaptation to Climate Change: Discussion Paper, Janet Stanley, Bob Birrell, Robert Birrell,](#)

[Ernest Healy](#) , 2010, 0980638747, 9780980638745. "In partnership with the Department of Sustainability and Environment and the federal Department of Climate Change, the Western Port Greenhouse Alliance has undertaken a series of studies on climate change adaptation. The Alliance encompasses the Local Government Shires of Mornington Peninsula, Cardinia and Bass Coast and the Cities of Frankston and Casey. This discussion paper builds on this work. The paper reviews the issue of social adaptation, especially for those who are at risk of social exclusion or those who are faced with barriers to full participation in society. Ability to adapt to climate change will depend on the specific climate event, government policy, living location, planning and preparation, and person, social, psychological and economic factors. The report offers a range of suggestions to facilitate adaptation. These include maximising the reduction of greenhouse gasses, government policies and regulation, improving urban structure and public transport, and facilitating the ability for communities to assist themselves through the promotion of social capital and connections with the community. The report provides an initial scoping of adaptation processes and programs already being undertaken in some of the Local Government Areas"--Summary.

[The Bloody Moonlight, Fredric Brown](#) , 2004, 1596541172, 9781596541177. Ed and Am have gotten away from the Carney life. These days, they're working for the Starlock Detective Agency. Ed's first case is a wealthy client trying to sound out whether an investment's worth it. But then he finds a body with its throat cut, and hears some external howling that might just be from a werewolf.

[Excalibur - the Last Quest, Roger D. Grubbs](#) , 2009, 0981668054, 9780981668055. Having found the Legendary Round Table of King Arthur, it is immediately discovered that only one thing is missing - EXCALIBUR! Once in place, along with the twelve other swords, the magical powers of Camelot will be rekindled. Realizing the invincible power embodied in Excalibur will be transferred to its bearer, leads to a hunt with far reaching effects. With the potential to rule the world at stake, everyone rushes into a frantic search to lay hold on this powerful, mystical sword. After weighing the consequences, the President of the United States took the lead role in the search. He had only one choice - solicit the help of the famous Dr. Andrew Rogers - an archeological expert - and his newly acquired assistant, Dr. Kathleen McGregor. Interrupting a dinner engagement used to celebrate their return from the last mission, In Search of Paradise, the duo must now find Excalibur at all costs. During their quest the two uncover more than they bargained for. Will they find Excalibur? What is the mystery that unites the Glastonbury Abbey, the Tintagel Castle, Merlin, and the Lady of the Lake? Can this mystery be solved in time to avert an event of catastrophic proportions?

[From Grief Into Vision: A Council, Deena Metzger](#) , 2007, 0972071806, 9780972071802. Never before in our history as a human race have we been confronted with such grave concerns: the devastation of the environment, global terrorism, vast abuse of political and religious powers, destruction of species and threats to every life form upon this planet. How do we sustain our hope, and our vision of a viable future? Inevitably such disasters are opportunities to draw us together as a people to try to heal ourselves and the Earth. Deena: It is a difficult and sorrowful story that we are in. It requires everything of each of us who have enough love, sorrow and courage in our hearts. We have to find the pieces of this story that may yet sustain creation. Deena s journey, as chronicled in Entering the Ghost River, continues as she returns to Africa and is once again visited by the male elephant elder she calls The Ambassador . Inspired by this continued connection, she interweaves the threads of her community s stories, dreams and visions to create a new form of council on the page, as an offering to us of the wisdom that the circle creates.

[Tools for Thought: The History and Future of Mind-expanding Technology, Howard Rheingold](#) , 2000, 0262681153,

9780262681155. The digital revolution did not begin with the teenage millionaires of Silicon Valley, claims Howard Rheingold, but with such early intellectual giants as Charles Babbage, George Boole, and John von Neumann. In a highly engaging style, Rheingold tells the story of what he calls the patriarchs, pioneers, and infonauts of the computer, focusing in particular on such pioneers as J. C. R. Licklider, Doug Engelbart, Bob Taylor, and Alan Kay. Taking the reader step by step from nineteenth-century mathematics to contemporary computing, he introduces a fascinating collection of eccentrics, mavericks, geniuses, and visionaries. The book was originally published in 1985, and Rheingold's attempt to envision computing in the 1990s turns out to have been remarkably prescient. This edition contains an afterword, in which Rheingold interviews some of the pioneers discussed in the book. As an exercise in what he calls "retrospective futurism," Rheingold also looks back at how he looked forward.

Vintage Crime is just one of ten Vintage Classic Twins to collect. Each twin consists of two books: a specially designed limited edition of one modern classic title and one established classic work. The books in each pair have been carefully selected to provide a thought-provoking combination. Crime and Punishment: A troubled young man commits the perfect crime. Raskolnikov is desperate for money, but convinces himself that his motive for murder is to benefit mankind. So begins one of the greatest novels ever written, a journey into the criminal mind, a police thriller, and a meditation on morality and redemption. Ripley's Game: Tom Ripley detested murder. Unless it was absolutely necessary. If possible, he preferred someone else to do the dirty work. In this case someone with no criminal record, who would commit 'two simple murders' for a very generous fee. . .

[Religion in America: A Very Short Introduction, Timothy Beal](#) , 2008, 0195321073, 9780195321074. It's hard to think of a single aspect of American culture, past or present, in which religion has not played a major role. The roles religion plays, moreover, become more bewilderingly complex and diverse every day. For all those who want whether out of

curiosity, necessity, or civic duty a vivid picture and fuller understanding of the current reality of religion in America, this Very Short Introduction is the go-to book they need. Timothy Beal describes many aspects of religion in contemporary America that are typically ignored in other books on the subject, including religion in popular culture and counter-cultural groups; the growing phenomenon of "hybrid" religious identities, both individual and collective; the expanding numbers of new religious movements, or NRMs, in America; and interesting examples of "outsider religion," such as Paradise Gardens in Georgia and the People Love People House of God in Ohio. He also offers an engaging overview of the history of religion in America, from Native American traditions to the present day. Beal sees three major forces shaping the present and future of religion in America: first, unprecedented religious diversity, which will continue to grow in the decades to come; second, the information revolution and the emergence of a new network society; and third, the rise of consumer culture. Taken together, these forces offer the potential to create a new American pluralism that would enrich society in unimaginable ways, but they also threaten the great ideal of *e pluribus unum*. With visual aids that help readers navigate America's diverse religious landscape, this informative, thoughtful, and provocative book is a must-read in the emerging public conversation concerning religion in America. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

[Monadnock: More Than a Mountain, Craig Brandon](#) , 2007, 0979506719, 9780979506710. Mount Monadnock in southern New Hampshire, one of the most hiked mountains in the world, has a long and colorful history dating back to the middle 1700s. Because it is near Boston and New York it is hiked by 100,000 people a year, yet retains much of its mystery. It has been visited and written about by Thoreau and Emerson and paintings of it are hung in major museums around the country. There are over a hundred poems written about it by Emerson, Channing, Whittier Amy Lowell and H.P. Lovecraft. There are even waltzes and symphonies written about it. Yet it also attracts hikers who have hiked it every day for eight years and those who hike it 16 times in one day.

[How to Cook a Wolf, M. F. K. Fisher](#) , 1988, 0865473366, 9780865473362. Written to inspire courage in those daunted by wartimes shortages, How to Cook a Wolf continues to rally cooks during times of plenty, reminding them that providing sustenance requires more than putting food on the table. M. F. K. Fisher knew that the last thing hungry people needed were hints on cutting back and making do. Instead, she gives her readers license to dream, to experiment, to construct adventurous and delicious meals as a bulwark against a dreary, meager present. Her fine prose provides reason in itself to draw our chairs close to the hearth; we can still enjoy her company and her exhortations to celebrate life by eating well.

[A Cloud of Suspicion \(Mills & Boon Love Inspired Suspense\) \(Without a Trace - Book 4\), Patricia Davids](#) , 2012, 1408966778, 9781408966778. "What's he doing back in town?" With his black leather jacket, Patrick Rivers looks every inch the bad boy the townsfolk believe him to be. Ten years ago, he left Loomis, Louisiana, under a cloud of suspicion. Back to settle his stepfather's estate, Patrick knows he isn't welcome and can't wait to leave. Until Shelby Mason gives him a reason to stay. Because Shelby knows a secret...and someone in Loomis will do anything to keep her quiet.

[Love Is Simple: Forever Is Tricky, Cas Sigers](#) , 2008, 1599830353, 9781599830353. A recovered alcoholic finds herself torn between two men--her fianc who is in a coma after a terrible drunk driving accident and and a new man who has been a wonderful source of comfort during this dark time. Original.

[Global Backlash: Citizen Initiatives for a Just World Economy, Robin Broad](#) , 2002, 0742581799, 9780742581791. Global Backlash is the first book to move beyond the monolithic portrayal of the globalization protests that have escalated since Seattle and are not likely to abate soon. With trenchant analysis and dozens of primary documents from a variety of popular and uncommon sources, Robin Broad explores proposals and initiatives coming from the backlash to answer the question, 'But what do they want?' A range of sophisticated propositions and a vibrant debate among segments of the backlash emerge. Highly readable and analytically powerful, this book is vital to understanding the most potent protest movement of our times.

[Behind the Sawali: Santo Toms in Cartoons, 1942-1945 : in the Absence of a Thousand Words, Teedie Cowie Woodcock](#)

, 2000, 0966286030, 9780966286038. One hundred and thirty cartoons drawn by a teenage girl during 37 months in a Japanese prison camp, Manila, Philippines. Teedie Cowie Woodcock crowded her cheerful little pencil sketches of day-to-day prison life on scraps of cheap paper and assembled these pages into a small booklet as a present to her mother on Christmas Day, 1944. They were the only material gift she had to give. Unearthed after 55 years. Computer restored to remove mildew stains and crease marks. A fascinating view inside a civilian prison camp during WWII. A tribute to the courage and fortitude of these thousands of American civilians trapped half a world away from home.

[Wait: Poems, C. K. Williams](#) , 2011, 0374532761, 9780374532765. Wait finds C. K. Williams by turns ruminative, stalked by the conscience-beast, who harries me, and riven by idiot vigor, voracious as the youth I was / for whom everything always was going too slowly, too slowly. Poems about animals and rural life are set hard by poems about shrapnel in Iraq and sudden desire on the Paris metro; grateful invocations of Herbert and Hopkins give way to fierce negotiations with the shades of Coleridge, Dostoyevsky, and Celan. What the poems share is their setting in the cool, spacious, spotlight, book-lined place that is Williams's consciousness, a place whose workings he has rendered for fifty years with inimitable candor and style. Williams manages to consistently maintain the gentle, witty, and honest voice that he has spent a lifetime crafting. Rachel A. Burns, The Harvard Crimson

[The New Encyclopedia of the Cat, Bruce Fogle, Deirdre Headon](#) , 2007, 0135135788, 9780135135785. Fully revised and expanded to include the newest breeds, varieties, and colors, as well as the latest thinking on behavior and training, The new Encyclopedia of the Cat is the definitive guide to the history, anatomy, and behavior of the feline species. Cats Past and Present: Chronicling the history of the cat, world-renowned veterinarian and author, Dr. Bruce Fogle, explains how one subspecies of the wildcat developed a tolerance for living near humans and became the domestic cat we know today. The new Encyclopedia of the Cat explores many aspects of the cat's role in human culture, including cat worship and cats in folklore, literature, and art. Visual Breed Guide: More than 65 of the world's major cat breeds are lavishly photographed in specially commissioned full-figure portraits. Key facts are included about all the registered color varieties, their ancestry, breed standards, and temperament. A Complete Cat Care Manual: The anatomy of the feline form is analyzed in detail, from the skeleton and nervous system to the function of hormones and genes. There is extensive advice on your cat's health, grooming, and other aspects of responsible ownership. The instincts, hunting, socializing, and mating habits unique to cats are explained in full. Truly encyclopedic in scope, this is the essential

reference for every cat lover.
