'A Slow Boat To Yokohama' is the tale of Syd Hoare who started judo in London in 1954 & then travelled to Japan to learn judo in the toughest schools in the world. After four years there he competed in the Tokyo Olympics. Syd lived with a Japanese family, became fluent in Japanese & draws many contrasts between Japan & Britain.

[Moonba: Year 4, 1988 Doomadgee, Priority Country Area Program, Queensland. Northern Region](#) , 1989, 0947174346, 9780947174347. There are two types of Moonba. The Moonba legend that has developed to warn children of dangers such as playing down the river or wandering out to the bush without an adult. It also taught children to take only the food that they could consume in one day, not to take more fruit or berries than they needed and not to break parts of the trees when taking what they wanted. The other Moonba was a real person. He was in charge of disciplining his own people if they did something wrong in their own or another tribe's area, and seeking revenge when his own tribe had been wronged. The rules applied to male and female alike. The crimes could range from greed to murder. The punishment could be a 'flogging', banishment or spearing.

[Mortgage Confidential: What You Need to Know that Your Lender Won't Tell You, David Reed](#) , 2010, 0814415431, 9780814415436. Anyone who wants to get the best deal when financing a home needs to be armed with a little insider advice. The second edition of Mortgage Confidential lets readers in on what lenders really look for before they approve a loan, options they won't often divulge, which costs they have control over, and little-known sources of down payment money. Including up-to-the-minute information on new licensing and disclosure rules and the latest eligibility requirements, the book shows readers how to: Complete the loan application to maximize their chances of approval Steer clear of credit repair scams Pay zero closing costs Qualify for the lowest rates Avoid origination charges Determine whether paying points can save them money Identify a rip-off loan program Refinance even if their equity has dropped And more! Whether looking into securing a mortgage for the first time or seeking to refinance, Mortgage Confidential

gives readers the confidence and information necessary to get through this complicated process and find the ideal loan for their needs.

[Hannah's Helping Hands, Jean Van Leeuwen](#) , 2000, 0141305002, 9780141305004. In Hannah of Fairfield, Hannah would rather be nursing a fragile spring lamb back to health than counting stitches. How can she concentrate when the war is so close? Everyone in Fairfield is doing all they can to help the colonial army battle the British for independence. How can Hannah help? In Hannah's Helping Hands, Hannah worries about her brother Ben, who is off fighting in the war. But she still has to pluck the geese, help shear the sheep, and do endless sewing. When British soldiers raid her town, Hannah finds the war has come dangerously close to home.

[The Orthopaedic Physical Examination, Bruce Reider](#) , 2005, 0721602649, 9780721602646. The fully revised and updated 2nd Edition of this unique text is a must-have for anyone who performs musculoskeletal examinations. For each body region, it presents well-illustrated, step-by-step guidance on assessing alignment, range of motion, muscle strength, and sensation...as well as clear explanations of what abnormal physical findings might mean. The book also features differential diagnosis tables based on common patient complaints, and provides detailed line drawings that illustrate complex anatomical structures. "Take-Home Points" at the end of every chapter facilitate review. A consistent format throughout the text allows readers to find information quickly. Key terms and tests are highlighted throughout and defined

in a glossary at the end of the book. The book features the expertise of one of the nation's leading experts on the orthopaedic physical examination. Dr. Reider is Editor in Chief of the American Journal of Sports Medicine; Director of Sports Medicine at the University of Chicago Hospitals; a Professor of Orthopaedic Surgery at the University of Chicago's Pritzker School of Medicine; and has instructed countless students on this topic over the years. A wealth of new testing strategies equip readers to more effectively evaluate today's full spectrum of joint and muscle disorders. "Take-Home Points" at the end of each chapter facilitate review. "When the Patient Complains of..." boxes make it easier to identify disorders based on a patient's presentation. Reports on recent clinical studies document the efficacy of various tests. New line drawings depict anatomical structures that are difficult to capture via photography, and more photographs of abnormal physical findings clarify what dysfunction looks like. With 7 additional contributing experts

[Don't Be Blindsided by Retirement: Retirees and Those Who Work With Them Talk About the Surprises Retirement Can Bring and What to Do About Them, Andrew Bertram](#) , 2008, 0978328612, 9780978328610. Join this informal kitchen-table conversation for some great insights on retirement. Listen in on discussions by people just like you regarding optimal ways to plan for retirement. Consider their wise reflections on making a smooth transition into retirement. And put it all to use in planning the retirement that's right for you. Most people long for retirement. But once they get there, many of them discover that it's not as wonderful as they had imagined. Andy Bertram is a case in point. At 52 he left his job in the finance industry and headed south for a life of sailing and was surprised to find himself bored out of his skull. Back home, he talked to others who had retired and to their medical and financial advisors and found that many retirees even those with impeccably planned financial resources had experienced similar problems in adjusting to their new status. Now, in this entertaining and informational book, he and his friend Larry Solway share these conversations that will help you see the need for self-knowledge, purpose, and fulfilling relationships in planning and

living a great retirement.

Reviewers tell us that Case/Fair/Oster is one of the all-time bestselling POE texts because they trust it to be clear, thorough and complete. Case/Fair/Oster readers also come away with a basic understanding of how market economies function, an appreciation for the things they do well, and a sense of things they do poorly. Readers begin to learn the art and science of economic thinking and begin to look at some policy and even personal decisions in a different way.

[Death with Interruptions, Jos Saramago](#) , 2008, 0151012741, 9780151012749. Nobel Prize-winner Jose Saramago's brilliant new novel poses the question -- what happens when the grim reaper decides there will be no more death? On the first day of the new year, no one dies. This of course causes consternation among politicians, religious leaders, morticians, and doctors. Among the general public, on the other hand, there is initially celebration--flags are hung out on balconies, people dance in the streets. They have achieved the great goal of humanity: eternal life. Then reality hits home--families are left to care for the permanently dying, life-insurance policies become meaningless, and funeral parlors are reduced to arranging burials for pet dogs, cats, hamsters, and parrots. Death sits in her chilly apartment, where she lives alone with scythe and filing cabinets, and contemplates her experiment: What if no one ever died again? What if she, death with a small d, became human and were to fall in love?

[We Tell It to Our Children: The Story of Passover: A Haggadah for Seders with Young Children, Mary Ann Barrows Wark](#) , 2002, 096198807X, 9780961988074. Children's active participatory Haggadah makes Passover story into an engaging drama of the Exodus story. A complete guide, including multi-national recipes, for putting on the traditional Seder meal for Passover. Text is a musical puppet show with Judaically-meaningful lyrics set to simple American folk tunes. Everyone participates in singing throughout the service. The reader edition has nine cut-out puppets. Parts for non-readers and early readers. Endorsed by rabbis, religious educators (Jewish and Christian), children's book store owners, preschool teachers, parents and grandparents nationwide. For home or model seders. Authentically Jewish; easy for non-Jews. Gender-sensitive. Developmentally appropriate for children. Downright fun for adults. Other unique features include the Passover food symbols, like matzah, explained at the appropriate times in the story; special sections to personalize and teach about World Jewry. Difficult concepts like slavery are taught through action, songs, and pictures. Lyrics respond to children's thinking while tackling complicated issues surrounding freedom. Plentiful, detailed drawings emphasize the immediacy of ideas and clearly illustrate every idea and ceremonial symbol.

[Galactic Dynamics: \(Second Edition\), James Binney, Scott Tremaine](#) , 2011, 1400828724, 9781400828722. Since it was first published in 1987, Galactic Dynamics has become the most widely used advanced textbook on the structure and dynamics of galaxies and one of the most cited references in astrophysics. Now, in this extensively revised and updated edition, James Binney and Scott Tremaine describe the dramatic recent advances in this subject, making Galactic Dynamics the most authoritative introduction to galactic astrophysics available to advanced undergraduate students, graduate students, and researchers. Every part of the book has been thoroughly overhauled, and many sections have been completely rewritten. Many new topics are covered, including N-body simulation methods, black holes in stellar systems, linear stability and response theory, and galaxy formation in the cosmological context. Binney and Tremaine, two of the world's leading astrophysicists, use the tools of theoretical physics to describe how galaxies and other stellar

systems work, succinctly and lucidly explaining theoretical principles and their applications to observational phenomena. They provide readers with an understanding of stellar dynamics at the level needed to reach the frontiers of the subject. This new edition of the classic text is the definitive introduction to the field. A complete revision and update of one of the most cited references in astrophysics Provides a comprehensive description of the dynamical structure and evolution of galaxies and other stellar systems Serves as both a graduate textbook and a resource for researchers Includes 20 color illustrations, 205 figures, and more than 200 problems Covers the gravitational N-body problem, hierarchical galaxy formation, galaxy mergers, dark matter, spiral structure, numerical simulations, orbits and chaos, equilibrium and stability of stellar systems, evolution of binary stars and star clusters, and much more Companion volume to Galactic Astronomy, the definitive book on the phenomenology of galaxies and star clusters

[The Quallsford Inheritance: A Memoir of Sherlock Holmes from the Papers of Edward Porter Jones, His Late Assistant,](#)

[Lloyd Biggle](#) , 1987, 0140100075, 9780140100075. Edward Porter Jones completes his apprenticeship to Sherlock Holmes when Holmes involves himself and Porter in something that exposes them to the strange Emmeline Quallsford, a young lady with a crushing burden

[2nd Report, Session 1990-91: Lords Amendments : Documents Required for Their Consideration : Together with the Proceedings of the Committee, Minutes of Evidence, and Appendices, Great Britain. [A Connecticut Yankee in King Arthur's Court, Volume 11, , ISBN 0195113454, 9780195113457, , Mark Twain](#) , 1996, 0195101413, 9780195101416. A Connecticut Yankee in King Arthur's Court is one of Twain's best-loved tales. A pioneering work of science fiction, it vibrates with slapstick comedy and serious social commentary as well. In this complex and ambitious tour de force, an inventive nineteenth-century resident of Hartford named Hank Morgan travels back in time to sixteenth-century England where he tries to introduce modern technology and political ideas. Along the way he founds the first tabloid, the Camelot Weekly Hosannah and Literary Volcano, organizes a game of baseball between armor-clad knights, and "keeps up a steady fire of flippancies, so frequent that no reader registers all of them on the first go-around," as Louis Budd reminds us in his introduction. A Connecticut Yankee in King Arthur's Court is Twain's most complex and disturbing meditation on technology, as well as a powerful consideration of politics and power. The original illustrations by Dan Beard, chosen by Twain himself to illustrate the book, brilliantly mix buffoonery with sharp social satire in an effective counterpoint to the text. By turns side-splittingly funny and somberly thought-provoking, A Connecticut Yankee in King Arthur's Court is Twain at his finest.

[The Pastor's Wife: The True Story of a Minister and the Shocking Death that Divided a Family, Diane Fanning](#) , 2008, 0312949294, 9780312949297. When Pastor Matthew Winkler was found dead at his Fourth Street Church of Christ

parsonage in Selmer, Tennessee, both police investigators and parishioners were shaken and mystified: How could evil strike this cradle of faith? Meanwhile, Mrs. Winkler and her three daughters were still missing. A frantic search for Mary Winkler and the girls ensued. Once they were found, on a beach in Alabama, Mary was charged with murdering her husband in cold blood. But why did Mary pull the trigger? What sexual and psychological abuses did she allege she had suffered? In the months that followed, the crime and the Winklers' marriage would be exposed by the national media; Mary herself even appeared on Oprah. Set in a world of domineering men, obedient wives, and unshakable faith, this is the true story about what happened to Matthew Winkler and THE PASTORS WIFE

[The Oxford introduction to Proto-Indo-European and the Proto-Indo-European world, J. P. Mallory, Douglas Q. Adams](#) , 2006, 0199296685, 9780199296682. This book introduces Proto-Indo-European, describes how it was reconstructed from its descendant languages, and shows what it reveals about the people who spoke it between 5,500 and 8,000 years ago. Using related evidence from archaeology and natural history the authors explore the lives, thoughts, passions, culture, society, economy, history, and environment of the Proto-Indo-Europeans. They include chapters on fauna, flora, family and kinship, clothing and textiles, food and drink, space and time, emotions, mythology, and religion, and describe the quest to discover the Proto-Indo-European homeland.

[Internal and External Aspects of Corporate Governance, Ahmed Naciri](#) , 2009, 0203865294, 9780203865293. An effective system of corporate governance has both internal and external aspects that have to be sufficiently responsive if governance is to succeed. In this book, Ahmed Naciri examines these two core aspects or the latest buzzword in business and management theory. Internal aspects include ownership structure, the board of directors and committees, internal control, risk management, transparency and financial reporting. External aspects can either be market-oriented, or can

take the form of credit ranking, and/or social requirements. Due to the original orientation of the Sarbanes/Oxley Law, concentrating solely on financial disclosure and given its decisive and tremendous influence on all other similar corporate governance legislations all over the world, most writings on corporate governance have dealt with solely internal corporate governance mechanisms. This book aim is to fill up the gap by using a systemic approach and giving a global picture of the corporate governance theoretical foundations, mainly by putting the emphasis on its double dimension: internal and external.

[Let's Celebrate!: Festival Poems from Around the World, Debjani Chatterjee, Brian D'Arcy, Shirin Adl](#) , 2011, 1847800874, 9781847800879. Here are poems celebrating 24 fantastic festivals from around the world, by poets from across the globe...Eid, Diwali, Hannukah, Christmas, Thanksgiving, Kwanzaa, Chinese New Year, Pancake Day, the Cherry Blossom Festival - and lots more! Find poems about your favourite festivities or go for more unusual celebrations. Look out for the Ice Festival with its massive ice sculptures, or tree-saving Arbor Day, and go wild at Tomatina, the wonderful tomato-throwing spectacle. Edited by well-known anthologists Debjani Chatterjee and Brian D'Arcy and glowing illustrations by talented new illustrator Shirin Adl, this is an exciting journey of discovery that brings each festival vividly to life. Let's Celebrate!

[Melbourne 2030: Planning Rhetoric Versus Urban Reality, Bob Birrell, Robert Birrell, Virginia Rapson, Ernest Healy, Kevin O'Connor](#) , 2005, 0975747509, 9780975747506. The 'Melbourne 2030' plan is the Victorian Government's blueprint for the accommodation of an additional one million people in Melbourne by the year 2030. The plan seeks to change the shape of Melbourne radically. The vision is of a compact city in which growth will be concentrated in existing commercial centres (activity centres). Notwithstanding this fundamental departure from the low density pattern of the past, it is claimed that Melbourne's famed 'liveability' will be preserved. This book explores: the intellectual origins of the plan; demographic assumptions behind the plan; the mode of implementation; the likely impact on the built environment; environmental and social consequences; heritage outcomes; and alternative planning options. It also critically examines assumptions about the projected demand for higher density housing, and argues that the plan's 'compact city' vision is unlikely to be achieved because it fails to come to grips with the economic and demographic realities facing Melbourne.

[Around a Greek Table: Recipes & Stories Arranged According to the Liturgical Seasons of the Eastern Church, Katerina Katsarka Whitley](#) , 2012, 0762794909, 9780762794904. Kefi, loosely translated, is the Greek sense of joy, and is often found around the dinner table during large and boisterous family meals of Spanakopita, Keftedes (Greek meatballs), and much, much more. Largely considered a bit of a mystery to Americans, Greek cooking is far more expansive than simply prepping up a few gyro sandwiches and Greek salads. There is an earthiness about Greek cooking, an amalgam of many historic influences. Lighter than southern Italian, much less pretentious than French, much more refined than Middle Eastern, Greek cuisine at its best is aromatic, tasty, and satisfying. Around a Greek Table explores the intricacies of Greek cooking and makes these once-mysterious recipes both understandable and possible. The book also delves deep into stories of Greek life and kefi around the dinner table. The 100 recipes are organized around the Eastern Churchs yearly seasons, each explored in one of eight chapters, with historical and personal essays exploring the ancient stories that are told around Greek tables in the honored tradition of combining myths with food.

[The Teaching of Talking: Learn to Do Expert Speech Therapy at Home with Children and Adults, Mark Ittleman](#) , 2012, 1614482535, 9781614482536. "This book will show you how to do expert speech and language stimulation and therapy at home throughout your loved one's daily activities. You will first learn to stimulate your loved one's speech and language through the use of questions that garner yes and no answers. From there, you will begin asking questions that require easy one-two word responses from your loved one. Once mastered, you will move to three-word answers and build thereon until your loved one or client can answer in phrases, and short sentences which will jump-start longer sentences, more independent speaking and, ultimately, conversation"--P. [4] of cover.

[Hundred-dollar Baby, , Robert B. Parker](#) , 2006, 0399153764, 9780399153761. A client from a decades-old case reaches out to Boston PI Spenser-but can he rescue troubled April Kyle once more? Longtime Spenser fans will remember that once upon a time, though not so long ago, there was a girl named April Kyle-a beautiful teenage runaway who turned to prostitution to escape her terrible family life. The book was 1982's Ceremony, and, thanks to Spenser, April escaped Boston's "Combat Zone" for the relative safety of a high-class New York City bordello. April resurfaced in Taming a Sea-Horse, again in dire need of Spenser's rescue-this time from the clutches of a controlling lover. But April Kyle's return in Hundred-Dollar Baby is nothing short of shocking. When a mature, beautiful, and composed April strides into Spenser's office, the Boston PI barely hesitates before recognizing his once and future client. Now a well-established madam herself, April oversees an upscale call-girl operation in Boston's Back Bay. Still looking for Spenser's approval, it takes her a moment before she can ask him, again, for his assistance. Her business is a success; what's more, it's an all-female enterprise. Now that some men are trying to take it away from her, she needs Spenser. April claims to be in the dark about who it is that's trying to shake her down, but with a bit of legwork and a bit more muscle, Spenser and Hawk find ties to organized crime and local kingpin Tony Marcus, as well as a scheme to franchise the operation across the country. As Spenser again plays the gallant knight, it becomes clear that April's not as innocent as she seems. In fact, she may be her own worst enemy.

[Nancy Spero: a continuous present, Nancy Spero, Ingeborg Khler, Deborah Frizzell, Susanne Altmann](#) , 2002, . As early as the 1960s, Nancy Spero's work was breaking ranks with the establishment. Her unique pictorial vocabulary and insistent political engagement was a far cry--and a loud cry--from the styles of abstraction that dominated the American

art world at that time. She articulated and has continued to drive at themes of burning interest to her: protest against the Vietnam War, the alienation of society and violence against women, for example against Jewish woman under National Socialism and in the historical contexts of witch hunts. A Continuous Presentpairs her War Series(1966-70), a cycle of anti-Vietnam War gouaches, with an overview of her work from the last decade. Between 1992 and 2001, Spero created infinite-seeming works on long horizontal and vertical bands of paper--a format borrowed from Egyptian papyrus rolls, Chinese scroll painting and antique friezes--populating them with female figures taken from mythology, various epochs and diverse cultures, giving them feminist momentum via highly charged or parodistic confrontations.

[Love Your Life: Living Happy, Healthy, and Whole, Victoria Osteen](#) , 2009, 1439159319, 9781439159316. Do you ever feel like your life is moving at the speed of light? Are you constantly trying to keep up with all of your commitments and responsibilities? In this day and age when modern communication and technology cause our lives to move faster than ever, many people struggle to strike a balance between all the segments of their lives -- family, friends, career, social obligations, and self. As co-pastor of Lakewood Church -- America's largest church -- Victoria Osteen understands intimately how day-to-day responsibilities can pile up and at times feel overwhelming. As a wife and mother, she sets the tone for her household and acts as a role model for her family. As a minister, she reaches out to an enormous community of people who look to her for guidance, strength, wisdom, and encouragement. She knows as well as anyone that operating in so many different roles can be extremely demanding, yet she has managed to find balance, living her life in the unforced rhythms of grace. If you ask her, she'll tell you that she loves her life and she wants you to love your life, too. No matter where you are in your life, no matter what responsibilities you may carry, you can find peace, balance, and enjoyment in every area of your life; but it all starts with you. You have more power inside you than you realize; all you have to do is learn to tap into what you already have! As you begin to recognize your own abilities and influence, and use them in healthy ways, all the other areas of your life will fall into order. In Love Your Life, Victoria shares from her personal life experiences and her journey of faith the lessons she's learned that have made her the woman she is today. As you read, you'll feel like you're in a conversation with a trusted friend as Victoria shows you how to tap into all that God has given you to live effectively -- as a positive influence on the world around you. You'll be inspired by stories of victory and challenged to live at a higher level. You'll read about people who have accomplished incredible things by overcoming their fears, and people who have changed the world around them by simply recognizing their own value. A life well lived does not come easily; you have to set out for it, look for it, and make it happen. Love Your Life shows how to turn the challenges of each day into opportunities to love and appreciate all that you are.

[Introduction to Geometrical Optics,](#) , 1994, 0964275201, 9780964275201. "This book is the culmination of twenty-five years of teaching Geometrical Optics. The volume is organised such that the single spherical refracting surface is the basic optical element. Spherical mirrors are treated as special cases of refraction, with the same applicable equations. Thin lens equations follow as combinations of spherical refracting surfaces while the cardinal points of the thick lens make it equivalent to a thin lens. Ultimately, one set of vergence equations are applicable to all these elements." "The chapters are devoted to in-depth treatments of stops, pupils and ports; magnifiers, microscopes, telescopes, and camera lenses; ophthalmic instruments; resolving power and MTF; trigonometric ray tracing; and chromatic and monochromatic aberrations. There are over 100 worked examples, 400 homework problems and 400 illustrations." "Readership: Graduate students, researchers, lecturers and practitioners of optometry and ophthalmology, optomechanical & opto-electronic engineers."--BOOK JACKET.

[FDR's Deadly Secret, Steven Lomazow, Eric Fettmann](#) , 2010, 0786746254, 9780786746255. The death of Franklin Delano Roosevelt in 1945 sent shock waves around the world. His lifelong physician swore that the president had always been a picture of health. Later, in 1970, Roosevelt's cardiologist admitted he had been suffering from uncontrolled hypertension and that his death from a cerebral hemorrhage was a cataclysmic event waiting to happen. But even this was a carefully constructed deceit, one that began in the 1930s and became acutely necessary as America approached war. In this great medical detective story and narrative of a presidential cover-up, an exhaustive study of all available reports of President Franklin Delano Roosevelt's health, and a comprehensive review of thousands of photographs, an intrepid physician-journalist team reveals that Roosevelt at his death suffered from melanoma, a skin cancer that had spread to his brain and abdomen. Roosevelt's condition was not only physically disabling, but also could have affected substantially his mental function and his ability to make decisions in the days when the nation was imperiled by World War II.

[Riddled with Life: Friendly Worms, Ladybug Sex, and the Parasites That Make Us Who We Are, Marlene Zuk](#) , 2008, 0156034689, 9780156034685. We treat disease as our enemy. Germs and infections are things we battle. But what if we've been giving them a bum rap? From the earliest days of life on earth, disease has evolved alongside us. And its presence isn't just natural but is also essential to our health. Drawing on the latest research, Zuk answers a fascinating range of questions about disease: Why do men die younger than women? Why are we attracted to our mates? Why does the average male bird not have a penis? Why do we--as well as insects, birds, pigs, cows, goats, and even plants--get STDs? Why do we have sex at all, rather than simply splitting off copies of ourselves like certain geckos? And how is our obsession with cleanliness making us sicker? In this witty, engaging book, evolutionary biologist Zuk makes us rethink our instincts as she argues that disease is our partner, not our foe. Reconsider the fearsome parasite!

[The Tower Room, , Adle Geras](#) , 2005, 0152055371, 9780152055370. Looking down from the coveted tower room she shares with her two best friends at a cloistered all-girls boarding school in England, Megan observes the arrival of the new laboratory assistant, Simon Findlay. As soon as their eyes meet, the spark is lit, and as their love blossoms, Simon starts scaling the scaffolding into the tower room for clandestine trysts. But when Dorothy, the school's science teacher and Megan's guardian, discovers the young couple's affair, Megan's sheltered world is shattered forever. "The exclusive boarding school setting is vividly evoked, and the old story has an enduring hold on us. Readers will be moved by the contemporary twists on the mythic themes."-Booklist

[Ford GT: The Legend Comes to Life, Larry Edsall](#) , 2004, 0760319936, 9780760319932. One of the most exciting new cars of 2004 is profiled in this beautiful book. The Ford GT is the modern version of the incredible GT40, a car created by Ford in the 1960s to beat the Ferraris at Le Mans-which they did! The success of the original GT40, coupled with its great looks, made it one of the most popular cars in automotive racing history. Ford has revived the spirit of the original race car with perhaps its most exciting new car in 30 years-the Ford GT. The new car has lines taken straight off the original GT40 and power supplied by a 500-hp V-8. Three Ford GTs will be built in 2003 to commemorate the 1-2-3 victory at Le Mans in 1966, and the car will see limited regular production beginning in June 2004. This book includes an in-depth analysis of how the car came to be, complete with original interviews with Ford execs and engineers as well as drawings of concept cars. Also included is a short chapter summing up the origins and race history of the GT40. Also a section discussing the concepts for GT40 revivals. Many of these cars have not been revealed in publications previously.

[Offense to Others, Joel Feinberg](#) , 1988, 0199878609, 9780199878604. The second volume in Joel Feinberg's series The Moral Limits of the Criminal Law, *Offense to Others* focuses on the "offense principle," which maintains that preventing shock, disgust, or revulsion is always a morally relevant reason for legal prohibitions. Feinberg clarifies the concept of an "offended mental state" and further contrasts the concept of offense with harm. He also considers the law of nuisance as a model for statutes creating "morals offenses," showing its inadequacy as a model for understanding "profound offenses," and discusses such issues as obscene words and social policy, pornography and the Constitution, and the differences between minor and profound offenses.

[The Use of Microphones, Alec Nisbett](#) , 1993, 0240513657, 9780240513652. This is an update of a classic Media Manual, brought into line with the author's recent, completely reworked, comprehensive text *The Sound Studio*. * Easy-to-follow Media Manual format * Comprehensive, up-to-date coverage of all current microphones * Fourth edition of a classic text *The Use of Microphones* includes, in a succinct way, all you need to know about how to choose the right microphones for the job, how to position them, move them, balance and control them to make sure of the sound quality you need. Now completely updated to include more on radio microphones, contact and miniature microphones and combination stereo microphones this fourth edition continues the tradition of being an easy to read guide for students or professionals who wish to expand their skills. 'The book's treatment of technicalities is flawless, but this is leavened with plenty of common sense.' Terry Mendoza -*Camcorder User*, December 1994 - *Studio Sound*, March 1995 'This is a very readable reference with lots of practical advice.' - *Sound & Communications Systems Internat.*, August 1995 'To anyone with a practical interest in using microphones, whether a complete beginner or professional who seeks to expand his skills, this book will be an invaluable reference.' - *Lighting and Sound International*, January 1996

[The Nature of Design: Ecology, Culture, and Human Intention, David W. Orr](#) , 2002, 019514855X, 9780195148558. The environmental movement has often been accused of being overly negative--trying to stop "progress." The Nature of Design, on the other hand, is about starting things, specifically an ecological design revolution that changes how we provide food, shelter, energy, materials, and livelihood, and how we deal with waste. Ecological design is an emerging field that aims to recalibrate what humans do in the world according to how the world works as a biophysical system. Design in this sense is a large concept having to do as much with politics and ethics as with buildings and technology. The book begins by describing the scope of design, comparing it to the Enlightenment of the 18th century. Subsequent chapters describe barriers to a design revolution inherent in our misuse of language, the clockspeed of technological society, and shortsighted politics. Orr goes on to describe the critical role educational institutions might play in fostering design intelligence and what he calls "a higher order of heroism." Appropriately, the book ends on themes of charity, wilderness, and the rights of children. Astute yet broadly appealing, The Nature of Design combines theory, practicality, and a call to action.

[The Rumpelstiltskin Problem, Vivian Vande Velde](#) , 2000, 0547691661, 9780547691664. Have you ever wondered just what was going on when that odd little man with the long name stepped up and volunteered to spin straw into gold for the miller's daughter? If you stop and think about it, there are some very peculiar and rather hard-to-explain components to the story. Vivian Vande Velde has wondered too, and she's come up with these six alternative versions of the old legend. A bevy of miller's daughters confront their perilous situation in very different ways sometimes comic, sometimes scary. Most of the time, it's the daughter who gets off safely, but sometimes, amazingly, Rumpelstiltskin himself wins the day. And in one tale, it is the king who cleverly escapes a quite unexpected fate.

[Dropbox in 30 Minutes, Ian Lamont](#) , 2013, 1939924030, 9781939924032. Do you have 30 minutes to spare? It's all the time you'll need to master the basics of Dropbox, a software application for storing and sharing photos, documents, spreadsheets, and other types of computer files. Using screenshots, step-by-step instructions, and plain English

explanations, *Dropbox In 30 Minutes* will cut through the confusion. In just a half-hour, you'll understand how Dropbox works. You'll know how to leverage the Dropbox desktop software and mobile application to perform the following types of tasks:

- Instant Backup** - Files are automatically synchronized with your master account in the background, and changes are carried over to all of your computers that are logged into Dropbox. Even if your computer is damaged or lost, you'll still be able to access copies of the most recently synchronized files.
- Online Collaboration** - Securely share a folder full of documents with coworkers scattered across the country or across the globe.
- Photo Syncing** - Sync the photos on an iPhone or Android phone to your PC/Mac without cables!

This unofficial mini-manual includes sections on installing Dropbox on your computer and mobile devices, how to automatically transfer photos from your phone to your PC, and how to manage collaboration using Dropbox links and shared folders. *Dropbox In 30 Minutes* also includes "Dropbox: The Rogue FAQ," which answers hard questions about security, sharing, and other topics. The contents are listed below.

Chapter 1: Installing Dropbox
Dropbox technical requirements
Installing Dropbox on a PC or Mac
The Dropbox website

Chapter 2: Getting Down To Business - Files And Folders
How it works
Saving your first file
Transferring an existing file to Dropbox
Working with folders/groups of files on PCs, Macs, and the Dropbox website
Opening a file or folder from a second computer

Chapter 3: Going Mobile - Dropbox On Smartphones And Tablets
Downloading files
Uploading files
How to automatically sync photos from a mobile phone to your Dropbox account

Chapter 4: Dropbox Linking And Sharing
Limited sharing via links
Sharing Dropbox content from a mobile device
How to kill old links
Sharing folders with other Dropbox users
Managing shared storage space
How to unshare or leave shared folders

Chapter 5: Dropbox - The Rogue FAQ
How can I get free space?
How secure is Dropbox?
What happens when I quit Dropbox from the System Tray (Windows) or Menu Bar (Mac)?
How do I delete Dropbox?
Help! I accidentally deleted an important file!
Dropbox seems to be taking a long time to sync. What gives?
What happens when the same file is opened simultaneously on more than one computer?
Are the paid Dropbox accounts worth it?
Why would I want to link my Facebook account to Dropbox?
What are third-party apps, and how do they relate to Dropbox?

Dropbox In 30 Minutes is authored by Ian Lamont, an award-winning technology journalist and digital media entrepreneur whose work has been read by millions.

[Process/Industrial Instruments and Controls Handbook, 5th Edition, Gregory K. McMillan, Douglas Considine](#) , 1999, 0070125821, 9780070125827. The latest methods for increasing process efficiency, production rate, and quality. Award-winning editor Greg McMillan has loaded *Process/Industrial Instruments and Controls Handbook, Fifth Edition*, with advice from top technical experts to help you tackle process instrument and control assignments confidently and solve problems efficiently. This major revision of the bestselling on-the-job toolkit includes time-saving tables, selection ratings, key points, rules of thumb and hundreds of topic-defining illustrations. Updated to mirror the most common industry practices, it brings you up to speed on smart instrumentation and the latest advances sparked by increased power and miniaturization of the microprocessor. Thorough coverage of the Windows NT platform and Fieldbus... distributed control

systems and field-based systems...knowledge-based operator training...instrument maintenance cost reduction and an overview of the ISA/IEC Fieldbus Standard help you get the most out of these major shifts in technology.

[The Nature of Suffering and the Goals of Medicine, Eric J. Cassell Clinical Professor of Public Health Cornell University Medical College](#) , 1991, 0198021941, 9780198021940. The Nature of Suffering underscores the change that is taking place in medicine from a basic concern with disease to a greater focus on the sick person. Cassell centers his discussion on the problem of suffering because, he says, its recognition and relief are a test of the adequacy of any system of medicine. He describes what suffering is and its relationship to the sick person: bodies do not suffer, people do. An exclusive concern with scientific knowledge of the body and disease, therefore, impedes an understanding of suffering and diminishes the care of the suffering patient. The growing criticism that medicine is not sufficiently humanistic does not go deep enough to provide a basis for a new understanding of medicine. New concepts in medicine must have their basis in its history and in the development of ideas about disease and treatment. Cassell uses many stories about patients to demonstrate that, despite the current dominance of science and technology, there can be no diagnosis,

search for the cause of the patient's disease, prognostication, or treatment without consideration of the individual sick person. Recent trends in medicine and society, Cassell believes, show that it is time for the sick person to be not merely an important concern for physicians but the central focus of medicine. He addresses the exciting problems involved in such a shift. In this new medicine, doctors would have to know the person as well as they know the disease. What are persons, however, and how are doctors to comprehend them? The kinds of knowledge involved are varied, including values and aesthetics as well as science. In the process of knowing the experience of patient and doctor move to center stage. He believes that the exploration of the person will engage medicine in the 21st century just as understanding the body has occupied the last hundred years.

[You and Your Baby: A Step by Step Guide to Good Parenting and Brighter Babies, Staines, Margery Joan Mitchell](#) , 1979, 0195505654, 9780195505658.

[Blood on the doorstep: the politics of preventive action, Barnett R. Rubin](#) , 2002, 0870784730, 9780870784736.

Throughout the 1990s, U.S. policymakers by and large thought they could insulate the country from the collapse of distant states and the spread of war and disorder in some of the world's poorest regions. The attacks on September 11, 2001, however, showed that dire conditions in seemingly isolated regions could become incubators for violence that hits America directly. This book, based on Barnett R. Rubin's years of experience as director of the Center for Preventive Action (CPA) at the Council on Foreign Relations, argues that initiatives aimed at preventing regional crises must form a key part of the U.S. global security strategy. Drawing on his experience leading CPA projects in the Balkans, Central Asia, Central Africa, and West Africa, as well as his extensive work on Afghanistan, Rubin illustrates concretely how seemingly exotic and distant conflicts are deeply integrated into our global system through the effects of global strategies and markets. These conflicts, the author argues, are harder to contain once they flare up into violence and yet are potentially more subject to prevention by global actors than common wisdom claims.

[Environmental Hazards: Assessing Risk and Reducing Disaster, Keith Smith](#) , 2013, 0415681057, 9780415681056. The much expanded sixth edition of Environmental Hazards provides a fully up-to-date overview of all the extreme events that threaten people and what they value in the 21st century. It integrates cutting-edge material from the physical and social sciences to illustrate how natural and human systems interact to place communities of all sizes, and at all stages of economic development, at risk. It also explains in detail the various measures available to reduce the ongoing losses to life and property. Part One of this established textbook defines basic concepts of hazard, risk, vulnerability and disaster. Attention is given to the evolution of theory, to the scales and patterns of disaster impact and to the optimum management strategies needed to minimize the future impact of damaging events. Part Two employs a consistent chapter structure to demonstrate how individual hazards, such as earthquakes, severe storms, floods and droughts, plus biophysical and technological processes, create distinctive impacts and challenges throughout the world. The ways in

which different societies can make positive responses to these threats are placed firmly in the context of sustainable development and global environmental change. This extensively revised edition includes: A new concluding chapter that summarizes the globalization of hazard and critically examines the latest perspectives on climate-related disasters Fresh perspectives on the reliability of disaster data, disaster risk reduction, severe storms, droughts and technological hazards More boxed sections with a focus on both generic issues and the lessons to be learned from a carefully selected range of recent extreme events An annotated list of key resources, including further reading and relevant websites, for all chapters 183 diagrams, now in full colour, and available to download on: www.routledge.com/9780415681063/Over 30 colour photographs and more than 1,000 references to some of the most significant and recent published material. Environmental Hazards is a clearly-written, authoritative account of the causes and consequences of the extreme natural and technological processes that cause death and destruction across the globe. It draws on the latest research findings to guide the reader from common problems, theories and policies to explore practical, real-world situations and solutions. This carefully structured and balanced book captures the complexity and dynamism of environmental hazards and has become essential reading for students of every kind seeking to understand this most important contemporary issue.

[Haiku In My Neighborhood,](#) , 2009, 0982181019, 9780982181010. 50 haiku poems written by jazz singer/songwriter Dee Dee McNeil with photographs by photographer/artist and arts activist Roland Charles.

[Eclipse: Poems of Depression and Recovery, Andrew Jantz](#) , 1997, 0965809307, 9780965809306. A powerful, disturbing collection which recounts the poet's battle with depression as it attacked his marriage, his faith & ultimately, his will to live. It takes the reader through an attempted suicide, psychiatric hospitalization, & the slow, painful return to life. This book is aimed at the millions of people who suffer or have suffered from clinical depression, their family & friends, & anyone who is interested in seeing life through the eyes of a person struggling with this terrible disease. Advance praise for ECLIPSE: "The poetry of healing is richly, passionately delineated in this moving first collection."--Diana Der-Hovanesian, Pulitzer Prize nominee; "These poems are an act of courage...fairly shouting experience, even pain, to the world. Yet what moves me most throughout are the glimmers of light, the hope for recovery, the profound love for the saving grace of a human touch."--Dr. Karen Donelan, Harvard School of Public Health, "ECLIPSE is startlingly powerful. These poems capture a raw intensity of human emotion, & pack a wallop."--George Smith, LICSW, McLean Hospital. Retail price \$9.95 plus shipping & handling. Volume discounts apply. [Reclaiming Conservatism : How a Great American Political Movement Got Lost--And How It Can Find Its Way Back: How a Great American Political Movement Got Lost--And How It Can Find Its Way Back, Mickey Edwards Aspen Institute](#) , 2008, 0199714819, 9780199714810. A leading figure in the American conservative movement for over 40 years, Mickey Edwards was a prominent Republican congressman, a former national chairman of the American Conservative Union, and a founding trustee of the Heritage Foundation. When he speaks, conservatives listen. Now, in this highly provocative and frank volume, Edwards argues loud and clear that conservatives today have abandoned their principles and have become champions of that which they once most feared. The conservative movement--which once nominated Barry Goldwater for President, and later elected Ronald Reagan--was based on a distinctly American kind of conservatism which drew its inspiration directly from the United States Constitution--in particular, an overriding belief in individual liberty and limited government. But today, Edwards argues, the mantle of conservatism has been taken over by people whose beliefs and policies threaten the entire constitutional system of government. By abetting an imperial presidency, he contends, so-called "conservatives" have gutted the system of checks and balances, abandoned due process, and trampled upon our cherished civil liberties. Today's conservatives endorse unprecedented assertions of government power--from the creation of secret prisons to illegal wiretapping. Once, they fought to protect citizens from government intrusion; today, they seem to recognize few limits on what government can do. The movement that was once the Constitution's--and freedom's--strongest defender is now at risk of becoming its most dangerous enemy. Edwards ends with a blueprint for reclaiming the essence of conservatism in America. Touching upon many current issues, this passionately argued book concludes that many of today's conservatives seem to have it all backwards. They have turned conservatism upside down--and this book calls them on it.

[The Race for What's Left: The Global Scramble for the World's Last Resources, Michael Klare](#) , 2012, 1429973307, 9781429973304. From Michael Klare, the renowned expert on natural resource issues, an invaluable account of a new and dangerous global competitionThe world is facing an unprecedented crisis of resource depletiona crisis that goes beyond peak oil to encompass shortages of coal and uranium, copper and lithium, water and arable land. With all of the planets easily accessible resource deposits rapidly approaching exhaustion, the desperate hunt for supplies has become a frenzy of extreme exploration, as governments and corporations rush to stake their claim in areas previously considered

too dangerous and remote. The Race for Whats Left takes us from the Arctic to war zones to deep ocean floors, from a Russian submarine planting the countrys flag on the North Pole seabed to the large-scale buying up of African farmland by Saudi Arabia, China, and other food-importing nations. As Klare explains, this invasion of the final frontiers carries grave consequences. With resource extraction growing more complex, the environmental risks are becoming increasingly severe; the Deepwater Horizon disaster is only a preview of the dangers to come. At the same time, the intense search for dwindling supplies is igniting new border disputes, raising the likelihood of military confrontation. Inevitably, if the scouring of the globe continues on its present path, many key resources that modern industry relies upon will disappear completely. The only way out, Klare argues, is to alter our consumption patterns altogether a crucial task that will be the greatest challenge of the coming century.

[Graphene: Properties, Synthesis, and Applications, Zhiping Xu](#) , 2012, 1614709491, 9781614709497. Graphene is an ultimately monolayer material with single-atom thickness. It possesses many fascinating properties including massless Dirac electronic structure, extraordinary high electron mobility, thermal conductivity, stiffness and strength, and large surface volume ratio etc. This edited book is organised into two parts. The first part focuses on the electronic and mechanical properties of graphene materials. The second part of this book covers the application aspect of graphene and related materials. Graphene is a simple material, but also a building block for very complicated applications. The approach to understand the role of graphene and related materials in these fields relies not only on individual research by scientists in their own fields but also, on interdisciplinary cross-talk, as we present here in this book.

[Beethoven, William Kinderman](#) , 2009, 0195328361, 9780195328363. Combining musical insight with the most recent research, William Kinderman's Beethoven is both a richly drawn portrait of the man and a guide to his music. Kinderman traces the composer's intellectual and musical development from the early works written in Bonn to the Ninth Symphony and the late quartets, looking at compositions from different and original perspectives that show Beethoven's art as a union of sensuous and rational, of expression and structure. In analyses of individual pieces, Kinderman shows that the deepening of Beethoven's musical thought was a continuous process over decades of his life. In this new updated edition, Kinderman gives more attention to the composer's early chamber music, his songs, his opera Fidelio, and to a number of often-neglected works of the composer's later years and fascinating projects left incomplete. A revised view emerges from this of Beethoven's aesthetics and the musical meaning of his works. Rather than the conventional image of a heroic and tormented figure, Kinderman provides a more complex, more fully rounded account of the composer. Although Beethoven's deafness and his other personal crises are addressed, together with this ever-increasing commitment to his art, so too are the lighter aspects of his personality: his humor, his love of puns, his great delight in juxtaposing the exalted and the commonplace.

[Frankenstein, Mary Shelley](#) , 2010, 095652771X, 9780956527714.

[Necessary Evils: Amnesties and the Search for Justice, Mark Freeman](#) , 2009, 0521895251, 9780521895255. This book is

about amnesties for grave international crimes that are adopted by states in moments of transition or social unrest. The subject is naturally controversial, especially in the age of the International Criminal Court. The goal of this book is to reframe and revitalize the global debate on the subject, and to offer an original framework for resolving amnesty dilemmas when they arise. Most existing literature and jurisprudence on amnesties deal with only a small subset of state practice and sidestep the ambiguity of amnesty's position under international law. This book addresses the ambiguity head on and argues that amnesties of the broadest scope are sometimes defensible when adopted as a last recourse in contexts of mass violence. Drawing on an extensive amnesty database, the book offers detailed guidance on how to ensure that amnesties extend the minimum leniency possible, while imposing the maximum accountability on the beneficiaries.

[Cromartie V. the God Shiva: Acting Through the Government of India, Rumer Godden](#) , 1997, 0786213477, 9780786213474. With a magical story about art, love, and greed, Rumer Godden returns to India, the country that has inspired many of her greatest works. Set in London and on south India's shimmering Coromandel coast, the story is based on a real case that happened ten years ago concerning the ownership of a priceless bronze statue. An entrancing modern-day morality tale, "Cromartie v. the God Shiva Acting Through the Government of India" is also at heart a touching love story. The story opens with the discovery that a revered eleventh-century statue of the Hindu god Shiva has gone missing from the old-fashioned Patna Hall hotel. It ends up in the hands of a Canadian art dealer, Mr. Cromartie, who takes it to London to be appraised by one of the world's chief specialists in Oriental antiques, only to find it impounded by the British police. Insisting the statue was not stolen, Mr. Cromartie takes the case to court and a legal battle ensues. Michael Dean, a leading young lawyer, is sent from London to assume the case for the defense: the Indian government. There, he is instantly captivated by Artemis, an enchanting and graceful archaeologist staying at the hotel, who proves to be as elusive as the mystery of the theft he is investigating.

[Heel to Toe: Encounters in the South of Italy, Charles Lister](#) , 2003, 009944903X, 9780099449034. Not many people go to the south of Italy. South of Naples, they say, belongs more to Africa than to Europe. But it is through this extraordinary region that Charles Lister travels, first by bicycle and then on an erratic moped forced on him by a bartender. Starting in Brindisi, at the foot of the Appian Way, he heads into a region with a glorious history, riven by contradictions and straining at its enforced union with the rest of Italy. In the course of his journey, Lister is nearly bombed by the local mafia, meets a number of tomb robbers, and is equally enchanted by the wine and the women of the region. The people he meets along the way are by turns warm, aloof, and curious, and the landscape is magnificent the reminders of fallen empires and ancient wars ever present. A fascinating, utterly enjoyable portrait of a little-known part of Italy, belonging firmly to the best traditions of travel writing.

[The Path of the She-wolf, Theresa Tomlinson](#) , 2000, 0099402653, 9780099402657. Forced to sign the Magna Carta, King John reneges and answers the uprising by the foresters by destroying their villages. The Forestwife's skills are called on more than ever. This trilogy concludes with Marion and Robert finally confronting the Sheriff of Nottingham and fulfilling their destinies.

Currently in its 49th volume, the series features a wide range of reviews by recognized experts on all aspects of plant genetics, biochemistry, cell biology, molecular biology, physiology and ecology. This eclectic volume features six reviews on cutting-edge topics of interest to postgraduates and researchers alike. * Multidisciplinary reviews written from a broad range of scientific perspectives * For over 30 years, series has enjoyed a reputation for excellence * Contributors internationally recognized authorities in their respective fields

[Beneath the Lion's Gaze: A Novel, Maaza Mengiste](#) , 2010, 0393071766, 9780393071764. This memorable, heartbreaking story opens in Addis Ababa, Ethiopia, 1974, on the eve of a revolution. Yonas kneels in his mother's prayer room, pleading to his god for an end to the violence that has wracked his family and country. His father, Hailu, a prominent doctor, has been ordered to report to jail after helping a victim of state-sanctioned torture to die. And Dawit, Hailu's youngest son, has joined an underground resistance movement a choice that will lead to more upheaval and bloodshed across a ravaged Ethiopia. Beneath the Lion's Gaze tells a gripping story of family, of the bonds of love and friendship set in a time and place that has rarely been explored in fiction. It is a story about the lengths human beings will go in pursuit of freedom and the human price of a national revolution. Emotionally gripping, poetic, and indelibly tragic, Beneath The Lion's Gaze is a transcendent and powerful debut.

[Financing Pakistan's development in the 1990s, Anjum Nasim](#) , 1992, 0195774590, 9780195774597. This comprehensive discussion on how to finance and manage Pakistan's development in the 1990s represents the analysis and views of a cross section of academics, economists, financial experts, policy makers, and businessmen. Anjum Nasim provides a historical overview of Pakistan's economy and details its condition at the beginning of the 1990s, its strengths and weaknesses, the prospects and potential for growth in the 1990s and the policies that would allow Pakistan to realize its full growth potential.

[Copperheads: The Rise and Fall of Lincoln's Opponents in the North, Jennifer L. Weber](#) , 2006, 0199885621,

9780199885626. If Civil War battlefields saw vast carnage, the Northern home-front was itself far from tranquil. Fierce political debates set communities on edge, spurred secret plots against the Union, and triggered widespread violence, such as the New York City draft riots. And at the heart of all this turmoil stood Northern anti-war Democrats, nicknamed "Copperheads." Now, Jennifer L. Weber offers the first full-length portrait of this powerful faction to appear in almost half a century. Weber reveals how the Copperheads came perilously close to defeating Lincoln and ending the war in the South's favor. Indeed, by the summer of 1864, they had grown so strong that Lincoln himself thought his defeat was "exceedingly likely." Passionate defenders of civil liberties and states' rights--and often virulent racists--the Copperheads deplored Lincoln's suspension of habeas corpus, his liberal interpretation of the Constitution, and, most vehemently, his moves toward emancipation. Weber reveals how the battle over these issues grew so heated, particularly in the Midwest, that Northerners feared their neighbors would destroy their livestock, burn their homes, even kill them. Indeed, some Copperheads went so far as to conspire with Confederate forces and plan armed insurrections, including an attempt to launch an uprising during the Democratic convention in Chicago. Finally, Weber illuminates the role of Union soldiers, who, furious at Copperhead attacks on the war effort, moved firmly behind Lincoln. The soldiers' support for the embattled president kept him alive politically in his darkest times, and their victories on the battlefield secured his re-election. Disgraced after the war, the Copperheads melted into the shadows of history. Here, Jennifer L. Weber illuminates their dramatic story. Packed with sharp observation and fresh interpretations, Copperheads is a gripping account of the fierce dissent that Lincoln called "the fire in the rear."

[Barrenlands, Doranna Durgin](#) , 2003, 1592241247, 9781592241248. When his sovereign and friend was killed, Ehren, favored King's Guard, was far away-sent on a wild goose chase by the First Level Ministry, whose number he now believes must contain at least one traitor. When he's ordered to stop his investigation, and sent to find and destroy stray branches of the royal family tree instead, his suspicions deepen to near certainty. And he is determined to find the exiles-but only so that he may guard them with his life.

[Shane Howard: Lyrics, Shane Howard](#) , 2010, 0980564352, 9780980564358. From a profound and moving experience at an inma (community concert) at Uluru in 1981, Shane Howard created the song Solid Rock that passed into folklore and the Australian psyche. Undiminished by commercial success, he relentlessly pursued an artist's journey, in order to make sense of the story of a whitefella in an Aboriginal country. A journey that led through the heartbreak of one colonised country to another. From whitefella Australia through Aboriginal Australia and inevitably to the bottomless well of inspiration from his ancestral country of Ireland. To the past and back again, to a new vision of Australia, he has pursued the artist's path. Along the way he has created a body of work that endures and inspires. Here are the fruits of that long, uplifting, often lonely and misunderstood, journey. All the faces and places are embedded in this compelling body of work, speaking as it does with the voice of an important addition to an evolving and emerging Australian tradition.

['What the Heck Are You Up To, Mr. President?': Jimmy Carter, America's 'Malaise,' and the Speech That Should Have Changed the Country, Kevin Mattson](#) , 2010, 1608192067, 9781608192069. At a critical moment in Jimmy Carter's presidency, when morale was low and his ratings were even lower, Carter gave a speech that should have changed the country instead, it led to his downfall. Kevin Mattson takes us behind the scenes of the Carter White House in the weeks leading up to the fateful speech, and examines the moral crisis that ushered in a new, conservative America.

[Going Gray: What I Learned about Beauty, Sex, Work, Motherhood, Authenticity, and Everything Else that Really Matters, Anne Kreamer](#) , 2007, 0316166618, 9780316166614. Anne Kreamer considered herself a youthful 49 until a photo of herself with her teenage daughter stopped her in her tracks. In one unguarded moment she saw herself for what she really was -- a middle-aged woman with her hair dyed much too harshly. In that one moment Kreamer realized that she wasn't fooling anyone about her age and decided it was time to get real and embrace a more authentic life. She set out for herself a program to let her hair become its true color, and along the way discovered her true self. Going Gray is Kreamer's exploration of that experience, and a frank, warm and funny investigation of aging as a female obsession. Through interviews, field experiments, and her own everywoman's chronicle, Kreamer probes the issues behind two of the biggest fears aging women face: Can I be sexually attractive as a gray-haired, middle-aged woman? and Will I be discriminated against in the work world? Her answers will surprise you. In searching for the balance between attractiveness and authenticity, Kreamer's journey of middle-aging illuminates in a friendly, useful, and entertaining way

the politics and personal costs of this generation's definition of "aging gracefully.

[Tribes, Anne Lewington](#) , 1999, 0953512312, 9780953512317. TRIBES is a powerful story of human survival in a post-apocalyptic world blighted by a catastrophic event, the nature of which is shrouded in mystery. Taking part in his first raid, Isaac England, son of the Captain (black autocratic ruler of a fortified city on the border of lands once known as Europe and Asia) is keen to impress his father and live up to the ruthless example of his adopted brother, Kai. But faced with killing an unarmed boy, Isaac spares his life; an act of compassion which sets him at odds with his father and comes back to haunt him. When the city is under attack, sinister secrets come to light. Dangerous lies are exposed and, in a desperate bid to save those he loves (one of whom is Vida, sister of the boy he spared) Isaac is plunged into a nightmare world beneath his city, where lies a greater threat to mankind than any he could have imagined. Exploring issues of global pollution, racism and respect for life, Tribes is a compelling, poignant and fast-moving adventure seen through the eyes of a courageous young man with a strong moral code and the need to question.

[Kenk: A Graphic Portrait, Richard Poplak, Alex Jansen, Jason Gilmore](#) , 2010, 0986488402, 9780986488405. KENK: A Graphic Portrait is an award-winning, 300-page, journalistic comic book surrounding Igor Kenk, "the world's most prolific bicycle thief" (The New York Times and The Guardian). In the summer of 2008, Kenk was arrested and nearly 3,000 bicycles were seized in what became one of the biggest news stories of the year. Built from an incredible mix of candid, filmed interviews prior to his arrest, found footage and archival material, treated with a dazzling visual style, KENK is a thought-provoking and surprisingly funny journalistic profile of an outsize neighborhood figure and a city in flux (in the tradition of New Yorker masters Joseph Mitchell and A.J. Liebling). KENK is a one-of-a-kind profile - a mash-up of mediums that culminates in a marriage of thorough investigative journalism and the comic book form in an entirely new way.

This publication sets out the Government's strategy to address the demographic changes being made by population ageing trends, in order to achieve increased prosperity and quality of life, active independence, participation and health outcomes for today's older people. Priorities for action include: higher employment rates and greater flexibility for the over-50s in continuing careers, managing health conditions and combining work with family and other commitments, increased participation of older people in our society, with an adequate income and decent housing. The strategy identifies the challenges involved for government, business and individuals and considers a range of topics including: cultural change, tackling inequalities, employment issues, active ageing as part of the community, independence and control, organisation and delivery of public services for older people.

[Living by Vow: A Practical Introduction to Eight Essential Zen Chants and Texts, Shohaku Okumura](#) , 2012, 1614290105, 9781614290100. This immensely useful book explores Zen's rich tradition of chanted liturgy and the powerful ways that such chants support meditation, expressing and helping us truly uphold our heartfelt vows to live a life of freedom and compassion. Exploring eight of Zen's most essential and universal liturgical texts, Living by Vow is a handbook to walking the Zen path, and Shohaku Okumura guides us like an old friend, speaking clearly and directly of the personal meaning and implications of these chants, generously using his experiences to illustrate their practical significance. A scholar of Buddhist literature, he masterfully uncovers the subtle, intricate web of culture and history that permeate these great texts. Esoteric or challenging terms take on vivid, personal meaning, and old familiar phrases gain new poetic resonance.

[Gender, Work and Community After De-Industrialisation: A Psychosocial Approach to Affect, Valerie Walkerdine, Luis Jimenez](#) , 2012, 0230359167, 9780230359161. How does an industrial community cope when they are told that closure is inevitable? What if this is only the last in a 200 year long line of threats, insecurities and closure? How did people weather the storms and how do they face the future now? While attempts to regenerate communities are everywhere, we do not often hear from the people themselves just how they managed to create safe collective spaces or how the fall of the whole house of cards brought with it effects which can be felt by young people who never knew the town when it

was an industrial heartland. We hear the story of how men and women tried to cope and still want to retain their community in the face of its destruction. What can they and will they have to pass to the next generation and where will that leave the young people themselves, who have nothing to stay for but are unable to leave? This book examines these crucial questions facing post-industrial societies.

[Qualities of Effective Teachers, James H. Stronge](#) , 2007, 1416604618, 9781416604617. Remember those great teachers who made you excited about learning? Remember how it felt to be in their classes and to experience how they made their classrooms come alive? What made those teachers special? What qualities and skills did they have to ignite student learning? Most important, how did those teachers help their students become successful? In *Qualities of Effective Teachers*, 2nd edition, James H. Stronge shows educators how to recreate this same excitement and enthusiasm in their own classrooms by describing the characteristics and skills of effective teachers. Stronge synthesizes research to identify specific teacher behaviors that contribute to student achievement. Rather than look at outside factors like demographics, district leadership, and state mandates, Stronge focuses specifically on what teachers can control: their own preparation, personality, and practices. Learn how effective teachers

- *Prepare to be effective educators.
- *Establish, manage, and maintain learning-focused classroom environments.
- *Organize time, communicate expectations, and plan instruction.
- *Present curriculum to support active and engaged learning.
- *Monitor student progress, identify student potential, and meet the needs of special populations in the classroom.

This second edition includes new tips and tools for engaging at-risk students and high-ability students. It also includes skills checklists and an expanded, annotated bibliography to provide a springboard for further insight and exploration. Teachers, educators who hire teachers, teacher leaders, supervisors, and teachers-in-training can all use this book to learn to how to develop better teachers and to improve the quality of learning for all students.

[Not the Rain, the Wind, John Egan](#) , 2006, 0958057656, 9780958057653.

[The Rockstar and the Fan, Caroline McKeon](#) , 2013, 0971829578, 9780971829572. Katie is a young girl with a secret. From the age of nine she has been severely abused by a vicious stepfather. To survive the brutality she develops a rich and intense fantasy life in which she spends a great deal of her time. At the age of twelve she sees rockstar Zackery Kaine on American Bandstand and sets into motion a plan to meet him to see if he can help end her hellish home life. Inside her invented world she meets Blake Elliott, the clone of Zak, her rockstar. He takes on the role of protector until the night Katie meets her flesh-and-blood rockstar who steps up to champion her cause and end her abuse. The psychological struggle between real life and her fantasy world exacts a toll on Katie. With her sanity at stake, she forges ahead and goes after what she believes will give her a life she can finally accept.

[To Complete His Work on Earth: Exploring the Christian Task with Young People Today, Raymond Brady, Celine McArdle](#)

[A Faraway Country, Frank Hilaire](#) , 2007, 0979748909, 9780979748905. It's early '95, and from across cultures and untold miles, PK heeds psychical prompts from a tiny Maya girl and heads south in an old Dodge van. Along the way, flashbacks revisit his 11 years in prison, an escape from Folsom, and how, upon release in '70, he finds employment as an "agent of Mexico's dedicated guerrillas." Now decades later, we follow our "two-fisted killer man" to Chiapas, to mysterious Maya Mexico. Against a backdrop of Zapatistas (EZLN) locked in a mortal struggle with NAFTA and an amoral government, we meet immensely memorable characters, among them: otherlaw Gat, footless Vietnam vet; China-eyed Ana, psychedelic sorceress; flamboyant Biga, tormented Maya street queen; beautiful Nichim, slave girl; Wiz-wiz, Zapatista warrior woman; we follow the Fills-seekers of Atlantis and 60ish ex-pats-as they dodge the \$30,000 "official adoptions racket" to legally become the "birth" parents of baby Dream: cost-\$12.. With "long-term hard-timer" PK as guide, A FARAWAY COUNTRY probes tinderbox Maya-Mexico while offering a troubling view of Mexico as a viciously apartheid culture, a deftly-manipulated penitentiary to millions, and just another US-propped failed state.

[Ouija, Stoker Hunt](#) , 1992, 0060923504, 9780060923501. The First Book To Take A Hard Look At The Phenomenon Called "The Ouija Board"Is it just a game? When you ask the Ouija board a question, who is it that answers? What about those stories of Ouija-inspired prophecy and clairvoyance? What are the dangers of the Ouija board? Do you know the stories of Ouija-inspired murders, madness, obsession and possession? Exalted by some, condemned by others, there's no doubt the Ouija is controversial. In this fascinating book Stoker Hunt investigates the history and legacy of this "Mystic Talking Oracle."

[Trading Price Action Trading Ranges: Technical Analysis of Price Charts Bar by Bar for the Serious Trader, Al Brooks](#), 2011, 1118172337, 9781118172339. Praise for Trading Price Action Trading Ranges "Al Brooks has written a book every day trader should read. On all levels, he has kept trading simple, straightforward, and approachable. By teaching traders that there are no rules, just guidelines, he has allowed basic common sense to once again rule how real traders should approach the market. This is a must-read for any trader that wants to learn his own path to success." Noble DraKoln, founder, SpeculatorAcademy.com, and author of Trade Like a Pro and Winning the Trading Game "A great trader once told me that success was a function of focused energy. This mantra is proven by Al Brooks, who left a thriving ophthalmology practice to become a day trader. Al's intense focus on daily price action has made him a successful trader.

A born educator, Al also is generous with his time, providing detailed explanations on how he views daily price action and how other traders can implement his ideas with similar focus and dedication. Al's book is no quick read, but an in-depth road map on how he trades today's volatile markets, complete with detailed strategies, real-life examples, and hard-knocks advice."Ginger Szala, Publisher and Editorial Director, Futures magazine

Over the course of his career, author Al Brooks, a technical analysis contributor to Futures magazine and an independent trader for twenty-five years, has found a way to capture consistent profits regardless of market direction or economic climate. And now, with his new three-book series which focuses on how to use price action to trade the markets Brooks takes you step by step through the entire process. In order to put his methodology in perspective, Brooks examined an essential array of price action basics and trends in the first book of this series, *Trading Price Action TRENDS*. Now, in this second book, *Trading Price Action TRADING RANGES*, he provides important insights on trading ranges, breakouts, order management, and the mathematics of trading. Page by page, Brooks skillfully addresses how to spot and profit from trading ranges which most markets are in, most of the time using the technical analysis of price action. Along the way, he touches on some of the most important aspects of this approach, including trading breakouts, understanding support and resistance, and making the most informed entry and exit decisions possible. Throughout the book, Brooks focuses primarily on 5 minute candle charts all of which are created with TradeStation to illustrate basic principles, but also discusses daily and weekly charts. And since he trades more than just E-mini S&P 500 futures, Brooks also details how price action can be used as the basis for trading stocks, forex, Treasury Note futures, and options.

[An Introduction to Gestalt, Charlotte Sills, Phil Lapworth, Billy Desmond](#) , 2012, 144627134X, 9781446271346. This thoroughly revised edition of Gestalt Counselling introduces the fundamental concepts of Gestalt and systematically demonstrates how to apply and use these in practice. Taking a relational perspective, the expert authors explore how Gestalt can be used in a wide variety of 'helping conversations' from counselling, psychotherapy and coaching to mentoring, managing, consulting and guiding. Each chapter contains case examples from the therapeutic world and a 'running case study' featuring ongoing coaching work moves throughout the book, with diagrams and lists for further reading making this the ideal text for use in training. The accessible, engaging writing style will appeal to undergraduates and postgraduates alike. Charlotte Sills is a practitioner and supervisor in private practice, a tutor at Metanoia Institute and a tutor and supervisor of coaching at Ashridge College Business School. She is the author or co-author of many books and articles on therapeutic work. Phil Lapworth is a counsellor, psychotherapist and supervisor in private practice near Bath and has written extensively in the field of counselling and psychotherapy. Billy Desmond is a Gestalt psychotherapist, executive coach and organisational development consultant. He is a member of Ashridge College and a Programme Director of Partnering and Consulting in ChangeHead of the Gestalt Department at Metanoia Institute, and tutor and consultant at Ashridge Business School.

[For the Common Good?: American Civic Life and the Golden Age of Fraternity, Jason Andrew Kaufman](#) , 2002, 0195148576, 9780195148572. The Golden Age of Fraternity was a unique time in American history. In the forty years between the Civil War and the onset of World War I, more than half of all Americans participated in clubs, fraternities, militias, and mutual benefit societies. Today this period is held up as a model for how we might revitalize contemporary civil society. But was America's associational culture really as communal as has been assumed? What if these much-admired voluntary organizations served parochial concerns rather than the common good? Jason Kaufman sets out to dispel many of the myths about the supposed civic-mindedness of "joining" while bringing to light the hidden lessons of associationalism's history. Relying on deep archival research in city directories, club histories, and membership lists, Kaufman shows that organizational activity in the late nineteenth and early twentieth centuries revolved largely around economic self-interest rather than civic engagement. And far from spurring concern for the collective good, fraternal societies, able to pick and choose members at will, fostered exclusion and further exacerbated the competitive interests of a society divided by race, class, ethnicity, and religion. Tracing both the rise and the decline of American associational life - a decline that began immediately after World War I, much earlier than previously thought - Kaufman argues persuasively that the end of fraternalism was a good thing. Illuminating both broad historical shifts - immigration, urbanization, and the disruptions of war, among them - and smaller, overlooked contours, such as changes in the burial and life insurance industries, Kaufman has written a bracing revisionist history. Eloquently rebutting those hailing America's associational past and calling for a return to old-style voluntarism, *For the Common Good?* will change the terms of debate about the history - and the future - of American civil society.

[Pocket ECGs: A Quick Information Guide, Bruce Shade](#) , 2006, 0073519766, 9780073519760. This book is a portable, easy to view, quick reference pocket guide. It puts the key points about how to recognize the various dysrhythmias and cardiac conditions at the fingertips of the practitioner allowing them to quickly identify what they see in the field and/or clinical setting. It is also a useful tool in the classroom for the student to quickly look up key information. There is a short introduction that talks about the location of the heart, lead placement and the nine step process for interpreting the various wave forms and characteristics. It briefly describes the normal and abnormal features found on ECG tracings. It visually demonstrates how to calculate the heart rate, identify irregularities and identify and measure the various

waveforms, intervals and segments. The introductory information is followed by chapters, broken out by where the dysrhythmias originate (i.e., sinus, atrial, junctional, ventricular, AV heart block), on the key characteristics of various dysrhythmias and conditions that can be detected through the use of the electrocardiogram. [Claire's Traditional Carolbook: Easy Arrangements of Traditional Carols, Christopher Mungal, Eros Mungal, Darren Mungal](#) , 1998, 0954440617, 9780954440619. Traditional Carols the Easy Way, in two Keys. Ideal for schools and churches.These Carols are arranged in two easy keys C and G major. No key signatures have been used, and for arrangements in the key of G, the F notes are individually sharpened. Importance has been given to practical accompaniments with easy left-hand positions. The "1 plus 2" note arrangements lead to easy sight reading and playability by students, especially young pianists. The "two note" left hand chords are designed to give maximum harmony with the right hand, with only three notes. The accompaniments are also designed to maintain a steady rhythm while maintaining harmonic interest with the minimum of complexity. In pieces where there are suggestions of diminished chords or passing notes, D sharp or C sharp, the sharps may be ignored without destroying the harmony as long as the pianist remembers the F sharps !It is advised that the student pianist practise the exercise in the appendix, the "left hand pairs" are designed to introduce the left hand style. In pieces where there are 4 crotchet pairs to the bar, for example "Angels from the realms of glory", the second and fourth pairs can be omitted without interrupting the rhythmic flow of the music. For electronic keyboards, simple 4 crotchet beat rhythms can be used, example 8 beat types

at a tempo of 105, for example in "Little Angels". For pieces in three crotchet beat time, for example "We wish you a Merry Christmas" or "We Three Kings", a simple waltz time at a starting tempo of 100 will be effective. More complex rhythms will tend to confuse and not help students. For Guitar players the carols that are written in the key of C major can be accompanied by the major chords of C,F,G. Also any carols written in the key of G major can be accompanied by the major chords of G,C,D. Those in the key of G with have at least one F sharp. For guitar chords see the appendix where there are also other useful chords. From the Publisher Features of Claire's Traditional Carolbook. 1) Created and inspired by young people - not just old reprints 2) Modern arrangements to suit the modern piano player 3) Simple progressions- most are two note chords 4) No big jumps - octave stretches a rarity! 5) No long stretches - ideal for small hands 6) Harmony is retained while maintaining simplicity 7) Rhythm is maintained 8) Two easy keys - C major and G major 9) No key signatures 10) Easy for guitar players who can recognise basic chords 11) Guide fingering without unnecessary clutter 12) Practice exercises based on carol arrangements included 13) Playable by amateurs and more advanced pianists 15) Two versions of some popular carols (English and American) 16) Every carol has the words edition on the facing page in clear type. this is can be used in schools, churches, hospitals, youth and other institutions. Look also at Claire's Workbook from the same publisher, the easy way to learn music theory and notation also available on Amazon. ISBN: 0954440609.

[Soni's Mended Wings, Peter Eyvindson, Brynjolson, Rhian](#) , 1999, 0968491804, 9780968491805. Soni, a physically and mentally challenged child in Haiti spent years confined to his crib until one day some street children took over the operation of the orphanage. These teenagers offered Soni the same hope that they received from living in St. Joseph's Home, a mission designed to rescue boys from the harsh reality of the streets of Port au Prince.

[Cuban Cinema, Michael Chanan](#) , 2004, 0816634246, 9780816634248. The earliest films made in Cuban newsreel footage of the Cuban-Spanish-American War date from the end of the nineteenth century, but Cuba cannot be said to have had an indigenous film industry before the revolution of 1959. The melodramas, musicals, and comedies made until then reflected Hollywood and the United States cultural domination of the island, but the revolution precipitated urgent debates about the role of cinema in a socialist country and the kinds of films best suited to the needs of the people and their rulers. Among the feature films, documentaries, and short subjects made in accordance with revolutionary principles are celebrated works by Tomas Gutierrez Alea, Humberto Sols, and other filmmakers who have had a profound influence on both Latin American and world cinema. Michael Chanan provides a comprehensive, authoritative, and absorbing account

of Cuban cinema both before and after the revolution, deftly setting individual films and filmmakers within the larger framework of Cuba's social, political, and cultural history. First published as *The Cuban Image* in 1984 to wide acclaim, *Cuban Cinema* now appears in a new, expanded edition that updates Chanans discussion to the beginning of the twenty-first century. New chapters address ongoing concerns about freedom of expression; Havana's restored importance within the Latin American film industry through the Havana Film Festival, before state support for filmmakers dwindled in the economic collapse that followed the fall of the Soviet Union; Cuban cinema's place within the globalized cultural market; and the changing audience for Cuban films. The only book-length study of Cuban cinema written in English, this indispensable work on one of the world's most vital national cinemas offers a unique perspective on the Cuban experience in the twentieth century. Michael Chanana is a documentary filmmaker and professor of cultural and media studies at the University of the West of England in Bristol.

[Labor Rights are Civil Rights: Mexican American Workers in Twentieth-century America, Zaragosa Vargas](#) , 2005, 069111546X, 9780691115467. In 1937, Mexican workers were among the strikers and supporters beaten, arrested, and murdered by Chicago policemen in the now infamous Republic Steel Mill Strike. Using this event as a springboard, Zaragosa Vargas embarks on the first full-scale history of the Mexican-American labor movement in twentieth-century America. Absorbing and meticulously researched, *Labor Rights Are Civil Rights* paints a multifaceted portrait of the complexities and contours of the Mexican American struggle for equality from the 1930s to the postwar era. Drawing on extensive archival research, Vargas focuses on the large Mexican American communities in Texas, Colorado, and California. As he explains, the Great Depression heightened the struggles of Spanish speaking blue-collar workers, and employers began to define citizenship to exclude Mexicans from political rights and erect barriers to resistance. Mexican Americans faced hostility and repatriation. The mounting strife resulted in strikes by Mexican fruit and vegetable farmers. This collective action, combined with involvement in the Communist party, led Mexican workers to unionize. Vargas carefully illustrates how union mobilization in agriculture, tobacco, garment, and other industries became an important vehicle for achieving Mexican American labor and civil rights. He details how interracial unionism proved successful in cross-border alliances, in fighting discriminatory hiring practices, in building local unions, in mobilizing against fascism and in fighting brutal racism. No longer willing to accept their inferior status, a rising Mexican American grassroots movement would utilize direct action to achieve equality.

[Integrating the Neurobiology of Schizophrenia, ISSN 0074-7742, Anissa Abi-Dargham, Olivier Guillin](#) , 2007, 0123737370, 9780123737373. This book examines the role that dopamine plays in schizophrenia, examining its role in not only the symptoms of the disease but also in its treatment. It also reviews all neurotransmitters that have been implicated in schizophrenia, exploring the genetic data, clinical data implicating the transmitter, and the preclinical data exploring how a transmitter may interact with dopamine and contribute to the dopaminergic phenotype observed in the illness. This book will serve as an educational tool for instructors, a guide for clinicians, and be of interest to researchers. It is a good reference for researchers specialized in one particular area and interested in learning about other areas of pathology in schizophrenia and how they may all feed into each other. The book concludes with an overall integrative model assembling as many of these elements as possible.

[Fritz and the Mess Fairy.](#) , 1996, 0140556818, 9780140556810. Fritz has a terrible problem keeping things neat. Messes seem to follow him around the house, letting everyone know where he's been. You couldn't bounce a coin off his sheets - because you can't even see them! The whole family is fed up.

[Love is a Dog From Hell, Charles Bukowski](#) , 2009, 0061847011, 9780061847011. First published in 1977, Love Is a Dog from Hell is a collection of Bukowski's poetry from the mid-seventies. A classic in the Bukowski canon, Love Is a Dog from Hell is a raw, lyrical, exploration of the exigencies, heartbreaks, and limits of love.

[Academic Medicine:A Guide for Clinicians: A Guide for Clinicians, Robert B. Taylor](#) , 2007, 0387344500, 9780387344508. Robert B. Taylor, MD, has edited this book that introduces physicians and clinicians to an academic career in the health professions. Written from the clinicians viewpoint, it guides readers who are considering or who have recently embarked upon such a career through the essentials. Taylors approach is practical and well rounded. He integrates evidence-based information from the medical literature with anecdotes from contributors noted for their success in a spectrum of disciplines at top academic medical centers. Taylor addresses the career decision-making process, job hunting, and life in academia. He also focuses on skills for success from teaching to grant writing. Advice on clinical practice, career management, and the work/life balance is plentiful. The book dispels common myths and outlines errors to avoid.

Differences in expectations and culture among teaching hospitals, medical schools, and academic medical centers are considered throughout. Sources for more information are provided as well.

[Bagman 2: Back Inside the Ropes with Golf's Leading Looper, Colin Byrne](#) , 2009, 0954865383, 9780954865382. A follow-up to the critically-acclaimed 'Bagman', Colin Byrne continues his unique and razor-sharp insights into the rollercoaster world of professional golf and its accompanying circus of mind gurus, physios, nutritionists, faith healers, gadget makers, fakirs and the ultimate fall guys - the professional caddies.

[Moral Particularism, Brad Hooker, Margaret Olivia Little](#) , 2000, 0198238843, 9780198238843. Moral Particularism is a timely and penetrating investigation of a theoretical approach that seeks to transform moral philosophy. In the face of continuing disagreement about which general moral principles are correct, there has been a resurgence of interest in the view that correct moral judgements can be only about particular cases. This view, moral particularism, presages a revolution in ordinary moral practice, which has hitherto consisted largely of appeals to general moral principles. Moral particularism also opposes the main aim of most contemporary normative moral theory, which consists in attempts to show that either one general principle or a set of general principles is superior to all its rivals.

[White Lie SOAP: For Removal of Lingering Stains on Ellen White's Integrity As an Inspired Writer, Kevin L. Morgan](#) , 2013, 0982662017, 9780982662014. The accusation of plagiarism that erupted 30 years ago in The White Lie by Walter Rea and left its stain on Ellen White's reputation now has an all-purpose cleaner--it is called White LIE Soap. It is "for removal of lingering stains on Ellen White's integrity as an inspired writer." Author Kevin L. Morgan cleans up concerns about: ... - Ellen White's "copying" from sources for her books - Ellen White's denials and originality - Ellen White's literary errors, supposed and real - Supposed mistakes in The Great Controversy - Issues regarding Sketches from the Life of Paul.

[Authentic Assessment for English Language Learners: Practical Approaches for Teachers, J. Michael O'Malley, Lorraine Valdez Pierce](#) , 1996, 0201591510, 9780201591514. [Breastfeeding Answers Made Simple: A Pocket Guide for Helping Mothers, Nancy Mohrbacher](#) , 2012, 0984774629, 9780984774623. Breastfeeding Answers Made Simple: A Pocket Guide for Helping Mothers is the latest must-have reference from Nancy Mohrbacher, IBCLC, FILCA, co-author of The Breastfeeding Answer Book. How does this pocket guide compare to its larger cousin, Breastfeeding Answers Made Simple (BAMS)? Both contain the basic information and strategies you need to help mothers with a vast array of common and unusual breastfeeding challenges. But to make this

companion volume portable enough to keep on hand while working with families, what's been removed are the thousands of research citations and often lengthy explanations for its strategies. Written for all levels of expertise, from beginners to advanced practitioners, BAMS Pocket Guide is an ideal resource for hospitals, clinics, medical practices, public-health offices, breastfeeding peer counselors, and mother-support groups. This up-to-date resource provides the information you need to empower mothers to meet their breastfeeding goals. For Nancy's continuing commentary on breastfeeding research and trends, follow her blog at NancyMohrbacher.com

[The Children of First Man, James Alexander Thom](#) , 1995, 0449149706, 9780449149706. "MASTERFULLY RESEARCHED AND WRITTEN, THE CHILDREN OF FIRST MAN IS A FEAST OF A NOVEL. James Alexander Thom's sweeping saga of Welsh colonization in prehistoric America is loaded with wonderful characters and events, some so poignant I had to stop reading now and then to reflect."--Linda Lay Shuler Author of *She Who Remembers* With its beautifully written and deeply felt descriptions of the feelings the first white settlers and Native Americans had for each other, THE CHILDREN OF FIRST MAN tells the fascinating story of a European people gradually absorbed into the Amerindian culture until their literacy was lost and their Christian religion submerged in the legend of a Welsh Prince named Madoc, the First Man. Sweeping from the blood-soaked castles of medieval Wales to the landmark expedition of Lewis and Clark, from the hushed beauty of virgin wilderness to Mandan villages of domed earthen lodges, THE CHILDREN OF FIRST MAN is a triumph of the storyteller's art."TERRIFICALLY ENTERTAINING...A highly imaginative novel that combines an old legend with historical fact to create an epic tale of America starting some three-hundred years before Columbus arrived."--Booklist

[Nonverbal Communication: Studies and Applications, Nina-Jo Moore, Mark Hickson, Don W. Stacks](#) , 2009, 0195378571, 9780195378573. Providing a thoughtful balance of theory and practice, *Nonverbal Communication: Studies and Applications, Fifth Edition*, offers students an engaging, sophisticated, and up-to-date introduction to the field. Nina-Jo Moore, Mark Hickson, III, and Don W. Stacks, use examples from everyday life and television to help students understand how nonverbal communication affects the real world. The authors discuss many interesting topics that are not usually covered in nonverbal communication texts--including body alterations, biofeedback, and olfactics--and take a unique "sensory" approach to nonverbal communication (i.e., they examine how the five senses process nonverbal communication signals). They begin with a discussion of the sense of touch (rather than physical appearance, the typical starting point of most nonverbal communication texts) and then lead into the study of space, the sense of sight, the sense of hearing, the sense of smell, and finally, the use of time. Consistently demonstrating the applications of theory while emphasizing the research basis of nonverbal communication, *Nonverbal Communication, Fifth Edition*, is ideal for nonverbal communication courses in either communication or psychology departments. NEW TO THIS EDITION* Greater focus on individual applications of contemporary research findings* Updated research providing the most recent studies published in the field* Revised "Observational Studies" features that offer students the opportunity to apply what they

are learning to a variety of contexts* Instructor's Companion Website (www.oup.com/us/nonverbal) with a full Instructor's Manual and interactive PowerPoint lecture slides

[Numerical Modeling in Open Channel Hydraulics, Romuald Szymkiewicz](#) , 2010, 9048136741, 9789048136742. This book offers a comprehensive approach to the numerical modeling of open channel flow, based on the authors own research in this field, as well as his experience as a lecturer. It provides the reader with: Coverage of the most important problems of open channel hydraulics, including steady and unsteady flow in a single channel and in a channel network, transport of dissolved substance, transport of energy and more; Unified derivation of the governing equations for all problems, based on the fundamental laws of mass, momentum and energy conservation; Comprehensive presentation of the numerical methods applied in open channel flow modeling, with particular regard to the solution of hyperbolic and parabolic partial differential equations, which govern many important flow and transport processes; Detailed description of the numerical algorithms applied to solve particular problems, with many examples of solutions; Accuracy analysis of the numerical algorithms using the modified equation approach; New insights into numerical solution of some classical problems of open channel hydraulics, e.g. steady varied flow in a channel of arbitrary geometry. In-depth analysis of the simplified flood routing models and their unphysical properties, including a proposition of an alternative Instantaneous Unit Hydrograph, valid for all simplified models. Written in an accessible language, Numerical Modeling in Open Channel Hydraulics contains information useful for higher level undergraduate and postgraduate students of civil and environmental engineering faculties, as well as scientists and practitioners in the field of hydraulic engineering, especially those using existing numerical codes or developing their own ones.

[A Land More Kind Than Home](#), [Wiley Cash](#) , 2012, 0062088246, 9780062088246. A stunning debut reminiscent of the beloved novels of John Hart and Tom Franklin, *A Land More Kind Than Home* is a mesmerizing literary thriller about the bond between two brothers and the evil they face in a small western North Carolina town. For a curious boy like Jess Hall, growing up in Marshall means trouble when your mother catches you spying on grown-ups. Adventurous and precocious, Jess is enormously protective of his older brother, Christopher, a mute whom everyone calls Stump. Though their mother has warned them not to snoop, Stump can't help sneaking a look at something he's not supposed to act that will have catastrophic repercussions, shattering both his world and Jess's. It's a wrenching event that thrusts Jess into an adulthood for which he's not prepared. While there is much about the world that still confuses him, he now knows that a new understanding can bring not only a growing danger and evil but also the possibility of freedom and deliverance as well. Told by three resonant and evocative characters: Jess; Adelaide Lyle, the town midwife and moral conscience; and Clem Barefield, a sheriff with his own painful past. *A Land More Kind Than Home* is a haunting tale of courage in the face of cruelty and the power of love to overcome the darkness that lives in us all. These are masterful portrayals, written with assurance and truth, and they show us the extraordinary promise of this remarkable first novel.

[Ethical health care](#), [Patricia Illingworth](#), [Wendy E. Parmet](#) , 2006, 0130453013, 9780130453013. KEY BENEFIT: Ethical Health Care provides an interdisciplinary perspective to bioethics, relying heavily upon the teachings of economics, law, and public health. KEY TOPICS: The book explores with care and context the nature of the relationship between patients and clinicians, health care providers and the societies in which they live, and finally the relationship between the health care enterprise and the international community. MARKET: For clinicians and other health care providers.

[The Causeway, Peter Lihou](#) , 2010, 0956534252, 9780956534255. The Causeway is a sequel to the novel Rachel's Shoe. It's a fictional thriller/romance set in the Channel Islands initially in the 1970s.

creating an exciting interplay between the subjects. This is the first and only book to prove in a systematic and unifying way, stability, convergence and computing results for the different numerical methods for nonlinear elliptic problems. The proofs use linearization, compact perturbation of the coercive principal parts, or monotone operator techniques, and approximation theory. Examples are given for linear to fully nonlinear problems (highest derivatives occur nonlinearly) and for the most important space discretization methods: conforming and nonconforming finite element, discontinuous Galerkin, finite difference, wavelet (and, in a volume to follow, spectral and meshfree) methods. A number of specific long open problems are solved here: numerical methods for fully nonlinear elliptic problems, wavelet and meshfree methods for nonlinear problems, and more general nonlinear boundary conditions. We apply it to all these problems and methods, in particular to eigenvalues, monotone operators, quadrature approximations, and Newton methods. Adaptivity is discussed for finite element and wavelet methods. The book has been written for graduate students and scientists who want to study and to numerically analyze nonlinear elliptic differential equations in Mathematics, Science and Engineering. It can be used as material for graduate courses or advanced seminars.

[Hank Clanks Back](#), 1996, 0192723154, 9780192723154. Hank and his friends are being terrorized by a little girl called Poppy. She heats up Hank's ball and chain, plays head and seek with Edward, makes Gladys's broomstick crash, and sets a savage dog after Bonaparte. The ghosts are all terrified of her. If Poppy isn't frightened of them, what is she frightened of? This is the third book in this internationally successful series.

[First Aide Medicine, Nicholaus Patnaude](#), 2013, 0983693234, 9780983693239. Jack worked at the surfboard shop, Karen was a lifeguard, and every night was perfect. And since teenage love destroyed by suicide is hard to get over, Jack simply holds on to his dead girlfriend. At first it is the long phone calls deep into the night, reliving the memories of drinking, black metal bands, the medicine and the parties an old man named Manson would throw for teenagers at his creepy house on the hill. Then came the regular sightings of her corpse at the beach, and in his bed. Now in his mid-twenties, Jack experiences his best nightmare ever the chance for revenge on Old Man Manson for murdering Karen! He reunites with Karen for a long journey through night, confronted by her parents, General Hook, the Ghost Witch, a woman in a gummy dress, an old man from a prickly bush, and a furry monster. Finally, with a list of 66 ways to punish and kill Old Man Manson, Jack confronts him in the dining room of a haunted hotel.
