[Pride and prejudice, , , , ISBN 0192547070, 9780192547071, , , , Jane Austen](#) , 1988, 019254702X, 9780192547026. "It is a truth universally acknowledged, that a single man in possession of a good fortune must be in want of a wife." So begins *Pride and Prejudice*, Jane Austen's perfect comedy of manners--one of the most popular novels of all time--that features splendidly civilized sparring between the proud Mr. Darcy and the prejudiced Elizabeth Bennet as they play out their spirited courtship in a series of eighteenth-century drawing-room intrigues. "Pride and Prejudice seems as vital today as ever, " writes Anna Quindlen in her introduction to this Modern Library edition. "It is a pure joy to read." Eudora Welty agrees: "The gaiety is unextinguished, the irony has kept its bite, the reasoning is still sweet, the sparkle undiminished. [It is] irresistible and as nearly flawless as any fiction could be." This volume is the companion to the BBC television series, a lavish production aired on the Arts and Entertainment Network. The Modern Library has played a significant role in American cultural life for the better part of a century. The series was founded in 1917 by the publishers Boni and Liveright and eight years later acquired by Bennett Cerf and Donald Klopfer. It provided the foundation for their next publishing venture, Random House. The Modern Library has been a staple of the American book trade, providing readers with affordable hard-bound editions of important works of literature and thought. For the Modern Library's seventy-fifth anniversary, Random House redesigned the series, restoring as its emblem the running torchbearer created by Lucian Bernhard in 1925 and refurbishing jackets, bindings, and type, as well as inaugurating a new program of selecting titles. The Modern Library continues to provide the world's best books, at the best prices.

[The Bell Jar, Sylvia Plath](#) , 2005, 0060837020, 9780060837020. The *Bell Jar* chronicles the crack-up of Esther Greenwood: brilliant, beautiful, enormously talented, and successful, but slowly going under -- maybe for the last time. Sylvia Plath masterfully draws the reader into Esther's breakdown with such intensity that Esther's insanity becomes completely real and even rational, as probable and accessible an experience as going to the movies. Such deep penetration into the dark and harrowing corners of the psyche is an extraordinary accomplishment and has made *The Bell Jar* a haunting American classic. This P.S. edition features an extra 16 pages of insights into the book, including

author interviews, recommended reading, and more.

[High-Field Electrodynamics, Frederic V. Hartemann](#) , 2001, 1420038559, 9781420038552. Tremendous technological developments and rapid progress in theory have opened a new area of modern physics called high-field electrodynamics: the systematic study of the interaction of relativistic electrons or positrons with ultrahigh-intensity, coherent electromagnetic radiation. This advanced undergraduate/graduate-level text provides a detailed introduction to high-field electrodynamics, from its fundamentals to some of its important modern applications. The author describes a broad collection of theoretical techniques, and where possible, approaches derivations by at least two different routes to yield deeper physical insight and a wider range of mathematical and physical techniques. He also discusses some of the outstanding ramifications of electrodynamics in areas ranging from quantum optics, squeezed states, and the Einstein-Podolsky-Rosen paradox to rotating black holes, non-Abelian gauge field theories, and the Bohm-Aharonov effect. High-Field Electrodynamics gives a comprehensive description of the theoretical tools needed to approach this novel discipline. It highlights important modern applications and serves as a starting point for more advanced and specialized research at the frontiers of modern physics.

[Fractal-Based Point Processes, Steven Bradley Lowen, Malvin Carl Teich](#) , 2005, 0471754706, 9780471754701. An integrated approach to fractals and point processes This publication provides a complete and integrated presentation of the fields of fractals and point processes, from definitions and measures to analysis and estimation. The authors skillfully demonstrate how fractal-based point processes, established as the intersection of these two fields, are tremendously useful for representing and describing a wide variety of diverse phenomena in the physical and biological sciences. Topics range from information-packet arrivals on a computer network to action-potential occurrences in a neural preparation. The authors begin with concrete and key examples of fractals and point processes, followed by an introduction to fractals and chaos. Point processes are defined, and a collection of characterizing measures are presented. With the concepts of fractals and point processes thoroughly explored, the authors move on to integrate the two fields of study. Mathematical formulations for several important fractal-based point-process families are provided, as well as an explanation of how various operations modify such processes. The authors also examine analysis and estimation techniques suitable for these processes. Finally, computer network traffic, an important application used to illustrate the various approaches and models set forth in earlier chapters, is discussed. Throughout the presentation, readers are exposed to a number of important applications that are examined with the aid of a set of point processes drawn from biological signals and computer network traffic. Problems are provided at the end of each chapter allowing readers to put their newfound knowledge into practice, and all solutions are provided in an appendix. An accompanying Web site features links to supplementary materials and tools to assist with data analysis and simulation. With its focus on applications and numerous solved problem sets, this is an excellent graduate-level text for courses in such diverse fields

as statistics, physics, engineering, computer science, psychology, and neuroscience.

[The Income Tax: A Study of the History, Theory, and Practice of Income Taxation at Home and Abroad, Edwin Robert Anderson Seligman](#) , 1914, 1584773855, 9781584773856. Originally published: New York: The Macmillan Company, 1914. xi, 743 pp. Reprint of the second edition, which includes a new chapter on the income tax of 1913. Seligman argues persuasively that graduated income taxes distribute the burden of taxation with greater justice than other systems. After he sets out the fundamental problem of the concept of income taxation, Seligman enhances his theoretical argument with a historical examination of income taxes in Europe and the United States. With a useful index and a thorough bibliography. Edwin R.A. Seligman [1861-1939] was an eminent economist and authority on tax issues. He was admitted to the New York State bar in 1884 and in the same year received an appointment as lecturer in the political science department at Columbia University, where he later became a professor of political economy and finance. Seligman was a cofounder of the American Economic Association, serving as Its president from 1902-1904, and was later president of the National Tax Association (1913-1915). He served as an adviser to New York State and New York City tax

commissions and acted as consultant to the League of Nations (1922-1923) and the government of Cuba in 1931. He was the editor in chief of the Encyclopedia of the Social Sciences and editor of the Columbia University series Studies in History, Economics and Public Law. He was the author of numerous titles on taxation and economics including *The Shifting and Incidence of Taxation* (1892; 3rd ed., 1910), *Progressive Taxation in Theory and Practice* (1894; 2nd ed. 1908), *Economic Interpretation of History* (1902; 2nd ed. 1907), *Principles of Economics* (1907), *Studies in Public Finance* (1925) and *Essays in Economics* (1925). "Professor Seligman's advocacy of the income tax in the various papers which were incorporated in [this book] was an important factor in educating the American public to the point where the passage of the Sixteenth Amendment and of the law of 1913 was possible." --5 *Columbia Law Review* (1915) 292

[Women's Health: Hormones, Emotions and Behavior, Regina C. Casper](#) , 2008, 0521060206, 9780521060202. This book offers an overview of the complex interplay between hormonal activation and individual and environmental influences on health and disease in women. The book provides useful information and background material important for treating problems related to the reproductive cycle, eating disorders, drug treatment of women, and clinical and treatment issues in coronary artery disease and breast cancer. This is a medically-oriented book written firstly for the practicing physician in primary care, psychiatry, internal medicine and gynecology/obstetrics. This book takes a much broader view than others on the market by combining consideration of both psychological and physical disorders affecting women and by discussing treatment issues.

[Who Would You Be Without Your Story?, Byron Katie](#) , 2010, 1458757714, 9781458757715. This book is a collection of 15 dialogues that occurred throughout the United States and Europe with Byron Katie. Some of the people who worked with Katie have painful illnesses, others are lovelorn or in messy divorces. Some are simply irritated with a co-worker or worried about money. What they all have in common is a willingness to question, with Katie's help, the painful thoughts that are the true cause of their suffering. In every case we see how Katie's acute mind and fierce kindness helps each person dismantle for themselves what is felt to be unshakable reality. Although these dialogues make fascinating reading - some are both hilarious and deeply moving at once - they are intended primarily as teaching tools. Each took place in front of an audience, and Katie never lost connection with that audience, repeatedly reminding each person in the room to follow the dialogues inwardly, asking themselves the questions the participant must ask. The dialogue between Katie and these volunteers is an external enactment of precisely the kind of dialogue each person can have with their own thoughts. The results, even in the seemingly most dire situation, can be unimagined freedom and joy.

Through the eyes of a freshman legislator, a Washington TV reporter, a disillusioned CEO and others the reader experiences their dedication and excitement, romance, stress and the wonder of Maine keep the tale interesting, with warmth & humor."

[Family Multinationals: Entrepreneurship, Governance, and Pathways to Internationalization, Christina Lubinski, Jeffrey Fear, Associate Professor of Business Jeffrey Fear, Paloma Fernandez Prez](#) , 2013, 1135044937, 9781135044930. This volume is one of the first to deal explicitly with family multinationals and the role of the family in internationalization. It situates itself at the crossroads of internationalization studies on the one hand and family business research on the other. Why do families continue to play such a large role in some of the most prominent firms in emerging and mature economies? How did they manage to maintain ownership control, yet divest of unrelated business ventures? How did they internationalize yet maintain control? This book identifies the idiosyncratic strategies and structures of family multinationals in different countries and at different points in time. A comparative historical and case study approach allows us to explore the role of the family through the firm's various internationalization pathways and understand long-term developments and path dependencies.

[The Enchanted Moccasins and Other Native American Legends, Henry R. Schoolcraft](#) , 2012, 0486121739, 9780486121734. At the beginning of the nineteenth century, Henry R. Schoolcraft immersed himself in the legends and lore of Native American Indians. For thirty years he lived among Indian tribes in the West and around the Great Lakes, where night after night he listened to master storytellers weave spellbinding tales around the dancing embers of lodge fires. Carefully chosen from the many legends Schoolcraft heard, this collection presents nineteen fables brimming with myth and magic. Originally part of the oral tradition and passed down to generations of Native American children, they have been lovingly written down to spark the imaginations of modern generations. Open the pages of this collection and enter a world where moccasins dance under a mysterious spell...where a little boy sets a snare for the burning sun...and

where an old Toad Woman dares to steal a baby. Filled with unforgettable adventures readers of every age will cherish, *The Enchanted Moccasins and Other Native American Legends* includes such stories as: Gray Eagle and His Five Brothers Leelinau, the Lost Daughter The Origin of the Robin The Winter Spirit and His Visitor He of the Little Shell White Feather and the Six Giants...and many others. Historically rich and exciting, this treasury opens new vistas onto ancient Indian lore.

[Scofield Study Bible III NASB, Centennial Edition, ANONIMO](#) , 2008, 0195279670, 9780195279672. The Scofield Study Bible occupies a unique place in the history of modern Christianity--the first publication to combine readily accessible study aids with the text of Scripture, putting together in one place everything readers need to explore and understand the Bible. Large numbers of Christians have long recognized these virtues and have continually chosen Scofield Study Bible in their various editions. Indeed, since it first appeared in 1909, the Scofield has sold millions of copies. To celebrate its one hundredth anniversary, Oxford is proud to announce a special Centennial Edition, in a limited-edition binding, on sale only for the year 2009. Available in five editions--King James Version, New King James Version, New International Version, New American Standard Bible, and Holman Christian Standard Bible--each volume will include a presentation page for gift giving, a special essay on the history and influence of the Scofield Bible written by Paul Karleen, a full-color map section, and an attractive Pacific Duvelle binding. Most important, these volumes boast the features that have made the Scofield so popular for generations of Bible students, including cross references that link topics and words together, introductions to the various books of the Bible, a superb system of chain references, the concordance, study notes, charts and diagrams, a subject and a proper name index, and much more. For one hundred years, the Scofield Study Bible has been an indispensable aid, both as an introduction for the novice and as a companion for a lifetime of study, offering assistance on every page, whether for simple research or deep reflection. This new Centennial Edition marks this century-long tradition. It will be a meaningful gift for everyone who wants to learn more about the word of God.

[IP Solutions for Windows 2000, Paul T. Ammann](#) , 2001, 0130911704, 9780130911704. This expert tutorial/reference gives enterprise IT professionals serious, comprehensive guidance on Windows 2000 TCP/IP, DHCP, WINS, and DNS: planning, migration, deployment, management, and troubleshooting. Networking expert Paul Ammann provides specific scenarios and Windows 2000 solutions for the most common networking challenges, from interoperability to remote access. Using practical, real-world examples, he illuminates every corner of Windows 2000 TCP/IP: architecture,

installation, configuration, routing, WINS/DNS name resolution, dynamic DNS, and more. You'll find crucial information on how Windows 2000's TCP/IP implementation differs from Windows NT 4.0, how it differs from the IETF standards, and how to make it work in your environment. Among the topics Ammann covers in depth: supporting TCP/IP clients, setting up options, modifying server defaults, monitoring, optimization, and interoperability. He also presents step-by-step techniques for implementing cost-effective remote management, dynamic setup, roaming users, intelligent Web browsing, software distribution, printing, PPP dial-up, and many other key network applications. The book is extensively cross-referenced, making it easy for network professionals to find the real-world answers they need right now.

[Imagine ...](#), [Andre Rabe](#) , 2011, 0956334636, 9780956334633. "Imagine" takes you on an illumining journey from God's original thought and intent before time began, right into man's conflicting experience within himself and with his God, and breaks through with the beautiful understanding of the Treasure that is in each one of us, redeemed and revealed in the Light that lights up every man - Christ.

[Google Drive & Docs in 30 Minutes](#), [Ian Lamont](#) , 2012, 0985886722, 9780985886721. Do you have 30 minutes to spare? It's all you'll need to get up to speed with Google Drive, a free online office suite that duplicates most of the functionality of Microsoft Word, Excel, and PowerPoint. Millions of people use Google Drive and its popular word processor, Docs, every day. This "In 30 Minutes" paperback will get you up and running very quickly. Using screenshots and step-by-step instructions, "Google Drive & Docs In 30 Minutes" concentrates on the most important time-saving features and productivity tools, including: Registration basics. Creating new files in Google Docs. Formatting tricks to make documents, spreadsheets, and presentations look great. Using Google Docs on phones and tablets: What works, and what doesn't. Best practices for organizing files in Google Drive. Accessing older versions of files. Converting files between Microsoft Office and Google Drive formats. How to publish your documents to the Web for colleagues or members of the public to view. Sorting and filtering data in Google Sheets, Google free online spreadsheet program (with examples). Using Web Forms to gather data. Google Slides: Is it a suitable alternative to Microsoft PowerPoint or Apple

Keynote? Working with offline files. Downloading third-party apps. What to expect with collaboration in Google Drive. The guide will help you get the most out of Google Drive and Docs (as well as Google Apps, which includes Drive and Docs). In addition, the official book website (DriveDocsIn30Minutes.com) provides videos and other tips.

[John Marin, Sam Hunter](#) , 1998, . In washes of watercolor and slathers of oil paint, John Marin fixed images of the boundless energy of life itself in marine paintings that resonate today with the same vitality and intensity as when he created them. At the age of 44, in the summer of 1914, the great American modernist moved to the coast of Maine, where he lived for the rest of his life. In Marin's transcendental pursuit to capture the energy of Maine's coastal environment he created paintings that express the meaning beneath the force.

[In the Thick of It: My Life in the Sierra Club, Michael McCloskey](#) , 2005, 1610911520, 9781610911528. In an age when many of the major environmental policies established over the past four decades are under siege, Michael McCloskey reminds us of better days. . . days when conservation initiatives were seen not as political lightning rods, but as opportunities to cope with disturbing threats to the quality of our environment. In 1961, a young let's-get-it-done McCloskey was hired as the Sierra Club's first field representative for the Northwest. From there, for nearly forty years,

he rose to guide the oldest and most powerful environmental organization in the world. He helped to pave the way for the original Wilderness Act in 1964, and successfully lobbied for the creation of new national parks and wilderness areas, the North Cascades and Redwood National Park among them. As executive director, he was present at the creation of Earth Day in 1970, directed lobbying for the enactment of over 100 environmental laws, and watched Sierra Club membership rise from about 70,000 to more than 500,000. Under less than ideal political circumstances, McCloskey helped to keep the environmental agenda moving steadily forward, even in the face of Ronald Reagan's virulently pro-development Interior Secretary James Watt. In *In the Thick of It* describes not only McCloskey's life as an environmental activist; it reveals the inner workings and politics of one of the nation's most influential environmental nonprofit organizations during an era of groundbreaking environmental legislation. In addition to sharing the details of battles exhilaratingly won and disappointingly lost on the environmental front, he demonstrates how it is indeed possible to turn idealism and hope into practical action that can make an impact at the national level. With this book McCloskey offers not only invaluable insight into the past, but also inspiration to carry into the future.

[Dictionary of Word Origins, John Ayto](#) , 2011, 1611450535, 9781611450538. What is the link between map and apron, acrobat and oxygen, zeal and jealousy, flour and pollen, secret and crime? Did you know that crimson originally comes from the name of tiny scale insects, the kermes, from whose dried bodies a red dyestuff is made? That Yankee began as a nickname for Dutchmen? That omelette evolved from amulette, "a thin sheet of metal," and is a not-too-distant cousin of the word laminate? That jeans find their antecedent in jean fustian, meaning "a cotton fabric from Genoa"? The *Dictionary of Word Origins* uncovers the hidden and often surprising connection between words. Written in a clear and informative style, the more than 8,000 articles reveal the origins of and links between some of the most common English-language words. They also contain an extensive selection of words whose life histories are intrinsically fascinating or instructive. This dictionary shows how modern English has developed from its Indo-European roots and how the various influences on the language--from migration and invasion to exploration, trade, technology, and scholarship--have intermingled. It is an invaluable addition to any English or linguistics library.

[Mental Health 2020: Making it Personal and Everybody's Business, Western Australia. Mental Health Commission, David Giles](#) , 2011, 0987090941, 9780987090942. "Western Australia was among the first in the nation to create a dedicated Ministerial portfolio for mental health. This initiative, combined with establishing the Mental Health Commission in 2010, paves the way for the significant reform initiatives set out in this document. The establishment of the Commission, the first in Australia, is a key step in creating a modern and effective mental health system that has the individual and their recovery at the centre of its focus. The Commission has responsibility for strategic policy, planning, purchasing and monitoring of mental health services in Western Australia. In addition, the Commission seeks to raise public awareness of mental wellbeing, promote social inclusion and address the stigma and discrimination affecting people with mental health problems and/or mental illness."--P. 5.

[The Globalized City : Economic Restructuring and Social Polarization in European Cities: Economic Restructuring and Social Polarization in European Cities, Frank Moulaert, Arantxa Rodriguez, Erik Swyngedouw](#) , 2003, 0191555525, 9780191555527. This book explores the dynamics that have accompanied the implementation of large-scale Urban Development Projects (UDPs) in nine European cities within the European Union (EU). It contributes to the analysis of the relationship between urban restructuring and social exclusion/integration in the context of the emergence of the European-wide 'new' regimes of urban governance. These regimes reflect the reawakening of neo-liberal policy and the

rise of a New Urban Policy favouring private investments and deregulation of property and labour markets. The selected UDPs further reflect global pressures and changing systems of local, regional, and/or national regulation and governance. These projects, while being decidedly local, capture global trends and new national and local policies as they are expressed in particular institutional forms and strategic practices. The large scale urban interventions were deliberately chosen as reflections of a particular hegemonic and dominant expression of urban policy, as pursued during the 1990s. The book provides a panoramic view of urban change in some of Europe's greatest cities. The nine case-studies include: The Europeanization of Brussels, The Guggenheim museum in Bilbao, the new financial district in Dublin, the science-university-technology complex 'Adlershof' in Berlin, the 1998 World Expo in Lisbon, Athens's bid to stage the Olympic Games, Vienna's Donau City, Copenhagen's Oresund project, and Naples' new business district. These case-studies testify to the unshakable belief the city elites hold in the healing effects that the production of new urban mega-projects and -events has on their city's vitality and development potential. The book also analyses the down side of this development in terms of social exclusion, the formation of new urban elites, and the consolidation of less democratic forms of urban governance. The principal aim is to show how the production of these new urban spaces is actually also part of the production of a new polity, a new economy, and new forms of living urban life that are not very promising for a socially harmonious and just future for metropolitan urban Europe.

[Electrodiagnosis in Clinical Neurology, Michael Jeffrey Aminoff](#) , 2005, 0443066477, 9780443066474. The New Edition of this respected reference delivers complete, practical guidance on current electrodiagnostic techniques and their clinical applications for investigating problems of both the central and peripheral nervous systems. Completely revised and updated, this 5th Edition provides state-of-the-art knowledge on electroencephalography, electromyography, nerve conduction studies, evoked potentials, polysomnography, and electronystagmography. Emphasizes the clinical applications of each electrodiagnostic technique, providing state-of-the-art guidance for both non-specialists and specialists. Discusses the principles, scope, limitations, diagnostic importance, prognostic relevance, and complications for each technique. Clarifies the technical and practical aspects of electrodiagnostic tests with over 700 charts, figures, and tables. Includes a new chapter on Magnetoencephalography that discusses the use of this newer modality for the evaluation of patients with disorders such as epilepsy. Provides a new chapter on Quantitative Electromyography as well as a new chapter on Neurophysiological Evaluation of Sacral Function that includes new discussions of how to evaluate bladder, bowel, and sexual function. Features revisions and updates to all other existing chapters.

[Five Comedies: Miles Gloriosus, Menaechmi, Bacchides, Hecyra and Adelphoe, Plautus, Terence, Deena Berg, Douglass Parker](#) , 1999, 087220362X, 9780872203624. "This is a book worthy of high praise. . . . All versions are exceedingly witty and versatile, in verse that ripples from one's lips, pulling all the punches of Plautus, the knockabout king of farce, and proving that the more polished Terence can be just as funny. Accuracy to the original has been thoroughly

respected, but look at the humour in rendering Diphilius' play called Synapothnescontes as Threes a Shroud. . . .

Students in schools and colleges will benefit from short introductions to each play, to Roman stage conventions, to different types of Greek and Roman comedy, and there is a note on staging, with a diagram illustrating a typical Roman stage and further diagrams of the basic set for each play. The translators have paid more attention to stage directions than is usually given in translations, because they aim to show how these plays worked. This is a book to be used and enjoyed." --Raymond J. Clark, *The Classical Outlook*

[Giant Meatball,](#) , 2008, 0152055959, 9780152055950. Amerry meatballis rollingapath of destructionthrougha small town. He rolls over pets, petunias, and the library--where he refuses to shush. When he rolls over themayor herself, the townspeople know it's time. Time to invite the meatball to dinner. . . Sly humor abounds in this charming, offbeat story that will appeal to anyone who's ever faced a bully--and, of course, to spaghetti fans of all ages.

[The Visual Tcl Handbook, David Young](#) , 1997, 013461674X, 9780134616742. Visual Tcl is an extension of Tcl and Tk that makes it extremely easy to add a graphical interface to character-based programs. This book/CD-ROM package is a hands-on, example driven guide to Visual Tcl. Programmers with no previous X windows experience will be able to quickly write graphical programs in Visual Tcl.

[Exploring Biological Anthropology: An Integrated Lab Manual and Workbook, Frank L'Engle Williams](#) , 2009, 019538685X, 9780195386851. A fresh approach that helps students apply scientific principles to solve real-world problems Designed for introductory courses in biological anthropology with laboratory components, Exploring Biological Anthropology can be used with any introductory text. Author Frank L'Engle Williams emphasizes critical thinking and the comparative perspective to understand key concepts in biological anthropology, which helps students to further explore what they learn in the classroom.

[The Blaze of Obscurity: The TV years, Clive James](#) , 2009, 033051525X, 9780330515252. For many people, Clive James will always be a TV presenter first and foremost, and a writer second -- this despite the fact that his adventures with the written word took place before, during and after his time on the small screen. Nevertheless, for those who remember clips of Japanese endurance gameshows and Egyptian soap operas, Clive reinventing the news or interviewing Hefner and Hepburn, Polanski and Pavarotti, Clive's 'Postcards' from Kenya, Shanghai and Dallas, or Clive James Racing Driver, Clive's rightful place does seem to be right there -- on the box, in our homes, and almost one of the family. However you

think of him, though, and whatever you remember him for, *The Blaze of Obscurity* is perhaps Clive's most brilliant book yet. Part Clive James on TV and part Clive James on TV, it tells the inside story of his years in television, shows Clive on top form both then and now, and proves -- once and for all -- that Clive has a way with words . . . whatever the medium.

[Trail Guide to the South Fork: With a Natural History, Mike Bottini](#) , 2003, 0970703988, 9780970703989. Here it is! The first comprehensive guide to trails of the South Fork of Long Island. Mike Bottini not only helped to blaze these 44 trails, for more than four years he has been describing them in his column in the Southampton Press. "South Fork Outdoors, " which served as the basis for this book, won the award for best outdoors column from the New York Press Association in 2002. An accomplished naturalist, Mike offers a vivid picture of the local ecologies of the trails. From seashore to oak/pine woods, from salt water wetlands to freshwater ponds and kettleholes, Mike describes the unique natural history of the remarkably diverse South Fork environments. Even if you are only an armchair nature-lover, you'll find this book enormously informative.

[Ergonomic Living: How to Create a User-Friendly Home & Office, Gordon Inkeles](#) , 2010, 1439146322, 9781439146323.

er\*go\*nom\*ic (er-ga-'na-mik) adj: designed to allow people and the things people use to interact in the safest, most effective, and most comfortable manner You work indoors. You're not on your feet all day and you do no heavy lifting. You have escaped from the brutal nature of most human labor. And yet at the end of the day you feel exhausted. You have vague aches and pains that you are embarrassed to mention to your doctor. If you do, the doctor gives you some equally vague advice: take it easy; don't push yourself; get more rest. If that doesn't work, maybe you're a whiner, a hypochondriac. Or maybe you're being attacked by your possessions. Perhaps you've been making do with a worn-out old mattress in the bedroom, an office chair that won't let you sit up straight, and a computer screen that you struggle to read with your bifocals. You bought a desk and a file cabinet whose colors complement each other perfectly, but you had no idea how downright irritating ordinary furniture can get if the only choice you bother with is matching style and color. Somewhere in this world is a reading light, chair, bed, perhaps even a keyboard and desk, built just for you. This book will show you how to find them.

[The Road to Devotion, Cameron Kent](#) , 2009, 0982576021, 9780982576021. When Sarah Talton's father suddenly passes away in the summer of 1860, she is left with a teenaged sister to care for, and the family farm and slaves to oversee. Determined to keep their land out of the hands of opportunists, she embraces her father's iron will and hardhearted demeanor. But when she falls in love with a French merchant who speaks no English, and is given charge of a runaway slave who brings them both together, Sarah begins to question the values and beliefs instilled by her father and upheld by her Winston, North Carolina community. When the Civil War looms, and community leaders clamor for blood and obedience, Sarah finds herself traveling a road that will lead either to her ruin or to her freedom.

[The Biology of Caves and Other Subterranean Habitats, David C. Culver, Tanja Pipan](#) , 2009, 0199219931, 9780199219933. Caves and other subterranean habitats with their often strange (even bizarre) inhabitants have long been objects of fascination, curiosity, and debate. The question of how such organisms have evolved, and the relative roles of natural selection and genetic drift, has engaged subterranean biologists for decades. Indeed, these studies continue to inform the more general question of adaptation and evolution. However, interest in subterranean biology is not limited to questions of evolutionary biology. Both the distribution and the apparent ancient age of many subterranean species continue to be of significant interest to biogeographers. Subterranean ecosystems generally exhibit little or no primary productivity and, as "extreme" ecosystems, provide general insights into ecosystem function. Furthermore, the simplicity of subterranean communities relative to most surface-dwelling communities makes them useful model systems for the study of species interactions such as competition and predation, as well as more general principles of ecosystem function. The rarity of many cave species makes them of special interest in conservation biology. The Biology of Caves and other Subterranean Habitats offers a concise but comprehensive introduction to cave ecology. Whilst there is an emphasis on the organisms that dominate this unique environment, conservation and management aspects are also

considered. The book includes a global range of examples and case studies from both caves and non-cave subterranean habitats; it also provides a clear explanation of specialized terms used by speleologists. This accessible text will appeal to researchers new to the field and to the many professional ecologists and conservation practitioners requiring a concise but authoritative overview. Its engaging style will also make it suitable for senior undergraduate and graduate students taking courses in cave and subterranean biology.

[Monster: The Autobiography of an L. A. Gang Member, Sanyika Shakur](#) , 2007, 0802198236, 9780802198235. After pumping eight blasts from a sawed-off shotgun at a group of rival gang members, twelve-year-old Kody Scott was initiated into the L.A. gang the Crips. He quickly matured into one of the most formidable Crip combat soldiers, earning the name Monster for committing acts of brutality and violence that repulsed even his fellow gang members. When the inevitable jail term confined him to a maximum-security cell, a complete political and personal transformation followed: from Monster to Sanyika Shakur, black nationalist, member of the New Afrikan Independence Movement, and crusader against the causes of gangsterism. In a document that has been compared to *The Autobiography of Malcolm X* and *Eldridge Cleavers Soul on Ice*, Shakur makes palpable the despair and decay of Americas inner cities and gives eloquent voice to one aspect of the black ghetto experience today.

[The Time Travelers, , , Linda Buckley-Archer](#) , 2007, 1416915265, 9781416915263. Previously published as *GIDEON THE CUTPURSE* 1763 Gideon Seymour, thief and gentleman, hides from the villainous Tar Man. Suddenly the sky peels away like fabric and from the gaping hole fall two curious-looking children. Peter Schock and Kate Dyer have fallen straight from the twenty-first century, thanks to an experiment with an antigravity machine. Before Gideon and the children have a chance to gather their wits, the Tar Man takes off with the machine -- and Peter and Kate's only chance of getting home. Soon Gideon, Peter, and Kate are swept into a journey through eighteenth-century London and form a bond that, they hope, will stand strong in the face of unfathomable treachery.

[Sport, Culture and Society: An Introduction, Second Edition, Grant Jarvie](#) , 2013, 1134020554, 9781134020553. It is impossible to fully understand contemporary society and culture without acknowledging the place of sport. Sport is part of our social and cultural fabric, possessing a social and commercial power that makes it a potent force in the world, for good and for bad. Sport has helped to start wars and promote international reconciliation, while every government

around the world commits public resources to sport because of its perceived benefits. From the bleachers to the boardroom, sport matters. Now available in a fully revised and updated new edition, this exciting, comprehensive and accessible textbook introduces the study of sport, culture and society. International in scope, the book explores the key social theories that shape our understanding of sport as a social phenomenon and critically examines many of the assumptions that underpin that understanding. Placing sport at the very heart of the analysis, and including vibrant sporting examples throughout, the book introduces the student to every core topic and emerging area in the study of sport and society, including: the history and politics of sport sport and globalization sport and the media sport, violence and crime sport, the body and health sport and the environment alternative sports and lifestyles sporting mega-events sport and development. Each chapter includes a wealth of useful features to assist the student, including chapter summaries, highlighted definitions of key terms, practical projects, revision questions, boxed case-studies and biographies, and guides to further reading, with additional teaching and learning resources available on a companion website. Sport, Culture and Society is the most broad-ranging and thoughtful introduction to the socio-cultural analysis of sport currently available and sets a new agenda for the discipline. It is essential reading for all students with an interest in sport. Visit the companion website at [www.routledge.com/cw/jarvie](http://www.routledge.com/cw/jarvie).

[The Oxford Handbook of Business and Government, David Coen, Wyn Grant, Graham Wilson](#) , 2010, 0199214271, 9780199214273. Business is one of the major power centres in modern society. The state seeks to check and channel that power so as to serve broader public policy objectives. However, if the way in which business is governed is ineffective or over burdensome, it may become more difficult to achieve desired goals such as economic growth or higher levels of employment. In a period of international economic crisis, the study of how business and government relate to each other in different countries is of more central importance than ever. These relationships have been studied from a number of different disciplinary perspectives - business studies, economics, economic history, law, and political science - and all of these are represented in this handbook. The first part of the book provides an introduction to the ways in which five different disciplines have approached the study of business and government. The second section, on the firm and the state, looks at how these entities interact in different settings, emphasising such phenomena as the global firm and varieties of capitalism. The third section examines how business interacts with government in different parts of the world, including the United States, the EU, China, Japan and South America. The fourth section reviews changing patterns of market governance through a unifying theme of the role of regulation. Business-government relations can play out in

divergent ways in different policy and the fifth section examines the contrasts between different key arenas such as competition policy, trade policy, training policy and environmental policy. The volume provides an authoritative overview with chapters by leading authorities on the current state of knowledge of business-government relations, but also points to ways in which this work might be developed in the future, e.g., through a political theory of the firm.

[Soccer Linesmanship: An Instructional Manual for the Assistant Referee, D. C. Emerson Mathurin](#) , 1999, 1890946133, 9781890946135. Full of advice & practical information describing the duties, responsibilities & criteria of linesmanship. Plus a look at the Laws from a linesman`s point of view.

[Knowledge and Information Technology Management: Human and Social Perspectives, A. Gunasekaran, Omar Khalil, Syed Mahbubur Rahman](#) , 2003, 1591400724, 9781591400721. The importance of knowledge and information technology management has been emphasized both by researchers and practitioners in order for companies to compete in the global market. Now such technologies have become crucial in a sense that there is a need to understand the business and operations strategies, as well as how the development of IT would contribute to knowledge management and therefore increase competitiveness. Knowledge and Information Technology Management: Human and Social Perspectives strives to explore the human resource and social dimensions of knowledge and IT management, to discuss the opportunities and major issues related to the management of people along the supply chain in Internet marketing, and to provide an understanding of how the human resource and the IT management should complement each other for improved communication and competitiveness.

[Empire of the Clouds: When Britain's Aircraft Ruled the World, James Hamilton-Paterson](#) , 2010, 0571271731, 9780571271733. In 1945 Britain was the world's leading designer and builder of aircraft - a world-class achievement that was not mere rhetoric. And what aircraft they were. The sleek Comet, the first jet airliner. The awesome delta-winged Vulcan, an intercontinental bomber that could be thrown about the sky like a fighter. The Hawker Hunter, the most beautiful fighter-jet ever built and the Lightning, which could zoom ten miles above the clouds in a couple of minutes and whose pilots rated flying it as better than sex. Just what was it like to be alive in that marvellous post-war moment when innovative new British aircraft made their debut, and pilots were the rock stars of the age? James Hamilton-Paterson captures that season of glory in a compelling book that fuses his own memories of being a schoolboy plane spotter with a ruefully realistic history of British decline - its loss of self confidence and power. It is the story of great and charismatic machines and the men who flew them: heroes such as Bill Waterton, Neville Duke, John Derry and Bill Beaumont who took inconceivable risks, so that we could fly without a second thought.

[Delight in Design: Indian Silver for the Raj.](#) , 2008, 0944142435, 9780944142431. This is a richly illustrated volume that focuses on the remarkably ornamented silverware produced by Indian craftsmen during the period of the British Raj. Silversmiths created elegant silver tea services, bowls, wine and water ewers, beer mugs, and goblets to adorn the sideboard or mantelpiece in a British Raj home, creating European forms fulfilling European requirements. These same silversmiths then adopted a unique manner of embellishing these objects with a variety of different motifs that reflect local taste and carry a recognizably local pattern. This book carries a set of five essays that explore different facets of the production and consumption of Indian silver for the Raj. It considers the silverware in terms of its clearly distinguishable regional styles, which is prefaced by two thematic sections, one on calling card cases and the other on tea services, which demonstrate its wide prevalence. The visual presentation of the silverware does justice to its dazzling quality. The book is published in conjunction with an exhibition that opens at the Miriam & Ira D Wallach Art Gallery, Columbia University, New York, in September 2008.

[Mishegas of Motherhood. Raising Children to Leave the Nest...as Long as They Come Home for Dinner., Ellie S. Grossman](#) , 2012, 098586480X, 9780985864804. Mi-she-gas, (pronounced mish eh GOSS), is a Yiddish word that literally means insanity or madness, but is used more playfully in this award-winning humor book to describe how children drive their parents crazy (and vice versa). Known by her readers as the "Jewish Erma Bombeck," Ellie S. Grossman combines domestic satire with Jewish wisdom that applies to all modern families. This gem of a book appeals to all generations of parents, from newbies to empty nesters, and covers Jewish traditions, rituals, holidays, recipes, and lots of funny stories that will tickle your soul--or your money back. Favorite chapters include "Planning a Dream Bar Mitzvah Is a Nightmare," "Answering the BIG Question: Is There a God?," "The Holiness of Chores Makes a Great Boredom Buster," "Teenage Brain Baffles Parents," "Dog is God Spelled Backwards," "Lice Livens Up Seder, But Traumatizes Household," and "Jewish Girls Don't Camp," which inspired a webisode on the online sitcom "In The Motherhood," starring Leah Remini.

[Preventing Harmful Substance Use: The evidence base for policy and practice, Tim Stockwell, Paul Gruenewald, John Toumbourou, Wendy Loxley](#) , 2005, 0470092297, 9780470092293. The prevention of harm from drug use, both legal

and illegal, is a major concern to government departments and clinicians throughout the world. Recently, much new research has been conducted regarding global levels and patterns of drug-related harm, on common risk factors with other social problems (e.g. mental health, crime) and on the effectiveness of wide range of intervention strategies. There is a need to summarise and synthesise this new knowledge for use in a range of disciplines. Preventing Harmful Substance Use offers the most comprehensive and up-to-date advice available on the prevention of drug and alcohol abuse. Contributors provide authoritative, science-based reviews of knowledge on their areas of expertise, and make clear recommendations for the future of prevention policy and practice. A final section draws the work together and offers a framework for an integrated science of prevention.

[To Catch a Dream, Anne Schraff](#) , 2010, 1616512695, 9781616512699. Written for young adults, the Urban Underground series confronts issues that are of great importance to teens, such as friendship, loyalty, drugs, gangs, abuse, urban blight, bullies, and self-esteem to name a few. More than entertainment, these books can be a powerful learning and coping tool when a struggling reader connects with credible characters and a compelling storyline. The highly readable style and mature topics will appeal to young adult readers of both sexes and encourage them to finish each novel. Cesar Chavez HS Series-- Dad was always depressing Abel with his pyramid stories. He was always dooming Abel to a life at the bottom of the pyramid with all the other miserable losers. No matter how much Abel struggled and clawed, he'd never get to the pinnacle of the pyramid. And his mom was absolutely sure of Abel's incompetence at whatever he said.

[Paris Reflections: Thoughts, Intuitions, Meanings, Trinkie Peterson](#) , 2001, 0964325691, 9780964325692. Paris's Muted gray and melancholic sky persists throughout several long months of winter and is especially conducive to contemplation and the reflective nature of Trinkie Peterson's poetry of spiritual accounting, the joy of life, and the curiosity of its players.

[Frozen Accident, Alfred Arteaga](#) , 2006, 1882688325, 9781882688326. Frozen Accident is a long poem and, echoing Dante, its primary section Nezahualcoyotl in Mictlan narrates a trip to hell. Yet, Mictlan is not quite the Inferno. For Alfred Arteaga, the place of the dead is California, the last stop for Western culture, the final limit of its reach. The West's poets

and philosophers have long declared history over, god dead, and that what remains is merely the house of language. In other words, all is but frozen accident. If the endpoint is California, the poem's point of departure is an assassination that radically shaped history. A young man witnessed his father's murder in a power play that unintentionally enabled the Aztecs to establish an empire. The young man, Nezahualcoyotl, became the philosopher king of Texcoco and wrote the most famous poem of pre-conquest Americas, Song of Flight. What did it mean to be and then to cease to be? Were we all, after all, perhaps but texts of god, existing only in the breath, and red and black inks of divine poetry?

[System Center Operations Manager 2007 R2 Unleashed: Supplement to System Center Operations Manager 2007 Unleashed, Cameron Fuller, John Joyner, Andy Dominey](#) , 2010, 0672333414, 9780672333415. This up-to-the-minute supplement to System Center Operations Manager 2007 Unleashed brings together practical, in-depth information about System Operations Manager 2007, including major enhancements introduced with the R2 release, as well as essential information on other products and technologies OpsMgr integrates with and relies upon. Drawing on their unsurpassed deployment experience, four leading independent OpsMgr experts with a half dozen leading subject matter experts show how to take full advantage of new Unix/Linux cross platform extensions, Windows Server 2008 and SQL Server 2008 integration, PowerShell extensions, and much more. They also present in-depth coverage of using OpsMgr with virtualization, authoring new management packs, and maximizing availability. A detailed "OpsMgr R2 by Example" appendix presents indispensable tuning and configuration tips for several of OpsMgr R2's most important management packs. This book also contains the world's most comprehensive collection of OpsMgr R2 reference links. [Annals of the Former World, John McPhee](#) , 2000, 0374708460, 9780374708467. The Pulitzer Prize-winning view of the continent, across the fortieth parallel and down through 4.6 billion yearsTwenty years ago, when John McPhee began his journeys back and forth across the United States, he planned to describe a cross section of North America at about the fortieth parallel and, in the process, come to an understanding not only of the science but of the style of the geologists he traveled with. The structure of the book never changed, but its breadth caused him to complete it in stages, under the overall title Annals of the Former World. Like the terrain it covers, Annals of the Former World tells a multilayered tale, and the reader may choose one of many paths through it. As clearly and succinctly written as it is profoundly informed, this is our finest popular survey of geology and a masterpiece of modern nonfiction. Annals of the Former World is the winner of the 1999 Pulitzer Prize for Nonfiction.

The Christian Counselor's Primer Series..... ..is an easy-to-use resource, putting vital materials needed in bringing hope and healing to those who seek help in the Christian counselor's office. Each booklet contains a description of a particular subject, and provides self-assessments a person may utilize alone, or, the counselor may utilize in session to gain a clearer understanding and grasp of the client's need. The series is divided twelve subjects, the study of which, will provide a general insight into how to approach helping a client find discovery and solution to their difficulty, and aiding the healing process.

[WTO, India, and Emerging Areas of Trade: Challenges and Strategies, P. Rameshan](#) , 2008, 8174465936,

9788174465931. This book is recommended for those readers and students who are keen on getting a deeper understanding on the strategic issues facing the different sectors of the Indian economy and business in the aftermath of the emergence of the WTO system and the new global economic and business order that the WTO agreements have brought about. The book will raise your strategic anxieties on India to such a great height that after reading it, you will certainly be inspired to think seriously about possible ways of enabling the Indian economy and business to achieve a more rapid global ascendance. All discussions in the book are in the context of the WTO agreements. While discussing India s past trade performance and future potentials, the book makes extensive references to the US, European Union and China, the three most powerful economies of the contemporary world. There are several instances in the book where Indian achievements are benchmarked against China s. Besides, the book explores the direction of India s trade future with respect to the ASEAN. The book also focuses on such burning topics as Indian companies in the global markets, India s trade gains in textiles and clothing, intellectual property protection to traditional knowledge, food security issues under a free trade regime, India s international trade in agricultural products, India s business in business process outsourcing, and the trade potentials in higher education. Further, there are interesting discussions in the book on the trade or investment issues of automobile, pharmaceutical, FMCG, retailing, livestock, plantation and tourism sectors. In each case, the book has made due focus of its attention on the required strategic recourse for India. In a nutshell, the book is an essential reading for anyone who longs to see India reemerging as the dominant force in the global economy.

[Creation Without Restraint: Promoting Liberty and Rivalry in Innovation, Christina Bohannon, Herbert Hovenkamp](#) , 2012, 0199738831, 9780199738830. Both antitrust and intellectual property laws are intended to facilitate economic growth. Antitrust is meant to encourage competition of all kinds and intellectual property law should offer inventors and artists the correct incentives to develop new ideas and technologies, but the harsh reality is that antitrust and IP laws have wandered off this course. In *Creation without Restraint: Promoting Liberty and Rivalry in Innovation*, Christina Bohannon and Herbert Hovenkamp analyze the current state of competition (antitrust) and intellectual property laws, and propose realistic reforms that will encourage innovation. As with antitrust and a reform process that aligned injury requirements in lawsuits with the incentive to compete, this book proposes similar reforms for patent and copyright law, and considers both the uses and limitations of antitrust as a vehicle for intellectual property law reform. This book considers how antitrust and IP law should engage practices that restrain rather than promote innovation, and covers the troubled topic of IP "misuse," which the authors suggest needs a broader reach but narrower remedies. Bohannon and Hovenkamp also evaluate the uses and limits of antitrust to address a variety of practices in innovation intensive markets, including interconnection in networks, duties to deal, and internet neutrality. The book constructs a framework and rules for governing the "innovation commons," or the vast area that involves collaborative innovation. Finally, it considers ways to further competition in the licensing and distribution of IP rights, and offers several proposals for specific reforms, most of which can be instituted by the courts without the need for new legislation.

[Spreading Democracy and the Rule of Law?: The Impact of EU Enlargement for the Rule of Law, Democracy and Constitutionalism in Post-Communist Legal Orders, Wojciech Sadurski, Adam Czarnota, Martin Krygier](#) , 2010, 904816978X, 9789048169788. The accession of eight post-communist countries of Central and Eastern Europe (and also of Malta and Cyprus) to the European Union in 2004 has been heralded as perhaps the most important development in the history of European integration so far. While the impact of the enlargement on the constitutional structures and practices of the EU has already generated a rich scholarly literature, the influence of the accession on constitutionalism, democracy, human rights and the rule of law among the new member states has been largely ignored. This book fills this gap, and addresses the question of the consequences of the "external force" of European enlargement upon the understanding and practice of democracy and the rule of law and among both the main legal-political actors and the general public in the new member-states. A number of leading legal scholars, sociologists and political scientists, both from Central and Eastern Europe and from outside, address these issues in a systematic and critical way. Taken together, these essays help answer a fundamental question: does the European Union have the potential of promoting and consolidate democracy and human rights?

[Bioethics at the Movies, Sandra Shapshay](#) , 2009, 0801890780, 9780801890789. Bioethics at the Movies explores the ways in which popular films engage basic bioethical concepts and concerns. Twenty-one philosophically grounded essays use cinematic tools such as character and plot development, scene setting, and narrative framing to demonstrate a range of principles and topics in contemporary medical ethics. The first two sections plumb popular and bioethical thought on birth, abortion, genetic selection, and personhood through several films, including *The Cider House Rules*, *Citizen Ruth*, *Gattaca*, and *I, Robot*. In the third section, the contributors examine medical practice and troubling questions about the quality and commodification of life by way of *Dirty Pretty Things*, *Eternal Sunshine of the Spotless Mind*, and other movies. The fourth sections essays use *Million Dollar Baby*, *Critical Care*, *Big Fish*, and *Soylent Green* to show how the medical profession and society at large view issues related to aging, dying, and death. A final section makes use of *Extreme Measures* and select films from Spain and Japan to discuss two foundational matters in bioethics: the role of theories and principles in medicine and the importance of cultural context in devising care. Structured to mirror bioethics and cinema classes, this innovative work includes end-of-chapter questions for further consideration and contributions from scholars from the United States, Canada, the United Kingdom, Israel, Spain, and Australia. [Psychology and the Soul: A Study of the Origin, Conceptual Evolution, and Nature of the Soul, Otto Rank](#) , 2002, 0801872375, 9780801872372. In his last years, Otto Rank turned his lifetime of thought and learning toward two of the most difficult topics in human history: religion and the soul. The result was this now-classic work, available in this new, very accessible English translation. Unlike many other intellectuals of the twentieth century, Rank maintains a place for the soul rather than dismissing it as a fantasy. The soul and the beliefs about it, he argues, set forth the foundation for psychology, with its complex analyses of consciousness, self-consciousness, and personality. Rank's commentary is not limited to beliefs about individual souls but includes ideas about group souls, sometimes encompassing nations or generations. Rank suggests that it is in expression of group beliefs that the idea of the soul attains its greatest power.

[Devon and Cornwall, Andrew Saunders](#) , 1991, 0113000251, 9780113000258. A guide to interesting architectural and archaeological sites in Devon and Cornwall and their place in history. The book can be used as a holiday planner, an historical reference book, or a day-trip companion.

[Flowing Through Time: A History of the Lower Chattahoochee River, Lynn Willoughby](#) , 2012, 0817357254, 9780817357252. This handsome, illustrated book chronicles the history of the Lower Chattahoochee River and the people who lived along its banks from prehistoric Indian settlement to the present day. In highly accessible, energetic prose, Lynn Willoughby takes readers down the Lower Chattahoochee River and through the centuries. On this journey, the author begins by examining the first encounters between Native Americans and European explorers and the international contest for control of the region in the 17th and 19th centuries. Throughout the book pays particular attention to the Chattahoochee's crucial role in the economic development of the area. In the early to mid-nineteenth century--the beginning of the age of the steamboat and a period of rapid growth for towns along the river--the river was a major waterway for the cotton trade. The centrality of the river to commerce is exemplified by the Confederacy's efforts to protect it from Federal forces during the Civil War. Once railroads and highways took the place of river travel, the economic importance of the river shifted to the building of dams and power plants. This subsequently led to the expansion of the textile industry. In the last three decades, the river has been the focus of environmental concerns and the subject of "water wars" because of the rapid growth of Atlanta. Written for the armchair historian and the scholar, the book provides the first comprehensive social, economic, and environmental history of this important Alabama-Georgia-Florida river. Historic photographs and maps help bring the river's fascinating story to life.

[The Listeners, James Gunn](#) , 2001, 0759279691, 9780759279698. After fifty-one long years of patient waiting, the

message has finally arrived. They have dedicated their lives to trying to decipher the eerie silence that resounds from space and now there is finally a sound after decades of quiet. In the beginning there is a hail of celebration--the Project has finally produced results--but then the questions begin. What does the message mean? Could it be 'We come in peace' or 'Get ready for world domination'? The message baffles Earth. Only one man has the power to make the decision and it could mean intergalactic warfare if he makes the wrong choice. Director MacDonald holds in his hands the fate of Earth, the universe and the Project, which is dedicated to answering questions that have plagued humanity for centuries. Will he make the correct choice?

[50 Studies Every Doctor Should Know: The Key Studies that Form the Foundation of Evidence Based Medicine, Michael E. Hochman](#) , 2014, 0199343578, 9780199343577. 50 Studies Every Doctor Should Know presents key studies that have shaped the practice of medicine. Selected using a rigorous methodology, the studies cover topics ranging from dieting to cardiovascular disease, insomnia to obstetrics. For each study, a concise summary is presented with an emphasis on the results and limitations of the study, and its implications for practice. Brief information on other relevant studies is provided, and an illustrative clinical case concludes each review. A section of review questions and answers is included at the back of the book to ensure that readers take away the key messages from each study. This book is a must-read for health care professionals and anyone who wants to learn more about the data behind clinical practice.

[Aristophanis Fabvlae II, , Aristophanes](#) , 2007, 0198721811, 9780198721819. This new edition of Aristophanes is intended to replace the previous Oxford Classical Text published in 1900-1. Since that date it has been possible to construct a far better picture of the transmission of the text from antiquity to the age of printing and to obtain reliable reports of other significant manuscripts. While some of the new information has been taken into account for recent commentaries on individual plays, there is no easily available complete edition. Though the text of the plays is better preserved than that of Greek tragedy, the editor has thought it desirable to record or adopt a fair number of conjectures, some of them little known or unjustly disregarded; in a few passages he has ventured to offer suggestions of his own.

[3 Cushion Billiard Systems, Sid Banner](#) , 2005, . Over the past several years I have made many discoveries about "System Sid Ball Hit System," Diamond System and Clock Systems. This book is designed for billiard, pool and snooker players: \*New 3 cushion players will progress faster. \*Pool and snooker players will learn more about applying cue ball English and how to use the diamonds or pearls on the rails to bank or kick when necessary. \*Intermediate carom players will raise their scoring average along with their confidence to play a more aggressive game. \*Top carom players will add to their fantastic repertoire and billiard knowledge. The "System Sid" Billiard System is designed to give the shooter more answers concerning the hit on the first object ball and the exact English, speed and stroke required to score a point on

almost any carom or bank shot. The "System Sid" Diamond System has both the adjustments to the cue ball English and/or cue ball speed with the correct adjustment based on your first object ball or cue ball position on a five feet by ten feet carom table. The third rail tract is not longer a mystery! My "Three Cushion Ball Hit System" works with success on all carom billiards, short angle shots or long angle shots. The missing link I discovered was to have two different ball hit systems. First, a short angle system, and second, a long angle system. Both systems share the following: \*The cue ball English numbers are the same for the short and long angle systems. \*The 3rd and 4th rail diamond numbers to score are the same for the short and long angle systems.

[The Cartographer's Daughter, Karen L. Abrahamson](#) , 2011, 0987780123, 9780987780126. "Romance, adventure, a courageous heroine-and one of the coolest fantasy concepts you'll ever see. THE CARTOGRAPHER'S DAUGHTER is an epic tale of a young woman with the power to destroy or create, simply by redrawing the map of the world. Lianna's story will sweep you away to a world you've never experienced before-and one that might disappear before your very eyes." Robin Brande, Author of Evolution, Me & Other Freaks of Nature; Fat Cat; Doggirl; and The Parallel series. In 1432 Portugal, Lianna Reinel lives with her Aunt and Uncle in a small secret enclave of magical beings called Cartos. Long ago the Cartos race held dominion over the earth and could rewrite it at will. Their arrogance led to a cataclysm, the end of all things, and the human racial memory of demons. It also led to a Cartos Edict against the use of their magick. Lianna's forbidden love for a human boy, Gil Eannes, and the arrival of Prince Henrique of Portugal who needs an alliance with Lianna's uncle to finance a holy war, leads to Gil's banishment on a deadly journey to the actual end of the earth. Forced to choose between her love or obedience, Lianna wakens old magick and then must face the consequences: Fire. Water. Pestilence. And lost love.

[The Enneagram of Society: Healing the Soul to Heal the World, Claudio Naranjo](#) , 2004, 089556159X, 9780895561596. Seeking to draw parallels between the one and the whole, this work is as much a study of individual character as a critique of society and its institutions. Viewed through the lens of the enneagram, a personality system that divides people into nine character types, this analysis aligns each of the ailments and difficulties of the individual characters with the broader "ills of the world." In addition to providing a discussion of the theological and psychological background of the enneagram, this work examines the interaction between the various ennea-types and theology's deadly sins. Each character type is presented in light of specific habits and behaviors that diminish a person's ability to give and receive unconditional love. The ensuing essay on the character of nations and cultures presents a commentary on the perennial flaws of modern society and the "defective operation" of social institutions and governments. Rather than proposing a political or revolutionary agenda as a solution, this text advocates a healing process that begins with individuals and associations of people as the ultimate means of effecting the habits of larger social spheres.

[The Complete Roman Army, Adrian Keith Goldsworthy](#) , 2003, 0500051240, 9780500051245. This is the best book on

the Roman army around at the moment and it has everything: battle plans, recreations of army fortifications, reconstruction drawings of equipment and armour, biographies of commanders, plans of camps, maps, photographs of key pieces of archaeological evidence, literary extracts, and much more besides. Adrian Goldsworthy presents a 'complete' analysis of the Roman army taken in three easy-to-manage chronological phases. Beginning with the citizen's militia of the middle Republic in the 3rd and 2nd centuries BC, he examines how and why this army changed, becoming the first professional army between the 1st century BC and 3rd century AD. He discusses how this army dealt with new conditions and new enemies, increasingly fighting far from the homeland. By the end of the 3rd century AD the Roman army faced even greater external threats and persistent civil wars which led to further transformations. Key battles are explored, tactics discussed, the lives of the soldiers, their equipment, diet, pay and conditions, their careers and experiences are revealed, bringing the literary and archaeological evidence to life. The sheer breadth of this book, its ability to combine general history with detail, and its range of illustrations, makes it unbeatable.

[Business and the State in Developing Countries, Sylvia Maxfield, Ben Ross Schneider](#) , 1997, 0801484065, 9780801484063. Much of the current debate about development has pitted proponents of unfettered markets against advocates of developmental states. Yet, often what best explains variations in economic performance among developing countries is not markets or states but rather the character of relations between business and government. The contributors to Business and the State in Developing Countries identify a range of close, collaborative relations between bureaucrats and capitalists which enhance elements of economic performance and defy conventional expectations that such relations lead ineluctably to rent-seeking, corruption, and collusion. All based on extensive field research, the essays contrast collaborative and collusive relations in a wide range of developing countries, most of them in Latin America and Asia, and isolate the conditions under which collaboration is most likely to emerge and survive. The contributors highlight the crucial roles played by capable bureaucracies and strong business associations.

[Cry for Justice, Ralph Z. Zeta](#) , 2011, 098391690X, 9780983916901. When his present love interest asks Palm Beach, Florida attorney Jason Justice to look into the affairs of a young girl who needs assistance in locating her missing step father, who by all indications may have not only staged her mother's suicide but may also made off with her family's fortune, Jason finds it all but impossible to say no. With little to go on except for a yellowing snapshot, he takes on the case not realizing his search for the missing man would eventually lead him to more victims and expose a link to a secret CIA relocation program and a trained killer who would stop at nothing to keep his crimes secret.

[Dangerous Harvest: Drug Plants and the Transformation of Indigenous Landscapes, Michael K. Steinberg, Joseph John Hobbs, Kent Mathewson](#) , 2004, 0195143191, 9780195143195. (Publisher-supplied data) The global drug trade and its associated violence, corruption, and human suffering create global problems that include political and military conflicts, ethnic minority human rights violations, and stresses on economic development. Drug production and eradication affects the stability of many states, shaping and sometimes distorting their foreign policies. External demand for drugs has transformed many indigenous cultures from using local agricultural activity to being enmeshed in complex global problems. Dangerous Harvest presents a global overview of indigenous peoples' relations with drugs. It presents case studies from various cultural landscapes that are involved in drug plant production, trade, and use, and examines historical uses of illicit plant substances. It continues with coverage of eradication efforts, and the environmental impact of drug plant production. In its final chapter, it synthesizes the major points made and forecasts future directions of crop substitution programs, international eradication efforts, and changes in indigenous landscapes. The book helps unveil the farmer, not to glamorize those who grow drug plants but to show the deep historical, cultural, and economic ties between farmer and crop.

[Classical Social Theory, Ian Craib](#) , 1997, 0198781164, 9780198781165. Lively, direct, readable, and clear, this is an introductory textbook designed to introduce students at a basic level to social theory, concentrating on the founding thinkers of sociology. To contemporary students, the thought of Marx, Weber, Durkheim, and Simmel may seem out of date and irrelevant compared to the more pressing questions posed by issues of race, gender, and the environment, but in this book Ian Craib compellingly shows the value of studying these classic thinkers. Providing an account of their key ideas, Dr Craib establishes their contemporary relevance and enduring significance in terms of their contribution to understanding contemporary problems. Indispensably for an introductory textbook, this is a jargon-free read, written in a direct, personal style making it easy to understand and empathise with. A thematic structure aids comprehension and encourages readers to compare the theorists more systematically. Students will also appreciate the book-by-book approach, where Ian Craib plays close attention to each of the thinkers' key texts, quoting long passages and devoting subsections to unpacking various texts in a straightforward way. Other student-friendly features include biographical details and an elementary overview of the work of Marx, Weber, Durkheim, and Simmel; a Dramatis Personae at the end

of the book, with brief details of the life and thought of other relevant thinkers; and a Glossary covering important terms and phrases used in the text.

This is the latest edition of the standard Government form of contract (annual lump sum) for window cleaning and for the maintenance of gardens, grounds etc. A Commentary gives general guidance to each condition. Model forms are included. A disc is supplied with the document which gives the contract in Word Perfect and Word 97 formats.

[Venice Beach: California Carnivale, Helen Kolikow Garber](#) , 2005, 1477164871, 9781477164877. Venice Beach, California Carnivale captures the joyous carnival atmosphere of Ocean Front Walk at world famous Venice Beach. Helen K. Garber, acclaimed resident photographer, has digitally captured, color enhanced and manipulated the images to give the viewer the full surreal experience of strolling along Ocean Front Walk at Venice Beach, California. Fifty-two full page images. The official commemorative book of the Venice Centennial (1905 - 2005). Winner of a 2005 Lucie, International Photo Award: Honorable Mention, Photo Book, Other. A percentage of royalties will be given to a number of charitable organizations that support the low-waged residents of Venice, including Venice Family Clinic, Venice Community Housing Corporation, Venice Arts, Venice 2000 and the Julia Dean Summer Teen Photo Workshop for under-served youth.

[Kings of Judah: A Lamp Maintained, Carole Shust](#) , 2011, . A thorough self guided study of the Kings of Judah.

[The Poems of Charlotte Smith, Charlotte Smith](#) , 1993, 019507873X, 9780195078732. Charlotte Turner Smith (1749-1806) was the author of ten novels, a play, and a host of innovative educational books for children, as well as several volumes of poetry that helped set priorities and determine the tastes of the culture of early Romanticism. Her Elegiac Sonnets sparked the sonnet revival in English Romanticism; The Emigrants initiated its passion for lengthy meditative introspection; and Beachy Head lent its poetic engagement with nature a uniquely telling immediacy. Smith was a woman, Wordsworth remarked a quarter century after her death "to whom English verse is under greater obligations than are likely to be either acknowledged or remembered." True to his prediction, Smith's poetry has virtually dropped from sight and thus from cultural consciousness. This, the first edition of Smith's collected poems, will restore to all students of English poetry a distinctive, compelling voice. Likewise, the recovery of Smith to her rightful place among the Romantic poets must spur the reassessment of the place of women writers within that culture.

[Born in the Breezes: The Seafaring Life of Joshua Slocum, Kathryn Lasky](#) , 2001, 0439293057, 9780439293051. One of the most renowned sailing captains of his time, Joshua Slocum was born by the sea and spent most of his life on it. He took his bride aboard ship with him, and they even raised their children there. But as the nineteenth century drew to a close, Captain Slocum found that his skills were no longer in demand. Gas, steam, and electricity were powering transportation, not wind. In 1895, now a widower in his fifties, he set off on the *Spray*, an old sloop that he had rebuilt plank by plank. He planned to sail around the world all alone. No one had ever done this before, and some said no one ever would. Here is a true and triumphant story, gracefully written and splendidly illustrated.

[Manual for Surveying National Scientific and Technological Potential, Unesco Staff](#) , 1970, 0119102137, 9780119102130.

[Stowaways to Smith Island: Hayden and Chloe's Enchanted Journey with the Nurses to Maryland's Mysterious Smith Island, Michele R. Davidson](#) , 2004, 0975417010, 9780975417010. When Hayden and Chloe sneak aboard the boat taking their mother and other nurses across the Chesapeake Bay to Smith Island for two weeks, they begin an adventure involving interesting people, good food, mysterious places, and a search for pirate treasure.

[Selected Poetry, John Donne](#) , 1996, 0192824996, 9780192824998. "In his day it seemed to his admirers that Donne had changed the literary universe, and he is now widely regarded as the founder of the metaphysical 'school'. Donne's

poetry is highly distinctive and individual, adopting a multitude of rhythms, images, forms, and personae, from irresistible seducer to devout believer. His greatness stems from the subtleties and ambivalences of tone that convey his remarkably modern awareness of the instability of the self." "This collection of Donne's verse is chosen from the Oxford Authors critical edition of his major works. It includes a wide selection from his secular and divine poems, such as the rebellious and libertine satires and love elegies, the virtuoso Songs and Sonnets, and the desperate, passionate Holy Sonnets. John Carey's introduction and extensive notes provide valuable insights into Donne's poetic genius."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved
