[A Beautiful Grief: Reflections on Letting Go, Cheryl Eckl](#) , 2012, 0982810725, 9780982810729. FINDING GRACE IN GRIEVING AN INSPIRING AND MOVING BOOK TO REVISIT AGAIN AND AGAIN To become strong and whole following a serious loss, Cheryl Eckl says we are called to "love our way through to grief's natural conclusion." In this collection of her "soul space" writings, she shares her poignant sorrow from the death of her soul mate and husband, while revealing deep insights of self-compassion, strength, and hope. As her thoughts unfold, you will feel Cheryl encouraging you to nurture your own insights, open your broken heart to the possibility of joy, even entertain fresh adventure as you journey through your own process of grief. The path to healing need not be lonely in the presence of such a companion.

[Perspectives on Ideology: Teacher's Resource, Pamela Perry-Globa](#) , 2009, 0195429184, 9780195429183. The Perspectives on Ideology Teacher's Resource has been developed to fit the Alberta program rationale, philosophy, and vision, and the learning outcomes of the Program of Studies for the 30-1 course. The course takes an issue-focused approach to the teaching of social sciences that incorporates multiple perspectives, current affairs, and controversial topics.

[The Art of Making Money: The Story of a Master Counterfeiter, Jason Kersten](#) , 2009, 1592404464, 9781592404469. The true story of a brilliant counterfeiter who "made" millions, outwitted the Secret Service, and was finally undone when he went in search of the one thing his forged money couldn't buy him: family. Art Williams spent his boyhood in a comfortable middle-class existence in 1970s Chicago, but his idyll was shattered when, in short order, his father abandoned the family, his bipolar mother lost her wits, and Williams found himself living in one of Chicago's worst housing projects. He took to crime almost immediately, starting with petty theft before graduating to robbing drug dealers. Eventually a man nicknamed "DaVinci" taught him the centuries-old art of counterfeiting. After a stint in jail, Williams emerged to discover that the Treasury Department had issued the most secure hundred-dollar bill ever created: the 1996 New Note. Williams spent months trying to defeat various security features before arriving at a bill so perfect that even law enforcement had difficulty distinguishing it from the real thing. Williams went on to print millions in counterfeit bills, selling them to criminal organizations and using them to fund cross-country spending sprees. Still unsatisfied, he went off in search of his long-lost father, setting in motion a chain of betrayals that would be his undoing. In *The Art of Making Money*, journalist Jason Kersten details how Williams painstakingly defeated the anti-forging features of the New Note, how Williams and his partner-in-crime wife converted fake bills into legitimate tender at shopping malls all over America, and how they stayed one step ahead of the Secret Service until trusting the wrong person brought them all down. A compulsively readable story of how having it all is never enough, *The Art of Making Money* is a stirring portrait of the rise and inevitable fall of a modern-day criminal mastermind. An Interview with Jason

Kersten, author of *THE ART OF MAKING MONEY*: What compelled you to write *The Art of Making Money*? A: Curiosity about the crime of counterfeiting initially drew me in. Master counterfeiters- criminals who produce superior quality notes and sell them-are extremely rare. Unlike other kinds of career criminals, they are also craftsmen, and they typically learn from another master through apprenticeship. When Art Williams learned to counterfeit from a master at just 16, he was the last link in a chain of counterfeiters that went back generations. I found this so fascinating, this idea of legacy. I wanted to know how Art learned the art of counterfeiting, the dynamics of that student- teacher relationship and how it changed him. Then of course there was his pursuit of a counterfeit of the 1996 New Note, the most secure US bill ever created. It was a quest, and quests always make for great stories. While it was the world of counterfeiting that originally attracted me to Art's story, what ultimately made a book-length project worthwhile wasn't the crime, but the man. Art's quest to reconnect with his father was far more compelling than his criminal escapades, and it is the conflict that arises between these two goals that gives his story so much dramatic weight.

Q: How did you find Art Williams and his story?

A: Art Williams actually found me. Back in 2004, the Hollywood producer Paul Pompian spent a week in Chicago scouting locations for one of his films. Paul didn't have a car, so one of his friends loaned him a car and driver. That driver turned out to be Art Williams. As the week went by, Art kept hinting to Paul that if he really wanted to make an interesting movie, he should listen to his story. Of course, being a veteran Hollywood man, Paul hears such claims on a daily basis, so he pretty much blew Art off the entire week. On his last day in Chicago, Paul had a few hours to kill before heading to the airport. By then he had taken a liking to Art. They were both native Chicagoans, both from the streets, and in a few of the details Art revealed about his past Paul saw shades of his own memories growing up in the city. Paul offered to buy Art lunch and, grudgingly, finally listen to his story. Upon hearing that Art had learned to counterfeit at 16, Paul was shocked, and of course there was much more to the story. He thought that Art's life might indeed not only make a good film, but an interesting book. Eventually he contacted my literary agent in the hopes of finding someone to write it. I really didn't know what to think when my agent told me about Art. I was fascinated, but there was no way I could commit to anything without meeting Art myself. After spending an hour with him on the phone and doing a little research, I thought it would at least make an interesting magazine article. The resulting article ran in *Rolling Stone* in July of 2005, and by then I had learned enough about Art's story to want to write the book.

Q: How much money did Art Williams counterfeit?

A: By Art's own estimate, he counterfeited about ten million dollars worth of US currency over a ten-year period. While that is quite a sum for a lone counterfeiter, the dynamics of the crime make getting rich from it a bit more complicated. Since he sold much of it for 30- cents on the dollar, he only got about third or less of the face value. Overhead, his splurging lifestyle, and the countless bills he burned because he wasn't quite satisfied, reduced his net profit even further.

Q: Have you ever seen one of Art Williams's counterfeit bills?

A: I have, though interestingly this didn't happen until the book was almost finished. The bill, a C- note, was stuffed inside a journal sent to me by someone

close to Art. This individual had tucked it in there as a memento years earlier and completely forgotten about it. Seeing it was a strange sensation. If I hadn't spent so much time learning about both real and counterfeit currency, I wouldn't have been able to distinguish it from a genuine bill. Holding it in my hand, I realized how easy it would be to just go spend it. Art always told me that spending his bills never felt like a crime to him, and I could see why: it was too easy to believe the bill was real. Q: While writing this book, did you have fantasies about becoming a counterfeiter yourself? A: There came a point when I realized that few people—perhaps nobody other than Art and Natalie—knew as much as I did about how Williams made his bills. At the same time, I also had intimate knowledge of the personal tragedies and sufferings that his life as a counterfeiter had caused him. That kind of knowledge tends to strip away the glamour of the crime. Even so, there have certainly been times when I've daydreamed about making my own bills. Those fantasies are very short-lived. The likelihood that I would wind up in prison aside, counterfeiting at Art's level requires tremendous skill and patience, and it helps if you enjoy the work, which comes down to printing. Art always said he did it more for the challenge than the money, and I believe him. Sadly, if Art applied the same discipline to his counterfeiting to a legitimate endeavor, he would not only be successful, but free.

[Lust : The Seven Deadly Sins: The Seven Deadly Sins, Simon Blackburn Professor of Philosophy University of Cambridge](#) , 2003, 0195347544, 9780195347548. Lust, says Simon Blackburn, is furtive, headlong, always sizing up opportunities. It is a trail of clothing in the hallway, the trashy cousin of love. But be that as it may, the aim of this delightful book is to rescue lust "from the denunciations of old men of the deserts, to deliver it from the pallid and envious confessor and the stocks and pillories of the Puritans, to drag it from the category of sin to that of virtue." Blackburn, author of such popular philosophy books as *Think and Being Good*, here offers a sharp-edged probe into the heart of lust, blending together insight from some of the world's greatest thinkers on sex, human nature, and our common cultural foibles. Blackburn takes a wide ranging, historical approach, discussing lust as viewed by Aristophanes and Plato, lust in the light of the Stoic mistrust of emotion, and the Christian fear of the flesh that catapulted lust to the level of deadly sin. He describes how philosophical pessimists like Schopenhauer and Sartre contributed to our thinking about lust and explores the false starts in understanding lust represented by Freud, Kinsey, and modern "evolutionary psychology." But most important, Blackburn reminds us that lust is also life-affirming, invigorating, fun. He points to the work of David Hume (Blackburn's favorite philosopher) who saw lust not only as a sensual delight but also "a joy of the mind." Written by one of the most eminent living philosophers, attractively illustrated and colorfully packaged, *Lust* is a book that anyone would lust over.

[Cleopatra, John Whitehorne](#) , 2002, 0203036085, 9780203036082. Although there are many books written about the most famous Cleopatra, this is the only study in English devoted to her less well-known but equally illustrious namesakes. Cleopatra traces the turbulent lives and careers of these historically important women, examining in particular the earlier Macedonian and Ptolemaic Cleopatras, and the impact of their dynastic marriages on the history of the Hellenistic world. John Whitehorne also evaluates current views of Cleopatra VII's dramatic suicide, and considers the evolving political significance of royal women in the last three centuries BC. Clearly and engagingly written, Cleopatra reveals the true significance to the ruling dynasties of the 34 known Cleopatras who were not Cleopatra the Great, and illuminates some fascinating but little-known aspects of ancient Greek and Egyptian history along the way.

[Discovering Country Music, Don Cusic](#) , 2008, 0313352461, 9780313352461. Discovering Country Music chronicles the incredible evolution of country music in America - from the fiddle to the pop charts - and provides an insightful account of the reasons and motives that have determined its various transformations and offshoots over the years. In order to understand what country music is, and why, it is essential to understand how it makes its money the basic revenue streams, the major companies involved, and how country artists are booked and marketed. Author Don Cusic helps readers do that, and goes even further, covering not only the business and the technology that have shaped the industry, but also tackling the question of country's relationship to the other major genres of the American recording industry, including pop, blues, and rock music. Discovering Country Music is broken down into ten sections which include: key musical trends; ancillary business trends such as recording technology, radio, and the recording industry; and prominent artists, including as a small sample Stephen Foster, The Carter Family, Elvis, Johnny Cash, Dolly Parton, Willie Nelson, Garth Brooks, The Dixie Chicks, Tim McGraw, Faith Hill, and Kenny Chesney. This work should appeal to fans, scholars, educators, libraries and the general reader alike.

[Rap Pack, Meredith Costain](#) , 1994, 0140242023, 9780140242027. Teenage fiction about life in an inner-city Australian high school and the basis for the TV series 'Heartbreak High'. Jodie, whose life is rap music, finds trouble with the principal when she performs in the school yard. Nick and his friends organise a recording session to help her get a demo tape together. Romance blossoms with all its attendant pleasure and pain. The author writes for national student magazines and has written a number of works for adolescents. She received the Mary Grant Bruce Story Award for children's literature in 1992-93.

[The Invisible Farm: The Worldwide Decline of Farm News and Agricultural Journalism Training, Thomas Pawlick](#) , 2001, 0830415823, 9780830415823. The nature of rural life and food production is changing dramatically but remains overlooked by the major media. The Invisible Farm provides the first substantial accounting of this problem, addressing issues such as habitat destruction, loss of biodiversity, pollution, and soil degradation. Pawlick supplies readers with frightening examples of events taking place worldwide without public awareness. As these environmental problems get worse, farm reporters are disappearing from newspapers and television. Rural news and environmental issues are increasingly neglected. Pawlick argues that this lack of interest is partly due to less agricultural journalism training at universities. As a result, massive changes in farming, distribution, and production continue unabated while the consuming public is left uninformed. A Burnham Publishers book

[LISTENING POINT, Sigurd F Olson](#) , 2012, 0307822257, 9780307822253. Listening Point tells of what I have seen and heard on a bare glaciated spit of rock in the Quetico-Superior country. Each time I have gone there I have found something new that has opened up whole realms of thought and interest. From it I have glimpsed the immensity of space and at times the grandeur of creation. I believe that I have experienced there one of the oldest satisfactions of man; when as he gazed upon the earth and sky, he sensed the first vague glimmerings of meaning in the universe. I know that while we were born with curiosity and wonder, and our early years are full of the adventure they bring, such inherent joys are often lost. I also know that, being deep within us, their latent glow can be fanned to flame again by awareness and an open mind. Listening Point is dedicated to rekindling that flame by capturing this almost forgotten sense of wonder, and learning from rocks and trees and all the life that surrounds them truths that can encompass all. I named this place Listening Point because only when one comes to listen, only when one comes sharpens ones awareness, can one see and hear in the sense in which I use these words. Everyone has a listening point somewhere, some quiet place where he can contemplate the awesome universe. This book is simply the story of what such a place has meant to me. The experiences that have been mine can be known by anyone who will make the effort. Thus the author of The Singing Wilderness sets the tone of his new book a book that not only successfully recaptures the to-be-treasured sense of wonder of which he speaks, but also brings to life, in all its essential grandeur, the unparalleled heritage of lakes and rivers and forests we are so fortunate to be able to call our own. Listening Point is a book that will rekindle spirits wearied by the turmoils of twentieth-century living that will teach us a new way to look at the world

around us and to feel the better for it. With 28 magnificent black-and-white drawings by Francis Lee Jacques.

[Alternatives to Privatization: Public Options for Essential Services in the Global South, David Alexander McDonald, Greg Ruiters](#) , 2012, 0415886686, 9780415886680. There is a vast literature for and against privatizing public services. Those who are against privatization are often confronted with the objection that they present no alternative. This book takes up that challenge by establishing theoretical models for what does (and does not) constitute an alternative to privatization, and what might make them 'successful', backed up by a comprehensive set of empirical data on public services initiatives in over 40 countries. This is the first such global survey of its kind, providing a rigorous and robust platform for evaluating different alternatives and allowing for comparisons across regions and sectors. The book helps to conceptualize and evaluate what has become an important and widespread movement for better public services in the global South. The contributors explore historical, existing and proposed non-commercialized alternatives for primary health, water/sanitation and electricity. The objectives of the research have been to develop conceptual and methodological frameworks for identifying and analyzing alternatives to privatization, and testing these models against actually existing alternatives on the ground in Asia, Africa and Latin America. Information of this type is urgently required for practitioners and analysts, both of whom are seeking reliable knowledge on what kind of public models work, how transferable they are from one place to another and what their main strengths and weaknesses are.

[MathXL CD, M. F. Mathematics](#) , 2006, 0131953680, 9780131953680. Summary: The MathXL Tutorials on CD delivers all of MathXL's algorithmically generated practice exercises in an off-line format. Exercises are correlated at the objective level to the exercises in the textbook, and each exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress. Not available for courses in Calculus and Statistics. Owning a pet can teach a child responsibility, patience, confidence, and the satisfaction of a job well done--and best of all, it's fun! Over 60 inventive activities and crafts such as Can Do Canine Show and Dog Day Story teach kids about taking care of their pooch pal while promoting a long-lasting relationship. Games such as musical chairs, burying bones together, and throwing a frisbee and flyball; fun things to make such as a rag rug, a pooch pillow, and a puppy bed; and

yummy treats to cook such as crunchy dog biscuits and a dog food cake get kids involved with taking care of their dog's needs while teaching healthy care-giving techniques and fostering a deep friendship. In addition, A Dog's Best Friend includes information about dog obedience training; a reading list of children's animal books; listings of Web sites, pet-care resources, and animal organizations and events; and amusing trivia for dog lovers.

[Presence Meditation: The Practice of Life Awareness, Jens-Erik Risom](#) , 2010, 1556439121, 9781556439124. First developed as a short manual for students in a yearlong meditation course, Presence Meditation offers a step-by-step program for increasing self-awareness through simple but revelatory exercises. The practice of presence meditation involves becoming present to whatever is going on and letting things be just as they are. This awareness is characterized by open attention and neutral observation, which increases the capacity to observe without judging, enables transformation without forcing, and opens the way to a more immediate sense of meaning and joy in life. Author Jens-

Erik Risom begins by describing the purpose of meditation and the four introductions (rootedness, attention to breathing, fullness of feeling, and witness awareness), and then presents the gradual steps for achieving presence, deepening neutrality, opening to trust, sensing spaciousness, and more. There are many books about meditation on the market, from Western authors like Eckhart Tolle to Tibetan Buddhist teachers. But many people find it difficult to translate the message of these books into an actual experience of deepening awareness. Whether readers are seeking a spiritual practice, a more serene approach to stressful situations, improved concentration, or greater relaxation for better health, this compact manual offers a simple, undogmatic approach to meditation.

[C# for Programmers, Harvey M. Deitel, Paul J. Deitel](#) , 2006, 0131345915, 9780131345911. A new edition of this title is available, ISBN-10: 0137144156 ISBN-13: 9780137144150 The practicing programmer's DEITEL guide to C# and the powerful Microsoft .NET Framework Written for programmers with a background in C++, Java, or other high-level languages, this book applies the Deitel signature live-code approach to teaching programming and explores Microsoft's C# language and the new .NET 2.0 in depth. The book is updated for Visual Studio 2005 and C# 2.0, and presents C# concepts in the context of fully tested programs, complete with syntax shading, detailed line-by-line code descriptions, and program outputs. The book features 200+ C# applications with 16,000+ lines of proven C# code, as well as 300+ programming tips that will help you build robust applications. Start with a concise introduction to C# fundamentals using an early classes and objects approach, then rapidly move on to more advanced topics, including multithreading, XML, ADO.NET 2.0, ASP.NET 2.0, Web services, network programming, and .NET remoting. Along the way you will enjoy the Deitels' classic treatment of object-oriented programming and a new, OOD/UML ATM case study, including a complete C# implementation. When you are finished, you will have everything you need to build next-generation Windows applications, Web applications, and Web services. Dr. Harvey M. Deitel and Paul J. Deitel are the founders of Deitel & Associates, Inc., the internationally recognized programming languages content-creation and corporate-training organization. Together with their colleagues at Deitel & Associates, Inc., they have written many international best-selling programming languages textbooks that millions of people worldwide have used to master C, C++, Java, C#, XML, Visual Basic, Perl, Python, and Internet and Web programming. The DEITEL Developer Series is designed for practicing programmers. The series presents focused treatments of emerging technologies, including .NET, J2EE, Web services, and more. Pre-publication Reviewer Testimonials "Excellent coverage of developing ASP.NET 2.0 applications, with plenty of sample code. The chapter on exception handling is one of, if not the best such chapters I have seen in the 50+ .NET related books I've read and reviewed. The chapter on Networking is one of the best I have seen." --Peter Bromberg, Merrill Lynch, C# MVP "A comprehensive introduction to XML, and one of the clearest tutorials on Web services I've read, with great examples. An excellent chapter on generics." --Gavin Osborne, Saskatchewan Institute of Applied Science and Technology "A superb job of clearly integrating the theory of relational databases and SQL with ADO.NET!" --Harlan Brewer, University of Cincinnati "Excellent introduction to .NET collections." --Jos Antonio Gonzalez Seco, Andalucia's Parliament "A beautiful presentation of threads." --Pavel Tsekov, Caesar BSC "The ATM OOD/UML case study is excellent! The implementation of the design developed in the early chapters gives the reader a fantastic model of a real world problem. You hit a home run with this one!" --Catherine Wyman, Devry-Phoenix Practical, Example-Rich Coverage Of: C# 2.0, .NET 2.0, FCL ASP.NET 2.0, Web Forms and Controls Database, SQL, and ADO.NET 2.0 Networking and .NET Remoting XML, Web Services Generics, Collections GUI/Windows Forms OOP: Classes, Inheritance, and Polymorphism OOD/UML ATM Case Study Graphics and Multimedia Multithreading Exception Handling And more...

[Smart, Strong and Sexy at 100?: New Skin. New Hair. New You-- 7 Simple Steps to Thrive at 100-- and Beyond, David A.](#)

[Kekich](#) , 2012, 1468124803, 9781468124804. What would you do with an extra twenty or thirty youthful energetic years? What would you give for them? Imagine being Smart, Strong and Sexy at 100. Find out why this is your destiny. Someday we will look back on history with no personal understanding or empathy for human aging and how it once ravaged bodies and minds. We will read about it much like we now read of 27 year lifespans, scurvy, the plague, beriberi and primitive surgery and dentistry. That "someday" may well be in your personal future. This book explains how you can live long enough to enjoy a vibrant, prosperous, open-ended (yes, open-ended) lifespan from technologies being developed today. Before you know it, 100 will be the new 50. Meanwhile, follow 7 simple steps to improve your own odds of taking advantage of tomorrow's life-expanding miracles. Inside, David Kekich reveals... * How to enjoy unforgettable sex on your 100th birthday. * One simple lifestyle change you can make today that could lower your death rate by 60%. * Why we can rejuvenate the elderly in your lifetime. * How to avoid being left behind while your friends board the Longevity Express. * Why you are better equipped than your doctor to ensure more vitality. * What causes you to age... and what you can do to turn the tide today. * Why following your mother's advice may keep you from losing your memory of her (and everything else) by the time you're 80. * Why the sun can heal you or kill you. Here's what to change now. * What 3cents-a-day habit could be the most important thing you could do for more life and longevity. * That the medical specialist you now see is almost certainly not the one you should have caring for you. * Why overpopulation will not be a problem... even if people live forever. * Why less is more when it comes to exercise. * What two immediate low-tech adjustments could add 20 active years to your average lifespan. * Which short-term gratifying habits may snatch away your chance for open-ended youth and an ever-expanding mind. * How to help ensure your longevity, even if everything else fail

[A mind apart: poems of melancholy, madness, and addiction, Mark S. Bauer](#) , 2008, 0195336402, 9780195336405.

"Much madness is divinest sense," wrote Emily Dickinson, "And much sense the starkest madness." The idea that poetry and madness are deeply intertwined, and that madness sometimes leads to the most divine poetry, has been with us since antiquity. In his critical and clinical introduction to this splendid anthology--the first of its kind--psychiatrist and poet Mark S. Bauer considers mental disorders from multiple perspectives and challenges us to broaden our outlook. He has selected more than 200 poems from across seven centuries that reflect a wide range mental states--from despondency and despair to melancholy, mania, and complete submersion into a world of heightened, original perception. Featuring such poets as George Herbert, John Clare, Samuel Taylor Coleridge, John Berryman, Sylvia Plath, Ann Sexton, Weldon Kees, Lucille Clifton, Jane Kenyon, and many others, A Mind Apart has much to offer those who suffer from mental illness, those who work to understand it, and all those who value the poetry that has come to us from the heights and depths of human experience.

ECONOMICS WORKBOOK AND READERFOURTH EDITIONThis comprehensive Economics Student Workbook and Reader, designed to accompany Economics, Fourth edition, by John Sloman, has become a best seller in its own right and is used widely by students and tutors throughout the UK, Europe and South-East Asia. Its unique approach of combining in one book a comprehensive set of questions of various types with articles from newspapers and journals, makes it an invaluable guide for any student of economics, as well as a useful teaching aid for tutors.Economics Students Workbook and Reader allows students to experience a more interactive approach to the study of economics, applying the theories, working through the problems, analysing data, examining and discussing case studies, and gathering information from a variety of sources.There are over 1500 questions and assignments, with worked answers for all review questions and problems. There are also numerous recent newspaper and journal articles, many serving as case studies to illustrate theory or discuss particular economic problems or policies.FEATURESEach chapter corresponds to a chapter in the main text and includes the following features: ? A re

[Zigzag Street, Nick Earls](#) , 2011, 1742742920, 9781742742922. A comic masterpiece -- Who Weekly. The book that began it all for Nick Earls.Here I am, on a work day of some importance, riding out of town in a cab with a babe I've just concussed with footwear. Richard Derrington is twenty-eight and single. More single than he'd like to be. More single than he'd expected to be, and not coping well. Since Anna trashed him six months ago he's been trying to find his way again. He's doing his job badly, he's playing tennis badly, his renovating attempts haven't got past the verandah, and he's wondering when things are going to change. Zigzag Street covers six weeks of Richard's life in Brisbane's Red Hill. Six weeks of rumination, chaos, poor judgement, interpersonal clumsiness...and, eventually, hope.

[Health-Promoting Properties of Fruits and Vegetables, Leon Terry](#) , 2011, 1845935292, 9781845935290. Fruits and vegetables are one of the richest sources of ascorbic acid, other antioxidants and produce-specific bioactive compounds. A general consensus from health experts has confirmed that an increased dietary intake of antioxidant compounds found in most fresh produce types may protect against oxidative damage caused by free radicals and reduce the incidence of certain cancers and chronic diseases. Currently there is no book available which collectively discusses and reviews empirical data on health-promoting properties of all fresh produce types. This book will provide detailed information on identity, nature, bioavailability, chemopreventative effects, and postharvest stability of specific chemical classes with known bioactive properties. In addition, chapters discuss the various methodologies for extraction, isolation, characterization and quantification of bioactive compounds and the in-vitro and in-vivo anticancer assays. It will be an essential resource for researchers and students in food science, nutrition and fruit and vegetable production.

[Around the World in Eighty Days, Jules Verne](#) , 2002, 0194243362, 9780194243360. 'Today you can go round the world in eighty days, ' says Phileas Fogg. 'Do it, and I pay you 20,000 pounds, ' says his friend Stuart. This is the beginning of one of Jules Verne's most exciting stories. Phileas Fogg must get back to London by December 21st or lose all his money. And with the help of his servant, Passepartout, Fogg travels in many ways - from train to elephant - and has some surprising adventures on the way.

[The Prime Illusion: Modern Holography in the New Age of Digital Media, Martin J. Richardson](#) , 2006, 095532100X, 9780955321009.

[The Logic of Strategy, Cristina Bicchieri Associate Professor of Philosophy Carnegie Mellon University, Richard Jeffrey Professor of Philosophy Princeton University, Irvine Brian Skyrms Professor of Philosophy University of California](#) , 1999, 019535365X, 9780195353655. Edited by three leading figures in the field, this exciting volume presents cutting-edge work in decision theory by a distinguished international roster of contributors. These mostly unpublished papers address a host of crucial areas in the contemporary philosophical study of rationality and knowledge. Topics include causal versus evidential decision theory, game theory, backwards induction, bounded rationality, counterfactual reasoning in games and in general, analyses of the famous common knowledge assumptions in game theory, and evaluations of the normal versus extensive form formulations of complex decision problems.

[A Computational Logic Handbook, Robert S. Boyer, J. Strother Moore](#) , 1998, 0121229556, 9780121229559. This book provides the definitive documentation for one of the most well-known and highly regarded theorem-proving programs ever written. The program described is one of the more significant, enduring, and prize-awarded accomplishments in the

fields of artificial intelligence, formal methods, and applied logic. The book provides an exact statement of the logic for which the program is a prover, a complete description of the user's commands, installation instructions, and much tutorial information, including references to thousands of pages of examples. Among the examples is a formally verified microprocessor and a formally verified compiler targeting that microprocessor. The second edition of A Computational Logic handbook provides all the information necessary for using the most recently released version of Nqthm, the freely available "Boyer-Moore" theorem-proving program. The second edition includes a precise description of all recent changes to the logic in the past nine years, including many enhanced syntactic features and rules of inference, which were added to support work on large scale projects in formal methods. Thousands of pages of fascinating, exemplary, mathematically-checked input are described, examples that deal with very difficult questions in formal methods and mathematics. New material includes: Description of the new syntax, including COND, CASE, LET, LIST*, and backquote; describes some higher order inference procedures, including "constrained functions" and "functional instantiation"; documents more sophisticated control machinery for manipulating very large theories; introduces a secure proof-checking environment; describes thousands of pages of fascinating example input dealing with very difficult questions in formal methods and mathematics; provides a formal parser for the syntax; compares the proof complexity of many interesting checked examples; includes much new tutorial help, especially for the many new features. A computational logic is a mathematical logic that is both oriented towards discussion of computation and mechanised so that proofs can be checked by computation. The computational logic discussed in the handbook is that developed by Boyer & Moore. The first edition, published in 1988, is an acknowledged classic in the field of formal methods and computational logic. However it no longer reflects existing technology. The second edition provides a complete overview of the Boyer/Moore theorem proving approach (Nqthm) and provides examples. It includes several significant new features that have been added to the Nqthm system since 1988. The book is structured in the following way: Part 1 discusses logic without regard for its mechanisation and answers the question what are the axioms and rules of inference? Part 2 discusses its mechanisation and answers the question how does one use the Boyer/Moore theorem prover to prove theorems?

[Life with wine: a practical guide to the basics, Dick Patton](#) , 1995, 0964288508, 9780964288508. The author, unable to find the perfect book for use in his beginning wine class, set about to write it. LIFE WITH WINE takes a complicated subject & presents it clearly, in a new step-by-step, easy-to-understand way. Not a dry textbook, it is amusing, anecdotal & friendly as it informs. Emphasis on California, French, Italian, German & Spanish wines. Wine Intelligence section covers buying, storing, serving, glassware, breathing, decanting, tasting, temperature, restaurant ordering, wine lists, food pairings, pronunciation, words & terms & more. Fills niche between simplistic & encyclopedic. Attractive, original art, 4-color soft cover. Perfect bound. 5 3/8 x 8 3/8 in. To order, contact author-publisher Richard J. Patton, Patton Communications, 17716 Rosedown Pl., San Diego, CA 92128; 619-487-7808.

[The Girl in the Woods, David Jack Bell](#) , 2009, 1929653107, 9781929653102. When Diana Greene leaves her hometown for a new life, she thinks she has left the past behind: her sister's disappearance, her mother's illness, and the visions Diana used to see...a clearing in the woods...a moonlit night...and human bones buried in the ground. And her past remains dormant until the day a mysterious woman appears on Diana's doorstep, promising Diana something she can't resist. "If you help me find my missing daughter, I'll tell you what happened to your sister." Soon Diana is digging into the past, uncovering secrets the town has long since buried, secrets that the powerful wish would stay hidden. But when another girl disappears and the visions return to Diana with a vengeance, she knows she is on the brink of solving more than just a few missing person's cases. She is on the brink of discovering the dark and violent covenant that the town itself was founded upon.

[Following the Drum: The Story of the 75th New York Volunteer Infantry Regiment in the US Civil War, Donald E. Mortin](#), 2006, 0976825171, 9780976825173.

[Fly Away Home: A Novel, Jennifer Weiner](#), 2010, 0743294270, 9780743294270. Sometimes all you can do is fly away home . . . When Sylvie Serfer met Richard Woodruff in law school, she had wild curls, wide hips, and lots of opinions. Decades later, Sylvie has remade herself as the ideal politician's wife: her hair dyed and straightened, her hippie-chick wardrobe replaced by tailored knit suits. At fifty-seven, she ruefully acknowledges that her job is staying twenty pounds thinner than she was in her twenties and tending to her husband, the senator. Lizzie, the Woodruffs' younger daughter, is at twenty-four a recovering addict, whose mantra HALT (Hungry? Angry? Lonely? Tired?) helps her keep her life under control. Still, trouble always seems to find her. Her older sister, Diana, an emergency room physician, has everything Lizzie failed to achieve: a husband, a young son, the perfect home and yet she's trapped in a loveless marriage. With temptation waiting in one of the ER's exam rooms, she finds herself craving more. After Richards' extramarital affair makes headlines, the three women are drawn into the painful glare of the national spotlight. Once the press conference is over, each is forced to reconsider her life, who she is and who she is meant to be. Written with an irresistible blend of heartbreak and hilarity, *Fly Away Home* is an unforgettable story of a mother and two daughters who after a lifetime of distance finally learn to find refuge in one another.

[Survival in the Square, Dwight Hawkins, Morrie Greenberg](#), 1989, 0962265209, 9780962265204. The author describes in his early life, his training, victories, and defeats as a featherweight boxer, and how he made the decision to quit the ring and devote himself to working with children and young people.

[After the Goat Man, Betsy Cromer Byars](#), 1980, 0333278615, 9780333278611. An overweight, sensitive boy gains the insight and strength to overcome his problems through his search for and discovery of a friend's grandfather, known as the Goat Man.

[It's Religious Fundamentalism, Stupid, John Max Morell](#), 2002, 097044561X, 9780970445612. "In *It's Religious Fundamentalism, Stupid*" John Max Morell shows how mankind can rise above the fairy tales that underlie Western Religions. He contends that while Christians are pointing to the dangers from terrorists who have been filled with Islamic Fundamentalism they are overlooking the mythologies that are basic to Christianity and Judaism. He believes that

modern scholarship reveals the foolishness of religious mythology and the need to find a more enlightened faith."

[The Little Book of Talent: 52 Tips for Improving Your Skills, Daniel Coyle](#) , 2012, 034553669X, 9780345536693. The Little Book of Talent is a manual for building a faster brain and a better you. It is an easy-to-use handbook of scientifically proven, field-tested methods to improve skills your skills, your kids skills, your organizations skills in sports, music, art, math, and business. The product of five years of reporting from the worlds greatest talent hotbeds and interviews with successful master coaches, it distills the daunting complexity of skill development into 52 clear, concise directives. Whether youre age 10 or 100, whether youre on the sports field or the stage, in the classroom or the corner office, this is an essential guide for anyone who ever asked, How do I get better? The Little Book of Talent should be given to every graduate at commencement, every new parent in a delivery room, every executive on the first day of work. It is a guidebook beautiful in its simplicity and backed by hard science for nurturing excellence. Charles Duhigg, bestselling author of The Power of Habit Its so juvenile to throw around hyperbolic terms such as life-changing, but theres no other way to describe The Little Book of Talent. I was avidly trying new things within the first half hour of reading it and havent stopped since. Brilliant. And yes: life-changing. Tom Peters, co-author of In Search of Excellence From the Hardcover edition.

[Successful Negotiation: How to Create a Win-win Situation, Robert B. Maddux](#) , 1999, 0749427337, 9780749427337. Updated and expanded, this new edition contains advice on improving business communication skills. Examples and exercises are provided to allow readers to monitor their progress.

[Fulltime Ministry, Sharon Brisco](#) , 2011, 0983374368, 9780983374367. Regina Thomas a successful young beautiful Christian young lady, she becomes upset after waiting a long time on the Lord to send her a mate. She decided to help God out when she goes to the club to meet her night and shining armour. She meet a man named Maurice Johnson who looks good on the outside, but he has nothing going for himself on the inside. He has no job, no money and absolutely no character. Regina becomes lured to him because of the way that he looks. She walks away from her Christian beliefs and she marries Maurice. From there her life became like a downward spiral. She lost everything because of him, but when she returned back to God she gets everything back.

[Clausewitz and the State: The Man, His Theories, and His Times, Peter Paret](#) , 2007, 0691131309, 9780691131306.

Originally published in 1976, Clausewitz and the State presents a comprehensive analysis of one of the significant thinkers of modern Europe. Peter Paret combines social and military history and psychological interpretation with a study of Clausewitz's military theories and of his unduly neglected historical and political writing. This timely new edition includes a preface which allows Paret to recount the past thirty years of discussion on Clausewitz and respond to critics. A companion volume to Clausewitz's On War, this book is indispensable to anyone interested in Clausewitz and his theories, and their proper historical context.

[Sc Eval Pack D, Nelson Thornes Limited](#) , 1992, .

[Philosophy: The Basics, Nigel Warburton](#) , 1995, . This is an introduction to philosophy for anyone coming to the subject for the first time, particularly those studying it at school, college or university. It takes a topic-based approach, each

chapter considering an area of philosophy and outlining a number of key philosophical issues associated with the area. The reader is encouraged to think philosophically, and the text introduces important philosophical questions and the various responses that have been made to them. Though major philosophical figures are mentioned, the emphasis throughout is on the arguments for and against every idea discussed. In this way readers can follow the course and development of a philosophical position and critically assess that position for themselves.

[The Weight of the Journey, Ken Byers](#) , 2012, 0983224218, 9780983224211. "You're dying of old age at forty-six," the specialist told Johann Prus. "You need a miracle." For the seventh richest man in the world, wealth comes with the conviction you can buy miracles. When Prus hears about Banner County, Oregon and its mysterious Cloud where other hopeless cases have found miracles, he wants it at any price. In Banner County the trees grow taller, the marijuana grows stronger, there's gold in the creeks, and there's even a century-old feud. Its violent history is built on gold, grass, guns and greed, and most of Banner's mystery is shrouded beneath the unchanging Cloud, a twenty square mile phenomenon that affects everything it touches. Dewey Farrell got kicked out of Banner County when he was eighteen by his girlfriend, Pearl Banner, whose family owns the whole county. Twenty-three years later, he's a widower and an unemployable cop and he's going back to Banner for the first time. He knows it won't be easy because Pearl's running the show. Shot at and lied to on arrival, it doesn't take Farrell long to discover he's been manipulated by unseen hands since the day he was born, and he's still being led. Between Prus and living stands the re-born man of action, Dewey Farrell, whose own answers to a misspent life lie under the Cloud. Prus sends in his well-armed mercenaries, but Dewey has Banner and all its mysteries on his side. Banner County and its Cloud make *The Weight of the Journey* a one-of-a-kind thriller. The novel is an exciting new addition to series set in the Pacific Northwest, already home to the imagination-stretching *Twilight* and *Grimm*.

[Enduring Partnership: Report of the Commission on U.S.-Israel Relations,](#) , 1993, 0944029523, 9780944029527.

[Ex-Free: The Freedom Action Plan!, Troy Byer Bailey](#) , 2012, 0980176328, 9780980176322. The process of getting over your ex is exactly that and such a process requires actions beyond crying, gossiping, stalking, ignoring or avoiding. Such a process demands that you let go of your immobilizing monologues and that you move into transforming dialogues and inquiries that are life altering experiences. In addition to fulfilling the aforementioned process, the 9 Keys in this book will enable you to transform your relationship to pain, labels and your circumstances. In order to better understand how you navigate the tumultuous sea of love, these 9 Keys will assist you in finding the sea vessel that best represents you. Once you understand how you were designed, you will also understand the importance of choosing other ships that your ship can inherently relate to and therefore comfortably be in a relation-ship with. Metaphorically speaking, if you're a slow but

steady Rowboat personality, the way you navigate the sea in the midst of a storm will vastly differ from that of a thrill-seeking Speedboat personality. As a result of this difference, it's inevitable that someone is going overboard. Finally, in addition to identifying and learning about the kind of boat you float on the sea of love, you will also learn of the secret treasures you exchanged with your ex while journeying as one. The surprise is that these very treasures are truly the treasures you have been diving for and nearly willing to die for your entire life. Included in Troy's new version of Ex-Free is a 21-Day Freedom Action Plan and Journal that will teach you how to claim and forever possess the treasure you hunt.

[Brooks/Cole Empowerment Series: Social Work and Social Welfare: An Introduction, Rosalie Ambrosino, Joseph Heffernan, Guy Shuttlesworth, Robert Ambrosino](#) , 2011, 1111304769, 9781111304768. Reflecting the latest practices, accreditation requirements, and developments from the field, bestselling SOCIAL WORK AND SOCIAL WELFARE: AN INTRODUCTION, 7e gives readers a broad understanding about the social work profession and the role it plays in the social welfare system. Part of the Brooks/Cole Empowerment Series, the Seventh Edition is completely up to date and thoroughly integrates the core competencies and recommended practice behaviors outlined in the 2008 Educational Policy and Accreditation Standards (EPAS) set by the Council on Social Work Education (CSWE). With its signature systems/ecological approach in understanding social welfare, the book focuses on specific social welfare areas in which social workers play major roles in policy and practice. It adopts the philosophy that there are many reasons why social problems occur, and students need to understand the history, values, factors (economic, political, and cultural) that surround these issues and the attempts to solve or address them. Instead of presenting a specific political perspective, the authors encourage readers to think critically about issues in a new way. Each chapter opens with a vignette about a social worker in a specific setting and closes with a discussion about the career opportunities for social workers in the area discussed. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

[Drowning in Data Personal Edition,](#) , 2008, 098213830X, 9780982138304.

The text is designed specifically to ease the transition to precalculus and directly involve the graphing calculator.

[Power & Choice: An Introduction to Political Science, W. Phillips Shively](#) , 2011, 0073526363, 9780073526362. Power and Choice, Thirteenth Edition is a comparative, conceptual introduction to political science which involves students in the dramatic and interesting variety of politics around the world; students clearly are the audience of this text. The theme of power and choice, based on a definition of politics as the making of collective choices for a group or state through the use of power, runs through much of the text. The text is organized topically, rather than by county-by-country, and

provides in-depth examples at the conclusion of most chapters.

[The Bad Attitude Survival Guide: Essential Tools for Managers, Harry E. Chambers](#) , 1998, 0201311461, 9780201311464.

With the increased pressures on business today, the workplace can be rampant with resentment, subpar performance, and inflexibility. So how does a manager address the issue of employee and coworker negativity, and create a more positive workplace? Using practical information, useful diagnostic tests, and hands-on instruction, The Bad Attitude Survival Guide provides managers with the tools, insights, and strategies to identify root causes of antiproductive behavior, diagnose problems, and foster a more cooperative and productive working environment. It also realistically assesses the limitations managers might face, identifies problems that cannot be corrected, and suggests how to proceed in a way that will obtain the most desirable results.

[Oxford Reading Tree Treetops Pack, Douglas Arthur Hill](#) , 2004, . A further 12 Treetops titles in Oxford Reading Tree's series of fiction with built-in progression for pupils aged 7 to 11. Specially written for children who need the support of carefully monitored language levels, the stories are accessible, motivating, and humorous. The series is organized into Oxford Reading Tree stages (from Stage 10 to Stage 16), with each stage introducing more complex narrative forms, including flashbacks and changes in viewpoint; descriptive writing; extended reading vocabulary; and more pages, more text, and fewer illustrations. Pack E features six new stories at Stage 15, and six stories at the new Stage 16. The Stage 16 stories are real children's novels with an increased level of challenge, up to 144 pages in length.

[International Conflict Management, Michael J. Butler](#) , 2009, 0203879155, 9780203879153. This new textbook provides

students with an accessible overview of the logic, evolution, application and outcomes of the five major approaches of the growing field of international conflict management: traditional peacekeeping peace enforcement and support operations negotiation and bargaining mediation adjudication. The book aims to provide the student with a fuller understanding of the strengths and weaknesses of these five techniques within the dynamic context of the contemporary security environment, especially in relation to recent and ongoing case studies of inter-state and intra-state conflict. To demonstrate the changing nature of security in the post-Cold War world, the text contrasts this with competing visions of security during the Cold War and earlier periods, and provides numerous points of comparison with the dominant causes, types, strategy, and prosecution of warfare in other eras. International Conflict Management will be essential reading for all students of conflict management, mediation, peacekeeping, peace and conflict studies, and international security in general. Michael J. Butler is an Assistant Professor in the Department of Government and International Relations at Clark University (USA).

[OSGi and Equinox: Creating Highly Modular Java Systems, Jeff McAffer, Paul VanderLei, Simon Archer](#) , 2010, 0321609433, 9780321609434. A Hands-On Guide to Equinox and the OSGi Framework In OSGi and Equinox: Creating Highly Modular Java Systems , three leading experts show developers for the first time exactly how to make the most of these breakthrough technologies for building highly modular dynamic systems. You'll quickly get started with Eclipse bundle tooling, create your first OSGi-based system, and move rapidly to sophisticated production development. Next, you'll master best practices and techniques for creating systems with exceptional modularity and maintainability. You'll learn all about OSGi's Declarative Services and how to use them to solve a wide variety of real-world problems. Finally, you'll see everything that you've learned implemented in a complete case study project that takes you from early prototype through application delivery. For every Eclipse developer, regardless of previous experience, this book combines a complete hands-on tutorial, online sample code at every step, and deep technical dives for working developers. Covers the OSGi programming model, component development, OSGi services, Eclipse bundle tooling, server-side Equinox, and much more. Offers knowledge, guidance, and best practices for overcoming the complexities of building modular systems. Addresses practical issues ranging from integrating third-party code libraries to server-side programming. Includes a comprehensive case study that goes beyond prototyping to deliver a fully refined and refactored production system. Whatever your application, industry, or problem domain, if you want to build state-of-the-art software systems with OSGi and Equinox, you will find this book to be an essential resource.

[Sassy Gal's How to Lose the Last Damn 10 Pounds Or 15, 20, 25...: How I Told All Diet Gurus, Fitness Experts, and Skinny People to Go to Hell. Then I Killed Them, Ate Them, and Still Lost Weight, Sharon Helbert](#) , 2014, 0983675260, 9780983675266. Get out of the way skinny girls, diet gurus and fitness fanatics- here comes SASSY Gal with a clever new approach to losing weight you will want to follow. Forget the ridiculous miracle diets, survival type food plans and strenuous workouts that lead most of us to quit and say "to hell with it all!" This lifestyle plan encourages laughter as a pathway to success. The first thing you'll do is delete the negative, destructive words diet and exercise and replace them

with your own humorous versions such as "Gimme Skinny or Kick Ass Plan." Then, add some simple believable strategies- like becoming a Vegevore (so you can eat it all!) and you're on your way to a happier, calmer and slimmer you. It's about time someone with real life experience tells it like it is and banishes all the unrealistic diet and exercise bullshit that doesn't work, and guides us on an inspirational weight loss journey.

[Kayaking the Texas Coast, John Whorff](#) , 2011, 1603442251, 9781603442251. Few experiences compare with navigating a sea kayak through a large sandy bay lined with oyster-shell beaches, past golden sand dunes into rough ocean waters, then surfing back onto a wind-swept beach at sunset. Half of the nearly 400-mile Texas coastline is flanked by barrier islands. Behind them, large and small bays shelter estuarine marshes, oyster-reef communities, and sea grass meadows that teem with wildlife, creating a bird watcher's and angler's paradise. For an intimate encounter with these natural treasures, no other water craft can compare to a kayak. Veteran kayaker John Whorff's *Kayaking the Texas Coast* is an essential guide for beginning and experienced kayakers to the many miles of shoreline that surround the shallow bays, lagoons, and islands of the Texas coast. Novices will appreciate this book's detailed information about where to paddle and camp, what to see, and where to obtain additional information about safety and route planning. Accomplished kayakers will enjoy Whorff's enticing route descriptions and other pertinent details on paddling the Texas coastline. Opening with an extended introductory text that covers kayaks and equipment, safety considerations and emergencies, camping dos and don'ts, and helpful resources, *Kayaking the Texas Coast* also lists useful websites and guidebooks. In the main portion of the text, the coast is organized into ten destinations, from the Galveston Bay complex in the north to Boca Chica State Park in the south. For each of these destinations, Whorff provides information on navigational aids, planning considerations, accommodations, and directions to launch sites before describing various paddling routes within each destination around seventy routes in all. Each route is ranked for difficulty as beginner, intermediate, or advanced. Detailed maps and vivid photographs by the author complete the package. "*Kayaking the Texas Coast* is your must-have guidebook to the coastline and bays of the Lone Star State. Many miles of sea kayaking adventure are described, along with maps and discussion of the natural world encountered along the way. My copy will be riding in car and kayak with me. I look forward to seeing with my own eyes what the author has described and mapped."-- Natalie Wiest, founder and director, Galveston Bay Information

[Robinson Crusoe, Daniel Defoe](#) , 1999, 0140435972, 9780140435979. From its first publication in 1719, *Robinson Crusoe* has been printed in over 700 editions. It has inspired almost every conceivable kind of imitation and variation, and been the subject of plays, opera, cartoons, and computer games. The character of Crusoe has entered the consciousness of each succeeding generation as readers add their own interpretation to the adventures so thrillingly 'recorded' by Defoe.

[The Bliss \(the Angel Star Prequel Novella\), Jennifer Murgia](#) , 2013, 098572501X, 9780985725013. Like his fallen brother Lucifer, Hadrian has been ordered by his fellow angels into a reflective state known as the Bliss. Having also grown enamored by the same darkness that inhabits human souls, he feels that Lucifer's banishment was too severe. Forever influenced by that horrific event, Hadrian vows revenge and ventures to Earth to follow him, unwittingly starting an eternal competition for the control of human and angelic souls alike. In this Angel Star novella, THE BLISS will show how the battle between dark and light truly began.

[Ways to Live Forever, Sally Nicholls](#) , 2008, 0545069491, 9780545069496. Award-winning fiction that will bring you to tears. Living through the last stages of leukemia, Sam wants to know facts. Facts about UFOs, ghosts, airships, what it feels like to kiss a girl. Sam is full of questions that nobody wants to answer, and he doesn't have much time left. In the multiple hanky tradition of classic tearjerkers, this moving and ultimately uplifting account of a boy's final months is impossible to read with a dry eye. Written as a collection of journal entries, lists, questions, and photographs, Sam's story answers one question on its own: What matters most when every minute counts?

[The Loopy Life of Lola!, Lindsey Gardiner](#) , 2004, 0192782231, 9780192782236. An irresistibly lively story about Lola, a dog who isn't content to be just a dog! Lola is a loopy, lively, lovable dog. D-O-G. Dog. We know that, but Lola has other ideas. She thinks she is anything but a dog. Lola thinks she is a proud lion, a mountain goat - even a wild wolf! And really Lola is more than a dog - she's a best friend, too.* Lindsey Gardiner is a rising star in the children's book world, best known for her lovable characters Poppy and Max, her previous picture book for OUP, If You're Happy and You Know It, has become an instant bestseller, selling over 70,000 copies worldwide in its first six months.

[Surgical Pathology Dissection: An Illustrated Guide, William H. Westra](#) , 2003, 0387955593, 9780387955599. SURGICAL PATHOLOGY DISSECTION, SECOND EDITION fills the need for a comprehensive, fully illustrated guide to the preparation, dissection, and handling of surgical pathology specimens. The authors share their wealth of talent and experiences by providing general principles that can be employed to resolve even the most complex problems in dissection and tissue sampling. The descriptive text is augmented by 62 exclusive, detailed illustrations printed as full-page plates depicting proper specimen handling techniques that add a unique vitality and multidimensional effect. Each chapter features a section on Important Issues to Address in Your Surgical Pathology Report and references selected for their pertinent coverage of specimen handling for each organ system. Updated and revised, this second edition includes four new chapters and expanded discussions on: - Preparation of Tissues for Molecular Analysis - Craniofacial Bones - Heart - Transplantation Specimens - The Sentinel Lymph Node Revisions have been made to conform to suggested guidelines proposed by the College of American Pathologists. FROM REVIEWS OF 1E: "Hruban, Westra and Isacson, working with a

superb medical illustrator did an admirable job in taking the Johns Hopkins' gross room manual and translating it into a practical, concise, and easily accessible guide to contemporary practice in the surgical pathology laboratory." -Modern Path

Along the way Harry meets a new friend and learns politeness. Keep a lookout for a little friend that follows Harry. This is the second book in the Harry series.

[The World As I See It, Albert Einstein](#) , 2007, 1585092878, 9781585092871. The most advanced and celebrated mind of the 20th Century, without a doubt, is attributed to Albert Einstein. Instead of his hard science and advanced mathematical theories, which often go far beyond the minds of average people, this book allows us to meet him as a person. This interesting book allows us to explore his beliefs, philosophical ideas, and opinions on many subjects so we can walk away afterwards knowing and understanding one of the world's greatest intellectual giants. Subjects include politics, religion, education, the meaning of life, Jewish issues, the world economy, peace and pacifism. One does not need an advanced degree in math or physics to appreciate the genius of Einstein, shared so clearly by the man himself in this book.

[Algorithmic Trading: Winning Strategies and Their Rationale, Ernie Chan](#) , 2013, 1118659554, 9781118659557. Praise for Algorithmic Trading"Algorithmic Trading is an insightful book on quantitative trading written by a seasoned practitioner. What sets this book apart from many others in the space is the emphasis on real examples as opposed to just theory. Concepts are not only described, they are brought to life with actual trading strategies, which give the reader insight into how and why each strategy was developed, how it was implemented, and even how it was coded. This book is a valuable resource for anyone looking to create their own systematic trading strategies and those involved in manager selection, where the knowledge contained in this book will lead to a more informed and nuanced conversation with managers."DAREN SMITH, CFA, CAIA, FSA, Managing Director, Manager Selection & Portfolio Construction, University of Toronto Asset Management"Using an excellent selection of mean reversion and momentum strategies, Ernie explains the rationale behind each one, shows how to test it, how to improve it, and discusses implementation issues. His book is a careful, detailed exposition of the scientific method applied to strategy development. For serious retail traders, I know of no other book that provides this range of examples and level of detail. His discussions of how regime changes affect strategies, and of risk management, are invaluable bonuses."Roger Hunter, Mathematician and Algorithmic Trader

[The Art of Managing Professional Services: Insights from Leaders of the World's Top Firms, Maureen Broderick](#) , 2011, 0137042523, 9780137042524. "High praise for Maureen Broderick.... Her book gives firm leaders a step up in competing on the global landscape."-James Turley, Chairman and CEO, Ernst & Young "Anyone involved in the management of a professional service firm will find real value here."-David Childs, Global Managing Partner, Clifford Chance "Maureen Broderick brings shape and clarity to the vital, but abstract, essence of professional service firms." -Ralph Shrader, Chairman and Chief Executive Officer, Booz Allen Hamilton "Broderick's book is filled with best practices that will help all kinds of companies-whether they are professional service firms or not-meet the challenges of doing business in the 21st century."-Ray Kotcher, Senior Partner and Chief Executive Officer, Ketchum "Every professional service partner-and aspiring partner-should read this book."-Paul Laudicina, Managing Officer and Chairman, A.T. Kearney "This comprehensive overview of best practices from the world's leading firms will resonate with leaders and managers."-Eric Friedman, Executive Partner, Skadden, Arps "The takeaways are fantastic!"-Andy Cohen, Co-CEO, Gensler "One only needs to read this book to realize that managing a professional service firm is very much an art, if not a science, worthy of its own special study and examination."-Mike Goss, Managing Director and COO, Bain Capital Building and managing a professional service firm is very different from running a product-based business. Infrastructure, governance, talent acquisition and retention, and compensation and financial management vary significantly from traditional corporate environments. Conventional management advice doesn't offer all the answers, and mainstream business gurus rarely

address the unique challenges facing professional service firm leaders. "The Art of Managing Professional Services "is one of the most comprehensive, research-based guides to firm management ever written for the industry. Based on more than 130 in-depth interviews with leaders of the world's top firms, the book offers practical, proven, best practices on how to tackle the ten critical areas that firm leaders must monitor to build and maintain a strong organization: vision, values, and culture; people; clients; services; finance; positioning; partnership; strategy; structure; and leadership style. Maureen Broderick draws on her 30 years of experience in professional services to explore both the art and science of running a high performance firm. She presents tangible processes and programs--including 40 featured best practices--that readers can tailor to their own organizations and cultures. Inside you will learn: How to create and maintain a shared vision, values, and culture Best programs to recruit, train, and retain great people Strategies to develop and manage a profitable portfolio of clients What it takes to innovate services and share knowledge The key metrics to monitor financial health Insights into effective positioning, marketing, and selling firm services Proven practices for rewarding and managing the partnership A guide to both long-term and annual strategic planning Balancing structure and governance in a consensus-driven organization Secrets for leading "incredibly smart and independent people"

[The Woman's Historical Novel: British Women Writers, 1900-2000, Diana Wallace](#) , 2008, 0230223605, 9780230223608.

In the first major study of British women writers' use of the historical novel, Diana Wallace tracks its development across the twentieth century. She combines a comprehensive survey with detailed readings of key writers, including Naomi Mitchison, Georgette Heyer, Sylvia Townsend Warner, Margaret Irwin, Jean Plaidy, Mary Renault, Philippa Gregory and Pat Barker.

[Body/Meaning/Healing, Thomas J. Csordas](#) , 2002, 0312293925, 9780312293925. Exactly where is the common ground between religion and medicine in phenomena described as "religious healing?" In what sense is the human body a cultural phenomenon and not merely a biological entity? Drawing on over twenty years of research on topics ranging from Navajo and Catholic Charismatic ritual healing to the cultural and religious implications of virtual reality in biomedical technology, *Body/Meaning/Healing* sensitively examines these questions about human experience and the meaning of being human. In recognizing the way that the meaningfulness of our existence as bodily beings is sometimes created in the encounter between suffering and the sacred, these penetrating ethnographic studies elaborate an experiential understanding of the therapeutic process, and trace the outlines of a cultural phenomenology grounded in embodiment.

[Astro Turf: The Private Life of Rocket Science, M. G. Lord](#) , 2009, 0802719376, 9780802719379. A daughter's journey to rediscover her father and understand the culture of space engineers During the late 1960s, while M. G. Lord was becoming a teenager in Southern California and her mother was dying of cancer, Lord's father-an archetypal, remote, rocket engineer- disappeared into his work at the Jet Propulsion Laboratory in Pasadena, building the space probes of the Mariner Mars 69 mission. Thirty years later, Lord found herself reporting on the JPL, triggering childhood memories and a desire to revisit her past as a way of understanding the ethos of rocket science. *Astro Turf* is the brilliant result of her journey of discovery. Remembering her pain at her father's absence, yet intrigued by what he did, Lord captures him on the page as she recalls her own youthful, eccentric fascination with science and space exploration. Into her family's saga she weaves the story of the legendary JPL- examining the complexities of its cultural history, from its start in 1936 to the

triumphant Mars landings in 2004. She illuminates its founder, Frank Malina, whose brilliance in rocketry was shadowed by a flirtation with communism, driving him from the country even as we welcomed Wernher von Braun and his Nazi colleagues. Lord's own love of science fiction becomes a lens through which she views a profound cultural shift in the male-dominated world of space. And in pursuing the cause of her father's absence she stumbles on a hidden guilt, understanding "the anguish his proud silence caused both him and me, and how rooted that silence was in the culture of engineering."

[The Wizard Knight Companion, Michael Andre-Driussi](#) , 2009, 0964279525, 9780964279520. THE WIZARD KNIGHT COMPANION is a brief alphabetical dictionary for Gene Wolfe's two-volume THE WIZARD KNIGHT series, by the author of LEXICON URTHUS. Its entries identify the characters in the novel, dive into the mysteries in the text, and explore the Norse, Celtic, and Arthurian sources for names and words in the novels. It includes a map of the region, a cosmology, and a synopsis of the narrative. Nominated for a World Fantasy Award, THE WIZARD KNIGHT has received high accolades from critics and fans. Many reviews highlight its rich use of European mythology; many also comment on its puzzles and mysteries. In a starred review, Booklist calls the series "a complex, even convoluted tale, with so many characters and subplots that a proper summary would far exceed the limits of a Booklist review. . . .there is hardly a piece of northern European heroic literature from which Wolfe doesn't borrow with his usual scholarly flair and in his exquisitely turned prose. . . . Arising from the same sources as Lord of the Rings, THE WIZARD KNIGHT is one of the few fantasies that can justly be compared with it." Kirkus Reviews mentions that "Wolfe likes to spin spiderwebs of plot and counterplot inside his impressively constructed universe." In The Washington Post, Bill Sheehan calls THE WIZARD "a satisfying, wide-ranging novel that contains enough marvels and mysteries (not all of which are resolved or explained) to populate an entire series." Marvels and mysteries, subplots and spiderwebs? If you love THE WIZARD KNIGHT and wish

to enjoy it even more, THE WIZARD KNIGHT COMPANION is your perfect guidebook. ABOUT THE AUTHOR: Michael Andre-Driussi is the author of LEXICON URTHUS: A DICTIONARY FOR THE URTH CYCLE (1994; second edition 2008). His writings on Gene Wolfe include "Gene Wolfe: The Man and His Work" (The Magazine of Fantasy & Science Fiction); and "Gene Wolfe at the Lake of Birds" (Foundation). He is also coeditor, with Alice K. Turner, of Snake's-Hands: The Fiction of John Crowley. His recent fiction includes "Old Flames in New Bottles" (ParaSpheres).

[Facing Up to the American Dream: Race, Class, and the Soul of the Nation, Jennifer L. Hochschild](#) , 1996, 1400821738, 9781400821730. The ideology of the American dream--the faith that an individual can attain success and virtue through strenuous effort--is the very soul of the American nation. According to Jennifer Hochschild, we have failed to face up to what that dream requires of our society, and yet we possess no other central belief that can save the United States from chaos. In this compassionate but frightening book, Hochschild attributes our national distress to the ways in which whites and African Americans have come to view their own and each other's opportunities. By examining the hopes and fears of whites and especially of blacks of various social classes, Hochschild demonstrates that America's only unifying vision may soon vanish in the face of racial conflict and discontent. Hochschild combines survey data and vivid anecdote to clarify several paradoxes. Since the 1960s white Americans have seen African Americans as having better and better chances to achieve the dream. At the same time middle-class blacks, by now one-third of the African American population, have become increasingly frustrated personally and anxious about the progress of their race. Most poor blacks, however, cling with astonishing strength to the notion that they and their families can succeed--despite their terrible, perhaps worsening, living conditions. Meanwhile, a tiny number of the estranged poor, who have completely given up on the American dream or any other faith, threaten the social fabric of the black community and the very lives of their fellow blacks. Hochschild probes these patterns and gives them historical depth by comparing the experience of today's African Americans to that of white ethnic immigrants at the turn of the century. She concludes by claiming that America's only alternative to the social disaster of intensified racial conflict lies in the inclusiveness, optimism, discipline, and high-mindedness of the American dream at its best.

[Asia in the Making of Europe, Volume I: The Century of Discovery., . . , Donald F. Lach](#) , 1994, 0226467325, 9780226467320. Praised for its scope and depth, Asia in the Making of Europe is the first comprehensive study of Asian influences on Western culture. For volumes I and II, the author has sifted through virtually every European reference to Asia published in the sixteenth-century; he surveys a vast array of writings describing Asian life and society, the images of Asia that emerge from those writings, and, in turn, the reflections of those images in European literature and art. This monumental achievement reveals profound and pervasive influences of Asian societies on developing Western culture; in doing so, it provides a perspective necessary for a balanced view of world history. Volume I: The Century of Discovery brings together "everything that a European could know of India, Southeast Asia, China, and Japan, from printed books, missionary reports, traders' accounts and maps" (The New York Review of Books). Volume II: A Century of Wonder examines the influence of that vast new body of information about Asia on the arts, institutions, literatures, and ideas of sixteenth-century Europe.

[Bound, Vanda Symon](#) , 2011, 0143565273, 9780143565277. A brutal home invasion shocks the nation. A man is murdered, his wife bound, gagged and left to watch. But when Detective Sam Shephard scratches the surface, the victim, a successful businessman, is not all he seems to be. And when the evidence points to two of Dunedin's most hated criminals, the case seems cut and dried... until the body count starts to rise. Meanwhile, Sam is in big trouble again... [Criminal Law, Second Edition, Charles P. Nemeth](#) , 2011, 1439861714, 9781439861714. In order to fully grasp criminal law concepts, students must go beyond mere rote memorization of the penal code and attempt to understand where the laws originate from and how they have developed. Criminal Law, Second Edition blends legal and moral reasoning in the examination of crimes and explores the history relating to jurisprudence and roots of criminal law. It fosters discussions of controversial issues and delivers abridged case law decisions that target the essence of appellate rulings. Grounded in the model penal code, making the text national in scope, this volume examines: Why the criminal codes originated, and

the moral, religious, spiritual, and human influences that led to our present system How crimes are described in the modern criminal justice model The two essential elements necessary for criminal culpability: actus reus (the act committed or omitted) and mens rea (the mind and intent of the actor) Offenses against the body resulting in death, including murder, manslaughter, felony murder, and negligent homicide Nonterminal criminal conduct against the body, including robbery, kidnapping, false imprisonment, assault, and hate crimes Sexual assault, rape, necrophilia, incest, and child molestation Property offenses, such as larceny/theft, bribery, forgery, and embezzlement Crimes against the home, including burglary, trespass, arson, and vandalism The book also examines controversial public morality issues such as prostitution, drug legalization, obscenity, and pornography. The final two chapters discuss inchoate offenses, where the criminal act has not been completed, and various criminal defenses such as legal insanity, entrapment, coercion, self-defense, and mistake of fact or law. Important keywords introduce each chapter, and discussion questions and suggested readings appear at the end of each chapter, prompting lively debate and further inquiry into a fascinating subject area that continues to evolve.

[Families, Schools, and Communities: Building Partnerships for Educating Children, Chandler Barbour, Nita H. Barbour, Patricia A. Scully](#) , 2010, 0137035462, 9780137035465. This fifth edition of Families, Schools, and Communities: Building Partnerships for Educating Children provides teachers and teacher candidates with a comprehensive guide to establishing collaboration with parents and the larger community. This text will help future teachers develop the understanding and tools they need to work with others to give children a better education. The underlying message of this book is that all persons involved in early childhood education or child advocacy should join hands in promoting the highest quality of education for young children in America. Features include: Chapter Objectives, Summaries and Questions Vignettes - real life stories/events that clarify the concepts throughout the chapters. Reflections - these reflections ask the reader to pause and connect some particular content to their own life experiences. Implications for Teachers - new feature that provides connections between the ideas in the text and real life application in classrooms and schools. Bibliography of Children's Literature New to This Edition: The authors have added features and rearranged the topics to give this text better coherence and greater usability. Readers will find we have updated references and resources throughout but have streamlined the research citations to provide for smoother reading. We removed the chapter on school curriculum but included suitable parts of that in other chapters. We have renamed some chapters to reflect changes in content, and we have grouped References by each chapter. New Figures and Tables throughout the chapters update data on demographics of American families and communities. New vignettes and illustrations to help readers understand the uniqueness of family life and the diversity in our country. "Implications for Teachers:..." featured in each chapter give readers practical suggestions for trying out the ideas in the real world. The Special Needs area is addressed more intensely by showing readers how to work with families of children with disabilities. Family Systems Theory is highlighted

to show the importance of understanding total family functioning in addition to the differences of individuals. Protecting children has a higher profile. Authors include more information on the growing problems and concerns about obesity, bullying, substance and sexual abuse and help readers fit these concerns into the role of education. Media pluses and minuses are highlighted in our chapters so readers understand when the benefits of expanded media opportunities can shift to exploitation and abuse.

For those who face loss or suffering too painful for human words to satisfy these daily reflections offer hope encouragement support and inspiration from the NIV Encouragement Bible. Forged in the crucible of their own personal suffering and loss the authors take their readers through nearly every book of the Biblemdash;Genesis to Revelationmdash;showing how God longs to comfort and guide us in the midst of our present trials and loss.

[Queer Dickens: Erotics, Families, Masculinities, Holly Furneaux](#) , 2009, 0191609927, 9780191609923. This book offers a radically new reading of Dickens and his major works. It demonstrates that, rather than representing a largely conventional, conservative view of sexuality and gender, he presents a distinctly queer corpus, everywhere fascinated by the diversity of gender roles, the expandability of notions of the family, and the complex multiplicity of sexual desire. The

book examines the long overlooked figures of bachelor fathers, maritally resistant men, and male nurses. It explores Dickens's attention to a longing, not to reproduce, but to nurture, his interest in healing touch, and his articulation, over the course of his career, of homoerotic desire. Holly Furneaux places Dickens's writing in a broad literary and social context, alongside authors including Bulwer-Lytton, Tennyson, Braddon, Collins, and Whitman, to make a case for Dickens's central position in queer literary history. Examining novels, poetry, life-writing, journalism, and legal and political debates, *Queer Dickens* argues that this eminent Victorian can direct us to the ways in which his culture could, and did, comfortably accommodate homoeroticism and families of choice. Further, it contends that Dickens's portrayals of nurturing masculinity and his concern with touch and affect between men challenge what we have been used to thinking about Victorian ideals of maleness. *Queer Dickens* intervenes in current debates about the Victorians (neither so punitive nor so prudish as we once imagined) and about the methodologies of the histories of the family and of sexuality. It makes the case for a more optimistic, nurturing, and life-affirming trajectory in queer theory.

[Archipelago: A Novel](#), Monique Roffey , 2013, 0143122568, 9780143122562. A mesmerizing tale of a father and daughters sailing adventure from Trinidad to the Galapagos Islands, winner of the 2013 OCM Bocas Prize for Caribbean Literature and finalist for the 2014 Orion Book Award Monique Roffey, vibrant new voice in Caribbean fiction and author of the Orange Prize finalist *The White Woman on the Green Bicycle*, returns with *Archipelago*, a new novel that is a journey of redemption, healing, and hope in the wake of devastating loss. When a flood destroys Gavin Wealds home in Trinidad and rips his family apart, life as he knows it will never be the same. A year later he returns to his house and tries to start over, but when the rainy season arrives, his daughters nightmares about the torrents make life there unbearable. So father and daughter and their dog embark upon a voyage to make peace with the waters. Their journey takes them far from their Caribbean island home, as they sail through archipelagos, encounter the grandeur of the sea, and meet with the challenges and surprises of the natural world.

[Industrial Sublime: Modernism and the Transformation of New York's Rivers, 1900-1940](#), Bartholomew F. Bland, Kirsten M. Jensen , 2013, 0943651441, 9780943651446. It was not until the first decade of the twentieth century, as artists like Robert Henri and John Sloan turned their attention to the urban scene, that American art shifted its focus from bucolic landscapes to the cities, the towns, the crowds, especially the raucous urban scene of Manhattan--by then the nation's most important metropolis. This movement away from painting the land to painting the life on the street is often seen as a clean break with the depiction of the landscape, and with landscape painting generally as a mainstay of American art in

the face of European Modernism. However, artists continued to paint the Hudson River, as well as its tributaries, the Harlem and East rivers, and the great harbor of New York City into which they flowed. What was different was their approach. Having jettisoned the romantic ideals of their forebears, artists like Henri and Sloan, and later, Georgia O'Keeffe, George Ault, Edward Hopper, and Preston Dickinson, celebrated the changing way of life along the city's waterfront. As the century progressed, they did so with sharper focus and with ideals borrowed from the Machine Age. Instead of majestic mountain ranges, their subjects were the arching bridges, swinging cranes, and streamlined ocean liners resting in the harbor. These artists took the elements of the Sublime, combined them with Modernism's interest in structure and form, and applied them to the manmade industrial one--thereby creating a new visual vocabulary for the twentieth century: the Industrial Sublime. Industrial Sublime takes as its focus this shift in both style and sensibility during the years 1900-1940, and explores the development of a new mode of landscape painting and pictorial ideals suited to America's role as a global industrial power. Co-published with the Hudson River Museum, Yonkers. The exhibition Industrial Sublime: Modernism and the Transformation of New York's Rivers, 1900-1940 runs from October 12, 2013, through January 17, 2014. Visit www.hrm.org for more information.

[The Newspaper Reader: Reading, Writing and Thinking about Today's Events, Seth Frechie, Harold William Halbert, Charles William McCormick](#) , 2004, 0131836498, 9780131836495. This book allows readers to bring newspapers into their everyday lives by promoting the idea that newspapers give us the opportunity to perceive ourselves as intrinsically involved in local, national, and global discussions. The only book of its kind on the market today, it provides a base for the development of critical thinking, reading, and writing skills as it shows ways in which we can reference newspaper articles as we work through new ideas and problems we encounter. This reader contains timely and interesting selections, and its organization mirrors that of any typical newspaper. Selections are divided into a News section, a Business section, a Discovery section, a Sports section, and a Life section. Each storyline presented includes a sample of an editorial, a report, and a feature article. Storylines include: the Jessica Smart case; the USA Patriot Act; Jayson Blair and The New York Times; Amazon.com; lotteries; fast food; the Space Shuttle disaster; cyberspace; cloning; Michael Jordan; Nancy Kerrigan and Tonya Harding; The US Olympic Hockey Team and the Gold Medal; fashion and fads; diet; and the 9/11 attacks. An excellent and exciting book that provides an excellent tutorial on how to read a newspaper for maximum effect and benefit. Will provide special insight for ESL students and others learning about newspapers and article-writing.

[Desirada: A Novel, Maryse Cond, Richard Philcox](#) , 2000, 1569472157, 9781569472156. Ranelise is a cook in the small village of La Pointe in Guadeloupe, where she rescues a teenage girl from suicide by drowning. The girl, Reynalda Titane, lives at the local jeweler's grand house, where her mother, Nina, is a maid. Reynalda is pregnant and in a state of despair. Ranelise cares for her and the child, christened Marie-Noelle, but Reynalda soon flees to France, intent upon getting the education that will allow her to rise above her mother's fate. Desirada is the story of Marie-Noelle and her quest to understand the mother who abandoned her and to discover the identity of her father. It is also the story of generations of island women and the pursuit of a meaningful life despite a tainted personal history. Desirada was awarded the prestigious Prix Carbet de la Caraibe in 1998, given for the best book by a Caribbean author. It is Maryse Conde's twelfth novel.

[Advanced Teaching Methods for the Technology Classroom, Stephen Petrina](#) , 2007, 1599043394, 9781599043395.

Because of the nature of their subject, technology teachers have found ways to make learning active and exciting, often through new activities and projects that have real-world relevance. As technology fields grow, the success of technology teachers is tied in with innovation rather than the accomplishments of the past. Advanced Teaching Methods for the Technology Classroom provides a comprehensive, critical approach to meeting the new challenges of technology in the classroom. This book gathers together research on technology methods, principles, and content, and acts as a reference source for proven and innovative methods. Advanced Teaching Methods for the Technology Classroom presents an introduction to teaching educational technology, design, and engineering. It also contains strategies for innovation by examining the what, why, and how of technology education.
