[Love and Death in Medieval French and Occitan Courtly Literature:Martyrs to Love: Martyrs to Love, Simon Gaunt](#) , 2006, 0199272077, 9780199272075. Some of medieval culture's most arresting images and stories inextricably associate love and death. Thus the troubadour Jaufre Rudel dies in the arms of the countess of Tripoli, having loved her from afar without ever having seen her. Or in Marie de France's Chevrefoil, Tristan and Iseult's fatal love is hauntingly symbolized by the fatally entwined honeysuckle and hazel. And who could forget the ethereal spectacle of the Damoisele of Escalot's body carried to Camelot on a supernatural funerary boat with a letter on her breast explaining how her unrequited love for Lancelot killed her? Medieval literature is fascinated with the idea that love may be a fatal affliction. Indeed, it is frequently suggested that true love requires sacrifice, that you must be ready to die for, from, and in love. Love, in other words, is represented, sometimes explicitly, as a form of martyrdom, a notion that is repeatedly reinforced by courtly literature's borrowing of religious vocabulary and imagery. The paradigm of the martyr to love has of course remained compelling in the early modern and modern period. This book seeks to explore what is at stake in medieval literature's preoccupation with love's martyrdom. Informed by modern theoretical approaches, particularly Lacanian psychoanalysis and Jacques Derrida's work on ethics, it offers new readings of a wide range of French and Occitan courtly texts from the twelfth and thirteenth centuries, and argues that a new secular ethics of desire emerges from courtly literature because of its fascination with death. This book also examines the interplay between lyric and romance in courtly literary culture and shows how courtly literature's predilection for sacrificial desire imposes a repressive sex-gender system that may then be subverted by fictional women and queers who either fail to die on cue, or who die in troublesome and disruptive ways.

[A Time to Lie, D. W. Hardin](#) , 2012, 0984917918, 9780984917914. In a life or death situation, a police officer has milliseconds to make a decision that will affect the rest of his life. The flash of a gun forces Officer John Drake to make such a decision. Not only is the suspect killed, but a fellow officer is mortally wounded. Before the internal investigation can ramp up into high gear, the "Monday morning quarterbacking" starts from the press. Was the officer accidentally killed by Drake? Should he be charged with killing another officer? Politics skew the investigation and damn Drake, forcing him to take unorthodox action. The realistic fast-paced scenario follows what an officer experiences when lethal force is used.

[The Doctor Stories, William Carlos Williams](#) , 1984, 081122015X, 9780811220156. Not only for students and doctors, this volume contains Williams's thirteen "doctor stories," several of his most famous poems on medical matters, and "The Practice" from The Autobiography. These writings, together with Dr. Robert Coles's enthusiastic appraisal of teaching Williams and Dr. William Eric Williams's personal and touching filial account, "My Father, the Doctor," make up an intriguing and timely study of the poet as a physician of rare humanity and self-knowledge. As Coles suggests, Dr. Williams's writing can help many others take a knowing look at the medical profession.

[Documents of the Christian Church, Henry Bettenson](#) , 1999, 0191606707, 9780191606700. 'That invaluable Christian reference book.' Church Times `Covering the whole range of Christian thought, it is specially valuable to the young student.' Church Quarterly Review This selection of writings from the most important moments in the history of Christianity has become established as a classic work. Now incorporating a wealth of new material, this new edition will be an essential reference source for anyone interested in the Christian Church. While retaining the original material selected by Henry Bettenson, Chris Maunder has added a substantial section of more recent writings. These illustrate the Second Vatican Council; the theologies of liberation; Church and State from 'Thatcher's Britain' to Communist Eastern Europe; Black, feminist, and ecological theology; ecumenism; and inner-faith dialogue. The emphasis on moral debate in the contemporary Churches is reflected in selections dealing with, for example, homosexuality, divorce, AIDS, and in-vitro fertilization. Documents of the Christian Church thus provides insights into the whole 2000 years of Christian theological and political debate.

[Gaelic Football's Top 20, Colm Keane](#) , 2003, 1840187123, 9781840187120. For the first time ever, 20 of the greatest legends in Gaelic football history are exclusively profiled in this star-studded companion to the RTE radio series, GAELIC FOOTBALL'S TOP 20. Among the interviewees are Kerry legend Mick O'Connell and Galway's Sean Purcell, who vividly recount football's golden age in the 1950s and 60s, while Sean O'Neill describes Down's historic breakthrough in 1960. The great Kerry teams of the '70s and '80s are also represented by stars including Pat Spillane, Mikey Sheehy, Jack O'Shea, John Egan and Eoin Liston, while Dublin's Jimmy Keaveney and Brian Mullins assess their most memorable battles with the Kerry giants. Elsewhere in the book, Larry Tompkins and Billy Morgan revisit Cork's matches with Meath in the late '80s and early '90s, Meath's Colm O'Rourke and Martin O'Connell offer their views of the contests and Offaly

are represented by Matt Connor. Donegal's Martin McHugh and Derry's Anthony Tohill recall their breakthroughs, unlike Mayo's Willie Joe Padden and Sligo's Mickey Kearins, who instead describe the pain of their counties' near misses. On a different note, Enda Colleran remembers Galway's famous three in a row in the '60s. GAELIC FOOTBALL'S TOP 20 is crammed with anecdotes of the great contests and controversies that have dominated Gaelic football in the last half a century. Offering rare insights and behind-the-scenes analysis, it is essential reading for all fans of Ireland's most popular sport.

[Mistake and Non-Disclosure of Fact: Models for English Contract Law, Hugh Beale QC FBA](#) , 2012, 019164191X, 9780191641916. In this book Hugh Beale examines the case for reforming the law on mistake and non-disclosure of fact to bring English law closer to the law in much of continental Europe. There, and in common law countries like the US, a party may avoid a contract for mistake of fact on a more liberal basis, and a party who deliberately keeps silent knowing that the other party is making a mistake may be guilty of fraud. This is not necessarily the case in England and Wales. Developing a proposal for law reform, the author concedes that the English courts require a law that puts great emphasis on certainty and expects parties to look out for their own interests; but posits that this individualistic approach is not suitable for smaller businesses which are less sophisticated and which are likely to be making low value contracts, so that relative cost of taking advice will be high. He argues that the solution may not be to reform English contract law generally, but to support the development of an optional instrument on contract law, along the lines of the Common European Sales Law recently proposed by the European Commission. This measure is aimed specifically at the needs of small and medium enterprises, and contains the protective rules found in the other jurisdictions. It is aimed primarily at cross-border sales, but Member States would be given the option of adopting it for domestic transactions too. This would give small businesses the choice of using the current "hard-nosed" law or adopting the more protective optional instrument, recognizing that different parties require different things from the law governing their contract.

[Fluid Power Technology, Robert P. Kokernak](#) , 1999, 013912487X, 9780139124877. Ideal for use in industrial training seminars, this well-illustrated and exceptionally lucid guide to fluid power technology strikes just the right balance between theory and application, providing both conceptual and practical information needed by today's technicians and technologists to succeed in the field. Emphasizes the inherent simplicity of fluid power systems and their underlying principles of operation and develops each topic logically, with careful attention to fine details. First shows 'how' and 'why' fluid behaves in a particular manner; next, makes abstract concepts concrete by demonstrating how this behavior is evidenced in situations already familiar to readers, then; extends concepts to new conditions and applications. Offers an adaptable approach to mathematics, making readers at ease no matter what their skill level. Offers many useful learning tools, including safety sidebars, suggested activities (over 60% new to this edition) exercises and problems (30% new), and end-of-chapter questions (many new). Now adds a section on 'Using Computers' to its introductory chapter.

[The Forbidden Books of the New Testament](#), 2009, 1595948163, 9781595948168. A translation of many of the forbidden books of the Bible banned by the Council of Nicene, including the Gospels of the Infancy of Jesus, translated and published by William Wake, Archbishop of Canterbury 1716-1737. Less than a century before, William Tyndale had been executed by the church for daring to translate the Bible into English. Wake believed that many, if not most, of these passages were historically accurate, even those showing the young Jesus in a less than sympathetic light. Some of the information contained herein may have been used as source material by proponents of the Da Vinci Code and other Templar-based legends. Well formatted and reset from earlier versions, with notes and references from the translator, this book is easy to read and makes a great addition to any library of the historical and non-canonical works of Christianity. From The Forbidden Books of the New Testament: The suppressed gospels and epistles of the original New Testament of Jesus the Christ and other portions of the ancient holy scriptures. Now extant, attributed to His apostles, and their disciples, and venerated by the primitive Christian churches during the first four centuries, but since, after violent disputations forbidden by the bishops of the Nicene Council, in the reign of the Emperor Constantine and omitted from the Catholics and Protestant editions of the New Testament, by its compilers translated from the original tongues, with historical references to their authenticity, by Archbishop Wake and other learned divines.

We've talked to tons of POA instructors and our editors have even taken the accounting course (numerous times!) to figure out the following issue in this course that is consistent: Students understand (or "Get It") right after you do a problem in class, but as soon as they leave class, with each passing hour, their ability to do the problems again and complete their homework diminishes to the point of them either having to come to office hours to get help, or they just quit and get behind in the course. On top of this, you can end up in you getting behind in the course, as well, in order to keep everyone on track. The Horngren system helps to recreate the "I Get It" moments outside of class keeping you and the students on track.

[The Service-books of the Royal Abbey of Saint-Denis: Images of Ritual and Music in the Middle Ages, Anne Walters Robertson](#) , 1991, 0193152541, 9780193152540. The Royal Abbey of Saint-Denis was founded in honour of Dionysius, one of seven missionaries sent from Rome to Gaul around 250. It grew to be one of the most powerful monasteries in western Christendom and enjoyed a central position in French history as the first Gothic abbey, royal necropolis, and place of origin of the chronicles of the kings. This is a study of the music and ritual at Saint-Denis from the sixth to the sixteenth century. It is based on an examination of the liturgical books and archival sources relating to the abbey, in particular the surviving service-books, which tell us much about the history of the music and of the Divine Office at Saint-Denis. Anne Robertson also looks at the tropes and sequences proper to the office for Saint-Denis, provides information on the performance practices, instruments, musicians, and liturgists from the abbey, and offers an account of the history of the liturgy from the Council of Tours in 567 to the pillage of the abbey by the Huguenots in 1567, thus explicating the extant liturgical codices from Saint-Denis. For the author the ritual and history of the abbey is also inextricably linked to the reconstruction of its various buildings, the decorations of the church, even the monks' ambitions. This is a fascinating and wide-ranging study of this extraordinary institution.

When the Primus family was invited to a local church Linvoy's fortunes were to be changed in a remarkable way when he decided to commit to Christianity. This book tells the story of how he believes his faith in God transformed his life and performances such that he played a key role in Portsmouth's triumphant ascent to the top level of the English game and went on to become a top Premiership footballer, scooping a host of awards from the fans. At a time when the quintessential footballer is feted with money and fame and portrayed as arrogant, dishonest and pampered Linvoy's story provides the perfect antidote. This is a the compelling story of Linvoy's own remarkable conversion and life as a Christian in the Premiership, together with the inside story of Portsmouth's parallel transformation to become one of the top ten teams in the country.

In Pantheism, this concept is presented as a legitimate position and its philosophical basis is examined. Michael Levine compares it to theism, and discusses the scope for resolving the problems inherent in theism through pantheism. He also considers the implications of pantheism in terms of practice. This book will appeal to those who study philosophy or theology. It will also be of interest to anyone who does not believe in a personal God, but does have faith in a higher unifying force, and is interested in the justification of this as a legitimate system of thought.

Jacob Neusner outlines and examines the four stages in which the initial period of the historical development of Rabbinic Judaism divides, beginning with the Pentateuch and ending with its definitive and normative statement in the Talmud of Babylonia. He traces the development of Rabbinic Judaism by exploring the relationships between and among the cognate writings which embody its formative history.

[Overcoming Multiple Sclerosis: An Evidence-based Guide to Recovery, George Jelinek, Professor George Jelinek](#) , 2010, 174176954X, 9781741769548. 'As a physician and the spouse of someone with multiple sclerosis I feel that this book contains much wisdom and guidance for achieving one's greatest potential for healing when confronted by the reality of this disease.' - Bernie Siegel MD, author of Faith, Hope and Healing and 365 Prescriptions for Living 'This is the most exciting book I have read in some time. Everyone affected by MS, either directly or indirectly, needs to read it.' - Ian Gawler OAM, author of You Can Conquer Cancer and Peace of Mind Overcoming Multiple Sclerosis offers real hope for people with multiple sclerosis. Multiple sclerosis (MS) is a serious, progressively disabling neurological condition for which current medical treatment is not particularly effective and has many side effects. Professor George Jelinek, an experienced medical clinician and researcher, provides a genuine alternative. Through an exhaustive, evidence-based analysis of medical research, Professor Jelinek reached the surprising conclusion that MS is a disease largely determined by lifestyle factors. He has demonstrated that people with MS who modify their diet, exercise habits, and other aspects of lifestyle can stabilise the illness, and potentially recover. Professor Jelinek's experience with his mother's death from MS, and his own diagnosis in 1999, lend an urgency and compassion to this meticulous work. Professor Jelinek's recommendations will change the lives of thousands of people with MS and support their loved ones.

[Justice: A Novel of the NYPD, Dan Mahoney](#) , 2007, 1429977299, 9781429977296. New York City. A wealthy businessman meets a violent fate in his elegant, carefully-secured home in Queens. Two drug dealers are murdered in a Brooklyn no-tell motel room. Several men are found riddled with bullets and nails on a little-traveled road beneath FDR Drive. And soon thereafter, a church, a synagogue, and a mosque find bags of cash waiting at their doorsteps-all from a vigilante who signs himself "Justice." NYPD Detective First Grade Brian McKenna and his partner, Cisco Sanchez (the self-described world's greatest detective), are assigned to find the elusive killer that all of New York City is rooting for, a man of supreme technical skills, physical power, and intelligence, who always seems to know every move the police will make before they make it. Justice is executing drug dealers, helping the police close unsolved cases, providing those in need with stolen drug money, and creating a nightmare for the police commissioner, the mayor, and the two detectives. As McKenna and Sanchez work to try and outsmart the vigilante and discover his next victim, they also must find out who is helping Justice in his quest for revenge. Justice showcases fascinating investigative detail, wild action, and Dan Mahoney's trademark humor in a terrific police thriller.

[When Stars Align, Carole Eglash-Kosoff](#) , 2011, 1456738887, 9781456738884. The love that Thaddeus and Amy feel for one another can get them both killed. He is colored, an ex-slave, and she is white. In 19th century Louisiana mixed race

relationships are both illegal and unacceptable. Moss Grove, a large Mississippi River cotton plantation has thrived from the use of slave labor while its owners lived lives of comfort and privilege. Thaddeus, born more than a decade earlier from the rape of a young field slave by the heir to the plantation, is raised as a Moss Grove house servant. His presence remains a thorn in the side of the man who sired him. Deepening divisiveness between North and South launches the Civil War and changes Moss Grove in ways no one could have anticipated. With the war swirling we see the battles and carnage through Thaddeus' eyes. The war ends and he returns to Moss Grove and to Amy, hoping to enjoy their newly won freedoms. With the help of Union soldiers, schools are established to educate those who were formerly prohibited from learning to read. Medical clinics are opened and businesses begun. Black legislators are elected and help to pass new laws. Hope flourishes. Perhaps the stars will now finally align for the young lovers. In 1876, however, the ex-Confederate states barter the selection of President Rutherford B. Hayes for removal of all Union troops from their soil in the most contested election in American history. Within a decade hopes are dashed as Jim Crow laws are passed, the Ku Klux Klan launches new violence, and black progress is crushed. "When Stars Align" is a soaring novel of memorable white, Negro and colored men and women set against actual historic events.

[Constructing Quality: The Classification of Goods in Markets, Jens Beckert, Christine Musselin](#) , 2013, 0199677573, 9780199677573. How can we engage in a market relationship when the quality of the goods we want to acquire is unknown, invisible, or uncertain? For market exchange to be possible, purchasers and suppliers of goods must be able to assess the quality of a product in relation to other products. Only by recognizing qualities and perceiving quality differences can purchasers make non-random choices, and price differences between goods be justified. "Quality" is not a natural given, but the outcome of a social process in which products become seen as possessing certain traits, and occupying a specific position in relation to other products in the product space. While we normally take the quality of goods for granted, quality at a closer look is the outcome of a highly complex process of construction involving producers, consumers, and market intermediaries engaged in judgment, evaluation, categorization, and measurement. The authors in this volume investigate the processes through which the quality of goods is established. They also investigate how product qualities are contested and how they change over time. The empirical cases discussed cover a broad range of markets in which quality is especially difficult to assess. The cases include: halal food, funeral markets, wine, labor, school choice, financial products, antiques, and counterfeit goods. The book contributes to the sociology of markets. At the same time it connects to the larger issue of the constitution of social order through cognitive processes of classification.

[Telling the Stories of Life Through Guided Autobiography Groups, James E. Birren, Kathryn N. Cochran](#) , 2001, 0801866332, 9780801866333. Telling the Stories of Life through Guided Autobiography Groups, based on James Birren's 25 years of conducting autobiography groups, discusses all the topics an organizer faces while developing a program for adults who want to recall and write down their life histories. This book is ideal for adult education programs, church groups, social workers, psychologists, gerontologists, and others who work with adults who might be interested in exploring, recording, or sharing their personal histories. It helps professionals and trained workshop leaders at community centers, senior centers, schools and other settings guide group participants in exploring major themes of their lives so that they can organize and write their stories and share them in a group with others on the same journey. This exercise is rewarding for adults of any age in a period of transition or with interest in gaining insight from their own stories. Personal development and a feeling of connection to other participants and their stories is a natural outcome of this process. This book provides background material and detailed lesson plans for those who wish to develop and lead an autobiography group. The authors explain the concept of guided autobiography, discuss the benefits to the group participants, and provide logistical information on how to plan, organize, and set up a group. An appendix provides exercises, handouts, and suggested adaptations for specific groups. The book also explains a systematic method of priming memories, including the history of family and of one's life work, the role of money, health and the body, and ideas about death. At a time when rapid change has created a widespread yearning to write down and exchange personal accounts, sharing life stories can reveal a great deal about how we have come to be the persons we are. Telling the Stories of Life through Guided Autobiography Groups shows how to organize, record, and share life experiences through a proven and effective technique.

Flamboyant, theatrical and ambitious, Margaret Cavendish was one of the seventeenth century's most striking figures: a woman who ventured into the male spheres of politics, science, philosophy and literature. *The Blazing World* is a highly original work: part Utopian fiction, part feminist text, it tells of a lady shipwrecked on the Blazing World where she is made Empress and uses her power to ensure that it is free of war, religious division and unfair sexual discrimination. This volume also includes *The Contract*, a romance in which love and law work harmoniously together, and *Assaulted and Pursued Chastity*, which explores the power and freedom a woman can achieve in the disguise of a man.

[The Oxford Book of Essays, John Gross](#) , 1992, 019282970X, 9780192829702. When Montaigne developed the essay in the sixteenth century, he could not have imagined the power and longevity of his creation. "He did not set up for a philosopher, wit, orator, or moralist," wrote Hazlitt, "but he became all these by merely daring to tell us whatever passed through his mind." Ever since, writers have seized upon his example, and for over four hundred years we have encountered astonishing insights and breathtaking language by following what has passed through their minds, as recounted in the essay. And now some of the finest essays of all time have been gathered together by John Gross, former editor of *The New York Times Book Review*, in an outstanding new anthology. Ranging from the early 1600s through the 1980s, this sweeping collection includes 140 essays by 120 of the finest writers in the history of the English language. John Gross has collected classics and rare gems, representative samples and personal favorites, intimate essays and learned, serious reflections and hysterically funny satire, by both British and American writers. Here is Evelyn Waugh, providing tips on how to move in Well-Informed Circles ("Attribute all facts of common knowledge to personal information; for instance, do not say, 'What a wet week it has been,' but, 'They tell me at Greenwich they have registered the highest rainfall for six weeks'"); Ralph Waldo Emerson on conservatism and innovation; Ambrose Bierce on "the horror of the characteristic American custom of promiscuous, unsought, and unauthorized introductions"; Oscar Wilde on the critic as artist ("It is only about things that do not interest one that one can give a really unbiased opinion, which is no doubt the reason why an unbiased opinion is always absolutely valueless"); Rose Macaulay on dinner parties;

and James Baldwin, musing about what a remote Swiss village tells him about race in the wider world ("Joyce is right about history being a nightmare--but it may be the nightmare from which no one can awaken. People are trapped in history, and history is trapped in them."). The authors Gross has gathered form a gallery of genius, all indispensable masters of rhetoric, from Samuel Butler to Samuel Johnson, from John Dryden to Ben Franklin, from Geoge Eliot to George Bernard Shaw, from E.B. White to Joan Didion. Including book reviews and travel sketches, history lessons and meditations, reflections on art and on potato chips, these essays sample four centuries of eloquence and insight in a collection that is at once immensely enlightening, edifying, and entertaining.

[ICPC-2: International Classification of Primary Care,](#) , 1998, 019262802X, 9780192628022. Until the mid 1970s, most morbidity data collected in primary care research was classified using the International Classification of Diseases (ICD). This had the advantage of international recognition, aiding comparability of data from different countries. However, many symptoms and non-diseases conditions that present in primary care were difficult to code with this classification, originally designed for application to mortality statistics and with a disease-based structure. Recognizing the problem, WONCA designed the International Classification of Health Problems in Primary Care (ICHPPC) - however, this was still seen as too closely related to the ICD. A new classification was needed that encompassed both the patient's reason for encounter and the patient's problem. It was also recognized that the building of appropriate primary care systems to allow the assessment and implementation of health care priorities is only possible if the right information is available to health care planners - and this has led to the available to health care planners - and this has led to the development of a new classification system - namely, International Classification of Primary Care (ICPC). ICPC includes reasons for

encounter classifications and thus is a patient- oriented rather than disease- or provider-oriented approach. Since the first edition of the International Classification of Primary Care was published, there have been extensive trials, particularly in Europe, and this second edition includes the lessons learnt from this testing, a detailed conversion system for linking the ICPC and ICD-10 codes published by the WHO, additional inclusion criteria, and cross-referencing to rubrics. This new edition has been carefully mapped to the ICD-10 codes and this has led to recognition that the two classifications are complementary rather than competing. Both WONCA and WHO are to jointly sponsor this new edition.

[Understanding History: Recent Research in History Education, Rosalyn Ashby, Peter Gordon, Peter Lee](#) , 2005, 071300245X, 9780713002454. What sense do children and young people make of history? How do they cope with competing historical accounts in textbooks? How do they think historical or archaeological claims are supported or rejected? And whatever students think about history, how do their teachers see history education? The contributors to this fourth volume of the International Review of History Education discuss these questions in the context of their research. Divided into two sections, the first part of the book examines students' ideas about the discipline of history and the knowledge it produces. The second part looks in detail at teachers' own ideas about teaching. Featuring contributions from authors throughout the world, including the USA, Canada, Portugal, Brazil, Taiwan and the UK, the book provides interesting studies of how history is both taught and received in these different countries. Understanding History contributes to current knowledge of successful teaching: that teachers must take into account students' preconceptions that they bring to the classroom as well as accepting the complexity and importance of their own professional knowledge. The book will be of interest to anyone studying or researching history education as well as teachers of history throughout the world.

[Communion Town: A City in Ten Chapters, Sam Thompson](#) , 2013, 1620401673, 9781620401675. Longlisted for the Man Booker Prize 2012, Thompson is a new writer working out what he can do, and realizing that he can do anything (The Telegraph). Each of us conjures our own city, one of many incarnations; a place throbbing with so many layers, meanings, and hidden corners cannot be the same for any two citizens. Communion Town calls to mind David Mitchell's Ghostwritten, Italo Calvino's Invisible Cities, and China Miéville's The City & The City, but is uniquely its own. This

incandescent novel maps an imaginary city and explores the lives of its outcasts and scapegoats. Each chapter is told from the perspective of a different citizen defining the city itself as a character, both protagonist and antagonist and each is told in a different genre, from a hardboiled detective story to steampunk to gothic horror, displaying the great range of Sam Thompson's literary ability. As the novel unfolds in different neighborhoods, we encounter a lovelorn folksinger, a repressed detective, a slaughterhouse worker, a lost tourist, a bon vivant, and a ghost. From their lonely voices we gather the many-faceted story of the city: a place imagined differently by each citizen as he or she searches for connection, transformation, or escape.

[Coalescent Argumentation, Michael A. Gilbert](#) , 1997, 0805825207, 9780805825206. Coalescent Argumentation is based on the concept that arguments can function from agreement, rather than disagreement. To prove this idea, Gilbert first discusses how several components--emotional, visceral (physical) and kisceral (intuitive) are utilized in an argumentative setting by people everyday. These components, also characterized as "modes," are vital to argumentative communication because they affect both the argument and the resulting outcome. In addition to the components/modes, this book also stresses the goals in argumentation as a means for understanding one's own and one's opposer's positions. Gilbert argues that by viewing positions as complex human events involving a variety of communicative modes, we are better able to find commonalities across positions, and, therefore, move from conflict to resolution. By focusing on agreement and shared goals in all modes, arguers can coalesce diverse positions and more easily distinguish between minor or unrelated differences and core disagreements. This permits much greater latitude for locating shared beliefs, values, and attitudes that will lead to conflict resolution.

[Expat Women: Confessions - 50 Answers to Your Real-Life Questions about Living Abroad, Andrea Martins, Victoria](#)

[Hepworth](#) , 2011, 0980823609, 9780980823608. If you have ever wondered what it is like to live abroad, work abroad or accompany your working partner abroad, this book is for you. If you are already living the expat life but have mixed emotions about settling in, rebuilding your identity, relationship changes, successfully managing your money and career, raising children far from home or repatriating, this book is also for you. In *Expat Women: Confessions - 50 Answers to Your Real-Life Questions about Living Abroad*, experienced expats Andrea Martins and Victoria Hepworth share a wealth of wisdom and positive tips to motivate you at every stage of your expat journey. They cover popular topics like leaving family back home, transitioning quickly, intercultural relationships, parenting bilingual children and work-life balance. They also address more difficult issues such as expat infidelity, divorce, alcoholism and reverse culture shock. This unique book is the perfect addition to every expat bookshelf. "A must for anyone who is, has been or will be an expat!" Peggy Love, GMS, CERP, President, FIGT (Families in Global Transition)"A terrific book! Real-life examples of the challenges expat women face, with insightful and practical advice, this should be on the must-read list for anyone involved with expatriate administration." Andrea David, Head of Global Mobility, Bloomberg LP"What a great book! For the first time, a real-life manual that will reassure every expat woman that she is not alone in her unspoken feelings and questions. I loved it!"Ruth E. Van Reken, Co-author of *Third Culture Kids: Growing Up Among Worlds*"This book is a great resource for all expat women."Leslie Brant Teixeira, Director, U.S. Department of State Family Liaison Office *Expat Women: Confessions* is a wonderful addition to the literature on the experiences of women during their lives abroad. Andrea and Victoria answer difficult questions with empathy, an upbeat attitude, and wisdom. This is a book that every expat woman should keep at her bedside for the moments that inevitably surface when abroad and even after repatriation. [The Elusive God: Reorienting Religious Epistemology, Paul K. Moser](#) , 2008, 113947121X, 9781139471213. Three questions motivate this book's account of evidence for the existence of God. First, if God's existence is hidden, why suppose He exists at all? Second, if God exists, why is He hidden, particularly if God seeks to communicate with people? Third, what are the implications of divine hiddenness for philosophy, theology, and religion's supposed knowledge of God? This book answers these questions using a new account of evidence and knowledge of divine reality that challenges scepticism about God's existence. The central thesis is that we should expect evidence of divine reality to be purposively available to humans, that is, available only in a manner suitable to divine purposes in self-revelation. This lesson generates a seismic shift in our understanding of evidence and knowledge of divine reality. The result is a much-needed

reorienting of religious epistemology to accommodate the character and purposes of an authoritative, perfectly loving God.

[Gods in Granite: The Art of the White Mountains of New Hampshire, Robert L. McGrath](#) , 2001, 081560663X, 9780815606635. Robert L. McGrath surveys -- often at an exhilarating pace -- the topographic and metaphoric landscape of New Hampshire's White Mountains through the artistic and tourist life of the region as it appears in paintings and illustrations. Extending from the late eighteenth to the late twentieth century, he includes by far the most extensive collection of pictorial works relating to the White Mountains to date. Although the scenic beauty of the White Mountains attracted many of America's most significant artists during the nineteenth and twentieth centuries, such as Thomas Cole,

Frank Stella, Winslow Homer, Fernand Leger, John Marin, and Marsden Hartley, no comprehensive account of this region's rich contribution to the history of American art has ever been published. Written in a vital, concise prose style, full of fresh insights, comparisons and juxtapositions, this study promises to command and hold the attention of anyone with an interest in the interplay of art, nature, and American culture.

Finally, a book that transforms the human experience! In this book, you'll discover how ordinary people overcame life's greatest challenges, and lived to become thankful for them. If your heart has been broken and seems impossible to mend, there is hope. If darkness seems to surround you, there is hope. If no one seems to understand your pain, there is hope. The stories inside this book are truly amazing. Death, dysfunction and divorce abound and yet the authors - people like you and me - triumphed. Not only did they transcend these tragedies, but they actually learned from them and wouldn't change a thing. They found a greater self waiting on the other side of pain. You can too. Sit down and read one story from this book. Discover why many are calling "Thank God I" the most significant contribution to the Spirit of humanity in centuries. Most importantly, You can be a part of it! A brighter, loving, more inspired life awaits you.

[The House on Fortune Street, Margot Livesey](#) , 2009, 0061828742, 9780061828744. It seems like mutual good luck for Abigail Taylor and Dara MacLeod when they meet at university and, despite their differences, become fast friends. Years later they remain inseparable: Abigail, the actress, allegedly immune to romance, and Dara, a therapist, throwing herself into relationships with frightening intensity. Now both believe they've found "true love." But luck seems to run out when Dara moves into Abigail's downstairs apartment. Suddenly both their friendship and their relationships are in peril, for tragedy is waiting to strike the house on Fortune Street. Told through four ingeniously interlocking narratives, Margot Livesey's *The House on Fortune Street* is a provocative tale of lives shaped equally by chance and choice.

[Minds and Gods: The Cognitive Foundations of Religion: The Cognitive Foundations of Religion, Todd Tremlin](#) , 2010, 0199739013, 9780199739011. Around the world and throughout history, in cultures as diverse as ancient Mesopotamia and modern America, human beings have been compelled by belief in gods and developed complex religions around them. But why? What makes belief in supernatural beings so widespread? And why are the gods of so many different people so similar in nature? This provocative book explains the origins and persistence of religious ideas by looking through the lens of science at the common structures and functions of human thought. The first general introduction to the "cognitive science of religion," Minds and Gods presents the major themes, theories, and thinkers involved in this

revolutionary new approach to human religiosity. Arguing that we cannot understand what we think until we first understand how we think, the book sets out to study the evolutionary forces that modeled the modern human mind and continue to shape our ideas and actions today. Todd Tremlin details many of the adapted features of the brain -- illustrating their operation with examples of everyday human behavior -- and shows how mental endowments inherited from our ancestral past lead many people to naturally entertain religious ideas. In short, belief in gods and the social formation of religion have their genesis in biology, in powerful cognitive processes that all humans share. In the course of illuminating the nature of religion, this book also sheds light on human nature: why we think we do the things we do and how the reasons for these things are so often hidden from view. This discussion ranges broadly across recent scientific findings in areas such as paleoanthropology, primate studies, evolutionary psychology, early brain development, and cultural transmission. While these subjects are complex, the story is told here in a conversational style that is engaging, jargon free, and accessible to all readers. With *Minds and Gods*, Tremlin offers a roadmap to a fascinating and growing field of study, one that is sure to generate interest and debate and provide readers with a better understanding of themselves and their beliefs.

[Economics of water resources: from regulation to privatization, Nicolas Spulber, Asghar Sabbaghi](#) , 1994, 0792394038, 9780792394037. This book develops a general economic model which integrates the quantity and quality issues of water resource management and provides, along with a detailed criticism of the policy instruments now in use, alternative proposals concerning the efficient allocation and distribution of water. In particular the authors treat water as a multi-product commodity where the market plays a major role in determining water quality--discriminant pricing and its value to the user. The book examines the process of moving from administrative allocation and regulation to privatization of the water industry as the key element in promoting effective competition and in providing economic incentives for greater efficiency. The book is divided into four major parts. The first presents the analytical framework within which the main issues in the management of water resources are examined. The second part focuses on water-quality modeling and the analysis of quantity--quality controls and water distribution. Part three examines instruments of public policy and the regulations enacted for water resources management. The fourth part presents the overall conclusions. The book is designed for all students of environmental problems, as well as for professionals involved in water-resources allocation and in pollution-abatement programs at both planning and management levels. The book can be used in graduate courses in water resource management, environment management, economics of natural resources, and planning, as well as a basic reference work on water resources and on the management of natural resources in general.

A warrior's heart breaks like everyone else's, but by using the principles in this book, you train yourself to grieve, heal, and reengage using love as a tool everyday." Learn to live and love fearlessly, because between now and dead, nothing else really matters! The bottom line is this: we all come with an expiration, and all of our stories end exactly the same way, dead! Shrinking and hiding our love and light from the world is not the answer. Life isn't easy, and it isn't fair. This journey is not about finding yourself . . . it's about defining yourself. Developing your warrior heart can be the most amazing adventure imaginable. This book is an anthology of 14 esteemed scholars who have made significant contributions to criminology, criminal justice, and international law within a comparative and international context. In this lively collection of ??stories?, the authors share of themselves in ways we seldom learn about in textbooks. By inviting us into their lives, we find out about the pitfalls, opportunities, and gut-wrenching decisions they faced during their careers. Pat Mayhew frankly warns students that ??international comparative work is not for the faint hearted?, Peter Grabosky encourages students to ??keep their eyes open?, and David Farrington advises us to ??choose our collaborators carefully?. Yet, what resonates throughout their lessons is that truly successful people are those who keep trying. Students in particular will find the stories inspirational and insightful. This text provides us with practical, real life examples of how following one??s passion can genuinely impact crime prevention, criminal justice, and social ills around the world.

[The Upstairs Room, Johanna Reiss](#) , 1972, 0690851278, 9780690851274. A Life in Hiding When the German army occupied Holland, Annie de Leeuw was eight years old. Because she was Jewish, the occupation put her in grave danger- she knew that to stay alive she would have to hide. Fortunately, a Gentile family, the Oostervelds, offered to help. For two years they hid Annie and her sister, Sini, in the cramped upstairs room of their farmhouse. Most people thought the

war wouldn't last long. But for Annie and Sini -- separated from their family and confined to one tiny room -- the war seemed to go on forever. In the part of the marketplace where flowers had been sold twice a week--tulips in the spring, roses in the summer--stood German tanks and German soldiers. Annie de Leeuw was eight years old in 1940 when the Germans attacked Holland and marched into the town of Winterswijk where she lived. Annie was ten when, because she was Jewish and in great danger of being captured by the invaders, she and her sister Sini had to leave their father, mother, and older sister Rachel to go into hiding in the upstairs room of a remote farmhouse. Johanna de Leeuw Reiss has written a remarkably fresh and moving account of her own experiences as a young girl during World War II. Like many adults she was innocent of the German plans for Jews, and she might have gone to a labor camp as scores of families did. "It won't be for long and the Germans have told us we'll be treated well," those families said. "What can happen?" They did not know, and they could not imagine.... But millions of Jews found out. Mrs. Reiss's picture of the Oosterveld family with whom she lived, and of Annie and Sini, reflects a deep spirit of optimism, a faith in the ingenuity, backbone, and even humor with which ordinary human beings meet extraordinary challenges. In the steady, matter-of-fact, day-by-day courage they all showed lies a profound strength that transcends the horrors of the long and frightening war. Here is a memorable book, one that will be read and reread for years to come.

'The dark stuff is the heart of the matter in Erica Lanlard's latest - and, dare we say, greatest - cookery book, Chocolat. It's a beautiful collection of recipes, but they're far more than just eye candy: they're deceptively easy to make and they really work.' -- Sweet Things Master Patisserie Chef Eric Lanlard shares more than 100 of his favourite recipes that use the ingredient he loves the most - chocolate. As a young patisserie chef, Eric was taught how to make chocolate and he went on to train as an apprentice chocolatier. He has since been fascinated with this ingredient, making it his mission to master the techniques of moulding, blending, shaping and baking with chocolate. Now you can share Eric's passion as he reveals his tried-and-tested techniques with this new selection of chocolate-based recipes, from quick bakes, cakes and simple sauces to show-stopping party pieces and after-dinner treats, all with easy-to-follow methods and helpful tips. With foolproof recipes and gorgeous photography by Kate Whitaker, this is a must-have cookbook for chocolate-lovers everywhere. From the Bakery features everyday treats such as Devilish Chocolate Brownies, Pain au Chocolat as well as a few classics inspired by Eric's travels including Chocolate Kouglouf and Chocolate and Pistachio Biscotti. Desserts & Puddings is where Eric showcases his trademark glamour in his baking, with Gateau Opera and Chocolate Millefeuille as well as family favourites including Proper Chocolate Mousse, Hot Chocolate Soufflé and Chocolate and Banana Tart. Truffles & Treats include sweet treats from Old-fashioned Truffles to Chocolate Toffee, before Drinks, Sauces & Spreads where you can make your own homemade Hazelnut Chocolate Spread, as well as indulge in a selection of chocolate-based drinks and cocktails.

[For the Time Being: The Bootstrap Book of Poetic Journals, Tyler Doherty, Tom Morgan](#) , 2007, 0977997537, 9780977997534. Poetry. FOR THE TIME BEING brings together for the first time twenty-nine writers from three continents whose work explores and interrogates the genre of the poetic journal. Tracing its roots back to Sei Shonagon and Matsuo Basho through Thoreau's journals and into the work of the New American poets, the poetic journal remains a vibrant and adaptive genre that continues to delight. Ever alert to the minutiae of daily lived experience, as well as to the linguistic twists and turns poems are likely to take when writing is oriented towards improvisation and discovery, these

pieces enlarge our appreciation of the world in all its Whitmanic scope and splendor. Also included in this volume are an informative introduction outlining the history and characteristics of the genre, essays and interviews on favorite ancestors and aspects of the craft, and a piece dedicated to how to teach the poetic journal in the classroom. A valuable resource for poets, teachers, and scholars alike, this anthology collects under one roof an eclectic grouping of poets whose various attentions enliven our works and days.

However, Magpie Windwitch, granddaughter of the West Wind, is not like other faeries. While her kind live in seclusion deep in the forests of Dreamdark, she's devoted her life to tracking down and recapturing devils escaped from their ancient bottles, just as her hero, the legendary Bellatrix, did 25,000 years ago. With her faithful gang of crows, she travels the world fighting where others would choose to flee. But when a devil escapes from a bottle sealed by the ancient Djinn King himself- the creator of the world- she may be in over

her head. How can a single faerie, even with the help of her friends, hope to defeat the impenetrable darkness of the Blackbringer? At a time when fantasy readers have an embarrassment of riches in choosing new worlds to fall in love with, this first novel by a fresh, original voice is sure to stand out.

His old boss, Rose Marie Roux, has moved up to the state level and taken Lucas with her, creating a special troubleshooter job for him for the cases that are too complicated or politically touchy for others to handle. In addition, Lucas is now married and a new father, both of which are fine with him: he doesn't mind being a family man. But he is a little worried. For every bit of peace you get, you have to payand he's waiting for the bill. It comes in the form of two people found hanging from a tree in the woods of northern Minnesota. What makes it particularly sensitive is that the bodies are of a black man and a white woman, and they're naked. "Lynching" is the word that everybody's trying not to saybut, as Lucas begins to discover, in fact the murders are not what they appear to be,

and they are not the end of the story. There is worse to come, much, much worse. Filled with the rich characterization and exceptional drama that are his hallmarks, this is Sandford's most suspenseful novel yet.

[The Oil Finders: A Collection of Stories about Exploration, Allen G. Hatley](#) , 1995, 0964941600, 9780964941601. THE OIL FINDERS is an exuberant book containing fascinating personal recollections & first hand accounts about risk & exploration, approaching the level of "oral history." These stories combine adventure, travel, personal & professional risk, political intrigue, humor & science. Indonesia, Sudan, western Canada, Philippines, & Pakistan are only some of the areas visited in THE OIL FINDERS. These were the places where THE OIL FINDERS took their biggest risks, & where they were the most successful in their search for important & new discoveries of crude oil & natural gas. These stories in THE OIL FINDERS were written by a diverse group of explorationists whose individual persistence, imagination & daring resulted in some of the more significant new frontier oil & gas discoveries in the last 25 years. THE OIL FINDERS is not a text book, although for those academics searching for examples of successful exploration programs, they should remember that the primary measure of a petroleum geologist's success is his ability to explore for & discover new deposits of oil & natural gas; the men relating these accounts stand out among their peers as examples of the real "success stories" in their chosen profession. [Cotton Comes to Harlem, Chester Himes](#) , 2011, 0141196459, 9780141196459. Bible Flowers is a celebration of the lasting beauty of the language of the Bible and the richness of medieval and Renaissance manuscripts. An inspirational accompaniment to the Bible, this delightful book is filled with references to plants, fruits, gardens, and agriculture, from Genesis to the Gospels, and adorned with beautiful manuscript illuminations. The plants -- ranging from herbs to trees, wildflowers to imported, cultivated plants that would have grown 2,000 years ago -- have been the source of much curiosity and interest. The illustrations in Bible Flowers are taken from the most richly decorated manuscripts from the fourteenth, fifteenth, and sixteenth centuries, painted by Flemish, French, and Italian masters. Now priceless treasures, the original pages from Bibles, Breviaries, Books of Hours, and Psalters are beautifully reproduced in this exquisite collection. Black film-flam man Deke O'Hara is no sooner out of Atlanta's state penitentiary than he's back on the streets working the scam of a lifetime. As sponsor of the Back-to-Africa movement he's counting on the big Harlem rally to produce a big collection for his own private charity. But the take-\$87,000-is hijacked by white gunmen and hidden in a bale of cotton that suddenly everybody wants to get his hands on. With Coffin Ed Johnson and Grave Digger Jones on everyone's trail and piecing together the complexity of the scheme, Cotton Comes to Harlem is one of Himes's hardest-hitting and most entertaining thrillers.

[Drake's Raid, Tobias North](#) , 2007, 0981523404, 9780981523408. In May of 1586, Sir Francis Drake and a fleet of twenty-two ships attacked and burned Saint Augustine, Florida, making off with approximately six thousand ounces of gold. A savage attack of this nature, so closely watched by those girding for the inevitable war between Protestant England and

Catholic Spain, was not only daring but provocative in the extreme. Continuing north up the coast of the Americas, he resupplied the first English colony at Roanoke, just before it was destroyed by a hurricane. Returning to rescue the survivors, he landed with them in England shortly after.

[A Concise History of Western Music, Paul Griffiths](#) , 2006, 0521842948, 9780521842945. Engaging, clear and informative, this is the story of western music - of its great composers and also of its performers and listeners, of changing ideas of what music is and what it is for. Paul Griffiths shows how music has evolved through the centuries, and suggests how its evolution has mirrored developments in the human notion of time, from the eternity of heaven to the computer's microsecond. The book provides an enticing introduction for students and beginners, using the minimum of technical terms, all straightforwardly defined in the glossary. Its perspective and its insights will also make it illuminating for teachers, musicians and music lovers. Suggestions for further reading and recommended recordings are given for each of the 24 short chapters.

Constituting the largest reference work on Doctor Who ever written, the six-volume About Time strives to become the ultimate reference guide to the world's longest-running science fiction program. Written by Lawrence Miles (Faction Paradox) and long-time sci-fi commentator Tat Wood, About Time focuses on the continuity of

Doctor Who (its characters, alien races and the like), but also examines the show as a work of social commentary. In particular, Miles and Wood dissect the politics and social issues that shaped the show during its unprecedented 26-year run (from 1963 to 1989), detailing how the issues of the day influenced this series. As part of this grand opus, About Time 2 examines Doctor Who Seasons 4 to 6 (1966 to 1969) -- a massive paradigm shift for the show, as Patrick Troughton takes over the lead role. Among other things, About Time 2 answers such vitally important Who questions as What's the Timeline of the Cybermen?, Whatever Happened to the USA? and Did Sergeant Pepper Know the Doctor?

[The Gift of Time, Jorge Ramos](#) , 2009, 0061981060, 9780061981067. One father, his children, and the loving life they share as a family. . . .Like all parents, Jorge Ramos is concerned about how his two children are absorbing the world around them. A loving and thoughtful father though he is, he wonders if he has done enough to prepare them for the future. He questions if they know enough about him as a person, and the family to which they belong. The Gift of Time is a moving and personal book in which one father reflects upon the world we live in and shares his love for his children in a series of letters that touch on everything from love and divorce to soccer and e-mail. Through his experience as a journalist who has seen both the horrors and the greatness that people are capable of, he offers his children the sound advice they need not only to live but to thrive in today's world. In a heartfelt and direct tone that has gained him the love and admiration of millions of fans across the country, Ramos writes about the issues that plague every parent's mind. In The Gift of Time, Ramos speaks both to his children and to the future generations of Americans on what they can expect, and what is expected of them, as they embark on their journey toward adulthood.

[Propagation, Laura Elrick](#) , 2012, 0984647589, 9780984647583. Poetry. PROPAGATION's minimalist scoring belies an obsession with the gestural repleteness of discourse, with what poet and linguist Henri Meschonnic called the embodied aptitude of language ("a poem is an activity, not a product"). One central activity of this poem is listening, to language public and private, living and mediated, and to texts we read silently or aloud to one another. A series, the poems in PROPAGATION also test audible vectors by sifting and colliding, graphing and distilling. What emerges is both residue and metamorphosis: a materialist sensing of the complex ecosystems of language and experience. "Laura Elrick's PROPAGATION is incantatory, magical, mischievous, devilish. Its syntax is resistant, fluid, impeded; its lineation outwits givens, decommodifies ideas, modulates stances, transforms terms. The poems are moody, sullen, fanciful, sardonic, meditative, funny, mad. PROPAGATION, in other words, invites multiple readings, but not only because one can voice its polyphonic perspective so variously; it does so, above all, because it is enchanting, wondrous. In the myth, Pandora's box turned out to contain mostly sinister forces and the origins of human woe. Elrick's PROPAGATION acknowledges the presence of this sad panoply, but what emerges most forcefully from this book is the revolutionary power of hope, not as mere promise but as an articulate practice."Lyn Hejinian

Dante Alighieri With the Third Reich in the final death throes of survival, anti-Nazi detective Willi Prinz finds himself in the center of a horrific string of gruesome murders. Surrounded by the physical destruction of war and the incomparable human suffering that engulfs him, Prinz remains unaware of his own bizarre link to the world's most notorious man Adolf Hitler. Subverted into the murky and violent world of the Gestapo he himself becomes the criminal aiding and abetting them against his will and becomes involved in one of the largest scale thefts of priceless historical treasure the world has ever seen. It is wholesale bedlam and chaos, but through it all he is tasked with finding out who murdered two women both of whom trace relationships to the powerful among the Reich's elite. While he has a sense of where his investigation might take him, he can never be fully prepared for what he will ultimately find and for who is responsible. In the end Prinz cannot escape his own destiny and will be led, like a lamb to slaughter, to the realization of his own true hidden identity.

The Tattoo Chronicles is an illustrated diary that offers an intimate look at a crucial year in the personal and professional life of Kat Von D, the charismatic, no-holds-barred tattooer and star of LA Ink. When Kat does a tattoo, she writes an entry about it in her journal, reflecting not only on the significance of the tattoo for the person who is receiving it but also on how the experience of creating this tattoo affects her personally. In these diary entries some poignant, some hilarious, some confessional Kat lays it on the line about how doing these tattoos influences her life and art. Here are the highs and the lows, the good, the bad, and the ugly including her feelings about her fame, family, love life, friends, and fans. Visually stunning, this graphically compelling diary is jam-packed with tons of Kat's images, from sketches of her tattoos to the finished works, and candid shots of her unusual personal collections all photographed by Kat herself. Fans will love reading about her array of clients from all walks of life, including Motrhead's Lemmy Kilmister, Dave Navarro, and members of Metallica, Green Day, Kings of Leon, and the Eagles. Throughout The Tattoo Chronicles are captivating, color photographs of Kat that were taken specifically for the book, published here for the first time. [The Ethics of Computer Games, Miguel Sicart](#) , 2011, 0262261537, 9780262261531. Despite the emergence of computer games as a dominant cultural industry (and the accompanying emergence of computer games as the subject of scholarly research), we know little or nothing about the ethics of computer games. Considerations of the morality of computer games seldom go beyond intermittent portrayals of them in the mass media as training devices for teenage serial killers. In this first scholarly exploration of the subject, Miguel Sicart addresses broader issues about the ethics of games, the ethics of playing the games, and the ethical responsibilities of game designers. He argues that computer games are ethical objects, that computer game players are ethical agents, and that the ethics of computer games should be seen as a complex network of responsibilities and moral duties. Players should not be considered passive amoral creatures; they reflect, relate, and create with ethical minds. The games they play are ethical systems, with rules that create gameworlds with values at play. Drawing on concepts from philosophy and game studies, Sicart proposes a framework for analyzing the ethics of computer games as both designed objects and player experiences. After presenting his core theoretical arguments and offering a general theory for understanding computer game ethics, Sicart offers case studies examining single-player games (using Bioshock as an example), multiplayer games (illustrated by Defcon), and online gameworlds (illustrated by World of Warcraft) from an ethical perspective. He explores issues raised by unethical content in computer games and its possible effect on players and offers a synthesis of design theory and ethics that could be used as both analytical tool and inspiration in the creation of ethical gameplay.

Osun in colours is a compendium on one of the most significant traditional deity in Africa, the Caribbean Islands and the Americas. It is a searchlight to the diversified stories of the river goddess through its more than three hundred pictorial analysis and illustrations from Igede to Osogbo where the goddess groves. The book traces the biographical origin of the goddess from her humble beginning at Igede Ekiti and goes further to exhibit the exact source of her waters - the popular river Osun in Yorubaland till the point she crossed the Atlantic. Among other things, the book highlights Osun grove and its festival celebrations in selected Yoruba towns, discusses her relationship with other Yoruba pantheons and shows its readers the location where the two great rivers in Yorubaland, namely, river Oba and river Osun met. It goes further again, to discuss some ingredients peculiar to her worship, sacrifice and initiation. Two chapters are on her sojourn overseas and her beautiful songs across the waters. Osun in colours is extremely useful for Orisa worshippers in diaspora, valuable for tourists' and a reference point for researchers' and students' of religion worldwide. Intending readers and buyers should note that the book has scored so many 'FIRSTS'.The book is the first powerful book to trace the SOURCE of Osun waters.The first to highlight in pictorial form how it meanders through thick forests from Ekiti land through Ijesaland, Osogbo,Ibadan,Abeokuta and many other Yoruba communities until the point she crossed the Atlantic! The first to research into Osun's votary maids in Yoruba communities.The first to make a distinction between the Osun the divinity and the Osun the deity.....and lots more! Finally, the book is full of information and insight and it is a good source for continuous research, debate, seminars and discussion for any doubtful issue or issues that may be considered otherwise by any individual or group of persons.
