[Spiritual Genius: 10 Masters and the Quest for Meaning, Winifred Gallagher](#) , 2002, 0812967186, 9780812967180. In *Spiritual Genius*, journalist Winifred Gallagher, the acclaimed author of *Working on God*, asks Rabbi Lawrence Kushner to define holiness. "Standing in the presence of God," he says. "Everyone has it, but some people seem to have more of a knack for accessing it." Like holiness, the gift that Gallagher calls "spiritual genius"--which she defines as "the uniquely human ability to search for and find life's meaning, then express it in our lives as only each of us can"--is one we all possess but don't necessarily recognize. Whether they are called saints, gurus, tzaddiks, or shamans, there have always been people who possess exceptional insight, altruism, and charisma. In this disarmingly inspirational book, Gallagher investigates what ordinary people trying to live decent, meaningful lives can learn from such extraordinary men and women, who are specially attuned to the deepest truths, and who exemplify-and radiate-spiritual genius. In a clear-eyed, ecumenical approach that's free of dogma and bias and suffused with profound respect, Winifred Gallagher highlights the common wisdom-and down-to-earth good humor-of these religious leaders, revels in their differences, and identifies the capacity for spiritual genius that all of us share with them. On an island in the Arabian Sea, Gallagher visits Mata Amritanandamayi, regarded by devotees as a Hindu goddess, who transmits divine love through hugs and charities. She travels through America's inner cities with Tony Campolo, an Evangelical preacher who counsels national leaders and serves the poor. She learns how Riffat Hassan, a Pakistani theologian, uses the Quran to defend the rights of her Muslim

sisters. She journeys to a Tibetan Buddhist monastery in the Himalayas to understand how an exiled minority has enchanted the world with their deep, resilient spirituality. In these diverse lives, Gallagher argues, we can glimpse our own potential for spiritual genius writ large. Each story testifies to the profound good in the world, even during a troubled time, and to Gallagher's groundbreaking theory of a human capacity for finding life's meaning that is nothing less than genius. Grace Before Meals is more than just a typical cookbook: it offers families recipes for building more meaningful lives. Each chapter reflects on a variety of topics related to personal milestones, family holidays and faith observances. Short essays offer practical wisdom and ideas, so parents can create a comfortable environment for honest communication and a "real life" approach to discussing important spiritual themes that impact the life of a growing child.

[The Cultural Revolution: A Very Short Introduction, Richard Curt Kraus](#) , 2012, 0199740550, 9780199740550. China's decade-long Great Proletarian Cultural Revolution shook the politics of China and the world. Even as we approach its fiftieth anniversary, the movement remains so contentious that the Chinese Communist Party still forbids fully open investigation of its origins, development, and conclusion. Drawing upon a vital trove of scholarship, memoirs, and popular culture, this Very Short Introduction illuminates this complex, often obscure, and still controversial movement. Moving beyond the figure of Mao Zedong, Richard Curt Kraus links Beijing's elite politics to broader aspects of society and culture, highlighting many changes in daily life, employment, and the economy. Kraus also situates this very nationalist outburst of Chinese radicalism within a global context, showing that the Cultural Revolution was mirrored in the radical youth movement that swept much of the world, and that had imagined or emotional links to China's red guards. Yet it was also during the Cultural Revolution that China and the United States tempered their long hostility, one of the

innovations in this period that sowed the seeds for China's subsequent decades of spectacular economic growth. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

[A First Course in Calculus, ISSN 0172-6056, Serge Lang](#) , 1986, 0387962018, 9780387962016. The purpose of a first course in calculus is to teach the student the basic notions of derivative and integral, and the basic techniques and applications which accompany them. The very talented students, with an obvious aptitude for mathematics, will rapidly require a course in functions of one real variable, more or less as it is understood by professional is not primarily addressed to them (although mathematicians. This book I hope they will be able to acquire from it a good introduction at an early age). I have not written this course in the style I would use for an advanced monograph, on sophisticated topics. One writes an advanced monograph for oneself, because one wants to give permanent form to one's vision of some beautiful part of mathematics, not otherwise accessible, somewhat in the manner of a composer setting down his symphony in musical notation. This book is written for the students to give them an immediate, and pleasant, access to the subject. I hope that I have struck a proper compromise, between dwelling too much on special details and not giving enough technical exercises, necessary to acquire the desired familiarity with the subject. In any case, certain routine habits of sophisticated mathematicians are unsuitable for a first course. Rigor. This does not mean that so-called rigor has to be abandoned.

[The Master of Ballantrae, Adrian Poole, Robert Louis Stevenson](#) , 1996, 0140434461, 9780140434460. Set at the time of

the Jacobite uprising, The Master of Ballantrae tells of a family divided. James Durie, Master of Ballantrae, abandons his

ancestral home to support the Scottish rebellion - leaving his younger brother Henry, who is faithful to the English crown,

to inherit the title of Lord Durrisddeer. But he is to return years later, embittered by battles and a savage life of piracy on

the high seas, to demand his inheritance. Turning the people against the Lord, he begins a savage feud with his brother

that will lead the pair from the Scottish Highlands to the American Wilderness. Satanic and seductive, the Master was

regarded by Stevenson as 'all I know of the devil'; his darkly manipulative schemes dominate this subtle and compelling

tragedy. This edition takes as its text the Edinburgh Edition of the novel, the last approved by the author. The

introduction considers the novel's inspiration and its place as one of Stevenson's greatest studies in cruelty.

0859898431, 9780859898430. This book introduces students of Anglo-Saxon culture to selected aspects of the realities

of Anglo-Saxon life through reference to artefacts and textual sources. Everyday practices and processes are

investigated, such as the exploitation of animals for clothing, meat, cheese and parchment; ships for travel, trade and transport; manufacturing processes of metalwork; textiles for dress and furnishing and the practicalities of living with illness or disability. The essays show how an understanding of the material culture of the daily Anglo-Saxon world can inform reading and scholarship in Anglo-Saxon studies. Scholarly and practical material presented inform one another, making the book accessible to any reader seriously interested in England in the early Middle Ages. While there are publications on specific legal fields, no recent book includes several core legal subjects presented in a general manner. After three printings, the latest in 2010, a new edition became necessary to reflect accurately the changes in the law since the first publication. Intended as a practical general guide to the more common legal principles as they relate to Hong Kong -- contract, tort, employment, and property -- the second edition should assist the reader in understanding and anticipating legal issues that might arise in commercial or daily personal situations. Therefore the second edition of this book has been updated to reflect recent court decisions and revisions to Hong Kong ordinances and has been reorganized to render the book more user friendly.

Basil Hyman, a keen amateur photographer, took hundreds of photographs of everyday life in Britain during the 1950s. The Lost Album is a nostalgic look back at this long-gone era, filled with photographs made during a time of enormous social change--just after World War II and before the "Swinging Sixties"--and a wealth of ephemera: theater tickets and playbills, newspaper advertisements, ration books, and much more. Special inserts include actual facsimiles of some of these now-obscure items--talismans from a slower time, when formality, pride, and courtesy prevailed. There are special sections on two major events: the Festival of Britain in 1951, and the Coronation of Queen Elizabeth II in 1953. With brief, lively

introductions and captions, this is a captivating snapshot of how people lived and played in Britain in those years.

TRUE GOD RULES: The Future Of The World With A Whole New God: A Proposal And Mission Statement By Dr. Jordan Jones There's a problem: "We have problems." Why? ..."Wrong God." This is what the Bible says about God: "He who dwells in the shelter of the Most High will rest...You will not fear terror nor disease...no harm or disaster will come near

you...With God, nothing is impossible...You can move mountains...You will be rewarded with long life...Teacher and Lord are what I am...Do not worry...Do not fear...God knows what you need...Seek God first and everything will be given to you.....No problems...DO NOT BE AFRAID!" NOT GETTING IT? Regardless of your faith, what if you've been believing in a word-of-mouth "God-in-the-clouds" which isn't real and doesn't work? What if ancients throughout history knew about a lost technology for direct contact with another, TRUE GOD, that works by a whole different set of rules, unknown by modern man, that was silenced, outlawed, and replaced? How can you get it? How can we prove it? What about "Christ" and "Mary?" What would the world be like with a whole new God that works...and without religion? Herewith, we begin to propose: - a new, TRUE GOD with all-new rules; - answers to these and far more questions; - a mission to change the world. Bringing TRUE GOD Back to Life.

MODERN TECHNIQUES FOR CHARACTERIZING MAGNETIC MATERIALS provides an extensive overview of novel characterization tools for magnetic materials including neutron, photon and electron scatterings and other microscopy techniques by world renowned scientists. This is an interdisciplinary book. Currently there is no existing book that describes all available techniques to characterize and to understand magnetic materials. These techniques cover a wide range of length scales and belong to different scientific communities that have little cross-discipline communication. The book will build bridges for them. It is important to note that each technique has its own advantages and drawbacks. Very often combined use of different techniques is essential to the understanding of the ever increasing complexity of modern magnetic materials at nanometer scales. The book includes, but is not limited to the following areas: Magnetic neutron scattering with 3-axis spectrometer * Small-angle neutrons scattering * Polarized neutron magnetic reflectometry * Resonant soft x-ray magneto-optic scattering * Magnetic hard x-ray scattering * Spin resolved photoemission spectroscopy * Lorentz microscopy and electron holography * Scanning electron microscopy with polarization analysis * Spin polarized low energy electron microscopy * Spin-polarized scanning tunneling microscopy * Magnetic force microscopy * Near-field scanning optical microscopy * Time-resolved scanning Kerr microscopy * Brillouin light scattering spectroscopy This reference will be a valuable resource for all graduate students, researchers, engineers and scientists who are interested in magnetic materials including their crystal structure, electronic structure, magnetization dynamics and their associated magnetic properties and underlying magnetism.

Part II reviews the state of the art of thin film diamond a very promising new semiconductor that may one day rival silicon as the material of choice for electronics. Diamond has the following important characteristics; it is resistant to radiation damage, chemically inert and biocompatible and it will become "the material" for bio-electronics, in-vivo applications, radiation detectors and high-frequency devices. Thin-Film Diamond II is the first book to summarize state of the art of CVD diamond in depth. It covers the most recent results regarding growth and structural properties, doping and defect characterization, hydrogen in and on diamond as well as surface properties in general, applications of diamond in electrochemistry, as detectors, and in surface acoustic wave devices. Accessible by both experts and non-experts in the field of semi-conductors research and technology, each chapter is written in a tutorial format. Assisting engineers to manufacture devices with optimized electronic properties. This book is one of a kind in that it provides encouragement and enlightenment for daughters from a father's perspective. A life changing work for daughters of all ages.

[Dangerous-Game Rifles, Terry Wieland](#) , 2009, 0892728078, 9780892728077. The popularity of rifles designed to take big game has never been greater. Terry Wieland, a widely recognized firearms expert, explores in detail the rifles and calibers that are drawing attention. This second edition covers what has changed in the field since the first edition was published-new calibers, new cartridges, new guns, new actions-and includes new material on action and barrel manufacture, tracing the production of a fine, custom-made, big-bore rifle.

[Stiff Upper Lip, Jeeves, Pelham Grenville Wodehouse](#) , 2000, 0743204107, 9780743204101. Sir Pelham Grenville Wodehouse wrote more than a hundred books and at least twenty film scripts, and he collaborated on more than thirty plays and musical comedies with the likes of George Gershwin, Cole Porter, and Irving Berlin. Best known as the creator of Jeeves -- the impossibly wise, supremely well-mannered gentleman's gentleman -- and Wooster -- his unflinchingly affable but bumbling employer -- Wodehouse invokes the very British spirit of a bygone era in a gentle satire that, as Evelyn Waugh puts it, "satisfies the most sophisticated taste and the simplest." In "Stiff Upper Lip, Jeeves," fate conspires to draw Bertie Wooster back to Totleigh Towers, the site of an earlier ordeal that nearly landed our hero in prison and, worse still, in continuing danger of marriage to Madeline Bassett, the svelte and sadly syrupy daughter of the house. Only one thing stands between Bertie and the dreaded state of matrimony, and that is his good friend Gussie Fink-Nottle, lover of newts and Madeline Bassett. So long as Gussie and Madeline continue to profess their undying love for each other, Bertie is safe...but disaster looms when Gussie rebels at Madeline's attempt to turn him into a vegetarian. Throw in the intrigues of Miss Stiffy Byng and her dog Bartholomew to gain the Reverend Stinker Pinker a vicarage, the

renewed rivalry of art collectors Sir Watkyn Bassett and Bertie's Uncle Tom, and the irresistible cooking skills of American Emerald Stoker (who happens to be the younger sister of Bertie's old friend Pauline, whom he also narrowly avoided marrying), and you have trouble of the sort that only Jeeves can mend. In other words, here is a classic version of one of the greatplots of the English language from the Master himself.

[Hollywood Jesus Reviews 20052006, Greg Wright, Jenn Wright](#) , 2006, 0978755413, 9780978755416. From the summer of 2005 through the spring of 2006, ticket sales rebounded from the near- disaster of the previous twelve months. Leading the charge were fantasy films and comic book franchises, with Superman, Batman, Harry Potter, Aslan the Lion, and Captain Jack Sparrow captivating wide audiences. King Kong even scaled more than the Empire State Building, grabbing a couple handfuls of year-end honors. But that wasn't all. Spirituality made new inroads with films about missionaries, ministers, and Madea. This year's collection of reviews covers 100 top films, every one of them reviewed from HollywoodJesus.com's spiritual perspective. The ideas that move the world infuse the cinema, and audiences are still paying attention. Into the darkness of the theatre comes a great light. God is behind the screen, and Jesus is in the seats. Take a close look the next time you're there. The 2005-2006 collection features the writing of twenty-eight of the Hollywood Jesus reviewers: Kathy Bledsoe, Maurice Broaddus, Michael Brunk, Peter Cruikshank, Jim Davis, Brian Dedmon, Mike Furches, James Harleman, Matthew Hill, Matt Kinne, Melinda Ledman, Elisabeth Leitch, Darrel Manson, Kevin Miller, Marcus Pittman, Tom Price, Ken Priebe, Michael Ray, Scott Roche, Jacob Sahms, Mike Smith, Johann Snyder, Tim Spanburg, Mark Ezra Stokes, Ed Travis, Chris Utley, Greg Wright, and Jenn Wright. Reviews are grouped by categories of popularity, and arranged alphabetically within those categories. Fans of a particular reviewer can find a short bio and list of reviews in the Index of Reviewers.

[Goodbye to All That, Robert Graves](#) , 2000, 0141911689, 9780141911687. In 1929 Robert Graves went to live abroad permanently, vowing 'never to make England my home again'. This is his superb account of his life up until that 'bitter leave-taking': from his childhood and desperately unhappy school days at Charterhouse, to his time serving as a young officer in the First World War that was to haunt him throughout his life. It also contains memorable encounters with fellow writers and poets, including Siegfried Sassoon and Thomas Hardy, and covers his increasingly unhappy marriage to Nancy Nicholson. Goodbye to All That, with its vivid, harrowing descriptions of the Western Front, is a classic war document, and also has immense value as one of the most candid self-portraits of an artist ever written. Includes illustrations and explanatory footnotes.

[Cognitive Sciences: Basic Problems, New Perspectives and Implications for Artificial Intelligence, Maria Nowakowska](#) , 1986, 0125226217, 9780125226219. This highly original work extends and enriches our understanding of the theoretical apparatus of cognitive science and highlights some new aspects and possibilities for developing this interdisciplinary subject. The author examines the theoretical and methodological foundations of cognitive science and explores its usefulness as a descriptive and explanatory tool. The topics covered range from such relatively unexplored ones as observability networks and their restrictions, random and semi-random fuzzy objects, and relations between subjective and objective time, through judgement formation, descriptions, and texts, to more traditional subjects studied by cognitive scientists, namely, visual perception, memory, and communication. In her treatment of each topic, the author develops new conceptual representations of the phenomenon analyzed, postulates appropriate mechanisms, and formulates explanatory hypotheses. Dr. Nowakowska treats cognitive processes through a set of interrelated theories, from different perspectives and on various levels of generality. She departs from the information processing paradigm and proposes new concepts and solutions based on psychological intuitions and mechanisms. Her work stresses the

problems of cognitive limitations and distortions as well as the generative, controlled, and dynamic character of cognition.

[A Wild Surmise: New & Selected Poems & Recordings, Eloise Klein Healy](#) , 2013, 1597097594, 9781597097598. A Wild Surmise: New & Selected Poems & Recordings is Eloise Klein Healy's seventh book of poetry and the first that includes an audio component. Included are poems from all her previous collections, including her award-winning first collection, Building Some Changes, as well as Artemis In Echo Park and The Islands Project: Poems For Sappho. Healy's work is immediately recognizable as poetry written by a woman under the influence of feminism, freeway traffic, wilderness (especially in the city), and a uniquely tuned sense of craft. Her work travels easily across time zones, mythologies, the politics of love, and the inevitable loss of family and friends. She searches for a lesbian tradition in literature, lamenting the erasure of lesbian writers and the fragmented history of their work. But Healy's poetry is not without humor, nor does it shy away from such topics as baseball and the companionship of canines. Like life, poetry to her is a wild surmisenever totally translatable, but always worth the attempt.

[The Blue Flower, Henry Van Dyke](#) , 2004, 1419154338, 9781419154331. When he awoke again, he was aware of a new fulness of light, purer and steadier than the first radiance. He found himself lying on the green turf, in the open air, beside a little fountain, which sparkled up and melted away in silver spray. Dark-blue were the rocks that rose at a little distance, veined with white as if strange words were written upon them. Dark-blue was the sky, and cloudless.

[The DVD Novel: How the Way We Watch Television Changed the Television We Watch, Greg Metcalf](#) , 2012, 0313385815, 9780313385810. In 1981, NBC's "Hill Street BlueS" combined the cop show and the soap opera to set the model for primetime serial storytelling, which is evident in "The SopranoS," "The Wire," and "Breaking Bad." In 1963, ABC's "The Fugitive" showed how an anthology series could tell a continuing tale, influencing "The X-FileS," "House," and "Fringe." In 1987, NBC's "The Days and Nights of Molly Dodd" changed the situation comedy into attitudinal comedy, leading to "WeedS," "Nurse Jackie," and "Entourage." "The DVD Novel: How the Way We Watch Television Changed the Television We Watch" not only examines how American television shows changed, but also what television artists have been able to create. The book provides an alternate history of American television that compares it to British television, and explains the influence of Dennis Potter's "The Singing Detective" on the development of long-form television and the evolution of drama shows and sitcoms. The work considers a wide range of network and cable television shows, paying special attention to the work of Steven Bochco, David Milch, and David Simon, and spotlighting the influence of graphic novels and literary novels in changing television.

[Blessed: A History of the American Prosperity Gospel, Kate Bowler](#) , 2013, 0199827699, 9780199827695. Millions of Americans have fallen in love with the prosperity gospel and its new kind of preachers, who originally cultivated their fame with personal appearances in sold-out arenas. Now podcasts, Internet streaming, and daily television programming carry their sermons to millions. At almost any moment, day or night, the American public can tune in to see these familiar faces and a consistent message: God desires to bless you. Catherine Bowler's *Blessed* represents the first attempt to examine the twentieth-century American prosperity gospel movement as a whole, seeking to introduce readers to its

major figures and features. Bowler offers an interpretive framework for scholars and non-specialists alike to understand these diverse expressions of Christian abundance as a cohesive movement bound by shared understandings. She first traces the movement's burgeoning theology of faith from the postwar revivals to its maturity in the late 1980s, and then focuses on its continuing pursuit of divine wealth, as believers look to their bank accounts for proof of their spiritual progress. Bowler examines divine health through the same lens, as believers use their bodies as barometers of faith. The book concludes with an exploration of the contemporary movement's expectation of victory, as participants orient their lives toward unimpeded progress. Inspired, they count themselves blessed.

Whether you're single or married, having a pleasurable and fulfilling sexual relationship includes devoting time to seduction and foreplay. All too often, dissatisfaction in a couple's sex life is due to the fact that they've forgotten how to seduce each other. Couples are often guilty of skipping foreplay altogether, instead going straight to the already established pleasure zones that once turned their partner on but which may no longer do so. Dr. Pam has written this book to revive the neglected art of seduction, with tips and tricks specifically designed to stimulate each of the sexual senses: touch, sight, taste, smell and hearing, as well as the sixth sense, intuition. Packed with unique seduction and sex techniques for both new and established couples, Fabulous Foreplay offers sexy, easy-to-follow advice for even the most experienced lover.

[Warlord: A Life of Winston Churchill at War, 1874-1945, Carlo D'Este](#) , 2009, 0060575743, 9780060575748. Warlord is the definitive chronicle of Churchill's crucial role as one of the world's most renowned military leaders, from his early adventures on the North-West Frontier of colonial India and the Boer War through his extraordinary service in both world wars. Using extensive, untapped archival materials, Carlo D'Este illuminates Churchill's character as never before, exploring his strategies behind the major military campaigns of World War I and World War II both his dazzling successes and disastrous failures while also revealing his tumultuous relationships with his generals and other commanders, including Dwight D. Eisenhower. As riveting as the man it portrays, Warlord is a masterful, unsparing portrait of one of history's most fascinating and influential leaders during what was arguably the most crucial event in human history.

It is increasingly accepted that 'institutions matter' for economic organization and outcomes. The last decade has seen significant expansion in research examining how institutional contexts affect the nature and behaviour of firms, the operation of markets, and economic outcomes. Yet 'institutions' conceal a multitude of issues and perspectives. Much of this research has been comparative, and followed different models such as 'varieties of capitalism', 'national business systems', and 'social systems of production'. This Handbook explores these issues, perspectives, and models, with the leading scholars in the area contributing chapters to provide a central reference point for academics, scholars, and students.

[Through a Howling Wilderness: Benedict Arnold's March to Quebec, 1775, Thomas A. Desjardin](#) , 2006, 0312339046, 9780312339043. In September 1775, eleven hundred soldiers boarded ships in Newburyport, bound for the Maine wilderness. They were American colonists who had volunteered for a secret mission to paddle and march nearly two hundred miles through some of the wildest country in the colonies and seize the fortress city of Quebec, the last British stronghold in Canada. The march, under the command of Colonel Benedict Arnold, proved to be a tragic journey. Before they reached the outskirts of Quebec, hundreds died from hypothermia, drowning, small pox, lightning strikes, exposure, and starvation. The survivors ate dogs, shoes, clothing, leather, cartridge boxes, shaving soap, and lip salve. Their trek toward Quebec was nearly twice the length shown on their maps. In the midst of the journey, the most unlikely of events befell them: a hurricane. The rains fell in such torrents that their boats floated off or sunk, taking their meager provisions along, and then it began to snow. The men woke up frozen in their tattered clothing. One third of the force deserted, returning to Massachusetts. Of those remaining, more than four hundred were killed, wounded, or taken prisoner. Finally, in the midst of a raging blizzard, those remaining attacked Quebec. In the assault, their wet muskets failed to fire. Undaunted, they overtook the first of two barricades and pressed on toward the other, nearly taking Canada from the British. Demonstrating Benedict Arnold's prowess as a military strategist, the attack on Quebec accomplished another goal for the colonial army: It forced the British to commit thousands of troops to Canada, subsequently weakening the British hand against George Washington. A great military history about the early days of the American Revolution, *Through a Howling Wilderness* is also a timeless adventure narrative that tells of heroic acts, men pitted against nature's fury, and a fledgling nation's fight against a tyrannical oppressor.

[Negotiation Blueprinting for Buyers: Fact Based Negotiation with Case Studies, Rosemary Coates, Brian Dietmeyer](#) , 2013, 0985898720, 9780985898724. Since the 1980's industrial buying has gone from getting three quotes and executing a three-part carbon paper Purchase Order typed on an IBM Selectric typewriter, to a sophisticated electronic environment where information is available at the buyer's computer command. With the introduction of ERP systems buyers can now assemble historical buy information, supplier history and performance, develop RFPs, RFQs and enable reverse auctions. Electronically, buyers can exchange offers with suppliers and transmit Purchase Orders via EDI. Procurement is now taught at the undergraduate and graduate levels as part of Supply Chain Management programs at universities around the world. Students emerging from graduate programs are more strategic thinkers and have a much broader understanding of business as ecosystems. Sellers are also getting more sophisticated. By doing online research, they have a much better understanding of their competition and of their company. They can quote from your annual report and cite your CEO's direction for the near future. Through email they may be talking to many other people in the company, selling to the business and bypassing Purchasing like never before. They too, are better educated and sell value-based solutions. Gone are the days of taking buyers to lunch and expecting a purchase order in return. And finally, deals have changed. Today, deals are rarely about just one price for one product. Buyers now find themselves buying products and services that include software, maintenance agreements, training, field service, supplier-managed inventory and a host of other things. Requirements are based on tight forecasts, Sales and Operations Planning (S&OP), and Lean principles. Buys are likely to be international, whether the buyer is purchasing from a local distributor or buying directly from overseas. Internal buying is complicated by currency, culture, communications and global time zones. All of this means more complexity in every buy as well as many new opportunities for far better negotiations. This book is written by two people with 50 plus years of experience on both the buy and sell sides of deals. The benefit to readers is an understanding of holistic thinking and analysis based on multiple internal customer needs on the buy side and multiple stakeholders on the sales side.

[Narrative Methods for Organizational & Communication Research, David M. Boje](#) , 2001, 0761965874, 9780761965879.

`The book is a unique and excellent introduction to postmodern narrative analyses' - Organization Studies` [This book] should succeed in putting the metaphorical cat amongst just about every metaphorical pigeon that might imaginably take flight within the organization and communication research arenas. Story time will never be the same again, nor will interpretative research' - Stewart Clegg, University of Technology, Sydney` Timely and first rate. It nicely stretches a reader's thinking about the topic' - Thomas Lee, University of Washington, School of Business` David Boje is a pioneering theorist in organization studies and management... [His book] is yet another example of Boje's pioneering spirit and concern for exactitude. [His] scholarly account of narrative and antenarrative methods is both corrective and exploratory of how stories must be understood in terms of their own internal dynamics, and not viewed as static entities. Boje's book is a magnificent start... A book that breaks new ground in organizational analysis, this is a must-read for researchers and practitioners in the fields of organization and management studies' - Adrian Carr, University of Western Sydney` Boje masterfully shows how to analyze texts and ideas before they are reduced and fitted into the dominant ideological frameworks of the day. [He] provides a powerful tool for achieving greater democracy in how we approach doing social science... [and] liberates our capacity to make meanings for ourselves' - Paul Hirsch, Northwestern University, Kellogg Graduate School of Management` This is an important book. It is a major methodological contribution to critical, postmodern studies of organizations and management. It is essential reading for critical management scholars' - Robert P. Gephart, Jr., University of Alberta School of Business` David Boje has emerged as the leading postmodern thinker in management theory and organization science. His prolific output lights the path for others to follow in a field awakening to the challenge of postmodern critical theory. Updating and revising narrative theory for the prevailing "postmodern condition," Boje masterfully reconstructs the concepts and methods of storytelling, as he subverts the dominant principles

of modernist organization theory. He offers a subtle and complex notion of narrative... This impressive book should leave an indelible mark on management and organization studies' - Steven Best, University of Texas, El Paso

An essential guide for academics and researchers needing to look at alternative discourse analysis strategies. As a research tool, narrative methods have become increasingly useful in organization studies, where much research involves the interpretation of 'stories' in some form. This methodology can be applied where qualitative story analyses can help to assess interview, newspaper or web document stories for research projects. In this book, Boje sets out eight analysis options that can deal with storytelling, recognizing that stories in organizations can be self-destructing, flowing, networking and not at all static. In so doing, he shows ways in which narrative methods can be supplemented by 'antenarrative' methods, where fragmented and collective storytelling can be interpreted. A valuable resource that will be widely used in organizational or communications research, for graduate level qualitative methods seminars and by researchers wanting to do story analysis. David Boje is Professor at the New Mexico State University. He is also on the editorial board of the journal *Organization*.

This book is the first to contain an in-depth study of environmental issues relating to the Baltic Sea, a body of water bordered by the USSR, Latvia, Lithuania, Estonia, Finland, Sweden, Denmark, Poland, & Germany. It analyzes the Helsinki Convention, the principal legal instrument on the protection of the Baltic Sea, & gives a unique insight into the practice developed on the basis of the convention. The reader is presented with an overall picture of the contemporary activities of the Helsinki Commission, & with all the latest developments, including the pending revision of the Helsinki Convention. The main bulk of the book is based on documents issued by the Helsinki Commission, but is also a result of interviews conducted by the author with experts on the Baltic Sea environment from the coastal States. The detailed analysis of the Helsinki

Convention is accompanied by a consideration of Conventions which protect the North Sea, such as the Paris & Oslo Conventions. The link between the Helsinki Convention & the European Community due to the participation in both Denmark & Germany is of great significance, & it means that a quit extensive picture of EC environmental policy, itself a very topical subject, is to be found in the book. The environmental protection of the Baltic Sea is put into the context of general issues of the theory of international law, & an analytical survey of the legal character of the acts of the Helsinki Commission is given, ensuring that the book will become the standard treatise on its topic.

[Animals in Action: A Book for Young Readers, Lorraine Salem Tufts](#) , 1995, 0962025550, 9780962025556. A bald eagle leaps from a tree... bison lock horns in battle... & grizzly bears snatch fish from a river in the pages of ANIMALS IN ACTION. Thrilling photos of these & other animals combine with stories & facts about life in the wild to create a must for any family library & a unique resource for elementary & middle school educators. A six year long survey of the books checked out by elementary & middle school students shows an increased interest in wildlife photography over illustrations. Young readers want stories about habitat, survival behavior & daily activities. One reason for this increase is that elementary & middle schools are continually adding courses about wildlife, endangered species, ecosystems & our national parks to their curriculum. ANIMALS IN ACTION gives them what they want: stories & annotations about life in the wild & individual animal behavior, combined with over 30 dynamic full-color photos. Not only is this information fun to read, but it is also scientifically correct, making ANIMALS IN ACTION a must for the family library. Other books by

In an eye-opening collection of real-life stories, Aiming Higher profiles courageous CEOs, managers, and employees who view social challenges not as burdens but as opportunities - to create new

markets, build motivated work forces, and attract loyal customers. They are aiming higher. Who are these business heroes and heroines? Each year, The Business Enterprise Trust - founded by television writer and producer Norman Lear - honors five companies or individuals who have shown breakthrough leadership in combining sound business management with social conscience. Aiming Higher presents the stories of 25 of these honorees. These inspiring narratives illuminate the complicated, gritty management challenges being met and overcome by public-spirited businesspeople. The stories are about all kinds and sizes of businesses, ranging from Xerox to Vermont National Bank to the White Dog Cafe. These compelling profiles include a local school bus company that has become a powerful engine for personal growth, new jobs, and economic revitalization in a troubled inner-city neighborhood; a small travel agency that has grown to be the third-largest agency in the world by making employee satisfaction a top priority; a stock photography agency that has become a pacesetter by promoting the use of non-stereotyped, "real-life" images of women, minorities, and people with disabilities; and a bank that initiated a lending program for low-income customers. [The Great Urban Transformation: Politics of Land and Property in China, You-tien Hsing](#) , 2010, 0199568049, 9780199568048. As China is transformed, relations between society, the state, and the city have become central. The

Great Urban Transformation investigates what is happening in cities, the urban edges, and the rural fringe in order to explain these relations. In the inner city of major metropolitan centers, municipal governments battle high-ranking state agencies to secure land rents from redevelopment projects, while residents mobilize to assert property and residential rights. At the urban edge, as metropolitan governments seek to extend control over their rural hinterland through massive-scale development projects, villagers strategize to profit from the encroaching property market. At the rural fringe, township leaders become brokers of power and property between the state bureaucracy and villages, while large numbers of peasants are dispossessed, dispersed, and deterritorialized, and their mobilizational capacity is consequently undermined. The Great Urban Transformation explores these issues, and provides an integrated analysis of the city and the countryside, elite politics and grassroots activism, legal-economic and socio-political issues of property rights, and the role of the state and the market in the property market.

[The Life and Works of Tolomeo Fiadoni \(Ptolemy of Lucca\), James M. Blythe](#) , 2009, 2503529232, 9782503529233.

Tolomeo Fiadoni (1236-1327) was one of the most remarkable of medieval writers. Living to almost one hundred years of age, Tolomeo bore witness to some of the most important events of the period. He studied and travelled with Thomas Aquinas and was elected Dominican prior in Lucca and Florence. He attended the saintly Pope Celestine V during Celestine's doomed reign, lived at the papal court in Avignon, served in the households of two cardinals, and associated with the infamous Pope John XXII. At the age of eighty, Tolomeo was appointed bishop of Torcello in the Venetian Lagoon, where his superior, the Patriarch of Grado, subsequently excommunicated and jailed him. Tolomeo is known today for his major contribution to republican political thought, most notably his continuation of Thomas Aquinas's only political treatise. However, he also wrote treatises on imperial and ecclesiastical power, a commentary on the six days of creation, a massive Church history, and a European history from 1063 onward. Drawn from all known surviving sources, *The Life and Works of Tolomeo Fiadoni* is the first full-length study of Tolomeo's life. It discusses each of his works, and addresses numerous problems of authorship and dating. Its companion volume, *The Worldview and Thought of Tolomeo*

Fiadoni (Ptolemy of Lucca), provides an in-depth analysis of Tolomeo's beliefs and thought.

Lord of the Flies remains as provocative today as when it was first published in 1954, igniting passionate debate with its startling, brutal portrait of human nature. Though critically acclaimed, it was largely ignored upon its initial publication. Yet soon it became a cult favorite among both students and literary critics who compared it to J.D. Salinger's The Catcher in the Rye in its influence on modern thought and literature. Labeled a parable, an allegory, a myth, a morality tale, a parody, a political treatise, even a vision of the apocalypse, Lord of the Flies has established itself as a true classic. And now readers can own it in a beautifully designed hardcover edition worthy of its stature.

[The Minority Voice: Hubert Butler and Southern Irish Protestantism, 1900-1991, Robert Tobin](#) , 2012, 0199641560, 9780199641567. 'How do such people, with brilliant members and dull ones, fare when they pass from being a dominant minority to being a powerless one?' So asked the Kilkenny man-of-letters Hubert Butler (1900-1991) when considering the fate of Southern Protestants after Irish Independence. As both a product and critic of this culture, Butler posed the question repeatedly, refusing to accept as inevitable the marginalization of his community within the newly established

state. Inspired by the example of the Revivalist generation, he challenged his compatriots to approach modern Irish identity in terms complementary rather than exclusivist. In the process of doing so, he produced a corpus of literary essays European in stature, informed by extensive travel, deep reading, and an active engagement with the political and social upheavals of his age. His insistence on the necessity of Protestant participation in Irish life, coupled with his challenges to received Catholic opinion, made him a contentious figure on both sides of the sectarian divide. This study addresses not only Butler's remarkable personal career, but also some of the larger themes to which he consistently drew attention: the need to balance Irish cosmopolitanism with local relationships; to address the compromises of the Second World War and the hypocrisies of the Cold War; to promote a society in which constructive dissent might not just be tolerated but valued. As a result, by the end of his life, Butler came to be recognised as a forerunner of the more tolerant and expansive Ireland of today.

[America's Three Regimes : A New Political History: A New Political History, Morton Keller Professor of History Brandeis University](#) , 2007, 0198043570, 9780198043577. When historians take the long view, they look at "ages" or "eras" (the Age of Jackson, the Progressive Era). But these time spans last no longer than a decade or so. In this groundbreaking new book, Morton Keller divides our nation's history into three regimes, each of which lasts many, many decades, allowing us to appreciate, as never before, the slow steady evolution of American public life. Americans like to think of our society as eternally young and effervescent. But the reality is very different. A proper history of America must be as much about continuity, persistence, and evolution as about transformation and revolution. To provide this proper history, Keller groups America's past into three long regimes--Deferential and Republican, from the colonial period to the 1820s; Party and Democratic, from the 1830s to the 1930s; and Populist and Bureaucratic, from the 1930s to the present. This approach yields many new insights. We discover, for instance, that the history of colonial America, the Revolution, and the Early Republic is a more unified story than usually assumed. The Civil War, industrialization, and the Progressive era did relatively little to alter the character of the democratic-party regime that lasted from the 1830s to the 1930s. And the populist-bureaucratic regime in which we live today has seen changes in politics, government, and law as profound as those that occurred in the late 18th and early 19th centuries. As Keller underscores the sheer staying power of America's public institutions, he sheds light on current concerns as well: in particular, will the current political polarization continue or will more moderate forces prevail. Here then is a major contribution to United States history--an entirely new way to look at our past, our present, and our future--packed with provocative and original observations about American public life.

[The Young Waitress, Michael Eads](#) , 2009, 0979848474, 9780979848476. The Young Waitress is dark, seductive tale of the Internet dating perils of a recently divorced man. After a fourteen year marriage, Joe becomes obsessed with Internet dating. His unquenchable need to fill the void of loneliness from his divorce, leads him to The Young Waitress. She is in nineteen-year-old drug addict nymphomaniac with dark secrets. Joe is drawn to her for reasons he cannot explain. Enter into the world of a man trying to put his life back together after divorce while be devoured by a young seductress whose only goal is to satisfy her sexual appetite.-- Red San Publishing EXCERPT: After about a month Joe started to adjust to his new home and roommates, his cats eventually came out of hiding and settled in to their new environment. John the convict was a gourmet chef. Joe and Adam were enjoying the best cooked meals they ever had. John had a deliberate

approach in his preparation of every meal. Soups were gently stirred to perfection as he slowly added fresh vegetables and meat. He carefully molded dough in his working hands and then would craft freshly baked pot pies full of sliced meat and vegetables. John was skillful in his trade and took pride in creating masterpieces. Joe enjoyed watching him prepare their meals almost as much as he enjoyed eating them. The problem; he always made way too much food. There were only three men living in Adam's house but John would make enough for five. And cleaning up the mess each night became an epic event. John and Adam already had some semblance of potbellies. Joe was about six-feet tall and weighed 175 pounds. He was petrified of getting fat. Even though he ran almost 30 miles a week he was putting on weight. In spite of his nervous energy and high-octane furnace, Joe could not burn all the calories he was taking in from John's gourmet cooking. But the food was so damn good. Adam and John would spend a lot of time watching TV in the living room. Joe finally reclaimed the section of the house that was originally intended for him just inside the garage area. John reluctantly handed over the garage-door-opener because Joe still had most of his stuff in the garage. Now Joe had the setup that Adam had promised him before John muddied the waters, with Adam's help. Joe tapped into Adam's Internet access and hooked up his wife's old computer. It was a painfully slow dial-up but Joe was a patient man. While Adam and John were watching old episodes of *All in the Family*, Joe was being introduced to the enormity of the Internet. It was overwhelming. Too much information! Everything was right there in front of him. He heard about the Internet and how Al Gore had invented it. Too bad Joe did not believe politicians. Right now, he was having trouble believing in himself. The pain of his divorce reinvented itself every day. Some days he took steps forward only to discover later he was right back where he started with no wife and an uncertain future. ABOUT THE AUTHOR: Michael Eads is a budding new writer who loves the written word. He is the author of *A Man's Feelings: Finding Closure after Divorce*. He lives in Seattle.

It has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 3.0 license and is part of the OAPEN-UK research project. The idea of cultural heritage as an 'international public good' can be traced back to the Preamble of the 1954 Hague Convention for the Protection of Cultural Property in the Event of Armed Conflict, according to which "damage to cultural property belonging to any people whatsoever means damage to the cultural heritage of all mankind". How this idea of cultural heritage as a global public good can be reconciled with the effective enforcement of protection norms is the subject of this study. Bringing together world experts

in protecting cultural heritage, *Enforcing International Cultural Heritage Law* examines the different ways that cultural heritage property can be protected, including protection at the international level, enforcement in domestic courts, and the role of alternative dispute resolution mechanisms. The book is divided into three sections. The first section assesses international law and analyses the interaction between international and domestic norms of public and private law. It discusses the different methods of international enforcement, the role of international and mixed criminal tribunals and courts, and the means for protecting cultural heritage in times of armed conflict. The second section addresses the role of national courts, discussing such topics as: barriers to domestic enforcement of international norms, the refusal to enforce foreign law, the difficulty of territorial boundaries in relation to underwater heritage, and the application of criminal sanctions by domestic courts. The final section of the book surveys alternatives to the legal enforcement of the norms protecting cultural heritage, including arbitration, soft law, and diplomacy.

Signed limited edition In a stunningly original mix of poetry, drama, and narrative, Anne Carson brings the red-winged Geryon from *Autobiography of Red*, now called 'G', into manhood, and through the complex labyrinths of the modern age. We join him as he travels with his friend and lover 'Sad' (short for Sad But Great), a war veteran; and with Ida, an artist, across a geography that ranges from plains of glacial ice to idyllic green pastures; from a psychiatric clinic to the sombre house where G's mother must face her death. Haunted by Proust, juxtaposing the hunger for flight with the longing for family and home, this deeply powerful picaresque verse invites readers on an extraordinary journey of intellect, imagination, and soul.

When through design and circumstance the British found themselves in possession of large parts of India, they had little idea of its arts and civilization, let alone any obvious interest in doing anything to promote or preserve Indian culture. Yet, by the time the British flag was lowered, the state had accepted some responsibility for the arts, which was extensive in some respects. Though India does not, as yet, have a comprehensive arts policy, there is an accepted and serious state commitment to the arts, the result of an evolution of ideas and actions over a period of time. The book traces this evolution from 1773, with the establishment of British rule in Bengal, to 1947, when power was handed over to an indigenous government. What motivated a non-indigenous government to intervene in the arts and for what aim? What and who influenced the state and shaped its policies? What were these policies and how were the choices made? How were they implemented? What was the effect on the arts? What legacy did the British government in India leave for its successor? These are some of the questions the book attempts to answer.

This bottom-up approach to nanotechnology is already being pursued in information technology, with many other branches about to follow. Written by a team of experienced authors headed by Vincenzo Balzani, one of the pioneers in the development of molecular machines. Covers such diverse aspects as sensors, memory components, solar energy conversion, biomolecules as molecular machines, and much more. Presented in a lucid style and didactically structured, with both the expert and the newcomer in mind. Includes a glossary of terms and numerous references to the recent literature. [Border Music, Robert James Waller](#) , 1995, 0446518581, 9780446518581. Most people don't run out the back door of a place called the Rainbow Bar in Dillon, Minnesota, with someone they don't even know, get in a pickup truck, drive all day, and end up without any clothes on in a motel room. But that's what Texas Jack Carmine did with Linda Lobo. It was the kind of thing Jack was famous for doing. The people who knew Texas Jack Carmine - such as songwriter Bobby McGregor and Jack's uncle Vaughn Rhomer back in Iowa - called him God's only freeborn soul, rider of the summer roads, traveler of the far places. Where he was headed with dark-haired, long-legged Linda was not just back to his one-horse Texas ranch. It was somewhere he had never been: face to face with his own heart and the wild, strange things that live there. Border Music is the story of Jack and Linda, of long, hot days on a high desert ranch, nights wild with loving beneath West Texas skies, and times when their relationship tears them both apart. It's about Vietnam and the Midwest, and Vaughn Rhomer, an old man who, tries in his own fumbling way to be free. It's about men and women who work hard and care intensely, about romance and the passion that you only find once...and you never stop wanting to find again.

[Trail of an Incubus: A Novel, Iliya Englin](#) , 2006, 0958271100, 9780958271103. Contemporary Australia - a mature society with a defined cultural identity but not without rough edges, which make lives unnecessarily hard and complicated. Into this landscape drifts a demonic figure who calls himself Darius, who first appears in a short prologue, set in Southern Germany in the closing days of World War II. It turns out that alongside humans there exists another race, outwardly human but with far greater longevity and physical strength. Their intelligence is about the same or greater than human, albeit it with certain blind spots. They hate humanity for displacing them from the top of the food chain, and their character traits give rise to traditional demonic myths - an enemy moving amongst us, intelligent, resourceful and hostile - and in constant search for human virgins. Yet Darius does not merely wish to reproduce - he hopes that humanity is now such a self-evident failure, that it is possible to find women who will be willing accomplices in rebuilding his race and overthrow humans as the dominant species. He ruthlessly pursues this goal with all means at his disposal. Darius behaves as a magnet - all who meet him instinctively line up to serve him or to oppose him. But time is on his side.

[EMQs for MRCOG Part 2: A self-assessment guide: A self-assesment guide, Kalaivani Ramalingam, Latha Palanivelu, Jeremy Brockelsby, Christian Phillips](#) , 2008, 0340941693, 9780340941690. This book provides those studying for the MRCOG Part 2 examination with welcome practice in answering the newly introduced EMQ style of question. Modelled on the current MRCOG syllabus, the book is designed to test the candidate's theoretical and practical knowledge of obstetrics and gynaecology. The book opens with an introductory section, explaining the EMQ and its place in the examination, and advising candidates on how they should approach this question type to obtain the highest marks. This is followed by a collection of 71 EMQ themes, with a total of 291 questions for the reader to attempt. The questions are based on common clinical scenarios and cover a variety of topics. Answers are included after each topic, and these include explanatory material and useful references. With a concentration on the core areas of the syllabus and a wide and varied selection of practice EMQs, this book will be an invaluable addition to the bookshelves of all candidates in preparation for the MRCOG Part 2.

[Vivisect, Lisa Lewis](#) , 2010, 1930974922, 9781930974920. Poetry. "The remarkable dynamism of this book comes partly from the struggle it enacts between the confessional and postmodern modes. As the title VIVISECT suggests, Lewis often seems to slice right into the living body, exposing the heart itself still beating with its dark secrets. But if language is the scalpel, it is also the flesh, offering at times a tough or slippery resistance, and revealing, when penetrated, more language that leads in multiple and unexpected directions, yet, like the mind, keeps circling back irresistibly to the troubling subjects it most wants to avoid. The result is rich, powerful, and complex poetry that gathers more weight with each reading"--Jeffrey Harrison .

[Meg's Story, Susan Beth Pfeffer](#) , 2001, 0613371801, 9780613371803. Meg March is the perfect young lady. Her gracious manners and sweet personality make her very popular at school. And when she is invited to Mary Howe's fancy picnic, she badly wants to go. Nothing her tomboy sister, Jo, says against snobby Mary changes Meg's mind. Meg claims Jo is just jealous that she wasn't invited too. But on the big day, the March parents are visiting friends, and the housekeeper is called away on an emergency. Meg knows she should stay home to watch over her younger sisters -- even if it means not going to the picnic. Still, she doesn't want to miss the fun. And forgetting her manners, Meg does something that turns the picnic into an unforgettable afternoon.

[Sport in Britain: A Social History, Tony Mason](#) , 2011, 0521180651, 9780521180658. In this volume, which was originally published in 1989, nine distinguished historians look at the origins, growth and organisation of the major mass-participation sports in Britain. They combine academic expertise with the enthusiasm of the true sports devotee in considering such vital issues as the social background of players and spectators, gambling, public popularity, media coverage and the impact of television, professionalisation and of course the age-old divide between 'gentlemen' and 'players'. Richly illustrated with rarely seen period photographs, the ten essays combine academic research with entertaining anecdotal evidence derived from the folklore of each game. Of interest both to the student of modern British history and serious sports fans everywhere Sport in Britain: A Social History is a fascinating and wide-ranging contribution to its subject.

[New and selected poems: 1942-1997, John Tagliabue](#) , 1997, 0943373441, 9780943373447. John Tagliabue is one of the most highly praised and prolific American poets writing today. Born in Cantu (Como), Italy, in 1923, he has been a Fulbright professor in Pisa, Tokyo, Shanghai, and Jakarta, and is Professor Emeritus of English at Bates College. This book represents the first substantial collection of his work and it should win for him the recognition he has long deserved. It includes selections from his books -- Poems (1959). A Japanese Journal (1966). The Buddha Up roar (1970), The Doorless Door (1970), and The Great Day (1984) -- and some of the more than 1500 poems he has published in over 100 magazines."Tagliabue writes out of a deeply sacramental sense of nature and history ... It comes to this reader, poem by poem, as a Franciscan act of poetry and praise". -- Amy Clampitt"His poems seem to appear in the world as naturally as wildflowers". -- Denise Levertov"Like a thread of sanity in the general murk, a constant music". -- Hayden Carruth
