[Adaptive Spatial Alignment, Gordon M. Redding, Benjamin Wallace](#) , 1997, 0805823956, 9780805823950. For most people, prism adaptation is an amusing demonstration, first experienced perhaps in an introductory psychology course. This monograph relates this peculiar phenomenon to the larger context of cognitive science, especially motor control and learning. The first part sketches the background concepts necessary to understand the contribution of prism adaptation to the larger issue of adaptive perceptual-motor performance including: * a review of the basic concepts of motor control and learning that enable strategic response in the prism adaptation situation; * the development of a hypothesis about spatial representation and spatial mapping and an introduction to the basic idea of adaptive spatial alignment; and * a contrasting view of perceptual and motor learning and a review of evidence for the involvement of nonassociative and associative learning in prism adaptation. Directly concerned with data and theory in prism adaptation, the second part presents: * an outline of prism adaptation methodology and a list of several empirical conclusions from previous research that constrained development of theoretical framework; * a theory of strategic perceptual-motor control and learning which enables adaptive performance during prism exposure, but does not directly involve adaptive spatial alignment; * an extension of the theory to include realignment processes which correct for the spatial misalignment among sensorimotor systems produced by prisms; and * a demonstration of how traditional issues in prism adaptation may be rephrased in terms of the present theoretical framework. The last part of this volume reviews the research conducted in developing and testing the present theory of prism adaptation. It summarizes the initial investigations (employing a naturalistic exposure setting), reports some more rigorous tests with an experimentally constrained research paradigm, points out the more general theoretical issues raised by the authors' analysis of prism adaptation, and makes specific suggestions for further research within the prism adaptation paradigm.

[Let's Go Grammar and Listening Activity, Book 2, Oxford University Press, Ritsuko Nakata, Karen Frazier, Barbara Hoskins, Steve Wilkinson, Carolyn Graham](#) , 1996, 0194348989, 9780194348980. This volume combines a carefully controlled grammatical syllabus with functional dialogues to produce practical, natural-sounding English. This second edition follows the same syllabus as the first edition, but features an updated design and colourful new artwork.

[Simulating Humans : Computer Graphics Animation and Control: Computer Graphics Animation and Control, Computer and Information Sciences Norman I. Badler Chair, Institute for Research in Cognitive Science Cary B. Phillips Member, Bonnie Lynn Webber Department of Computer and Information Sciences all at the University of Pennsylvania](#) , 1993, 0195360869, 9780195360868. During the past decade, high-performance computer graphics have found application in an exciting and expanding range of new domains. Among the most dramatic developments has been the incorporation of real-time interactive manipulation and display for human figures. Though actively pursued by several research groups, the problem of providing a synthetic or surrogate human for engineers and designers already familiar with computer-aided design techniques was most comprehensively solved by Norman Badler's computer graphics laboratory at the University of Pennsylvania. The breadth of that effort as well as the details of its methodology and software environment are presented in this volume. The book is intended for human factors engineers interested in understanding how a computer-graphics surrogate human can augment their analyses of designed environments. It will also inform design engineers of the state of the art in human figure modeling, and hence of the human-centered design central to the emergent concept of concurrent engineering. In fulfilling these goals, the book additionally documents for the entire

computer graphics community a major research effort in the interactive control of articulated human figures.

[Selected Poems and Letters, Arthur Rimbaud](#) , 2004, 0141932341, 9780141932347. A phenomenally precious schoolboy, Rimbaud was still a teenager when he became notorious as Europe's most shocking and exhilarating poet. During his brief 5-year reign as the enfant terrible of French literature he produced an extraordinary body of poems that range from the exquisite to the obscene, while simultaneously living a life of dissolute excess with his lover and fellow poet, Verlaine. At the age of 21, he abandoned poetry and travelled across Europe before settling in Africa as an arms trader. This edition sets the two sides of Rimbaud side by side with a sparkling translation of his most exhilarating poetry and a generous selection of the letters from the harsh and colourful period of his life as a colonial trader.

[Numerology for the New Age, Lynn Buess](#) , 1978, 1622335848, 9781622335848. Our own vibrations and cyclical patterns are numerologically determined by our dates of birth and given names. By understanding these cycles, we can learn to more efficiently express our potential, human and divine. This volume concentrates more on the experiential value of numerology than the historical. Lynn Buess has come into national prominence since the success of his first book The Tarot and Transformation. His popularity as a speaker and instructor has taken him across the country many times to universities, churches, professional organizations, and New Age Centers of Light. He has appeared on numerous television shows and on radio talk shows from coast to coast. Although his work with Tarot and Numerology causes most people to associate him with symbolical studies, Lynn spends most of his time today working with various alternative metaphysical healing methods. Since his gift of healing awakened years ago, he has demonstrated and taught numerous techniques of psycho-spiritual healing. He is also the author of Synergy Session(R), which teaches an entirely new system of multiple-level wholistic counseling/healing. Along with his national tours, he has taught courses on parapsychology, healing, Tarot, meditation, and self-awareness at several colleges and one university within the University System of Georgia. As a tireless worker, Lynn is dedicated to bringing sincere seekers into a deeper awareness of the LIGHT within.

[Fiction and the Weave of Life, John Gibson](#) , 2012, 0199642575, 9780199642571. Literature is a source of understanding and insight into the human condition. Yet ever since Aristotle, philosophers have struggled to provide a plausible account of how this can be the case. For surely the fictionality - the sheer invented character - of the literary work means that literature concerns itself not with the real world but with other worlds - what are commonly called fictional worlds. How is it, then, that fictions can tell us something of consequence about reality? In *Fiction and the Weave of Life*, John Gibson offers a novel and intriguing account of the relationship between literature and life, and shows that literature's great cultural and cognitive value is inseparable from its fictionality and inventiveness.

[Compiling the Collatio Legum Mosaicarum et Romanarum in Late Antiquity, Robert M. Frakes](#) , 2011, 0199589402, 9780199589401. The expansion of Christianity and the codification of Roman law are two of the most significant facets of late antiquity. The Collatio Legum Mosaicarum et Romanarum, or Collation of the Laws of Moses and the Romans, is one of the most perplexing works of late antiquity: a law book compiled at the end of the fourth century by an anonymous editor who wanted to show the similarity between laws of the Hebrew Bible, or Old Testament, and Roman law. Citing first laws from the Hebrew Bible - especially from Exodus, Leviticus, and Deuteronomy which he believed were written by Moses - the anonymous Collator then compared corresponding passages from Roman jurists and from Roman laws to form discussions on sixteen topics such as homicide, adultery, homosexuality, incest, and cruelty towards slaves. While earlier scholars wrestled with dating the Collatio, the religious identity of the Collator, and the purpose of the work, this book suggests that the Collator was a Christian lawyer writing in the last years of the fourth century in an attempt to draw pagan lawyers to seeing the connections between the law of a monotheistic God and traditional Roman law. Frakes's volume presents a five-chapter historical study of the Collatio with a revised Latin text, new English translation, and a historical and juristic commentary.

Adventure... Magic... Mystery... A hint of Romance... The power to rule the night... What more could a girl ask for. Red Riding is an action-packed paranormal novel with an exciting twist on the classic fairytale. This time Red will not only have to face dangerous wolves; she will have to face the wolf within herself. Gifted and cursed with the ability to transform into a powerful werewolf, she will rise to become a legendary warrior known as The Alpha Hunter... Red will join forces with bad-boy, Wolfgang Helheim, and a circle of her best friends who have mystical powers of their own. Together they will wage a supernatural war to protect Wayward from malevolent werewolves, witches and many other dangerous creatures, all the while resisting the temptation of stumbling down a path of darkness. Only through this can Red hope to save Wayward and the world from falling under the control of those who seek to bring chaos, thrust the world into eternal night, and allow malevolent werewolves to overrun the Earth.

[China's New Confucianism: Politics and Everyday Life in a Changing Society, Daniel A. Bell](#) , 2010, 1400834821, 9781400834822. What is it like to be a Westerner teaching political philosophy in an officially Marxist state? Why do Chinese sex workers sing karaoke with their customers? And why do some Communist Party cadres get promoted if they care for their elderly parents? In this entertaining and illuminating book, one of the few Westerners to teach at a Chinese university draws on his personal experiences to paint an unexpected portrait of a society undergoing faster and more sweeping changes than anywhere else on earth. With a storyteller's eye for detail, Daniel Bell observes the rituals, routines, and tensions of daily life in China. China's New Confucianism makes the case that as the nation retreats from communism, it is embracing a new Confucianism that offers a compelling alternative to Western liberalism. Bell provides an insider's account of Chinese culture and, along the way, debunks a variety of stereotypes. He presents the startling argument that Confucian social hierarchy can actually contribute to economic equality in China. He covers such diverse social topics as sex, sports, and the treatment of domestic workers. He considers the 2008 Olympics in Beijing, wondering whether Chinese overcompetitiveness might be tempered by Confucian civility. And he looks at education in China, showing the ways Confucianism impacts his role as a political theorist and teacher. By examining the challenges that arise as China adapts ancient values to contemporary society, China's New Confucianism enriches the dialogue of possibilities available to this rapidly evolving nation. In a new preface, Bell discusses the challenges of promoting Confucianism in China and the West.

[East Anglia 1945, R. Douglas Brown](#) , 1994, 0861381025, 9780861381029. This volume completes a record of World War II as experienced by the people of East Anglia. It presents a social history of a region that was nearest the battle fronts; from its air bases, British and American armadas conducted their bombing assault on the enemy; the Royal Navy sailed from its ports to fight the E-boats; its factories produced aircraft and munitions; its vast farmlands helped to feed the population; and its townspeople of every Allied nation made acquaintance. East Anglian regiments of the Army were involved in the whole field of conflict in France, Germany, the Low Countries and Italy, in Singapore, in the Burmese jungles and the Japanese prisoner-of-war camps.

[The Moral Rights of Authors and Performers: An International and Comparative Analysis, Elizabeth Adeney](#) , 2006, 0199284741, 9780199284740. This book is a comprehensive guide to the development and utilization of authorial moral rights across the key jurisdictions of the English-speaking world and in France and Germany. In recent years, the copyright statutes of the common law countries have been expanded by the introduction of provisions dealing with purely authorial rights - moral rights. The Moral Rights of Authors and Performers discusses the historical development of the rights in Europe, with particular reference to France and Germany, and shows the growth of moral rights theory and legislative coverage up to the late 1930s. During the 1920s the moral rights of authors became the subject of international protection, particularly through the operation of the Berne Convention for the Protection of Literary and Artistic Works. The book explores the adoption of moral rights into this and other international instruments, explaining the functions that moral rights were intended to perform. The author gives detailed accounts of the operation of moral rights in France and Germany today, addressing both statutory interpretation and doctrinal issues. The provision of case studies gives an impression of the rich jurisprudence associated with the rights in these countries. The book also contains a detailed discussion of the versions of moral rights that have become entrenched in Canada, the UK, the US and Australia, with each country considered independently. It deals separately with the introduction of the rights into each country and their operation and interpretation by courts and commentators. Material on common law analogues to the rights is provided, which indicates alternative actions that practitioners might take. Problems of cross-jurisdictional legal proceedings (especially arising from technological transfer of information) are also addressed, with moral rights protection elsewhere in the world summarized in tabular form.

[Parallel Alices: Alice Through the Looking Glass of Eleanor of Aquitaine, Christopher Tyler](#) , 2013, 0972533087,

9780972533089. One of the best-loved and most scrutinized texts after Shakespeare and the Bible is the brace of Alice books, *Adventures in Wonderland* and *Through the Looking Glass*, written for a pair of real Alices by the pseudonymous Lewis Carroll; it would seem implausible that there is any aspect of them left unexamined. Yet there is one large-scale motif running through the two books that has essentially escaped critical attention - the pervasive mediaeval theme. It is remarkable that there seem to have been no previous suggestions for the sources of what is really the main context of the Alice stories, the mediaeval temperament of many of the characters. Much has been made of the Victorian underpinnings of the tales, and they have been analyzed from an impressively diverse range of perspectives. But, for some curious reason, the issue of the deep historical sources of the story lines seems never to have been addressed in the plethora of analyses of the works. How it could have escaped scrutiny, given the prevalence of the mediaeval themes throughout both texts, is difficult to understand, but the present treatment attempts to correct this omission with an extended comparison of numerous aspects of the sequences of events to those of the 12th century royal courts, in particular. 144 pages. Over 100 colour illustrations. Bibliography, index.

[Filboid Studge, the Story of a Mouse that Helped, Saki](#) , 2011, 0141968486, 9780141968483. 'Three weeks later the world was advised of the coming of a new breakfast food, heralded under the resounding name of 'Filboid Studge' H.H. Munro, better known by his pen name, Saki, wrote wickedly comic satires of upper-class Edwardian life. These seven short stories are macabre and extremely funny: they include a cat that is regrettably taught to speak, a vicious pet ferret worshipped as a god, a businessman triumphantly selling an unpalatable breakfast mush, and many dark twists and barbs. This book includes *Filboid Studge*, *a Story of a Mouse That Helped*, *Todermory*, *Mrs. Packetide's Tiger*, *Sredni Vashtar*, *The Music on the Hill*, *The Recessional* and *The Cobweb*.

[The E-waa, Robert C. Davis](#) , 1991, 0962994901, 9780962994906. "The E-Waa" is for children & for those who enjoy reading to them. It is a wonderful bedtime story. There's a freshness about the style & story that makes for delightful reading. The use of poetry to tell such a story adds to the charm of the book. Worthy to mention: the illustrations are graphic & heighten interest. An added dimension is that they are colorbook quality. The E-waa is a friendly beast that

tells Baby-waas stories at night with hopes of keeping them in bed. He tells his stories much the same way as humans do when trying to keep their children in bed at bedtime. He is a friendly fellow who loves to eat car parts. He loves his Baby-waas, & human children everywhere. Much to the dismay of the E-waa & She-waa, the Baby-waas sometimes sneak junk food at bedtime. The Baby-waas sorrowfully admit giving in to the temptation & eating their nightlight. The E-waa tells the Baby-waas a bedtime story about how human children look, play after bedtime, & sometimes eat junk food like Baby-waas do. The story teaches that viewpoint can make a difference in how much alike all are despite the differences.

[Entwined, , Elisabeth Naughton](#) , 2011, 1428514988, 9781428514980. ZANDERThe most feared of all the Eternal Guardians. It's rumored he can't be killed, and he always fights like he has nothing to lose. But as a descendant of the famed hero Achilles, he's got to have a vulnerability somewhere. Forces of daemons are gathering and have broken through the barriers of the Underworld. Now more than ever the Eternal Guardians are needed to protect both their own realm and the human world. Zander can't afford to think about what might have been with the bewitching physician he once regarded as his soul mate. But with eternity stretching before him, he also can't fathom spending his life without the one woman who makes him feel most alive. Perhaps he's found his weakness, after all

[Light Sweet Crude, Lj Charleston](#) , 2008, 0981747256, 9780981747255. Light Sweet Crude is a darkly comic story about

a one night stand that goes horribly wrong. Bradley Light is a lawyer. His life takes a drastic plunge when he murders a young woman. He gets away with it - only to find he has to defend the man accused of the crime he committed. Martin Black is the ruthless boss of the firm. He's stalking his wife, backstabbing his colleagues and he becomes involved in a bizarre relationship triangle, which sees him blamed for a murder he didn't commit. Grace Walker is a senior associate with a dark romantic secret. When she discovers she's been tricked into a bribery scandal, she plots to destroy the man who set her up.

[Nonlinear Optical Borate Crystals: Principals and Applications, Gerard Aka](#) , 2012, 3527410090, 9783527410095. This clear and self-contained review of the last four decades of research highlights in the hot field of nonlinear optical (NLO) crystals, particularly of borate-based ultraviolet and deep-ultraviolet NLO crystals, covers three major subjects: the structure-property relationship in borate crystals, the structural and optical characteristics of various promising borate crystals, and their fruitful applications in a wide range of scientific and technological fields. Edited by the discoverers and users of these optical borate crystals, this is a readily accessible reading for semiconductor, applied and solid state physicists, materials scientists, solid state chemists, manufacturers of optoelectronic devices, and those working in the optical industry.

[Old Testament Quotations in the New Testament: A Complete Survey, Gleason L. Archer, Gregory Chirichigno](#) , 2005, 1597520403, 9781597520409. "New Testament writers drew heavily from Old Testament Scriptures as the demonstrated the fulfillment of the plan and promises of God in Christ. The New Testament is filled with such quotations, but their use raises several problems. How do we account for the occasions when the New Testament writers seem to take liberties with the Hebrew text, or when the wording of other New Testament citations of the Old Testament is closer to the Greek Septuagint (LXX) than to the original Hebrew? [The authors] have undertaken a systematic study of the use of Old Testament quotations in the New Testament. In three parallel columns for ready reference and study they have affixed the Masoretic Hebrew, Septuagint, and Greek New Testament texts pertinent to each quotation. A fourth column-- the

largest segment of the valuable language tool--provides a critical commentary of orthographic, linguistic, and textual notes on the 312 entries. In addition, the authors include the results of a statistical survey in which every quotation is assigned to one of six levels to determine its degree of difficulty regarding the faithfulness of the New Testament to the Old Testament quotation. Helpful introductory material, including complete cross-references to the tool in both Old and New Testament order, make the work invaluable to scholars and students alike" -- BOOK JACKET from Moody Press.

[Honoring Sergeant Carter, Allene Carter, Robert L. Allen](#) , 2009, 0061746924, 9780061746925. Allene Carter's father-in-law was a decorated veteran. Yet it was not until the Carter family received a call from the White House that she discovered he was a heroic force in the Rhineland campaign. President Clinton awarded the Medal of Honor to several black soldiers who served in World War II. Sergeant Edward A. Carter Jr. was among the recipients. Shocked to learn the extent of Carter's service, Allene was determined to uncover both the truth about her father-in-law's wartime record and why his official recognition was so long in coming. Here is the story not only of Sergeant Carter but also of his family's fight to restore his honor. Theirs is a journey that takes them from local veterans organizations to the office of the president and front pages of the national media. An important piece of American history, Honoring Sergeant Carter is an enduring story of determination and family love.

Written by authors representing the diverse field of

clinical chemistry and diagnostics, reviews in *Advances in Clinical Chemistry* cover a range of cutting-edge research ranging from basic biochemical exploration to microarray technology.

[Vinyl Leaves: Walt Disney World and America, Stephen M. Fjellman](#) , 1992, 0813314739, 9780813314730. Walt Disney World is a pilgrimage site filled with utopian elements, craft, and whimsy. It's a pedestrian's world, where the streets are clean, the employees are friendly, and the trains run on time. All of its elements are themed, presented in a consistent architectural, decorative, horticultural, musical, even olfactory tone, with rides, shows, restaurants, scenery, and costumed characters coordinated to tell a consistent set of stories. It is beguiling and exasperating, a place of ambivalence and ambiguity. In "Vinyl Leaves" Professor Fjellman analyzes each ride and theater show of Walt Disney World and discusses the history, political economy, technical infrastructure, and urban planning of the area as well as its relationship with Metropolitan Orlando and the state of Florida."Vinyl Leaves" argues that Disney, in pursuit of its own economic interests, acts as the muse for the allied transnational corporations that sponsor it as well as for the world of late capitalism, where the commodity form has colonized much of human life. With brilliant technological legerdemain, Disney puts visitors into cinematically structured stories in which pieces of American and world culture become ideological tokens in arguments in favor of commodification and techno-corporate control. Culture is construed as spirit, colonialism and entrepreneurial violence as exotic zaniness, and the Other as child.Exhaustion and cognitive overload lead visitors into the bliss of Commodity Zen--the characteristic state of postmodern life. While we were watching for Orwell, Huxley rode into town, bringing "soma, " cable, and charge cards--and wearing mouse ears. This book is the story of our commodity fairyland.

[Introduction to Biomedical Instrumentation: The Technology of Patient Care, Barbara Christe](#) , 2009, 1139477536, 9781139477536. This book is designed to introduce the reader to the fundamental information necessary for work in the clinical setting, supporting the technology used in patient care. Beginning biomedical equipment technologists can use this book to obtain a working vocabulary and elementary knowledge of the industry. Content is presented through the inclusion of a wide variety of medical instrumentation, with an emphasis on generic devices and classifications; individual

manufacturers are explained only when the market is dominated by a particular unit. Designed for the reader with a fundamental understanding of anatomy, physiology, and medical terminology appropriate for their role in the health care field and assumes the reader's understanding of electronic concepts, including voltage, current, resistance, impedance, analog and digital signals, and sensors. The material covered will assist the reader in the development of his or her role as a knowledgeable and effective member of the patient care team.

[Secret Water, Arthur Ransome](#) , 2001, 0099427230, 9780099427230. The Swallows are marooned with just a little sailing boat for company. Will they survive their chance to become true explorers? When the Walker family's holiday plans are ruined by Daddy having to work, the whole summer seems lost at sea. But a dull holiday for the children is too miserable to bear so their parents hatch a plan. The Swallows are to be marooned on an island with only a blank map and a little sailing dinghy. Their task? To explore and chart the area, avoid the endless mud and survive. And what do they discover? Well, they might not be as alone as they first thought.

[Waltzing Australia, Cynthia Clampitt](#) , 2007, 1419663062, 9781419663062. Waltzing Australia was born out of a dream and a journey. After walking away from her corporate career, Cynthia Clampitt headed to Australia, to start over, to write, and to test the limits of what she could do. Waltzing Australia recounts that joyous adventure. It is a story about change and about making dreams come true. But more than that, it is about Australia: the history, legends and art, both European and Aboriginal; the beauty, the challenge, the people, the land. From Sydney to Perth, Tasmania to Darwin, tropics to desert, city to wilderness, Clampitt carries the reader along on an exhilarating grand tour of a fascinating country. With a writing style reminiscent of Annie Dillard, she captures the essence of the land Down Under and invites others to fall in love with Australia.

[Programmer's Guide to Drupal, Jennifer Hodgdon](#) , 2013, 1449343317, 9781449343316. If you're a web programmer new to Drupal, this book shows you which programming techniques you can use and which you should avoid when building custom web applications with this content management framework. Drupal has its own set of programming principles that require a different approach, and many programmers make mistakes when relying on skills they've used for other projects. The guidelines in this book help you through the transition by demonstrating which programming practices conform to the Drupal way, and which don't. If you're familiar with PHP, you'll quickly learn how to take advantage of the powerful Drupal API. Get a complete overview of Drupal, including Drupal core and add-on modules and themes. Learn Drupal's basic programming principles, such as the ability to customize behavior and output with hooks. Discover common Drupal programming mistakes and why hacking is one of them. Explore specific areas where you can put your programming skills to work. Learn programming tips and tools to help you perfect and debug your applications.

[Media in the Digital Age, John Vernon Pavlik](#) , 2013, 0231512139, 9780231512138. Digital technologies have fundamentally altered the nature and function of media in our society, reinventing age-old practices of public communication and at times circumventing traditional media and challenging its privileged role as gatekeepers of news and entertainment. Some critics believe these technologies keep the public involved in an informed discourse on matters of public importance, but it isn't clear this is happening on a large scale. Propaganda disguised as news is flourishing, and though interaction with the digital domain teaches children valuable skills, it can also expose them to grave risks. John V. Pavlik critically examines our current digital innovations: blogs, podcasting, peer-to-peer file sharing, on-demand

entertainment, and the digitization of television, radio, and satellites and their positive and negative implications. He focuses on present developments, but he also peers into the future, foreseeing a media landscape dominated by a highly fragmented, though active audience, intense media competition, and scarce advertising dollars. By embracing new technologies, however, Pavlik shows how professional journalism and media can hold on to their role as a vital information lifeline and continue to operate as the tool of a successful democracy.

[Better, Gawande](#) , , . Riveting Accounts Of Medical Failure And Triumph, And How Success Is Achieved In A Complex And Risk-Filled Profession The Struggle To Perform Well Is Universal, And Nowhere Is The Drive To Do Better More Important Than In Medicine, Where Lives Are On The Line With Every Decision. In His New Book, Atul Gawande Explores How Doctors Strive To Close The Gap Between Best Intentions And Best Performance In The Face Of Obstacles That Sometimes Seem Insurmountable. Gawande's Gripping Stories Of Diligence And Ingenuity Take Us To Battlefield Surgical Tents In Iraq, Delivery Rooms In Boston, A Polio Outbreak In India, And Malpractice Courtrooms In The Us. He Discusses The Ethical Dilemmas Of Doctors Participation In Lethal Injections, Examines The Influence Of Money On Modern Medicine, And Recounts The Contentious History Of Hand Washing. And As In All His Writing, Gawande Gives Us An Inside Look At His Own Life As A Surgeon, Offering A Firsthand Account Of Work In A Field Where Mistakes Are Both Unavoidable And Unthinkable.

[Tibetan Yoga and Secret Doctrines, Or, Seven Books of Wisdom of the Great Path, According to the Late Lma Kazi Dawa-Samdup's English Rendering ;, Walter Yeeling Evans-Wentz](#) , 2000, 0195133145, 9780195133141. Books, audiotapes, and classes about yoga are today as familiar as they are widespread, but we in the West have only recently become engaged in the meditative doctrines of the East--only in the last 70 or 80 years, in fact. In the early part of the 20th century, it was the pioneering efforts of keen scholars like W. Y. Evans-Wentz, the late editor of this volume, that triggered our ongoing occidental fascination with such phenomena as yoga, Zen, and meditation. Tibetan Yoga and Secret Doctrines--a companion to the popular Tibetan Book of the Dead, which is also published by Oxford in an authoritative Evans-Wentz edition--is a collection of seven authentic Tibetan yoga texts that first appeared in English in 1935. In these pages, amid useful photographs and reproductions of yoga paintings and manuscripts, readers will

encounter some of the principal meditations used by Hindu and Tibetan gurus and philosophers throughout the ages in the attainment of Right Knowledge and Enlightenment. Special commentaries precede each translated text, and a comprehensive introduction contrasts the tenets of Buddhism with European notions of religion, philosophy, and science. Evans-Wentz has also included a body of orally transmitted traditions and teachings that he received firsthand during his fifteen-plus years of study in the Orient, findings that will interest any student of anthropology, psychology, comparative religion, or applied Mahayana Yoga. These seven distinct but intimately related texts will grant any reader a full and complete view of the spiritual teachings that still inform the life and culture of the East. As with Evans-Wentz's other three Oxford titles on Tibetan religion, which are also appearing in new editions, this third edition of *Tibetan Yoga and Secret Doctrines* features a new foreword by Donald S. Lopez, author of the recent *Prisoners of Shangri-La: Tibetan Buddhism and the West*.

[Projections of Education Statistics to 2002, Issues 65-479, Debra E. Gerald, William J. Hussar](#) , 1991, 0160360293, 9780160360299. This edition, 21st in a series, provides revisions of projections shown in the preceding volume and includes statistics on elementary and secondary schools and institutions of higher learning at the national level. Data include projections for enrollment, graduates, instructional staff, and expenditures to the year 2002. Selected projections are also given for the state level. This edition also includes a section on new developments in projecting education statistics that includes enrollment projections by race and ethnicity. A methodology section describes the ways that projections are made and the models used. Most projections include three or four alternatives based on different assumptions about growth. Public and private school enrollments are projected to increase in the period, passing the 1971 peak, with a reversal in the recent decline in secondary school enrollments. While enrollment in higher education is expected to increase, the rate of growth is expected to slow after 1990. Increases in the numbers of classroom teachers and in expenditures per pupil are also forecasted. State level K-12 public school enrollment and public high school graduates are expected to increase, but these increases will vary across the nation. Five technical appendices contain details about the projection methodology; and present supplementary tables, a table of mean absolute percentage errors, an outline of data sources, and a glossary. The text contains 100 figures and 46 tables, and the appendices contain an additional 34 tables. (SLD)

[The Medicines for Human Use and Medical Devices \(Fees Amendments\) Regulations 2004, Great Britain](#) , 2004, 0110488911, 9780110488912. [The Adventure of Reason: Interplay Between Philosophy of Mathematics and Mathematical Logic, 1900-1940, Paolo Mancosu](#) , 2010, 0199546533, 9780199546534. Paolo Mancosu presents a series of innovative studies in the history and the philosophy of logic and mathematics in the first half of the twentieth century. The Adventure of Reason is divided into five main sections: history of logic (from Russell to Tarski); foundational issues (Hilbert's program, constructivity, Wittgenstein, Gdel); mathematics and phenomenology (Weyl, Becker, Mahnke); nominalism (Quine, Tarski); semantics (Tarski, Carnap, Neurath). Mancosu exploits extensive untapped archival sources to make available a wealth of new material that deepens in significant ways our understanding of these fascinating areas of modern intellectual history. At the same time, the book is a contribution to recent philosophical debates, in particular on the prospects for a successful nominalist reconstruction of mathematics, the nature of finitist intuition, the viability of alternative definitions of logical consequence, and the extent to which phenomenology can hope to account for the exact sciences.

[Shrubs of Ontario, ISSN 0082-5093, James Herbert Soper, Margaret L. Heimburger](#) , 1982, 0888542836, 9780888542830. [Halloween Classics, Tom Pomplun](#) , 2012, 0982563051, 9780982563052. Halloween Classics presents five scary tales for the holiday, each with an EC-style introduction by famed horror author Mort Castle. Featured are Nathaniel Hawthorne's "The Legend of Sleepy Hollow", Arthur Conan Doyle's mummy tale "Lot No. 249", Mark Twain's "A Curious Dream", and H.P. Lovecraft's "Cool Air". Plus, a comics adaptation of the great silent film "The Cabinet of Dr. Calligari", illustrated by Matt Howarth, with a terrifying cover by Simon Gane.

[Islam in Transition: Muslim Perspectives, John J. Donohue, John L. Esposito](#) , 1982, 0195030230, 9780195030235. This sourcebook of fifty-seven modern Islamic writings shows the tensions inherent in the struggle of Muslims to maintain their religious identity in the modern world. Here Muslims speak for themselves, revealing the diversity of Islamic thought.

[A Concise History of U.S. Foreign Policy, Joyce P. Kaufman](#) , 2010, 0742567109, 9780742567108. Now in a fully updated edition, A Concise History of U.S. Foreign Policy offers a conceptual and historical overview of American foreign relations from the founding to the present. Compact and accessible, the text provides students with a clear and concise

understanding of key decisions and why they were made. Joyce P. Kaufman introduces the major themes that have driven the making of U.S. foreign policy, with an emphasis on the importance of economics and trade as well as the relevant political issues of the time to both describe and explain critical decisions. Beginning with the question "what is foreign policy and why is it important?" the author shows the reader how foreign policy is relevant to everyone, and in some way touches all our lives. The book develops the themes historically to show how various presidents and administrations built upon the past, and where they set a new course and why. Kaufman pays particular attention to the Cold War and beyond, with a chapter devoted specifically to the changes in direction of American foreign policy as a result of September 11. She concludes with a look forward to challenges the United States will face in the coming decades. With its strong narrative and use of compelling case studies, the book engages students fully in this crucial topic, encouraging them to form their own ideas about American foreign policy.

[Secrets of Cold War Technology: Project HAARP and Beyond, Gerry Vassilatos](#) , 2000, 0932813801, 9780932813800. The death knell has struck. Wave Radio is dead. How have 70 years of Military Research succeeded in producing a completely new and superior communications technology? Radio History gives a stranger walk than paranoid writers ever tell! While citizens were watching television, military research was directed to create an amazing radiation technology far in advance of any system known. Currently and routinely utilised, it has remained a well guarded 'open secret' for decades. The proof patents and relevant research papers have just been retrieved. Facts quell hysteria, but Truth is stranger than fiction. Want the answers? The complete technical history of military projects will show the development of every relevant project preceding HAARP. Only the facts. No hysteria. Complete with communications and weapons patent citations, this book will forever change your view of world events and technology.

[Ode to Happiness,](#) , 2011, 3869302097, 9783869302096. Ode to Happiness is a grown-ups picture book, a charming reminder not to take oneself too seriously. With drawings by painter Alexandra Grant, text by actor Keanu Reeves, and in collaboration with mutual friend Janey Bergam, this facsimile artists book is about making the best of a bad situation. In the tradition of a classic hurtin song, Reeves text externalizes a melancholy internal monologue and subtly pokes fun at it. Grants images, delicately realised in sombre inky washes, reflect the dark and light, the pathos and humour of the text. Neither entirely earnest nor wholly ironic, Ode to Happiness is both a meditation and a gentle tease about how we cope with lifes sorrows. Los Angeles based artist Alexandra Grant uses language and words as the basis for her paintings, drawings and sculptures. Grant has exhibited at institutions including the Museum of Contemporary Art, Los Angeles, the California Biennial, Orange County Museum of Art, and the Contemporary Museum, Baltimore. She has collaborated with artists and writers including Michael Joyce and Hlne Cixous, and is a founding member of the Watts House Project in Los Angeles. Keanu Reeves, born in 1964 in Beirut, is a celebrated actor and writer. Reeves films include Point Break (1991), Speed (1994), The Matrix (1999) and the upcoming Jekyll (2011). His theatrical roles include an acclaimed portrayal of Shakespeares Hamlet.

[I Heard My People Cry: One Family's Escape from Russia, Elizabeth Lenci-Downs](#) , 2001, 0971190518, 9780971190511.

As a young girl born to the heritage of her people, trapped in Russia, Lise shares their fate. This true story of Louise (Lise) Huebert Toews Gerig of Winnipeg, MB and Scottsdale, Arizona, is written with Lise's help, in her own words. Courageous and determined, Lise escapes Stalin's NKVD and Hitler's invasion in the midst of 170 of her people, mostly women and children. Love and faith bond them together into a force of strength and courage that neither dictators nor war can destroy. With her keen intellect, and an uplifting spirit, Lise grasps the importance of the disastrous events shaping her life. Her testimony of the persecution of her people of Tchongraw burns into human consciousness. Lise's young mother, Elizabeth Koop Huebert, is a survivor of Russia's Great Revolution, civil wars and terrifying famines. Fleeing Stalin's Red Armies, Elizabeth's forceful rescue of her four children with the help of brave, compassionate, Polish patriots and German soldiers, can never be forgotten. This is also Lise's and Walter's story, an endearing love story blossoming amid the rubble of Post War Germany. Together they struggle to find what Lise knows is impossible--a freedom beyond hope. Freedom, the all consuming passion.

[Happiness in Marriage, Margaret Sanger](#) , 2013, 1610271947, 9781610271943. Margaret Sanger (1879-1966) was an iconic American feminist, sex educator, nurse, and birth control activist. She founded Planned Parenthood and wrote numerous articles and books on controversial topics including birth control. She was arrested for espousing contraception and women's freedom of control over their own bodies. Decades later, and in part from her trial and activism, the U.S. accepted the right to control birth as she promoted, and the Supreme Court struck down laws forbidding contraception as an invasion of marital privacy. Part of that activism is present in Happiness in Marriage. But the book attempts to do more--to teach both men and women what a committed relationship means, what mutual respect and support earns, and why sexual power and communion are a vital part of a successful relationship. The book was the first of its kind permitted to be sold--a marriage manual with anatomical information for both sexes, and promoting contraception--and was controversial at the time for its frank views on sexual pleasure in women, the need for birth control and delayed childbearing, and the idea of continual romance and renewal. Much of the advice and insight resonates today, but at the least the book is known for its historical import and frank ice-breaking of the taboo. Now available in an eBook edition

from Quid Pro Books.

[Bridges/fences: Some Thoughts Exploring Boundaries Between Person and Person, People and People, and Cultural Differences Between England and Crete, Sonia Greger](#) , 1995, 0952263025, 9780952263029.

[The Politics of Anti-Westernism in Asia: Visions of World Order in Pan-Islamic and Pan-Asian Thought, Cemil Aydin](#) , 2013, 0231510683, 9780231510684. In this rich intellectual history, Cemil Aydin challenges the notion that anti-Westernism in the Muslim world is a political and religious reaction to the liberal and democratic values of the West. Nor is anti-Westernism a natural response to Western imperialism. Instead, by focusing on the agency and achievements of non-Western intellectuals, Aydin demonstrates that modern anti-Western discourse grew out of the legitimacy crisis of a single, Eurocentric global polity in the age of high imperialism. Aydin compares Ottoman Pan-Islamic and Japanese Pan-Asian visions of world order from the middle of the nineteenth century to the end of World War II. He looks at when the idea of a universal "West" first took root in the minds of Asian intellectuals and reformers and how it became essential in criticizing the West for violating its own "standards of civilization." Aydin also illustrates why these anti-Western visions contributed to the decolonization process and considers their influence on the international relations of both the Ottoman and Japanese Empires during WWI and WWII. The Politics of Anti-Westernism in Asia offers a rare, global perspective on how religious tradition and the experience of European colonialism interacted with Muslim and non-Muslim discontent with globalization, the international order, and modernization. Aydin's approach reveals the epistemological limitations of Orientalist knowledge categories, especially the idea of Eastern and Western civilizations, and the way in which these limitations have shaped not only the contradictions and political complications of anti-Western discourses but also contemporary interpretations of anti-Western trends. In moving beyond essentialist readings of this history, Aydin provides a fresh understanding of the history of contemporary anti-Americanism as well as the ongoing struggle to establish a legitimate and inclusive international society.

[Motor Skills Acquisition in the First Year: An Illustrated Guide to Normal Development, Lois Bly](#) , 1998, 0127845526, 9780127845524. Motor Skills Acquisition in the First Year is a descriptive presentation of normal motor development and skill acquisition during the first year of life. It gives a greater understanding of normal motor development and normal

movement in infants, in order to treat infants with delayed or aberrant movements. The goal of this book is to inform and enhance knowledge, understanding, and observational skills in the assessment of normal motor development, and to present an analysis of the motor components that babies use to achieve each milestone normally. It provides a background for enlarging the scope of kinesiological analysis and will serve as a stimulus for others to further investigate and analyze the kinesiological aspects of motor development.

[Richo, Martin Flanagan, Matthew Richardson](#) , 2010, 1742741525, 9781742741529. What happens when you put together the AFL's best-loved player and the game's best-loved writer?Matthew Richardson, known as Richo, retired in 2009 as the most popular player in the AFL. Why was that? The careers of other great players like Nathan Buckley and Michael Voss amount to a sort of sporting perfection. Richo's career didn't. He was fallible. His kicking was flawed and he had an inability to hide his feelings on the ground but in other respects he was extraordinarily gifted. He was one of the best marks in the competition and it is said he could have run for Australia. His father, Alan "Bull" Richardson, played in Richmond's 1967 premiership team, a pivotal result in the history of the club. On his mother's side, he is descended from a black American sailor who arrived in Sydney in 1840. The average AFL career lasts three years. Richo's lasted 17 seasons. In that time, the general public got to appreciate his great bravery and his passion for both the game and his club. They also learned that, off the field, he was a humble, polite man who was always last on to the team bus because he was signing autographs. "Richo", the book, is essentially an account of the last two years of his football life with flashbacks that trace the outline of his long career. In the process, the author, Martin Flanagan, discovers a man who is worldly and much-travelled, who has a deep love of music and who thinks and uses words in a novel way. Richo is an Australian original. The book climaxes with the 2008 season when Richo, in what was seen as a prelude to his delisting, was taken from the key forward position he had dominated for nearly two decades and put on a wing. At age 33, he responded by almost winning the Brownlow medal.

[Broken Promises, Dora Dumas](#) , 2006, 097926040X, 9780979260407. Conquering Corporate America is all one young woman can see. Along her quest for success and romance she discovers real life isn't a 'fairy tale'. Knights in shining armor will charge a castle too find true love. But, modern day men are far more reluctant too show even a hint of chivalry to a career woman.Finding our path in life takes us through unexpected turns. 'Happily Ever After' comes in many different packages.Through prayer she finds... the path we seek is not always the path we complete.

[In the Interests of Justice: Reforming the Legal Profession, Deborah L. Rhode](#) , 2003, 0195347374, 9780195347371.

Two thousand years ago, Seneca described advocates not as seekers of truth but as accessories to injustice, smothered by their prosperity. This unflattering assessment has only worsened over time. The vast majority of Americans now perceive lawyers as arrogant, unaffordable hired guns whose ethical practices rank just slightly above those of used car salesmen. In this penetrating new book, Deborah L. Rhode goes beyond the commonplace attacks on lawyers to provide the first systematic study of the structural problems confronting the legal profession. A past president of the Association of American Law Schools and senior counsel for the House Judiciary Committee during Clinton's impeachment proceedings, Rhode brings an insider's knowledge to the labyrinthine complexities of how the law works, or fails to work, for most Americans and often for lawyers themselves. She sheds much light on problems with the adversary system, the commercialization of practice, bar disciplinary processes, race and gender bias, and legal education. She argues convincingly that the bar's current self-regulation must be replaced by oversight structures that would put the public's interests above those of the profession. She insists that legal education become more flexible, by offering less expensive degree programs that would prepare paralegals to provide much needed low cost assistance. Most important, she calls for a return to ethical standards that put public service above economic self-interest. Elegantly written and touching on such high profile cases as the O.J. Simpson trial and the Starr investigation, *In the Interests of Justice* uncovers fundamental flaws in our legal system and proposes sweeping reforms.

[Aggressive Nationalism : McCulloch v. Maryland and the Foundation of Federal Authority in the Young Republic:](#)

[McCulloch v. Maryland and the Foundation of Federal Authority in the Young Republic, Richard E. Ellis Professor of](#)

[History SUNY - Buffalo](#) , 2007, 0198043503, 9780198043508. *McCulloch v. Maryland* (1819) has long been recognized to be one of the most significant decisions ever handed down by the United States Supreme Court. Indeed, many scholars

have argued it is the greatest opinion handed down by the greatest Chief Justice, in which he declared the act creating the Second Bank of the United States constitutional and Maryland's attempt to tax it unconstitutional. Although it is now recognized as the foundational statement for a strong and active federal government, the immediate impact of the ruling was short-lived and widely criticized. Placing the decision and the public reaction to it in their proper historical context, Richard E. Ellis finds that Maryland, though unopposed to the Bank, helped to bring the case before the Court and a sympathetic Chief Justice, who worked behind the scenes to save the embattled institution. Almost all treatments of the case consider it solely from Marshall's perspective, yet a careful examination reveals other, even more important issues that the Chief Justice chose to ignore. Ellis demonstrates that the points which mattered most to the States were not treated by the Court's decision: the private, profit-making nature of the Second Bank, its right to establish branches wherever it wanted with immunity from state taxation, and the right of the States to tax the Bank simply for revenue purposes. Addressing these issues would have undercut Marshall's nationalist view of the Constitution, and his unwillingness to adequately deal with them produced immediate, widespread, and varied dissatisfaction among the States. Ellis argues that Marshall's "aggressive nationalism" was ultimately counter-productive: his overreaching led to Jackson's democratic rejection of the decision and failed to reconcile states' rights to the effective operation of the institutions of federal governance. Elegantly written, full of new information, and the first in-depth examination of *McCulloch v. Maryland*, *Aggressive Nationalism* offers an incisive, fresh interpretation of this familiar decision central to understanding the shifting politics of the early republic as well as the development of federal-state relations, a source of constant division in American politics, past and present.

[Harpers' Joy, Bert Goolsby](#) , 2005, 0974109061, 9780974109060. Candle Reid's life is falling apart. He's a lawyer whose competence is compromised by alcoholism. His wife kicks him out, and then his law partner dies. Can things get any worse? Dewey Coltraine's life is just beginning, or so he thinks. He has just married the prettiest girl in town, and he has a new job. But when he's arrested for killing one of Harpers' Joy's most influential men, will Candle Reid be able to save him?

[Compulsion to Kill,](#) , 2005, 184447108X, 9781844471089. In the twisted minds of men who murder again and again, life, sex, pain, and death are fashioned into a terrible compulsion to kill. Otherwise rather ordinary men, serial killers turn to violence and death in search of power over others and to explore their own monstrous sexual identity. That is what their killing is really all about, although it takes many different forms. While their behaviour has been insane, however, they are rarely locked away in mental institutions. To be judged legally insane, one cannot understand the wrongness or

consequences of one's crimes. But these men plan and commit not one but a series of premeditated murders and then skillfully elude capture. They may indeed be compelled to kill, but they are not insane in the eyes of the law. When society finally sweeps up such predators, their very cunning ensures them a life behind bars - or a place on death row.

[The Art of Voice Acting: the art and business of performing for voice over, James Alburger](#) , 2010, 1136123415, 9781136123412. Are you just starting in Voiceover? [Capitalism, Socialism and Democracy, Joseph A. Schumpeter](#) , 2010, 189139651X, 9781891396519. 2011 Reprint of 1947 Second Edition. Joseph Alois Schumpeter (1883 - 1950) was an Austrian-American economist and political scientist. He popularized the term "creative destruction" in economics. Schumpeter's most popular book in English is probably Capitalism, Socialism and Democracy. This book opens with a treatment of Karl Marx. While he is sympathetic to Marx's

theory that capitalism will collapse and will be replaced by socialism, Schumpeter concludes that this will not come about in the way Marx predicted. To describe it he borrowed the phrase "creative destruction," and made it famous by using it to describe a process in which the old ways of doing things are endogenously destroyed and replaced by new ways.

[Introductory Lectures on Aesthetics, Georg Hegel](#) , 2004, 0141915617, 9780141915616. No philosopher has held a higher opinion of art than Hegel, yet nor was any so profoundly pessimistic about its prospects - despite living in the German golden age of Goethe, Mozart and Schiller. For if the artists of classical Greece could find the perfect fusion of content and form, modernity faced complicating - and ultimately disabling - questions. Christianity, with its code of unworldliness, had compromised the immediacy of man's relationship with reality, and ironic detachment had alienated him from his deepest feelings. Hegel's Introductory Lectures on Aesthetics were delivered in Berlin in the 1820s and stand today as a passionately argued work that challenged the ability of art to respond to the modern world.

[225 Plays: By the New York Neo-Futurists from Too Much Light Makes the Baby Go Blind, The New York Neo-Futurists](#) , 2011, 0981564356, 9780981564357. This book brings together over 200 short (very short) plays from the New York production of the acclaimed cult theater hit "Too Much Light Makes the Baby Go Blind." "Too Much Light Makes the Baby Go Blind," created by Greg Allen, debuted in Chicago in December, 1988, and has been playing to sold out houses ever since. The show presents 30 plays in 60 minutes, 50 weeks a year, to a devoted following. The ensemble of writer-performers generates between two and 12 new plays each week, as dictated by a roll of the dice, creating a constantly changing menu of plays. In 2004, a New York ensemble was formed and the show has been running there since, playing to houses of younger, culturally adventurous audiences as well as seasoned theater-goers. The 225 plays in this volume,

culled from more than 1,300 the New York company has generated since 2004, reflect the diversity of 35 current and past ensemble members and the multiplicity of viewpoints and voices they bring to the stage. The material runs the gamut of style, tone, and topic: musical, confession, agit-prop, poetic gesture, physical comedy, puppet theater, audience interrogation, folk song, sex joke, and many more.

[Elements of Project Management: Plan, Schedule, and Control, M. Spinner](#) , 1992, 0132532468, 9780132532464. Here are the tools you need to arrange an effective plan and schedule and the techniques necessary to monitor and control your project once it's underway. Following the sequence of how an actual project evolves, the guide also shows you how to handle project costs, deal with labor allocation, and implement the right computer applications for your special needs. This second edition updates the most significant developments and improvements that have occurred in project management over the past few years, helping you ensure more efficient, successful projects from the start. These changes include: the phenomenal growth of the personal computer which has permitted the concept of project management to expand in virtually every type of endeavor...and the current emphasis of participative management and employee involvement (PM/EI) in business and industry. The guide is equally suited for readers from both the academic and professional business worlds.

[Callaghan: A Life, Kenneth O. Morgan](#) , 1999, 0192853562, 9780192853561. 'Callaghan is a symbol of our present age as well as our past, New Labour as well as Old. He links the age of Clem Attlee and that of Tony Blair.' Kenneth Morgan 'This is a classic political life, critical, well-balanced, compellingly written' Brian Brivati, The Times 'It is hard to see how the book could have been better done' Alan Watkins, The Spectator 'A superb portrait and a fascinating work of historical scholarship that will become a classic text' Ben Pimlott, The Guardian 'Callaghan was regarded as the epitome of the Labour Party's right-wing establishment. Yet Kenneth Morgan's biography reveals him to be far more interesting and far more complex than that.' Gerald Kaufman, Daily Telegraph This fascinating biography, written by leading historian Kenneth Morgan, tells the story of a man who had a unique political career. Starting in humble circumstances, James Callaghan went on to hold all the major offices of state: Chancellor of the Exchequer, Home Secretary, Foreign Secretary, and, for three tumultuous years, from 1976 to 1979, Prime Minister. This meticulously researched study takes the reader from the age of Attlee to the days of New Labour under Blair.

[A Class Apart, Susan Lewis](#) , 1992, 0099436159, 9780099436157. Jenneen, Kate, Ellamarie and Ashley are enviable women. They are desirable and powerful, with glamorous jobs in the media and the theatre and, most importantly, the closest of friendships. But each of the friends has a dark secret, and none of them can ever be entirely safe from the passion, deceit and danger which threatens to seduce and then destroy them.

[Empire Builders, Francis Lynde](#) , 2008, 0554260077, 9780554260075. This is a pre-1923 historical reproduction that was curated for quality. Quality assurance was conducted on each of these books in an attempt to remove books with imperfections introduced by the digitization process. Though we have made best efforts - the books may have occasional errors that do not impede the reading experience. We believe this work is culturally important and have elected to bring the book back into print as part of our continuing commitment to the preservation of printed works worldwide.

[The Romance of Chastisement; Or, Revelations of the School and Bedroom, An Expert](#) , 2011, 0987095676,

9780987095671. The Romance of Chastisement; or, Revelations of the School and Bedroom is arguably the most sophisticated, most literary, and most amusing mid-Victorian fictional text focusing on flagellation. A collection of short stories and verse sparkling with sexual suggestion and wit, it was first published by John Camden Hotten in 1871 in a volume bearing the false imprint date 1870. It was reprinted by Edward Avery in 1888. An earlier book with the same title was issued by William Dugdale in 1866. This work had a different sub-heading: Revelations of Miss Darcy. The Victorian bibliographer Henry Spencer Ashbee suggests that both books were written by the same author, whom he reveals to have been St. George H. Stock. Formerly a lieutenant in the 2nd or Queen's Royal Regiment, Stock issued his work originally in episodes from Dublin. Hotten purchased 200 sets from him and bound them into a single volume. St. George H. Stock also wrote the four short flagellant works that constitute Rosy Tales! (1874) and contributed to The Whippingham Papers (1888 [1887]), which are also available from Birchgrove Press.

[Get Out of Your Own Way, Jovita Jenkins](#) , 2004, 0974988707, 9780974988702. In her insightful and inspiring debut offering, success strategist and executive coach Jovita Jenkins challenges readers to get out of their own way and deal with whatever is holding them back. With the honesty of an old friend and the insight of a professional coach, she leads readers on an intense journey of self-discovery that sets them on the path towards creating a compelling new chapter of their lives. In her professional coaching practice, Jovita works closely with clients to help them discover their path, set goals, and create an action plan to implement them. In Get Out Of Your Own Way, she brings her tried and true prescription for success to her readers and empowers them to be more focused, confident, and successful. Jovita's strategies are enlightening, her style is engaging and will help even the most inflexible person retrain their brain, discover their passion and purpose, and begin living the life they've envisioned.

[Snow Cap Mountain, Destiny Carter](#) , 2007, 0979187656, 9780979187650. Jazz Monroe has found mega success running the most exclusive beach resort Pleasure Island. With her sisters by her side she tries for the same success with an even more exclusive ski lodge. When dark secrets start to rear their ugly head things threaten to fall apart. Someone's secret will even prove to be deadly.

[Organizational Reality: Reports from the Firing Line, Peter J. Frost](#) , 1992, 0673461734, 9780673461735. What is organizational life really like? Read Organizational reality : reports from the firing line, Fourth Edition, to find out. This human experiences reader includes selections drawn from a wide variety of perspectives: organizational behavior theorists, managers, service workers, blue-collar workers, poets, and short story writers. More emphasis is placed on the concerns of non-managerial employees than conventional textbooks. The sources of the readings are as varied as the perspectives. To keep the focus on contemporary issues, over sixty percent of the selection in the fourth edition are new--Publisher's description.

[The Morality of Nationalism, Robert McKim Associate Professor of Philosophy and Religious Studies, Champaign-Urbana Jeff McMahan Associate Professor of Philosophy both at University of Illinois](#) , 1997, 0195355938, 9780195355932.

Nationalism is one of the most intractable political problems in the world today. In this collection of essays, some of today's most eminent political scientists and philosophers address the ethics of nationalism. Rather than focusing on descriptive and prescriptive themes or policy issues, this volume focuses on the deeper moral issues that must be addressed if a policy prescription is to be well grounded. The contributors include Charles Taylor, Will Kymlicka, Thomas Hurka, Allen Buchanan, and Michael Walzer.

[Che: A Memoir, Fidel Castro](#) , 2006, 192088825X, 9781920888251. In a new, expanded edition of a best-selling Ocean classic, Castro describes a historic political partnership that changed the face of Cuba and Latin America. He vividly portrays Chethe man, the revolutionary, and the thinker recounting in detail his last days with Che in Cuba, giving a remarkably frank assessment of the Bolivian mission. Fidel Castro, in an unusually gentle, quite emotional mood, remarks, For me it has been hard to accept the idea that Che is dead. I have dreamed of him often, that I spoke with him, that he was alive . . . Includes Castro's speech on the return of Che's remains to Cuba in 1997.

[The Khufra Run, Jack Higgins](#) , 2002, 0425184250, 9780425184257. Vietnam vet Jack Nelson makes a decent living peddling his flying talents to the highest bidder. When he rescues a young beauty from an attack on Ibiza, he ends up with the opportunity to pull off the heist of a lifetime. There are millions in sunken treasure for the taking in a go-for-broke caper tailor made for Nelson and his partner Harry Turk--and all he has to do to collect the loot is live through it.

[Believe, Katharine M. Emlen](#) , 2008, .

[Moroccan Monarchy and the Islamist Challenge: Maintaining Makhzen Power, Mohamed Daadaoui](#) , 2011, 0230113184, 9780230113183. An examination of the Moroccan monarchy's religious authority and its use of rituals of power, this book looks at how the monarchy limits the ability of Islamist and non-Islamist opposition groups to contest its legitimacy in Morocco. The author explores the micro-dynamics of symbolic power and the extent to which the regime uses rituals of power to create a political culture conducive to the monarchy's supremacy in the socio-political realm. These rituals have been institutionalized in the political system and have become part of the political discourse in Morocco. The monarchy's religious authority and its use of rituals of power impede the ability of Islamist and other opposition groups to mobilize and to penetrate Moroccan society. The prevalence of this cultural and social hegemony contributes to the stability and resilience of the monarchical authoritarian regime in Morocco.

[Instant Team Building: Getting the People You Deserve, Bradley J. Sugars](#) , 2003, 0975166700, 9780975166703. "This book is designed to give you the inside track on everything you need to know about how to transform your staff into a dream team and how to become a great leader. It aims at providing you with an INSTANT easy-to-follow guide on how to go about making sure the people you select are just perfect for your business. This book is all about your team; those very special people who drive your business each and every day. It's about real people who make a valuable contribution to your livelihood. It's about those without whom you simply wouldn't be where you are today." - back cover.

Book2 covers core units in Themes 3 and 4 of the syllabus with an elective from each theme. Features: written by Queensland Geography teachers to meet the requirements of the syllabus in Senior Geography up-to-date case studies - local, national, regional and global each chapter begins with key ideas and key questions and finishes with key terms as well as revise and review exercises exercises interspersed throughout the chapters highly-illustrated, full-colour presentation

[Our Necessary Shadow: The Nature and Meaning of Psychiatry, Tom Burns](#) , 2013, 0141969687, 9780141969688. Our Necessary Shadow is the first attempt in a generation to explain the whole subject of psychiatry, from the UK's leading expert, Tom Burns A lot is written about psychiatry and the things it deals with, but very little that describes psychiatry itself. Why should there be such a need? There isn't a raft of books explaining all the other branches of medicine. But for good or ill, psychiatry is a polemical battleground, criticised on the one hand as an instrument of social control or a barbaric practice, while on the other the latest developments in neuroscience are trumpeted as offering lasting solutions to mental illness. Which of these strikingly contrasting positions should we believe? This is the first attempt in a generation to explain the whole subject of psychiatry. In this deeply thoughtful, descriptive and sympathetic book, Tom Burns reviews the historical development of psychiatry, the places where there is much agreement on treatment and where there is not, throughout alert to where psychiatry helps, and where it is imperfect. What is clear is that mental illnesses are intimately tied to what makes us human in the first place. And the drive to relieve the suffering they cause is even more human. Psychiatry, for all its flaws, currently represents our best attempts to discharge this most human of impulses. It is not something we can just ignore. It is our necessary shadow. Tom Burns is Professor of Social Psychiatry at Oxford University. From the late 1980s he has conducted research, in addition his clinical and teaching work, and has produced nearly 200 peer-reviewed scientific articles.

[The Adventures of Sherlock Holmes, Arthur Conan Doyle](#) , 2005, 1402712170, 9781402712173. Following Sterling's spectacularly successful launch of its children's classic novels (240,000 books in print to date), comes a dazzling new series: Classic Starts. The stories are abridged; the quality is complete. Classic Starts treats the world's beloved tales (and children) with the respect they deserve--all at an incomparable price. No child is too young to appreciate the amazing deductive powers of the world's smartest detective. These easy-to-read Sherlock Holmes stories provide the perfect introduction to the super sleuth and his friend and assistant, Dr. Watson. Among the intriguing tales: "A Scandal in Bohemia," Holmes's first encounter with the mysterious Irene Adler; "The Red-Headed League"; "The Adventure of the Six Napoleons" and others.

[And Her Soul Out Of Nothing, Olena Kalytiak Davis](#) , 1997, 029915713X, 9780299157135. Both contemporary and other-worldly, Davis's lyrical poetry is a fearless expression of the spirit which defines the very essence of our beings.

[A History of US: Making Thirteen Colonies: 1600-1740 A History of US Book Two, Joy Hakim](#) , 2006, 0199989036, 9780199989034. Recommended by the Common Core State Standards for English Language Arts and Literacy as an exemplary informational text. All kinds of people are coming to America. If you're European, you come in search of freedom or riches. If you're African, you come in chains. And what about the Indians, what is happening to them? Soon with the influx of so many people, thirteen unique colonies are born, each with its own story. Meet Pocahontas and John Smith in Jamestown. Join William Penn and the Quakers in Pennsylvania. Sit with the judges at the Salem witch trials. Hike over the mountains with Daniel Boone. And let Ben Franklin give you some salty advice in his Poor Richard's Almanac in this remarkable journey through the dynamic creation of what one day becomes the United States. About the Series: Master storyteller Joy Hakim has excited millions of young minds with the great drama of American history in her award-winning series A History of US. Recommended by the Common Core State Standards for English Language Arts and Literacy as an exemplary informational text, A History of US weaves together exciting stories that bring American history to life. Hailed by reviewers, historians, educators, and parents for its exciting, thought-provoking narrative, the books have been recognized as a break-through tool in teaching history and critical reading skills to young people. In ten books that span from Prehistory to the 21st century, young people will never think of American history as boring again.

[Perfect Personal Finance, Marie Jennings](#) , 1996, .

[Modeling with technology: mindtools for conceptual change, David H. Jonassen](#) , 2006, 0131703455, 9780131703452. Well-known for addressing the use of computers to foster critical-thinking and problem solving, this text was written to teach current and future teachers how to better engage learners more mindfully and meaningfully in the process of learning. Available now in its Third Edition, it focuses on how to use technology to support meaningful learning through model building, providing powerful strategies for engaging, supporting, and assessing conceptual change in learners.

[Story Books Pack, Jenny Giles](#), 2003, . The original Book Banded reading scheme for 4 - 11 year olds. Used extensively throughout the UK for Wave 3 reading intervention programmes such as Reading Recovery, Catch Up, Better Reading and more.

[The Racketeer, John Grisham](#), 2012, 1444729772, 9781444729771. Given the importance of what they do, and the controversies that often surround them, and the violent people they sometimes confront, it is remarkable that in the history of the USA only four active federal judges have been murdered. Judge Raymond Fawcett just became number five. His body was found in the small basement of a lakeside cabin he had built himself and frequently used on weekends. When he did not show up for a trial on Monday morning, his law clerks panicked, called the FBI, and in due course the agents found the crime scene. There was no forced entry, no struggle, just two dead bodies - Judge Fawcett and his young secretary. I did not know Judge Fawcett, but I know who killed him, and why. I am a lawyer, and I am in prison. It's a long story.

[Women and the New Business Leadership, Peninah Thomson, Tom Lloyd](#), 2011, 0230306888, 9780230306882. Extract from Women and the New Business Leadership 'The financial and economic crisis and the public belief that failings in corporate governance were partly to blame for it have politicized the debate about how, and by whom, our companies should be run. There is a new belief within the political establishment that companies would be better run, and less likely

to act recklessly and so put the financial system in jeopardy, if there were more women on their Boards, and an expectation that companies will respond appropriately when filling Board vacancies. If they do not, the political establishment will take note and the pressure for compulsory measures is likely to grow. In the absence of an objective ex ante measure of the quality of a company's governance, the more gender-diverse board has become an important symbol of the new, post-crisis enlightenment. Progress towards gender-diverse boards will be watched closely as a proxy for corporate governance reform and a sign that the lessons of the crisis are being learned.'

[The Honorary Consul, Graham Greene](#) , 1999, 0099288532, 9780099288534. Graham Greene's gripping tragicomedy of a bungled kidnapping in a provincial Argentinian town is considered one of his finest. It tells of Charley Fortnum, the 'Honorary Consul', a whisky-sodden figure of dubious authority taken by a group of revolutionaries. As Eduardo Plarr, a local doctor, negotiates with revolutionaries and authorities for Fortnum's release, the corruption of both becomes evident. In this spare, tense novel, Graham Greene explores the morality of a political system that turns priests into killers.

[Far Island, Antonio Santos \(III.\)](#) , 1994, 0964082500, 9780964082502. FAR ISLAND sweeps the interest of all children & adults who read because of Political Correctness. Developed by love & revision, partially Christian in theme, partially

adventure in plot & partially didactic in specific address to alcoholism, FAR ISLAND fills many needs. No sex, no violence for amusement, FAR ISLAND is clean & clear. William, Admiral Everley Green (Turtle) & Sarah (Spider) travel together to Far Island where they fight to free Sarah from a spell. Only the destruction of the Spell Master will save her. Meanwhile, Wally battles alcoholism in the hospital. Ofelia, his wife, is having his baby & he must face his problem or lose everything. He beats the disease in time to be home immediately after Claire (baby girl) is brought home. The book ends with the Admiral & William leaving Sarah behind on Far Island to rule the industrious tarantulas &, at home, William & his family are spiritually saved.

[China Or Japan: Which Will Lead Asia?, Claude Meyer](#) , 2012, 0199327610, 9780199327614. The twenty-first century will doubtless be that of Asia, which by 2030 will be home to three of the world's four mightiest economies, including India. This stimulating book aims to open a debate on the question of leadership in Asia for which China and Japan are competing. It assesses the two rivals' strengths and weaknesses as well as the major challenges which they will face in that battle for supremacy. On this basis, it proposes the most probable scenario for the next two decades in the light of the dialectical relationship between economics and strategic power. Without neglecting the strategic aspects that give advantage to China, priority is given to an economic approach, because that is the primary arena in which Asian integration is taking place and the one in which a resilient Japan still firmly maintains its leadership, based on productivity, competitiveness and technological edge.

[The EU, NATO and the Integration of Europe: Rules and Rhetoric, Frank Schimmelfennig](#) , 2003, 0521535255, 9780521535250. Why did Western European states agree to the enlargement of the EU and NATO? Frank Schimmelfennig analyzes the history of the enlargement process and develops a theoretical approach of 'rhetorical action' to explain why it occurred. While rationalist theory explains the willingness of East European states to join the NATO and EU, it does not explain why member states decided to admit them. Using original data, Schimmelfennig shows that expansion to the East can be understood in terms of liberal democratic community building. Drawing on the works of Jon Elster and Erving Goffman, he demonstrates that the decision to expand was the result of rhetorical action. Candidates and their supporters used arguments based on collective identity, norms and values of the Western community to shame opponents into acquiescing to enlargement. This landmark book makes an enormous contribution to theory in international relations and to the study of European politics.

Written and edited by senior examiners and experienced teachers, this student revision workbook for Edexcel A2 History, Unit 3, closely combines course content with revision activities and advice on exam technique. This allows students the opportunity to improve the skills needed to perform well in exam conditions through interacting with the content they need to revise. In addition each section has a model answer with exam tips for students to analyse and better understand what is required in the exam.

[The Art of Chinese Management : Theory, Evidence and Applications: Theory, Evidence and Applications, Henley Management College \(UK\) and Former Professor of Strategic Management and International Business and Senior Research Fellow Peking University Kai-Alexander Schlevogt Visiting Professor, Guanghua School of Management](#) , 2002, 0195350421, 9780195350425. This ground-breaking book is the first in-depth empirical study of Chinese organizational design in state and private enterprises. Web-based Chinese management, a new paradigm in business studies, explains the dynamism of private Chinese enterprises and demonstrates the crucial role of micro-level organizational practices for economic development. It can be used anywhere in the world to help deal with the increasing uncertainty and complexity for the next millennium and can also be used as a framework for economic policy.

[Winter Queen, Amber Argyle](#) , 2013, 0985739444, 9780985739447. Becoming a winter queen will make Ilyenna as cold and cruel and deadly as winter itself, but it might be the only way to save her people from a war they have no hope of winning. Mortally wounded during a raid, seventeen-year-old Ilyenna is healed by winter fairies who present her with a seductive offer: become one of them and share their power over winter. But that power comes with a price. If she accepts, she will become a force of nature, lose her humanity, and abandon her family. Unwilling to pay such a high price, Ilyenna is enslaved by the one of the invaders, Darrien. While in captivity, she learns the attack wasn't just a simple raid but part of a larger plot to overthrow her entire nation. With the enemy stealing over the mountains and Darrien coming to take her to his bed, Ilyenna must decide whether to resurrect the power the fairies left behind. Doing

so will allow her to defeat Darrien and the other invaders, but if she embraces winter, she will lose herself to that destroying power-forever.

[Al-Qaeda: The True Story of Radical Islam, Jason Burke](#) , 2007, 0141031360, 9780141031361. To most in the West, 'al-Qaeda' is seen as a byword for terror: a deadly, highly organised fanatical group masterminded by Osama bin Laden. But does this tell the whole truth? Prize-winning journalist Jason Burke has spent a decade reporting from the heart of the Middle East and gaining unprecedented access to the world of radical Islam. Now, drawing on his frontline experience of recent events in Iraq and Afghanistan, on secret documents and astonishing interviews with intelligence officers, militants, mujahideen commanders and bin Laden's associates, he reveals the full story of al-Qaeda - and demolishes the myths that underpin the 'war on terror'. Burke demonstrates that in fact 'al-Qaeda' is merely a convenient label applied by the West to a far broader - and thus more dangerous - phenomenon of Islamic militancy, and shows how eradicating a single figure or group will do nothing to combat terrorism. Only by understanding the true, complex nature of al-Qaeda, he argues, can we address the real issues surrounding our security today.

[A Gathering of Matter, a Matter of Gathering: Poems, Dawn Lundy Martin](#) , 2007, 0820329916, 9780820329918. Dawn Lundy Martin's work is neither language poetry, which rejects the speaking subject, nor strictly lyric, which embraces the speaking I. It might best be described as poetry where, in the words of Juliana Spahr, the lyric meets language--both an investigation into the opacity of language and the expression of a passionate speaker who struggles to speak meaningfully. Martin's poems bend the form into something new, seeking a way to approach the horrific and its effect on the psyche more fully than might be possible in the worn groove of the traditional lyric. Her formal inventiveness is balanced by a firm grounding in bodily experience and in the amazing capacity of language to expand itself in Martin's hands. She explodes any pretense at a world where words mean exactly what we want them to mean and never more nor less. The poems are neither gentle nor easy, but they make a powerful case that neither gentleness nor easiness is appropriate in the attempt to contend with the trauma and violence that are an inescapable part of human history and

human experience. Martins book acknowledges the difficulty but not the impossibility of utterance in traumas wake, and it ventures into the unimaginable at many levels, from the personal to the cultural.

[Gideon's Spies: The Secret History of the Mossad, Gordon Thomas](#) , 2010, 1429981636, 9781429981637. THE SIXTH EDITION OF THE COMPELLING AND CONTROVERSIAL HISTORY OF ISRAELS SECRET INTELLIGENCE AGENCYIn the secret world of spies and covert operations, no other intelligence service continues to be surrounded by myth and mystery, or commands respect and fear like Israel's Mossad. Formed in 1951 to ensure an embattled Israels future, the Mossad has been responsible for the most audacious and thrilling feats of espionage, counterterrorism, and assassination ever ventured. Gideons Spies draws from classified documents, confidential sources, and closed-door interviews with Mossad agents, informants, and spymasters to reveal the organizations deepest secrets.Revised and updated for 2012, this new edition includes the story of how Mossad assassinated the Hamas terror commander in Dubai in 2010, a look inside the modern Mossad training school, the departure of long-serving Mossad chief Meir Dagan and appointment of Tamir Pardo, Mossads failure to provide the intelligence for the infamous Gaza flotilla raid, and the unresolved murder of a Mossad spy in London.

[Europe's Long Century: Society, Politics, and Culture, 1900-present, Volumes 1-2, , Spencer Di Scala , 2013, 0199778507, 9780199778508.](#) The twentieth century has been interpreted as a short century marked by extremes. According to this view, the century lasted only from 1914 to 1989 or 1991. These dates coincide with the rise and fall of communism that came to power in Russia in 1917 and ended with the fall of the Berlin wall (1989) or that of the Soviet Union (1991). Thus, the concept of a short century is unduly influenced by a Cold War perspective. In Europe's Long Century, Spencer Di Scala presents an alternative view that will be more helpful to undergraduate history students in the twenty-first-century: namely, that twentieth century Europe was actually a "long" century lasting approximately from 1900 to 2000 with patterns and antecedents discernible before the century began and that continue to be elaborated today. Comprehensive, current, and affordable, Europe's Long Century integrates the histories of Eastern Europe, Scandinavia, and the Balkans that are often neglected in similar treatments. It also thoroughly covers the role of science in shaping modern European life, and the book's "biographical sketches" profile the lives of important--though not always well known--people who influenced Europe's long century.

[Introductory Chemistry: International Edition, Steve Russo, Michael E. Silver, Mike Silver , 2011, 0321722248,](#)

9780321722249. Real success in your chemistry course depends on far more than memorizing equations. Introductory Chemistry, Fourth Edition helps you develop a deeper understanding of chemical concepts as well as your problem-solving skills, with a reader-friendly style and stunning illustrations that have made this text a student favorite. The authors' conceptual approach focuses on the concepts behind chemical equations, to help you become a more proficient problem solver. Unlike other books that emphasize rote memorization of problem-solving algorithms, this text helps you master the quantitative skills and understanding you'll to gain a real understanding of chemistry.

[Power Electronics for the Microprocessor Age, Takashi Kenjo](#) , 1994, 0198565089, 9780198565086. This volume explores the various aspects and applications of microprocessor-controlled electronic drives, a growing new technology which has recently impacted the area of power electronics. It emphasizes the manipulation and use of low and medium power motors which are useful in the motion control of robots, computer peripherals, and other appliances. Power Electronics for the Microprocessor Age begins with a general overview of the relationship between computers, power circuitry, and motors. It then provides full chapter guidance on a.c.-to-d.c. converters, servo-amplifiers, stepping-motor drives, and inverters. The author also sets forth a unique theory on the pulse-width modulation technique for inverters, and describes a useful method for position control using a d.c. motor. Complete in one volume, the text covers theory, practical circuits and software, and is illustrated with over 290 machine cutaways views and circuit diagrams.

[Global Strategic Management, Philippe Lasserre](#) , 2012, 0230293816, 9780230293816. This book is designed as a core textbook for those students studying courses on Global Strategy and Strategic Management. It offers an insight into the impact of globalization on business organizations and how managers could and should react. It is written by a well-respected professor of strategy at one of the world's leading business schools and combines a strategic and managerial approach to global issues, blending theory and practical, empirical examples to great effect. Global Strategic Management embraces traditional strategic management teaching, but extends it to a world scale. New to this edition: - More coverage of entrepreneurship and SMEs- Increased coverage of ethics, sustainability and the environment in chapter 15

on CSR- All "basic" strategy content revised and updated, with material on the financial crisis woven throughout - A section on similarities and differences between global strategic management and international business - A section on the impact of Web 2.0 and social networking in chapter 8- All new, up-to-date mini case studies throughout- New end of chapter cases featuring an impressive spread of global companies, including some in the Far East and multinational corporations from emerging economies. These will come with case study questions and guideline answers on the updated companion website- More distinct pedagogy (chapter introductions, learning objectives, examples highlighted in the text)- More accessible language to ensure student friendliness and readability for ESL students- Improved 2 color page design- Improved pedagogy: learning objectives; mini examples; case studies; summary and key points; learning assignments; key words; web resources; references and further reading

[Fantastic Mister Fox, Roald Dahl](#) , 2007, 0142410349, 9780142410349. Nobody outfoxes Fantastic Mr. Fox! Someone's been stealing from the three meanest farmers around, and they know the identity of the thief it's Fantastic Mr. Fox! Working alone they could never catch him; but now fat Boggis, squat Bunce, and skinny Bean have joined forces, and they have Mr. Fox and his family surrounded. What they don't know is that they're not dealing with just any fox Mr. Fox would rather die than surrender. Only the most fantastic plan can save him now.
