[Summerset Abbey, T. J. Brown](#) , 2013, 1451698992, 9781451698992. 1913: In a sprawling manor on the outskirts of London, three young women seek to fulfill their destinies and desires amidst the unspoken rules of society and the distant rumblings of war. . . . Rowena Buxton Sir Philip Buxton raised three girls into beautiful and capable young women in a bohemian household that defied Edwardian tradition. Eldest sister Rowena was taught to value people, not wealth or status. But everything she believes will be tested when Sir Philip dies, and the girls must live under their uncles guardianship at the vast family estate, Summerset Abbey. Standing up for a beloved family member sequestered to the underclass in this privileged new world, and drawn into the Cunning Coterie, an exclusive social circle of aristocratic rebels, Rowena must decide where her true passions and loyalties lie. Victoria Buxton Frail in body but filled with an audacious spirit, Victoria secretly dreams of attending university to become a botanist like her father. But this most unladylike wish is not her only secret Victoria has stumbled upon a family scandal that, if revealed, has the potential to change lives forever. . . . Prudence Tate Prudence was lovingly brought up alongside Victoria and Rowena, and their bond is as strong as blood. But by birth she is a governess's daughter, and to the lord of Summerset Abbey, that makes her a commoner who must take her true place in society as lady's maid to her beloved sisters. But Pru doesn't belong in the downstairs world of the household staff any more than she belongs upstairs with the Buxton girls. And when a young lord catches her eye, she begins to wonder if she'll ever truly carve out a place for herself at Summerset Abbey.

[Advanced Reservoir Engineering, Tarek Ahmed, PhD, PE, Paul McKinney](#) , 2011, 0080498833, 9780080498836.

Advanced Reservoir Engineering offers the practicing engineer and engineering student a full description, with worked examples, of all of the kinds of reservoir engineering topics that the engineer will use in day-to-day activities. In an industry where there is often a lack of information, this timely volume gives a comprehensive account of the physics of reservoir engineering, a thorough knowledge of which is essential in the petroleum industry for the efficient recovery of hydrocarbons. Chapter one deals exclusively with the theory and practice of transient flow analysis and offers a brief but thorough hands-on guide to gas and oil well testing. Chapter two documents water influx models and their practical applications in conducting comprehensive field studies, widely used throughout the industry. Later chapters include unconventional gas reservoirs and the classical adaptations of the material balance equation.* An essential tool for the petroleum and reservoir engineer, offering information not available anywhere else* Introduces the reader to cutting-edge new developments in Type-Curve Analysis, unconventional gas reservoirs, and gas hydrates * Written by two of the

industry's best-known and respected reservoir engineers

[A Breath of Eyre, Eve Marie Mont](#) , 2012, 060632254X, 9780606322546. In this stunning, imaginative novel, Eve Marie Mont transports her modern-day heroine into the life of Jane Eyre to create a mesmerizing story of love, longing, and finding your place in the world... Emma Townsend has always believed in stories-the ones she reads voraciously, and the ones she creates. Perhaps it's because she feels like an outsider at her exclusive prep school, or because her stepmother doesn't come close to filling the void left by her mother's death. And her only romantic prospect-apart from a crush on her English teacher-is Gray Newman, a long-time friend who just adds to Emma's confusion. But escape soon arrives in an old leather-bound copy of Jane Eyre... Reading of Jane's isolation sparks a deep sense of kinship. Then fate takes things a leap further when a lightning storm catapults Emma right into Jane's body and her nineteenth-century world. As governess at Thornfield, Emma has a sense of belonging she's never known-and an attraction to the brooding Mr. Rochester. Now, moving between her two realities and uncovering secrets in both, Emma must decide whether her destiny lies in the pages of Jane's story, or in the unwritten chapters of her own...

[The Nature of Emotion: Fundamental Questions, Paul Ekman, Richard J. Davidson](#) , 1994, 0195089448, 9780195089448.

The editors of this unique volume have selected 24 leading emotion theorists and asked them to address 12 fundamental questions about the subject of emotion. For example; Are there basic emotions? How do you distinguish emotions from moods, temperament, and emotional traits? Can we control our emotions? Can emotions be non-conscious? What is the relation between emotion and memory? What develops in emotional development? Each chapter addresses a different one of these fundamental questions about emotion, with often divergent answers from several of leading researchers represented here: James Averill, Gordon Bower, Linda Camras, Lee Clark, Gerald Clore, Richard Davidson, Judy Dunn, Paul Ekman, Phoebe Ellsworth, Nico Frijda, Hill Goldsmith, Jeffrey Gray, Carroll Izard, Jerome Kaga, Richard Lazarus, Joseph Le Doux, Robert Levenson, Jaak Panksepp, Mary Rothbart, Klaus Shere, Richard Shweder, David Watson, and Robert Zajonc. At the end of each chapter, the editors--Ekman and Davidson--highlight the areas of agreement and disagreement about each of the 12 questions about emotion. In the final chapter, Affective Science: A Research Agenda, the editors describe the research they believe would help answer each of the questions. Not a textbook offering a single viewpoint, The Nature of Emotion, uniquely reveals the central issues in emotion research and theory in the words of many of the leading scientists working in the field today. It is ideal for students, researchers, and clinicians interested in emotion.

[Turning Memories Into Memoirs: A Handbook for Writing Lifestories, Denis Ledoux](#) , 2006, 0974277347, 9780974277349. Ideal for beginners and experienced writers; based on author's workshops in which thousands have learned to write personal and family stories since 1988. Substantially revised, reflecting author's extensive memoir experience in workshops, writer coaching and co-authoring. Includes how-to exercises, literary techniques, motivational supports, examples from workshops. New features include how to establish and maintain a writing life, how to craft a collection from individual stories, how to explore self-publishing options, how to use archetypes to build characters, how to research via the Internet to build historical context. Plus 25 all new example lifestories, updated bibliography, 272 pages, 200+ historical photos.

[Master Your Mind: Raise Your Consciousness Awareness, Conan Kahuhu](#) , 2010, 0982554508, 9780982554500. Control Your Consciousness and Master Your Mind! Master Your Mind will teach you to put your self first so that you can help others. Master Your Mind provides vital information to transform your thoughts into effective emotional energy, how to access your creative constructive consciousness core and how to transcend your pain into passion. Master Your Mind goes into to the realms of anger, addiction and adversity unlike most books in its genre. Yet, it adds humor through its illustrations and short stories. Master Your Mind brings forth new concepts like the process of actualization to raise your conscious awareness to overcome mental mind blocks. It also provides unique creative concepts that appeal to left brain and right brain thinkers. Teaches step by step the most effective and specific goals setting techniques to manifest your desired results. Master Your Mind is a must book to have in any self development book collection and library. In Master Your Mind the author shares his personal experiences as an athlete, successful student, business person, military nurse, real estate agent and break dancer. He shares these personal experiences from different perceptions as examples to apply unique powerful concepts of success. These diverse short stories with applications from different situations provide a wide scope of variety. Master Your Mind was written by the powerful passion of love the author feels for his son, Zander. It is advice dedicated to the author's son. Yet, others can benefit from its concepts, principles and philosophies. Master Your Mind is entertaining, educating and emotionally moving with humorous illustrations and stories.

[The Possession of Mr Cave, Matt Haig](#) , 2009, 0099522950, 9780099522959. Terence Cave, intellectual, music-lover and owner of Cave Antiques, has experienced more than his share of tragedies. His mother's suicide and his young wife's death at the hands of burglars left him to bring up his young twins alone. And now one of them has died in a grotesque accident as a result of bullying. Bryony, the remaining twin, has always been the family's great hope: a golden teenager, in love with her cello and her pony, clever, sweet and eager to please. Now that she is all Terence has left, he realises that his one duty in life is to keep her safe from the world's malign forces, whatever that may take. As he starts to follow his grieving daughter's movements, and enforces a draconian set of rules purely for her own safety, the voices in his head convince him to protect her innocence at any cost. The Possession on Mr Cave is both a nightmare of Gothic proportions and a story of distorted love, with chilling resonance for anyone who has been a parent or a frustrated teenager. In this compulsive novel, the characteristic black humour of *The Last Family in England* and *The Dead Fathers Club* moves even further onto the dark side. Matt Haig lays bare the process by which Terence's love for Bryony becomes a possessive force that will lead to destruction and, ultimately, murder.

As they blend their skills and strengths to overcome all sorts of new challenges and hardships, they learn to trust each other, work as a team, ignore pain, have fun, and never give up!

[Handbook of Radiation Effects, Andrew Holmes-Siedle, Len Adams](#) , 2002, 019850733X, 9780198507338. This revised second edition of a popular handbook for engineers describes the important relationship between high-energy radiation environments, electronic device physics and materials. It is a straightforward account of the problems which arise when high-energy radiation bombards matter and of engineering methods for solving those problems. Radiation effects are a problem encountered in the use of highly engineered materials such as semiconductors, optics and polymers. The finely-tuned properties of these materials may change drastically when exposed to a radiation environment such as a beam of X-rays or electrons, the space environment or the 'hadrons' in CERN's new collider. All of these environments and several more are described. At the core of this book is a discussion of the impact of these environments on the devices used in computing, data processing and communication. While unashamedly oriented to the engineer-designer and manager, with descriptions in a highly readable form, there is no compromise in physical accuracy when describing high-energy radiation and the effects it produces, such as electronic failure, coloration and the decay of strength. A great breadth of technical data, such as may be needed to make quick decisions, is presented with literature references and a compendium of web-sites which have been tested and used by the authors.

[Raising Your Spirited Child: A Guide for Parents Whose Child Is More, Mary Sheedy Kurcinka](#) , 2009, 0061750743, 9780061750748. The spirited child often called "difficult" or "strong-willed" can easily overwhelm parents, leaving them feeling frustrated and inadequate. Spirited kids are, in fact, simply "more" by temperament, they are more intense, sensitive, perceptive, persistent, and uncomfortable with change than the average child. Through vivid examples and a refreshingly positive viewpoint, Mary Sheedy Kurcinka offers parents emotional support and proven strategies for handling their spirited child. Raising Your Spirited Child will help you: Understand your child's and your own temperamental traits Plan for success with a simple four-step program Discover the power of positive rather than negative labels Cope with tantrums and blowups when they do occur Develop strategies for handling mealtimes, bedtimes, holidays, school and many other situations Filled with personal insight and authoritative advice, Raising Your Spirited Child can help make parenting the joy it should be, rather than the trial it can be.

[The Celtic Year: A Month-by-month Celebration of Celtic Christian Festivals and Sites, Shirley Toulson](#) , 2002, 1843332787, 9781843332787. Celebrate a full year's worth of everything Celtic, from the lives of the Celtic saints to annual festivals and traditional tales handed down through generations uncounted. The rich essence of Celtic spirituality is revealed through an illustrated treasury of traditional prayers, accompanied by suggested pilgrimages to Celtic shrines and historic sites throughout the British isles, one for each month of the year. The pilgrimages are described in vivid detail, with maps, walking directions and colorful descriptions of what you'll see along the route. And because not everyone can visit these sites in person, the journeys need not be undertaken in the physical sense, but rather they may be used as launching pads for your own spiritual journeys of discovery. [Rhetorical Action in Ancient Athens: Persuasive Artistry from Solon to Demosthenes, James Fredal](#) , 2006, 0809325942, 9780809325948. James Fredal's wide-ranging survey examines the spatial and performative features of rhetorical artistry in ancient Athens from Solon to Demosthenes, demonstrating how persuasive skill depended not on written treatises, but on the reproduction of spaces and modes for masculine self-formation and displays of contests of character. Studies of the history of rhetoric generally begin with Homer and Greek orality, then move on to fifth-century Sicily and the innovations of Corax, Tisias, and the older Sophists. While thorough and useful, these narratives privilege texts as the sole locus of proper rhetorical knowledge. *Rhetorical Action in Ancient Greece: Persuasive Artistry from Solon to Demosthenes* describes rhetoric as largely unwritten and rhetorical skill as closely associated with the ideologies and practices of gender formation and expression. In expanding the notion of rhetorical innovation to include mass movements, large social genres, and cultural practices rather than the formulations of individual thinkers and writers, Fredal offers a view of classical rhetoric as local and contingent, bound to the physical spaces, local histories, and cultural traditions of place. Fredal argues that Greek rhetorical skill remained a function of local spaces like the Pnyx, social practices such as symposia or local meetings, cultural ideologies like those surrounding masculine friendship, and genres of performance such as how to act like a man, herald, sage, tyrant, or democrat. Citizen participation, he explains, was motivated by the desire to display masculine excellence in contests of character by overcoming fear and exerting symbolic and bodily control over self, situation, and audience. He shows how ancient Greek rhetoric employed patterns of action such as public oratory and performance to establish, reinforce, or challenge hierarchies and claims to political power. Instead of examining speeches, handbooks, and theory, *Rhetorical Action in Ancient Greece* examines the origins of rhetoric in terms of performance. The result is a presentation of rhetorical knowledge as embodied in places and practices with spatial and practical logics that are rarely articulated in written discourse. The volume calls on archaeological, literary, and anthropological evidence about the rhetorical actions of Athens's leading political agents including Solon, Peisistratus, Cleisthenes, Demosthenes, and the anonymous herm-choppers of the Peloponnesian war to demonstrate how each generation of political leaders adopted and transformed existing performance genres and spaces to address their own political exigency.

[The Marksman, Mary Winter](#) , 2010, 0982763719, 9780982763711. Cameron Sommers has always worked just beyond the borders of right and wrong. A military sniper, she retired to work on adventure tours, mostly in the Arctic looking for polar bears. When an accidental shooting left her shaken, she went back to the military. This time she works as a consultant for a European Forces General, and he's sent her to the Arctic, where she has come face-to-face with the biggest, most dangerous, and the sexiest bears she has ever known. Kjell Tivet thinks the new sharpshooter is going to

endanger the mission and get herself killed. How one curvy, sexy woman who is wicked good with a rifle can help them track down the Russian corporations dumping in the Arctic, is beyond him. But Kjell knows the mission, and he trusts his commanding officer to know what he's doing. All he needs to do is keep one hot sharp shooter safe and make sure he's not left wounded by her lethal charm.

[Bloodroot](#), Larry M. Arrowood , 2013, 0989229106, 9780989229104. A gripping tale of racial prejudice in a small Southern town, Bloodroot tells the story of a re red law enforcement officer who stumbles upon a complex web of ignorance and abuse. Retired county sheriff Harry Weatherholtz has returned to Virginia's Shenandoah Valley to live out his final years. But a despicable crime soon forces Weatherholtz out of his peaceful retirement. The court system has placed two African-American orphans, young Eddie and his teenage sister, Miss Ann, in the care of the vicious Hurley Cutshaw. The community looks the other way as Cutshaw treats the orphans like chattel, subjecting them to a life of neglect and abuse - abuse which culminates when he forces Eddie, who can't swim, into a deep lake to retrieve a five-cent fishing lure. Eddie drowns while Cutshaw sits on a stump and watches. Weatherholtz zealously urges current County Sheriff Flin to investigate the supposed accidental drowning as a homicide, and to push for a grand jury investigation. Although Sheriff Flin resents Weatherholtz's meddling at first, the two eventually join together in an audacious attempt to shut down Cutshaw's child-labor racket. In the process, they realize that the crime does not implicate Cutshaw alone. Its roots run deep, drawing on a hate that drives the hearts of those in the highest positions of power. Bloodroot is the first if the Shenandoah series.

[Fish face](#), David Doubilet , 2003, . The world's oceans are one of the last great largely unexplored places on earth. They teem with life some of it familiar and some of it strange to us and "Fish Face" takes us closer to the fish that live here.

Showing full-page pictures of close up portraits of their faces, the book takes us from the beautiful to the ugly, from spiky to rotund. The huge variety of species is appealing and astounding. The book takes a look at the work of David Doubilet, widely acclaimed as the world's leading underwater photographer. He has photographed fish for over 25 years and "Fish Face" looks at the most colourful, fun and bizarre fish he has encountered. This book should appeal to anyone who has ever wondered about the variety of fish living in our oceans and to naturalists and photographers alike.

[The White Plague: Tuberculosis, Man, and Society, Ren Jules Dubos, Jean Dubos](#) , 1952, 0813512247, 9780813512242.

In *The White Plague*, Ren and Jean Dubos argue that the great increase of tuberculosis was intimately connected with the rise of an industrial, urbanized society and--a much more controversial idea when this book first appeared forty years ago--that the progress of medical science had very little to do with the marked decline in tuberculosis in the twentieth century. *The White Plague* has long been regarded as a classic in the social and environmental history of disease. This reprint of the 1952 edition features new introductory writings by two distinguished practitioners of the sociology and history of medicine. David Mechanic's foreword describes the personal and intellectual experience that shaped Ren Dubos's view of tuberculosis. Barbara Gutmann Rosenkrantz's historical introduction reexamines *The White Plague* in light of recent work on the social history of tuberculosis. Her thought-provoking essay pays particular attention to the broader cultural and medical assumptions about sickness and sick people that inform a society's approach to the conquest of disease.

[Introducing Biological Energetics: How Energy and Information Control the Living World, Norman W. H. Cheetham](#) , 2010, 019157676X, 9780191576768. This novel, interdisciplinary text presents biological understanding in terms of general underlying principles, treating energy as the overarching theme and emphasizing the all-pervading influence of energy transformation in every process, both living and non-living. Key processes and concepts are explained in turn, culminating in a description of the overall functioning and regulation of a living cell. The book rounds off the story of life with a brief account of the endosymbiotic origins of eukaryotic cells, the development of multicellularity, and the emergence of modern plants and animals. Multidisciplinary research in science is becoming commonplace. However, as traditional boundaries start to break down, researchers are increasingly aware of the deficiencies in their knowledge of related disciplines. *Introducing Biological Energetics* redresses the reciprocal imbalance in the knowledge levels of physical and biological scientists in particular. Its style of presentation and depth of treatment has been carefully designed to unite these two readerships.

[Build Your Own Home Office Furniture, Danny Proulx](#) , 2001, 1558705619, 9781558705616. Setting up a home office involves time, money and careful planning. For the creative woodworker, it can also mean the satisfaction of building each piece yourself. With designs ranging from weekend projects to a fully-realized computer desk, all of the plans in this book are fresh, functional and fun to build, including a stand-up desk recalling the unique work habits of Ernest Hemingway. Everything in this book is accessible, even for beginning woodworkers without elaborate shops. Designs include desks, shelving, room dividers and more. Easy-to-follow instructions are accompanied by detailed photographs showing all the key steps. Projects can be completed quickly, so craftsmen save money without a huge investment of time. Danny Proulx is a regular contributor to woodworking magazines in both the U.S. and Canada and the author of several books including How To Build Classic Garden Furniture, Building More Classic Garden Furniture and Smart Shelving and Storage Solutions. He runs his own woodworking business in Russell, Ontario, Canada.

[Hug Dancing, Shelby Hearon](#) , 2011, 0307800393, 9780307800398. With wit and feeling Shelby Hearon takes us into the life and world of Cile Tait, age thirty-nine, of Waco, Texas. A woman of charm and integrity, she summons up the courage to burn her bridges and defect from her marriage to the Grace Presbyterian Churchs minister, only to be stunned by the complete lack of flame, smoke or hubbub of any kind that follows. Here is an inner-directed, sensuous, self-liberated woman impelled to make a place for herself in a society where church-centered propriety (embodied in her

preacher-husband, whose constricting bed and board she leaves) mingles with country-style macho (in the person of Andy, her long-lost high school sweetheart and hug-dancing partner, who resurfaces and reclaims her) and with the eternal Dallas dash (Andys bandbox-stylish wife). It is a new world where superconducting supercolliders, threatening famlands, have brought into the area a global mix of superscientists (including the beautiful Korean who may be moving toward the marriage Cile has vacated), where the rumble of money appears to underlie almost every mysterious action and where Cile's two daughters, young Amazons with a passion to save the world from ecological disaster, are already charting their own independent courses. Yet the more things change, the more they are destined to repeat the past. So it goes in Shelby Hearons wickedly observant novel, whose convolutions, through three months from Wind Day to Earth Day, trace the amazing course of true love la 1990s.

[Vanity Fierce, Graeme Aitken](#) , 2012, 1742759076, 9781742759074. Graeme Aitken's last novel was fabulous...in fifty ways. This novel is fabulous in fifty different ways...bitchy, funny, camp, tender, vain, glamorous, capricious, seductive...like Sydney itself where this tale of the city is set. The ultimate comic novel of gay Sydney - Armistead Maupin meets Melrose Place at the Mardi Gras! Stephen Spear is everyone's golden boy (including his own). Blond, blue-eyed, blessed with every talent and advantage, he has the world falling at his feet. And he's ready to trample all over it. When Stephen falls for Ant, the only gay man he knows who still has chest hair, he is astounded to find his desire unrequited. Or is it? Ant is so inscrutable, it's impossible to be entirely sure. But Stephen is determined to get his man. And if the wiggle of his cute butt isn't enough, then scheming, lying and manipulating is second nature to him. He's too young to

realise that love can be tricky enough without adding any extra complications. *Vanity Fierce* is a love story that's big on outrageous schemes, dark secrets and firm muscles.

[The North Carolina Gazetteer: A Dictionary of Tar Heel Places and Their History, William Stevens Powell, Michael R. Hill](#) , 2010, 0807833991, 9780807833995. The North Carolina Gazetteer first appeared to wide acclaim in 1968 and has remained an essential reference for anyone with a serious interest in the Tar Heel State, from historians to journalists, from creative writers to urban planners, from backpackers to armchair travelers. This revised and expanded edition adds approximately 1,200 new entries, bringing to nearly 21,000 the number of North Carolina cities, towns, crossroads, waterways, mountains, and other places identified here. The stories attached to place names are at the core of the book and the reason why it has stood the test of time. Some recall faraway places: Bombay, Shanghai, Moscow, Berlin. Others paint the locality as a little piece of heaven on earth: Bliss, Splendor, Sweet Home. In many cases the name derivations are unusual, sometimes wildly so: Cat Square, Huggins Hell, Tater Hill, Whynot. Telling us much about our own history in these snapshot histories of particular locales, The North Carolina Gazetteer provides an engaging, authoritative, and fully updated reference to place names from all corners of the Tar Heel State.

[The Roman Book, Rex Winsbury](#) , 2009, 0715638297, 9780715638293. The publishing of Roman books has long and often been misrepresented by false analogies with modern publishing. This comprehensive new study examines, by appeal to what Roman authors themselves tell us, both the raw materials and aesthetic criteria of the Roman book (a papyrus scroll) and the process of literary composition. What was the 'scribal art' of the time? What was the role of bookshops and libraries? What control did an author have over his creation? How were new books received and used by readers? To answer these questions Roman publishing is placed firmly in the context of a society that, despite the omnipresence of writing, was still predominantly oral. This context helps to explain how some books and authors became politically dangerous, and how the Roman book could be both a cultural icon and integral part of the self-definition of Rome's governing elite and a direct contributor to popular culture through the mass medium of the Roman theatre.

[Twelve Cities: A Memoir, Roy Jenkins](#) , 2003, 1743284322, 9781743284322. Roy Jenkins follows up "Churchill" with a book of a very different shape; short and semi-autobiographical, but also full of the wit and erudition which made that book such a success. Each of the twelve cities are described with a mixture of architectural interest, topographical insight, and personal anecdote. Jenkins has three British cities: Cardiff, Birmingham and Glasgow. Further afield there is Paris, Brussels, Bonn, Berlin, Naples and Barcelona. From Lord Jenkins' over a hundred visits to North America there emerge highly personal recollections of New York and Chicago. Dublin, so near to home and yet so distant, makes up the dozen. "Twelve Cities" is a fascinating and sparkling collection from one of our very finest writers.

[Damned whores and God's police, Anne Summers](#) , 1994, 0140231870, 9780140231878. in 1975 Anne Summers set out to describe the way in which Australia's history and culture had limited women's participation in our own society. The result was a devastating and totally original view of Australia that had a profound effect on a generation of women, a book that stands beside the best of feminist literature and Australian history. Two decades after Damned Whores and God's Police was first published, Anne Summers has returned to her classic study, adding two substantial new chapters to the core of her book. Here she assesses what we have achieved and takes an impassioned and heartfelt look at the modern women's movement. in telling the story of the creation of that movement, Anne Summers provides a call to action for the generation born since Damned Whores and God's Police first appeared.

[Handbook of Old Gallatin County, Jon Musgrave](#) , 2002, 0970798407, 9780970798404. "The Handbook of old Gallatin County includes a new annotated version of the 1887 History of Gallatin County, plus two new sections compiled from various 19th century sources telling early anecdotes as well as the county's military history. Included are rosters of the county's veterans in the Black Hawk, Mexican, Civil and Spanish-American wars. The latter section contains the most complete account ever compiled of all the various frontier attacks and skirmishes in Southeastern Illinois during the decade either side of the War of 1812. The fourth section brings to light more than 250 biographies of leading residents written mostly during the period of 1876 to 1912. Most important of all to genealogists and researchers, the fifth section of the book contains a full name index of every person mentioned inside" -- Back cover.

finance.

[Extreme Prayer Makeover: Remodeling Lives Through Prayer, Joe Camenetti](#) , 2006, 0976446057, 9780976446057. Are you frustrated because your prayers seem to be producing only "hit and miss" results? Do you long for a more satisfying and effective prayer life? Such was the case for author and pastor, Joe Camenetti, until he cried out to God in frustration, seeking for a more satisfying and effective way to pray. In this book, Pastor Joe shares the powerful revelation that God gave him--perhaps the most unique and exciting information about praying effective, Bible-based prayers that you have ever heard. You can experience an extreme prayer makeover using this simple acronym: R - Rescue from Evil E - Expanded Love M - More Boldness O - Open Eyes D - Deeper Desire E - Extra Strength L - Lord's Will As a praying Christian, you have been given a great place of authority on the earth. This book will help you understand how to pray and what to pray so, you can experience an extreme prayer makeover, as God remodels you - and those for whom you pray - from the inside out!

[Graph Theory, ISSN 0072-5285, Reinhard Diestel](#) , 2006, 3540261834, 9783540261834. The third edition of this standard textbook of modern graph theory has been carefully revised, updated, and substantially extended. Covering all its major recent developments it can be used both as a reliable textbook for an introductory course and as a graduate text: on each topic it covers all the basic material in full detail, and adds one or two deeper results (again with detailed proofs) to illustrate the more advanced methods of that field. From the reviews of the first two editions (1997, 2000): "This outstanding book cannot be substituted with any other book on the present textbook market. It has every chance of becoming the standard textbook for graph theory." *Acta Scientiarum Mathematicarum* "The book has received a very enthusiastic reception, which it amply deserves. A masterly elucidation of modern graph theory." *Bulletin of the Institute of Combinatorics and its Applications* "A highlight of the book is what is by far the best account in print of the Seymour-Robertson theory of graph minors." *Mathematika* ". . . like listening to someone explain mathematics." *Bulletin of the AMS*

[A Pour of Rain: Stories from a West Coast Fort, Helen Meilleur](#) , 2003, 1551924226, 9781551924229. In the small town of Port Simpson in British Columbia, where Helen Meilleur grew up in the 1920s, she witnessed such exciting events as Indian attacks, gold prospecting, missionary efforts, and visits from royalty. She also traveled by steamship to her one-

room school on an Indian reservation. Her personal stories, written when she was 70 years old and combined with painstaking research and dozens of photographs, bring forth a remarkable history of this coastal community.

[Techniques for the Integration of Coupled Mode Equations in Two Dimensions Under Paraxial Approximations, Ronald Pannatoni](#) , 2005, . This book presents the complete theory of a new method for predicting long-range propagation of low-frequency sound in three-dimensional models of oceans with bottom interaction. Coupled parabolic equations that model one-way propagation of sound are derived from second-order coupled mode equations. Numerical methods are developed for integrating the coupled parabolic equations when the acoustic field is subject to transparent boundary conditions at vertical boundaries that are parallel to the main direction of propagation. These boundaries have no physical reality. They are introduced to limit the region in which the computations are done. A special feature of this method is that the acoustic field is split into primary and secondary components. The primary components are related to the acoustic field that would exist between the vertical boundaries if they were hard rather than transparent. The primary components contain spurious reverberations that originate at the vertical boundaries. The secondary components identify the reverberations and cancel them. A split-step Fourier method is used to compute the primary components. A pseudospectral method is used to compute the secondary components. New algorithms are used with this method that calculate discrete transparent boundary conditions at the vertical boundaries.

[The Meaning of Is: The Squandered Impeachment and Wasted Legacy of William Jefferson Clinton, Bob Barr](#) , 2004, 0974537624, 9780974537627. One month after the release of Clinton's long-awaited memoir, Bob Barr (the man behind the so-called "vast right wing conspiracy") shares his judgment on the Clinton legacy. His new book, *The Meaning Of Is: The Squandered Impeachment And Wasted Legacy Of William Jefferson Clinton*, clearly highlights the shocking depth of corruption that characterized Clinton's administration. Proving his reputation as Clinton's worst nightmare, Barr reveals previously unknown details of the impeachment process; describing how its scope was artificially limited and its progress politically undermined by both Democrats and Republicans. Published by Stroud & Hall Publishers, the book is expected to be available in bookstores in August 2004. Barr writes, "Looking back on the Clinton administration from the perspective of someone who was personally involved in investigating basically every public corruption case raised against Clinton, I am most amazed that the Monica Lewinsky case is ultimately what got the president impeached. This is not to say that lying under oath and obstructing justice are not impeachable charges or that the remedy we chose was inappropriate. However, these charges pale in comparison to the systematic damage Bill Clinton did to American national security, the office of the presidency, and the civil liberties of individual American citizens." *The Meaning Of Is* provides a starkly contrasting viewpoint on the record of the Clinton administration than found in President Clinton's new book.

These two books promise to ignite a fresh debate on the real legacy of the Clinton administration. Barr writes, "Bill Clinton will go down in history as a failed president, because he had the intelligence and opportunity required for greatness, but suffered from fundamental character flaws? There is no core to Bill Clinton, no principle he will not sell out, no lie he will not tell, no rule he will not break, if he believes doing so will best serve his immediate interests."

[The English Language, R. W. Burchfield](#) , 2002, 0198604033, 9780198604037. Here, Robert Burchfield, editor of the four-volume Supplement to the Oxford English Dictionary, offers a brief survey on the development of English. He expertly stresses the flexibility of the English language, tracing its ever-changing face from the 5th century AD to the present day. Burchfield describes the resilience of the language--from the days of runes to the origins of printing, through social, religious, political and industrial change in the eighteenth century, through the rise of the British Empire and the development of world English, right up to the enormous changes in the English language that have taken place in the twentieth-century. In a stirring Afterword, John Simpson looks at what the historical details of the English Language tell us about the world of its speakers, and how ideas about what constitutes the English Language have changed over the past decades. Wonderfully informative and a delight to read, The English Language is an essential guide for anyone interested in the early days of our language and how it has transformed over the years into its modern form.

[Make Money Online: Roadmap of a Dot Com Mogul, John Chow](#) , 2010, 1600376738, 9781600376733. Blogs. They may have once been the realm of personal online diaries, but blogs have quickly become just as legitimate and influential as mainstream newspapers and magazines. Did you know that you can make a very healthy income from blogging? Do you want to make five figures every month? I can show you how. My name is John Chow and my personal blog consistently makes over \$40,000 a month. In this book, I describe exactly how I went from earning \$0 to over \$40,000 a month from just a couple of hours each day. I'll walk you through the process, step by step, uncovering all the secrets that other pro bloggers are too afraid to tell you. What are you waiting for? Get out of the rat race and into the blogosphere!

[Autopsy on an Empire: The American Ambassador's Account of the Collapse of the Soviet Union, Jack F. Matlock](#) , 1995, 0679413766, 9780679413769. As the United States ambassador to Moscow during the Gorbachev period and Ronald Reagan's full-time go-between with the Soviet leadership, Jack Matlock couldn't have been in a better position to observe the collapse of the Soviet Union. A career diplomat, fluent in Russian, with a scholarly grasp of Russian history and culture, Matlock served in the USSR for most of his career and knew the men in the Kremlin well. He had traveled widely in the Soviet Union - more widely perhaps than most Soviet officials - and had seen firsthand the discontent in the captive republics. Since the dissolution of the union began in these republics, Matlock was uniquely placed to anticipate and interpret the process as it unfolded. Yet even he was surprised by the speed and finality with which the rickety empire gave way. Though Matlock writes that a definitive version of these events can never be told, it is unlikely that a more intimate and knowledgeable account of the rise and fall of Gorbachev and the collapse of the Soviet empire will ever be written. A first-rate historian and a powerful writer, Matlock offers new insight into the contrasting policies and personal approaches of President Reagan, who dreamed of changing the Soviet Union, and President Bush, who witnessed a collapse he tried to prevent. Drawing on frequent private meetings, he explains the agenda behind Reagan's "evil empire" speech and describes how Gorbachev developed his program for reform, and why he failed.

[The Family Legacy of Henry Clay: In the Shadow of a Kentucky Patriarch, Lindsey Apple](#) , 2011, 0813140374, 9780813140377. Known as the Great Compromiser, Henry Clay earned his title by addressing sectional tensions over slavery and forestalling civil war in the United States. Today he is still regarded as one of the most important political

figures in American history. As Speaker of the House of Representatives and secretary of state, Clay left an indelible mark on American politics at a time when the country's solidarity was threatened by inner turmoil, and scholars have thoroughly chronicled his political achievements. However, little attention has been paid to his extensive family legacy. In *The Family Legacy of Henry Clay: In the Shadow of a Kentucky Patriarch*, Lindsey Apple explores the personal history of this famed American and examines the impact of his legacy on future generations of Clays. Apple's study delves into the family's struggles with physical and emotional problems such as depression and alcoholism. The book also analyzes the role of financial stress as the family fought to reestablish its fortune in the years after the Civil War. Apple's extensively researched volume illuminates a little-discussed aspect of Clay's life and heritage, and highlights the achievements and contributions of one of Kentucky's most distinguished families.

[Remember Native America!: The Earthworks of Ancient America, Richard Balthazar](#) , 1992, 0963266101, 9780963266101. In the eighteenth and early nineteenth centuries prehistoric earthworks were to be seen throughout North America. Fascinated colonialist and European settlers attributed these mysterious mounds to mythic Eurocentric sources rather recognizing them as evidence of prehistoric Amerinds. By the end of the nineteenth century interest in the moundbuilders and their earthworks had waned. Treasure hunters had ransacked most of the ancient sites and many earthworks succumbed to the plow or newly constructed towns. Thousands of earthworks and moundbuilder artifacts vanished forever. This book depicts many ancient sites in over 120 historic maps and photographs, and in photographs and line drawings. Each site is identified and briefly described in its appropriate period section, The Archaic Period (to 500 BC); The Ohio Period (500 BC-AD 500); and The Mississippi Period (AD 500-1500). An Epilogue and 3 Appendices follow. The appendices contain: an alphabetical site listing by state; "Gallery of Artifacts," presenting 50 illustrations of motifs and artifacts, and a selected reading list. (MM)

[Social Being and Time, Christopher Gosden](#) , 1994, 0631190236, 9780631190233. The nature of time is one of the continuing mysteries of human life. This is of particular relevance to archaeology with its unique focus on the social development of the human species from its origins to the present. Christopher Gosden probes the way in which the rhythms of social life derive from our involvement in the world, particularly as those rhythms unfold over many thousands of years. The author argues that time is created through the social use of material things such as landscapes, settlements

and monuments, and illustrates this with case studies drawn from Europe and the Pacific. The book provides a theory of social change and social being as the basis for understanding social formations over long periods of time. In developing this theory the author surveys ideas on human action and time as these have evolved over the last two centuries.

Although the theory is designed and presented here to be of practical use in interpreting archaeological data - exemplified here in case studies - the broad scope of the book will ensure its interest to all concerned with the interactions between people and the material world.

[Campus Dictionary of International Security, Paul Cornish, Andrew Dorman, Caroline Soper](#) , 2010, 0984226079, 9780984226078. The wave of recent arrests of terrorist suspects around the United States has led many across the globe to wonder whether terrorist activity really has decreased in the eight years since 9/11. Terrorist networks are still prominent around the world, and some believe that they are more powerful than ever. With so many plots foiled and so many more still looming, international security has become one of the most important issues not just for the Obama administration but for governments around the world. With the Campus Dictionary of International Security the first volume in a new series of specialized dictionaries from KWS international security experts Paul Cornish, Andrew Dorman, and Caroline Soper assemble a group of notable contributors to provide an overview of the key concepts of and the ongoing debates surrounding international security. Designed specifically for undergraduate students, this dictionary covers a wide range of topics, including those involving intelligence, legislation, technology, and military operations.

[Not a Fairytale, Shaida Kazie Ali](#) , 2010, 1415201129, 9781415201121. Salena, the elder of two Cape sisters, is light-skinned and demure, an easy one to marry off to a husband of her parents' choosing. Zuhra is dark and willful, refusing tradition and leaving the country in pursuit of her own destiny. The shoots of their lives grow apart and interlace again. Salena finds herself in a repressed marriage much like her mother's. Zuhra comes to suspect grim undercurrents to both their lives, which she expresses by retelling familiar fairytales, often hilariously, in a Muslim framework. But this is not a fairytale. The dark forest is real, and so are its secrets.

Inference and Statistics in SPSS is not just another SPSS manual but an innovative and integrated approach to learning introductory statistics using one of the world's best-selling statistical software packages. It will be an invaluable resource for students of business or social science who want to use statistics in the real world, to tackle real research problems, using real data.

[Point of Return - Drug Interaction Pocket Guide, Alesandra Rain, Andrea Crocker](#) , 2006, 097780402X, 9780977804023.

The practice of medicine has changed dramatically as many people regularly combine Western medicine with herbs, vitamins and elements of Oriental treatment. It has become increasingly common for people to seek herbal treatments while simultaneously taking several prescription medications. While a few combinations may be beneficial, often they are detrimental as many herbs decrease the effectiveness of the medication or increase toxicity. Many people have the notion that, being natural, all herbs and foods are safe when taken with a medication. Although most items may be perfectly sound choices in your diet, many can cause adverse reactions when combined with an Anti-Depressant or Tranquilizer. Very often, herbs, foods and some over-the-counter medications may interact with prescriptions, resulting in a range of symptoms from headaches, flu-like symptoms, increased anxiety, insomnia and many others. Because food and herbs are taken by mouth and travel through the digestive system in much the same way as a medication, some can alter the way the body metabolizes the prescription. Some drugs interfere with the body's ability to absorb nutrients. Similarly, some herbs and foods can lessen or increase the impact of the drug in the body. Therefore, some people feel as if they have increased or decreased their medication too quickly, when it is actually an interaction between items they have ingested with their prescription. To Order Whether an individual is using Point of Return to taper off their medication or not, this handy guide may help prevent unwanted interactions and discomfort. The Interaction Pocket Guide includes Anti-Depressants, Anti-Anxiety Medications, Sleeping Pills and Anti-Psychotics and is a small booklet that can be carried in a purse or jacket pocket for easy referencing.

[From Death to Life, Jolanda Mosley](#) , 2004, 0976369818, 9780976369813. The process of birth is miraculous at every stage. What is even more remarkable is the growth of both the baby and the mother carrying the child. So is the process of growth and strength as it pertains to developing and giving life to dreams that we nestle inside of us. This book parallels the spiritual stages of pregnancy to the stages of giving birth to dreams and vision.

[Quantum Theory: A Very Short Introduction, John Polkinghorne](#) , 2002, 0191577677, 9780191577673. Quantum Theory is the most revolutionary discovery in physics since Newton. This book gives a lucid, exciting, and accessible account of

the surprising and counterintuitive ideas that shape our understanding of the sub-atomic world. It does not disguise the problems of interpretation that still remain unsettled 75 years after the initial discoveries. The main text makes no use of equations, but there is a Mathematical Appendix for those desiring stronger fare. Uncertainty, probabilistic physics, complementarity, the problematic character of measurement, and decoherence are among the many topics discussed.

ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

[When Do The Good Things Start?, Abraham J. Twerski](#) , 1995, 0312132123, 9780312132125. A therapist looks at life's ups and downs (with a bit of help from Charlie Brown and his friends). From the author of *Waking Up Just In Time* and *Life's Too Short*. A down-to-earth and inspirational guide that will help you* Overcome low self-esteem* Build confidence* Put guilt in its place* Dispel loneliness Everybody reads the comics. A chuckle, and then on to the serious stuff. One cartoonist, Charles M. Schulz, has for years done more than just make us laugh. He has offered a treasury of thought, philosophy and psychology. Dr. Abraham Twerski, during his career as a clinical psychiatrist, has turned his patients toward Peanuts comic strips. Time after time he has found that the wit and wisdom in Schulz's strips is just what his patients needed to see themselves in a new light. It is a unique and effective jumping-off point for the practical, down-to-earth counseling that Dr. Twerski provides. Let Dr. Twerski help supply the answers to a better life for you, and if you get a few laughs along the way, so much the better.

[How to Draw Chibi,](#) , 2005, 1932453881, 9781932453881. Get ready for a book of (nearly) unheard-of proportions! Chibi - super-deformed, small-bodied... whatever you call 'em - are one of the major elements of comedy (and even semi-serious) manga, and no manga artist's education is complete without knowing how to draw 'em! Antarctic's top talents give you the lowdown on the low-down, from stubby limbs to oversize heads and everything in between! It's the biggest book ever about manga's smallest characters!

[Bless Me, Ultima, Rudolfo Anaya](#) , 2012, 1455521329, 9781455521326. Stories filled with wonder and the haunting beauty of his culture have helped make Rudolfo Anaya the father of Chicano literature in English, and his tales fairly shimmer with the lyric richness of his prose. Acclaimed in both Spanish and English, Anaya is perhaps best loved for his classic bestseller ... Antonio Marez is six years old when Ultima comes to stay with his family in New Mexico. She is a curandera, one who cures with herbs and magic. Under her wise wing, Tony will test the bonds that tie him to his people, and discover himself in the pagan past, in his father's wisdom, and in his mother's Catholicism. And at each life turn there is Ultima, who delivered Tony into the world-and will nurture the birth of his soul. (68,000 words)

[Using Your Computer: The Beginner's Guide Third Edition, Kyle MacRae](#) , 2011, 0857331205, 9780857331205.

Incorporating all the latest developments in technology and software, this manual, now in its third edition, is ideal for anyone who lacks experience or confidence in using a PC. The reader will learn how to set up their PC, get to grips with Windows 7, work with software and drives, get online and send emails. With clear, jargon-free text, plenty of practical exercises and numerous hints and tips, this manual is aimed at the complete beginner and no technical knowledge whatsoever is assumed or required.

[Company Director Disqualification: A Follow Up Report, Great Britain. National Audit Office, National Audit Office Staff, Great Britain. Parliament House of Commons](#) , 1999, 0102662991, 9780102662993. Company Director Disqualification

[Raw Desserts: Mouthwatering Recipes for Cookies, Cakes, Pastries, Pies, and More, Erica Palmcrantz Aziz, Irmela Lilja](#) , 2011, 1616083476, 9781616083472. Savor a rich, raw treat as it melts in your mouth and know you're doing your body a favor! This sequel to Raw Food shows how you can eat sweets every day while providing your body with plenty of nutrition and vitality. Here you'll find recipes for luscious desserts, cakes, pastries, ice cream, cakes, cookies, and smoothies and other beverages. Enjoy fruit, organic vanilla powder, cocoa, and other unique super-foods in their purest form. How wonderful to be able to share a treat with family and friends that is delicious, healthy, and even good for the environment! All raw food goodies in this book are made with natural, authentic ingredients that are not heated over 42C (108F), and all the recipes are naturally free of white sugar, gluten, eggs, and lactose. Start your raw lifestyle with a dessert!

[Clandestino: In Search of Manu Chao, Peter Culshaw](#) , 2013, 1847656404, 9781847656407. A decade ago, Manu Chao's band, Mano Negra, toured Columbia by train, negotiating with government troops and rebels - an episode described at the time as 'less like a rock'n'roll tour - more like Napoleon's retreat from Moscow'. That's Manu in a nutshell. He does everything differently. He is a multi-million selling artist who prefers sleeping on friends' floors to five-star hotels, an anti-globalisation activist who hangs out with prostitute-activists in Madrid and Zapatista leader Comandante Marcos in Chiapas, a recluse who is at home singing in front of 100,000 people in stadiums in Latin America or festivals in Europe. Clandestino has been five years in the writing, as Peter Culshaw followed Manu around the world, invited at a moment's notice to head to the Sahara, or Brazil, or to Buenos Aires, where Manu was making a record with mental asylum inmates. The result is one of the most fascinating music biographies we're ever likely to read.

[Pocket Coach to Parenthood: Good Sports Make Winning Parents, sa Nelson-Odbck](#) , 1997, 0965776085, 9780965776080. In a unique context of sports quotations, fun, and facts, Pocket Coach to Parenthood is a parent's personal "coach", dispensing wisdom on raising children, giving pep talks when they're in a slump, and teaching them how to deal with problems before they ever arise -- kind of like a parenting "spring-training". Supported by the

encouraging words of Tommy Lasorda, Joe Torre, Babe Ruth, John Madden, Knute Rockne, and hundreds of other stars and coaches, the text inspires and guides parents to improve their play with their children. Chapters, from "WarmUp" to "Playing in the Higher League", reveal a step-by-step game plan for attaining success as a parent and in the game of life. Pocket Coach to Parenthood creates a model for busy parents that they can actually use.-- "Parenthood is as demanding a sport as football, hockey or baseball, but all too often mothers and fathers come into the game entirely unprepared for the task of 'coaching' a brand new human from infancy to adulthood. What the parents need is a good coach. Such... can be found in... Pocket Coach To Parenthood", -- Andrea Estrada, The Working Parent, August 1997

[Rethink: Cause and Consequences of September 11, Giorgio Baravalle](#) , 2003, 0970576862, 9780970576866. September 11 was a departure point that will define our future. Consequently, we have all been forced to rethink, an act that requires introspection and reinterpretation of standard thinking. Rethink, a de.MO project, is a book about history and politics, a book about our lives and about our world and what we are trying to accomplish in it. Rethink confronts our diversity, our stupidity and cleverness, our preoccupations and rage, our laughter and desperate tears, our need for justice and love, our thirst for blood and power, our need to nourish and be nourished, our need to breathe, close our eyes and dream. The contributors to Rethink had the freedom to create their own voices and were encouraged to respond in a manner that would acknowledge the historical events and causes that brought us to September 11. Their varied responses create a document of great interest at a time when politics and values are in tremendous flux. In Rethink, we are forced to be open-minded, to review all opinions and issues with the possibility that we might emerge with a new perspective and personal ideology. Contributors include: Jon Lee Anderson, Kofi Annan, John Berger, Alexandra Boulat, Zbigniew Brzezinski, George W. Bush, Noam Chomsky, Wesley Clark, John Cooley, The Dalai Lama, Robert Fisk, Vaira Vike-Freiberga, Thomas L. Friedman, Gunter Grass, Ron Haviv, Christopher Hitchens, Michael Ignatieff, Muzamil Jaleel, Gary Knight, Antonin Kratochvil, Lewis H. Lapham, Matt McAllester, Takis Michas, Christopher Morris, James Nachtwey, Joseph S. Nye, David Rieff, Arundhati Roy, Edward Said, Eyad Sarraj, Uri Savir, Jonathan Schell, William Schultz, Susan Sontag and Admiral Stansfield Turner Rethink has received the Photo District News Best Book Selection and the Communication Arts Best Book Selection.

[Snow Blind, P. J. Tracy](#) , 2007, 1101212276, 9781101212271. When the corpses of three police officers are discovered entombed in snowmen, Grace MacBride and her team of crime-busting computer jocks at the Monkeewrench firm are called in to assist. What they discover is a terrifying link among the victims that reaches beyond the badge and crosses the line between hard justice and stone cold vengeance.

[Interpreting Aerial Photographs to Identify Natural Hazards, Charles E. Glass](#) , 2013, 0124200281, 9780124200289.

Authored by a world-renowned aerial photography and remote sensing expert, Geographic Aerial Photography: Identifying Earth-Surface Hazards Through Image Interpretation is the most practical and authoritative reference

available for any professional or student looking for a reference on how to recognize, analyze, interpret and avoid or successfully plan for dangerous contingencies. Whether they are related to natural terrain, geology, vegetation, hydrology or land use patterns its critical for you to be able to recognize dangerous conditions when and where they exist. Failure to adequately recognize and characterize geomorphic, geologic, and hydrologic dangers on the ground using aerial photography is one of the major factors contributing to due to natural hazards and disasters, damage to architectural structures, and often the subsequent loss of human life as a result. Aerial photographs provide one of the most prevalent, inexpensive and under-utilized tools to those with the knowledge and expertise to interpret them. Authored by one of the worlds experts in aerial photography and remote sensing, with more than 35 years of experience in research and instruction. Features more than 100 color photographs to vividly explore the fundamental principles of aerial photography. Chapter tables underscore key concepts including channel size and shape characteristics, image scales, reverse fault values, and strike-slip fault systems.

[Crespar Findings \(1994-1999\): In Memory of John H. Hollifield, - A Special Double Issue of the Journal of Education for Students Placed at Risk, A. Wade Boykin, Robert E. Slavin](#) , 2000, 0805897615, 9780805897616. This double issue presents summaries of the scholarly and practical-reform accomplishments of the first five years of the Center for Research on the Education of Students Placed at Risk (CRESPAR). This bold, five-year initiative addressed several of the problems that most directly challenge the values and practical aspirations of modern democracies. The included articles emphasize how CRESPAR has focused on the schools in many of America's most challenging communities. It has both helped local schools improve themselves and advanced the nation's research base. This issue was written in commemoration of the life and work of John Henry Hollifield, Jr., founding coeditor. For 28 years, Hollifield served as an editor and administrator at Johns Hopkins University's Center for Social Organization of Schools. When JESPAR was just an idea, Hollifield was one of the people who most strongly advocated its development. He had a ready smile, a fine editorial touch, and a relentless will to produce each excellent issue. This issue, summarizing much of the research from CRESPAR's first five years, is presented by the full team of authors in his loving memory.

[Tudie's Travels: The Adventures Begin, Shantel Goodman](#) , 2012, 0985345810, 9780985345815. Tudie's Travels is an original childrens book series that takes readers on an adventure through the eyes of Tudie, a young girl who lives on a small farm in Virginia. Tudie loves to read and play with her toy globe and she uses her imagination to dream of places she's never been before. Her imagination is brought to life when she spins the globe and is whisked away to culturally diverse places around the world.

Thousands of share investors now turn to Colin Nicholson every week for his analysis of the stock market and individual stocks. For the first time, he has written a book that is the culmination of almost 40 years of share investing.

[Seeing Ourselves: Classic, Contemporary, and Cross-cultural Readings in Sociology, John J. Macionis, Nijole Vaicaitis Benokraitis](#) , 2001, 0130813583, 9780130813589. Drawing on the work of the pioneers of sociology, as well as that of the men and women conducting today's research, this best-selling collection of 77 classic, contemporary, and cross-cultural articles conveys sociology's "diversity of viewpoints and methodologies." Important issues and debates are presented by scholars from many positions on the political spectrum, and capture "the fascinating complexity" of the social world. This unique anthology contains several articles for each of the general topics it covers. These topics include: the sociological perspective; sociological research; culture; society; socialization; social interaction in everyday life; groups and organizations; deviance; sexuality; social stratification; gender; race and ethnicity; aging and the elderly; the economy and work; politics, government, and the military; family; religion, education; health and medicine; population and urbanization; environment and society; collective behavior and social movements; and social change and modernity. For anyone interested in a look at this discipline's perspective and application to shaping tomorrow's world.

[Identidad - Identity: Poems for the Five Hundred Anniversary, Joann R. Vega](#) , 1992, 0963148303, 9780963148308.

IDENTIDAD/IDENTITY is a song for the people of the New World. It is written with the determination of bringing justice, not to the powerful conquerers, but to those who still await the arrival of the promised land, & have not yet had the opportunity to tell their part of history. This book exposes the daily lives of the Americans, who the writer ironically describes as the "Conquered." It speaks of dreams, hopes, beliefs, & ultimately, struggling pain that creates a process of leaving & returning, of going around in circles that never end. Not a song for one country or one family this work is. Instead, this is a recollection of the memories & symbols that compose the universal unconscious archetype that makes us one world, one people, in spite of apparent differences. This book is an unending & unraveling song of unity & beauty, in which the Creoles mix with Spanish & English to convey one meaning: IDENTITY/IDENTIDAD available in English or Spanish. Order From: Joann Vega, 6820 Indian Creek Drive #403, Miami Beach, FL 33141.

[Oxford Picture Dictionary for the Content Areas: Reproducible Social Studies: People and Places, Dorothy Kauffman](#) , 2010, 0194525082, 9780194525084. Accelerate your student's academic language development with the second edition of the Oxford Picture Dictionary for the Content Areas program. This program: Uses direct, explicit vocabulary instruction, which improves learning outcomes for ELLs and struggling learners. Helps English learners and struggling learners acquire new content area vocabulary and build word knowledge from incremental, repeated and varied exposures to words. Has an instructional routine that uses the research-based Gradual Release of Responsibility, Productive Partnering and other models as an effective way of increasing language acquisition. Is standards based and aligned to the Common Core State Standards and other leading research on what works most effectively. Uses scaffolded and differentiated instruction to improve vocabulary acquisition for English language learners.

[The New Strong's Exhaustive Concordance of the Bible: Super Value Edition, James Strong](#) , 1997, 078520931X, 9780785209317. This edition of a legendary classic puts generations of biblical research at your fingertips. The New Strong's Exhaustive Concordance gives you all the classic features of the full-size concordance in a smaller, more convenient form. Includes Fan-Tab(tm) Thumb-Index Reference System, Dictionaries of Hebrew and Greek words, easy-to-read print, and is revised and updated for accuracy.

[Dark Futures, Russell Blackford, James Cameron, William Wisher](#) , 2002, 0743445112, 9780743445115. Following the events of Terminator 2: Judgment Day, Sarah Connor and her son, John, had thought theyd been able to alter the future so that neither the artificially intelligent SkyNet nor its Terminator killing machines would ever be created. But if they were so successful, why, then, are they now being hunted by yet another Terminator thats traveled back in time to ensure that John never grows up to be the charismatic leader of the few humans who survived Judgment Day? And when

a band of human warriors from an alternate timeline make an unexpected appearance, have they come to help John? or the killing machine . . . ? Told from the perspective of John himself, *The New John Connor Chronicles* provides insight to the thoughts and fears of a young man who already knows what Fate has in store for him? and the burdens he has to bear along the path he must travel to become humanity's future savior.

[Aquinas, Brian Davies](#) , 2004, 0826470955, 9780826470959. St. Thomas Aquinas (c. 1225-1274) is widely viewed as one of the greatest Christian thinkers of all time. Aquinas was the ultimate combination of theologian and philosopher; and his influence on Christian life and thought reaches from the Council of Trent to the Second Vatican Council and through to today. Brian Davies shows that Aquinas's approach to the common questions of faith and existence is just as pressing and significant in our time. Here, the latest scholarship is incorporated with a clear and indispensable guide to Aquinas's thought.

[Echohawk, Lynda Durrant](#) , 1998, 0606155147, 9780606155144. A twelve-year-old white boy, adopted and raised by Mochicans in the Hudson River Valley during the 1730's, is sent with his younger brother to an English settlement for schooling.

[Theory and Applications of Fractional Differential Equations, , Anatoli Aleksandrovich Kilbas, H. M. Srivastava, Juan J. Trujillo](#) , 2006, 0444518320, 9780444518323. This monograph provides the most recent and up-to-date developments on fractional differential and fractional integro-differential equations involving many different potentially useful operators of fractional calculus. The subject of fractional calculus and its applications (that is, calculus of integrals and derivatives of any arbitrary real or complex order) has gained considerable popularity and importance during the past three decades or so, due mainly to its demonstrated applications in numerous seemingly diverse and widespread fields of science and engineering. Some of the areas of present-day applications of fractional models include Fluid Flow, Solute Transport or Dynamical Processes in Self-Similar and Porous Structures, Diffusive Transport akin to Diffusion, Material Viscoelastic Theory, Electromagnetic Theory, Dynamics of Earthquakes, Control Theory of Dynamical Systems, Optics and Signal Processing, Bio-Sciences, Economics, Geology, Astrophysics, Probability and Statistics, Chemical Physics, and so on. In the above-mentioned areas, there are phenomena with strange kinetics which have a microscopic complex behaviour, and their macroscopic dynamics can not be characterized by classical derivative models. The fractional modelling is an emergent tool which use fractional differential equations including derivatives of fractional order, that is, we can speak about a derivative of order $1/3$, or square root of 2, and so on. Some of such fractional models can have solutions which are non-differentiable but continuous functions, such as Weierstrass type functions. Such kinds of properties are, obviously, impossible for the ordinary models. What are the useful properties of these fractional operators which help in the modelling of so many anomalous processes? From the point of view of the authors and from known experimental results, most of the processes associated with complex systems have non-local dynamics involving long-memory in time,

and the fractional integral and fractional derivative operators do have some of those characteristics. This book is written primarily for the graduate students and researchers in many different disciplines in the mathematical, physical, engineering and so many others sciences, who are interested not only in learning about the various mathematical tools and techniques used in the theory and widespread applications of fractional differential equations, but also in further investigations which emerge naturally from (or which are motivated substantially by) the physical situations modelled mathematically in the book. This monograph consists of a total of eight chapters and a very extensive bibliography. The main objective of it is to complement the contents of the other books dedicated to the study and the applications of fractional differential equations. The aim of the book is to present, in a systematic manner, results including the existence and uniqueness of solutions for the Cauchy type problems involving nonlinear ordinary fractional differential equations, explicit solutions of linear differential equations and of the corresponding initial-value problems through different methods, closed-form solutions of ordinary and partial differential equations, and a theory of the so-called sequential linear fractional differential equations including a generalization of the classical Frobenius method, and also to include an interesting set of applications of the developed theory. Key features: - It is mainly application oriented.- It contains a complete theory of Fractional Differential Equations.- It can be used as a postgraduate-level textbook in many different disciplines within science and engineering.- It contains an up-to-date bibliography.- It provides problems and directions for further investigations.- Fractional Modelling is an emergent tool with demonstrated applications in numerous seemingly diverse and widespread fields of science and engineering.- It contains many examples.- and so on!

[Gladiator: Fight for Freedom: Fight for Freedom, Simon Scarrow](#) , 2012, 1423151011, 9781423151012. Eleven-year-old Marcus Cornelius Primus has been torn from his idyllic childhood and recruited as a gladiator, facing a life of intense training governed by strict rules. As he learns what it takes to become an elite warrior, Marcus makes new friends and masters valuable skills, but he also makes a dangerous enemy who will stop at nothing to make Marcus miserable. But Marcus has no intention of staying in gladiator school forever. He is determined to find his father's old commander to right the wrongs that have been done to Marcus's family. Escape won't be easy, with the threat of punishment and battle in the arena looming large. Yet, unbeknownst to Marcus, he carries a secret that might hold the key to his freedom and that of all of the Empire's slaves. And if the Romans discover it, there will be no escape. Internationally bestselling author Simon Scarrow brings his considerable talents to the younger audience in this suspenseful, thrilling, and action-packed journey through the perils and delights of Ancient Rome.

[A Child's Walk in the Wilderness: An 8-Year-Old Boy and His Father Take on the Appalachian Trail, Paul Molyneaux](#) , 2013, 0811711781, 9780811711784. Imagine a 7-year-old boy asking his father if they can hike the entire length of the 2,200-mile Appalachian Trail together. Then imagine that the father says yes. Now think "What are they getting themselves into?" For the author of this deeply felt book, the planned hike is an opportunity to bond with his son and be what he calls "Barbarians"--in touch with natural processes far from the comforts of home. It's also a chance for nature to do some healing in his life, too. For the boy, it's a once-in-a-lifetime adventure. They start in West Virginia and head north, through cold and wet spring weather, carrying only what they need and picking up resupply boxes along the way. The boy is entranced by the freedom, asking questions nonstop and pointing out every interesting bug, bird, and blossom they pass. But he's also stubborn, sometimes scared, and occasionally too tired to trudge on. Dad relishes seeing the natural world through his son's eyes, but he also struggles with the responsibility of keeping the journey going forward. By the time they reach Vermont, with aching feet and frazzled nerves, their plan to take a train to Georgia and hike north to where they started is in serious jeopardy. But the trail beckons. Closely observed, wonderfully described, and bracingly clear-eyed, this inspiring book will appeal to nature lovers and would-be AT hikers alike. It offers a vivid evocation of both the camaraderie and dangers of trail life--as well as the difficulties of modern child-rearing and the powerful lure of an untamed natural world.

[Opening Day: Or, the Return of Satchel Paige, Les Standiford](#) , 2001, 0970930518, 9780970930514. Reminiscent of Bernard Malamud's *The Natural*, W. P. Kinsella's *Shoeless Joe*, and the film *Field of Dreams*, *OPENING DAY* is a novella with the kind of magic charm that transcends sport and rises to the level of heroic myth. When the owner of a downtrodden team in the AA Mid Florida League discovers that his aging groundskeeper was once a star in the Negro Leagues, a public relations scheme is hatched. But what begins as a stunt leads to an astonishing outcome that no one, least of all Buck Wilson, the unassuming former great, could have predicted.
