**Audio Postcards Canada** is a curated online exhibition showcasing the diverse acoustic features of Canada.

With funding from the Canada Council for the Arts, the completed exhibition will consist of 16 compelling “audio postcards” from across Canada that range from field recordings, soundscape and electroacoustic compositions, radio art, and various combinations of these areas.

The exhibition includes artist statements and bios, a feature introduction by Hildegard Westerkamp, a curatorial statement by Andrea Dancer, and audio interviews with jurors Tyler Kinnear, Stephanie Loveless, and Charlie Fox about their process.
