Position: internship position

To whom this may regard,

I hereby have the honor to apply for an internship with your company. I am starting my third year as a student subject to Bachelor of International Affairs at the Strasbourg School of Management. As part of my studies, I am looking for a paid internship in commerce for a duration of six months in January 2022.

I acquired different professional experiences during my jobs and internships that I did. Thanks to the diversity of these, I was able to acquire different skills and develop them, like seriousness, teamwork. I am a dynamic, punctual and motivated candidate. I am sociable and enjoy being in contact with customers. With the theoretical knowledge acquired during my university studies, I plan to prepare thoroughly for a trade profession, this internship will allow me to learn more, and therefore to know where I want to go. In order to do so, staying abroad represents an opportunity for me.

During my first year at EM Strasbourg, I spent three months in London speaking English and taking classes with Nacel English School London. I am particularly interested in customer relations, I like meeting people and discovering new cultures. I would like to be able to combine my work and my passion. I am looking for multilingual experience in order to acquire skills in commercial relations in a transnational environment.

I dream of visiting a lot of countries, and China has always been a country that fascinates me, because of its multicultural character. I am drawn to discoveries and would like to understand better the reasons for China's major place in the world. In addition, I think I can learn a lot from this experience, especially through contact with these companies that make this nation a world leader.

I remain at your disposal for further information and I am at your disposition to any questions or concerns. I hope to have the opportunity to meet you and be able to find out more about your company and your vision.

Sincerely,
Louise Oberlin
