

What next, now we've declared a Climate Emergency?

Tasmanian bushfires 2019

Responding to the Emergency. Creating a liveable future.

At this moment, many people are feeling a deep concern about the future, in a world where governments (including our own) are failing to adequately address the existential threat of climate disruption.

Climate Emergency Declarations have been made all over the world, including Hobart, Kingborough and Launceston Councils and 54 others in Australia. What does this mean? What needs to happen next?

What does responding to the Climate Emergency look like in Tasmania right now?

This workshop will engage participants to answer that question.

David Spratt, co-author of 'Climate Code Red', climate-policy analyst, co-founder of the Carbon Equity Network, and Director of Breakthrough - National Centre for Climate Restoration will be guest speaker.

When: Saturday 9 Nov,
2.00-5.00pm.

Venue: Clarence Uniting Church, cnr Cambridge Rd and York St, Bellerive

By bus: [Metro timetable](#)

Book early to secure a place.
