ABOUT US

CAPD has been working in Colombia since 2000. Our objective is to provide vulnerable people with the training and assistance needed to improve their quality of life.

We accomplish our objective by working through Colombian non-profit organizations. In this way, we support local Colombian entities and strengthen their ability to be sustainable.

CAPD PROGRAMS

Green Light Education Assistance

Facilitates community initiatives to help low income students graduate from high school.

To date we have supported 8,107 students, the majority being from rural areas of Santander and La Guajira. As of 2018, 231 students graduated from high school.

Safer Water for Health

The Program has provided 7,000 BioSand water filters to rural families in Colombia. This water filter has a lifespan of 30 years.

Integration Program

CAPD supports Colombian disability organizations to promote opportunities for people with disability through therapy, recreation, education assistance, nutrition and small business initiatives such as wheelchair construction.
