

Introduction to Cluster Computing *and* High Performance Computing

Bi-weekly Seminar – Starting Fall Quarter 2016

First Meeting – Friday, September 30, 2016

1:30 – 2:30 pm

in Shields Library, Room 360

Open to all students, post-docs, staff, faculty

The seminar will be aimed at graduate students getting started in high performance computing and using HPC resources on the UC Davis Campus

Topics to be addressed include:

**SLURM, Software Repositories (GitHub), Makefiles, compiling code, optimizing code, profiling code...
suggestions on other topics welcome**

Sponsored by

Mathematical and Physical Sciences *and* the Data Science Initiative

E-mail: Prof. Magali Billen (Chair, MPS-Cluster Computing Committee)
mibillen@ucdavis.edu for questions **and to indicate plan to attend.**
