

CALL FOR PARTICIPATION

World Congress on Sustainable Technologies (WCST-2011)

Technical Co-Sponsored by IEEE UK/RI Computer Chapter

November 7-10, 2011, London, UK

www.wcst.org

The World Congress on Sustainable Technologies (WCST-2011) is a multidisciplinary congress, Technical Co-Sponsored by IEEE UK/RI Computer Chapter. The WCST bridging efforts across the natural, social and engineering sciences, the environment and development of communities. The congress covers a wide spectrum of topics that relate to sustainability, which includes technical and non-technical research areas. It also encourages sharing new knowledge in the field of sustainable technologies and the environmental impacts.

The mission of WCST-2011 is to provide the opportunities for collaboration and reflection that have the potential to greatly enhance the infrastructure and capacity for conducting and applying art, science and technology for sustainability. The WCST bridges the gap between academia and industry by creating awareness of current development in sustainable technologies.

The topics in WCST-2011 include but are not confined to the following areas:

- Sustainable Energy Technologies
- Renewable Energy Managements, Economics and Environmental Impact
- Education
- Green Computing
- Sustainable Building Design
- Sustainability and Policy
- Waste Management
- Research in Progress

The invited speakers:

Professor Robert M. Kalin, University of Strathclyde, UK

Professor Nik Bessis, University of Derby, UK

Professor Ian Williams, University of Southampton, UK
