-Graduated in computer applications
-with First Division 64.2%

12th
S.S. Kalibadi H.S. School, Raipur   Jul 2014 -Apr 2015
-Science(Physics, Chemistry, Mathematics)
-with Second Division 59%

10th
S.S. Kalibadi H.S. School, Raipur   Jul 2012 -Apr 2013
-with First Division 61%

PROJECTS

GLT-TOOL
- Spearheaded the development and implementation of a ticketing tool using Django that effectively solved the ticket generation problem faced by the helpdesk team.
- Streamlined the entire ticket generation process, resulting in enhanced efficiency and improved response time for the helpdesk team.
- Successfully deployed the ticketing tool, which is now live and catering to a user base of 10-12 individuals.

GLOITEL WEBSITE

- Played a pivotal role in successfully developing and launching Gloitel's live website. I worked as Back-End Developer.
- Contributed to both the frontend and backend aspects of the project as a full-stack developer.
- Collaborated with a cross-functional team to design and implement responsive user interfaces and backend functionality.

DEVSEARCH

- Created a community project called "DevSearch" to enhance my skills in Django and web development.
- The project aims to enable developers to share their projects with other developers, fostering collaboration and feedback.
- Implemented features that allow developers to contact the project uploader, provide reviews, post comments, and engage in chat discussions.
- Developed a user-friendly interface using Django, HTML, CSS, and JavaScript to ensure a smooth user experience..
- Continuously enhancing the project with new features and improvements to keep it dynamic and engaging.

GREEN HOUSE IOT

- Led the development of an IoT-based "Greenhouse Project," creating a website to collect and display greenhouse data using sensors
- Collaborated with a cross-functional team to design and implement responsive user interfaces and backend functionality.
- Implemented RESTful APIs to communicate between frontend and backend, ensuring real-time data updates.
- Conducted comprehensive testing and debugging to identify and resolve issues, resulting in a stable and reliable product.

BOOKMARK

- Implemented functionalities to extract and store images, enabling users to efficiently bookmark images within the application.

CERTIFICATES

- AWSomeDay Certificate of attendance.
- Python Django Complete Course.
- UI-path academy certificates.

HONORS & AWARDS

- Employee of the month, Gloitel Consulting PVT. LTD.
- Organizing Member at IDT-MDI held at Bhilai Institute of Technology, Durg
- Organizing Member at OJAs 2019 LAN gaming held at Bhilai Institute of Technology, Durg
