| 03/09E | 159,026 | 32,748 | 8.7 | 5.0 | 19.6 | 4.7 | 23.9 | 33.7 | 3.7 | 12.4 |
| 03/10E | 180,658 | 38,264 | 10.2 | 16.8 | 16.8 | 4.1 | 24.3 | 34.7 | 3.2 | 10.7 |

* ITC' s 3QFY09 results are below estimates. PAT at Rs9b (est Rs9.5b) was up $8.7 \%$. Net sales at Rs 38 b were up $11 \%$ YoY (est of Rs41.5b). EBIDTA at Rs 13.5 b increased $12.8 \%$ (v/s est of Rs13.8b); EBIDTA margin at $35.3 \%$ has expanded by 60 bp (est decline of 150 bp ) due to 50 bp decline in other expenditure.
\& Cigarette volumes declined $3.5 \%$ ( $3 \%$ in 9MFY09) due to higher base effect in 3QFY08. Net sales grew $17.7 \%$, PBIT grew $18 \%$ as PBIT margins expanded 10bp. Margin expansion reflected full impact of $10 \%$ price increase in Gold Flake brand. We are increasing FY09 cigarette volume decline estimate to $3 \%$ from $2 \%$.
\& New FMCG businesses sales grew $11 \%$ to Rs7.2b ( $5 \%$ decline QoQ), while PBIT losses increased $97 \%$ to Rs 1.27 b (Rs1.16b in 2QFY09). ITC has attributed lower sales growth to defocus on low margin products and impact of slowdown on lifestyle retailing and impulse fast foods.
\& Hotel business reported $14 \%$ decline in sales and $34 \%$ decline in PBIT as margin declined $10.25 \%$. Occupancy levels have declined from peak of $75-80 \%$ to $60 \%$, while ARRs are down 5-6\%. Agri business reported $6 \%$ decline in sales to Rs6.2b due to lower volumes of soya. However, higher realization in leaf tobacco exports enabled the division to report margin expansion of 350 bp .
* ITC' s focus seems to be shifting from topline growth to profitability. We believe cigarette and paper segments will continue to be key profit drivers in the near term. Hotels and new FMCG will continue to remain under pressure. We are cutting earnings estimates to factor in higher losses in new FMCG and profit decline in hotel business. Our revised estimates for FY09 and FY10 are Rs8.7 (v/s Rs9) and Rs 10.2 ( $\mathrm{v} / \mathrm{s}$ Rs 10.4) respectively. The stock trades at 19.6x FY09E EPS of Rs8.7 and 16.8x FY10E EPS of Rs 10.2. Maintain Buy.

Source: Company/MOSL

## Cigarette volumes decline 3.5\%

Cigarette volumes declined $3.5 \%$ ( $3 \%$ in 9MFY09) consequent to ITC discontinuing sale of non-filter cigarettes ( $19 \%$ of volumes). Volume decline was much higher than our expectation of $2 \%$ decline. The company has recently increased the price of its Gold Flake Premium from Rs27/10 cigarettes to Rs28/10, while price of Silk cut has been reduced by $8 \%$. The impact on sales and profits is not much as these brands constitute hardly $5-6 \%$ of volumes. We are increasing FY09 cigarette volume decline estimate to $3 \%$ from $2 \%$.

Cigarette business gross sales grew $10.5 \%$, while PBIT grew $18 \%$ as margin expanded 10bp. The business has been facing strong regulatory headwinds (VAT, excise on nonfilters and ban on smoking in public places) from past couple of years. Likely implementation of pictorial warnings will bring regulations at par with best in the world.

## Other FMCG - slowdown and margin focus retards topline growth

New FMCG businesses posted modest growth of $11 \%$ to Rs 7.2 b , while PBIT losses increased by $97 \%$ to Rs 1.27b (Rs1.16b in 2QFY09). PBIT margin declined 230bp QoQ and 761bp YoY.

Processed foods: Lower growth in processed foods was due to slowdown in urban demand for certain categories. Increase in raw material cost on the back of high fuel price impacted the margins of branded food category. The company has changed its strategy by focusing on consolidation of the portfolio in select high margin categories. ‘ Bingo!' product range reported flat growth, while other packaged food products posted modest growth.

Lifestyle re tailing: Lifestyle retailing has been impacted due to slowdown in the economy. ITC's apparel brand John Player has posted a year-on-year decline. Margin remained under pressure due to rising lease rental costs.

Personal care: ITC continues to expand its presence in this category and has extended its soaps brand to shampoos. It plans to increase offerings in order to gain footprint among the national branded players. The company has recently launched Vivel Ultrapro range of anti-dandruff shampoo. All the key brands like Fiama Di Wills, Vivel Di Wills, Vivel and Superia continued to gain consumer franchise. High raw material cost and increase in advertising spend has impacted the operating performance of the division and the trend is likely to continue in the coming quarter. We expect personal care products to gain momentum from 1QFY10.

## Agri business - Spurt in leaf tobacco prices boost operating performance

Agri business reported a $6 \%$ decline in sales to Rs6.2b due to lower volumes of soya and rationalization of the agri-commodity portfolio. PBIT grew $80 \%$ YoY to Rs502m as margin expanded 390 bp to $8.1 \%$. Higher realization in leaf tobacco exports enabled the division to report margin expansion despite $80 \%$ increase in price of Mysore leaf tobacco crop. The capital employed has declined due to reduced focus on commodity exports. The company has only added 3-4 Choupal Sagars in the current year, while e-Choupal has not been expanded. Future expansion of e-Choupal will be in line with requirement of raw materials from processed foods.

Source: Company/MOSL

## Hotels: Occupancies and room rents take a hit

Hotel business reported $14 \%$ decline in sales and $34 \%$ decline in PBIT as margin declined by $10.25 \%$. Slowdown in economy and terror strikes at Mumbai resulted in decline in occupancy levels to $60 \%$ as against $75-80 \%$ during the peak season. ARR (average revenue per room) also declined by $5-6 \%$ due to large number of cancellations. March quarter is expected to be better than 3 QFY09, although performance will continue to remain under pressure in the coming 2-3 quarters. New properties in Bangalore and Chennai are progressing as per the expectation of management and would commence operation from 1QFY09 and FY11 respectively.

Paper and paperboards: Rising input costs impact margin
Paper and paperboards reported $13.6 \%$ increase in sales and $6.1 \%$ decline in PBIT as margins declined by 300 bp , although QoQ margins expanded 40bp. Increase in depreciation on new writing paper unit and higher cost inventory of coal, fuel and pulp impacted margins. New (1lac ton pa) writing and printing paper unit and 1.2 lac ton pa pulp mill is now operational. Benefits from new units will start getting reflected from 4QFY09. The company has entered the copier paper segment in 7-8 markets and is currently taking the product national with focus on large institutional clients.

ITC has deferred proposed expansion of paperboard capacity by 80,000tpa and plans to fully scale up and stabilize current facilities. This will enable focus on high value segments and improve profitability.

## Valuation and view

ITC seems to be re-visitng its mega expansion plans after fast paced growth in past few years. The entire organisational focus seems to be shifting from topline growth to scaling up the businesses to the optimum and focus on profitability. Freeze on expansion in E Choupal, processed foods focus on high margin products and deferment of capacity expansion in paperboard give a strong indication of profitability focus. We believe that cigarette and paper business will continue to be key profit drivers in the near term while hotels and New FMCG will continue to remain under pressure. We are cutting earnings estimates to factor in higher losses in New FMCG and profit decline in hotel business. Our revised EPS estimate for FY09 is Rs8.7 (v/s Rs8.95 earlier; cut of $2.8 \%$ ) and FY10 is Rs 10.2 ( $\mathrm{v} / \mathrm{s}$ Rs 10.4 earlier, cut of $2 \%$ ). ITC trades at $19.6 x$ FY09 EPS and 16.8x FY 10E EPS. Buy.

## ITC: an investment profile

## Companydescription

ITC is an associate of BAT (British American Tobacco) controls more than $2 / 3^{\text {rd }}$ of the cigarette market in India. ITC has emerged as a diversified conglomerate with leading presence in Paperboards, Hotels and Processed foods. EChoupal, the agri rural initiative of the company has been widely appreciated for its foresight in harnessing the potential in the rural market.

## Key investment arguments

* Strong pricing power due to dominant market share in the cigarettes
* Hotels and Paperboard businesses have achieved self sustenance levels
* Fastest growing company in the processed food sector
* Excellent long term potential in its rural initiative of E Choupal and Choupal Sagar

## Key investment risks

A high indirect tax regime could dampen cigarette growth.
Higher than expected losses in New FMCG business will impact profitability.

## Recent developments

## \& Nil

## Valuation and view

\& Our revised estimates for FY09 and FY10 are Rs8.7 ( $\mathrm{v} / \mathrm{s}$ Rs9) and Rs 10.2 ( $\mathrm{v} / \mathrm{s}$ Rs 10.4) respectively.
\& The stock trades at 19.6x FY09E EPS of Rs8.7 and 16.8x FY 10E EPS of Rs 10.2. Maintain Buy.

## Sector view

\& We have a cautious view on the sector on the back of inflationary tendency in the economy, which might impact volumes as well as profit margins of companies.
\& Companies with low competitive pressures and broad product portfolios will be able to better withstand any slowdown in a particular segment.
\& Longer-term prospects are bright, given rising incomes and low penetration.
