WS Industries manufactures Porcelain insulators [Capacity 16,000 MTs] used for transmission & Distribution of power. It is further expanding the capacity by 8,000 MTs at Rs 110 Crs, which is expected to go on stream by April'08. Company is second big player in									
Indian market, after market leader Birla NGK Insulators. It had a technical and marketing agreement with the US-based <b>PPC Insulators</b> , the									
second-largest insulator manufacturer in the world, under which the latter will provide necessary technical inputs for the new plant and									
make high capacity insulators, disc insulators and direct current insulators. On the marketing side, the American company will									
source substation insulators of up to 171 kv for its overseas markets from W S Industries. In return, WS Industries will market a									
higher voltage range of products (400kV) made by PPC Insulators in India and neighbouring countries. The domestic insulator industry is worth around Rs666 crore, and is growing at 20 per cent. Official projections say that by 2012, the									
length of transmission line									
Thus there is a huge grow	-
