SENSEX DLY CHART

Market opened higher and traded in a narrow range throughout the session to close with marginal gain. On the daily chart, we are witnessing a narrow range body formation which clearly indicates indecisiveness prevailing at current levels. We are of the opinion that once indices trade and close above the near term resistance of 18315 / 5480 levels which is the 78.6% retracement of the entire down move from 21206 to 7697 / 6357 to 2252 levels then they are likely to test 18370 – 18500 / 5500 to 5550 levels in coming trading sessions. On the down side 17838 / 5350 level remains crucial support for the markets.
