## DAILY TECHNICAL

## NIFTY OUTLOOK 5531

NIFTY opened on a positive note and observed a profit booking from day high caused for 87 points intraday dip in first half. However bulls regained all the losses to close at 5531 with marginal gain of 10 points. On the sector front, Realty was the only major gainer with $1.70 \%$. NIFTY AD ratio remained balanced with 26 Advances and 24 Declines.

Yesterday's price action formed a 'Doji' formation with lower shadow indicative of directionless clue for the coming session. With previous session low, prices bounced from the lower end of the channel's support. For the day, Doji's high-low levels will act as trend deciding levels. If NIFTY trades below the immediate support of 5515 , then a further downside can observed in the range of 5460-40. On the upside 5565 will remain as resistance.
