SENSEX DLY CHART

Markets opened on a positive note and momentum on the upside registered a new 52 – week high of 19487 / 5838 to close in green. There is at present no weakness on the daily charts, but since the prices are far away from the shorter term moving average a consolidation or a pull back up to 19200 – 19046 / 5750 – 5720 could be expected. However, if indices trade convincingly above 19487 / 5838 levels then it is likely to test 19570 – 19660 / / 5870 – 5900 levels.
