Torrent Pharma

| In-line quarter, sequential improvement in core margins encouraging

Torrent Pharma's (TPL) Q3FY11 results were in line with estimates. Export formulations witnessed a growth of 19%, led by US (32% growth to Rs 355mn), Germany (15% growth, Rs 760mn) and Latin America (14% growth to Rs 1bn). Domestic formulations reported a growth of 17%, marginally below estimates, impacted by weak October '10 sales for the industry. Other operating income has a forex gain of Rs 70mn as against Rs 35mn in Q3FY10.

Gross margins declined 100bps to 69.3%, mainly impacted by weak margins from Germany (tender-based competitive market) and currency fluctuations. Core EBITDA margins have been under some pressure in the last few quarters, impacted by investments in the domestic market (addition of over 1,000 medical reps to 3650 and increasing SG & A costs) and exports—US (filed 4 ANDAs this quarter, approved 25 till date, likely to break even in FY12), Mexico (recently entered) and it plans to enter Romania and UK shortly. Core EBITDA margins declined 350bps YoY to 16.6%, but have improved 70bps sequentially, which is an encouraging sign.

We believe that margin pressure could last for another one or two more quarters before we start seeing the benefits of the investments coming through some time in H2FY12. The company is also incurring a capex of Rs 3-Rs 3.5bn annually for setting up a formulation facility at Dahej and increasing its API capacity. We introduce FY13E numbers and marginally cut our FY12E numbers. We estimate a robust earnings growth of 20% over FY11-FY13, driven by India, US, Brazil and emerging markets. Contribution from the supply agreement with Astra Zeneca (18 products for 9 branded generic markets) is likely to start in FY13. We maintain our price target of Rs 667, valuing the stock at 14x 1-year forward earnings. We maintain our BUY rating on the stock.

Rating Rationale

BUY and SELL recommendations are used to draw attention to stocks, which we believe are under-priced or over-priced by circa 15%, that is, price differential of +/- 15% between our price target and the market price. Stocks which do not achieve this price differential are NEUTRAL. Price targets are established in the context of a flat market.

Disclosures and Disclaimers

MF Global Sify Securities India Pvt. Ltd. has three independent equity research groups: Institutional Equities, Institutional Equities Derivatives and Private Client Group. This report has been prepared by Institutional Equities Research.
