VIEW POINT: IN NEUTRAL TERRITORY

The buoyancy of the European markets helped raise the settlement level of February derivatives. The discount of 20 points at close, however, tells you that the carry over has a negative bias. But at the beginning of the new settlement, we should look at fresh cues and not get overwhelmed by what happened in the last.

The US markets surrendered their early gains on Thursday as economists and analysts, who appeared before the Congress put the Bernanke presentation into the shredding machine as they questioned the wisdom of giving banks more time to put their houses in order. Crude rose despite Obama's green leaning in his budget and that should buoy our refineries and the upstream oil companies. At this point of time, there is an iron gate at 2880, which the Nifty can't open and on the lower side it has support at 2650.

AT THE STREET

Analysts don't buy Bernanke's 'All will be well' story

After a two session presentation by Bernanke, it was the turn of the Economists and Financial analysts to appear before the Congress.

Analysts told the Congress that :

- These rescue packages will not work
- The Government must quickly decide which banks must die
- There is no need to give extra time now
- There is no reason to believe that lending by banks will be restored

ECONOMIC NEWS

Trade policy sops fail to import cheer

The interim trade policy announced by commerce and industry minister Kamal Nath on Thursday contained several measures to boost the country's exports, but fell woefully short of expectations of the recession-hit exporting community. The policy, which addressed the tight credit situation and slowdown in demand faced by exporters, came up with incentives for the leather and textile sector, eased trade restrictions on the gems & jewellery industry and relaxed export obligations. The minister also scaled down the country's export target for the current fiscal year from \$200 billion to \$170-175 billion. Mr Nath singled out textiles and leather—the sectors hit most by the downturn—for special treatment and announced new promotional schemes worth Rs 325 crore for the next fiscal year. The policy also lavished attention on the gems & jewellery sector, one of the most affected by the global recession.

Inflation at 14-month low

Headline inflation rate fell to a 14-month low of 3.36 per cent for the week ended February 14 this year due to decline in prices of manufactured goods. The second-round impact of fuel price cuts is cited as one reason for accelerated fall in the Wholesale Price Index (WPI) - based inflation rate, which is expected to reduce even further after the recent cuts in excise duty and service tax. Food inflation rate fell to the single digit level of 9.85 per cent compared with 10.4 per cent in the previous week.

CORPORATE NEWS

Nano to roll out on March 23

The world's cheapest car, the widely-awaited Nano, will be launched on March 23, Tata Motors said on Thursday. The company will display the Nano at dealerships from the first week of April and will accept bookings from the second week of April.

DLF raises Rs 2k cr to repay short-term loans

DLF, India's largest-listed property developer by market cap, has raised over Rs 2,000 crore from Punjab National Bank (PNB), Life Insurance Corporation (LIC), State Bank of India (SBI) and Bank of India (BoI) in the past one month to repay short-term debt, a company official said. The company had earlier raised Rs 1,000 crore in debt from PNB in the December quarter. All these loans are long-term loans for a period exceeding three years, and at an average rate of interest of 14%.

Board may allow non-IT firms to bid for Satyam

The government-appointed board of Satyam Computer Services on Thursday decided to allow non-IT firms to join the race to buy the software firm. PE firms with a partner will also qualify as bidders, said a person privy to the development.

The move comes as something of a surprise, as the Satyam board had earlier contemplated making prior experience in the IT sector a qualification criterion, as reported in this paper. But it was finally reckoned that the norm would have been restrictive, given that only a clutch of IT firms has shown interest in acquiring Satyam. It would have also disqualified PE firms from bidding.

GAIL in talks with Shell to import LNG cargo for Dabhol

State-run GAIL India is in talks with Shell to import one LNG cargo for commissioning the Dabhol LNG terminal, meant to feed the adjoining power plant.

CLB rules out mismanagement at Maytas Infra

The government's attempt to replace the board of the infrastructure firm run by the elder son of Satyam Computer Services founder B Ramalinga Raju appeared to suffer a setback on Thursday after the Company Law Board (CLB) said that it saw no mismanagement in Maytas Infra. It also suggested the naming of new independent directors to represent lenders — IDBI Bank and ICICI Bank. The CLB also said that it would not allow infrastructure development and finance company IL&FS, which owns a 37% stake in Maytas Infra, to get a seat on the board because it is a competitor.

Scrap from Alang may bring down steel prices

The increasing ship-breaking activity at the country's largest ship-breaking yard, Alang, may cause a fall in steel prices, with hundreds of tonnes of scrap steel from the yard hitting the market.

ONGC to extend vessel deals at old contract rates

Faced with delays in supply of offshore supply vessels (OSVs) for its oil and gas exploration operations, ONGC has decided to cancel tenders for the vessels and extend vessel contracts on a nomination basis at old contract rates. This is expected to benefit Indian shipping companies such as Shipping Corporation of India, Great Eastern Shipping, Great Offshore and Varun Shipping, which have their OSVs on charter with ONGC.

Great Eastern Shipping to trim its \$600-mn order book

Great Eastern (GE) Shipping, India's largest private sector shipping company, is negotiating with shipyards to cut a part of its order book of 10 ships worth about \$600 million (Rs 3,000 crore) to overcome the downturn in the freight rate for dry bulk carriers and tankers.

The Mumbai-based freight carrier has been already trimming its fleet size with selling its existing vessels. It has sold five bulk carriers and one tanker since November. Besides, it has cancelled the order of two dry bulk carriers worth \$76 million (Rs380 crore) with the Chinese shipyards.

ACROSS THE ATLANTIC

Gains in the US stocks fizzled out Thursday amidst a sea of gloomy economic news and President Obama unveiling his \$ 3 trillion budget. Even as the banking sector held up, Pharma slipped.

The **Dow Jones Industrial Average** gave up 88.81 points, or 1.2%, to 7182.08. The **S&P 500** was off by 12.07 points, or 1.6%, to 752.83. The **Nasdaq** slid 33.96 points, or 2.4%, to 1391.47.

Health insurers and pharma stocks were widely lower, as investors reacted to sharp cost-cutting in President Obama's proposed budget. Pharmaceutical company **Merck** was the worst performer among the Dow components, down 6.7% at \$26.04.

WellPoint gave up 9.7%; **Aetna** lost 11.3%; and **Humanashed** 19.5%.

JP Morgan, the Dow's strongest component, added 6.1% to \$23.05. On the whole, banks outpaced the market, with the **KBW banking index** up 5.4%, despite a hiccup after a report by the Federal Deposit Insurance Corp.

The **FDIC** said the commercial banks and savings institutions it insures reported a net loss of \$26.2 billion in the fourth quarter of 2008, a decline of \$27.8 billion from the year-ago quarter, and the first quarterly loss since 1990.

Regulators said there were 252 banks in trouble at the end of 2008, up from 171 in the third quarter.

President Obama has indicated that troubles aren't close to over for struggling banks in the U.S., and has included in the proposed budget provision for providing an extra \$250 billion, atop the \$700 billion already allocated, for troubled banks and businesses, according to a report by the Associated Press.

One of the government's first bailout projects, **AIG** is reportedly in advanced talks with U.S. officials over a restructuring that would divide the firm into at least three government-controlled divisions in an attempt to keep it afloat, according to a British daily. Shares were up 13% to 52 cents.

A more recent beneficiary of the bailout efforts, **General Motors**, reported Thursday that it lost \$9.6 billion in the fourth quarter as revenue plunged 34%, and will require more government funding to stay afloat. Its shares gave up 6.7% to \$2.38.

Jobless claims, rose far more than expected last week, rising to 667,000 from 631,000. The number of people receiving unemployment insurance for more than one week also surpassed expectations, coming in at 5.1 million, the fifth straight record-setting week on data going back to 1967.

Also, the **Commerce Department** said **home sales** fell more sharply than expected to 309,000 in January from 341,000 in December, the lowest on record dating back to 1963. The median house price was \$201,000, 13.5% lower than a year prior. And while inventory of available homes for sale in January was the lowest in more than five years, at 342,000, supply is now at a record-high 13.3 month's worth, because of sluggish sales.

Then, in its latest report on US factory activity, the **Commerce Department** said that **orders for big-ticket goods** declined by 5.2% in January, outpacing expectations, as global economic troubles affected a broad base of orders, including autos, metal products, machinery, computers, and household appliances.

In commodities, **oil** rose \$2.72 to settle at **\$45.22**, while **gold** fell \$23.60 to settle at **\$942.60** an ounce.

The dollar was slightly weaker against the yen, and stronger vs. the pound and euro.
