MARKET SUMMARY

Markets remained uncertain today having FED's FOMC meeting later on today in the US. Though bourses had opened on a strong note, indices soon retreated to touch the dotted line followed by a strong buying that saw benchmark indices sustaining at higher level for larger part of the day. Markets however did witness some volatility towards the end of the session when indices had given up ground once again and then recovered to end comfortably higher than yesterday's close.

Metal Index was the out performer advancing 3.4% followed by Oil & Gas and PSU Index. On the other hand, Capital Goods index shed more than a percent. On Sensex when REL and Ranbaxy gained 4.3% and 2.9% respectively, HUL slid 5.2%. The number of gainers on BSE was almost equal to the number of losers leading to advance decline ratio of 1.
