The money raised will be utilized mainly for setting up a Data recovery Center (DRC) in India with capacity of 225 seats, and also for a probable strategic acquisition in European market. However, ADSL is still in the process of due diligence of the target company (operating in European market). The capex for setting up DRC would be about US\$ 9-10 mn.

## **OUTLOOK & VALUATION**

ADSL has delivered decent performance during 9MFY10, mainly due to its high focus on RMS & IMS segments. During the period, ADSL through its US subsidiary EPGS, has been successful in striking alliances with networking majors to provide NOC services to their clients. During Q1FY10, the Company had made an alliance with Lenovo (OEM - PC server manufacturer) to provide remote management services to their customers, which has already started contributing to its Revenues & is expected to contribute meaningfully from Q4FY10. ADSL has strong order book of Rs.5370 mn. Moreover, the Company is looking at an acquisition opportunity in European market, which could be EPS accretive. ADSL also plans to double the capacity of its current NOC/SOC facility in India by adding 225 seats. Going forward, with strong 9MFY10 performance, we have increased our Revenues estimates for FY10E & FY11E, however, considering it's slightly lower than expected EBIDTA margins for 9MFY10, we have largely maintained our APAT estimates for FY10E & FY11E. We now expect its FY10E & FY11E Revenues to grow by 24.6% & 19.1% to Rs. 6,925.5 mn & Rs. 8,245.7 mn respectively and its FY10E & FY11E APAT to grow by 43% & 27.5% to Rs. 1,016.3 mn & Rs. 1,353.3 mn respectively. At the CMP of Rs. 231, the stock is available at 10.1x & 7.9x of its FY10E & FY11E earnings of Rs. 22.9 & Rs. 29.2 respectively, which we believe is very attractive. We maintain our "BUY" rating on the stock, with target price of Rs. 292.
