## Lupin

## Strong sales in advanced market

- Strong growth in revenues due to higher US sales: Revenue of Lupin grew by $42.4 \%$ - from Rs7.55bn to Rs10.6bn (we expected Rs9.63bn). This was due to a strong growth of $82.4 \%$ YoY in the advanced market and addition of revenue from the Japanese market which was very low in Q4FY08. However, overall sales growth was affected by a de-growth in the API segment by $53.1 \%$ - from Rs2.9bn to Rs1.07bn. Domestic formulation grew at a healthy rate of $16.1 \%$ - from Rs2bn to Rs2.3bn.
- Improved margins due to lower other expense: EBITDA margin of the company for the quarter was $20.1 \%$ as compared to $15.2 \%$ in Q4FY08 (we expected $21.3 \%$ ). The deviation is due to a higher-than-expected material cost. This cost was high due to higher proportion of contractual work as well as significant increase in the purchase of traded goods. The tax rate for the quarter reduced from $22.0 \%$ to $7.9 \%$ while for FY 09 , the tax rate reduced from $24.4 \%$ to $16.2 \%$ This is mainly due to an increase in the sales from the manufacturing facility of J ammu. Thus, PAT for the quarter increased from Rs904m to Rs1.6bn.
- Outlook \& Valuation: USFDA issued a second warning letter to Lupin for cephalosporin facility of the Mandideep plant. There was no new issue raised by USFDA. However, they want Lupin to submit additional documentation and explanation for few selected observations on the previously submitted data. This ongoing inspection by USFDA would not impact the existing production or supply. However, the warning letter remains a dampener despite Lupin's strong performance for the quarter as well as for the year. We expect sales and net profit to grow at a CAGR of $15 \%$ and $20 \%$ respectively. At the CMP, the stock trades at $11.1 x$ FY10E and 9x FY11E, respectively. We maintain 'BUY' rating on the stock.
